I. Information About Voting

Solicitation of Proxies. The Board of Directors of FMC Corporation (FMC) is soliciting proxies for use at the 2003 Annual Meeting of FMC and any adjournments of that meeting. FMC first mailed this proxy statement, the accompanying form of proxy and the FMC Annual Report for 2002 on or about March 18, 2003.

Agenda Items. The agenda for the Annual Meeting is to:

1. Elect three directors;
2. Ratify the appointment of KPMG LLP as our independent public accountants for 2003; and
3. Conduct other business properly brought before the meeting.

Who Can Vote. You can vote at the Annual Meeting if you are a holder of FMC's common stock, par value of \$0.10 per share (Common Stock), on the record date. The record date is the close of business on February 28, 2003. You will have one vote for each share of Common Stock. As of February 28, 2003, there were 35,257,403 shares of Common Stock outstanding and entitled to vote.

How to Vote. You may vote in one of four ways:

- You can come to the Annual Meeting and cast your vote there.
- You can vote by signing and returning the enclosed proxy card. If you do, the individuals named on the card will vote your shares in the way you indicate.
- You can vote by internet.
- You can vote by telephone.

If you hold your shares through a broker or bank and you wish to vote at the Annual Meeting, you must obtain a legal proxy from them authorizing you to vote at the Annual Meeting. We will be unable to accept a vote from you at the Annual Meeting without that authorization. If you are a registered stockholder and wish to vote at the Annual Meeting, no additional authorization will be

required.

Use of Proxies. Unless you tell us on the proxy card to vote differently, we plan to vote signed and returned proxies **FOR** the Board nominees for director and **FOR** agenda item 2. We do not now know of any other matters to come before the Annual Meeting. If they do, proxy holders will vote the proxies according to their best judgment.

Abstentions or Lack of Instructions to Banks, Brokers, or Employee Benefit Plan Trustees.

Broker non-votes are counted as part of the quorum. A broker non-vote occurs when banks, brokers or other nominees holding shares on behalf of a stockholder do not receive

voting instructions from the stockholder by a specified date before the Annual Meeting. In this event, banks, brokers and other nominees may vote those shares on matters deemed routine by the New York Stock Exchange. The election of directors and ratification of the appointment of independent public accountants are considered routine matters.

If you are entitled to vote shares held under an employee benefit plan and you either do not direct the trustee by April 17, 2003 how to vote your shares, or if you vote on some but not all matters that come before the Annual Meeting, the trustee will, in the case of shares held in the FMC Corporation Savings and Investment Plan, vote your undirected shares in proportion to the votes received from other participants, and in the case of other employee plans, vote your shares in the trustee's discretion, except to the extent that the plan or applicable law provides otherwise.

Revoking a Proxy. You may revoke your proxy at any time before it is exercised. You can revoke a proxy by:

- Sending a written notice to the Corporate Secretary of FMC;
- Delivering a properly executed, later-dated proxy;
- Attending the Annual Meeting and voting in person, provided that you hold your shares directly or through a bank or broker; or
- If your shares are held through an employee benefit plan, your revocation must be received by the trustee by April 17, 2003.

The Quorum Requirement. We need a quorum of stockholders to hold a valid Annual Meeting. A quorum will be present if the holders of at least a majority of the outstanding Common Stock entitled to vote at the meeting either attend the Annual Meeting in person or are represented by proxy. Abstentions, broker non-votes and votes withheld are counted as present for the purpose of establishing a quorum.

Vote Required for Action. Directors are elected by a plurality vote of shares present in person or represented by proxy at the meeting. Other actions require the affirmative vote of the majority of shares present in person or represented by proxy at the meeting. Abstentions have the effect of a no vote on matters other than director elections, and broker non-votes have no effect on the vote for or against such matters.

II. The Proposals To Be Voted On

Election of Directors

Edgar Filing: FMC CORP - Form DEF 14A

FMC has three classes of directors which are intended to be as nearly equal in size as possible. The term for each class is three years. Class terms expire on a rolling basis, so that one class of directors is elected each year. The term for Class II directors will expire at the 2006 Annual Meeting.

Nominees for Director

The nominees for director this year are Patricia A. Buffler, G. Peter D Aloia and C. Scott Greer. Information about the nominees, the continuing directors and the Board of Directors is contained in the next section of this proxy statement entitled Board of Directors.

Mr. Albert J. Costello, a Director since 1995, died on September 3, 2002. The Board extends its condolences to his family and thanks them for his counsel and service.

The Board of Directors expects that all of the nominees will be able and willing to serve as directors. If any nominee is not available, the proxies may be voted for another person nominated by the Board of Directors to fill the vacancy, or the size of the Board of Directors may be reduced.

The Board of Directors recommends a vote FOR the election of Patricia A. Buffler, G. Peter D Aloia and C. Scott Greer.

Ratification of Appointment of Independent Public Accountants

The Audit Committee of the Board of Directors has approved KPMG LLP continuing to serve as FMC's independent public accountants for 2003. KPMG LLP has served as FMC's independent public accountants since 1928. During 2002, KPMG's fees were as follows:

	(\$000)
• Audit Fees	990
• Financial Information Systems Design and Implementation Fees	0
• All Other Fees	
- Pension,thrift and stock plan audits	93
- TaxServices	357
- Debtand equity offerings, comfort letters, and consents	274
	<u> </u>
Total All Other Fees	724
	<u> </u>
• TOTAL	1,714
	<u> </u>

Edgar Filing: FMC CORP - Form DEF 14A

The Audit Committee has determined that the independence of KPMG LLP has not been adversely impacted as a result of the non-audit services performed by such accountants.

We expect a representative of KPMG LLP to attend the Annual Meeting. The representative will have an opportunity to make a statement if he or she desires and also will be available to respond to appropriate questions.

The Board of Directors recommends a vote FOR ratification of the appointment of KPMG LLP as FMC's independent public accountants for 2003.

Compensation Plan The Company maintains the FMC Corporation Compensation Plan for Non-Employee Directors to provide for the compensation described below.

Retainer and Fees Each director who is not also an employee is paid an annual retainer of \$40,000 or a prorata amount for any portion of a year served. At least \$25,000 of the annual retainer is paid in deferred stock units, which are payable in Common Stock upon death or retirement from the Board of Directors. The remainder is paid in quarterly installments in cash, or, at the election of a non-employee director, may be paid in deferred stock units (elective units). Each non-employee director also receives \$1,000 for each Board of Directors meeting and Board of Directors committee meeting attended, and each director is reimbursed for reasonable incidental expenses. Each non-employee director who chairs a Committee is paid an additional \$4,000 per year.

Restricted Stock Units Each non-employee director of FMC was entitled to receive 1,214.1565 units of restricted stock units in 2002 except for Messrs D Aloia and Greer, who became directors in December 2002, and therefore each received a prorata amount equal to 404.314 units of restricted stock units in January 2003. Option Grants in 2002

The table below shows information on grants of FMC stock options in 2002 made to the officers named in the Summary Compensation Table. FMC did not grant stock appreciation rights during 2002.

Andrea E. Utecht	26,790	3.8	34.00	2/14/2012	339,563

(1) These stock options generally vest approximately three years from the date of grant.

The Black-Scholes option-pricing model was used to value these options as of the date granted, February 14, 2002. The model assumed: an exercise price of \$34.00 per share, equal to the fair market value of FMC Common Stock on the date of grant; an average option life of 5 years; an interest rate of 2.63% that represents the interest rate on a U.S. Treasury security on the date of grant with a maturity date corresponding to that of the option term; an assumed annual volatility of underlying stock of 38.26%; and no dividends being paid. FMC made no assumptions regarding restrictions on vesting or the likelihood of vesting.

The ultimate values of the options will depend on the future market price of FMC's Common Stock (as applicable), which cannot be forecast with reasonable accuracy. The actual value, if any, an option holder will realize when exercising an option will depend on the excess of the market value of FMC's Common Stock over the exercise price on the date the option is exercised.

The following table shows the estimated annual retirement benefits under FMC's pension plan (and its supplements) for eligible salaried employees (including officers) payable upon retirement at age 65 (normal retirement age) in 2003 at various levels of salary and years of service. Payment of benefits shown is contingent on the continuation of the present plan (and its supplements) until the employee retires.

- Final Average Earnings in the table means the average of covered compensation for the highest 60 consecutive calendar months out of the 120 calendar months immediately before retirement. Covered compensation includes amounts appearing in Columns (C) and (D) of the Summary Compensation Table on page 14.
- At December 31, 2002, Messrs. Walter, Harries, Foster, Steele and Ms. Utecht had, respectively, 28, 25, 24, 25 and 1.5 years of credited service under the pension plan (and its supplements).
- Applicable benefits for employees whose years of service and earnings differ from those shown in the table are equal to (A + B) times C where: (A) equals 1% of allowable Social Security covered compensation (\$43,968 for a participant retiring at age 65 in 2002) times years of credited service (up to a maximum of 35 years) plus 1.5% of the difference between Final Average Earnings and allowable Social Security compensation times years of credited service (up to a maximum of 35 years); (B) equals 1.5% of Final Average Earnings times years of credited service in excess of 35 years; and (C) equals the ratio of credited service at termination to credited service projected to age 65.
- The amounts shown will not be reduced by Social Security benefits or other offsets. As the Code limits the annual benefits that may be paid from a tax-qualified retirement plan, FMC has adopted permitted supplemental arrangements to maintain total benefits during retirement at the levels shown in the table.

Termination and Change of Control Arrangements

Plan and Participants. FMC maintains an Executive Severance Plan which includes approximately 20 officers and managers, including the individuals listed in the Summary Compensation Table.

Benefits. If a change in control (as described below) of FMC occurs and if, within two years of that change of control, a participant's employment is terminated without cause or a participant voluntarily terminates his or her employment because his or her duties, location, salary, compensation or benefits are changed or are reduced, then the participant is entitled to benefits from FMC. In general, those benefits include: (i) a lump sum payment of three, two or one (depending on position) times salary and highest target management incentive award; (ii) immediate vesting of long-term incentive awards, restricted stock and stock options; (iii) continuation of medical and other benefits for up to three years; and (iv) distribution of accrued retirement and 401(k) plan benefits. FMC will compensate the participant for any excise tax liability as a result of payments under the plan. The Chief Executive Officer and President can also receive these benefits if he voluntarily terminates his employment with FMC within the thirteenth month after a change in control of FMC. Under the specific provisions of Messrs. Walter, Harries, Foster, Steele and Ms. Utecht's executive severance agreements, each will receive a lump sum payment of three times his or her salary and highest target management incentive award.

Change in Control. In general, the following transactions are considered as changes in control under the plan: (a) a third party's acquisition of 20 percent or more of FMC's Common Stock; (b) a change in the majority of the Board of Directors; (c) completing certain reorganization, merger or consolidation transactions or a sale of all or substantially all of FMC's assets; or (d) the complete liquidation or dissolution of FMC.

Report of the Compensation Committee on Executive Compensation

The Report of the Compensation Committee on Executive Compensation that follows shall not be deemed to be incorporated by reference into any filing made by FMC under the Securities Act of 1933 or the Securities Exchange Act of 1934, notwithstanding any general statement contained in any such filing incorporating this proxy statement by reference, except to the extent FMC incorporates such Report by specific reference.

Goals. FMC's executive compensation program is designed to align total compensation with stockholder interests. The program is intended to:

- Incent and reward executives for sound business management and achieve improvements in stockholder value
- Balance variable pay components so that both short and longer-term operating and strategic objectives are recognized
- Require the achievement of objectives within a high-performance environment to be rewarded financially
- Attract, motivate and retain executive talent necessary for the long-term success of FMC

The program consists of three different compensation components: base salary; variable cash incentive awards (annual bonuses); and long-term incentive awards (stock options and restricted stock).

Base salary. FMC uses external surveys to set competitive compensation levels (salary ranges) for its executives. In order to obtain the most comprehensive survey data for review, the group of companies in the surveys is broader than the S&P Midcap 400 Index and includes companies comparable to those in the SP400 Diversified Chemicals Index. However, companies in both these Indices, which are included in the stock performance graph on page 21, are well represented in the surveys.

Salary ranges for FMC executives are established based on similar positions in other companies of comparable size and complexity. Generally, FMC sets its competitive salary midpoint for an executive officer at the median level compared with the companies surveyed. Performance levels within the ranges are delineated to recognize different levels of performance ranging from needs improvement to exceptional. As a result, although nominally targeted to fall at or near the 50th percentile of such comparable organizations, compensation may range anywhere within the salary range based on performance.

Starting placement in a salary range is a function of an employee's skills, experience, expertise and anticipated job performance. Each year performance is evaluated against mutually agreed upon objectives and performance standards that may, in part, be subjective; a performance rating is established; and a salary increase may be granted. Performance factors used may include timely responses to downturns in major markets, setting strategic direction, making key management changes; divesting businesses and acquiring new businesses, continuing to improve operating efficiency; and developing people and management capabilities. The relative importance of each of these factors varies based on the strategic thrust and operating requirements of each of the businesses.

Mr. Walter received a base salary increase of 6.1% effective March 1, 2002.

Management Incentive Awards. The FMC Corporation Incentive Compensation and Stock Plan (Plan) provides for annual cash incentives for achievement of both individual performance targets and business performance targets based on performance goals, which for 2002 included income from continuing operations before special charges and return on average investment. The Committee oversees Plan objectives and design as well as the setting of performance targets and approval of Plan results. Participation in the Plan is based on opportunity to influence performance and growth at FMC, position level, competitive practice for similar positions, performance and potential. Achieving high standards of business and individual performance are rewarded financially, and significant compensation is at risk if these high standards are not met. Participants in the Plan have

annual targets that range from 24 percent to 75 percent of base pay. Business performance incentives range from 30 percent to 70 percent of the total target incentive, while actual payments for business performance can range from zero to three times target.

The annual performance incentive (the API) is the individual performance target, and generally comprises 30 to 70 percent of the total target incentive. It is awarded based on achieving annual objectives set for the individual's most important business responsibilities. The API is less quantitative than the business performance incentive. It varies by individual performance and can be rewarded in a range from zero to two times the target percentage.

Mr. Walter's 2002 broad objectives focused on improving operating and financial performance, expanding key external relationships with institutional investors and investment analysts, organizational and people development issues, corporate and business unit strategy development, occupational process safety performance and development of a security plan. Mr. Walter's bonus for 2002, shown in Column D of the Summary Compensation Table, was \$492,000.

Equity Awards. The Plan is designed to closely link the long-term reward of executives with increases in stockholder value, and gives the Committee broad discretion to select the appropriate types of rewards. Equity awards under the Plan in 2002 consisted of nonqualified stock options, with a vesting period as determined by the Compensation Committee, normally about three years. Stock options have a term of 10 years and generally expire upon termination of employment, unless such termination is a result of death, disability or retirement, or not for cause, in which case the option may be exercised for periods beyond termination of employment, but not beyond the term of the option. The exercise price of options is the fair market value of Common Stock on the date of the grant. To determine the number of options and/or shares of restricted stock to be granted to an executive, we establish an award level based on an executive's salary grade while considering competitive industry practice as provided by an independent consultant. In approving grants under the Plan, the number of options and shares of restricted stock previously awarded to and held by executive officers is considered, but is not regarded as a significant factor in determining the size of the current awards. Mr. Walter received 2002 option grants as indicated on page 15 in this proxy statement in the section headed "Option Grants in 2002." Restricted stock grants appear in Column E of the Summary Compensation Table.

Section 162(m) Deductibility. The Committee is advised that the Plan meets the requirements for deductibility under Section 162(m) of the Code. However, not all grants that may be made under the Plan or that have been made under the Plan meet all requirements for deductibility under Section 162(m) of the Code. However, unless the amounts involved become material, the Committee believes that it is more important to

preserve its flexibility under the Plan to craft appropriate incentive awards. The Committee continues to believe that this is not a currently significant issue and will continue to monitor the issue prospectively.

Stock Ownership Policy. FMC has established guidelines setting expectations for the ownership of FMC stock by officers and management. The guidelines for stock retention are based on a multiple of two to five times the employee's total cash compensation (salary grade midpoint and target bonus). All of the current FMC executives named in this proxy are in compliance with the stock ownership guidelines.

Stockholder Return Performance Presentation

The graph that follows shall not be deemed to be incorporated by reference into any filing made by FMC under the Securities Act of 1933 or the Securities Exchange Act of 1934, notwithstanding any general statement contained in any such filing incorporating this proxy statement by reference, except to the extent FMC incorporates such graph by specific reference. The following Stockholder Return Performance Graph compares the five-year cumulative return on FMC's Common Stock for the period from January 1, 1998 to December 31, 2002, with the S&P Midcap 400 Index and the S&P 400 Diversified Chemicals Index. The comparison assumes \$100 was invested on January 1, 1998 in the Company's Common Stock and in each of the Indices and assumes reinvestment of the dollar value of FMC's distribution of FMC Technologies stock on December 31, 2001. For the purposes of this graph, the FMC Technologies dividend is treated as a non-taxable cash dividend that would have been reinvested in additional FMC shares on January 2, 2002.

VII. Related Party Transactions

Mr. Thompson is chairman of the law firm of Winston & Strawn, which provided less than \$1,000 of legal services to FMC in 2002. The amount of the fees paid by FMC to Winston & Strawn was immaterial to both parties.

FMC and Robert N. Burt, the former Chairman and Chief Executive Officer of FMC who retired as a Director on April 23, 2002, entered into a Consulting Agreement, dated

October 31, 2001, pursuant to which Mr. Burt will provide advisory services concerning the business, affairs and management of FMC. The term of the agreement is November 1, 2001 through October 31, 2003. Under the agreement, Mr. Burt will receive annual compensation of \$400,000, together with certain fringe benefits.

VIII. Other Matters

Section 16(a) Beneficial Ownership Reporting Compliance

FMC has undertaken responsibility for preparing and filing the stock ownership forms required under Section 16(a) of the Securities Exchange Act of 1934 on behalf of its officers and directors. Based on a review of forms filed and information provided by officers and directors to FMC, FMC believes that all Section 16(a) reporting requirements were fully met.

Audit Committee Report

The Audit Committee Report that follows shall not be deemed to be incorporated by reference into any filing made by FMC under the Securities Act of 1933 or the Securities Exchange Act of 1934, notwithstanding any general statement contained in any such filing incorporating this proxy statement by reference, except to the extent FMC incorporates such Report by specific reference.

Stockholder Proposals for the 2004 Annual Meeting

Stockholders may nominate director candidates and make proposals to be considered at the 2004 Annual Meeting. In accordance with FMC's By-Laws, any stockholder nominations of one or more candidates for election as directors at the 2004 Annual Meeting must be delivered to FMC at the address set forth below, together with certain information specified in the By-Laws, not later than January 23, 2004. In order to make a proposal for consideration at the 2004 Annual Meeting, a stockholder must deliver notice to FMC at the address set forth below, containing certain information specified in the By-Laws, not less than 60 or more than 90 days before the date of the meeting. However, if FMC provides less than 70 days notice or public disclosure of the date of the 2004 Annual Meeting, then a stockholder may make a proposal at that meeting if FMC receives the required notice and additional required information from the stockholder within 10 days of FMC's notice or public disclosure of the date of the annual meeting.

In addition to being able to present proposals for consideration at the 2004 Annual Meeting, stockholders may also be able to have their proposals included in the company's proxy statement and form of proxy for the 2004 Annual Meeting. In order to have a stockholder proposal included in the proxy statement and form of proxy, the proposal must be delivered to FMC at the address set forth below not later than November 18, 2003, and the stockholder must otherwise comply with applicable Securities and Exchange Commission requirements. If the stockholder complies with these requirements for inclusion of a proposal in the company's proxy statement and form of proxy, the stockholder need not comply with the notice requirements described in the preceding paragraph.

A copy of the full text of the By-Law provisions discussed above may be obtained by writing to the Corporate Secretary, and all notices and nominations referred to above must be sent to the Corporate Secretary, at the following address: Corporate Secretary, FMC Corporation, 1735 Market Street, Philadelphia, Pennsylvania 19103.

Corporate Governance

The Company is currently in the process of amending its Board Committee charters and Corporate Governance Principles to reflect recent legislative and regulatory developments, including the passage of the Sarbanes-Oxley Act of 2002 and the proposed amendments to the New York Stock Exchange listing requirements. Based on adopted and proposed legislation, Securities and Exchange Commission regulations and New York Stock Exchange listing requirements published as of the date of this proxy statement, the Board of Directors has determined that all of the Company's outside directors are independent and that one of the outside directors who is a member of the Audit Committee, G. Peter D. Aloia, meets the definition of audit committee financial expert.

Electronic Delivery of Annual Meeting Materials

This proxy statement, FMC's annual report and Form 10-K are available on FMC's website at www.fmc.com. If you currently receive shareholder communications by mail, you can save FMC postage and printing expense by consenting to access these and other documents in the future over the internet. If you vote your shares for the Annual Meeting by internet, you will be offered the opportunity to enroll in our electronic delivery program. If you choose to enroll, you will receive notice next year when proxy materials or other documents distributed to shareholders are available, with instructions on how to view them and, if applicable, how to submit voting instructions. Your enrollment in FMC's electronic delivery program will remain in effect until you revoke it. Please be aware that if you choose electronic delivery, you may incur costs, such as telephone and internet access charges, for which you will be responsible.

Management encourages you to participate in this opportunity and the householding program described below.

Householding Election

In December 2000, the Securities and Exchange Commission enacted a new rule that allows multiple stockholders residing at the same address, the convenience of receiving a single copy of proxy statements, annual reports and other stockholder information at such address if they consent to do so. This is known as Householding. It will provide greater convenience for stockholders and reduce costs for the Company, as well as reduce the number of duplicate documents that you receive.

By checking the Yes or For box in the Householding Election section of your proxy card or voting instruction form, you are consenting to the mailing of a single copy of proxy statements, annual reports and other stockholder information to the account address. The same result will apply if you abstain from voting on the Householding Election. If you are enrolled in our Householding program, a separate proxy card for each registered stockholder account will continue to be mailed. Your consent will be perpetual unless you revoke it, which you may do at any time. To change or revoke your consent, contact FMC's agent, ADP Investor Communications Services, by calling (toll free) (800) 542-1061, or by writing to ADP, Householding Department, 51 Mercedes Way, Edgewood, New York, 11717. If you revoke your consent, you will begin receiving individual copies of future mailings within 30 days after receipt of your revocation notice. Even if you are enrolled in the Householding program, you may always obtain a separate copy of proxy materials, annual reports and other stockholder information for any additional stockholder residing at an address to which only one copy was mailed, by contacting the Corporate Secretary, at FMC Corporation, 1735 Market Street, Philadelphia, Pennsylvania 19103.

Please note that if you do not indicate your objection to Householding by checking No in the appropriate box on your proxy card or Against on the voting instruction form, you will be considered to have consented to Householding and it will start 60 days after the date of this proxy statement.

Expenses Relating to this Proxy Solicitation

FMC will pay all expenses relating to this proxy solicitation. In addition to this solicitation by mail, FMC officers, directors, and employees may solicit proxies by telephone or personal call without extra compensation for that activity. FMC also expects to reimburse banks, brokers and other persons for reasonable out-of-pocket expenses in forwarding proxy material to beneficial owners of FMC stock and obtaining the proxies of those owners. FMC has retained Georgeson Shareholder Communications Inc. of Carlstadt, New Jersey to assist in the solicitation of proxies. FMC will pay the cost of such assistance, which is estimated to be \$7,000 plus reimbursement for out-of-pocket fees and expenses.
