AIRTRAX, INC.
(A Development Stage Company)
NOTES TO FINANCIAL STATEMENTS
June 30, 2003

(Unaudited)

BASIS OF PRESENTATION

The unaudited interim financial statements of AirTrax, Inc. (the Company) as of June 30, 2003 and for the three month and six month periods ended June 30, 2003 and 2002, respectively, have been prepared in accordance with generally accepted accounting principles. In the opinion of management, such information contains all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of the results for such periods. The results of operations for the quarter and six month periods ended June 30, 2003 are not necessarily indicative of the results to be expected for the full fiscal year ending December 31, 2003.

Certain information and disclosures normally included in the notes to financial statements have been condensed or omitted as permitted by the rules and regulations of the Securities and Exchange Commission, although the Company believes the disclosure is adequate to make the information presented not misleading. The accompanying unaudited financial statements should be read in conjunction with the financial statements of the Company for the year ended December 31, 2002.

1.

COMMON STOCK

Shares of common stock totaling 1,363,325 and 2,131,055 shares, respectively, were issued during the second quarter and first six months of 2003, as follows:

Second

Six

Ouarter

Months

Private placement sales

610,000

Total shares issued
<u>1,363,325</u>
<u>2,131,055</u>
The fair market value of the stock issued for services has been charged to expenses of each of the 2003 periods. Under the provisions of the outstanding preferred stock, the preferred shareholder may elect to receive common stock in satisfaction of the preferred dividends whenever the dividends are not paid in cash. The stock issued as dividends during the first quarter of 2003 satisfied the remaining dividend obligation of the year 2000 and the entire obligation of the year 2001. The \$68,750 preferred dividend obligation of the year 2002 and the \$34,375 obligation of the first

-5-

six months of 2003 remain outstanding.

AIRTRAX, INC.

(A Development Stage Company)

NOTES TO FINANCIAL STATEMENTS

June 30, 2003

(Unaudited)

2.

CONTINGENCY

During May 2003 the Company entered into a Letter of Intent with Filco GmbH, a newly formed German corporation, under which the Company was to acquire an equity interest in Filco. The terms of this non-binding Letter of Intent were subject to the execution of a definitive agreement by the parties. To facilitate the development of the Filco arrangement, the Company advanced \$357,390 to Filco during the second quarter of 2003. In return, the Company received three demand notes from Filco, which bear interest at the prime rate charged by Chase Bank N.A. On August 11, 2003, negotiations were terminated and a final agreement will not be consummated. On August 12, 2003, the Company demanded payment of all amounts due under the promissory notes.

Additional details of this proposed transaction are contained in Item 2 of the June 30, 2003 Form 10-QSB, Management s Discussion and Analysis.

The following discusses the financial results and position of the accounts of the Company for the periods indicated.

Forward Looking Statements.

Certain of the statements contained in this Quarterly Report on Form 10-QSB include "forward looking statements" within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended ("Exchange Act"). See the Company's Annual Report on Form 10-KSB for the period ending December 31, 2002 (Form 10-KSB) for additional statements concerning operations and future capital requirements. Certain risks exist with respect to the Company and its business, which risks include the need for additional capital, lack of commercial product, lack of determined product prices and impact on profit margins, and limited operating history, among other factors. Readers are urged to refer to the section entitled Cautionary Statements in the Company's Form 10-KSB for a broader discussion of such risks and uncertainties.

Results of Operations.

Six Months Ended June 30, 2003 compared with Six Months Ended June 30, 2002.

For the period ended June 30, 2003 and comparable period in 2002, the Company was a development stage company and the Company has not engaged in full-scale operations for these periods. The limited revenues for the periods have been derived from a contract with the United States Navy that relates to the research and potential application of omni-directional products for military use. The period-to-period results presented and discussed below are not necessarily meaningful comparisons due to the Company s development stage status, and are not indicative of future results.

Revenues for the six months ended June 30, 2003 were \$21,977 compared with \$244,566 in revenues for the same period in 2002. Revenues for the both periods consisted entirely of contract revenues under the SBIR program with the United States Navy. As reported in the Company s Form 10-KSB for year end December 31, 2002, during 2002, the Company reached the contractual revenue limits under the Phase II portion of the SBIR contract, the bulk of which was received during fiscal 2002. The decrease in revenues for the 2003 period reflects the present status of that contract with the United States Navy. The contract related to the development of an omni-directional Multiple Purpose Mobility Platform (MP2). The Company expects to deliver a demonstrational version of the MP2 to the US Navy in the third quarter of 2003 for initial testing and evaluation. Following the initial testing and evaluation, the US Navy may request shipboard testing and evaluation, in which event, additional upgrades will be required on the demonstrational unit. The Company can not predict whether the shipboard testing will be undertaken, or whether it will be able to effect any sales of the MP2 to the US Navy.

Cost of goods sold for the 2003 and 2002 periods were \$56,767 and \$104,414, respectively. The amount for the 2003 period represents principally employee salaries of engineering personnel. The amount for the 2002 period represents principally employee salaries of engineering personnel and to a lesser extent parts for the omni-directional product.

Operating and administrative expenses which includes administrative salaries and overhead for the six month period in 2003 totaled \$1,080,080 compared with \$330,573 for the same period in 2002. The increase of \$749,507 for the 2003 period is due principally to increased consulting fees in the amount of \$682,000 paid to various consultants in the form of common stock of the Company, together with an increase in product development costs. Interest expense for the 2003 period was \$21,547 which contrasts with \$13,905 for the 2002 period. The increase in interest expense is due to an increase in amount due the Company s landlord during the 2003 period, which amount accrues interest at the rate of 18% per annum. Other income for 2003 in the amount of \$3,369 represents accrued interest on loans made to the Company to Filco GmbH, as discussed below. The Company made no such loans during 2002. Income tax benefit are funds received from the State of New Jersey s technology tax transfer program which is designed to foster technology development in the State of New Jersey. Pursuant to this program, the Company is able to sell its net operating losses and research and development credits as calculated under state law to the other business within the state in exchange for a cash payment equal to approximately 75% of such losses and credits. Income tax benefit accrued for the six month period in 2003 was \$102,100 contrasted with \$28,177 for the period in 2002. The increase is due to the higher loss experienced for the current period compared with the prior period.

Net loss for the six month period in 2003 applicable to common shareholders was \$1,111,697 or \$0.15 per common share, compared with a net loss applicable to common shareholders of \$176,149 or \$0.03 per common share for the prior period.

Liquidity a	nd Capital	Resources.

Since its inception, the Company has financed its operations through the private placement of its common stock. During 2000 and 2001, the Company raised approximately \$430,858 and \$348,600, respectively, net of offering costs from the private placement of its common stock. During 2002, the Company raised \$348,600 net of offering costs from the private placement of its common stock. During the six month period in 2003, the Company raised \$746,202 net of offering costs from the private placement of its common stock. In addition, under the New Jersey tax transfer program discussed above, the Company has received \$307,766 since inception.

As of June 30, 2003, the Company s working capital was \$426,532. As of December 31, 2002, the Company s working capital deficit was \$83,168. The increase in working capital is due to the funds raised by the Company during the 2003 period.

The Company anticipates that its cash requirements for the foreseeable future will be significant. In particular, management expects substantial expenditures for inventory, product production, and advertising in anticipation of the rollout of its omni-directional forklift. During the second quarter of 2003, the Company began assembling parts and purchasing tooling for the initial production run of the ATX forklift. Funds required for the initial production run, which includes tooling charges and inventory overruns, are estimated to total \$1,500,000. As of June 30, 2003, the Company has raised \$250,000 of the total amount. In addition, the Company expects to utilize the funds that it expects to receive from Filco GmbH, as discussed below, towards the costs of the initial production run. Consequently, the Company will be required to raise an additional \$900,000 to complete its initial production run. Of the total amount required, \$750,000 is allocated for manufacturing and parts inventory of approximately 20 forklifts, \$120,000 for tooling costs, \$100,000 for testing costs, with the balance allocated as working capital. Working capital expenditures represent general operating expenditures, including payments of existing payables and salaries of employees. The Company recognizes that its per unit manufacturing and part costs are higher than projected full scale charges for these items. It expects to recognize lower per unit manufacturing and part costs due to volume discounts, and lower per unit shipping costs, as it transitions from the initial production run to full-scale production. The Company intends to fund this initial production run, as well as its subsequent operations through the issuance of equity and/or debt securities. Presently, the Company is seeking capital from one or more funding sources; however, at this time no arrangement has been finalized. No assurances can be given that the Company will be successful in obtaining sufficient capital to fund this initial production run or its ongoing operations. If the Company is unable to obtain sufficient funds in the near future, such event will delay the rollout of its product and likely will have a material adverse impact on the Company and its business prospects.

Total assets, net of accumulated depreciation, totaled \$ 1,684,111 on June 30, 2003. Total assets, net of accumulated depreciation, totaled \$598,971 on December 31, 2002.

On May 1, 2003, the Company reported that it had entered into a Letter of Intent with Filco GmbH, a newly formed German corporation. Filco recently acquired substantially all of the assets of Clark Material Handling of Europe GmbH at Clark s facility located in Rheinstar Mulhiem a.d. Ruhr., Germany, excluding, however, building and land and rights to the Clark name. Filco has enter ed into an 18 month lease agreement with the current property owner with an option to purchase the 200,000 square foot building and land for 4.7 million euros. Clark s operations at this location were suspended in late 2002 when it filed for insolvency .. The terms of the letter of intent were subject to the execution of a definitive agreement. The letter of intent, as amended, provided that, the terms of the letter of intent would terminate if a definitive agreement was not executed by the parties within 50 days from the execution of the letter of intent. The parties attempted to negotiate the terms of a definitive agreement, and continued to do so beyond the 50 day period, however they were unable to reach a definitive agreement. During the course of the negotiations and discussions with Filco, the Company made three loans to Filco in the total amount of \$357,390. The loans were evidenced by a demand promissory note, and were guaranteed by Fil Filipov, Filco s principal shareholder and officer. The Company attempted to raise additional funds, which funds were intended to be used in significant part as working capital for Filco (as provided in the Letter of Intent), however, the Company was unsuccessful in its efforts. On August 11, 2003, Filco informed the Company it had secured additional funding, and was no longer interested in negotiating a definitive agreement pursuant to which the Company would acquire an equity interest in Filco. On August 12, 2003, the Company demanded payment of all amounts due under the demand promissory notes.

Item 3. Controls And Procedures.
(a)
The Company maintains controls and procedures designed to ensure that information required to be disclosed in the reports that the Company files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission. Based upon his evaluation of those controls and procedures performed within 90 days of the filing date of this report, the chief executive officer and the principal financial officer of the Company concluded that the Company's disclosure controls and procedures were adequate.
(b)
Changes in internal controls. The Company made no significant changes in its internal controls or in other factors that could significantly affect these controls subsequent to the date of the evaluation of those controls by the chief executive officer and principal financial officer.

Item 1. Legal Proceedings.
None
Item 2. Changes in Securities.
None
Item 3. Defaults upon Senior Securities.
None
Item 4. Submission of Matters to a Vote of Securityholders.
None

Item 5. Other Information.

On May 1, 2003, the Company reported that it had entered into a Letter of Intent with Filco GmbH, a newly formed German corporation. Filco recently acquired substantially all of the assets of Clark Material Handling of Europe GmbH at Clark s facility located in Rheinstar Mulhiem a.d. Ruhr., Germany, excluding, however, building and land and rights to the Clark name. Filco has enter ed into an 18 month lease agreement with the current property owner with an option to purchase the 200,000 square foot building and land for 4.7 million euros. Clark s operations at this location were suspended in late 2002 when it filed for insolvency.. The terms of the letter of intent were subject to the execution of a definitive agreement. The letter of intent, as amended, provided that, the terms of the letter of intent would terminate if a definitive agreement was not executed by the parties within 50 days from the execution of the letter of intent. The parties attempted to negotiate the terms of a definitive agreement, and continued to do so beyond the 50 day period, however they were unable to reach a definitive agreement. During the course of the negotiations and discussions with Filco, the Company made three loans to Filco in the total amount of \$357,390. The loans were evidenced by a demand promissory note, and were guaranteed by Fil Filipov, Filco s principal shareholder and officer. The Company attempted to raise additional funds, which funds were intended to be used in significant part as working capital for Filco (as provided in the Letter of Intent), however, the Company was unsuccessful in its efforts. On August 11, 2003, Filco informed the Company it had secured additional funding, and was no longer interested in negotiating a definitive agreement pursuant to which the Company would acquire an equity interest in Filco. On August 12, 2003, the Company demanded payment of all amounts due under the demand promissory notes.

Item 6. Exhibits.

- (a). Furnish the Exhibits required by Item 601 of Regulation S-B.
- Exhibit 99.1 Certification Pursuant To Section 302 Of The Sarbanes-Oxley Act Of 2002.
