Item 8.01 Other Events

California Public Utilities Commission's ("CPUC") Pending Investigations

On August 1, 2013, the CPUC administrative law judges ("ALJs") who are presiding over three investigations pending against Pacific Gas and Electric Company ("Utility") denied the Utility's request to re-open the record in these proceedings to submit additional evidence in response to a revised penalty recommendation submitted by the CPUC's Safety and Enforcement Division ("SED") on July 16, 2013. The SED recommended that the CPUC impose what the SED characterizes as a penalty of \$2.25 billion on the Utility, consisting of a \$300 million fine payable to the State General Fund and \$1.95 billion of non-recoverable costs. The Utility believes that the SED's new recommendation is excessively punitive. If the SED's latest penalty recommendation is adopted, the Utility estimates that its unrecovered costs and fines related to natural gas transmission operations would be in excess of \$4 billion.

The ALJs have established a new procedural schedule that requires the Utility to respond to the SED's revised recommendation by August 15, 2013. The SED and the intervening parties, including the City of San Bruno, the City and County of San Francisco, and The Utility Reform Network, may file rebuttal briefs no later than August 22, 2013. In addition, by August 14, 2013, the Utility must provide answers to the ALJs' questions posed in their July 30, 2013 ruling about the Utility's financing plans, how it intends to treat fines or disallowed costs for regulatory accounting and tax purposes, and the impact on rates. The ALJs have asked all parties to file comments by September 13, 2013 to address the impact that fines and disallowances would have on the Utility's ability to raise capital and otherwise remain financially viable, including the tax treatment of amounts disallowed. Reply comments are due no later than September 23, 2013.

Assuming that the ALJs consider briefing to be complete on September 23, 2013, the CPUC's rules would require the presiding officer's decisions to be issued no later than November 22, 2013. The decisions would become the final decisions of the CPUC 30 days after issuance unless the Utility or another party filed an appeal with the CPUC, or a CPUC commissioner requested that the CPUC review the decision, within such time. If an appeal or review request were filed, other parties would have 15 days to respond but the CPUC could act before considering any responses.
