NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

At September 30, 2013 – Unaudited

(In thousands, except share data, unless otherwise stated)

1. BASIS OF PRESENTATION

Mettler-Toledo International Inc. ("Mettler-Toledo" or the "Company") is a leading global supplier of precision instruments and services. The Company manufactures weighing instruments for use in laboratory, industrial, packaging, logistics and food retailing applications. The Company also manufactures several related analytical instruments and provides automated chemistry solutions used in drug and chemical compound discovery and development. In addition, the Company manufactures metal detection and other end-of-line inspection systems used in production and packaging and provides solutions for use in certain process analytics applications. The Company's primary manufacturing facilities are located in China, Germany, Switzerland, the United Kingdom and the United States. The Company's principal executive offices are located in Columbus, Ohio and Greifensee, Switzerland. The accompanying interim consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") and include all entities in which the Company has control, which are its wholly-owned subsidiaries. The interim consolidated financial statements have been prepared without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted pursuant to such rules and regulations. The interim consolidated financial statements as of September 30, 2013 and for the three and nine month periods ended September 30, 2013 and 2012 should be read in conjunction with the consolidated financial statements and the notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

The accompanying interim consolidated financial statements reflect all adjustments which, in the opinion of management, are necessary for a fair statement of the results of the interim periods presented. Operating results for the three and nine months ended September 30, 2013 are not necessarily indicative of the results to be expected for the full year ending December 31, 2013.

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, as well as disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Actual results may differ from those estimates. A discussion of the Company's critical accounting policies is included in Management's Discussion and Analysis of Financial Condition and Results of Operations and the Notes to the Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

All intercompany transactions and balances have been eliminated.

Certain reclassifications have been made to prior year amounts to conform to the current year presentation.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Trade Accounts Receivable

Trade accounts receivable are recorded at the invoiced amount and do not bear interest. The allowance for doubtful accounts represents the Company's best estimate of probable credit losses in its existing trade accounts receivable. The Company determines the allowance based upon a review of both specific accounts for collection and the age of the accounts receivable portfolio.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

At September 30, 2013 – Unaudited (Continued)

(In thousands, except share data, unless otherwise stated)

**Inventories**

Inventories are valued at the lower of cost or net realizable value. Cost, which includes direct materials, labor and overhead, is generally determined using the first in, first out (FIFO) method. The estimated net realizable value is based on assumptions for future demand and related pricing. Adjustments to the cost basis of the Company's inventory are made for excess and obsolete items based on usage, orders and technological obsolescence. If actual market conditions are less favorable than those projected by management, reductions in the value of inventory may be required.

Inventories consisted of the following:

	September 30, 2013	December 31, 2012
Raw materials and parts	\$97,854	\$94,450
Work-in-progress	43,538	36,899
Finished goods	77,786	67,590
	\$219,178	\$198,939

**Goodwill and Other Intangible Assets**

Goodwill, representing the excess of purchase price over the net asset value of companies acquired, and indefinite-lived intangible assets are not amortized, but are reviewed for impairment annually in the fourth quarter, or more frequently if events or changes in circumstances indicate that an asset might be impaired. The annual evaluation for goodwill is generally based on an assessment of qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If the Company is unable to conclude that a reporting unit is not impaired after considering the totality of events and circumstances during its qualitative assessment, the Company performs the first step of the two-step impairment test by estimating the fair value of the reporting unit and comparing the fair value to the carrying amount of the reporting unit. If the carrying amount of a reporting unit exceeds its fair value, then the Company performs the second step of the goodwill impairment test to measure the amount of the impairment loss, if any. The annual evaluation for indefinite-lived intangible assets is based on valuation models that estimate fair value based on expected future cash flows and profitability projections. Other intangible assets include indefinite-lived assets and assets subject to amortization. Where applicable, amortization is charged on a straight-line basis over the expected period to be benefited. The straight-line method of amortization reflects an appropriate allocation of the cost of the intangible assets to earnings in proportion to the amount of economic benefits obtained by the Company in each reporting period. The Company assesses the initial acquisition of intangible assets in accordance with the provisions of ASC 805 "Business Combinations" and the continued accounting for previously recognized intangible assets and goodwill in accordance with the provisions of ASC 350 "Intangibles – Goodwill and Other" and ASC 360 "Property, Plant and Equipment."

	\$169,738	\$(55,726 )	\$169,313	\$(51,749 )

The Company recognized amortization expense associated with the above intangible assets of \$1.5 million and \$1.9 million for the three months ended September 30, 2013 and 2012, respectively and \$4.4 million and \$5.6 million for the nine months ended September 30, 2013 and 2012, respectively. The annual aggregate amortization expense based on the current balance of other intangible assets is estimated at \$5.9 million for both 2013 and 2014, \$5.2 million for 2015, \$5.0 million for 2016, \$4.8 million for 2017 and \$4.5 million for 2018. Purchased intangible amortization was \$1.3 million (\$0.9 million after tax) and \$1.8 million (\$1.2 million after tax) for the three months ended September 30, 2013 and 2012, respectively and \$4.0 million (\$2.7 million after tax) and \$5.2 million (\$3.4 million after tax) for the nine months ended September 30, 2013 and 2012, respectively.

In addition to the above amortization, the Company recorded amortization expense associated with capitalized software of \$5.2 million and \$3.3 million for the three months ended September 30, 2013 and 2012, respectively and \$13.1 million and \$10.0 million for the nine months ended September 30, 2013 and 2012, respectively.

Revenue Recognition

Revenue is recognized when title to a product has transferred and any significant customer obligations have been fulfilled. Standard shipping terms are generally FOB shipping point in most countries and, accordingly, title and risk of loss transfers upon shipment. In countries where title cannot legally transfer before delivery, the Company defers revenue recognition until delivery has occurred. The Company generally maintains the right to accept or reject a product return in its terms and conditions and also maintains appropriate accruals for outstanding credits. Shipping and handling costs charged to customers are included in total net sales and the associated expense is recorded in cost of sales for all periods presented. Other than a few small software applications, the Company does not sell software products without the related hardware instrument as the software is embedded in the instrument. The Company's products typically require no significant production, modification or customization of the hardware or software that is essential to the functionality of the products. To the extent the Company's solutions have a post-shipment obligation, such as customer acceptance, revenue is deferred until the obligation has been completed. The Company defers product revenue where installation is required, unless such installation is deemed perfunctory. The Company also sometimes enters into certain arrangements that require the separate delivery of multiple goods and/or services. These deliverables are accounted for separately if the deliverables have standalone value and the performance of undelivered items is probable and within the Company's control. The allocation of revenue between the separate deliverables is typically based on the relative selling price at the time of the sale in accordance with a number of factors including service technician billing rates, time to install and geographic location.

Further, certain products are also sold through indirect distribution channels whereby the distributor assumes any further obligations to the customer upon title transfer. Revenue is recognized on

these products upon transfer of title and risk of loss to its distributors. Distributor discounts are offset against revenue at the time such revenue is recognized.

Service revenue not under contract is recognized upon the completion of the service performed. Spare parts sold on a stand-alone basis are recognized upon title and risk of loss transfer which is generally at the time of shipment.

Revenues from service contracts are recognized ratably over the contract period. These contracts represent an obligation to perform repair and other services including regulatory compliance qualification, calibration, certification and preventative maintenance on a customer's pre-defined equipment over the contract period. Service contracts are separately priced and payment is typically received from the customer at the beginning of the contract period.

Warranty

The Company generally offers one-year warranties on most of its products. Product warranties are recorded at the time revenue is recognized. While the Company engages in extensive product quality programs and processes, its warranty obligation is affected by product failure rates, material usage and service costs incurred in correcting a product failure. The Company's accrual for product warranties is included in accrued and other liabilities in the consolidated balance sheets. Changes to the Company's accrual for product warranties for the nine months ended September 30 are as follows:

	September 30, 2013	September 30, 2012

Employee Termination Benefits

In situations where contractual termination benefits exist, the Company records accruals for employee termination benefits when it is probable that a liability has been incurred and the amount of the liability is reasonably estimable. All other employee termination arrangements are recognized and measured at their fair value at the communication date unless the employee is required to render additional service beyond the legal notification period, in which case the liability is recognized ratably over the future service period.

Share-Based Compensation

The Company recognizes share-based compensation expense within selling, general and administrative in the consolidated statement of operations with a corresponding offset to additional paid-in capital in the consolidated balance sheet. The Company recorded \$3.1 million and \$9.0 million of share-based compensation expense for the three and nine months ended September 30, 2013, respectively, compared to \$3.3 million and \$9.2 million for the corresponding periods in 2012.

Research and Development

Research and development costs primarily consist of salaries, consulting and other costs. The Company expenses these costs as incurred.

**3. FINANCIAL INSTRUMENTS**

As more fully described below, the Company enters into certain interest rate swap agreements in order to manage its exposure to changes in interest rates. The amount of the Company's fixed obligation interest payments may change based upon the expiration dates of its interest rate swap agreements and the level and composition of its debt. The Company also enters into certain foreign currency forward contracts to limit the Company's exposure to currency fluctuations on the respective hedged items. The Company does not use derivative financial instruments for trading purposes. For additional disclosures on the fair value of financial instruments, also see Note 4 to the interim consolidated financial statements.

**Cash Flow Hedges**

The Company has an interest rate swap agreement, designated as a cash flow hedge. The agreement changes the floating rate LIBOR-based interest payments associated with \$100 million in borrowings under the Company's credit agreement to a fixed obligation of 3.24%. The swap is recorded gross in other non-current liabilities in the consolidated balance sheet at its fair value at September 30, 2013 and December 31, 2012 of \$6.0 million and \$8.2 million, respectively. The amount recognized in other comprehensive income (loss) during the three month periods ended September 30, 2013 and 2012 was a loss of \$0.3 million (\$0.2 million after tax) and a loss of \$0.6 million (\$0.4 million after tax), respectively, and during the nine month periods ended September 30, 2013 and 2012 the amount recognized was a loss of \$0.1 million (\$0.1 million after tax) and a loss of \$2.0 million (\$1.2 million after tax), respectively. The effective portion of the loss reclassified from accumulated other comprehensive income (loss) to interest expense was \$0.8 million (\$0.5 million after tax) for both the three month periods ended September 30, 2013 and 2012, respectively, and \$2.3 million (\$1.4 million after tax) for both the nine month periods ended September 30, 2013 and 2012, respectively. A derivative loss of \$3.0 million (\$1.9 million after tax) based upon interest rates at September 30, 2013, is expected to be reclassified from other comprehensive income (loss) to earnings in the next twelve months. Through September 30, 2013 no hedge ineffectiveness has occurred in relation to this hedge.

In June 2013, the Company entered into a forward starting interest rate swap agreement, designated as a cash flow hedge. The agreement which will change the floating rate LIBOR-based interest payments associated with \$50 million in forecasted borrowings under the Company's credit agreement to a fixed obligation of 2.52% beginning in October 2015. The swap is recorded in other non-current assets in the consolidated balance sheet at its fair value at September 30, 2013 of \$0.7 million. The amount recognized in other comprehensive income (loss) during the three months and nine months ended September 30, 2013 and was a loss of \$0.2 million (\$0.1 million after tax) and a gain of \$0.7 million (\$0.4 million after tax), respectively.

In July 2012, the Company began entering into foreign currency forward contracts, designated as cash flow hedges, to hedge certain forecasted intercompany sales denominated in euro with its Swiss-based businesses. The notional amount of foreign currency forward contracts outstanding at September 30, 2013 and December 31, 2012 was \$76.7 million and \$78.0 million, respectively. The foreign currency forward contracts are recorded gross at their fair value in the consolidated balance sheet at September 30, 2013 in other current assets of \$0.1 million and in accrued and other liabilities of \$0.6 million, respectively. At December 31, 2012, the foreign currency forward contracts are recorded gross at their fair value in the consolidated balance sheet in accrued and other liabilities of \$0.4 million. The Company records the effective portion of the cash flow derivative hedging gains and losses in accumulated other comprehensive income (loss), net of tax and reclassifies these amounts into earnings in the period in which the transactions affect earnings. The amount recognized in other comprehensive income (loss) during the three month period ended September 30, 2013 and 2012 was a loss of \$0.2 million (\$0.2 million after tax) and a loss of \$0.6 million (\$0.5 million after tax), respectively, and during the nine months ended September 30, 2013, a loss of \$1.6 million (\$1.3 million after tax) and a loss of \$0.6 million (\$0.5 million after tax), respectively. The effective portion of the loss reclassified from accumulated other comprehensive income (loss) to cost of sales was \$0.5 million (\$0.4 million after tax) during the three

months ending September 30, 2013 and a loss of \$1.5 million (\$1.2 million after tax) for the nine months ended September 30, 2013. The effective portion of the loss reclassified from accumulated other comprehensive income (loss) to cost of sales was insignificant during the three months ended September 30, 2012. A derivative loss of \$0.5 million (\$0.4 million after tax) based upon foreign currency rates at September 30, 2013, is expected to be reclassified from other comprehensive income (loss) to earnings in the next twelve months. Through September 30, 2013 no hedge ineffectiveness has occurred in relation to this hedge.

**Other Derivatives**

The Company enters into foreign currency forward contracts in order to economically hedge short-term intercompany balances largely denominated in Swiss franc and other major European currencies with its foreign businesses. In accordance with U.S. GAAP, these contracts are considered “derivatives not designated as hedging instruments.” Gains or losses on these instruments are reported in current earnings. The foreign currency forward contracts were reported at their fair value in the consolidated balance sheet at September 30, 2013 and December 31, 2012 in other current assets of \$0.9 million and \$0.4 million, respectively, and other liabilities of \$0.5 million and \$0.3 million, respectively. The Company recognized in other charges (income), net, a gain of \$1.4 million during both the three months ended September 30, 2013 and 2012, respectively, and a net gain of \$0.7 million and \$1.7 million during the nine months ended September 30, 2013 and 2012, respectively. At September 30, 2013 and December 31, 2012, these contracts had a notional value of \$146.9 million and \$132.3 million, respectively.

**4. FAIR VALUE MEASUREMENTS**

At September 30, 2013 and December 31, 2012, the Company had derivative assets totaling \$1.8 million and \$0.4 million, respectively, and derivative liabilities totaling \$7.1 million and \$8.9 million, respectively. The fair values of the interest rate swap agreement and foreign currency forward contracts are estimated based upon inputs from current valuation information obtained from dealer quotes and priced with observable market assumptions and appropriate valuation adjustments for credit risk. The Company has evaluated the valuation methodologies used to develop the fair values by dealers in order to determine whether such valuations are representative of an exit price in the Company’s principal market. In addition, the Company uses an internally developed model to perform testing on the valuations received from brokers. The fair value of the foreign currency forward contract hedging forecasted intercompany sales is priced with observable market assumptions with appropriate valuations for credit risk. The Company has also considered both its own credit risk and counterparty credit risk in determining fair value and determined these adjustments were insignificant at September 30, 2013 and December 31, 2012.

At September 30, 2013 and December 31, 2012, the Company had \$14.3 million and \$13.6 million of cash equivalents, respectively, the fair value of which is determined through quoted and corroborated prices in active markets. The fair value of cash equivalents approximates cost.

The difference between the fair value and carrying value of the Company's long-term debt is not material and is classified in Level 2 and Level 3 of the fair value hierarchy. The fair value of the Company's debt is estimated based on either similar issues or other inputs derived from available market information, including interest rates, term of debt and creditworthiness.

Under U.S. GAAP, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement consists of observable and unobservable inputs that reflect the assumptions that a market participant would use in pricing an asset or liability.

A fair value hierarchy has been established that categorizes these inputs into three levels:

Level 1: Quoted prices in active markets for identical assets and liabilities

Level 2: Observable inputs other than quoted prices in active markets for identical assets and liabilities

Level 3: Unobservable inputs

The following table presents for each of these hierarchy levels, the Company's assets and liabilities that are measured at fair value on a recurring basis at September 30, 2013 and December 31, 2012:

As of September 30, 2013, the Company had \$690.9 million of availability remaining under the credit agreement.

In the third quarter of 2013, the Company issued and sold \$50 million of 4.10% Senior Notes due September 2023 in a private placement. The 4.10% Senior Notes are senior unsecured obligations of the Company.

Interest on the 4.10% Senior Notes is payable semi-annually in March and September of each year, beginning in March 2014. The Company may at any time prepay the 4.10% Senior Notes, in whole or in part (but in an amount not less than 10% of the original aggregate principal amount), at a price equal to 100% of the principal amount thereof plus accrued and unpaid interest, plus a "make-whole" prepayment premium.

The 4.10% Senior Notes contain customary affirmative and negative covenants for agreements of this type that are substantially similar to those contained in the previously issued debt of the Company. The 4.10% Senior Notes also contain customary events of default with customary grace periods, as applicable. The Company was in compliance with these covenants at September 30, 2013.

Issuance costs approximating \$0.3 million will be amortized to interest expense over the 10-year term of the 4.10% Senior Notes.

**7. SHARE REPURCHASE PROGRAM AND TREASURY STOCK**

In July 2013, the Board of Directors authorized the Company to buy back an additional \$750 million shares. The Company expects the new authorization will be utilized over the next several years. As of September 30, 2013, the Company had \$969.9 million of remaining availability under the Company's share repurchase program. The share repurchases are expected to be funded from cash balances, borrowings and cash generated from operating activities. Repurchases will be made through open market transactions, and the amount and timing of purchases will depend on business and market conditions, the stock price, trading restrictions, the level of acquisition activity and other factors. The Company has purchased 21.1 million shares since the inception of the program through September 30, 2013. During the nine months ended September 30, 2013 and 2012, the Company spent \$217.4 million and \$207.9 million on the repurchase of 1,004,398 shares and 1,241,359 shares at an average price per share of \$216.44 and \$167.42, respectively. The Company reissued 280,691 shares and 295,090 shares held in treasury for the exercise of stock options and restricted stock units during the nine months ended September 30, 2013 and 2012, respectively.

During the three months ended September 30, 2013, restructuring charges of \$5.5 million were recognized, of which \$0.8 million, \$1.9 million, \$2.1 million, and \$0.7 million related to the Company's U.S., Swiss, Western European, and Chinese Operations, respectively. Restructuring charges of \$3.1 million were recognized during the three months ended September 30, 2012, of which \$0.2 million, \$0.3 million, \$1.8 million, \$0.7 million and \$0.1 million related to the Company's U.S., Swiss, Western European Chinese and Other Operations, respectively. Restructuring charges of \$13.7 million were recognized during the nine months ended September 30, 2013, of which \$1.3 million, \$7.2 million, \$3.4 million, \$1.5 million, and \$0.3 million related to the Company's U.S., Swiss, Western European, Chinese, and Other Operations, respectively. Restructuring charges of \$11.3 million were recognized during the nine months ended September 30, 2012, of which \$1.0 million, \$4.2 million, \$5.2 million, \$0.8 million and \$0.1 million related to the Company's U.S., Swiss, Western European, Chinese and Other Operations, respectively.

## 14. CONTINGENCIES

The Company is party to various legal proceedings, including certain environmental matters, incidental to the normal course of business. Management does not expect that any of such proceedings, either individually or in the aggregate, will have a material adverse effect on the Company's financial condition, results of operations or cash flows.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the Unaudited Interim Consolidated Financial Statements included herein.

## General

Our interim consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. Operating results for the three and nine months ended September 30, 2013 are not necessarily indicative of the results to be expected for the full year ending December 31, 2013.

Local currency changes exclude the effect of currency exchange rate fluctuations. Local currency amounts are determined by translating current and previous year consolidated financial information at an index utilizing historical currency exchange rates. We believe local currency information provides a helpful assessment of business performance and a useful measure of results between periods. We do not, nor do we suggest that investors should, consider such non-GAAP financial measures in isolation from, or as a substitute for, financial information prepared in accordance with GAAP. We present non-GAAP financial measures in reporting our financial results to provide investors with an additional analytical tool to evaluate our operating results.

## Results of Operations – Consolidated

The following tables set forth certain items from our interim consolidated statements of operations for the three and nine month periods ended September 30, 2013 and 2012 (amounts in thousands).

## Net sales

Net sales were \$591.7 million and \$1.695 billion for the three and nine months ended September 30, 2013, compared to \$578.6 million and \$1.684 billion for the corresponding periods in 2012. This represents an increase of 2% and 1% in U.S. dollars for the three and nine months ended September 30, 2013, respectively. Excluding the effect of currency exchange rate fluctuations, or in local currencies, net sales increased 1% for the three months ended September 30, 2013, and were flat for the nine months ended September 30, 2013, as compared to prior year comparable periods. Net sales in local currency for the three months ended were reduced by approximately 1% due to the exit of certain industrial-related businesses in China. Globally, economic conditions remain uncertain and accordingly, we are cautious regarding our sales growth outlook.

Net sales by geographic destination for the three and nine months ended September 30, 2013, in U.S. dollars increased 5% and 4% in the Americas, increased 11% and 3% in Europe, and decreased 9% and 6% in Asia/Rest of World. In local currencies, our net sales by geographic destination for the three and nine months ended September 30, 2013, increased 5% and 4% in the Americas, increased 7% and 1% in Europe and decreased 8% and 5% in Asia/Rest of World. Net sales in local currency for Asia/Rest of World for the three and nine months ended September 30, 2013 were reduced by approximately 2% and 1%, respectively, due to the exit of certain industrial-related businesses in China. A discussion of sales by operating segment is included below.

As described in Note 18 to our consolidated financial statements for the year ended December 31, 2012, our net sales comprise product sales of precision instruments and related services. Service revenues are primarily derived from repair and other services, including regulatory compliance qualification, calibration, certification, preventative maintenance and spare parts.

Net sales of products increased 1% in U.S. dollars and local currencies for the three months ended September 30, 2013 and decreased 1% in U.S. dollars and local currencies for the nine months ended September 30, 2013, compared to the corresponding periods in 2012. Service revenue (including spare parts) increased by 6% in U.S. dollars for both the three and nine months ended September 30, 2013, and increased in local currencies by 3% and 5% for the three and nine months ended September 30, 2013, compared to the corresponding periods in 2012.

Net sales of our laboratory-related products, which represented approximately 46% of our total net sales for the three and nine months ended September 30, 2013, increased 3% and 1% in both U.S. dollars and local currencies for the three and nine months ended September 30, 2013, respectively. Net sales of our laboratory-related products for the three months ended September 30, 2013 included solid growth in Europe and the Americas. These results were partly offset by reduced sales volume in Asia Pacific, particularly China, primarily related to difficult market conditions and a challenging prior period comparison. Net sales growth during the three month period also included strong growth in laboratory balances and process analytics related to higher sales volume and favorable price realization.

Net sales of our industrial-related products, which represented approximately 45% of our total net sales for the three and nine months ended September 30, 2013, decreased 2% and 1% for the three and nine months ended September 30, 2013, respectively. In local currency industrial-related products decreased 3% and 2% for the three and nine months ended September 30, 2013, compared to the corresponding prior year periods. The decrease in net sales of our industrial-related products included a decline in Asia Pacific, particularly China, primarily due to unfavorable market conditions in the country. In addition, the exit of certain industrial-related businesses reduced net sales by approximately 1% for the three months ended September 30, 2013. We also experienced a decline in core-industrial products in the Americas, offset in part by strong growth in product inspection for the three months ended September 30, 2013.

Net sales in our food retailing markets, which represented approximately 9% of our total net sales for the three and nine months ended September 30, 2013, increased 17% and 5% for the three and nine months ended September 30, 2013, respectively. In local currency our food retailing markets increased 14% and 3% for the three and nine months ended September 30, 2013, compared to the corresponding prior year periods. The increase in net sales of our food retailing markets for the three months ended September 30, 2013 included strong growth in each region with particularly strong project activity in the Americas.

#### Gross profit

Gross profit as a percentage of net sales was 53.8% and 53.3% for the three months ended September 30, 2013 and 2012, respectively, and 53.5% and 52.5% for the nine months ended September 30, 2013 and 2012, respectively.

Gross profit as a percentage of net sales for products was 57.3% and 57.2% for the three and nine months ended September 30, 2013, respectively, compared to 56.4% and 55.8% for the corresponding periods in 2012.

Gross profit as a percentage of net sales for services (including spare parts) was 41.5% and 40.6% for the three and nine months ended September 30, 2013, respectively, compared to 41.8% and 40.1% for the corresponding periods in 2012.

The increase in gross profit as a percentage of net sales for the three and nine months ended September 30, 2013, primarily reflects increased price realization and reduced material costs, offset in part by unfavorable currency. The three months ended September 30, 2013 was also reduced by unfavorable business mix.

Research and development and selling, general and administrative expenses

Research and development expenses as a percentage of net sales were 4.9% and 5.1% for the three and nine months ended September 30, 2013, respectively, compared to 4.8% and 5.0% for the corresponding periods during 2012.

Research and development expenses increased 4% and 2% in U.S. dollars and local currencies for the three months ended September 30, 2013, and increased 1% in both U.S. dollars and local currencies for the nine months ended September 30, 2013, respectively, compared to the corresponding periods in 2012 relating to the timing of research and development projects and product launch activities, as well as benefits from our increased activities in low-cost countries.

Selling, general and administrative expenses as a percentage of net sales were 29.3% and 30.3% for the three and nine months ended September 30, 2013, respectively, compared to 29.6% and 30.2% in the corresponding periods during 2012. Selling, general and administrative expenses increased 1% in U.S. dollars for both the three and nine months ended September 30, 2013, respectively, and were flat in local currencies for the three months and increased 1% for the nine months ended September 30, 2013, respectively, compared to the corresponding periods in 2012. Selling, general and administrative expenses for the three and nine month periods include increased sales and marketing investments, offset in part by benefits from our cost reduction activities.

Interest expense, other charges (income), net and taxes

Interest expense was \$5.6 million and \$16.5 million for the three and nine months ended September 30, 2013, respectively, and \$5.6 million and \$17.1 million for the corresponding periods in 2012. Interest expense decreased for the nine months ended September 30, 2013 primarily as a result of a decrease in average borrowings.

Other charges (income), net consist primarily of interest income, (gains) losses from foreign currency transaction and other items.

The provision for taxes is based upon using our projected annual effective tax rate of 24% for the three and nine months periods ended September 30, 2013, as compared to 24.5% for the three and nine months ended September 30, 2012. Our consolidated income tax rate is lower than the U.S. statutory rate primarily because of benefits from lower-taxed non-U.S. operations. The most significant of these lower-taxed operations are in Switzerland and China.

#### Results of Operations – by Operating Segment

The following is a discussion of the financial results of our operating segments. We currently have five reportable segments: U.S. Operations, Swiss Operations, Western European Operations, Chinese Operations and Other. A more detailed description of these segments is outlined in Note 18 to our consolidated financial statements for the year ended December 31, 2012.

## U.S. Operations (amounts in thousands)

	Three months ended September 30,			Nine months ended September 30,			
	2013	2012	%	2013	2012	%	%
Total net sales	\$203,000	\$196,339	3	% \$584,054	\$565,557	3	%
Net sales to external customers	\$181,644	\$176,874	3	% \$527,425	\$511,354	3	%
Segment profit	\$32,878	\$36,627	(10)	)% \$91,002	\$95,987	(5)	)%

Total net sales and net sales to external customers increased 3% for both the three and nine months ended September 30, 2013 compared with the corresponding periods in 2012. The increase in total net sales and net sales to external customers for the three and nine months ended September 30, 2013, reflected particularly strong growth in food retailing related to increased project activity. Total net sales and net sales to external customers for the three months ended included a decline in core-industrial products due to reduced sales volume.

Segment profit decreased \$3.7 million and \$5.0 million for the three and nine months ended September 30, 2013, respectively, compared to the corresponding periods in 2012. The decrease in segment profit was primarily due to a reduction in inter-segment royalty income, unfavorable business mix, partially offset by favorable price realization. Swiss Operations (amounts in thousands)

	Three months ended September 30,			Nine months ended September 30,			
	2013	2012	% <sup>1)</sup>	2013	2012	% <sup>1)</sup>	%
Total net sales	\$139,395	\$127,515	9	% \$401,900	\$378,809	6	%
Net sales to external customers	\$31,539	\$28,199	12	% \$93,402	\$88,224	6	%
Segment profit	\$37,233	\$34,355	8	% \$109,807	\$89,809	22	%

1)Represents U.S. dollar growth (decline) for net sales and segment profit.

Total net sales increased 9% and 6% in U.S. dollars for the three and nine months ended September 30, 2013, respectively. Total net sales in local currency increased 6% for both the three and nine months ended September 30, 2013, compared to the corresponding periods in 2012. Net sales to external customers increased 12% and 6% in U.S. dollars and 9% and 5% in local currency during the three and nine months ended September 30, 2013, respectively, compared to the corresponding periods in 2012. The increase in local currency net sales to external customers for the three months ended September 30, 2013 reflected particularly strong volume growth in laboratory-related products.

Segment profit increased \$2.9 million and \$20.0 million for the three and nine month periods ended September 30, 2013, respectively, compared to the corresponding periods in 2012. Segment profit includes favorable inter-segment price realization and royalty income, increased productivity, reduced material costs and benefits from our cost reduction initiatives, offset in part by unfavorable currency exchange rate fluctuations.

## Western European Operations (amounts in thousands)

	Three months ended September 30,			Nine months ended September 30,			
	2013	2012	% <sup>1)</sup>	2013	2012	% <sup>1)</sup>	
Total net sales	\$ 192,043	\$ 175,613	9	% \$ 549,600	\$ 533,587	3	%
Net sales to external customers	\$ 166,283	\$ 149,785	11	% \$ 469,247	\$ 459,074	2	%
Segment profit	\$ 26,156	\$ 22,045	19	% \$ 67,948	\$ 62,288	9	%

1) Represents U.S. dollar growth (decline) for net sales and segment profit.

Total net sales increased 9% and 3% in U.S. dollars for the three and nine months ended September 30, 2013, respectively. Total net sales in local currency increased 5% and 1% for the three and nine months ended September 30, 2013, compared to the corresponding periods in 2012. Net sales to external customers increased 11% and 2% in U.S. dollars for the three and nine months ended September 30, 2013, respectively. Net sales to external customers in local currency increased 6% and were flat for the three and nine months ended September 30, 2013, compared to the corresponding periods in 2012. Total net sales and net sales to external customers for the three months ended September 30, 2013 primarily reflects increased sales volume and favorable price realization across most product categories, with particularly strong growth in laboratory-related products and food retailing.

Segment profit increased \$4.1 million and \$5.6 million for the three and nine month periods ended September 30, 2013, respectively, compared to the corresponding periods in 2012. Segment profit benefited from increased sales volume, favorable price realization, reduced expenses from our cost reduction activities, and favorable currency exchange rate fluctuations.

## Chinese Operations (amounts in thousands)

	Three months ended September 30,			Nine months ended September 30,			
	2013	2012	% <sup>1)</sup>	2013	2012	% <sup>1)</sup>	
Total net sales	\$ 146,694	\$ 148,875	(1)	)% \$ 403,337	\$ 404,583	0	%
Net sales to external customers	\$ 104,549	\$ 113,323	(8)	)% \$ 293,047	\$ 313,096	(6)	)%
Segment profit	\$ 32,965	\$ 33,067	0	% \$ 86,987	\$ 89,316	(3)	)%

1) Represents U.S. dollar growth (decline) for net sales and segment profit.

Total net sales decreased 1% and were flat in U.S. dollars for the three and nine months ended September 30, 2013, and decreased 4% and 2% in local currency for both the three and nine months ended September 30, 2013, compared to the corresponding periods in 2012. Net sales to external customers decreased 8% and 6% in U.S. dollars and decreased 10% and 8% in local currency during the three and nine months ended September 30, 2013, respectively, as compared to the corresponding periods in 2012. Part of the sales decline, approximately 3% and 1% for three and nine month periods ended September 30, 2013, respectively, relates to the exit of certain industrial-related businesses. Overall, Chinese market conditions for our products remain weak due to a lack of growth in certain end-user segments and a reduction of credit availability for many local Chinese customers. Weak market growth in certain segments of the Chinese market may last for some time and sales may continue to be adversely impacted.

Segment profit decreased \$0.1 million and \$2.3 million for the three and nine month periods ended September 30, 2013, respectively, compared to the corresponding periods in 2012. The decrease in segment profit for the three and nine months ended September 30, 2013 includes reduced sales volume to external customers and increased sales and marketing expenditures, offset by reduced material costs, favorable price realization and improved business mix. The decrease in segment profit for the nine months ended September 30, 2013 also includes increased inter-segment royalty expenses.

Other (amounts in thousands)

	Three months ended September 30,			Nine months ended September 30,			
	2013	2012	% <sup>1)</sup>	2013	2012	% <sup>1)</sup>	
Total net sales	\$108,973	\$111,872	(3)%	\$315,829	\$316,982	0%	
Net sales to external customers	\$107,671	\$110,372	(2)%	\$311,598	\$312,488	0%	
Segment profit	\$11,366	\$12,501	(9)%	\$30,577	\$31,826	(4)%	

1) Represents U.S. dollar growth (decline) for net sales and segment profit.

Total net sales decreased 3% and were flat in U.S. dollars for the three and nine months ended September 30, 2013, and increased 2% in local currency for both the three and nine month periods ended September 30, 2013, respectively, compared to the corresponding periods in 2012. Net sales to external customers decreased 2% and were flat in U.S. dollars for the three and nine months ended September 30, 2013, and increased 2% and 3% in local currency for the three and nine month periods ended September 30, 2013, respectively, compared to the corresponding periods in 2012. The increase in local currency total net sales and net sales to external customers reflects increased growth in most product categories except food retailing.

Segment profit decreased \$1.1 million and \$1.2 million for the three and nine months ended September 30, 2013, respectively, compared to the corresponding periods in 2012. The decrease in segment profit during the three months ended September 30, 2013 is primarily due to unfavorable currency exchange rate fluctuations offset in part by increased sales volume and favorable business mix. Operating profit for the three and nine month periods was also impacted by increased cash incentive expense.

#### Liquidity and Capital Resources

Liquidity is our ability to generate sufficient cash flows from operating activities to meet our obligations and commitments. In addition, liquidity includes the ability to obtain appropriate financing. Currently, our financing requirements are primarily driven by working capital requirements, capital expenditures, share repurchases and acquisitions.

Cash provided by operating activities totaled \$237.4 million during the nine months ended September 30, 2013, compared to \$216.0 million in the corresponding period in 2012. The increase in 2013 is primarily due to decreased cash incentive payments of approximately \$25 million as compared to the nine months ended September 30, 2012 as well as increased deferred revenue and customer prepayments, offset in part by increased inventory levels, and the timing of higher tax and pension payments.

Capital expenditures are made primarily for investments in information systems and technology, machinery, equipment and the purchase and expansion of facilities. Our capital expenditures totaled \$57.0 million for the nine months ended September 30, 2013 compared to \$64.3 million in the corresponding period in 2012.

We plan to repatriate earnings from China, Switzerland, Germany, the United Kingdom and certain other countries in future years and expect the only additional cost associated with the repatriation of such earnings outside the United States will be withholding taxes. All other undistributed earnings are considered to be permanently reinvested. As of September 30, 2013, we have an immaterial amount of cash and cash equivalents outside the United States where undistributed earnings are considered permanently reinvested. Accordingly, we believe the tax impact associated with repatriating our undistributed foreign earnings will not have a material effect on our liquidity.

## Senior Notes and Credit Facility Agreement

Our debt consisted of the following at September 30, 2013:

	September 30, 2013		
	U.S. Dollar	Other Principal Trading Currencies	Total
6.30% \$100 million Senior Notes due June 25, 2015	\$ 100,000	\$—	\$ 100,000
3.67% \$50 million Senior Notes due December 17, 2022	50,000	—	50,000
4.10% \$50 million Senior Notes due September 19, 2023	50,000	—	50,000
Credit agreement	163,958	20,913	184,871
Other local arrangements	—	16,019	16,019
Total debt	363,958	36,932	400,890
Less: current portion	—	(16,019	) (16,019
Total long-term debt	\$363,958	\$20,913	\$384,871

As of September 30, 2013, approximately \$690.9 million was available under our credit agreement. Changes in exchange rates between the currencies in which we generate cash flows and the currencies in which our borrowings are denominated affect our liquidity. In addition, because we borrow in a variety of currencies, our debt balances fluctuate due to changes in exchange rates.

We currently believe that cash flow from operating activities, together with liquidity available under our credit facility and local working capital facilities, will be sufficient to fund currently anticipated working capital needs and capital spending requirements for at least the foreseeable future.

In the third quarter of 2013, we issued and sold \$50 million of 4.10% Senior Notes due September 2023 in a private placement. The 4.10% Senior Notes are senior unsecured obligations of the Company.

Interest on the 4.10% Senior Notes is payable semi-annually in March and September of each year, beginning in March 2014. The Company may at any time prepay the 4.10% Senior Notes, in whole or in part (but in an amount not less than 10% of the original aggregate principal amount), at a price equal to 100% of the principal amount thereof plus accrued and unpaid interest, plus a "make-whole" prepayment premium.

The 4.10% Senior Notes contain customary affirmative and negative covenants for agreements of this type that are substantially similar to those contained in the previously issued debt of the Company. The 4.10% Senior Notes also contain customary events of default with customary grace periods, as applicable. We were in compliance with these covenants at September 30, 2013.

Issuance costs approximating \$0.3 million will be amortized to interest expense over the 10-year term of the 4.10% Senior Notes.

We continue to explore potential acquisitions. In connection with any acquisitions, we may incur additional indebtedness.

## Share Repurchase Program

In July 2013, the Board of Directors authorized the Company to buy back an additional \$750 million shares. The share repurchases are expected to be funded from cash balances, borrowings and cash generated from operating activities. As of September 30, 2013, the Company had \$969.9 million of remaining availability under the Company's share

repurchase program. Repurchases will be made through open market transactions, and the amount and timing of purchases will depend on

business and market conditions, the stock price, trading restrictions, the level of acquisition activity and other factors. We have purchased 21.1 million shares since the inception of the program through September 30, 2013. During the nine months ended September 30, 2013 and 2012, we spent \$217.4 million and \$207.9 million on the repurchase of 1,004,398 shares and 1,241,359 shares at an average price per share of \$216.44 and \$167.42, respectively. We reissued 280,691 shares and 295,090 shares held in treasury for the exercise of stock options and restricted stock units during the nine months ended September 30, 2013 and 2012, respectively.

### Effect of Currency on Results of Operations

Because we conduct operations in many countries, our operating income can be significantly affected by fluctuations in currency exchange rates. Swiss franc-denominated expenses represent a much greater percentage of our total operating expenses than Swiss franc-denominated sales represent of our total net sales. In part, this is because most of our manufacturing and product development costs in Switzerland relate to products that are sold outside Switzerland. In addition, we have a number of corporate functions located in Switzerland. Therefore, if the Swiss franc strengthens against all or most of our major trading currencies (e.g., the U.S. dollar, the euro, other major European currencies, the Chinese yuan and the Japanese yen), our operating profit is reduced. We also have significantly more sales in euro than we have expenses. Therefore, when the euro weakens against the U.S. dollar and the Swiss franc, it also decreases our operating profits. Accordingly, the Swiss franc exchange rate to the euro is an important cross-rate that we monitor. During the third quarter of 2011, the Swiss National Bank established a floor of 1.20 relating to the Swiss franc exchange rate to the euro. The duration for which the Swiss National Bank will maintain this exchange rate floor of 1.20 is currently unknown. Beginning in the third quarter of 2012, we entered into foreign currency forward contracts, as described in Note 3 of our consolidated financial statements, which reduce our exposure to a strengthening of the Swiss franc versus the euro. These forward contracts currently continue until October 2014. We estimate, absent these forward contracts, that a 1% strengthening of the Swiss franc against the euro would result in a decrease in our earnings before tax of approximately \$0.8 million to \$1.2 million on an annual basis. The previously described foreign currency forward contracts reduce this exposure by approximately 75%. We also estimate a 1% strengthening of the Swiss franc against the U.S. dollar would result in a decrease in our earnings before tax of \$0.7 million to \$0.9 million on an annual basis. In addition to the Swiss franc and major European currencies, we also conduct business in many geographies throughout the world, including Asia Pacific, the United Kingdom, Eastern Europe, Latin America and Canada. Fluctuations in these currency exchange rates against the U.S. dollar can also affect our operating results. In addition to the effects of exchange rate movements on operating profits, our debt levels can fluctuate due to changes in exchange rates, particularly between the U.S. dollar and the Swiss franc. Based on our outstanding debt at September 30, 2013, we estimate that a 10% weakening of the U.S. dollar against the currencies in which our debt is denominated would result in an increase of approximately \$4.1 million in the reported U.S. dollar value of the debt.

### Recent Accounting Pronouncements

In January 2013, the Company adopted ASU 2013-02, to ASC 220 "Comprehensive Income." The adoption of the guidance requires the Company to provide information about the amounts reclassified out of accumulated other comprehensive income by component. In addition, the Company is required to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified from each component of accumulated other comprehensive income and the income statement line items affected by the reclassification. The adoption of the recently issued guidance did not impact the Company's consolidated results of operations or financial position.

In January 2013, the Company adopted ASU 2011-11 and ASU 2013-01, to ASC 210, "Balance Sheet." The adoption requires the Company to disclose information about offsetting arrangements to enable users of its financial statements to understand the effect of those arrangements on its financial position. ASU 2013-01 limits the scope of balance sheet offsetting disclosures in ASU 2011-11 to derivatives, repurchase agreements, and securities lending transactions to the extent that they are offset in the financial statements or subject to an enforceable master netting arrangement or similar agreement. The adoption of the recently issued guidance did not impact the Company's consolidated results of operations or financial position.

In July 2013, the Financial Accounting Standards Board ("FASB") issued amendments to ASC 740 "Income Taxes". The amendments provide further guidance to the balance sheet presentation of unrecognized tax benefits when a net operating loss or similar tax loss carryforwards, or a tax credit carryforwards exists. The amendments will be effective for public entities for annual periods beginning after December 15, 2013. The Company is currently reviewing the implications of this amendment, but does not believe it will have a material impact on the financial statements.

#### Forward-Looking Statements Disclaimer

Some of the statements in this quarterly report and in documents incorporated by reference constitute “forward-looking statements” within the meaning of Section 27A of the U.S. Securities Act of 1933 and Section 21E of the U.S. Securities Exchange Act of 1934. These statements relate to future events or our future financial performance, including, but not limited to, the following: projected earnings and sales growth in U.S. dollars and local currencies, projected earnings per share, strategic plans and contingency plans, potential growth opportunities or economic downturns in both developed markets and emerging markets, including China, factors influencing growth in our laboratory, industrial and food retail markets, our expectations in respect of the impact of general economic conditions on our business, our projections for growth in certain markets or industries, our capability to respond to future changes in market conditions, impact of inflation, currency and interest rate fluctuations, our ability to maintain a leading position in our key markets, our expected market share, our ability to leverage our market-leading position and diverse product offering to weather an economic downturn, the effectiveness of our “Spinnaker” initiatives relating to sales and marketing, planned research and development efforts, product introductions and innovation, manufacturing capacity, adequacy of facilities, access to and the costs of raw materials, shipping and supplier costs, expanding our operating margins, anticipated gross margins, anticipated customer spending patterns and levels, expected customer demand, meeting customer expectations, warranty claim levels, anticipated growth in service revenues, anticipated pricing, our ability to realize planned price increases, planned operational changes and productivity improvements, effect of changes in internal control over financial reporting, research and development expenditures, competitors’ product development, levels of competitive pressure, our future position vis-à-vis competitors, expected capital expenditures, the timing, impact, cost, benefits from and effectiveness of our cost reduction programs, future cash sources and requirements, cash flow targets, liquidity, value of inventories, impact of long-term incentive plans, continuation of our stock repurchase program and the related impact on cash flow, expected pension and other benefit contributions and payments, expected tax treatment and assessment, impact of taxes and changes in tax benefits, the need to take additional restructuring charges, expected compliance with laws, changes in laws and regulations, impact of environmental costs, expected trading volume and value of stocks and options, impact of issuance of preferred stock, expected cost savings, impact of legal proceedings, satisfaction of contractual obligations by counterparties, timeliness of payments by our customers, the adequacy of reserves for bad debts against our accounts receivable, benefits and other effects of completed or future acquisitions.

These statements involve known and unknown risks, uncertainties and other factors that may cause our or our businesses’ actual results, levels of activity, performance or achievements to be materially different from those expressed or implied by any forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as “may,” “will,” “could,” “would,” “should,” “expect,” “plan,” “anticipate,” “intend,” “believe,” “estimate,” “potential” or “continue” or the negative of those terms or other comparable terminology. These statements are only predictions. Actual events or results may differ materially because of market conditions in our industries or other factors. Moreover, we do not, nor does any other person, assume responsibility for the accuracy and completeness of those statements. Unless otherwise required by applicable laws, we disclaim any intention or obligation to publicly update or revise any of the forward-looking statements after the date of this quarterly report to conform them to actual results, whether as a result of new information, future events or otherwise. All of the forward-looking statements are qualified in their entirety by reference to the factors discussed under the captions “Factors affecting our future operating results” in the “Business” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in Part I, Item 1A of our annual report on Form 10-K for the fiscal year ended December 31, 2012, which describe risks and factors that could cause results to differ materially from those projected in those forward-looking statements.

We caution the reader that the above list of risks and factors that may affect results addressed in the forward-looking statements may not be exhaustive. Other sections of this quarterly report on Form 10-Q for the period ended September 30, 2013 and other documents incorporated by reference may describe additional risks or factors that could adversely impact our business and financial performance. We

operate in a continually changing business environment, and new risk factors emerge from time to time. Management cannot predict these new risk factors, nor can it assess the impact, if any, of these new risk factors on our businesses or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those projected in any forward-looking statements. Accordingly, forward-looking statements should not be relied upon as a prediction of actual results.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

As of September 30, 2013, there was no material change in the information provided under Item 7A in the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

**Item 4. Controls and Procedures**

Under the supervision and with the participation of our management, including the Chief Executive Officer and the Chief Financial Officer, we have evaluated the effectiveness of our disclosure controls and procedures as required by Exchange Act Rule 13a-15(b) as of the end of the period covered by this report. Based upon that evaluation, the Chief Executive Officer and the Chief Financial Officer have concluded that these disclosure controls and procedures are effective. There were no changes in our internal control over financial reporting during the quarter ended September 30, 2013 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting, except as described below.

Recently, our U.S. sales and marketing organization, as well as a new logistics hub in Europe, went live on our Blue Ocean program. As a result of the implementation, certain internal controls have changed. Management has taken steps to ensure appropriate controls were designed and operating as part of the implementation process. This initiative is not in response to any identified deficiency or weakness in our internal control over financial reporting.
