## **ITEM 2. MANAGER'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following discussion should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this report. This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the federal securities laws. We caution investors that any forward-looking statements presented in this report, or which management may make orally or in writing from time to time, are based on beliefs and assumptions made by, and information currently available to, management. When used, the words “anticipate”, “believe”, “estimate”, “expect”, “intend”, “may”, “might”, “plan”, “project”, “result”, “should”, “will” and similar expressions which do not relate solely to historical matters are intended to identify forward-looking statements. Such statements are subject to risks, uncertainties and assumptions and are not guarantees of future performance, which may be affected by known and unknown risks, trends, uncertainties and factors that are beyond our control. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated or projected by the forward-looking statements. We caution you that while forward-looking statements reflect our good-faith beliefs when we make them, they are not guarantees of future performance and are impacted by actual events when they occur after we make such statements. Accordingly, investors should use caution in relying on forward-looking statements, which are based on results and trends at the time they are made, to anticipate future results or trends.

### **Related parties**

We apply ASC Topic 805, “Business Combinations”, to evaluate business relationships. Related parties are persons or entities who have one or more of the following characteristics, which include entities for which investments in their equity securities would be required, trust for the benefit of persons including principal owners of the entities and members of their immediate families, management personnel of the entity and members of their immediate families and other parties with which the entity may deal if one party controls or can significantly influence the decision making of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests, or affiliates of the entity.

### **Results of Operations**

The following discussion is based on our Statement of Operations within our Financial Statements as presented in Part 1, Item 1 of this report for the nine months ended September 30, 2018 and 2017. The discussion is not meant to be an all-inclusive discussion of the changes within our operations. Instead, we have focused on the significant items relevant to obtain an understanding of the changes in our operations.

The results of operations for the nine months ended September 30, 2018, are not necessarily indicative of the results that may be expected for other interim periods or for the full fiscal year.

Our sole source of income is from the interest received on related party receivables. The principal balances on those receivables have been consistent for the past years, thus making our revenues consistent from year to year. Expenses are primarily related to professional and administrative fees and interest on related party notes.

***Comparison of the three months ended September 30, 2018 to the same period ended 2017.***

We reported net loss applicable to common shareholders of (\$6,678) for the three months ended September 30, 2018 as compared to net income to common shareholders of \$4,052 for the same period ended 2017. The decrease in net income is due to the decrease in interest income – related parties due to the principal pay down on the notes receivables.

***Comparison of the nine months ended September 30, 2018 to the same period ended 2017.***

We reported a net loss applicable to common shareholders of (\$39,374) for the nine months ended September 30, 2018 as compared to a net loss to common shareholders of (\$8,603) for the same period ended 2017. The increase in net loss is primarily due to the decrease in interest income – related parties due to the principal pay down on the notes receivables.

## Liquidity and Capital Resources

### *General*

Our principal liquidity needs for the next twelve months are funding of normal recurring expenses including interest expense and legal and administrative fees.

Our principal source of cash is proceeds from interest income on our notes receivables. The following impacted our balance sheet as of September 30, 2018:

Our *notes receivable and accrued interest – related parties* decreased due to principal payments received on notes receivable in February 2018.

Our *accounts receivable – related parties* increased due to short term funding to a related party.

Our *notes payable and accrued interest – related parties* decreased due to principal payments made on note payables in May 2018.

## ITEM 3.

## CONTROLS AND PROCEDURES

As indicated in the certifications in Exhibit 31 of this report, the Company's Principal Executive Officer and Principal Financial Officer have evaluated the Company's disclosure controls and procedures as of September 30, 2018. Based on that evaluation, these officers have concluded that the Company's disclosure controls and procedures are effective in ensuring that information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act of 1934, as amended, is accumulated and communicated to them in a manner that allows for timely decisions regarding required disclosures and are effective in ensuring that such information is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. There were no changes during the Company's last fiscal quarter that materially affected or are reasonably likely to materially affect the Company's internal control over financial reporting.
