[Slide 1] - United States Steel - Moors & Cabot - July 26, 2001

[Slide 2] - The forward-looking statements in my presentation address a variety of subjects including, but not limited to, the shareholder vote on the reorganization plan in the fourth quarter of this year, forecasted U. S. Steel shipments, estimated financial effects of the VEBA (Voluntary Employment Benefit Association) contribution, growth of the European economy, commercial strategies, outlook for the domestic steel market, average natural gas prices for the third quarter, and forecasted industry shipments and imports in millions of tons. You are cautioned not to put undue reliance on such forward-looking statements, which are not a guarantee of performance and are subject to a number of uncertainties and other facts, that could cause actual results to differ materially from such statements. In accordance with the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995, USX has included in Form 10-K for the year ended December 31, 2000, and subsequent reports on Forms 10-Q and 8-K, cautionary statements identifying important factors, but not necessarily all factors, that could cause actual results to differ materially from those set forth in the forward-looking statements.

[Slide 3] - USX Corporate Structure - USX Corporation is made up of the U. S. Steel Group and the Marathon Group.

[Slide 4] - USX Reorganization Plan - subject to shareholder approval

- April 24th: USX Board of Directors authorized management to proceed with reorganization plans that would separate its steel & energy business - creating two independent companies - United States Steel Corporation & Marathon Oil Company
- Each keeps approximately the same assets & liabilities as now except for a \$900 million value transfer from Marathon to U. S. Steel
- Management teams & site locations are expected to remain the same
- Shareholders will vote in the 4th quarter of this year
- No further details are available at this time

[Slide 5] - Today, U. S. Steel is the [picture] 11th largest global steel producer & the largest North America integrated steel producer

[Slide 33] - Strategic Initiatives

[Slide 34] - Strategic Initiatives

- In Order to survive in this difficult environment, we are aggressively pursuing a number of strategic initiatives

[Slide 35] - Strategic Initiatives - Domestically

Edgar Filing: USX CORP - Form 425

- We will continue to fight illegal imports
- We have expanded through acquisition of LTV Tin Operations
- We will pursue other opportunities

[Slide 36] - Strategic Initiatives - Imports

To Resolve our Import Crisis:

- We must continue to pressure the Government for a Comprehensive solution to Illegal Imports
- We must continue to utilize Trade Laws

[Slide 37] - Government Trade Initiatives

On June 5, 2001, the Bush Administration announced a three-part program to address steel imports

- Negotiations with Foreign Governments to Eliminate Inefficient Excess Production
- Negotiations with Foreign Governments to Establish Rules that will govern future trade
- Investigation by the ITC under Section 201 of the Trade Act of 1974

[Slide 38] - Strategic Initiative - LTV Tin Acquisition - March 2001

- LTV Indiana Harbor Facility is an Ideal Fit with USS
- Located Within 10 Miles of USS Gary Works

[Slide 39] - Strategic Initiative - LTV Tin Acquisition - March 2001

- LTV's Indiana Harbor has Become USS's East Chicago Tin
 - USS Tin Capacity Rose by Over 400,000 Tons
