Earnings as adjusted (Non-GAAP) is a measure of income that differs from net income from continuing operations measured in accordance with generally accepted accounting principles (GAAP). Earnings as adjusted (Non-GAAP) is income from continuing operations per our consolidated results, adjusted for exclusion of restructuring and impairment charges, the write-off of (credit for) acquired in-process research and development (IPR&D) and the currency forward contract gain. Management believes that both earnings and earnings as adjusted for exclusion of these special charges and credits assist the investor in understanding the results of operations of The Lubrizol Corporation. In addition, management and the Board of Directors of The Lubrizol Corporation evaluate results using the earnings and earnings as adjusted basis.
