Item 1.01 Entry Into a Material Definitive Agreement.

On May 30, 2007, RTI International Metals, Inc. (the Company), entered into an amendment to its existing contract with Lockheed Martin Aeronautics Company on behalf of Lockheed Martin Corporation (Lockheed Martin) for the long-term supply of titanium products in support of the F-35 Joint Strike Fighter Program (the JSF Program). Under the agreement as amended, the Company will supply the first eight million pounds of titanium mill products (including sheet, plate and billet) required by the JSF Program per year through the end of 2020 with actual volumes to be based on JSF Program build rates and ultimate titanium content per aircraft variant. In addition to the first eight million pounds per year, Lockheed Martin has a one-time right of first refusal to procure up to an additional 1.1 million pounds of titanium plate annually under the terms of the amended agreement in the event volumes become available from any ramp-down in the F-22 Raptor program. Pricing for all products to be delivered under the agreement other than the first 1.4 million pounds is established by the amended agreement and includes an annual adjustment after 2007 based upon published indices. As an inducement to obtain Lockheed Martin s agreement to the amendment, the Company agreed to sell the first 1.4 million pounds at prices set by the original agreement before this amendment.

On May 31, 2007, the Company issued a press release to announce the Agreement. A copy of the press release is attached to this report as Exhibit 99.1 and incorporated herein by reference.

Item 8.01 Other Events.

The Company has announced that it will begin a \$100 million facilities expansion program to increase its output capacity.

Item 9.01 Financial Statements and Exhibits.

(d) Exhibits. The following exhibits are being filed pursuant to Item 601 of Regulation S-K and General Instruction B2 to this Form 8-K:
