Item 1. Description of Business

Auric Mining Company (the "Company") was incorporated in the State of Delaware on March 1994 as Cellular Telecom Corporation and subsequently changed its name to Intelllicell Corp. in June 1996 and then to Focus Affiliates, Inc. on October, 1999. On November 12, 2009, the Company changed its name to Auric Mining Company.

The Company was reinstated on December 8, 2006 in the State of Delaware by an incorporator. The Company has been dormant since 2001 and was reorganized under new management on March 16, 2007 which will put the Company into the Development Stage.

On November 12, 2009, the Company's name was changed to Auric Mining Company and its quotation symbol was change to AUMY.

Effective November 12, 2009, the Company effectuated a 1 for 1,000 reverse stock splits, thereby reducing the issued and outstanding shares of Common Stock from 29,758,526 prior to the reverse split to 29,759 following the reverse split. This Form 10-K/A has been retroactively adjusted to reflect this reverse stock split.

Edgar Filing: FOCUS AFFILIATES INC - Form 10-K/A

The Company is in the development stage under the new management and has not generated any revenues since the Company was reinstated on December 8, 2006, and has incurred losses of \$28,130,000 since inception. Further, the Company incurred a loss of \$25,000 during the year ended December 31, 2007. In view of these conditions, the ability of the Company to continue as a going concern is in substantial doubt and dependent upon achieving a profitable level of operations and on the ability of the Company to obtain necessary financing to fund ongoing operations. To meet these objectives, the Company continues to seek other sources of financing in order to support existing operations and expand the range and scope of its business. However, there are no assurances that any such financing can be obtained on acceptable terms, if at all. These financial statements do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern.

2

Item 1A. Risk Factors

As the Company has no recent operating history or revenue under the new management, there is a risk that we will be unable to continue as a going concern and consummate a business combination. We have no significant assets or financial resources. We will, in all likelihood, sustain operating expenses without corresponding revenues, at least until the consummation of a business combination. This may result in our incurring a net operating loss that will increase continuously until we can consummate a business combination with a profitable business opportunity. We cannot assure you that we can identify a suitable business opportunity and consummate a business combination.

FUTURE SUCCESS IS HIGHLY DEPENDENT ON THE ABILITY OF MANAGEMENT TO LOCATE AND ATTRACT A SUITABLE ACQUISITION.

Item 1B. Unresolved Staff Comments

Not available.

Item 2. Properties

The Company neither rents nor owns any properties. The Company currently has no policy with respect to investments or interests in real estate, real estate mortgages or securities of, or interests in, persons primarily engaged in real estate activities.

Item 3. Legal Proceedings

There are not presently any material pending legal proceedings to which the Company is a party or as to which any of its property is subject, and no such proceedings are known to the Company to be threatened or contemplated against it.

Section 15(g) of the Securities Exchange Act of 1934: The Company's shares are covered by Section 15(g) of the Securities Exchange Act of 1934, as amended that imposes additional sales practice requirements on broker/dealers who sell such securities to persons other than established customers and accredited investors (generally institutions with assets in excess of \$5,000,000 or individuals with net

worth in excess of \$1,000,000 or annual income exceeding \$200,000 or \$300,000 jointly with their spouses). For transactions covered by this Section 15(g), the broker/dealer must make a special suitability determination for the purchase and have received the purchaser's written agreement to the transaction prior to the sale. Consequently, Section 15(g) may affect the ability of broker/dealers to sell the Company's securities and also may affect your ability to sell your shares in the secondary market.

Section 15(g) also imposes additional sales practice requirements on broker/dealers who sell penny securities. These rules require a one page summary of certain essential items. The items include the risk of investing in penny stocks in both public offerings and secondary marketing; terms important to an understanding of the function of the penny stock market, such as "bid" and "offer" quotes, a dealers "spread" and broker/dealer compensation; the broker/dealer compensation, the broker/dealers duties to its customers, including the disclosures required by any other penny stock disclosure rules; the customer's rights and remedies in causes of fraud in penny stock transactions; and, the NASD's toll free telephone number and the central number of the North American Administrators Association, for information on the disciplinary history of broker/dealers and their associated persons.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion of our financial condition and results of operations should be read in conjunction with the financial statements and notes thereto and the other financial information included elsewhere in this report. Certain statements contained in this report, including, without limitation, statements containing the words "believes," "anticipates," "expects" and words of similar import, constitute "forward looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve known and unknown risks and uncertainties. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of certain factors, including our ability to create, sustain, manage or forecast our growth; our ability to attract and retain key personnel; changes in our business strategy or development plans; competition; business disruptions; adverse publicity; and international, national and local general

economic and market conditions.

Overview

The Company does not currently engage in any business activities that provide cash flow. The Company is currently in the development stage.

Results of Operations for the year ended December 31, 2007.

Revenue. There is no revenue for the year ended December 31, 2007.

Operating Expenses. For the year ended December 31, 2007, the company has total operating expenses of \$25,000 as restructuring expenses.

6

Net Loss. The net loss for the year ended December 31, 2007 was \$25,000.

Liquidity and Financial Resources

The Company remains in the development stage since restructuring. Operations were financed through proceeds from sales and the issuance of equity and loans from directors. The directors have also advanced funds into the Company to cover cash flow deficiencies. The advances have no stated repayment terms.

The Company's financial statements are presented on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. At December 31, 2007, we have been unsuccessful in our efforts to raise additional capital to meet our plan of operation. Since restructuring, we have no revenue and have accumulated operating losses of \$28,130,000 since inception. At the present time, and over the next twelve months, our primary focus will be to explore various methods for raising additional funds and seeking profitable ventures.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk.

The Company does not hold any derivatives or investments that are subject to market risks. The carrying values of any financial instruments, approximate fair value as of those dates because of relatively short-term maturity of these instruments which eliminates any potential market risk associated with such instruments.

AURIC MINING COMPANY
(FORMERLY : FOCUS AFFILIATES, INC.)
(a development stage company)
Notes To Financial Statements
December 31, 2007
(Stated in US Dollars)
(Unaudited)

Note 1. General Organization and Business

Edgar Filing: FOCUS AFFILIATES INC - Form 10-K/A

Auric Mining Company (the "Company") is a Delaware corporation. It was incorporated in March 1994 as Cellular Telecom Corporation and subsequently changed its name to Intellicel Corp. in June 1996, then to Focus Affiliates, Inc. in October 1999 and subsequently to Auric Mining Company on November 12, 2009.

The Company was reinstated on December 8, 2006 in the State of Delaware by an incorporator. The Company has been dormant since 2001 and was reorganized under new management on March 16, 2007 which will put the Company into the Development Stage.

On November 12, 2009, the Company's name was changed to Auric Mining Company and its quotation symbol was changed to AUMY.

These financial statements have been prepared in accordance with generally accepted accounting principles applicable to a going concern, which assumes that the Company will be able to meet its obligations and continue its operations for its next fiscal year. Realization values may be substantially different from carrying values as shown and these financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. At December 31, 2007, the Company had not yet achieved profitable operations, has accumulated losses of \$28,130,000 since inception and expects to incur further losses in the development of its business, of which cast substantial doubt about the Company's ability to continue as a going concern.

16

The Company's ability to continue as a going concern is dependent upon future profitable operations and/or the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management has obtained additional funds by related party's advances; however, there is no assurance that this additional funding is adequate and further funding may be necessary.

Note 2. Significant Accounting Policies

These financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America and are stated in US dollars. Because a precise determination of many assets and liabilities is dependent upon future events, the preparation of financial statements for a period necessarily involves the use of estimates which have been made using careful judgment. Actual results may differ from these estimates.

Edgar Filing: FOCUS AFFILIATES INC - Form 10-K/A

The financial statements have, in management's opinion, been properly prepared within the framework of the significant accounting policies summarized below :

(a) Development Stage Company

The Company is a development stage company. The Company is devoting substantially all of its present efforts to establish a new business and none of its planned principal operations have commenced. All losses accumulated since inception has been considered as part of the Company's development stage activities.

(b) Financial Instruments

The carrying values of cash, accounts receivable, accounts payable, promissory notes payable and due to related parties approximate fair value because of the short-term nature of these instruments. Management is of the opinion that the Company is not exposed to significant interest, currency or credit risks arising from these financial instruments.

17

(c) Stock Issued in Exchange for Services

The valuation of common stock issued in exchange for services is valued at an estimated fair market value as determined by officers and directors of the Company based upon other sales and issuances of the Company's common stock within the same general time period.

(d) Stock-based Compensation

FASB ASC (Accounting Standards Codification) 718 "Stock Compensation" requires public companies to recognize the cost of employee services received in exchange for equity instruments, based on the grant-date fair value of those instruments, with limited exceptions. FASB ASC 718 "Stock Compensation" also affects the pattern in which compensation cost is recognized, the accounting for employee share purchase plans, and the accounting for income tax effects of share-based payment transactions. For small business filers, FASB ASC 718 "Stock Compensation" is effective for interim or annual periods beginning after December 15, 2005. The Company adopted the guidance in FASB ASC 718 "Stock Compensation" on October 1, 2007.

(e) Foreign Currency Translation

The Company translates foreign currency transactions and balances to its reporting currency, United States Dollars, in accordance with ASC 830, "Foreign Currency Matters". Monetary assets and liabilities are translated into the functional currency at the exchange rate in effect at the

Edgar Filing: FOCUS AFFILIATES INC - Form 10-K/A

end of the relevant reporting period. Non-monetary assets and liabilities are translated at the exchange rate prevailing when the assets were acquired or the liabilities assumed. Revenue and expenses are translated at the rate approximating the rate of exchange on the transaction date. All exchange gains and losses are included in the determination of net income (loss) for the year.

(f) Basic and Diluted Loss Per Share

The Company presents of both basic and diluted earnings per share ("EPS") on the face of the income

18

statement. Basic loss per share is computed by dividing the net loss available to common shareholders by the weighted average number of common shares outstanding during the year. Diluted EPS gives effect to all dilative potential common shares outstanding during the year including stock options, using the treasury stock method, and convertible preferred stock, using the if-converted method. In computing diluted EPS, the average stock price for the year is used in determining the number of shares assumed to be purchased from the exercise of stock options or warrants. Diluted EPS excludes all dilative potential common shares if their effect is anti dilative.

(g) Income Taxes

The Company follows FASB ASC 740 "Income Taxes", which requires the use of the asset and liability method of accounting for income taxes. Under the asset and liability method, deferred tax assets and liabilities are recognized for future tax consequences attributable to temporary differences between the financial statements carry amounts of existing assets and liabilities and loss carry forwards and their respective tax rates expected to apply to taxable income in the year in which those temporary differences are expected to be recovered or settled.

(h) Recently Issued Accounting Pronouncements

On June 30, 2009, the Financial Accounting Standards Board (FASB) issued FASB Statement No. 168, The FASB Accounting Standards Codification(tm) and the Hierarchy of Generally Accepted Accounting Principles—a replacement of FASB Statement No. 162. On the effective date of this statement, FASB Accounting Standards Codification(tm) (ASC) becomes the source of authoritative U.S. accounting and reporting standards for nongovernmental entities, in addition to guidance issued by the Securities and Exchange Commission (SEC). At that time, FASB ASC will supersede all then-existing, non-SEC accounting and reporting standards for nongovernmental entities. Once effective, all other non-grandfathered, non-SEC accounting literature not included

Edgar Filing: FOCUS AFFILIATES INC - Form 10-K/A

in FASB ASC will become no authoritative.

19

Under ASC 815, the Company discloses derivative instruments and hedging activities, which requires entities to provide enhanced disclosures about (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for under ASC 815 and its related interpretations and (c) how derivative instruments and related hedged items affect an entity's financial position, financial performance and cash flows.

Under ASC 805, "Business Combinations", the Company uses the acquisition method of accounting for all business combinations and for an acquirer to be identified for each business combination. Under ASC 805, the Company is also required to recognize the assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree at the acquisition date, measured at their fair values as of that date, with limited exceptions specified in ASC 805. In addition, acquisition costs and restructuring costs that the acquirer expected but was not obligated to incur to be recognized separately from the business combination, therefore, expensed instead of part of the purchase price allocation. ASC 805 will be applied prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. Early adoption is prohibited.

The Company follows ASC 825-10 in measuring the fair value of options for financial assets and liabilities. The Company is permitted to irrevocably elect fair value on a contract-by-contract basis as the initial and subsequent measurement attribute for many financial assets and liabilities and certain other items including insurance contracts. Entities electing the fair value option would be required to recognize changes in fair value in earnings and to expense upfront cost and fees associated with the item for which the fair value option is elected. ASC 825-10 is effective for fiscal years beginning after November 15, 2007. Early adoption is permitted as of the beginning of a fiscal year that begins on or before November 15, 2007, provided the entity also elects to apply the provisions of ASC 825-10, Fair Value Measurements.

20

Note 3. Share Capital

Amend the Company's authorized share capital.

Edgar Filing: FOCUS AFFILIATES INC - Form 10-K/A

On March 19, 2007, the authorized shares capital was increased as follows:

Authorized common stock consists of 1,000,000,000 shares having a par value of \$0.001 per share.

Note 4. Related Party Account

On December 31, 2007, \$25,000 was due to a corporation related to the Company. This amount bears no interest and with no stated repayment terms; the Company recorded no imputed interest on this borrowing.

Note 5. Income Taxes

The Company provides for income taxes under FSAB ASC 740, "Income Taxes". FSAB ASC 740 "Income Taxes" requires the use of an asset and liability approach in accounting for income taxes. Deferred tax assets and liabilities are recorded based on the differences between the financial statement and tax bases of assets and liabilities and the tax rates in effect currently.

The company has fully impaired any deferred tax asset due to the improbability of future taxable earnings.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.

Not applicable

Item 9A (T). Controls and Procedures.

As supervised by our board of directors and our principal executive and principal financial officers, management has established a system of disclosure controls and procedures and has evaluated the effectiveness of that system. The system and its evaluation are reported on in the below Management's Annual Report on Internal Control over Financial Reporting. 22

accounting firm, pursuant to temporary rules of the Securities and Exchange Commission that permit us to provide only management's report in this annual report. Management concluded in this assessment that as of December 31, 2007, our internal control over financial reporting is based on the limited information we have.

There have been no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fourth quarter of our 2007 fiscal year that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
