Cautionary Statement. This Annual Report contains certain statements relating to future results of the Company that are considered "forward-looking statements" within the meaning of the Private Litigation Reform Act of 1995. Actual results may differ materially from those expressed or implied as a result of certain risks and uncertainties, including, but not limited to, changes in political and economic conditions; interest rate fluctuation; competitive pricing pressures within the Company's market; equity and fixed income market fluctuation; technological change; changes in law; changes in fiscal, monetary, regulatory and tax policies; monetary fluctuations as well as other risks and uncertainties detailed elsewhere in this Annual Report or from time-to-time in the filings of the Company with the Securities and Exchange Commission. Such forward-looking statements speak only as of the date on which such statements are made, and the Company undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made or to reflect the occurrence of unanticipated events.

Item 1. Description of Business.

HMG/Courtland Properties, Inc. ("HMG"), organized in 1972, is a Delaware corporation and qualifies for taxation as a real estate investment trust ("REIT") under the Internal Revenue Code. HMG and its subsidiaries (the "Company") business is the ownership and management of income-producing commercial properties and its management considers other investments if such investments offer growth or profit potential. Properties owned by the Company include a hotel, private club and marina located in Coconut Grove, Florida; a shopping center in Jacksonville, Florida; and undeveloped land in Houston, Texas, Rhode Island and Vermont. The Company acquires its real estate and other investments utilizing available cash, trading securities or borrowing funds. The Company has invested its available cash in income-producing debt and equity instruments, including but not limited to those in real estate related activities. The Company's primary source of recurring operating revenue is from rental and related properties.

Reference is made to Item 12. Certain Relationships and Related Transactions for discussion of the Company's organizational structure and related party transactions.

Other investments.

The Company's other investments consist of equity interests in various privately held entities, primarily limited partnerships whose purpose is to invest venture capital funds in growth-oriented enterprises which may include investments in commercial real estate. As of December 31, 2003, the Company has committed to invest approximately \$11.1 million in these types of investments, of which approximately \$9.5 million has been funded. Of the total amount committed, approximately \$1.6 million is in real estate related investments and the remaining investments are in other private entities which invest in diversified growth-oriented enterprises.

Other investments give rise to exposure resulting from the volatility in capital markets. The Company mitigates its risks by diversifying its investment portfolio. Information with respect to the amounts and types of other investments including the nature of the declines in value is set forth in Note 4 of the Notes to Consolidated Financial Statements.

Edgar Filing: HMG COURTLAND PROPERTIES INC - Form 10KSB

Investments in marketable securities:

The Company invests idle cash in income producing instruments, including equity and debt securities issued primarily by large capital companies or government agencies with readily determinable fair values in varying industries including real estate investment trusts and mutual funds focusing in commercial real estate activities. All of the Company's marketable securities investments are in companies listed on major national stock markets, however the overall investment portfolio and some of the Company's investment strategies could be viewed as risky and the market values of the portfolio may be subject to fluctuations.

The Company may realize gains and losses in its overall investment portfolio from time to time to take advantage of market conditions and/or manage the portfolio's resources and the Company's tax liability. The Company may utilize margin for its marketable securities purchases through the use of standard margin agreements with national brokerage firms. The use of available leverage is guided by the business judgment of management. The Company may also use options and futures to hedge concentrated stock positions and index futures to hedge against market risk and enhance the performance of the Company's portfolio while reducing the overall portfolio's risk and volatility.

Consistent with the Company's overall investment objectives and activities management classifies all marketable securities as being held in a trading portfolio. Accordingly, all unrealized gains and losses on the Company's investments in marketable securities were recorded in the statement of operations.

Marketable securities are stated at market value as determined by the most recently traded price of each security at the balance sheet date. As of December 31, 2003 and 2002, the market value of investments in marketable securities amounted to approximately \$4.9 million and \$3.7 million, respectively.

Information with respect to the amounts and types of investments in marketable securities is set forth in Note 3 of the Notes to Consolidated Financial Statements.

Investment in affiliate:

Information with respect to the investment in affiliate is set forth in Note 5 of the Notes to Consolidated Financial Statements.

Insurance, Environmental Matters and Other.

In the opinion of management, all significant assets of the Company are adequately covered by insurance and the cost and effects of complying with environmental laws do not have a material impact on the Company's operations.

For the years ended December 31, 2003 and 2002 the Company elected not to renew its windstorm insurance coverage for the boat slips at the Grove Isle marina. At the time Management believed that the cost of the insurance coverage was overvalued in comparison with any benefit obtained from reduced risk. Furthermore, the structural stability and location of the slips (concrete pilings located in an inland bay) may mitigate the damage from windstorm. As a result of a more favorable insurance market, effective January 1, 2004 the

Edgar Filing: HMG COURTLAND PROPERTIES INC - Form 10KSB

Company was able to obtain windstorm coverage for the marina at a cost more favorable than previously available, and has renewed its windstorm coverage.

Competition.

The Company competes for suitable opportunities for real estate investments with other real estate investment trusts, foreign investors, pension funds, insurance companies and other investors. The Company also competes with other real estate investors and borrowers for available sources of financing.

In addition, to the extent the Company leases properties it must compete for tenants with other lessors offering similar facilities. Tenants are sought by providing modern, well-maintained facilities at competitive rentals. The Company has attempted to facilitate successful leasing of its properties by investing in facilities that have been developed according to the specifications of tenants and special local needs.

Employees.

The Company has one employee who is an officer of Courtland Investments (a 95%-owned consolidated subsidiary). This employee assumed the responsibilities of the prior project manager of one of the Company's properties. The Company has no employees other than officers who are not compensated for their services as such in accordance with its Advisory Agreement (the "Agreement") with the Adviser. Reference is made to Item 12. Certain Relationships and Related Transactions

Terms of the Agreement. Under the terms of the Agreement, the Adviser serves as the Company's investment adviser and, under the supervision of the directors of the Company, administers the day-to-day operations of the Company. All officers of the Company, other than the project manager described above (who is not employed by the Adviser), who are officers of the Adviser are compensated solely by the Adviser for their services. The Agreement is renewable annually upon the approval of a majority of the directors of the Company who are not affiliated with the Adviser and a majority of the Company's shareholders. The contract may be terminated at any time on 120 days written notice by the Adviser or upon 60 days written notice by a majority of the unaffiliated directors of the Company or the holders of a majority of the Company's outstanding shares.

On July 25, 2003, the shareholders approved the renewal of the Advisory Agreement between the Company and the Adviser for a term commencing January 1, 2004, and expiring December 31, 2004.

5

The Adviser is majority owned by Mr. Wiener with the remaining shares owned by certain officers, including Mr. Rothstein. The officers and directors of the Adviser are as follows: Maurice Wiener, Chairman of the Board and Chief Executive officer; Lawrence I. Rothstein, President, Treasurer, Secretary and Director; and Carlos Camarotti, Vice President - Finance and Assistant Secretary.

Advisory Fees. For the years ended December 31, 2003 and 2002, the Company and its subsidiaries paid the Adviser approximately \$977,000 and \$660,000 in fees, respectively, of which \$900,000 represented regular compensation and approximately \$77,000 represented incentive compensation for 2003. There was no incentive fee for 2002. The Adviser is also the manager for certain of the Company's affiliates and received management fees of approximately \$17,000 and \$30,000 in 2003 and 2002, respectively, for such services.

Item 2. Description of Property.

Grove Isle Hotel, Club and Marina (Coconut Grove, Florida). A 50 room hotel and private club facility ("the facility") located on 7 acres of a private island in Coconut Grove, Florida, known as "Grove Isle". In addition to the 50 hotel rooms, the facility includes public space, tennis courts, and an 85-yacht slip marina.

In November 1996, the Company entered into a long-term lease and a Master Agreement with Westgroup Grove Isle Associates, Ltd. ("Westgroup"), an affiliate of Noble House Resorts, Inc. which is a national operator of hotels and resorts. The Master Agreement, among other things, transferred the operations of the Grove Isle hotel and club to Westgroup.

The initial term of the lease with Westgroup is ten years and calls for annual net base rent, as amended in 1999, of \$918,400, plus real estate taxes and property insurance, payable in monthly installments. In addition to the base rent, Westgroup also pays the Company participation rent consisting of a portion of Westgroup's operating surplus. Participation rent is due at end of each lease year. There has been no participation rent since the inception of the lease. The 1999 lease amendment also increased base rent commencing January 1, 2002 in accordance with changes in the Consumer Price Index ("CPI"). Base rent for 2003 was \$986,986, increasing to \$1,003,157 in 2004. Concurrently, participation rent will be reduced by the amount by which base rent increases solely as a result of CPI increases for the lease year.

The facility is encumbered by a mortgage note payable with an outstanding balance of approximately \$3.4 million and \$3.8 million as of December 31, 2003 and 2002, respectively. This loan bears interest at 6.86% until September 2004, then adjusted every three years thereafter to 2.9% plus the current index value of the weekly average yield on U.S. Treasury securities. This loan matures in September 2010.

In 1997 and in conjunction with the aforementioned agreements, the Company advanced \$500,000 to the principal owner of Noble House Resorts, Inc. and received a promissory note bearing interest at 8% per annum with interest payments due quarterly beginning on July 1, 1997 with all principal due at maturity in 2006. All interest payments due have been received.

6

As of December 31, 2003, 8 of the 85 yacht slips are owned by the Company and the other 77 are owned by unrelated individuals or their entities. During 2003, the Company sold four yacht slips for a total sales price of approximately \$588,000. The net gain to the Company was approximately \$356,000. The Company operates and maintains all aspects of the marina at Grove Isle in exchange for an annual maintenance fee from the slip owners to cover operational expenses. In addition the Company rents the unsold slips to boat owners on short term basis.

Fashion Square Shopping Center (Jacksonville, Florida). A shopping center located on approximately 11 acres in Jacksonville, Florida, presently consisting of five nationally franchised operating restaurants and a retail site. Four of the five restaurant operators are leasing the property from the Company and the fifth restaurant operator purchased its site from the Company in 1995. The retail site is owned and operated by an unrelated party. This property is encumbered by two mortgage loans due to a bank totaling \$650,000 which bear interest at a fixed rate of 7.5% and calls for monthly interest-only payments

Edgar Filing: HMG COURTLAND PROPERTIES INC - Form 10KSB

with all principal due in November 2004.

The tenants of the four leased restaurants are described below:

Restaurant #1:

The tenant is an operator of a 7,000 square foot restaurant on a one acre parcel covered by a ground lease which commenced in March 1994. The initial term of the lease is ten years and provides for base rent of \$60,000 per year with 1% increases each subsequent year. In February 2004 the tenant-operator of this restaurant filed a voluntary petition for reorganization relief under the Chapter 11 U.S. Bankruptcy Code and is current with all terms of the lease agreement.

Restaurant #2:

The tenant is an operator of a 5,300 square foot restaurant on a 3/4 acre parcel covered by a ground lease which commenced in November 1995. The initial term of the lease is twenty years and provides for base rent of \$60,000 per year with a 12.5% increase every five years.

Restaurant #3:

The tenant is an operator of a 6,242 square foot restaurant which was constructed in 1996. The initial term of the lease is ten years which commenced in December 1996 and provides for annual base rent of \$80,000 for years one through five and \$88,000 for years six through ten. The lease also calls for percentage rent based on sales. In 2003 the partnership received approximately \$2,000 in percentage rent. No percentage rent was due in 2002. The lease also provides three five year renewal options for years eleven through twenty-five with escalating base rent.

Restaurant #4:

The tenant is an operator of a 4,000 square foot restaurant which was constructed in 2001. The Company contributed \$200,000 in improvements towards the construction of the restaurant building. The initial term of the lease is ten years which commenced in September 2001 and provides for base rent of \$98,000 per year with increases of

7

approximately 4% each subsequent year. In September 2003 the tenant operating this restaurant ceased operations. As of March 2004 all payments required by the lease agreement are current.

Land held for development (Texas and Rhode Island):

As of December 31, 2003, the Company owns approximately 7 acres of vacant land held for development located in Houston, Texas. In September 2003, the Company sold approximately 5 acres of this land for \$1.2 million recognizing a net gain of approximately \$281,000.

Additionally the Company owns approximately 50 acres of vacant land held for development located in Rhode Island.

Retail stores (New York and Vermont):

Edgar Filing: HMG COURTLAND PROPERTIES INC - Form 10KSB

The Company owns 2 retail store locations, one in Kingston, New York and the other in Montpelier, Vermont. The Kingston property is leased through July 2006 and calls for annual base rent of approximately \$52,000 with a renewal option after three years with adjustments for inflation. The Montpelier property is vacant and held for development or sale.

The Kingston, NY retail store described above is owned by a joint venture of which the Company is an approximate 70% owner. The 30% minority partner is NAF Associates. Reference is made to Item 12. Certain Relationships and Related Transactions, HMG Fieber Associates.

Executive offices (Coconut Grove, Florida):

 The principal executive offices of the Company and the Adviser are located at 1870 South Bayshore Drive, Coconut Grove, Florida, 33133, in premises owned by the Company and leased to the Adviser pursuant to a lease agreement dated December 1, 1999. The lease provides for base rent of \$48,000 per year payable in equal monthly installments during the initial five year term of the lease. Additionally, the tenant pays the property taxes, insurance, utility, and maintenance and security expenses relating to the leased premises. This property is encumbered by mortgage loan due to a bank of approximately \$361,000. This loan bears interest at a fixed rate of 4.75% through maturity and calls for monthly principal and interest payments with all principal due in August 2007.

The Company regularly evaluates potential real estate acquisitions for future investment or development and would utilize funds currently available or from other resources to implement its strategy.

Item 3. Legal Proceedings

Item 6. Management's Discussion and Analysis or Plan of Operation.

Critical Accounting Policies and Estimates:

Securities and Exchange Commission Financial Reporting Release No. 60 requires all companies to include a discussion of critical accounting policies and methods used in the preparation of the financial statements. Note 1 of the consolidated financial statements, included elsewhere on this annual report of Form 10KSB, includes a summary of the significant accounting policies and methods used in the preparation of the Company's consolidated financial statements. The Company believes the following critical accounting policies affect the significant judgments and estimates used in the preparation of the Company's financial statements:

Marketable Securities. Consistent with the Company's overall investment objectives and activities, management has classified its entire marketable securities portfolio as trading. As a result, all unrealized gains and losses on the Company's investment portfolio are included in the statement of operations. Our investments in trading equity and debt marketable securities are valued based on quoted market prices. Marketable securities are subject to fluctuations in value in accordance with market conditions.

Other Investments. The Company's other investments consist primarily of nominal equity interests in various privately-held entities, including limited partnerships whose purpose is to invest venture capital funds in growth-oriented enterprises. The Company does not have significant influence over any investee and no single investment exceeds 5% of the Company's total assets. None of these investments meet the criteria of accounting under the equity method and are carried at cost; less distributions deemed return of capital and other than temporary unrealized losses. These investments do not have available quoted market prices, so we must rely on valuations and related reports and information provided to us by those entities. These

valuations are by their nature subject to estimates which could change significantly from period to period. The Company regularly reviews the underlying assets in its other investment portfolio for events, including but not limited to bankruptcies, closures and declines in estimated fair value, that may indicate the investment has suffered an other-than-temporary decline in value. When a decline is deemed other-than-temporary, we permanently reduce the cost basis component of the investments. As such, any recoveries in the value of

Edgar Filing: HMG COURTLAND PROPERTIES INC - Form 10KSB

the investments will not be recognized until the investments are sold.

Our estimates of each of these items historically have been adequate. However, due to uncertainties inherent in the estimation process, it is reasonably possible that the actual resolution of any of these items could vary significantly from the estimate and, accordingly, there can be no assurance that the estimates may not materially change in the near term.

Real Estate. Land, buildings and improvements, furniture, fixtures and equipment are recorded at cost. Tenant improvements, which are included in buildings and improvements, are also stated at cost. Expenditures for ordinary maintenance and repairs are expensed to operations as they are incurred. Renovations and/or replacements, which improve or extend the life of the asset are capitalized and depreciated over their estimated useful lives.

Depreciation is computed utilizing the straight-line method over the estimated useful lives of ten to forty years for buildings and improvements and five to ten years for furniture, fixtures and equipment. Tenant improvements are amortized on a straight-line basis over the term of the related leases.

The Company is required to make subjective assessments as to the useful lives of its properties for purposes of determining the amount of depreciation to reflect on an annual basis with respect to those properties. These assessments have a direct impact on the Company's net income. Should the Company lengthen the expected useful life of a particular asset, it would be depreciated over more years, and result in less depreciation expense and higher annual net income.

Assessment by the Company of certain other lease related costs must be made when the Company has a reason to believe that the tenant will not be able to execute under the term of the lease as originally expected.

The Company periodically reviews the carrying value of certain of its properties and long-lived assets in relation to historical results, current business conditions and trends to identify potential situations in which the carrying value of assets may not be recoverable. If such reviews indicate that the carrying value of such assets may not be recoverable, the Company would estimate the undiscounted sum of the expected future cash flows of such assets or analyze the fair value of the asset, to determine if such sum or fair value is less than the carrying value of such assets to ascertain if a permanent impairment exists. If a permanent impairment exists, the Company would determine the fair value by using quoted market prices, if available, for such assets, or if quoted market prices are not available, the Company would discount the expected future cash

11

flows of such assets and would adjust the carrying value of the asset to fair value. Judgments as to impairments and assumptions used in projecting future cash flow are inherently imprecise.

Results of Operations:

For the year ended December 31, 2003, the Company reported net income of approximately \$181,000 (or \$.17 per share) compared with a net loss of approximately \$1,564,000 (or \$1.44 per share) for the year ended December 31, 2002.

Revenues:

Total revenues for the year ended December 31, 2003 as compared with that of

Edgar Filing: HMG COURTLAND PROPERTIES INC - Form 10KSB

2002 increased by approximately \$3,306,000, as discussed below.

Real estate rentals and related revenue increased by approximately \$56,000 (or 3%) for the year ended December 31, 2003 as compared with 2002. This was the result of an increase in rental and related revenues from the Grove Isle hotel of approximately \$25,000 primarily due to an inflationary adjustment to base rent in 2003, approximately \$18,000 from the lease renewal of Kingston, NY retail store addition and approximately \$11,000 from a new tenant at the Jacksonville shopping center.

Marina revenues increased by approximately \$15,000 (or 3%) for the year ended December 31, 2003 as compared with 2002. Related marina expense increased by \$31,000 (or 9%). Increased marina expenses were primarily due to increase payroll and related expenses. There were four yacht slips sold during 2003.

Net gain (loss) from investments in marketable securities, including marketable securities distributed by partnerships in which the Company owns minority positions, for the years ended December 31, 2003 and 2002, is as follows:

Description -----	2003 ----	2002 ----
Net realized gain (loss) from sales of securities	\$ 37,000	(\$1,356,000)
Unrealized net gain (loss) in marketable securities	754,000	383,000
Net change in sales of securities pending delivery	(24,000)	(165,000)
	-----	-----
Total net gain (loss) from investments in marketable securities	\$767,000	(\$1,138,000)
	=====	=====

Net realized gain from sales of marketable securities consisted of approximately \$362,000 of gains net of \$325,000 of losses for the year ended December 31, 2003. The comparable amounts in fiscal year 2002 were losses of approximately \$1.96 million of losses net of \$600,000 of gains. Approximately \$197,000 and \$240,000 of gains in fiscal years 2003 and 2002, respectively, were recognized from the sale of stock distributions from the Company's investments in privately held partnerships.

Consistent with the Company's overall current investment objectives and activities the entire marketable securities portfolio is classified as trading (versus available for sale, as defined by generally accepted accounting principles). Unrealized gains or losses from marketable securities are recorded as revenues in the statement of operations.

Investment gains and losses on marketable securities may fluctuate significantly from period to period in the future and could have a significant impact on the Company's net earnings. However, the amount of investment gains or losses on

Edgar Filing: HMG COURTLAND PROPERTIES INC - Form 10KSB

marketable securities for any given period has no predictive value and variations in amount from period to period have no practical analytical value.

Investments in marketable securities give rise to exposure resulting from the volatility of capital markets. The Company believes its risk to be mitigated by the diversity of its marketable securities portfolio.

Net gain (loss) from other investments is summarized below:

	2003	2002

Totals	\$ 51,175	(\$1,270,729)
	=====	=====

- (a) In connection with management's regular review of other investments including analyzing such factors as bankruptcies and realized losses of underlying investees the Company recorded adjustments to write down investments in these sectors for declines in value deemed to be other-than-temporary. In 2003 management recorded a total of \$114,000 in write-downs in two funds which were invested primarily in communications industry. The 2002 loss included approximately \$556,000 of write downs related to impairments experienced in three funds with a heavy concentration in technology-related businesses.
- (b) This gain consists primarily of the final substantial distribution from an investment in a real estate development project located in Miami, Florida.
- (c) Included in the loss for 2002 is \$252,000 representing a partial write down of an investment in a limited partnership which owns various diversified businesses, primarily in the manufacturing and production related sectors. One of these businesses in the metal forming industry experienced a permanent impairment in value as a result of a business

13

restructuring in November 2002. The Company's ownership percentage in this limited partnership is approximately .51%. The remaining loss in 2002 of \$95,000 related to an other-than-temporary decline in value of a partnership which invested in large capital growth-oriented companies in diversified businesses.

- (d) The Company invested \$350,000 in May 2000 for a 10% interest in the operations of a restaurant located in Atlanta, Georgia. The restaurant opened in February 2001 but was never able to sustain the required level of revenues required for profitability. In February 2003 the restaurant ceased operations. The Company's investment was written off as of December 31, 2002.
- (e) Income from the Company's 49% owned affiliate (T.G.I.F. Texas, Inc., reference is made to Note 5 of the Notes to Consolidated Financial Statements) decreased primarily as a result of reduced rental revenue.

Edgar Filing: HMG COURTLAND PROPERTIES INC - Form 10KSB

Net gain or loss from other investments may fluctuate significantly from period to period in the future and could have a significant impact on the Company's net earnings. However, the amount of investment gain or loss from other investments for any given period has no predictive value and variations in amount from period to period have no practical analytical value.

Interest, dividend and other income for the year ended December 31, 2003 remained consistent as compared with that of 2002.

Expenses:

Total expenses for the year ended December 31, 2003 as compared to that of 2002 increased by approximately \$374,000 (or 12%).

Operating expenses of rental and other properties for the year ended December 31, 2003 remained consistent as compared with that of 2002.

Marina expenses increased by approximately \$31,000 (or 9%) for the year ended December 31, 2003 as compared to 2002. This increase was primarily due to increase personnel costs at the marina of approximately \$16,000 and increased utility costs.

Effective January 1, 2003 a contractual increase in the Advisory Agreement commenced resulting in an increase in base Adviser fee from \$660,000 to \$900,000 per annum.

Professional fees and expenses for the year ended December 31, 2003 remained consistent as compared with that of 2002.

Interest expense decreased by approximately \$47,000 (or 9%) for year ended December 31, 2003 as compared to 2002 primarily due to decreased loan amounts outstanding as a result of principal repayments, and an overall decline in interest rates on the Company's variable rate mortgages and notes payable.

Net gain on sales of real estate for the years ended December 31, 2003, and 2002 consisted of the following:

14

Property Sold -----	Net gain after incentive fee and minority interest -----	
	2003 ----	2002 ----
Yacht slips in Florida	\$356,000	\$315,000
Undeveloped land in Texas	282,000	--
Undeveloped land in Massachusetts	--	255,000
Retail stores in New York and Massachusetts	--	63,000
Total	\$638,000	\$633,000
	=====	=====

Net gain on sales of properties has been reduced, where applicable, by minority partners' interest in the gain of \$19,000 and \$58,000 for the years ended December 31, 2003 and 2002, respectively, and by adviser's incentive fees of \$69,000 for the year ended December 31, 2003.

Provision for income taxes for the year ended December 31, 2003 was

Edgar Filing: HMG COURTLAND PROPERTIES INC - Form 10KSB

approximately \$323,000 which consisted entirely of deferred income tax expense. There is no current income tax provision or liability and the deferred income tax expense primarily consists of the utilization of prior year net operating loss carry forward (see Note 8 of the Notes to Consolidated Financial Statements). The Company follows the liability method of accounting for income taxes. Under this method, deferred tax liabilities and assets are recognized for the expected future tax consequences of temporary differences between the carrying amount and the tax basis of assets and liabilities at each year-end based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. As a result of timing differences associated with the carrying value of other investments and depreciable assets and the future benefit of a net operating loss, as of December 31, 2003 and 2002, respectively, the Company has recorded a net deferred tax asset of \$478,000 and \$801,000. A valuation allowance against deferred tax asset has not been established as management believes it is more likely than not, based on the Company's previous history and expectation of future taxable income before expiration, that these assets will be realized.

Effect of Inflation:

 Inflation affects the costs of operating and maintaining the Company's investments. In addition, rentals under certain leases are based in part on the lessee's sales and tend to increase with inflation, and certain leases provide for periodic adjustments according to changes in predetermined price indices.

Liquidity, Capital Expenditure Requirements and Capital Resources: The Company's material commitments primarily consist of maturities of debt obligations of approximately \$3.8 million in 2004 and contributions committed to other investments of approximately \$1.6 million due upon demand. The funds necessary to meet these obligations are expected from the proceeds from the sales of properties or investments, refinancing, distributions from investments and available cash. Included in the maturing debt obligations for 2004 is a note payable to the Company's 49% owned affiliate, T.G.I.F. Texas, Inc. ("TGIF") (Reference is made to Item 12 Certain Relationships and Related Transactions) of approximately \$3.7 million. This amount is due on

demand. The obligation due to TGIF will be paid with funds available from distributions from its investment in TGIF and from available cash.

A summary of the Company's contractual cash obligations at December 31, 2003 is as follows:

Contractual Obligations	Payments Due by Period			
	Total	Less than 1 year	1 - 3 years	4 - 5 ye
Mortgages and Notes Payable	\$8,086,227	\$3,840,386	\$1,039,663	\$434
Other Investment Commitments (a)	1,643,000	1,643,000	--	

Edgar Filing: HMG COURTLAND PROPERTIES INC - Form 10KSB

Total	\$9,729,227	\$5,483,386	\$1,039,663	\$434
-------	-------------	-------------	-------------	-------

(a) The timing of amounts due under commitments for other investments is determined by the managing partners of the individual investments. These amounts are reflected as due in less than one year although the actual funding may not be required until some time in the future.

Material Changes in Operating, Investing and Financing Cash Flows:

The Company's cash flows are generated primarily from its real estate activities, sales of investment securities, distributions from other investments and borrowings. For the year ended December 31, 2003 the Company used net cash in operating activities of approximately \$1.4 million. This primarily consisted of the repayment of margin loan balances of approximately \$680,000 and investments in marketable securities in excess of proceeds from sales of securities of approximately \$371,000. The Company believes that there will be sufficient cash flows in the next year to meet its operating requirements.

For the year ended December 31, 2003, the net cash provided by investing activities of approximately \$2.7 million consisted primarily of net proceeds from the sales of properties of \$1.6 million, distributions from investments of approximately \$1.5 million and repayment of notes and advances due from related parties of \$426,000. These sources of cash were partially offset by net contributions to investments of approximately \$843,000.

For the year ended December 31, 2003, net cash used in financing activities was approximately \$536,000 consisting of the repayment of mortgages and notes payable.

HMG/COURTLAND PROPERTIES, INC. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 YEARS ENDED DECEMBER 31, 2003 and 2002

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Business and Consolidation. The consolidated financial statements include the accounts of HMG/Courtland Properties, Inc. (the "Company") and entities in which the Company owns a majority voting interest or controlling financial interest. The Company was organized in 1972 and qualifies for taxation as a real estate investment trust ("REIT") under the Internal Revenue Code. All material transactions and balances with consolidated and unconsolidated entities have been eliminated in consolidation or as required under the equity method.

The Company's consolidated subsidiaries are described below:

Courtland Investments, Inc. ("CII"). A 95% owned corporation, which owns 100% of Grove Isle Yacht Club Associates and a 15% general partnership interest in Grove Isle Associates, Ltd. CII also invests in marketable securities and various investments in partnerships whose primary purpose is to make equity investments in growth-oriented enterprises and real estate.

Edgar Filing: HMG COURTLAND PROPERTIES INC - Form 10KSB

The Company holds a 95% non-voting interest and Masscap Investments Company, Inc. ("Masscap") holds a 5% voting interest in CII. The Company and Masscap have had a continuing arrangement with regard to the ongoing operations of CII, which provides the Company with complete authority over all decision making relating to the business, operations and financing of CII consistent with the Company's status as a real estate investment trust. Masscap is a wholly-owned subsidiary of Transco Realty Trust which is a 44% shareholder of the Company.

Grove Isle Associates, Ltd. ("GIA"). This limited partnership (owned 85% by the Company and 15% by CII) owns a 50-room, hotel and private club facility located on approximately 7 acres of a private island in Coconut Grove, Florida known as Grove Isle. (See Note 10).

Grove Isle Yacht Club Associates ("GIYCA"). This partnership was the developer of the 85 boat slips located at Grove Isle of which the Company owns 8 as of December 31, 2003. All other slips are privately owned. Grove Isle Marina, Inc. a wholly-owned subsidiary of GIYCA operates all aspects of the Grove Isle marina.

Courtland/Key West, Inc. ("CKWI"). This Corporation was formed in December 1999 and is wholly-owned by CII. CKWI owns a 10% interests in two limited liability companies that were formed for the purpose of owning and operating restaurants.

The Grove Towne Center - Texas, Ltd ("TGTC"). This limited partnership is a wholly-owned by the Company. The sole asset of the partnership is 8 acres of undeveloped land located in suburban Houston, Texas.

24

South Bayshore Associates ("SBA"). This is a 75% owned joint venture where the major asset is a receivable from the Company's 44% shareholder, Transco Realty Trust.

HMG - Fieber Associates ("Fieber"). This is a 70% owned joint venture where the major asset is a retail store located in the state of New York.

260 River Corp ("260"). This is a wholly-owned corporation which owns a 70% interest in a retail store location in Montpelier, Vermont.

HMG Fashion Square, Inc. ("HMGFSSQ"). This is a wholly-owned corporation where the major asset is a shopping center on an approximate 11-acre site in Jacksonville, Florida. As of December 31, 2003, this shopping center had three tenants operating restaurants and one former restaurant operator.

Preparation of Financial Statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Income Taxes. The Company accounts for income taxes in accordance with the Statement of Financial Accounting Standards (SFAS) No. 109, "Accounting for Income Taxes". SFAS No. 109 requires a Company to use the asset and liability method of accounting for income taxes. Under the asset and liability method, deferred income taxes are recognized for the tax consequences of "temporary differences" by applying enacted statutory tax rates applicable to future years to differences between the financial statement carrying amounts and

Edgar Filing: HMG COURTLAND PROPERTIES INC - Form 10KSB

the tax bases of existing assets and liabilities. Under SFAS No. 109, the effect on deferred income taxes of a change in tax rates is recognized in income in the period that includes the enactment date. The Company qualifies as a real estate investment trust and distributes its taxable ordinary income to stockholders in conformity with requirements of the Internal Revenue Code. In addition, net operating losses can be carried forward to reduce future taxable income but cannot be carried back.

Distributed capital gains on sales of real estate as they relate to REIT activities are not subject to taxes; however, undistributed capital gains are taxed as capital gains. State income taxes are not significant. Any benefit from or provisions for income taxes relates to the Company's undistributed capital gains and taxable losses or income of CII which is not consolidated with the Company for income tax purposes and accordingly files a separate tax return. Refer to Note 8 for further disclosure on income taxes.

Depreciation and Amortization. Depreciation of properties held for investment is computed using the straight-line method over the estimated useful lives of the properties, which range up to 39.5 years. Deferred mortgage and leasing costs are amortized over the shorter of the respective

25

term of the related indebtedness or life of the asset. Depreciation and amortization expense for the years ended December 31, 2003 and 2002 was approximately \$585,000 and \$603,000, respectively. The yacht slips are being depreciated on a straight-line basis over their estimated useful life of 20 years.

Fair Value of Financial Instruments. The carrying value of financial instruments including other receivables, notes and advances due from related parties, accounts payable and accrued expenses and mortgages and notes payable approximate their fair values at December 31, 2003 and 2002, due to their relatively short terms or variable interest rates.

Marketable Securities. The entire marketable securities portfolio is classified as trading consistent with the Company's overall investment objectives and activities. Accordingly, all unrealized gains and losses on the Company's marketable securities investment portfolio are included in the statement of operations.

Gross gains and losses on the sale of marketable securities are based on the first-in first-out method of determining cost.

Marketable securities from time to time are pledged as collateral pursuant to broker margin requirements. As of December 31, 2003 there were no such amounts outstanding. As of December 31, 2002 there was approximately \$510,000 of margin balances payable to brokers which were included in other liabilities.

Notes and other receivables. Management periodically performs a review of amounts due on its notes and other receivable balances to determine if they are impaired based on factors affecting the collectibility of those balances. Management's estimates of collectibility of these receivables requires management to exercise significant judgment about the timing, frequency and severity of collection losses, if any, and the underlying value of collateral, which may affect recoverability of such receivables. As of December 31, 2003 and 2002, there were no receivables that required an allowance.

Sales of Securities Pending Delivery. Sales of securities pending delivery

Edgar Filing: HMG COURTLAND PROPERTIES INC - Form 10KSB

represent the fair market value of shares sold with the promise to deliver that security at some future date. The obligation may be satisfied with current holdings of the same security or by subsequent purchases or acquisitions of that security. Unrealized gains and losses from changes in the obligation are included in earnings.

Equity investments. Investments in which the Company does not have a majority voting or financial controlling interest but has the ability to exercise influence are accounted for under the equity method of accounting, even though the Company may have a majority interest in profits and losses.

The Company's generally has no voting or financial controlling interests in its other investments which include entities that invest venture capital funds in growth oriented enterprises. These other investments are carried at cost less adjustments for other than temporary declines in value.

26

Comprehensive Income (Loss). The Company reports comprehensive income (loss) in the consolidated statement of stockholders' equity. Comprehensive income (loss) is the change in equity from transactions and other events from nonowner sources. Comprehensive income (loss) includes net income (loss) and other comprehensive income (loss). There were no comprehensive income (loss) items in 2002 or 2003.

Earnings Per Common Share. Net income per common share (basic and diluted) is based on the net income divided by the weighted average number of common shares outstanding during each year. Diluted net income per share includes the dilutive effect of options to acquire common stock. Common shares outstanding include issued shares less shares held in treasury. Options to acquire 86,000 shares of the Company's common stock were excluded from the calculation of diluted earnings per share in 2002, as their effect is anti-dilutive.

and 2002 and there is no pro-forma effect.

Revenue Recognition. The Company is the lessor of various real estate properties. All of the lease agreements are classified as operating leases and accordingly all rental revenue is recognized as earned based upon total fixed cash flow over the initial term of the lease, using the straight line method. Percentage rents are based upon tenant sales levels for a specified period and are recognized on the accrual basis, based on the lessee's monthly sales. Reimbursed expenses for real estate taxes, common area maintenance, utilities and insurance are recognized in the period in which the expenses are incurred, based upon the provisions of the tenant's lease.

28

In addition to base rent, the Company may receive participation rent consisting of a portion of the tenant's operating surplus, as defined in the lease agreement. Participation rent is due at end of each lease year and recognized when earned.

Asset Impairments. The Company periodically reviews the carrying value of its properties and long-lived assets in relation to historical results, current business conditions and trends to identify potential situations in which the carrying value of assets may not be recoverable. If such reviews indicate that the carrying value of such assets may not be recoverable, the Company would estimate the undiscounted sum of the expected future cash flows of such assets or analyze the fair value of the asset, to determine if such sum or fair value is less than the carrying value of such assets to ascertain if a permanent impairment exists. If a permanent impairment exists, the Company would determine the fair value by using quoted market prices, if available, for such assets, or if quoted market prices are not available, the Company would discount the expected future cash flows of such assets and would adjust the carrying value of the asset to fair value.

Recent Accounting Pronouncements:

During April 2003, the FASB issued SFAS 149 - "Amendment of Statement 133 on Derivative Instruments and Hedging Activities", effective for contracts entered into or modified after June 30, 2003, except as stated below and for hedging relationships designated after June 30, 2003. In addition, except as stated below, all provisions of this Statement should be applied prospectively. The provisions of this Statement that relate to Statement 133 Implementation Issues that have been effective for fiscal quarters that began prior to June 15, 2003, should continue to be applied in accordance with their respective effective dates. In addition, paragraphs 7(a) and 23(a), which relate to forward purchases or sales of then-issued securities or other securities that do not yet exist, should be applied to both existing contracts and new contracts entered into after June 30, 2003. The Company does not participate in such transactions, and accordingly, adoption of this statement did not have a material effect on the Company's financial statements.

During May 2003, the FASB issued SFAS 150 - "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity", effective for financial instruments entered into or modified after May 31, 2003, and otherwise is effective at the beginning of the first interim period beginning after June 15, 2003. This Statement establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. It requires that an issuer classify a freestanding financial instrument that is within its scope as a liability (or an asset in some circumstances). Many of those instruments were previously classified as equity.

Edgar Filing: HMG COURTLAND PROPERTIES INC - Form 10KSB

Some of the provisions of this Statement are consistent with the current definition of liabilities in FASB Concepts Statement No. 6, "Elements of Financial Statements". The Company does not participate in such transactions, and accordingly, adoption of this statement did not have a material effect on the Company's financial statements.

In January 2003, the FASB issued FASB Interpretation No. 46 ("FIN 46"), "Consolidation of Variable Interest Entities." FIN 46 clarifies the application of Accounting Research Bulletin No. 51, "Consolidated Financial Statements," to certain entities in which equity investors do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other

29

parties. FIN 46 applies immediately to variable interest entities ("VIE's") created after January 31, 2003, and to VIE's in which an enterprise obtains an interest after that date. On October 9, 2003 the FASB issued FASB Staff Position No. FIN 46-6 "Effective Date of FASB Interpretation No.46 Consolidation of Variable Interest Entities," which defers the implementation date for public entities that hold an interest in a variable interest entity or potential variable interest entity from the first fiscal year or interim period beginning after June 15, 2003 to the end of the first interim or annual period ending after December 15, 2003. This deferral applies only if 1) the variable interest entity was created before February 1, 2003 and 2) the public entity has not issued financial statements reporting that variable interest entity in accordance with FIN 46, other than disclosures required by paragraph 26 of FIN 46. The adoption of FIN 46 did not have a material impact on the Company's financial position, liquidity or results of operations.

3. INVESTMENTS IN MARKETABLE SECURITIES

Investments in marketable securities consist primarily of large capital corporate equity and debt securities in varying industries or issued by government agencies with readily determinable fair values (see table below). These securities are stated at market value, as determined by the most recently traded price of each security at the balance sheet date. The value of any single

Edgar Filing: HMG COURTLAND PROPERTIES INC - Form 10KSB

security does not exceed 5% of the total value of the portfolio. Consistent with the Company's overall current investment objectives and activities its entire marketable securities portfolio is classified as trading. All unrealized gains and losses on this portfolio are recorded in the statement of operations. For the years ended December 31, 2003 and 2002 net unrealized gains on trading securities were approximately \$754,000 and \$383,000, respectively.

(a) As of December 31, 2003, corporate and government debt securities are scheduled to mature as follows:

	Cost	Fair Value
2004 - 2008	\$ 369,000	\$ 353,000
2009-2013	325,000	338,000
2014 - thereafter	1,859,000	1,796,000
	\$2,553,000	\$2,487,000

Net gain (loss) from investments in marketable securities for the years ended December 31, 2003 and 2002 is summarized below:

Description -----	2003 ----	2002 ----
Net realized gain (loss) from sales of securities	\$ 37,000	(\$1,356,000)
Unrealized net gain in marketable securities	754,000	383,000

	-----	-----
Total net gain (loss)	\$ 767,000 =====	(\$1,138,000) =====

Net realized gain from sales of marketable securities consisted of approximately \$362,000 of gains net of \$325,000 of losses for the year ended December 31, 2003. The comparable amounts in fiscal year 2002 were losses of approximately \$1.96 million net of \$600,000 of gains. Approximately \$197,000 and \$240,000 of gains in fiscal years 2003 and 2002, respectively, were recognized from the sale of stock distributions from the Company's investments in privately held partnerships.

Consistent with the Company's overall current investment objectives and activities the entire marketable securities portfolio is classified as trading (versus available for sale, as defined by generally accepted accounting principles). Unrealized gains or loss of marketable securities on hand are recorded in the statement of operations.

Net change in sales of securities pending delivery represents the changes in the market value of those securities and the delivery of securities during 2003 and 2002 to realize gain or loss from these transactions.

Investment gains and losses on marketable securities may fluctuate significantly from period to period in the future and could have a significant impact on the Company's net earnings. However, the amount of investment gains or losses on marketable securities for any given period has no predictive value and variations in amount from period to period have no practical analytical value.

Investments in marketable securities give rise to exposure resulting from the volatility of capital markets. The Company attempts to mitigate its risk by diversifying its marketable securities portfolio.

4. OTHER INVESTMENTS

The Company's other investments consist primarily of nominal equity interests in various privately-held entities, including limited partnerships whose purpose is to invest venture capital funds in growth-oriented enterprises. The Company does not have significant influence over any investee and no single investment exceeds 5% of the Company's total assets. None of these

Edgar Filing: HMG COURTLAND PROPERTIES INC - Form 10KSB

investments meet the criteria of accounting under the equity method and are carried at cost less distributions and other than temporary unrealized losses.

The Company's other investments consist of:

Investment Focus	Carrying Values as of December 31,

Other	360,000	210,000
Totals	\$5,048,016 =====	\$5,694,448 =====

As of December 31, 2003, the Company has committed to invest approximately \$11.1 million in these and other similar types of entities of which approximately \$9.5 million has been funded. During the years ended December 31, 2003 and 2002 the Company contributed approximately \$843,000 and \$1.2 million, respectively, toward these commitments and received distributions from these investments (primarily cash distributions) of \$1.5 million and \$159,000, respectively.

The Company regularly reviews the underlying assets in its investment portfolio for events, including but not limited to bankruptcies, closures and declines in estimated fair value, that may indicate the investment has suffered an other-than-temporary decline in value. When a decline is deemed other-than-temporary, the Company recognizes an investment loss.

Net gain (loss) from other investments, which includes adjustments to write down the carrying value of such investments as a result of an other-than-temporary declines in value, is as follows (the total amount written down during 2003 and 2002 was approximately \$114,000 and \$1.5 million, respectively):

Other investments give rise to exposure resulting from credit risks and the volatility in capital markets. The Company attempts to mitigate its risks by diversifying its investment portfolio. Net gain or loss from other investments may fluctuate significantly from period to period in the future and could have a significant impact on the Company's net earnings.

5. INVESTMENT IN AFFILIATE

Investment in affiliate consists of CII's 49% equity interest in T.G. I.F. Texas, Inc. (T.G.I.F.). T.G.I.F. is a closely held Texas Corporation, which owns one net leased property in Louisiana and holds promissory notes receivable from its shareholders, including CII and Maurice Wiener, the Chairman of the Company. Reference is made to Notes 6 and 7 for discussion on notes payable by CII to T.G. I.F. and notes payable by Mr. Wiener to T.G.I.F. This investment is recorded under the equity method of accounting. For the years ended December 31, 2003 and 2002 income from investment in affiliate amounted to approximately \$32,000 and \$43,000, respectively and is included in gain (loss) from other investments in the consolidated statement of operations.

This amount bears interest at Prime +1% and is due on demand.

The Adviser leases its executive offices from CII pursuant to a lease agreement. This lease agreement is at the going market rate for similar property and calls for base rent of \$48,000 per year payable in equal monthly installments. The Company follows the liability method of accounting for income taxes. Under this method, deferred tax liabilities and assets are recognized for the expected future tax consequences of

39

temporary differences between the carrying amount and the tax basis of assets and liabilities at each year-end based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. As a result of timing differences associated with the carrying value of other investments and depreciable assets and the future benefit of a net operating loss, the Company has recorded a net deferred tax asset of \$478,000. A valuation allowance against deferred tax asset has not been established as it is more likely than not, based on the Company's previous history, that these assets will be realized.

As of December 31, 2003 and 2002, the components of the deferred tax assets and liabilities are as follows:

9. STOCK-BASED COMPENSATION

The Company applies APB Opinion 25, Accounting for Stock Issued to Employees, and related Interpretations in accounting for its stock option plan. Under APB Opinion 25, if the exercise price of the Company's employee stock options equals or exceeds the market price of the underlying stock on the date of grant, no compensation is recognized. In November 2000, the Company's Board of Directors authorized the 2000 Stock Option Plan, which was approved by the shareholders in June 2001. The Plan provides for the grant of options to purchase up to 120,000 shares of the Company's common stock to the officers and directors of the Company. Under the 2000 Plan, options are vested immediately upon grant and may be exercised at any time within ten years from the date of grant. Options are not transferable and expire upon termination of employment, except to a limited extent in the event of retirement, disability or death of the grantee. On June 25, 2001, options were granted to all officers and directors to purchase an aggregate of 86,000 common shares at no less than 100% of the fair market value at the date of grant. The average exercise price of the options granted in 2001 was \$7.84 per share. The Company's stock price on the date of grant was \$7.57 per share. There were no options granted in 2003 or 2002.

Lease of Grove Isle hotel property. In November 1996, the Company entered into a long-term lease and a Master Agreement with Westgroup Grove Isle Associates, Ltd. ("Westgroup"), an affiliate of Noble House Resorts, Inc. which is a national operator of hotels and resorts. The Master Agreement, among other things, transferred the operations of the Grove Isle hotel and club to Westgroup.

The initial term of the lease with Westgroup is ten years and calls for annual net base rent, as amended in 1999, of \$918,400, plus real estate taxes and property insurance, payable in monthly installments. In addition to the base rent Westgroup pays GIA participation rent consisting of a portion of Westgroup's operating surplus, as defined in the lease agreement. Participation rent is due at end of each lease year. There has been no participation rent since the inception of the lease. The 1999 lease amendment also calls for an increase in base rent commencing January 1, 2002 in accordance with changes in the Consumer Price Index ("CPI"). Base rent for 2003 was \$986,986, increasing to \$1,003,157 in 2004. Concurrently, participation rent will be reduced by the amount by which base rent increases solely as a result of CPI increases for the lease year.

During 1997 and in conjunction with the aforementioned agreements, GIA advanced \$500,000 to the principal owner of the tenant of the Grove Isle property. GIA received a promissory note bearing interest at 8% per annum with interest payments due quarterly beginning on July 1, 1997 and all principal due at maturity in 2006. All interest payments due have been received.

Minimum lease payments receivable. The Company leases its commercial and industrial properties under agreements for which substantially all of the leases specify a base rent and a

rent based on tenant sales (or other benchmark) exceeding a specified percentage. Such percentage rent was not material in 2003 and 2002.

These leases are classified as operating leases and generally require the tenant to pay all costs associated with the property. Minimum annual rentals on non-cancelable leases in effect at December 31, 2003, are as follows:

Year ending December 31, -----	Amount -----
2004	\$1,348,000
2005	1,247,000
2006	1,083,000
2007	294,000
2008	294,000
Subsequent years	1,072,000

Total	\$5,339,000

Stock Options. In November 2000, the Company's Board of Directors authorized the 2000 Stock Option Plan (the "Plan"), which was approved by the shareholders in June 2001. The Plan, which permits the grant of qualified and non-qualified options expires in 2010, and is intended to provide incentives to the directors and employees (the "employees") of the Company, as well as to enable the Company to obtain and retain the services of such employees. The Plan is administered by a Stock Option Committee (the "Committee") appointed by the Board of Directors. The Committee selects those key officers and employees of the Company to whom options for shares of common stock of the Company shall be granted. The Committee determines the purchase price of shares deliverable upon exercise of an option; such price may not, however, be less than 100% of the fair market value of a share on the date the option is granted. Payment of the purchase price may be made in cash, Company stock, or by delivery of a promissory note, except that the par value of the stock must be paid incash or Company stock. Shares purchased by delivery of a note must be pledged to the Company. Shares subject to an option may be purchased by the optionee within ten years from the date of the grant of the option. However, options automatically terminate if the optionee's employment with the Company terminates other than by reason of death, disability or retirement. Further, if, within one year following exercise of any option, an optionee terminates his employment other than by reason of death, disability or retirement, the shares acquired upon exercise of such option must be sold to the Company at a price equal to the lesser of the purchase price of the shares or their fair market value.

On June 25, 2001, options were granted to all officers and directors to purchase an aggregate of 86,000 common shares at no less than 100% of the fair market value at the date of grant. The average exercise price of the options granted in 2001 is \$7.84 per share. The Company's stock price on the date of grant was \$7.57 per share.

Transco Realty Trust ("Transco").

Transco is a 44% shareholder of the Company of which Mr. Wiener is its executive trustee of and holds 37% of its stock.

HMG Advisory Corp. (the "Adviser").

The day-to-day operations of the Company are handled by the Adviser, as described above under Item 1. Business "Advisory Agreement." The Adviser is majority owned by Mr. Wiener, its Chairman and CEO.

Reference is made to Item 1. Business and Item 6. Management's Discussion and Analysis or Plan of Operation for further information about the remuneration of the Adviser.

Courtland Group, Inc. ("CGI").

CGI served as the Company's investment Adviser until January 1, 1998 and owns approximately 32% of Transco's stock and owns approximately 5% of the Company's common stock. CGI is 65% owned by Mr. Wiener, its Chairman and CEO

Courtland Investments, Inc. ("CII").

The Company holds a 95% non-voting interest and Masscap Investment Company ("Masscap") holds a 5% voting interest in CII. In May 1998, the Company and Masscap entered into a written agreement in order to confirm and clarify the terms of their previous continuing arrangement with regard to the ongoing operations of CII, all of which provide the Company with complete authority over all decision making relating to the business, operation, and financing of CII consistent with its status as a real estate investment trust.

CII and its wholly-owned subsidiary own 100% of Grove Isle Club, Inc., Grove Isle Yacht Club Associates ("GIYCA") and Grove Isle Marina, Inc. CII also owns 15% of Grove Isle Associates, Ltd., and the other 85% is owned by the Company.

T.G.I.F. Texas, Inc. ("T.G.I.F.").

CII owns approximately 49% of the outstanding shares of T.G.I.F. Mr. Wiener is a director and chairman of T.G.I.F. and owns, directly and indirectly, approximately 18% of the outstanding shares of T.G.I.F. T.G.I.F. also owns 10,000 shares of the Company's stock.

HMG-Fieber Associates ("Fieber").

The Company owns approximately 70% interest in Fieber and the other 30% is owned by NAF Associates ("NAF").

The following discussion describes all material transactions, receivables and payables involving related parties. All of the transactions described below were on terms as favorable to the Company as comparable transactions with

unaffiliated third parties.

47

The Adviser.

As of December 31, 2003 and 2002 the Adviser owed the Company approximately \$259,000 and \$648,000, respectively. In March 2004 and 2003, the Advisor made cash payments of \$25,000 and \$500,000, respectively, toward amounts due to the Company. Amounts due from the Adviser bear interest at the prime rate plus 1% payable monthly, with principal due on demand.

The Adviser leases its executive offices from CII pursuant to a lease agreement. This lease agreement is at the going market rate for similar property and calls for base rent of \$48,000 per year payable in equal monthly installments. Additionally, the Adviser is responsible for all property insurance, utilities, maintenance, and security expenses relating to the leased premises. The lease term is five years.

South Bayshore Associates ("SBA")

SBA is a joint venture in which Transco and the Company hold interests of 25% and 75%, respectively. The sole major asset of SBA is a demand note from Transco, bearing interest at the prime rate, with an outstanding balance of approximately \$439,000 in principal and interest as of December 31, 2003 compared to a balance of \$447,000 as of December 31, 2002.

The Company also holds a demand note from SBA bearing interest at the prime rate plus 1% with an outstanding balance as of December 31, 2003 and 2002 of approximately \$1,100,000, in principal and accrued interest. Interest payments of \$20,000 were made in 2003 and 2002. Accrued and unpaid interest is not added to the principal. Because the Company consolidates SBA, the note payable and related interest income is eliminated in consolidation.

CGI. As of December 31, 2003 and 2002, CGI owed the Company approximately \$303,000 and \$317,000, respectively. In March 2003 a cash payment of approximately \$17,000 was received from CGI. Amounts due from CGI bear interest at the prime rate plus 1% payable monthly, with principal due on demand.

CII. The Company holds a demand note due from CII bearing interest at the prime rate plus 1% with an outstanding balance of \$3,401,000 and \$3,111,000 as of December 31, 2003 and 2002, respectively. During 2003 and 2002, advances from the Company to CII totaled \$743,000 and \$769,000, respectively. Repayments from CII to the Company during 2003 and 2002 were \$483,000 and \$166,000, respectively. Accrued and unpaid interest is capitalized and included in advances. Because CII is a 95%-owned consolidated subsidiary of the Company, the note payable and related interest is eliminated in consolidation.

In 1986, CII acquired from the Company the rights to develop the marina at Grove Isle for a promissory note of \$620,000 payable at an annual rate equal to the prime rate. The principal matures on January 2, 2006. Interest payments are due each January 2. Because the Company consolidates CII, the note payable and related interest income is eliminated in consolidation.

The Company's demand note due from GIYCA was repaid during 2002.

CII compensates one employee directly in his capacity as project manager for the Company's Texas property. This employee is Mr. Bernard Lerner who is a vice president of Courtland Investments, Inc. and is also a cousin of the Company's Chairman and CEO Mr. Maurice Wiener. For the years ended December 31, 2003 and 2002 CII paid Mr. Lerner \$85,000 and \$60,000, respectively.

T.G.I.F. As of December 31, 2003 and 2002, CII owed approximately \$3,661,000 to T.G.I.F. All advances between CII and T.G.I.F. are due on demand and bear interest at the prime rate plus 1%. All interest due has been paid. As of December 31, 2003 and 2002, T.G.I.F. had amounts due from Mr. Wiener of approximately \$707,000. These amounts are due on demand and bear interest at the prime rate. All interest due has been paid. The Adviser received management fees of \$4,000 and \$18,000 for the years ended December 31, 2003 and 2002, respectively. Mr. Wiener received consulting and director's fees from T.G.I.F. of \$29,000 and \$45,000 for the years ended December 31, 2003 and 2002, respectively. Also, T.G.I.F. owns 10,000 shares of the Company which were purchased in 1996 at the market value.

Exercised stock options and related promissory notes.

On August 24, 2000, certain officers and directors of the Company exercised all of their stock options and purchased a total of 70,000 shares of the Company's common stock for \$358,750. The Company received \$70,000 in cash and \$288,750 in promissory notes for the balance. These promissory notes bear interest at 6.18% per annum payable quarterly in arrears on the first day of January, April, July and October. The balance of the notes as of December 31, 2003 is \$258,750. A payment of \$30,000 was received in 2003. The outstanding principal is due on August 23, 2005 and the notes are collateralized by the stock.

Item 13. Exhibits and Reports on Form 8-K.

- (a) Exhibits listed in the Index to Exhibits.
- (b) Reports on Form 8-K: On October 8, 2003 the Company filed a Form 8-K which reported the change in the Company's certifying accountant.

Item 14. Principal Accountants Fees and Services.

The following table sets forth fees billed to the Company by the Company's independent auditors for the year ended December 31, 2003 and December 31, 2002 for (i) services rendered for the audit of the Company's annual financial statements and the review of the Company's quarterly financial statements, (ii) services rendered that are reasonably related to the performance of the audit or review of the Company's financial statements that are not reported as Audit Fees, and (iii) services rendered in connection with tax preparation, compliance, advice and assistance. The Audit Committee pre-approved all services rendered by the Company's independent auditors.

EXHIBIT 1: HMG/COURTLAND PROPERTIES, INC. CODE OF ETHICS FOR CHIEF EXECUTIVE OFFICER AND SENIOR FINANCIAL OFFICERS (May 2003)

Edgar Filing: HMG COURTLAND PROPERTIES INC - Form 10KSB

1. Purpose. -----

The Board of Directors ("Board") of HMG/Courtland Properties, Inc. ("Company") has adopted the following Code of Ethics ("Code") to apply to the Company's Chief Executive Officer, Chief Financial Officer and Chief Accounting Officer (collectively defined as the "Senior Financial Officers"). This Code is intended to focus Senior Financial Officers on areas of ethical risk, provide guidance to help them recognize and deal with ethical issues, provide mechanisms to report unethical conduct, foster a culture of honesty and accountability, deter wrongdoing and promote fair and accurate disclosure and financial reporting.

No code or policy can anticipate every situation that may arise. Accordingly, this Code is intended to serve as a source of guiding principles. Senior Financial Officers are encouraged to bring questions about particular circumstances that may involve one or more of the provisions of this Code to the attention of the Chair of the Audit Committee, who may consult with inside or outside legal counsel as appropriate.

2. Ethical Conduct. -----

Each Senior Financial Officer is expected to adhere to a high standard of ethical conduct. The good name of the Company depends on the way Senior Financial Officers conduct business and the way the public perceives that conduct. Unethical actions, or the appearance of unethical actions, are not acceptable. Senior Financial Officers will be expected to be guided by the following principles in carrying out their responsibilities:

- |X| Loyalty. Senior Financial Officers should not be, or appear to be, subject to influences, interests or relationships that conflict with the best interests of the Company.
- |X| Compliance with Applicable Laws. Senior Financial Officers are expected to comply with all laws, rules and regulations applicable to the Company's activities.
- |X| Observance of Ethical Standards. Senior Financial Officers must adhere to high ethical standards in the conduct of their duties. These include honesty and fairness.

55

3. Integrity of Records and Financial Reporting. -----

Senior Financial Officers are responsible for the accurate and reliable preparation and maintenance of the Company's financial records. Accurate and reliable preparation of financial records is of critical importance to proper management decisions and the fulfillment of the Company's financial, legal and reporting obligations. Diligence in accurately preparing and maintaining the Company's records allows the Company to fulfill its reporting obligations and to provide shareholders, governmental authorities and the general public with full, fair, accurate, timely and understandable disclosure. Senior Financial Officers are responsible for establishing and maintaining adequate disclosure controls and procedures and internal controls and procedures, including procedures which

Edgar Filing: HMG COURTLAND PROPERTIES INC - Form 10KSB

are designed to enable the Company to: (a) accurately document and account for transactions on the books and records of the Company; and (b) maintain reports, vouchers, bills, invoices, payroll and service records, business measurement and performance records and other essential data with care and honesty.

4. Conflicts of Interest.

Senior Financial Officers must avoid any conflicts of interest between themselves and the Company. Any situation that involves, or may involve, a conflict of interest with the Company should be disclosed promptly to the Chair of the Audit Committee, who may consult with inside or outside legal counsel as appropriate.

A "conflict of interest" can occur when an individual's personal interest is adverse to, or may appear to be adverse to, the interests of the Company as a whole. Conflicts of interest also arise when an individual, or a member of his or her immediate family, receives improper personal benefits as a result of his or her position with the Company. "Immediate family" includes that person's spouse, parents, children, siblings, mothers- and fathers-in-law, sons- and daughters-in-law and brothers and sisters-in-law.

This Code does not attempt to describe all possible conflicts of interest which could develop. Some of the more common conflicts from which Senior Financial Officers must refrain, however, are set forth below.

- o Improper conduct and activities. Senior Financial Officers may not engage in any conduct or activities that are inconsistent with the Company's best interests or that disrupt or impair the Company's relationship with any person or entity with which the Company has or proposes to enter into a business or contractual relationship.
