NOTE 1: BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS

a. Basis of consolidation

Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria ("Cresud" or "the Company") consolidated on a line by line basis the Balance Sheet as of March 31, 2012 and 2011, the Statements of Income and the Statements of Cash Flows for the periods ended as of March 31, 2012 and 2011 with the financial statements of subsidiaries, following procedures established by Technical Resolution No. 21 of the Federación Argentina de Consejos Profesionales de Ciencias Económicas (FACPCE), approved by Consejo Profesional de Ciencias Económicas de la Ciudad Autónoma de Buenos Aires and Comisión Nacional de Valores.

Significant transactions and balances with subsidiaries have been eliminated from the consolidation.

The financial statements as of March 31, 2012 and 2011 of the subsidiary companies Northagro S.A. ("Northagro"), Futuros y Opciones.Com S.A. ("FyO.Com"), Agrotech S.A. ("Agrotech"), Pluriagro S.A. ("Pluriagro"), FyO Trading S.A. ("FyO Trading"), Agropecuaria Acres del Sur S.A. ("Acres"), Ombú Agropecuaria S.A. ("Ombú"), Yatay Agropecuaria S.A. ("Yatay"), Yuchan Agropecuaria S.A. ("Yuchan"), Helmir S.A. ("Helmir"), Cactus Argentina S.A. ("Cactus") and IRSA Inversiones y Representaciones Sociedad Anónima ("IRSA") and the financial statements as of March 31, 2012 of and Brasilagro-Companhía Brasileira de Propiedades Agrícolas ("Brasilagro") have been used in order to determine line by line consolidation.

These Financial Statements and the corresponding notes are presented in thousands of Argentine Pesos.

On December 23, 2010, Cresud made a capital contribution in the amount of Ps. 16 million to Cactus, including additional paid-in capital. As a result of such capital contribution, our shareholding interest increased to 80% as of December 31, 2010.

As from December 31, 2010, Cresud consolidates its financial statements with those of Cactus, pursuant to the provisions of Accounting Standard Technical Resolution No. 21. Therefore, comparative figures in the consolidated balance sheet do not include Cactus, but the consolidated Income Statement and Statement of Cash Flows of the Company include Cactus for the three-month period.

NOTE 1: (Continued)

During the previous fiscal year, the Company has increased its share in Brasilagro-Companhía Brasileira de Propiedades Agrícolas to 35.75%. Therefore, as from June 30, 2011, Cresud consolidates its financial statements with those of Brasilagro, pursuant to the provisions of Accounting Standard Technical Resolution No. 21. Consequently, the comparative consolidated financial statements of the company do not include information consolidated with Brasilagro.

On September 13, 2010, Alto Palermo S.A. (“APSA”) sold its 80% interest in Tarshop S.A. Consequently, the consolidated balance sheet as of its comparative balances does not include Tarshop S.A. However, the statements of income and the statement of cash flows presented comparatively include such company for the two-month period when APSA held control over it. Therefore, the compatibility of consolidated financial statements is affected.

The totals relevant of the Company’s consolidated financial statements, assuming the consolidation with Brasilagro had taken place as of July 1, 2010, are presented for comparative purposes in the following charts. Additionally, below is a summary of the effect the deconsolidation of Tarshop would have had on the statement of income and the statement of cash flows as of that date.

They are stated at their net realizable value, net of any additional selling costs.

- Real Estate Business

A property is classified as inventories upon determination by the Board of Directors that the property is to be marketed for sale in the normal course of business over the next several years.

Profits arising from such valuation are shown in the "Gain from valuation of assets at net realizable value" caption of the Statements of Income.

Properties held for sale are classified as current or non-current based on the estimated date of sale and the time at which the related receivable is expected to be collected by the Company.

The amount recorded in inventories, net of allowances set up, does not exceed their estimated recoverable value at the end of the period / fiscal year.

h. Revenue recognition:

- Real Estate Business

1) Revenue recognition of IRSA

Sales of properties

IRSA records revenue from the sale of properties when all of the following criteria are met:

- The sale has been consummated.
- There is sufficient evidence that demonstrate the buyer's ability and commitment to pay for the property.
 - The Company's receivable is not subject to future subordination.
 - The Company has transferred the property to the buyer.

The Company uses the percentage-of-completion method of accounting with respect to sales of development properties under construction. Under this method, revenue is recognized based on the ratio of costs incurred to total estimated costs according to budgeted costs. The Company does not recognize results until construction activities have begun. The percentage-of-completion method of accounting requires the Company's Management to prepare budgeted costs in connection with sales of properties/units. All changes to estimated costs of completion are incorporated into revised estimates during the contract period.

Revenues from leases

Revenues from leases are recognized considering its term and conditions and over the life of the related lease contracts.

2) Revenue recognition of Alto Palermo S.A. (“APSA”)

Revenues for admission rights and rental of stores and stands

Leases with tenants are accounted for as operating leases. Tenants are generally charged a rent, which consists of the higher of: (i) a monthly base rent (the “Base Rent”) and (ii) a specified percentage of the tenant’s monthly revenues (the “Percentage Rent”) (which generally ranges between 4% and 10% of tenant’s gross revenues).

Furthermore, pursuant to the rent escalation clause in most leases, a tenant’s Base Rent generally increases between 7% and 12% each year during the term of the lease. Minimum rental income is recognized following on the accrued criteria.

Certain lease agreements contain provisions, which provide for rents based on a percentage of revenues or based on a percentage of revenues volume above a specified threshold. APSA determines the compliance with specific targets and calculates the additional rent on a monthly basis as provided in the contracts. Thus, these contingent rents are not recognized until the required thresholds are exceeded.

Generally, APSA’s lease agreements vary from 36 to 120 months. Law No. 24,808 provides that tenants may rescind commercial lease agreements after the initial six months, upon not less than 60 days’ written notice, subject to penalties which vary from one to one and a half months rent if the tenant rescinds after the first year of its lease, and one month of rent if the tenant rescinds after the first year of its lease.

Additionally, APSA charges its tenants monthly administration fees related to the administration and maintenance of the common area and the administration of contributions made by tenants to finance promotional efforts for the overall shopping centers operations. The administration fees are prorated among the tenants according to their leases which vary from shopping center to shopping center. Administration fees are recognized monthly when earned.

NOTE 3: (Continued)

In addition to rent, tenants are generally charged “admission rights”, a non-refundable admission fee that tenants may be required to pay upon entering into a lease or upon lease renewal. Admission right is normally paid in one installment or in a small number of monthly installments. Admission rights are recognized in earnings using the straight-line method over the life of the respective lease agreements.

Lease agent operations

Fibesa S.A., company in which APSA has an interest of 99.9996%, acts as the leasing agent for APSA bringing together the Company and potential lessees for the retail space available in certain of APSA’s shopping centers. Fibesa S.A.’s revenues are derived primarily from collected commissions calculated as a percentage of the final rental income value, admission’s rights and commissions for rental of advertising space. Revenues are recognized at the time that the transaction is successfully concluded.

Credit card operations “Consumer Financing”

Revenues derived from credit card transactions consist of commissions, financing income, charges to clients for life and disability insurance and for accounts statements, among other. Commissions are recognized at the time the merchants’ transactions are processed, while the rest financial income is recognized when accrued. Income generated from granting consumer loans mainly includes financial interests, which are recognized by the accrued method during the fiscal period / year whether collection has or has not been made. (Note 12.2.b).

NOTE 6: LAWSUITS AND CLAIMS IN COURSE

A. Agricultural Business

Ongoing litigation with the city of Villa Mercedes

The Misdemeanours Court Judge to the city of Villa Mercedes issued resolution No. 2980/08 about the situation of Cactus in such city, determining that the Company had a 36-month term to stop operating and transferring the establishment located on the Provincial Route 2B.

In such 36-month period, the Company shall not host over 18,500 head of cattle.

Such brief was appealed by Cactus before the Municipality, which was negatively answered on April 7, 2009, by means of Decree No. 0662/09, thus ratifying the Misdemeanour Court Judge's ruling. Under the administrative justice of the city of Villa Mercedes, Cactus would have until April 7, 2012 to present its plan to conclude operations and transfer the establishment.

Cactus has filed appeals with the High Court of Justice of the Province of San Luis, objecting the lawfulness of the rulings entered by the Misdemeanours Court Judge of Villa Mercedes. This filing was denied by the High Court of Justice, and the Company lodged an appeal of unconstitutionality against this decision, whose resolution, as of the date of issuance of these financial statements, is pending.

Irrespective of the above, Cactus is carrying out a plan to improve its relationship with the community of Villa Mercedes, seeking to strengthen the company's position as a valuable member in the social and economic activity in the region, whose purpose is that the scheduled moving be reconsidered by municipal authorities.

On January 27, 2012, the Company filed with the Municipality of Villa Mercedes a report on the activities performed, the economic and social relevance of the exploitation carried out by the Company and the special features, complexities and terms of a possible relocation. Such filing received by the Municipality of Villa Mercedes was forwarded to the Court of Misdemeanors for notification purposes.

| 1. | IRSA |
| a. | Puerto Retiro S.A. |

On April 18, 2000, Puerto Retiro S.A. (indirect subsidiary of IRSA) was notified of a filing made by the National Government, through the Ministry of Defense, to extend the petition in bankruptcy of Inversora Dársena Norte S.A. (Indarsa) to Puerto Retiro S.A. At the request of plaintiff, the bankruptcy court granted an order restraining the ability of Puerto Retiro S.A. to sell or dispose in any manner the acquired real estate property from Tandanor S.A. in June 1993.

Indarsa had acquired 90% of the capital stock of Tandanor S.A. to a formerly estate owned company privatized in 1991, engaged in the shipyard industry.

Indarsa did not comply with the payment of the outstanding price for the acquisition of the stock of Tandanor, and therefore the Ministry of Defense requested the bankruptcy of Indarsa, pursuing to extend the bankruptcy to Puerto Retiro S.A.

The evidence steps of the legal procedures have been completed Puerto Retiro S.A. appealed the precautionary measure, being the same confirmed by the Court on December 14, 2000. The parties have submitted their claims in due time. The file was passed for the judge to issue a pronouncement, the judge issued a decree adjourning the summoning of decisions to pronouncement in the understanding that there exists pre-judgment in respect of the penal cause filed against ex-officers of the Ministry of Defense and ex-directors of the Company. Consequently, the matter will not be solved until there is final judgment in penal jurisdiction.

Notice has been served upon the commercial court that the criminal cause of action was declared extinguished by operation of the statutes of limitation and that the accused were acquitted. However, this ruling was challenged by filing an appeal in cassation, which is why the other decision is still not final.

The Management and legal advisors of Puerto Retiro S.A. estimate that there are legal and technical arguments sufficient to consider that the request for bankruptcy will be denied by the court. However, taking the particular circumstances into account and the progress of the legal action, this position cannot be considered final.

b. Mortgage guaranteed loan Hoteles Argentinos S.A.

In March 2005, Credit Suisse First Boston (“CSFB”) acquired the debt for US\$ 11.1 million of Hoteles Argentinos S.A. (“HASA”), which had been in non-compliance since January 2002. In April 2006 HASA made a payment reducing the capital amount payable to US\$ 6.0 million. The balance accrued interests at a LIBO rate six months plus 7.0%, being the last of US\$ 5.07 due in March 2010.

Jointly, IRSA subscribed a credit default swap for 80% of the restructured debt value in order to protect CSFB in case of non-compliance with HASA’s obligations. As compensation, IRSA will receive a payment of a coupon on a periodical basis. In addition, to support the obligations assumed, IRSA deposited as guarantee the amount of US\$ 1.2 million.

With the last installment of the loan received having been repaid on March 15, 2010, CSFB reimbursed the deposit to the Company. In connection with this matter, HASA borrowed a new loan from Standard Bank Argentina S.A., for a total amount of Ps. 19.0 million, which will accrue interest at a fixed rate, payable on a quarterly basis. The capital was due on March 15, 2011. On this date, HASA refinanced the mentioned loan agreement, as per the following detail: US\$ 0.4 million, at a fixed rate (capital plus interest) to be paid on September 12, 2012; US\$ 0.4 million, at a fixed rate (capital plus interest) to be paid on March 14, 2012 and Ps. 15.8 million, at a fixed rate with capital to be paid on March 14, 2012 and interests payable on a quarterly basis.

On March 14, 2012, HASA refinanced the loan with Standard Bank Argentina S.A. for Ps.15.8 million through a bank checking account overdraft agreement with such entity. This agreement provides for a fixed interest rate and a monthly renewal of the agreement term.

The loan for US\$ 0.4 million held with such entity was repaid on the same date.

As a guarantee for this transaction, the Company entered into a put option agreement (Put Right) with Standard Bank Argentina S.A. whereby the Bank receives the right to sell to the Company, which in turn agrees to purchase, 80% of the credit rights arising from the loan in the event of HASA defaulted the loan.

As of the date of these financial statements, HASA had committed no event of default.

In January 2007, IRSA acquired two adjacent plots of land adjacent located in Vicente López, Province of Buenos Aires (one of them through the acquisition of the total share of Rummaala S.A, actually merged with CYRSA). The purchase price was US\$ 36.2 million, from which US\$ 30.3 million will be cancelled by handing over certain units of the building to be constructed. As security for compliance, Rummaala S.A. shares were pledged and the Building located in Suipacha 652 (owned property) was mortgaged, currently reversed.

Then, a major real estate development known as “Horizons” was launched on the two plots of land mentioned.

From May 2008, CYRSA continued the marketing process of the building units to be constructed on the plot referred to above. Certain clients had made advances by means of signing preliminary sales contracts, reaching 100% of the units to be marketed, which are disclosed in “Customer advances”.

The purchase-sale price set forth in these preliminary sales contracts are made of a fixed and determined portion and another portion to be determined in line with the future construction expenses.

The buyer can choose from the following purchase plans:

- The balance will be cancelled in installments and will be fully paid at the time of transfer and signature of deeds.
- Partial cancellation will be on installments payable up to the time of transfer / signatures of deeds, the remaining balance to be financed during 90 months’ term with units having mortgaged guarantees.

As of March 31, 2012, the percentage of completion of the “Horizons” project was 99.58%. Rio block’s towers included in the project have already been completed and are currently signing the title deeds. Likewise, the signature of deeds began for the completed units on Parque block.

b. Acquisition of Hersha Hospitality Trust’s shares (Hersha")

On August 4, 2009, IRSA, through Real Estate Investment Group L.P. ("REIG") acquired 5.7 million shares representing approximately 10.4% of Hersha’s common stock. Additionally, a call option that matures on August 4, 2014 to purchase an additional 5.7 million shares at an exercise price of US\$ 3.00 per share was acquired. Under the agreement, if starting on August 4, 2011 the quoted market price of Hersha’s share were to exceed US\$ 5.00 per share during 20 consecutive trading sessions, Hersha may settle the call option by issuing and delivering a variable amount of shares to be determined in accordance with certain market values.

NOTE 8:

The total purchase price paid was US\$ 14.3 million As part of the agreement, IRSA´s Chairman and CEO, Mr. Eduardo S. Elsztain, has been appointed to Hersha´s Board of Trustees.

In January 2010, March 2010, and October 2010, IRSA through its subsidiaries purchased 11,606,542 additional shares of Hersha´s common stock for an aggregate purchase price of US\$ 47.9 million.

During fiscal year ended of June 30, 2011, IRSA through its subsidiaries sold 2,542,379 common shares Hersha for a total of US\$ 16.1 million, which resulted in approximately US\$ 11.5 million gain.

On February 10, 2012, Hersha notified REIG its intention to exercise the call option to purchase 5,700,000 shares of Hersha granted in August 2009, pursuant to duly executed agreements. In furtherance thereof, Hersha has issued 2,521,561 shares, for which REIG has no obligation to pay any price. The value of the shares amounts to US\$ 13.6 million.

As of March 31, 2012 IRSA´s direct and indirect interest in Hersha represents 10.5%. Shares acquired were valued at its cost.

Hersha is a Real Estate Investment Trust (REIT) listed in the New York Stock Exchange (NYSE) under the “HT” symbol that holds majority interests in 67 hotels throughout the United States of America totaling approximately 9,598 rooms. These hotels are rated as “select service” and “upscale hotels” and they are mainly located in the Northeast coast of the US, including New York, New Jersey, Boston, Washington D.C. and Philadelphia, whilst a few are located in northern California and some others in Arizona. c. Acquisition Lipstick, New York Building

In July 2008, IRSA (through its subsidiaries) acquired a 30% interest in Metropolitan 885 "Metropolitan 885 Third Avenue. LLC" (or "Metropolitan"), through its subsidiaries which main asset is a rental office building in New York City known as the "Lipstick Building" and the debt related to that asset. The transaction included the acquisition of (i) a put right exercisable until July 2011 to sell a 50% of the interest acquired at the same value paid plus interest at 4.5% per annum and (ii) a right of first offer to acquire a 60% portion of the 5% interest of the shareholding. The total price paid was US\$ 22.6 million.

During 2009 Metropolitan incurred significant losses, which resulted in negative equity mainly due to an impairment recognized in connection with the building. Since IRSA's share in Metropolitan's losses exceeded its equity interest, IRSA recognized a zero value on its investment although a liability of US\$ 1.5 million was booked representing its maximum commitment to fund Metropolitan's operations.

In December 2010 the negotiations geared towards restructuring the amounts owed under mortgage to Royal Bank of Canada came to a successful conclusion. The debt was reduced from US\$ 210.0 million to US\$ 130.0 million (excluding accrued interest) at a Libor plus 400 bp rate, which may not exceed a maximum rate of 6.25% and with a maturity date fixed at seven years. The junior indebtedness to Goldman, Sachs & Co., which had amounted to US\$ 45.0 million (excluding accrued interest), was cancelled through a US\$ 2.25 million payment.

Metropolitan 885 Third Avenue Leasehold LLC ("Metropolitan Leasehold") will maintain the existing ground leases in the same terms and conditions in which they had been initially agreed upon, for a remaining 66 years' term. The final consent to this restructuring has already been tendered by all the parties concerned and the closing was consummated on December 30, 2010, as that is when the company New Lipstick LLC ("New Lipstick"), a new Metropolitan Leasehold holding company, made a US\$ 15.0 million principal payment as repayment of the newly restructured mortgage debt, thus reducing it from US\$ 130.0 million to US\$ 115.0 million.

NOTE 8:

(Continued)

As a consequence of said closing, the Company has indirectly – through New Lipstick – increased its ownership interest in the Lipstick Building to 49%. This increase originated in a US\$ 15.3 million capital contribution and in the fact that the put option for 50% of the shareholding initially acquired in Metropolitan, which had amounted to approximately US\$ 11.3 million plus accrued interest, has been rendered ineffectual. Besides, the above-mentioned commitment, for US\$ 1.5 million, ceased to be in effect.

d. Acquisition of shares in Banco Hipotecario S.A.

During the last fiscal years and in the current fiscal year, IRSA has been conducting different purchase and sale transactions of BHSA shares, as a result of which, as of March 31, 2012, IRSA's direct and indirect ownership interest in BHSA is 29.77% of BHSA's capital stock (without considering treasury shares).

e. Acquisition of companies in the Oriental Republic of Uruguay

During the fiscal year ended June 30, 2009, IRSA (through Tyrus) acquired by a minimum payment a 100% stake in Liveck S.A. (Liveck), a company organized under the laws of the Oriental Republic of Uruguay. Later IRSA sold 50% of its interest in Liveck to Cyrela Brazil Realty S.A. (Cyrela) for an amount of US\$ 1.3 million.

At the same time Liveck acquired, a 90% interest over the shares of the companies Zetol S.A. (Zetol) and Vista al Muelle S.A. (Vista al Muelle), both property owners in Uruguay's Canelones Department. The remaining 10% ownership interest in the capital stock of both companies is held by Banzey S.A. (Banzey).

The total price for the purchase of Zetol was US\$ 7.0 million, of which US\$ 2.0 million were paid, the balance will be paid in 5 installments of US\$ 1.0 million each with an annual 3.5% compensatory interest calculated on the total outstanding amount tied to the consummation of the release to the market of the real estate projects or within a maximum term of 93 months counted as from the date of acquisition of IRSA. The sellers of the shares of Zetol may choose to receive, in lieu of the amounts outstanding in cash (capital plus interest) the ownership rights to the units to be built in the real estate owned by Zetol representative of 12% of the total marketable square meters to built.

The total price for the purchase of all the shares in Vista al Muelle amounted to US\$ 0.83 million, and accrued an annual 8% interest on the total outstanding amount. As of September 10, 2010 this operations was completely paid.

To guarantee compliance with the duties agreed by Liveck in the above transactions, Ritelco S.A. has tendered a surety bond guaranteeing payment of 45% of the outstanding balance, interest thereon and the option rights of the sellers.

In the framework of the purchase agreement of Zetol and Vista al Muelle and their respective addenda, Liveck has agreed to buy the shares held by Banzey (or by Ernesto Kimelman or by a company owned by Ernesto Kimelman as applicable), of Vista al Muelle and Zetol and the later have agreed to sell them, in exchange for the amount of US Dollars or Uruguayan Pesos, as the case may be, that Banzey (or by Ernesto Kimelman or by a company owned by Ernesto Kimelman (as applicable), would have actually contributed to Zetol and Vista al Muelle, until the execution of the transaction.

The parties have agreed that the obligations mentioned above are dependent upon, and shall be rendered ineffectual if the parties entered into a shareholder agreement no later than July 1, 2011. If no such shareholder agreement is signed, this sale shall be executed and delivered on July 11, 2011.

On the balance sheet date, having failed to execute the shareholders' agreement or to sign an agreement to extend the term for such execution, the parties have not expressed their intention to perform the obligations assumed under the agreement to purchase the stock of Vista al Muelle S.A. and Zetol S.A.

IRSA and its shareholders intend to develop an urban project that will consist in the construction of apartment buildings to be subsequently sold. The project has already been conferred the "Urban Feasibility" status by Canelones' Mayor's Office and its Legislative Council.

In view of the additional development capacity granted by the IMC, the companies agree to pay maximum the sum of US\$ 8.1 million for all concepts solely with works and other services as consideration thereof. The works to be carried out in consideration thereof are described in the Contract Plan.

Furthermore, the companies may exercise an option included in the agreement that entitles them to a 15% reduction of the total consideration amount, provided 80% (eighty per cent) of such consideration has been already been performed with a term of 4 (four) years as from execution of the Contract Plan.

On the other hand, it states that if the companies do not build the square meters of additional development capacity granted to them, the total consideration amount will also be reduced proportionately as the parties agree.

In December 2009, Vista al Muelle acquired other properties totaling US\$ 2.7 million in exchange for a US\$ 0.3 million down payment, with the balance to be cancelled through the delivery of home units and/or stores to be built and equivalent to 12% out of 65.54% of the sum of the prices of all of the units covered by the Launching Price List for Sector B (the parties have already signed a plot of subdivision to this end).

In February 2010, it acquired additional real estate for a total of US\$ 1.0 million in exchange for a down payment of US\$ 0.15 million with the balance to be paid in 3 consecutive and equal installments maturing on December 31, 2011, June 30, 2013 and December 31, 2014 and accruing an annual 3% interest rate on the outstanding balance, payable quarterly and on arrears as from December 31, 2009.

On December 17, 2010, IRSA and Cyrela signed a stock purchase agreement whereby a 50% interest in Liveck's capital stock was reacquired from Cyrela for US\$ 2.7 million. This amount is equivalent to the contributions made in Liveck by Cyrela. Therefore, IRSA's interest in Liveck amounted to 100% (through Tyrus).

As part of the agreement, IRSA agreed to hold Cyrela harmless in the event of claims asserted by Zetol's sellers. Besides, if within a term of 24 months as from the date of the agreement Cyrela were not released from the guarantee tendered in favor of the above-mentioned sellers, IRSA will be obliged to post a new guarantee in favor of Cyrela, equivalent to 45% of the price balance, interest thereon and the option rights to which Zetol's sellers are entitled.

f. Option to acquire an interest in APSA

In January, 2010, Parque Arauco S.A. accepted the bid submitted by IRSA, and acquired, through a purchase option, the 29.55% interest in APSA and the held of face value of US\$ 15.5 million of “APSA’s Convertible Notes 2014”.

The acceptance of the bid grants IRSA the right to exercise the purchase option mentioned above until August 31, 2010, which term may be extended subject to compliance with certain conditions.

The strike price has been fixed at the total and final amount of US\$ 126 million. IRSA transferred US\$ 6 million to Parque Arauco S.A., non refundable, as payment in exchange for the option, to be computed towards cancellation of the final price.

On September 21, 2010, IRSA’s Board of Directors resolved to exercise the option, which was consummated on October 15, 2010 through the payment of the price balance and the transfer of the shares. The purchase of shares of NPSF was contingent upon the approval by the Regulatory Entity of the Port of Santa Fe of the share composition of NPSF provided, in addition, that the Caja de Asistencia Social Lotería de Santa Fe will not raise any challenge against the transaction.

As of August 18, 2011, once this condition was met the actual transfer of shares was completed, becoming APSA and Torodur owners of 33.33% and 16.66% of the capital stock, respectively, representing 50% of the voting capital of NPSF. Likewise GRAINCO S.A. owns the remaining 50% of the capital stock. Furthermore, NPSF and Casino Puerto de Santa Fe entered into a sublease agreement which replaces the previous lease agreement originally held by NPSF.

a. Brasilagro – Maeda. Changes in Jaborandi Ltda. contract

On September 22, 2011 Brasilagro executed an amendment to the ownership agreement of Jaborandi Ltd., whereby it assigns and transfers 1,766,038 of the shares in the Company's capital. Following this transfer, Brasilagro holds 14,572,661 shares and Maeda 7,212,271 shares. This transaction led to an investment loss in Brasilagro's results of operations of R\$ 1,135 (equal to Ps. 2,894). On that same date, as indicated in the Minutes of the Meeting of Shareholders, a decision was made to reduce the capital stock by R\$ 12,508 (or Ps. 28,369) by means of redemption and cancellation of 12,508,586 shares. Of this total, R\$ 7,775 (or Ps. 17,634) result from a capital reduction to offset against retained deficit by Brasilagro while R\$ 4,733 (or Ps. 10,735) were repaid to Brasilagro for they related to capital in excess in relation to the Company's purpose. Consequently, the capital stock of Jaborandi Ltda. was increased to R\$ 9,276 (or Ps. 21,039) and is composed of 9,276,346 shares, 50% of which are held by Brasilagro while the remaining 50% is held by Maeda, so that each shareholder would have a 50% stake in the company, that is, 4,638,173 shares.

On March 23, 2012, the Company signed a new agreement with Maeda, the minority shareholder Jaborandi Ltda. As a result, interest in BrasilAgro increased from 50% to 65.61%, while interest in Maeda decreased from 50% down to 34.39%.

The main terms of the agreement are as follows:

1. An increase in capital in Jaborandi Ltda. The total amount paid up was R\$ 25,055, of which R\$ 19,701 were contributed through the capitalization of advances for future increases in capital already made by BrasilAgro (R\$ 12,531) and Maeda (R\$ 7,171), and R\$ 5,354 were contributed in cash by BrasilAgro.
2. Due to the non-performance of the business plan approved on September 22, 2011 and pursuant to the agreement between the parties, the holdings of Grupo Maeda in Jaborando Ltda. were diluted proportionally to the contribution made.

NOTE 1: ACCOUNTING STANDARDS

Below there is a description of the most relevant accounting standards used by the Company in the preparation of these Financial Statements, which have been applied on a consistent basis from the previous fiscal year.

a. Presentation standards

These financial statements are stated in Argentine Pesos (Ps.) and have been prepared in accordance with the disclosure and valuation accounting standards contained in the Technical Resolutions issued by the Federación Argentina de Consejos Profesionales de Ciencias Económicas (FACPCE), as approved, with resolutions issued by the Consejo Profesional de Ciencias Económicas de la Ciudad Autónoma de Buenos Aires (CPCECABA) and the Comisión Nacional de Valores (CNV).

The Company's results for the nine-month period ended March 31, 2012 have not been audited. The Company's management estimates that they include all the adjustments necessary to present fairly the results for this period.

The Company's nine-month period ended March 31, 2012 results do not necessarily reflect the proportion of the Company's full-year results.

b. The effects of inflation

The financial statements have been prepared in constant currency units recognizing the effects of inflation up to August 31, 1995. As from this date and under professional accounting standards and as required by the enforcement agency, financial statements as of December 31, 2001 were no longer restated. As from January 1st, 2002 and under professional accounting standards, effects for inflation restarted to be recognized considering that accounting measurements restated for the change in the currency purchasing power until August 31, 1995, as those whose original date fell between such date and December 31, 2001, were stated in pesos as of such last date.

NOTE 1: (Continued)

On March 25, 2003, the Federal Executive issued Decree No. 664, which established that the financial statements for year ended after such date should be stated in nominal currency. Consequently, in conformity with Resolution No. 441/03 issued by the CNV, the Company discontinued the restatement of financial statements as from March 1, 2003. Such method does not agree with current professional accounting standards, which require that financial statements should be restated until September 30, 2003. However, given the little significance of inflation rates from March through September 2003, this departure has not generated a significant effect on the financial statements taken as a whole.

The rate used for restatement of items until February 28, 2003 is the domestic whole revenue price index published by the National Institute of Statistics and Census.

c. Comparative information

Amounts as of June 30, 2011 and March 31, 2011, which are disclosed for comparative purposes have been taken from the financial statements as of such dates.

The financial statements as of June 30, 2011 and March 31, 2011 originally issued have been subject to certain reclassifications required in order to present these figures comparatively with this period / year.

These financial statements have been prepared giving effect to the spin-off merger mentioned in Note 14; consequently, the stand-alone financial statements as of March 31, 2012 are not comparable with those issued as of June 30, 2011 and March 31, 2011.

d. Use of estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assessments that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at that date and the reported amounts of revenues and expenses during the period / year.

Comercial, Inmobiliaria, Financiera y Agropecuaria

NOTE 1: (Continued)

Estimates are used when accounting for the allowance for doubtful accounts, depreciations and amortizations, income taxes, deferred liabilities, translation differences, provisions for lawsuits and contingencies, accrual for expenses and assets' recoverable value and classification of the current and non-current assets and the current value of the assets and liabilities acquired in business combinations. Actual results could differ from these estimates.

e. Adoption of the International Financial Reporting Standards

Comisión Nacional de Valores, through the Resolution 562, has mandated that the Technical Resolution No. 26 of the FACPCE is to be applied by the companies admitted to the public offering system under Law No. 17,811 in connection with either their capital stock and/or convertible and non-convertible notes, and/or by the companies that have applied for admission to the public offering system. FACPCE's Technical Resolution No. 26 adopts the International Financial Reporting Standards issued by the International Accounting Standards Board. The Company shall apply the IFRS as from the fiscal year beginning on July 1, 2012. On April 29, 2010, the Company's Board of Director has approved the specific implementation plan to the application of IFRS which is currently under way.

NOTE 2: MORE RELEVANT ACCOUNTING STANDARDS

Cash on hand has been valued at face value.

b. Foreign currency assets and liabilities

Assets and liabilities denominated in foreign currency have been valued at the exchange rates prevailing at the end of the period / year.

c. Temporary investments

d. Trade accounts receivable and payable

Values obtained by this do not differ significantly from those that had been valued at their cash price estimated at the time of the transaction, plus interest and implied financial components accrued on the basis of the internal rate of return determined at such time.

e. Credits, short and long term debts

Credits, short and long-term debts have been valued at nominal value plus accrued interest at the end of the period / year. Values obtained by this do not differ significantly from those obtained from the sum of money delivered and/or received, respectively, net of transaction costs, plus financial results accrued at the internal rate of return determined at the moment of the initial measurement.

f. Derivates financial instruments

Forwards relate to cereal commitments deliverable and receivable at a previously agreed price and to purchase and sale of US Dollars and interest rate swaps agreements.

Premiums collected or paid correspond to options bought or written, respectively, and are included in Other debts and Other receivables, respectively, until its due date.

The assets and liabilities originated in derivatives instruments have been valued at their market value at the date of the financial statements and/or at the best possible estimate of the amount receivable of payable, discounted by applying a rate that reflects the market the time value of money and the specific risks of the assets.

The figures thus obtained are not significantly different from those that would have been obtained if valued on the basis of the best possible estimate of the amounts receivable and payable, respectively, discounted by application of a rate that reflects the time value of money and the specific risks inherent in the transaction estimated at the time of recognizing the item in assets and liabilities, respectively.

The VAT receivables have been valued based on the best possible estimate of the discounted amount using a rate that reflects the time value of money and the specific risks inherent in the transaction estimated as of the date of these financial statements.

2. Acquisitions of equity interests in companies

The significant acquisitions of companies are booked according to the “acquisition method” as established by Technical Resolution No. 18 and Technical Resolution No. 21. This implies identifying and determining the current values of assets and liabilities acquired, a process requiring complex judgments and significant estimations.

3. Goodwill

- Goodwill

The goodwill represents the excess acquisition cost above the market value of net assets from those subsidiaries acquired at the equity percentage.

The residual value of the goodwill generated by acquiring interests in the companies has been disclosed in the Investments on controlled and related companies account (Schedule C).

Upon defining the useful life, the following factors have been considered: (i) nature and expected life of acquired businesses; (ii) stability and expected life of the respective industry branch; (iii) effects that the obsolescence of products, changes in demand and other economic factors may have on the acquired business; (iv) feasibility of maintaining the required disbursement value to obtain future economic benefits from the acquired business and (v) the control period over the acquired business and legal or contractual provisions that may affect its useful life.

Based on these factors, the Company has estimated that it is not possible to estimate the specific useful life for the goodwill generated by applying the “acquisition method” provided by Technical Resolution No. 18, and it has therefore determined that they shall have an undefined useful life.

The values thus obtained, do not exceed their respective estimated recoverable values at the end of the period / year.

Negative goodwill has been restated following the guidelines mentioned in Note 1.b. to the financial statements and amortization has been calculated by the straight-line method based on estimated useful life, considering the weighted-average of the remaining useful life of identifiable assets acquired subject to depreciation, or in an accelerated way the proportional parts corresponds to the negative goodwill, when the subsidiaries required disposed theirs issues.

The useful lives of negative goodwill generated by IRSA acquisition was established between 20 to 30 years. The useful lives of negative goodwill generated by Brasilagro acquisition was established between 5 to 7 years.

Amortizations have been classified in the account "Gain on equity investees" in the Statement of Income.

NOTE 17: EXAGRIND S.A. LAWSUIT – SAN RAFAEL AGAINST TALI SUMAJ AND OTHER DAMAGES AND LOSSES

Because of the merge with IGSA, Note 14, the Company has been demanded by Exagrind S.A. on claims for damages and losses produced by a fire in “Estancia San Rafael”, which is close to Tali Sumaj farm, Province of Catamarca. The fire took place on September 6, 2000.

The estimated amount of the legal action is Ps. 2,915 at the date the claim was filed.

An extraordinary appeal to the High Court of the Province of Catamarca was timely filed, requesting for a remainder term to answer the lawsuit as, at the time of revoking the first instance judge decision that postponed the terms to answer until a new notice was dispatched, such period had not yet expired. The Court ruling was favorable, which enabled us to reply to the claim timely and duly. Currently, the file is under the period allowed for producing evidence.

Additionally, in March 2007 -under the request of Exagrind S.A. - the court in charge of the case seized an inhibition of assets. This decision was lifted in June 2007 and Tali Sumaj farm on attachment has been accepted in replacement.

It should be noted that during fiscal year 2010, it was executed the title deed for the sale of such establishment and because as of the closing date of these financial statements the attachment-in-aid-of-execution had not been lifted, the Company assumed certain obligations and provided a surety insurance to guarantee its obligation on behalf of the purchaser.

NOTE 18: BUYBACK OF TREASURY STOCK

On August 26, 2008, the Company’s board of directors decided to acquire treasury stock under section 68, Law No. 17,811 and CNV regulations for a maximum amount of Ps. 30,000 and 10,000,000 shares of common book-entry shares of face value of Ps. 1 per share and entitled to 1 vote. Later, both the maximum amount and the number of shares were increased to Ps. 82,000 and 30,000,000, respectively.

This decision was taken to contribute to the decrease in the draw down and reduction of fluctuations in the listed price of the Company’s shares aiming at contributing to strengthening the shares on the market, minimizing possible temporary imbalances that there may be between the supply and demand on the market, considering the excessive cost of capital that the current listed prices showed.

Buenos Aires, May 14, 2012 - Cresud S.A.C.I.F. y A. (Nasdaq: CRESY – BASE: CRES), one of the leading agricultural companies in Argentina, announces today its results for the first nine months of fiscal year 2012 ended March 31, 2012.

At the beginning of fiscal year 2012 we increased our interest in BrasilAgro to 35.75%. Therefore, we present our financial statements in consolidated form to include the accounts of BrasilAgro. This consolidation impacts significantly on the results of our Agricultural business segment.

During the nine-month period, sales from the Agricultural business segment increased 119.2% compared to the same period of fiscal year 2011. This was driven mainly by a 230.1% increase in the sale of Crops, which exceeded by ARS 313.3 million the sales recorded in the same period of fiscal year 2011. The Beef Cattle business recorded a 119.6% rise in sales, thanks to the increase in meat production and sustained price levels in the domestic market.

Production from the Agricultural business segment grew strongly thanks to the consolidation of our subsidiary BrasilAgro and the late harvesting of corn crops in our Argentine farms. All this led to a 540.5% increase in Crop production during the nine-month period and a 184.5% increase in production income. In addition, we increased the tons of Beef Cattle production by 40.9% and consequently, Beef Cattle production income grew by 73.6%.

Sales from the Real Estate segment rose 6.4% thanks to the good performance of the rental segments (“Shopping Centers” and “Offices”), whose combined sales increased by ARS 165.1 million, offset by the deconsolidation of the consumer finance business, lower revenues from the “Sales and Developments” segment, and a drop in the activity of the “Hotels” segment.

Gross profit grew by 22.3% during the nine-month period, explained by an increase of 67.6% in gross profit from the Agricultural business segment (which reached ARS 204.5 million), a 14.2% increase in gross profit from the Real Estate segment (which totaled ARS 688.0 million) and a gross loss of ARS 10.5 million from the Feed Lot/Slaughter segment. Gross profit for the first nine months of fiscal year 2012 totaled ARS 882.0 million.

Operating income totaled ARS 501.8 million during the first nine months of fiscal year 2012, showing a slight decrease of 2.1% as compared to the same period of 2011. This decrease is explained by a fall of ARS 84.2 million in operating income from the Agricultural business segment due to higher selling and administrative expenses (which rose ARS 105.9 million) due to the consolidation of our business in Brazil and lower holding results from the Beef Cattle production segment (fall of ARS 55.9 million) and an ARS 14.0 million loss generated by the Feed Lot/Slaughter segment, offset by an increase of ARS 87.4 million in operating income from the Real Estate business (mainly Shopping Centers and Offices).

Net income for the first nine months of fiscal year 2012 amounted to ARS 67.1 million, a 52.7% decrease compared to the same period of fiscal year 2011. Considering that operating income was ARS 10.8 million lower than in the previous period, the fall in net income before taxes was mainly caused by a net financial loss that was ARS 146.3 million higher, reaching ARS 380.8 million as compared to ARS 234.3 million in the same period of the previous fiscal year. The main reason for this decrease was a net loss from changes in exchange rates for ARS 115.7 million (vs. ARS 44.0 million), a net interest loss of ARS 242.6 million (vs. ARS 190.0 million) and a net loss from other financial assets for ARS 22.5 million (vs. a net income of ARS 0.5 million).

Since the end of 2011, beginning of the summer, Argentina has suffered a severe drought in its Corn Belt caused by “La Niña” effect. As a consequence of this, the USDA has published new estimations for season 2011/2012 harvest. According to the “World Agricultural Production”2 report Corn projected production for Argentina fell from 26 million tons (estimated in May 2011) to 21.5 million tons and projected production for Soybean fell from 53.0 million tons (projected one year ago) to 42.5 million tons. Moreover, Soybean projected production in Brazil and Paraguay fell 7.5 million tons and 3.5 million tons respectively, compared to the forecasts one year ago. As most of our farms are located in marginal areas, we expect the drought to have a mild impact.

As from the past quarter we have started to consolidate results from our subsidiary BrasilAgro. For this reason, our production income has been much higher than in the past year (with 133.4% increase compared to the first nine months of fiscal year 2011), mainly reflecting the production of Sugarcane, which contributed approximately 619,000 additional tons during the first nine months of fiscal year 2012.

Moreover, revenues from production of crops at domestic level increased by 50%, reaching ARS 109.0 million due to the fact that corn harvesting was completed after the closing of fiscal year 2011.

In addition, sales revenues were affected by the same reasons, namely, the consolidation of BrasilAgro and the impact of the 2010/2011 season during this period.

The delay in completing harvesting results from our diversification policy, not only in terms of geographic regions and crops but also in selecting the most suitable time for planting. In this way, we diversify the weather risks to which our crops are exposed. Thanks to this policy, we managed to mitigate the effects of the drought that affected Argentina during the summer season.

	As of	As of	YoY Var

Own farms ⁴	125,367	61,388	104.2	%

Own farms leased to third parties	23,522	8,705	170.2	%
Total Area Assigned to Crop Production	202,109	132,698	52.3	%

The 52.3% increase in total area in operation results from the fact that, as disclosed in our previous earnings release, during this period we fully consolidated all the farms of our subsidiary BrasilAgro (which contributed nearly 62,300 agricultural hectares into our portfolio). Therefore, we report our Brazilian subsidiary's total portfolio within our own portfolio.

In addition, as previously disclosed, due to the transformation and land development processes carried out in our "La Esmeralda" and "La Suiza" farms in Argentina and our "Jerovía" farm in Paraguay, we added around 6,400 new hectares to our portfolio. Besides, following a series of real estate transactions we increased by 2,200 hectares our presence in Bolivia.

During this season, we have reduced the area of leased farms assigned to crop production, driven mostly by our decision to apply a strict criterion regarding the target margin in each farm, given the higher volatility observed in the crops market.

The decrease in the area in operation assigned to crop production in the farms of Agropecuaria Anta (long term concession granted to Cresud) results from the fact that we have increased the area in operation in this farm which we lease to third parties.

In line with the foregoing, the increase to 23,522 hectares of farms leased to third parties is broken down as follows: 5,400 hectares correspond to BrasilAgro's farm "Preferencia", 13,600 hectares from the concession and 6,400 from farms that Cresud has in Argentina, mainly "Los Pozos".

As mentioned in our previous releases, in anticipation of the weather effect caused by the drought experienced during this season, the Company postponed planting and applied specific processes suited to this eventuality. Besides, Cresud's portfolio is located in marginal areas that are far from the region affected by the drought and have recorded good rainfall levels, and only a small portion of our portfolio of own lands has been affected. The impact on lands leased from third parties could be higher, given their location.

1 Excludes Agro-Uranga S.A. (35.72% of 8,299 has). As of December 31, 2011 it includes information on BrasilAgro as a result of its consolidation as of June 30, 2011.

Production revenues increased by 73.6% during the first nine months of fiscal year 2012 as compared to the same period of 2011. This increase is explained by a 40.9% rise in tons produced and an increase of approximately 23.2% in the average price per ton produced.

Sales revenues increased 119.6% compared to the first nine months of fiscal year 2011. This rise was driven by an 84.8% increase in tons sold and an 18.8% increase in prices, reaching an average sales price of ARS 8.44 per kilo.

Gross profit from this segment reached ARS 28.7 million for the first nine months of fiscal year 2012, mainly because production and sales costs increased to a lesser extent than revenues.

Our holding results were lower than in the same quarter of the previous fiscal year as prices did not increase at the same rate as at that moment. This is why the business margin is 57.8% lower.

Along with an increase in administrative expenses, the operating income for this segment was ARS 16.3 million for the first nine months of fiscal year 2012, a fall of 77.5% as compared to the same period of the previous fiscal year.

Gross profit from the milk segment for the first nine months of fiscal year 2012 fell 24.2% as compared to the same period of the previous fiscal year. The fall in production volumes resulting from the sale of “La Juanita” farm was slightly offset by the 14.7% improvement in average prices and a higher daily output per milking cow in our “El Tigre” farm.

During the first nine months of fiscal year 2012 we reached 22.5 liters per milking cow per day (16.8% higher compared to same period last year). Our goal for this fiscal year is to ensure a minimum of 20 liters per day, surpassing the 19 liters per day average recorded in the previous fiscal year.

In addition to the good production performance, sustained prices have been observed in the domestic market. It is expected that this trend will continue during the following months.

Land Development

During this fiscal year we developed a total of 34,157 hectares in the region, 8,607 of which were placed into production during this season (2,014 hectares in Paraguay and 6,593 hectares in Argentina). During the next season we will continue to develop new agricultural areas as we have done during the past years, although the amount of hectares to be developed has not been defined yet.

During the next season, 25,550 hectares developed during this year will become operational, 19,800 of which are located in Brazil in six of the farms we own in that country). In Argentina, we will add 3,729 hectares in our “Los Pozos” and “La Suiza” farms and the farm we have in concession. We will also add 2,021 new hectares in Paraguay.

During the first quarter of this fiscal year, our subsidiary BrasilAgro sold its “Sao Pedro” farm, a 2,447 hectare property with 1,724 hectares suitable for crops. Located in the State of Goiás, this farm had been acquired in 2006 for BRL 9.9 million and during the years in which BrasilAgro had possession of it, it received investments for BRL 0.4 million. As the transaction was agreed for BRL 23.3 million (at discounted values), it generated a 153% gain over the invested amount. This transaction is yet another example of this company’s sound business model in terms of land development. After increasing its potential, the income resulting from its sale was more than 100% of its purchase value.

Results from this segment are lower, as during the same quarter of fiscal year 2011 we had sold “La Juanita” farm for USD 18 million as part of our process of consolidating milk production in our El Tigre farm.

Our stake in IRSA has a high impact on our results, therefore we recommend the reading of detailed information on IRSA provided in its webpage (www.irsa.com.ar), in the Argentine Comisión Nacional de Valores website (www.cnv.gov.ar) and in the Securities and Exchange Commission website (www.sec.gov).

EBITDA represents operating income plus depreciation and amortization (included in operating income). Our presentation of EBITDA does not reflect the methodology suggested by its acronym. We believe EBITDA provides investors with meaningful information with respect to our operating performance and facilitates comparisons to our historical operating results. However, our EBITDA measure has limitations as an analytical tool, and should not be considered in isolation, as an alternative to net income or as an indicator of our operating performance or as a substitute for analysis of our results as reported under Argentine GAAP. Some of these limitations include:

- it does not reflect our cash expenditures, or future requirements for capital expenditures or contractual commitments;
- it does not reflect changes in, or cash requirements for, our working capital needs;
- it does not reflect our interest expense, or the cash requirements to service the interest or principal payments of our debt;

- it does not reflect any cash income taxes or employees' profit sharing we may be required to pay;

- it reflects the effect of non-recurring expenses, as well as investing gains and losses;

- it is not adjusted for all non-cash income or expense items that are reflected in restatements of changes in financial position; and

- other companies in our industry could calculate this measure differently than we do, which may limit its usefulness as a comparative measure.

Because of these limitations, our EBITDA measure should not be considered a measure of discretionary cash available to us to invest in the growth of our business or as a measure of cash that will be available to us to meet our obligations. EBITDA is not a recognized financial measure under Argentine GAAP. You should compensate for these limitations by relying principally on our Argentine GAAP results and using our EBITDA measurement supplementally.

Prospects for the Next Period

When planting activities started there were optimum soil humidity conditions in most of the areas where the coarse crop planting process (including soybean, corn and sunflower) was set to begin. Yet, as we had foreseen some months ago, during the last months of 2011 the “La Niña” effect caused droughts in large areas of the Pampa region, as it had happened in the previous year. Fortunately, most of our portfolio is located away from the most severely affected area, and has received good rainfall. The drought has caused decreases in the forecast production of soybean and corn. In April we started coarse harvesting of our principal crops, noting only slight effects of the drought in the output of our own farms. However, the farms leased by us were affected to a larger extent. By the closing of the fiscal year we will be able to assess the full impact this weather condition will have on our production and in the whole region, and its ensuing effects on crop prices.

In the past months crop market prices have shown to be volatile, and the government has persistently intervened in the domestic market, leading to a certain degree of uncertainty. We do not expect that this scenario will change in the near future, and have thus maintained a more conservative position in connection with our hedging strategies, which we have implemented accompanying output certainty so as to capture increases in crop prices.

In addition, the “La Niña” effect has caused severe drought conditions in the core productive region of Argentina. In this sense, the USDA February report has estimated a fall of 4 million tons in the production of corn and of 2.5 million tons in the production of soybean, down to 22 million and 48.5 million, respectively. This was read by the global markets, causing an upward trend in the price of these commodities.

Beef cattle and milk prices are expected to remain steady, following the trend observed in the past months, and we project that production from our businesses will mirror the levels attained during this quarter.

As concerns agricultural development, we will continue to make progress in our transformation plans, as we expect to bring more than 28,500 additional hectares to production for the 2012/13 season.
