CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This prospectus supplement and the accompanying prospectus, including the documents that are incorporated by reference as set forth in Incorporation of Certain Documents by Reference, contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1993, as amended (the Securities Act) and Section 21E of the Exchange Act of 1934, as amended (the Exchange Act). Such statements relate to, among other things, capital expenditures, cost reductions, cash flow, and operating improvements and are indicated by words or phrases such as anticipate, estimate, plans, expects, projects, management believes, the Company believes, the Company intends and similar words. Such statements are subject to inherent uncertainties and risks which could cause actual results to differ materially from those anticipated as of the date of this prospectus. The risks and uncertainties include, but are not limited to, the following:

economic and political consequences resulting from the September 11, 2001 terrorist attacks;

levels of industrial activity and economic conditions in the U.S. and other countries around the world; pricing pressures and other competitive factors and levels of capital spending in certain industries, all of which could have a material impact on order rates and our results, particularly in light of the low levels of order backlogs we typically maintain;

our ability to integrate and operate acquired businesses on a profitable basis;

the relationship of the U.S. dollar to other currencies and its impact on pricing and cost competitiveness;

interest rates;

utilization of our capacity and the effect of capacity utilization on costs;

labor market conditions and materials costs; and

developments with respect to contingencies, such as litigation and environmental matters.

The forward-looking statements included herein are only made as of the date of this prospectus supplement and we undertake no obligation to publicly update such forward-looking statements to reflect subsequent events or circumstances.

SUMMARY

The following summary may not contain all of the information that is important to you. You should read the following summary together with more detailed information regarding us and the common stock being sold in this offering and our financial statements and notes thereto which are incorporated by reference in this prospectus supplement.

The Company

We manufacture an extensive array of engineered industrial products sold to customers in a variety of industries around the world. We believe that each of our principal business units holds the number-one or number-two market share position in each unit's niche market. We also believe that our consistent financial performance has been attributable to the manufacture of quality products designed and engineered by us, coupled with our ability to identify and successfully integrate strategic acquisitions. IDEX consists of three reportable business segments: Pump Products Group, Dispensing Equipment Group, and Other Engineered Products Group.

Pump Products Group

The Pump Products Group produces a wide variety of pumps, compressors, flow meters and related controls for the movement of liquids, air and gases. The devices and equipment produced by this group are used by a large and diverse set of industries including chemical processing, machinery, water treatment, medical equipment, liquid petroleum distribution, oil and refining, food and beverage, biotech, and drug processing. The seven business units that comprise this group are Gast Manufacturing, Liquid Controls, Micropump, Pulsafeeder, Rheodyne, Viking Pump, and Warren Rupp.

Dispensing Equipment Group

The Dispensing Equipment Group produces highly engineered equipment for dispensing, metering and mixing colorants, paints, inks and dyes; refinishing equipment; and centralized lubrication systems. This equipment is used in a variety of retail and commercial industries around the world. This group provides equipment, systems, and services for applications such as tinting paints and coatings, industrial and automotive refinishing, and the precise lubrication of machinery and transportation equipment. The three business units that comprise this group are FAST, Fluid Management and Lubriquip.

Other Engineered Products Group

The Other Engineered Products Group produces firefighting pumps, rescue tools and other components and systems for the fire and rescue industry, and engineered banding and clamping devices used in a wide variety of industrial and commercial applications. The two business units that comprise this group are Hale Products and Band-It.

Our Address

We are incorporated in Delaware, and our principal executive office is located at 630 Dundee Road, Northbrook, Illinois 60062 and our telephone number is (847) 498-7070.

2003			
First Quarter (through January 14, 2003)	\$ 34.50	\$ 29.60	

Our board of directors has declared a regular quarterly dividend of \$.14 per common share for the fourth quarter of 2002. The cash dividend will be paid on January 31, 2003 to shareholders of record on January 15, 2003. Our common stock is also listed and traded on the Chicago Stock Exchange under the symbol IEX. As of December 31, 2002, there were approximately 1,100 shareholders of record of our common stock.

DIVIDEND POLICY

The declaration of future dividends, subject to certain limitations, is within the discretion of the board of directors and will depend upon, among other things, our future earnings and financial condition, liquidity and capital requirements. In addition, our revolving credit facility expiring in June 2006, the receivables facility expiring in December 2003 and the indenture for the senior notes due in February 2008 permit the payment of dividends only to the extent that no default exists under these agreements, and limit the amount of cash dividends in accordance with specified formulas. At September 30, 2002, under the most restrictive of these provisions, we had approximately \$138 million available for the payment of cash dividends in the future.

UNDERWRITING

Banc of America Securities LLC is acting as underwriter. Subject to the terms and conditions stated in the underwriting agreement among us, the selling shareholder and the underwriter dated the date of this prospectus supplement, the underwriter has agreed to purchase, and the selling shareholder agreed to sell to the underwriter, 1,350,000 shares of common stock.

The underwriting agreement provides that the obligations of the underwriter to purchase the shares included in this offering are subject to approval of legal matters by counsel and to other conditions. The underwriter is obligated to purchase all the shares if it purchases any of the shares.

The underwriter proposes to offer some of the shares directly to the public at the public offering price set forth on the cover page of this prospectus supplement. If all of the shares are not sold at the initial offering price, the underwriter may change the public offering price and the other selling terms.

We, and the selling shareholder, have agreed that, for a period of 30 days from the date of this prospectus supplement, we and it will not, without the prior written consent of Banc of America Securities LLC, dispose of or hedge any shares of our common stock or any securities convertible into or exchangeable for our common stock. Banc of America Securities LLC in its sole discretion may release any of the securities subject to these lock-up agreements at any time without notice. This lockup provision does not apply to securities issued pursuant to existing reservations, agreements and incentive stock plans, including securities convertible into our common stock, and any common stock that we may issue as consideration pursuant to any acquisitions so long as recipients of such shares in any acquisition agree to be subject to these same restrictions.

Our common stock is listed on the New York Stock Exchange and the Chicago Stock Exchange under the symbol IEX.

The following table shows the underwriting discounts and commissions to be paid to the underwriter by the selling shareholder in connection with this offering.

Per Share	\$	0.10
Total	\$	135,000

In connection with the offering, Banc of America Securities LLC may purchase and sell shares of common stock in the open market. These transactions may include short sales, covering transactions and stabilizing transactions. Short sales involve sales of common stock in excess of the number of shares to be purchased by the underwriter in the offering, which creates a short position. The underwriter must close out any short position by purchasing shares of common stock in the open market. A short position is more likely to be created if the underwriter is concerned that there may be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of bids for or purchases of shares in the open market while the offering is in progress.

Any of these activities may have the effect of preventing or retarding a decline in the market price of the common stock. They may also cause the price of the common stock to be higher than the price that would otherwise exist in the open market in the absence of these transactions. The underwriter may conduct these transactions on the New York Stock Exchange or in the over-the-counter market, or otherwise. If the underwriter commences any of these transactions, it may discontinue them at any time.

The expenses of the offering, not including underwriting discounts, are estimated to be approximately \$450,000 and will be paid by us.

The underwriter has performed investment banking and advisory services for us from time to time for which it has received customary fees and expenses. The underwriter is also an affiliate of a lender under our revolving credit facility. The underwriter and its affiliates may, from time to time, engage in transactions with and perform services for us in the ordinary course of their business.

A prospectus in electronic format may be made available on websites maintained by the underwriter. The underwriter may agree to allocate a number of shares for sale to its online brokerage account holders. In addition, shares may be sold by the underwriter to securities dealers who resell shares to online brokerage account holders.

We and the selling shareholder have agreed to indemnify the underwriter against certain liabilities, including liabilities under the Securities Act of 1933, or to contribute to payments the underwriter may be required to make because of any of those liabilities.

Certain of our former and current officers and key employees have piggy back registration rights pursuant to shareholder purchase and sale agreements, which permit them to require us to register a portion of their shares of common stock under the Securities Act to permit the public sale of their shares in connection with any registration of KKR Associates, L.P.'s common shares pursuant to the registration rights agreement described in the accompanying prospectus. Each of these former or current officers or key employees were given notice of this offering, and none of them exercised their piggy back registration rights in connection with this offering.

LEGAL MATTERS

The validity of the common stock offered hereby will be passed upon by Latham & Watkins, Chicago, Illinois. Shearman & Sterling, New York, New York, has acted as counsel for the underwriter in connection with certain legal matters related to this offering.

RISK FACTORS

You should carefully consider the following risks and uncertainties and all other information contained in this prospectus, including the documents incorporated by reference, before you decide whether to purchase our common stock. Any of the following risks, if they materialize, could adversely affect our business, financial condition and operating results. As a result, the trading price of our common stock could decline, and you could lose all or part of your investment.

Risk Factors Relating to Our Business

Continued terrorist attacks, war or other disturbances could lead to further economic instability and decreases in demand for our products and could have a material adverse effect on our business, financial condition and results of operations.

The terrorist attacks of September 11, 2001 caused instability in the global financial markets. The disruption of our business as a result of the terrorist attacks of September 11, including a decrease in customer demand for our products, had an immediate adverse impact on our business. Our business activity levels in the third and fourth quarters last year dropped significantly as a result of these attacks. Since we operate with a very small backlog of unfilled orders, reductions in order activity very quickly reduce our sales and profitability. The long-term effect of the September 11 attacks on our business are unknown. These attacks and potential war in the Middle East may lead to additional armed hostilities or to further acts of terrorism and civil disturbance in the U.S. or elsewhere, which may further contribute to economic instability and could have a material adverse effect on our business, financial condition and results of operations.

We face risks from the uncertainty of prevailing economic conditions. Any decrease in customer demand for our products as a result of market downturns could have a material adverse effect on our business, financial condition and results of operations.

In 2001, the U.S. and other world markets experienced a significant downturn and many of the markets that we serve were affected. As a result of this downturn, customer demand decreased and our business and financial results were adversely affected. The impact of decreased demand for our products on our results is typically immediate given the low level of order backlogs we maintain. Lower demand also negatively affects our capacity utilization and the effect of capacity utilization on our costs could reduce our operating margins. If this economic slowdown were to continue for an extended period or if conditions were to worsen, the negative impact on our business and financial results could be further exacerbated. It is difficult for us to predict when and to what extent the markets we serve will recover.

Our growth strategy includes acquisitions and we may not be able to make acquisitions of suitable candidates or integrate acquisitions successfully.

Our markets primarily include mature industries. As a result, our historical growth has depended, and our future growth is likely to continue to depend, in large part on our acquisition strategy and the successful integration of acquired businesses into our existing operations. We intend to continue to seek additional acquisition opportunities both to expand into new markets and to enhance our position in existing markets throughout the world. We cannot assure you, however, that we will be able to successfully identify suitable candidates, negotiate appropriate acquisition terms, obtain financing which may be needed to consummate such acquisitions, complete proposed acquisitions, successfully integrate acquired businesses into our existing operations or expand into new markets. In addition, we cannot assure you that any acquisition, once successfully integrated, will perform as planned, be accretive to earnings, or prove to be beneficial to our operations and cash flow.

Acquisitions involve numerous risks, including difficulties in the assimilation of the operations, technologies, services and products of the acquired companies and the diversion of management's attention from other business concerns. Although our management will endeavor to evaluate the risks inherent in any particular transaction, we cannot assure you that we will properly ascertain all such risks. In addition, prior acquisitions have resulted, and future acquisitions could result, in the incurrence of substantial additional

indebtedness and other expenses. Once integrated, acquired operations may not achieve levels of revenues, profitability or productivity comparable with those achieved by our existing operations, or otherwise perform as expected. We cannot assure you that our continuing acquisition strategy will not have a material adverse effect on our business, financial condition and results of operations.

The markets we serve are highly competitive and our competition may have greater resources than us. This competition could limit the volume of products that we sell and reduce our operating margins.

Most of our products are sold in competitive markets. We believe that the principal points of competition in our markets are product quality, price, design and engineering capabilities, product development, conformity to customer specifications, quality of post-sale support, timeliness of delivery, and effectiveness of our distribution organization. Maintaining and improving our competitive position will require continued investment by us in manufacturing, engineering, quality standards, marketing, customer service and support, and our distribution networks. We cannot assure you that we will have sufficient resources to continue to make such investments or that we will be successful in maintaining our competitive position. Our competitors may develop products that are superior to our products, or may develop methods of more efficiently and effectively providing products and services or may adapt more quickly than us to new technologies or evolving customer requirements. Certain of our competitors are subsidiaries of larger, more diversified corporations and may have greater financial, marketing, production and research and development resources than us. As a result, they may be better able to withstand the effects of periodic economic downturns. Pricing pressures could also cause us to adjust the prices of certain of our products to stay competitive. We cannot assure you that we will be able to compete successfully with our existing competitors or with new competitors. Failure to continue competing successfully could adversely affect our business, financial condition and results of operations.

Significant movements in foreign currency exchange rates may harm our financial results.

We are exposed to fluctuations in foreign currency exchange rates, particularly with respect to the euro and the British pound. Any significant change in the value of the currencies of the countries in which we do business against the U.S. dollar could affect our ability to sell products competitively and control our cost structure, which could have a material adverse effect on our business, financial condition and results of operations. We seek to minimize the risk from these foreign currency exchange rate fluctuations principally through invoicing our customers in the same currency as the source of the products. However, we cannot assure you that our efforts to minimize these risks will be successful.

Political and economic conditions in foreign countries in which we operate could adversely affect us.

In the nine-months ended September 30, 2002, approximately 42% of our total sales were international sales. We expect international operations and export sales to continue to contribute materially to earnings for the foreseeable future. Both the sales from international operations and export sales are subject in varying degrees to risks inherent in doing business outside the United States. Such risks include, without limitation, the following:

possibility of unfavorable circumstances arising from host country laws or regulations;

risks of economic instability;

partial or total expropriation;

currency exchange rate fluctuations and restrictions on currency repatriation;

potential negative consequence from changes to significant taxation policies;

the disruption of operations from labor and political disturbances;

changes in tariff and trade barriers and import or export licensing requirements;

insurrection or war; and

potential negative consequences from the requirements of partial local ownership of operations in certain countries.

We cannot assure you of the impact on us if such events occur in the future.

We are exposed to potential environmental liabilities and litigation. Compliance with environmental regulations could require us to discharge environmental liabilities, increase the cost of manufacturing our products or otherwise adversely affect our business, financial condition and results of operations.

Our past and present business operations and the past and present ownership and operations of real property by us are subject to extensive and changing federal, state, and local environmental laws and regulations, as well as those of other countries, pertaining to the discharge of materials into the environment, the handling and disposition of wastes (including hazardous wastes) or otherwise relating to protection of the environment. In the future, we may be identified as a potentially responsible party and be subject to liability under applicable law. We have experienced, and expect to continue to experience, costs to comply with environmental laws and regulations. In addition, new laws and regulations, stricter enforcement of existing laws and regulations, the discovery of previously unknown contamination or the imposition of new clean-up requirements could require us to incur costs or become the basis for new or increased liabilities that could have a material adverse effect on our business, financial condition and results of operations.

We use and generate hazardous substances and wastes in our operations. In addition, many of our current and former properties are or have been used for industrial purposes. Accordingly, we are conducting investigation and remediation activities at several on-site and off-site locations. We may be subject to potential material liabilities relating to any investigation and clean-up of contaminated properties and to claims alleging personal injury.

We could be adversely affected by rapid changes in interest rates.

Our profitability may also be adversely affected during any period of unexpected or rapid increase in interest rates. At September 30, 2002, we had \$249.6 million of total debt outstanding, of which approximately 39% was priced at interest rates that float with the market. A 50 basis point increase in the interest rate on the floating rate debt would result in an approximate \$490,000 annualized increase in interest expense and decrease in cash flows. We will from time to time enter into interest rate swaps on our debt when we believe there is a clear financial advantage in doing so. As of September 30, 2002, we had no interest rate swaps in place.

Our intangible assets are valued at an amount greater than our net worth and a write-off of our intangible assets could cause us to have negative net worth.

Our total assets reflect substantial intangible assets, primarily goodwill. At September 30, 2002, goodwill totaled \$518.6 million compared to \$500.5 million of shareholders' equity. The goodwill results from our acquisitions, representing the excess of cost over the fair value of the tangible assets we have acquired. At each balance sheet date, we assess whether there has been an impairment in the value of our intangible assets. If future operating performance at one or more of our business units were to fall significantly below current levels, we could reflect, under current applicable accounting rules, a non-cash charge to operating earnings for goodwill impairment. Any determination requiring the write-off of a significant portion of unamortized intangible assets would negatively affect our results of operations and total capitalization, which effect could be material. As of September 30, 2002, we have determined that no impairment existed.

Our business could suffer if we are unsuccessful in negotiating new collective bargaining agreements.

As of September 30, 2002, we had approximately 3,850 employees. Approximately 15% of our employees are represented by unions with various contracts expiring through March 2005. Although we believe that our relations with our employees are good and we have not experienced any recent strikes or work stoppages, we cannot assure you that we will be successful in negotiating new collective bargaining agreements, that such negotiations will not result in significant increases in the cost of labor or that a

breakdown in such negotiations will not result in the disruption of our operations. In addition, our closures of certain facilities may create the risk of strikes or work stoppages at those and other facilities.

We are dependent on the availability of raw materials and parts and components used in our products.

While we manufacture many of the parts and components used in our products, we require substantial amounts of raw materials and purchase some parts and components from suppliers. The availability and prices of raw materials and parts and components may be subject to curtailment or change due to, among other things, suppliers' allocations to other purchasers, interruptions in production by suppliers, changes in exchange rates and prevailing price levels. Any change in the supply of, or price for, these raw materials or parts and components could materially affect our business, financial condition and results of operations.

Risk Factors Associated With Our Common Stock

Limited trading volume of our common stock may contribute to its price volatility.

Our common stock is traded on the New York Stock Exchange and the Chicago Stock Exchange. During the twelve months ended September 30, 2002, the average daily trading volume for our common stock as reported by the NYSE was 101,972 shares. Even if we achieve a wider dissemination as to the shares offered by us and the selling shareholders pursuant to this prospectus, we are uncertain as to whether a more active trading market in our common stock will develop. As a result, relatively small trades may have a significant impact on the price of our common stock.

Existing shareholders may sell their shares, which could depress the market price of our common stock.

In addition to the 1,350,000 shares covered by this prospectus which may be offered and sold from time to time by the selling shareholder, KKR Associates, L.P. has certain rights under a registration rights agreement to require us to register up to an additional 3,153,592 shares of common stock under the Securities Act to permit the public sale of its shares, as well as the ability to resell its shares into the public market pursuant to Rule 144 under the Securities Act ("Rule 144"). Moreover, as of September 30, 2002, our executive officers and directors beneficially owned 5,737,526 shares of common stock (including shares held by KKR Associates, L.P.) that are eligible to be resold into the public market pursuant to Rule 144 or Rule 701 under the Securities Act. Significant sales of such shares of common stock, or the prospect of such sales, may depress the price of the shares.

If we need to sell or issue additional shares of common stock to finance future acquisitions, your stock ownership could be diluted.

Part of our business strategy is to expand into new markets and enhance our position in existing markets throughout the world through acquisitions. In order to successfully complete targeted acquisitions or fund our other activities, we may issue additional equity securities that could be dilutive to our earnings per share and to your stock ownership. We cannot assure you as to when, and how many of, the shares of our common stock will be sold or as to the effect those sales may have on the market price of our common stock. Sales of substantial amounts of our common stock (including shares issued upon the exercise of stock options and warrants or in connection with acquisition financing), or the perception that such sales could occur, may adversely affect prevailing market prices for our common stock.

Certain provisions of our certificate of incorporation, by-laws and Delaware General Corporate Law may have possible anti-takeover effects.

Some of the provisions of our certificate of incorporation and by-laws could discourage, delay or prevent an acquisition of our business at a premium price. The provisions:

permit the board of directors to increase its own size and fill the resulting vacancies;

provide for a board comprised of three classes of directors with each class serving a staggered three-year term; and

authorize the issuance of up to 5,000,000 shares of preferred stock in one or more series without a shareholder vote.

In addition, Section 203 of the Delaware General Corporate Law also imposes restrictions on mergers and other business combinations between us and any holder of 15% or more of our common stock.

We may not be able to pay dividends on our common stock.

We have no obligation to pay dividends on our common stock. The declaration and payment of dividends on our common stock is subject to, and will depend upon, among other things:

our future earnings and financial condition, liquidity and capital requirements;

our ability to pay dividends under our revolving credit facility, receivables facility and the indenture for our senior notes; and

other factors deemed relevant by our board of directors.

USE OF PROCEEDS

All of the shares of common stock offered by this prospectus are being offered by the selling shareholder. For information about the selling shareholder, see Selling Shareholder. We will not receive any proceeds from the sale of shares of our common stock by the selling shareholder.

SELLING SHAREHOLDER

We originally issued and sold the 1,350,000 shares of common stock covered by this prospectus to KKR Associates, L.P. in a transaction exempt from the registration requirements of the Securities Act. The shareholder named below may from time to time offer and sell pursuant to this prospectus any and all of the common stock. Our registration of the common stock held by the selling shareholder does not necessarily mean that the selling shareholder will sell all or any of the shares of common stock.

The following table sets forth, to our knowledge, with respect to the selling shareholder (i) the number of shares of common stock beneficially owned as of December 19, 2002 and prior to the offering contemplated hereby, (ii) the maximum number of shares of common stock which may be sold in this offering, and (iii) the number of shares of common stock which will be owned after the offering, assuming the sale of all the shares of common stock offered hereby:

Selling Shareholder	Shares of Common Stock Owned Prior to the Offering		Number of Shares of Common Stock Offered Hereby	Shares of Common Stock to be Owned after the Offering(1)	
	Number	%		Number	%
KKR Associates, L.P.(2)	4,503,592	13.9	1,350,000	3,153,592	9.7

(1) For purposes of this table, we have assumed that the selling shareholder will sell all shares covered by this prospectus.

(2) KKR Associates, L.P. is a limited partnership of which Paul E. Raether and Michael F. Tokarz (each of whom is currently a director of the Company) and Messrs. Henry R. Kravis, George R. Roberts, Edward A. Gilhuly, Perry Golkin, James H. Greene, Jr., Robert I. MacDonnell, Michael W. Michelson and Scott M. Stuart are general partners. Such persons may be deemed to share beneficial ownership of the shares shown as beneficially owned by KKR Associates, L.P. All of the foregoing persons disclaim beneficial ownership of any shares of the Company listed above as beneficially owned by KKR Associates, L.P. Mr. Kravis and Mr. Roberts, in addition to being general partners of KKR Associates, L.P., are members of the Executive Committee of KKR Associates, L.P. Mr. Kravis and Mr. Roberts are no longer members of our board of directors; however, both were directors of the Company within the past three years.

Except as noted above, the selling shareholder has not had, within the past three years, any position, office, or other material relationship with IDEX or any of its affiliates. The selling shareholder identified above may have sold, transferred, or otherwise disposed of a portion of its common stock since the date on which it provided information regarding its common stock in a transaction exempt from the registration requirements of the Securities Act.

Only the selling shareholder identified above who beneficially owns the common stock set forth opposite its name in the foregoing table on the effective date of the registration statement of which this prospectus forms a part may sell common stock pursuant to the registration statement.

Pursuant to a registration rights agreement entered into by the selling shareholder and us, the selling shareholder has the right, under certain circumstances and subject to certain conditions, to require us to register under the Securities Act the shares of common stock held by the selling shareholder. Such registration rights will generally be available to the selling shareholder until registration is no longer required to enable it to resell its common stock. KKR Associates, L.P. has exercised its rights under this registration rights agreement and requested that we register the shares of common stock covered by this prospectus. The registration rights agreement provides, among other things, that we will pay all expenses in connection with any such registration, other than underwriting discounts and selling commissions.

PLAN OF DISTRIBUTION

The purpose of this prospectus is to permit the selling shareholder or its pledgees, donees, transferees or other successors in interest (collectively, the selling shareholder) to offer for sale or to sell shares of common stock covered by this prospectus at such time and at such prices as each, in its sole discretion, chooses. We will not receive any of the proceeds from these offerings or sales.

The selling shareholder may sell or distribute some or all of its shares from time to time through dealers or brokers or other agents or directly to one or more purchasers in transactions (which may involve crosses and block transactions) on the New York Stock Exchange or other exchanges on which our common stock may be listed for trading, in privately negotiated transactions (including sales pursuant to pledges) or in the over-the-counter market, or in brokerage transactions, or in a combination of these transactions. In addition, the selling shareholder may sell or distribute some or all of its shares of common stock in a transaction involving an underwriter. Such transactions may be effected by the selling shareholder at market prices prevailing at the time of sale, at prices related to such prevailing market prices, at negotiated prices, or at fixed prices, which may be changed. Brokers, dealers, or their agents participating in such transactions as agent may receive compensation in the form of discounts, concessions or commissions from the selling shareholder (and, if they act as agent for the purchaser of the shares, from the purchaser). Such discounts, concessions or commissions as to a particular broker, dealer or other agent might be in excess of those customary in the type of transaction involved.

If the applicable law requires, we will provide a supplement to this prospectus to disclose the specific shares to be sold, the public offering price of the shares to be sold, the names of any agents, dealers or underwriters employed by the selling shareholder in connection with such sale, and any applicable commissions or discounts with respect to a particular offer. We will file a post-effective amendment to the registration statement of which this prospectus is a part to include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement.

The selling shareholder and any such brokers, dealers or other agents that participate in such distribution may be deemed to be underwriters within the meaning of the Securities Act, and any discounts, commissions or concessions received by any such brokers, dealers or other agents might be deemed to be underwriting discounts and commissions under the Securities Act.

In connection with the offer and sale of the shares of common stock by the selling shareholder, various state securities laws and regulations require that any such offer and sale should be made only through the use

of a broker-dealer registered as such in any state where a selling shareholder engages such broker-dealer and in any state where such broker-dealer intends to offer and sell shares.

Under applicable rules and regulations under the Exchange Act, any person engaged in a distribution of the shares of common stock offered hereby may not simultaneously engage in market activities with respect to common stock for the applicable period under Regulation M prior to the commencement of such distribution. In addition, the selling shareholder will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder, including Rule 10b-5 and Regulation M, which provisions may limit the timing of purchases and sale of any of the shares by the selling shareholder. All of the foregoing may affect the marketability of the shares offered hereby.

We will pay all expenses of the registration of the offered securities, including Commission filing fees and expenses of compliance with state securities or blue sky laws. The selling shareholder will pay any underwriting discounts and selling commissions. The selling shareholder will be indemnified by us against certain civil liabilities, including certain liabilities under the Securities Act. The selling shareholder will indemnify us against certain civil liabilities, including certain liabilities under the Securities Act.

The selling shareholder also may resell all or a portion of the shares in open market transactions in reliance upon Rule 144 under the Securities Act, provided they meet the criteria and conform to the requirements of such rule.

**OWNERSHIP OF COMMON STOCK BY SELLING SHAREHOLDER,
MANAGEMENT AND PRINCIPAL SHAREHOLDERS**

The following table furnishes information, as of September 30, 2002, with respect to the shares of common stock beneficially owned by (i) each director, (ii) each named executive officer, (iii) directors and executive officers of the Company as a group, and (iv) any person who is known by the Company to be a beneficial owner of more than five percent of the outstanding shares of our common stock. Except as indicated by the notes to the following table, the holders listed below have sole voting power and investment power over the shares beneficially held by them. Under the Securities and Exchange Commission rules, the number of shares shown as beneficially owned includes shares of common stock subject to options that currently are exercisable or will be exercisable within 60 days of September 30, 2002. Shares of common stock subject to options that are currently exercisable or will be exercisable within 60 days of September 30, 2002 are considered to be outstanding for the purpose of determining the percentage of the shares held by a holder, but not for the purpose of computing the percentage held by others. An * indicates ownership of less than one percent of the outstanding common stock.
