PRESIDENT'S LETTER

---

Dear Shareholder,

ING Global Advantage and Premium Opportunity Fund (the "Fund") is a diversified, closed-end management investment company traded on the New York Stock Exchange under the symbol IGA. The primary objective of the Fund is to provide a high level of income, with a secondary objective of capital appreciation.

The Fund seeks to achieve its investment objectives by investing at least 80% of its managed assets in a diversified global equity portfolio and employing an option strategy of writing index call options in respect of a significant portion of its equity portfolio.

I am pleased to report that for the six months ended August 31, 2007, the Fund continued to provide you with attractive quarterly distributions generated by its global-equity strategy, coupled with its index call writing strategy. During the period, the Fund made two quarterly distributions of \$0.465 per share, for a total of \$0.93 per share.

Based on net asset value ("NAV"), the Fund had a total return of 3.97% for the six-month period. This NAV return reflects a decrease in its NAV from \$21.19 on February 28, 2007 to \$21.10 on August 31, 2007, plus the reinvestment of \$0.93 per share in distributions.

Based on its share price as August 31, 2007, the Fund provided a six-month total return of 1.00%.<sup>(2)</sup> This share price return reflects a decrease in its share price from \$21.11 on February 28, 2007 to \$20.42 on August 31, 2007, plus the reinvestment of \$0.93 per share in distributions.

For more information on the Fund's performance, please read the Market Perspective and Portfolio Managers' Report.

At ING Funds our mission is to set the standard in helping our clients manage their financial future. We seek to assist you and your financial advisor by offering a range of global investment solutions. We invite you to visit our website at [www.ingfunds.com](http://www.ingfunds.com). Here you will find information on our products and services, including current market data and fund statistics on our open- and closed-end funds. You will see that we offer a broad variety of equity, fixed income and multi-asset funds that aim to fulfill a variety of investor needs.

We thank you for trusting ING Funds with your investment assets, and we look forward to serving you in the months and years ahead.

Sincerely,

Shaun P. Mathews  
President  
ING Funds  
October 12, 2007

risks not found in investments that are solely domestic.

For more complete information, or to obtain a prospectus for any ING fund, please call your Investment Professional or ING Funds Distributor, LLC at (800) 992-0180 or log on to [www.ingfunds.com](http://www.ingfunds.com). The prospectus should be read carefully before investing. Consider the fund's investment objectives, risks, charges and expenses carefully before investing. The prospectus contains this information and other information about the fund. Check with your Investment Professional to determine which funds are available for sale within their firm. Not all funds are available for sale at all firms.

(1) Total investment return at net asset value has been calculated assuming a purchase at net asset value at the beginning of each period and a sale at net asset value at the end of each period and assumes reinvestment of dividends and capital gain distributions, if any, in accordance with the provisions of the dividend reinvestment plan.

(2) Total investment return at market value measures the change in the market value of your investment assuming reinvestment of dividends and capital gain distributions, if any, in accordance with the provisions of the Fund's dividend reinvestment plan.

Table of Contents**MARKET PERSPECTIVE:** SIX MONTHS ENDED AUGUST 31, 2007

This was a tumultuous first half of the fiscal year. **Global equities**, represented by the Morgan Stanley Capital International World Index<sup>SM(1)</sup> ( MSCI World Index<sup>SM</sup>) measured in local currencies, including net reinvested dividends ( MSCI for regions discussed below) at first slipped, then put on 10% in four months, lost it all in another month, before recovering to end up 4.2% for the six months ended August 31, 2007. In **currencies**, the belief that European interest rates would rise relative to U.S. rates, sent the euro to multiple new high levels against the dollar and the pound to its best level against the dollar in 26 years. The yen, after being dragged down by the carry trade, in which speculators borrow in yen at low interest and buy higher yielding securities in other currencies, rebounded as those trades were later unwound. For the half-year, the dollar fell 3.3%, 2.5% and 3.5% against the euro, pound and yen, respectively.

As our previous fiscal year drew to a close, hopes of an end to the slumping housing market were dashed as sub-prime mortgage defaults surged. Gloom on the housing front continued into the summer. Foreclosures in May 2007 were 90% higher than one year earlier. Housing sales were generally still receding and inventories rising to record levels. Existing home prices were reported as falling for the first time since 1991. Homebuilder confidence eroded to a 16-year low. The sub-prime dragon reared its head again in June 2007 when the investment bank, Bear Stearns, had to step in to rescue two of its hedge funds in distress over holdings in mortgage bonds. As June ended, first quarter gross domestic product ( GDP ) growth was finalized at just 0.69% annualized, the lowest since 2003.

Yet into July 2007, most observers believed the chance that sub-prime mortgage problems could trip the economy into recession was small. Federal Reserve Board Chairman Bernanke said as much himself in early June. Other measures of activity such as employment, purchasing managers indices and personal spending held up well.

But from mid-July a series of shocks sent investors scurrying for cover. Mr. Bernanke himself had to acknowledge on July 18, 2007, the day that another set of woeful housing statistics was released, that the sub-prime mortgage situation had significantly deteriorated. Within weeks, financial institutions were reporting that the sub-prime default crisis had spread to other classes of mortgage loans and the securities derived from them. Worse, it appeared that the vast asset-backed commercial paper market was in the process of seizing up globally because lenders had lost confidence in the value of the collateral. Confirmation came on August 9, 2007, from an unlikely source, when French bank BNP Paribas announced similar problems with its own U.S. mortgage-backed structured investment vehicles. Banks were by now reluctant to lend to each other and over night inter-bank interest rates soared. This caused central banks to pour billions into the inter-bank system. But by the end of August 2007, the commercial paper market was still paralyzed and shrinking and investors had lost much of their appetite for risk.

**U.S. fixed income** markets saw a pronounced steepening of the yield curve during the six-month period ended August 31, 2007, with the yield on the ten-year Treasury Note falling 1 basis point (0.01%) to 4.54%, having risen in June 2007 to a five-year high of 5.25%, while the yield on the three-month Bill fell exactly 100 basis points (1.00%), 81 basis points (0.81%) of it in the last three weeks as investors fled to safety.

**U.S. equities**, represented by the Standard & Poor's 500 Composite Stock Price Index<sup>(2)</sup> ( S&P 500 Index ) including dividends, returned 5.7% for the half-year, finally breaching its March 2000 record in May 2007. From there the index proceeded fitfully to its best level on July 19, 2007, up 10.4% since the end of February 2007. The market was cheered by year-over-year percentage profits growth of 8.6%, less than the double-digits enjoyed for 14 consecutive quarters, but much better than had been feared, and by takeover activity, much of it from private equity firms able to draw from an apparently bottomless well of liquidity. But the events described above exposed this as an illusion and on August 16, 2007, the general risk aversion that gripped investors took the index below its February 28, 2007 level.

Only soothing words from Mr. Bernanke, interpreted as a September rate cut signal, allowed a partial recovery.

Internationally, the **MSCI Japan® Index**<sup>(3)</sup> fell 7.1% for the six-month period as the economic data deteriorated. GDP growth started off strongly but by August 2007 it was reported as barely positive. Unemployment remained at a nine-year low. But consumer prices and wages started falling again and continued to do so through the summer. Investors flight to safety led to the unwinding of carry trades,

**Table of Contents**

**MARKET PERSPECTIVE: SIX MONTHS ENDED AUGUST 31, 2007**

---

strengthening the yen and threatening all-important exports. The **MSCI Europe ex UK<sup>®(4)</sup>** Index returned 6.2% for the six months ended August 31, 2007. From mid-March, markets rallied on high consumer and business confidence, record low unemployment, benign inflation and continuing merger and acquisition activity. But nervousness in mid-July after another interest rate increase turned the downturn into a rout as the sub-prime debacle unfolded. On August 16, 2007 some European stock indices had their biggest one-day fall in four and a half years, before a final recovery in the last two weeks. A similar situation existed in the **UK** where a housing boom and robust service sector had raised GDP growth to 3.0%. Stocks surged into the summer, even shrugging off a July 2007 rate increase to the highest in six years. The slide into the trough on August 16, 2007 was even more violent than in continental Europe and even after a late rebound **MSCI UK<sup>®</sup> Index<sup>(5)</sup>** only returned 4.4% for the half-year.

---

(1) The **MSCI World Index<sup>SM</sup>** is an unmanaged index that measures the performance of over 1,400 securities listed on exchanges in the U.S., Europe, Canada, Australia, New Zealand and the Far East.

(2) The **S&P 500<sup>®</sup> Index** is an unmanaged index that measures the performance of securities of approximately 500 of the largest companies in the United States.

# ING GLOBAL ADVANTAGE AND PREMIUM OPPORTUNITY FUND PORTFOLIO MANAGERS REPORT

---

ING Global Advantage and Premium Opportunity Fund's (the Fund) primary investment objective is to provide a high level of income. Capital appreciation is a secondary investment objective. The Fund seeks to achieve its investment objectives by:

investing at least 80% of its managed assets in a diversified global equity portfolio; and

utilizing an integrated option writing strategy.

The Fund is managed by Paul Zemsky, Omar Aguilar, Jody I. Hrazanek, Carl Ghielen, Martin Jansen, Bas Peeters and Frank van Etten, Portfolio Managers, ING Investment Management Co. the Sub-Adviser.

**Portfolio Construction:** Under normal market conditions, the Fund invests in a diversified portfolio of common stocks of companies located in a number of different countries throughout the world, normally in approximately 550 common stocks, seeking to reduce the Fund's exposure to individual stock risk. The Fund normally invests across a broad range of countries, industries and market sectors, including investments in issuers located in countries with emerging markets.

The Fund's weighting between U.S. and international equities

### Country Allocation

as of August 31, 2007  
(as a percent of net assets)

*Portfolio holdings are subject to change daily.*

depends on the Sub-Adviser's ongoing assessment of market opportunities for the Fund. Under normal market conditions, the Fund seeks to maintain a target weighting of 60% in U.S. domestic common stocks and not less than 40% in international (ex-U.S.) common stocks.

**The Fund's Integrated Option Strategy:** The option strategy of the Fund is designed to generate premiums by writing (selling) index call options on selected indices in an amount equal to approximately 60% to 100% of the value of the Fund's holdings in common stocks.

Writing index call options involves granting the buyer the right to appreciation of the value of an index above at a particular price (the strike price) at a particular time. If the purchaser exercises an index call option sold by the Fund, the Fund will pay the purchaser the difference between the cash value of the index and the strike price of the option.

The Fund seeks to generate income and gains from its portfolio index call option strategy and, to a lesser extent, income from dividends on the common stocks held in the Fund's portfolio. The extent of index call option writing activity depends upon market conditions and the Sub-Adviser's ongoing assessment of the attractiveness of writing index call options on selected indices. Index call options are primarily written in over-the-counter markets with

major international banks, broker-dealers and financial institutions. The Fund may also write call options in exchange-listed option markets.

The Fund writes call options that are generally short-term (between 10 days and three months until expiration) and at-or near-the-money. The Fund typically maintains its covered call positions until expiration, but it retains the option to buy back the covered call options and sell new covered call options.

**Table of Contents**

# ING GLOBAL ADVANTAGE AND PREMIUM OPPORTUNITY FUND PORTFOLIO MANAGERS' REPORT

---

The Fund may, and during the period has, hedged the vast majority of its foreign currency exposure by selling forward against the U.S. dollar various currencies in which its equity holdings are denominated, including the Australian Dollar, the Swiss Franc, the Euro, the Great British Pound Sterling and the Japanese Yen.

**Performance:** Based on its share price as of August 31, 2007, the Fund provided a six-month total return of 1.00%. This return reflects a decrease in its share price from \$21.11 on February 28, 2007 to \$20.42 on August 31, 2007, plus the reinvestment of \$0.93 per share in distributions. Based on net asset value ( NAV ), the Fund had a total return of 3.97% for the six-month period. The Standard & Poor's 500 Composite Stock Price Index ( S&P 500 Index ), the Morgan Stanley Capital International Europe, Australasia and Far East Index ( MSCI EAFE Index ) and the Chicago Board Options Exchange ( CBOE ) BuyWrite Monthly Index returned 5.70%, 5.83% and 4.15%, respectively, for the same period. The Fund made two quarterly distributions of \$0.465 per share, for a total of \$0.93 per share for the six-months ended August 31, 2007. As of August 31, 2007, the Fund had 18,231,237 shares outstanding.

**Market and Portfolio Review:** The underlying international equity portfolio outperformed the index by a small amount. The portfolio's regional, economic sector and industry exposures are managed within a tight band around the index. Consequently, regional and sector allocation had a neutral effect on the result. Positive results from stock selection in the materials, energy and consumer sectors offset security selection within the information technology, industrial and health care sectors.

The Fund's domestic equity portfolio underperformed the index, mainly due to adverse selection effects in the consumer discretionary, health care and materials sectors. These results were offset partially by positive selection in the information technology and industrials sectors. Overweight positions in consumer discretionary and financial stocks detracted from value.

During the period, the option overlay strategy detracted from total return, yet reduced the volatility of returns and contributed to the Fund's ability to pay its distributions.

The Fund wrote short maturity call options on the FTSE 100, the DJ Eurostoxx 50, the Nikkei 225 index and the S&P 500. The strike prices of the traded options mostly were close to the money for the U.S. market but generally 1.0 - 1.5% out of the money for the international markets. The expiration dates for all options averaged four to six weeks. We maintained a coverage ratio of about 60 - 65% during the period.

Index call options sold on the U.S. and international markets generally expired in the money, as the markets traded higher until the sell-off in July. Volatility moved much higher at the end of the period as turmoil emerged in the equity and credit markets.

Currency hedges detracted from performance this period as most major currencies strengthened against the U.S. dollar. The yen hedge, however, contributed slightly to performance in the first half of the period.

**Outlook and Current Strategy:** The recent sell-off in equities has caused an increase in volatility. While we remain fundamentally constructive on global equity markets, we believe the slowing growth outlook in the U.S. and decelerating earnings growth in the international developed markets may increase volatility in the near term. We

expect volatility to remain elevated although below the recent highs. Premiums continue to be adequate given the higher implied volatilities, and we thus can lower our coverage ratio to 60%. We continue to earn an attractive level of call premium even at the lower coverage ratio.

(1) Commencement of operations.

(2) Net asset value at beginning of period reflects the deduction of the sales load of \$0.90 per share and offering costs of \$0.04 per share paid by the shareholder from the \$20.00 offering price.

(3) Total investment return at net asset value has been calculated assuming a purchase at net asset value at the beginning of each period and a sale at net asset value at the end of each period and assumes reinvestment of dividends and capital gain distributions, if any, in accordance with the provisions of the dividend reinvestment plan. Total investment return at net asset value is not annualized for periods less than one year.

(4) Total investment return at market value measures the change in the market value of your investment assuming reinvestment of dividends and capital gain distributions, if any, in accordance with the provisions of the Fund's dividend reinvestment plan. Total investment return at market value is not annualized for periods less than one year.

(5) Annualized for periods less than one year.

## Edgar Filing: ING Global Advantage & Premium Opportunity Fund - Form N-CSRS

(6) The Investment Adviser has agreed to limit expenses, (excluding interest, taxes, brokerage and extraordinary expenses) subject to possible recoupment by ING Investments, LLC within three years of being incurred.

\* Calculated using average number of shares outstanding throughout the period.

**Table of Contents**

NOTES TO FINANCIAL STATEMENTS AS OF AUGUST 31, 2007 (UNAUDITED)

---

**NOTE 1 ORGANIZATION**

ING Global Advantage and Premium Opportunity Fund (the Fund) is a diversified, closed-end management investment company registered under the Investment Company Act of 1940, as amended (the 1940 Act). The Fund is organized as a Delaware statutory trust. The primary investment objective for the Fund is to provide a high level of income. Capital appreciation is a secondary investment objective. The Fund seeks to achieve its investment objectives by investing in a portfolio of global common stocks and utilizing an integrated options writing strategy.

**NOTE 2 SIGNIFICANT ACCOUNTING POLICIES**

The following significant accounting policies are consistently followed by the Fund in the preparation of its financial statements, and such policies are in conformity with U.S. generally accepted accounting principles for investment companies.

- A. *Security Valuation.* Investments in equity securities traded on a national securities exchange are valued at the last reported sale price. Securities reported by NASDAQ are valued at the NASDAQ official closing prices. Securities traded on an exchange or NASDAQ for which there has been no sale and equity securities traded in the over-the-counter-market are valued at the mean between the last reported bid and ask prices. All investments quoted in foreign currencies will be valued daily in U.S. dollars on the basis of the foreign currency exchange rates prevailing at that time. Debt securities are valued at prices obtained from independent services or from one or more dealers making markets in the securities and may be adjusted based on the Fund's valuation procedures. U.S. government obligations are valued by using market quotations or independent pricing services which use prices provided by market-makers or estimates of market values obtained from yield data relating to instruments or securities with similar characteristics.

Securities and assets for which market quotations are not readily available (which may include certain restricted securities that are subject to limitations as to their sale) are valued at their fair values as determined in good faith by or under the supervision of the Fund's Board of Trustees (Board), in accordance with methods that are specifically authorized by the Board. Securities traded on exchanges, including foreign exchanges, which close earlier than the time that the Fund calculates its net asset value (NAV) may also be valued at their fair values as determined in good faith by or under the supervision of the Fund's Board, in accordance with methods that are specifically authorized by the Board. The value of a foreign security traded on an exchange outside the United States is generally based on its price on the principal foreign exchange where it trades as of the time the Fund determines its NAV or if the foreign exchange closes prior to the time the Fund determines its NAV, the most recent closing price of the foreign security on its principal exchange. Trading in certain non-U.S. securities may not take place on all days on which the NYSE Euronext (NYSE) is open. Further, trading takes place in various foreign markets on days on which the NYSE is not open. Consequently, the calculation of the Fund's NAV may not take place contemporaneously with the determination of the prices of securities held by the Fund in foreign securities markets. Further, the value of the Fund's assets may be significantly affected by foreign trading on days when a shareholder cannot purchase or redeem shares of the Fund. In calculating the Fund's NAV, foreign securities denominated in foreign currency are converted to U.S. dollar equivalents. If an event occurs after the time at which the market for foreign securities held by the Fund closes but before the time that the Fund's NAV is calculated, such event may cause the closing price on the foreign exchange to not represent a readily available reliable market value quotation for such securities at the time the Fund determines its NAV. In such a case, the Fund will use the fair value of such securities as determined under the Fund's valuation procedures. Events after the close of trading on a foreign market that could require the Fund to fair value some or all of its foreign

securities include, among others, securities trading in the U.S. and other markets, corporate announcements, natural and other disasters, and political and other events. Among other elements of analysis in the determination of a security's fair value, the Board has authorized the use of one or more independent research services to assist with such determinations. An independent research service may use statistical analyses and quantitative

**Table of Contents**

## NOTES TO FINANCIAL STATEMENTS AS OF AUGUST 31, 2007 (UNAUDITED) (CONTINUED)

**NOTE 2 SIGNIFICANT ACCOUNTING POLICIES (continued)**

models to help determine fair value as of the time the Fund calculates its NAV. There can be no assurance that such models accurately reflect the behavior of the applicable markets or the effect of the behavior of such markets on the fair value of securities, or that such markets will continue to behave in a fashion that is consistent with such models. Unlike the closing price of a security on an exchange, fair value determinations employ elements of judgment. Consequently, the fair value assigned to a security may not represent the actual value that the Fund could obtain if it were to sell the security at the time of the close of the NYSE. Pursuant to procedures adopted by the Board, the Fund is not obligated to use the fair valuations suggested by any research service, and valuation recommendations provided by such research services may be overridden if other events have occurred or if other fair valuations are determined in good faith to be more accurate. Unless an event is such that it causes the Fund to determine that the closing prices for one or more securities do not represent readily available reliable market value quotations at the time the Fund determines its NAV, events that occur between the time of the close of the foreign market on which they are traded and the close of regular trading on the NYSE will not be reflected in the Fund's NAV. Investments in securities maturing in 60 days or less are valued at amortized cost, which, when combined with accrued interest, approximates market value.

Options that are traded over-the-counter will be valued using one of three methods: (1) dealer quotes; (2) industry models with objective inputs; or (3) by using a benchmark arrived at by comparing prior-day dealer quotes with the corresponding change in the underlying security. Exchange traded options will be valued using the last reported sale. If no last sale is reported, exchange traded options will be valued using an industry accepted model such as Black Scholes. Options on currencies purchased by the Fund are valued using industry models with objective inputs.

- B. *Security Transactions and Revenue Recognition.* Security transactions are recorded on the trade date. Realized gains or losses on sales of investments are calculated on the identified cost basis. Interest income is recorded on the accrual basis. Premium amortization and discount accretion are determined using the effective yield method. Dividend income is recorded on the ex-dividend date, or in the case of some foreign dividends, when the information becomes available to the Fund.
- C. *Foreign Currency Translation.* The books and records of the Fund are maintained in U.S. dollars. Any foreign currency amounts are translated into U.S. dollars on the following basis:
- (1) Market value of investment securities, other assets and liabilities at the exchange rates prevailing at the end of the day.
  - (2) Purchases and sales of investment securities, income and expenses at the rates of exchange prevailing on the respective dates of such transactions.

Although the net assets and the market values are presented at the foreign exchange rates at the end of the day, the Fund does not isolate the portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gains or losses from investments. For securities, which are subject to foreign withholding tax upon disposition, liabilities are recorded on the Statement of Assets and Liabilities for the estimated tax withholding based on the securities current market value. Upon disposition, realized gains or losses on such securities are recorded net of foreign withholding tax. Reported net realized

foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the value of assets and liabilities other than investments in securities at period end, resulting from changes in the exchange rate. Foreign security and currency transactions may involve certain considerations and risks not typically associated with investing in

**Table of Contents**

NOTES TO FINANCIAL STATEMENTS AS OF AUGUST 31, 2007 (UNAUDITED) (CONTINUED)

---

**NOTE 2 SIGNIFICANT ACCOUNTING POLICIES (continued)**

U.S. companies and U.S. government securities. These risks include, but are not limited to, revaluation of currencies and future adverse political and economic developments which could cause securities and their markets to be less liquid and prices more volatile than those of comparable U.S. companies and U.S. government securities.

- D. *Forward Foreign Currency Contracts.* The Fund may enter into forward foreign currency contracts primarily to hedge against foreign currency exchange rate risks on their non-U.S. dollar denominated investment securities. When entering into a currency forward contract, the Fund agrees to receive or deliver a fixed quantity of foreign currency for an agreed-upon price on an agreed future date. These contracts are valued daily and the Fund's net equity therein, representing unrealized gain or loss on the contracts as measured by the difference between the forward foreign exchange rates at the dates of entry into the contracts and the forward rates at the reporting date, is included in the statement of assets and liabilities. Realized and unrealized gains and losses on forward foreign currency contracts are included on the Statement of Operations. These instruments involve market and/or credit risk in excess of the amount recognized in the statement of assets and liabilities. Risks arise from the possible inability of counterparties to meet the terms of their contracts and from movement in currency and securities values and interest rates.
- E. *Distributions to Shareholders.* Dividends from net investment income and net realized gains, if any, are declared and paid quarterly by the Fund. Distributions are determined annually in accordance with federal tax principles, which may differ from U.S. generally accepted accounting principles for investment companies. The Fund may make distributions on a more frequent basis to comply with the distribution requirements of the Internal Revenue Code. Distributions are recorded on the ex-dividend date.

The Fund intends to make regular quarterly distributions based on the past and projected performance of the Fund. The tax treatment and characterization of the Fund's distributions may vary significantly from time to time depending on whether the Fund has gains or losses on the call options written on its portfolio versus gains or losses on the equity securities in the portfolio. The Fund's distributions will normally reflect past and projected net investment income, and may include income from dividends and interest, capital gains and/or a return of capital. The final composition of the tax characteristics of the distributions cannot be determined with certainty until after the end of the year, and will be reported to shareholders at that time. The amount of quarterly distributions will vary, depending on a number of factors. As portfolio and market conditions change, the rate of dividends on the common shares will change. There can be no assurance that the Fund will be able to declare a dividend in each period.

- F. *Federal Income Taxes.* It is the policy of the Fund to comply with subchapter M of the Internal Revenue Code and related excise tax provisions applicable to regulated investment companies and to distribute substantially all of its net investment income and any net realized capital gains to its shareholders. Therefore, no federal income tax provision is required. No capital gain distributions shall be made until any capital loss carryforwards have been fully utilized or expired.
- G. *Use of Estimates.* The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual

results could differ from those estimates.

- H. *Securities Lending.* Under an agreement with The Bank of New York Mellon Corporation ( BNY ) the Fund has the option to temporarily loan up to 30% of its managed assets to brokers, dealers or other financial institutions in exchange for a negotiated lender's fee. The borrower is required to fully collateralize the loans with cash or U.S. government securities. Generally, in the event of counterparty default, the Fund has the right to use collateral to offset losses incurred. There would be potential loss to the Fund in the event the Fund is delayed or prevented from

**Table of Contents**

NOTES TO FINANCIAL STATEMENTS AS OF AUGUST 31, 2007 (UNAUDITED) (CONTINUED)

---

**NOTE 2 SIGNIFICANT ACCOUNTING POLICIES (continued)**

exercising its right to dispose of the collateral. The Fund bears the risk of loss with respect to the investment of collateral. Engaging in securities lending could have a leveraging effect, which may intensify the credit, market and other risks associated with investing in the Fund.

- I. *Options Contracts.* The Fund may purchase put and call options and may write (sell) put options and covered call options. The premium received by the Fund upon the writing of a put or call option is included in the Statement of Assets and Liabilities as a liability which is subsequently marked-to-market until it is exercised or closed, or it expires. The Fund will realize a gain or loss upon the expiration or closing of the option contract. When an option is exercised, the proceeds on sales of the underlying security for a written call option or purchased put option or the purchase cost of the security for a written put option or a purchased call option is adjusted by the amount of premium received or paid. The risk in writing a call option is that the Fund gives up the opportunity for profit if the market price of the security increases and the option is exercised. The risk in writing a put option is that the Fund may incur a loss if the market price of the security decreases and the option is exercised. The risk in buying an option is that the Fund pays a premium whether or not the option is exercised. Risks may also arise from an illiquid secondary market or from the inability of counterparties to meet the terms of the contract.
- J. *Repurchase Agreements.* The Fund may invest in repurchase agreements only with government securities dealers recognized by the Board of Governors of the Federal Reserve System. Under such agreements, the seller of the security agrees to repurchase it at a mutually agreed upon time and price. The resale price is in excess of the purchase price and reflects an agreed upon interest rate for the period of time the agreement is outstanding. The period of the repurchase agreements is usually short, from overnight to one week, while the underlying securities generally have longer maturities. The Fund will receive as collateral securities acceptable to it whose market value is equal to at least 100% of the carrying amount of the repurchase agreements, plus accrued interest, being invested by the Fund. The underlying collateral is valued daily on a mark to market basis to assure that the value, including accrued interest is at least equal to the repurchase price. There would be potential loss to the Fund in the event the Fund is delayed or prevented from exercising its right to dispose of the collateral, and it might incur disposition costs in liquidating the collateral.
- K. *Indemnifications.* In the normal course of business, the Fund may enter into contracts that provide certain indemnifications. The Fund's maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated; however, based on experience, the risk of loss from such claims is considered remote.

**NOTE 3 INVESTMENT MANAGEMENT AND ADMINISTRATIVE FEES**

ING Investments, LLC ( ING Investments or the Investment Adviser ), an Arizona limited liability company, is the Investment Adviser of the Fund. The Fund pays the Investment Adviser for its services under the investment management agreement ( Management Agreement ), a fee, payable monthly, based on an annual rate of 0.75% of the Fund's average daily managed assets. For the purposes of the Management Agreement, managed assets are defined as the Fund's average daily gross asset value, minus the sum of the Fund's accrued and unpaid dividends on any outstanding preferred shares and accrued liabilities (other than liabilities for the principal amount of any borrowings incurred, commercial paper or notes issued by the Fund and the liquidation preference of any outstanding preferred shares). As of August 31, 2007, there were no preferred shares outstanding.

Edgar Filing: ING Global Advantage & Premium Opportunity Fund - Form N-CSRS

The Investment Adviser entered into a sub-advisory agreement ( Sub-Advisory Agreement ) with ING IM. Subject to policies as the Board or the Investment Adviser might determine, ING IM manages the Fund s assets in accordance with the Fund s investment objectives, policies and limitations.

Effective November 1, 2006, certain ING funds sub-advised by ING Investment Management Co. ( ING IM ) are permitted to invest end-of-day cash balances into ING Institutional Prime Money Market Fund. Investment management fees paid by the Fund will be reduced by an amount equal to the management fees paid indirectly to the ING Institutional Prime Money Market Fund with respect to assets invested by the

**Table of Contents**

## NOTES TO FINANCIAL STATEMENTS AS OF AUGUST 31, 2007 (UNAUDITED) (CONTINUED)

**NOTE 3 INVESTMENT MANAGEMENT AND ADMINISTRATIVE FEES (continued)**

Fund. For the six months ended August 31, 2007, the Fund waived \$823 of such management fees. These fees are not subject to recoupment.

ING Funds Services, LLC, a Delaware limited liability company, (the Administrator ) serves as Administrator to the Fund. The Fund pays the Administrator for its services a fee based on an annual rate of 0.10% of the Fund's average daily managed assets. The Investment Adviser, ING IM, and the Administrator are indirect, wholly-owned subsidiaries of ING Groep N.V. ( ING Groep ). ING Groep is one of the largest financial services organizations in the world, and offers an array of banking, insurance and asset management services to both individuals and institutional investors.

The Investment Adviser has entered into a written expense limitation agreement ( Expense Limitation Agreement ) with the Fund under which it will limit the expenses of the Fund, excluding interest, taxes, leverage expenses, and extraordinary expenses to 1.00% of average net assets. The Investment Adviser may at a later date recoup from the Fund fees waived and other expenses assumed by the Investment Adviser during the previous 36 months, but only if, after such reimbursement, the Fund's expense ratio does not exceed the percentage described above. The Expense Limitation Agreement is contractual and shall renew automatically for one-year terms unless ING Investments or the Fund provides written notice of the termination within 90 days of the end of the then current term or upon written termination of the Management Agreement.

**NOTE 4 OTHER TRANSACTIONS WITH AFFILIATED AND RELATED PARTIES**

As of August 31, 2007, the Fund had the following amounts recorded in payable to affiliates on the accompanying Statement of Assets and Liabilities:

| Accrued<br>Investment<br>Management<br>Fees | Accrued<br>Administrative<br>Fees | Total     |
|---|-----------------------------------|-----------|
| \$119,741                                   | \$31,951                          | \$151,692 |

The Fund has adopted a Retirement Policy ( Policy ) covering all Independent Trustees of the Fund who will have served as an Independent Trustee for at least five years at the time of retirement. Benefits under this Policy are based on an annual rate as defined in the Policy agreement and are recorded as trustee fees in the financial statements.

**NOTE 5 PURCHASES AND SALES OF INVESTMENT SECURITIES**

The cost of purchases and proceeds from sales of investments for the six months ended August 31, 2007, excluding short-term securities, were \$341,640,141 and \$359,386,691, respectively.

**NOTE 6 TRANSACTIONS IN WRITTEN OPTIONS**

Written option activity for the Fund for the six months ended August 31, 2007 was as follows:

|   | <b>Number of<br/>Contracts</b> | <b>Premium</b> |
|---|--------------------------------|----------------|
|   | <hr/>                          | <hr/>          |
| Balance at 2/28/2007                                | 326,900                        | \$ 3,839,882   |
| Options Written                                     | 1,937,800                      | 22,610,364     |
| Options Expired                                     | (899,800)                      | (8,120,135)    |
| Options Terminated in Closing Purchase Transactions | (1,057,900)                    | (13,398,304)   |
|   | <hr/>                          | <hr/>          |
| Balance at 8/31/2007                                | 307,000                        | \$ 4,931,807   |
|   | <hr/>                          | <hr/>          |

**NOTE 7 CONCENTRATION OF INVESTMENT RISKS**

*Foreign Securities and Emerging Markets.* The Fund makes significant investments in foreign securities and may invest up to 20% of its managed assets in securities issued by companies located in countries with emerging markets. Investments in foreign securities may entail risks not present in domestic investments. Since investments in securities are denominated in foreign currencies, changes in the relationship of these foreign currencies to the U.S. dollar can significantly affect the value of the investments and earnings of the Fund. Foreign investments may also subject the Fund to foreign government exchange restrictions, expropriation, taxation or other political, social or economic developments, as well as from movements in currency, security value and interest rate, all of which could affect the market and/or credit risk of the investments. The risks of investing in foreign securities can be intensified in the case of investments in issuers located in countries with emerging markets.

*Leverage.* Although the Fund has no current intention to do so, the Fund is authorized to utilize leverage through the issuance of preferred shares and/or borrowings, including the issuance of debt securities. In the event that the Fund determines in the future to utilize investment leverage, there can be no assurance that such a leveraging strategy will be successful during any period in which it is employed.

**NOTE 9 FEDERAL INCOME TAXES**

The amount of distributions from net investment income and net realized capital gains are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles for investment companies. These book/tax differences may be either temporary or permanent. Permanent differences are reclassified within the capital accounts based on their federal tax-basis treatment; temporary differences are not reclassified. Key differences include the treatment of short-term capital gains, foreign currency transactions, and wash sale deferrals. Distributions in excess of net investment income and/or net realized capital gains for tax purposes are reported as distributions of paid-in capital.

Dividends paid by the Fund from net investment income and distributions of net realized short-term capital gains are, for federal income tax purposes, taxable as ordinary income to shareholders.

The tax composition of dividends and distributions in the current period will not be determined until after the Fund's tax year-end of December 31, 2007. The tax composition of dividends and distributions as of the Fund's most recent tax year-end was as follows:

## Tax Year Ended December 31, 2006

| Ordinary<br>Income | Long-Term<br>Capital Gains | Return<br>of Capital |
|--------------------|----------------------------|----------------------|
| \$23,422,969       | \$5,157,538                | \$5,048,487          |

The tax-basis components of distributable earnings and the expiration dates of the capital loss carryforwards which may be used to offset future realized capital gains for federal income tax purposes as of the tax year ended December 31, 2006 were:

| Unrealized<br>Appreciation | Post-October<br>Currency Losses<br>Deferred |
|----------------------------|---|
| \$29,968,895               | \$(2,473,353)                               |

**NOTE 10 OTHER ACCOUNTING PRONOUNCEMENTS**

In June 2006, the Financial Accounting Standards Board ( FASB ) issued FASB Interpretation No. 48 ( FIN 48 ),

Accounting for Uncertainty in Income Taxes. This standard defines the threshold for recognizing the benefits of tax-return positions in the financial statements as more-likely-than-not to be sustained upon challenge by the taxing authority and requires measurement of a tax position meeting the more-likely-than-not criterion, based on the largest benefit that is more than 50 percent likely to be realized. FIN 48 was effective for fiscal years beginning after December 15, 2006, with early application permitted if no interim financial statements have been issued. However, acknowledging the unique issues that FIN 48 presents for investment companies that calculate NAVs, the U.S. Securities and Exchange Commission (the SEC ) has indicated that they would not object if a fund implements FIN 48 in its NAV calculation as late as its last NAV calculation in the first required financial statement reporting period for its fiscal year beginning after December 15, 2006. For the February year-end closed-end funds, the August 31, 2007 NAV and this semi-annual report are required to reflect the effects of FIN 48. At adoption, companies must adjust their financial statements to reflect only those tax positions that are more likely-than-not to be sustained as of the adoption date. Management of the Fund has analyzed the tax positions of the Fund. Upon adoption of FIN 48, we identified no uncertain tax positions that have not met the more likely-than-not standard.

On September 15, 2006, the FASB issued Statement of Financial Accounting Standards No. 157 ( SFAS No. 157 ), Fair Value Measurements. The new accounting statement defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles ( GAAP ), and expands disclosures about fair value measurements. SFAS No. 157 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). SFAS No. 157 also stipulates that, as a market-based measurement, fair value measurement should be determined based on the assumptions that market participants would use in pricing the asset or liability, and establishes a fair value hierarchy that distinguishes between (a) market participant assumptions developed based on market data obtained from sources independent of the

**Table of Contents**

---

**NOTE 10 OTHER ACCOUNTING PRONOUNCEMENTS (continued)**

reporting entity (observable inputs) and (b) the reporting entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007. As of August 31, 2007, management of the Fund is currently assessing the impact, if any, that will result from adopting SFAS No. 157.

**NOTE 11 INFORMATION REGARDING TRADING OF ING'S U.S. MUTUAL FUNDS**

As discussed in earlier supplements, ING Investments, LLC (Investments), the adviser to the ING Funds, has reported to the Boards of Directors/ Trustees (the Boards) of the ING Funds that, like many U.S. financial services companies, Investments and certain of its U.S. affiliates have received informal and formal requests for information since September 2003 from various governmental and self-regulatory agencies in connection with investigations related to mutual funds and variable insurance products. Investments has advised the Boards that it and its affiliates have cooperated fully with each request.

In addition to responding to regulatory and governmental requests, Investments reported that management of U.S. affiliates of ING Groep N.V., including Investments (collectively, ING), on their own initiative, have conducted, through independent special counsel and a national accounting firm, an extensive internal review of trading in ING insurance, retirement, and mutual fund products. The goal of this review was to identify any instances of inappropriate trading in those products by third parties or by ING investment professionals and other ING personnel. ING's internal review related to mutual fund trading is now substantially completed. ING has reported that, of the millions of customer relationships that ING maintains, the internal review identified several isolated arrangements allowing third parties to engage in frequent trading of mutual funds within ING's variable insurance and mutual fund products, and identified other circumstances where frequent trading occurred, despite measures taken by ING intended to combat market timing. ING further reported that each of these arrangements has been terminated and fully disclosed to regulators. The results of the internal review were also reported to the independent members of the Boards.

Investments has advised the Boards that most of the identified arrangements were initiated prior to ING's acquisition of the businesses in question in the U.S. Investments further reported that the companies in question did not receive special benefits in return for any of these arrangements, which have all been terminated.

Based on the internal review, Investments has advised the Boards that the identified arrangements do not represent a systemic problem in any of the companies that were involved.

Despite the extensive internal review conducted through independent special counsel and a national accounting firm, there can be no assurance that the instances of inappropriate trading reported to the Boards are the only instances of such trading respecting the ING Funds.

Investments reported to the Boards that ING is committed to conducting its business with the highest standards of ethical conduct with zero tolerance for noncompliance. Accordingly, Investments advised the Boards that ING management was disappointed that its voluntary internal review identified these situations. Viewed in the context of the breadth and magnitude of its U.S. business as a whole, ING management does not believe that ING's acquired companies had systemic ethical or compliance issues in these areas. Nonetheless, Investments reported that given ING's refusal to tolerate any lapses, it has taken the steps noted below, and will continue to seek opportunities to

further strengthen the internal controls of its affiliates.

ING has agreed with the ING Funds to indemnify and hold harmless the ING Funds from all damages resulting from wrongful conduct by ING or its employees or from ING's internal investigation, any investigations conducted by any governmental or self-regulatory agencies, litigation or other formal proceedings, including any proceedings by the SEC. Investments reported to the Boards that ING management believes that the total amount of any indemnification obligations will not be material to ING or its U.S. business.

ING updated its Code of Conduct for employees reinforcing its employees' obligation to conduct personal trading activity consistent with the law, disclosed limits, and other requirements.

**Table of Contents**

## NOTES TO FINANCIAL STATEMENTS AS OF AUGUST 31, 2007 (UNAUDITED) (CONTINUED)

**NOTE 11 INFORMATION REGARDING TRADING OF ING S U.S. MUTUAL FUNDS (continued)****Other Regulatory Matters.**

The New York Attorney General (the NYAG ) and other federal and state regulators are also conducting broad inquiries and investigations involving the insurance industry. These initiatives currently focus on, among other things, compensation and other sales incentives; potential conflicts of interest; potential anti-competitive activity; reinsurance; marketing practices (including suitability); specific product types (including group annuities and indexed annuities); fund selection for investment products and brokerage sales; and disclosure. It is likely that the scope of these industry investigations will further broaden before they conclude. ING has received formal and informal requests in connection with such investigations, and is cooperating fully with each request. In connection with one such investigation, affiliates of Investments were named in a petition for relief and cease and desist order filed by the New Hampshire Bureau of Securities Regulation (the NH Bureau ) concerning their administration of the New Hampshire state employees deferred compensation plan.

Other federal and state regulators could initiate similar actions in this or other areas of ING s businesses. These regulatory initiatives may result in new legislation and regulation that could significantly affect the financial services industry, including businesses in which ING is engaged. In light of these and other developments, ING continuously reviews whether modifications to its business practices are appropriate. At this time, in light of the current regulatory factors, ING U.S. is actively engaged in reviewing whether any modifications in our practices are appropriate for the future.

There can be no assurance that these matters, or the adverse publicity associated with them, will not result in increased fund redemptions, reduced sale of fund shares, or other adverse consequences to ING Funds.

**NOTE 12 SUBSEQUENT EVENTS**

*Dividends:* Subsequent to August 31, 2007, the Fund declared a quarterly dividend of:

| <b>Per Share<br/>Amount</b> | <b>Declaration<br/>Date</b> | <b>Payable<br/>Date</b> | <b>Record<br/>Date</b> |
|-----------------------------|-----------------------------|-------------------------|------------------------|
| \$0.465                     | 09/21/2007                  | 10/15/2007              | 10/03/2007             |

The Fund estimates that distributions for the tax year commencing on January 1, 2007, and including the distributions listed above, will be comprised of approximately 13% net investment income. The remaining portion of the Fund s quarterly distributions is estimated to come from the Fund s covered-call option strategy, which for tax purposes, may be treated as a combination of long-term and short-term capital gains, and/or a return of capital. The tax character of the Fund s covered-call option strategy is largely determined by movements in the underlying equity portfolio. Based on the current realized appreciation in the Fund s underlying equity portfolio, the Fund estimates that the remaining approximately 87% of the distributions would be considered short-term capital gain.

Premium received for calls

\$4,931,807 million

Value of calls

\$(2,737,098) million

\* Moneyness is the term used to describe the relationship between the price of the underlying asset and the option's exercise or strike price. For example, a call (buy) option is considered in-the-money when the value of the underlying asset exceeds the strike price. Conversely, a put (sell) option is considered in-the-money when its strike price exceeds the value of the underlying asset. Options are characterized for the purpose of Moneyness as, in-the-money ( ITM ), out-of-the-money ( OTM ) or at-the-money ( ATM ), where the underlying asset value equals the strike price.

ING GLOBAL ADVANTAGE AND PREMIUM OPPORTUNITY FUND (UNAUDITED)

---

A special meeting of shareholders was held June 13, 2007, at the offices of ING Funds, 7337 East Doubletree Ranch Road, Scottsdale, AZ 85258.

A brief description of the matter voted upon as well as the result is outlined below:

**ING Global Advantage and Premium Opportunity Fund, Class II Trustees**

To elect three Class II Trustees to represent the interests of the holders of Common Shares of the Fund until the election and qualification of their successors.<sup>(1)</sup>

|                   | <b>Proposal</b>             | <b>Shares<br/>voted for</b> | <b>Shares voted<br/>against or<br/>withheld</b> | <b>Shares<br/>abstained</b> | <b>Total<br/>Shares Voted</b> |
|-------------------|-----------------------------|-----------------------------|---|-----------------------------|-------------------------------|
| Class II Trustees | <b>John V. Boyer</b>        | 15,823,792.000              | 152,796.000                                     |                             | 15,976,588.000                |
|                   | <b>Patricia W. Chadwick</b> | 15,827,338.000              | 149,250.000                                     |                             | 15,976,588.000                |

ADDITIONAL INFORMATION (UNAUDITED)

---

During the period, there were no material changes in the Fund's investment objective or policies that were not approved by the shareholders or the Fund's charter or by-laws or in the principal risk factors associated with investment in the Fund. Effective April 27, 2007, Mary Ann Fernandez retired from ING IM.

**Dividend Reinvestment Plan**

Unless the registered owner of Common Shares elects to receive cash by contacting BNY (the Plan Agent), all dividends declared on Common Shares of the Fund will be automatically reinvested by the Plan Agent for shareholders in additional Common Shares of the Fund through the Fund's Dividend Reinvestment Plan (the Plan). Shareholders who elect not to participate in the Plan will receive all dividends and other distributions in cash paid by check mailed directly to the shareholder of record (or, if the Common Shares are held in street or other nominee name, then to such nominee) by the Plan Agent. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by notice if received and processed by the Plan Agent prior to the dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared dividend or other distribution. Some brokers may automatically elect to receive cash on your behalf and may re-invest that cash in additional Common Shares of the Fund for you. If you wish for all dividends declared on your Common Shares of the Fund to be automatically reinvested pursuant to the Plan, please contact your broker.

The Plan Agent will open an account for each Common Shareholder under the Plan in the same name in which such Common Shareholder's Common Shares are registered. Whenever the Fund declares a dividend or other distribution (together, a Dividend) payable in cash, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in Common Shares. The Common Shares will be acquired by the Plan Agent for the participants' accounts, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized Common Shares from the Fund ( Newly Issued Common Shares ) or (ii) by purchase of outstanding Common Shares on the open market ( Open-Market Purchases ) on the NYSE or elsewhere. Open-market purchases and sales are usually made through a broker affiliated with the Plan Agent.

If, on the payment date for any Dividend, the closing market price plus estimated brokerage commissions per Common Share is equal to or greater than the net asset value per Common Share, the Plan Agent will invest the Dividend amount in Newly Issued Common Shares on behalf of the participants. The number of Newly Issued Common Shares to be credited to each participant's account will be determined by dividing the dollar amount of the Dividend by the net asset value per Common Share on the payment date; provided that, if the net asset value is less than or equal to 95% of the closing market value on the payment date, the dollar amount of the Dividend will be divided by 95% of the closing market price per Common Share on the payment date. If, on the payment date for any Dividend, the net asset value per Common Share is greater than the closing market value plus estimated brokerage commissions, the Plan Agent will invest the Dividend amount in Common Shares acquired on behalf of the participants in Open-Market Purchases. In the event of a market discount on the payment date for any Dividend, the Plan Agent will have until the last business day before the next date on which the Common Shares trade on an ex-dividend basis or 30 days after the payment date for such Dividend, whichever is sooner (the Last Purchase Date), to invest the Dividend amount in Common Shares acquired in Open-Market Purchases.

It is contemplated that the Fund will pay quarterly income Dividends. Therefore, the period during which Open-Market Purchases can be made will exist only from the payment date of each Dividend through the date before the next ex-dividend date, which typically will be approximately ten days.

If, before the Plan Agent has completed its Open-Market Purchases, the market price per common share exceeds the net asset value per Common Share, the average per Common Share purchase price paid by the Plan Administrator may exceed the net asset value of the Common Shares, resulting in the acquisition of fewer Common Shares than if the Dividend had been paid in Newly Issued Common Shares on the Dividend payment date. Because of the foregoing difficulty with respect to Open-Market Purchases, the Plan provides that if the Plan Agent is unable to invest the full Dividend amount in Open-Market Purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Agent will cease making Open-

**ADDITIONAL INFORMATION (UNAUDITED) (CONTINUED)**

---

Market Purchases and will invest the un-invested portion of the Dividend amount in Newly Issued Common Shares at the net asset value per common share at the close of business on the Last Purchase Date provided that, if the net asset value is less than or equal to 95% of the then current market price per Common Share, the dollar amount of the Dividend will be divided by 95% of the market price on the payment date.

The Plan Agent maintains all shareholders' accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by shareholders for tax records. Common Shares in the account of each Plan participant will be held by the Plan Agent on behalf of the Plan participant, and each shareholder proxy will include those shares purchased or received pursuant to the Plan. The Plan Agent will forward all proxy solicitation materials to participants and vote proxies for shares held under the Plan in accordance with the instructions of the participants.

In the case of shareholders such as banks, brokers or nominees which hold shares for others who are the beneficial owners, the Plan Agent will administer the Plan on the basis of the number of Common Shares certified from time to time by the record shareholder's name and held for the account of beneficial owners who participate in the Plan.

There will be no brokerage charges with respect to Common Shares issued directly by the Fund. However, each participant will pay a pro rata share of brokerage commissions incurred in connection with Open-Market Purchases. The automatic reinvestment of Dividends will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such Dividends. Participants that request a partial or full sale of shares through the Plan Agent are subject to a \$15.00 sales fee and a \$0.10 per share brokerage commission on purchases or sales, and may be subject to certain other service charges.

The Fund reserves the right to amend or terminate the Plan. There is no direct service charge to participants with regard to purchases in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants.

All questions concerning the Plan should be directed to the Fund's Shareholder Service Department at (800) 992-0180.

**KEY FINANCIAL DATES CALENDAR 2007 DIVIDENDS:**

| <b>DECLARATION<br/>DATE</b> | <b>EX-DIVIDEND<br/>DATE</b> | <b>PAYABLE<br/>DATE</b> |
|-----------------------------|-----------------------------|-------------------------|
| March 23, 2007              | April 2, 2007               | April 16, 2007          |
| June 22, 2007               | July 2, 2007                | July 16, 2007           |
| September 21, 2007          | October 1, 2007             | October 15, 2007        |
| December 21, 2007           | December 27, 2007           | January 15, 2008        |

*Record date will be two business days after each Ex-Dividend Date. These dates are subject to change.*

**Stock Data**

The Fund's common shares are traded on the NYSE (Symbol: IGA).

**Repurchase of Securities by Closed-End Companies**

In accordance with Section 23(c) of the 1940 Act, and Rule 23c-1 under the 1940 Act the Fund may from time to time purchase shares of beneficial interest of the Fund in the open market, in privately negotiated transactions and/or purchase shares to correct erroneous transactions.

#### **Number of Shareholders**

The approximate number of record holders of Common Stock as of August 31, 2007 was 16,223, which does not include beneficial owners of shares held in the name of brokers of other nominees.

#### **Certifications**

In accordance with Section 303A.12 (a) of the New York Stock Exchange Listed Company Manual, the Fund's CEO submitted the Annual CEO Certification on August 3, 2007 certifying that he was not aware, as of that date, of any violation by the Fund of the NYSE's Corporate governance listing standards. In addition, as required by Section 302 of the Sarbanes-Oxley Act of 2002 and related SEC rules, the Fund's principal executive and financial officers have made quarterly certifications, included in filings with the SEC on Forms N-CSR and N-Q, relating to, among other things, the Fund's disclosure controls and procedures and internal controls over financial reporting.

The Board has a Nominating Committee for the purpose of considering and presenting to the Board candidates it proposes for nomination to fill Independent Trustee vacancies on the Board. The Committee currently consists of all Independent Trustees of the Board. (6 individuals). The Nominating Committee operates pursuant to a Charter approved by the Board. The primary purpose of the Nominating Committee is to consider and present to the Board the candidates it proposes for nomination to fill vacancies on the Board. In evaluating candidates, the Nominating Committee may consider a variety of factors, but it has not at this time set any specific minimum qualifications that must be met. Specific qualifications of candidates for Board membership will be based on the needs of the Board at the time of nomination.

The Nominating Committee is willing to consider nominations received from shareholders and shall assess shareholder nominees in the same manner as it reviews its own nominees. A shareholder nominee for director should be submitted in writing to the Fund's Secretary. Any such shareholder nomination should include at a minimum the following information as to each individual proposed for nomination as trustee: such individual's written consent to be

## Edgar Filing: ING Global Advantage & Premium Opportunity Fund - Form N-CSRS

named in the proxy statement as a nominee (if nominated) and to serve as a trustee (if elected), and all information relating to such individual that is required to be disclosed in the solicitation of proxies for election of trustees, or is otherwise required, in each case under applicable federal securities laws, rules and regulations.

The secretary shall submit all nominations received in a timely manner to the Nominating Committee. To be timely, any such submission must be delivered to the Fund's Secretary not earlier than the 90th day prior to such meeting and not later than the close of business on the later of the 60th day prior to such meeting or the 10th day following the day on which public announcement of the date of the meeting is first made, by either disclosure in a press release or in a document publicly filed by the Fund with the Securities and Exchange Commission.

**Table of Contents**

**Item 11. Controls and Procedures.**

- (a) Based on our evaluation conducted within 90 days of the filing date, hereof, the design and operation of the registrant's disclosure controls and procedures are effective to ensure that material information relating to the registrant is made known to the certifying officers by others within the appropriate entities, particularly during the period in which Forms N-CSR are being prepared, and the registrant's disclosure controls and procedures allow timely preparation and review of the information for the registrant's Form N-CSR and the officer certifications of such Form N-CSR.
- (b) There were no significant changes in the registrant's internal controls that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

**Item 12. Exhibits.**

- (a)(1) The Code of Ethics is not required for the semi-annual filing.
  - (a)(2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2 under the Act (17 CFR 270.30a-2) is attached hereto as EX-99.CERT.
  - (a)(3) Not required for semi-annual filing.
  - (b) The officer certifications required by Section 906 of the Sarbanes-Oxley Act of 2002 are attached hereto as EX-99.906CERT.
