ITEM 2. ACQUISITION OR DISPOSITION OF ASSETS.

This Current Report on Form 8-K contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The forward-looking statements contained herein involve risks and uncertainties that could cause actual results to differ materially from those referred to in the forward-looking statements. Such risks include, but are not limited to, those associated with the reduction in expected net sales, the reduction in expected gross margin and the reduction in pro forma operating expenses. More information about Entegris and these and other risks related to Entegris is detailed in Entegris's most recent annual report on Form 10-K for the fiscal year ended August 31, 2002 and subsequent quarterly reports on Form 10-Q as filed with the Securities and Exchange Commission. Entegris does not undertake an obligation to update forward-looking statements.

On February 11, 2003, Entegris announced the purchase of wafer and reticle carrier ("WRC") product lines from Asyst Technologies, Inc. (Asyst). The purchase was accomplished pursuant to an Asset Purchase Agreement ("the Agreement"), dated as of February 11, 2003, among Entegris Cayman Ltd., a wholly-owned subsidiary of Entegris, and Entegris (collectively, "Entegris") and

Asyst. Under the terms of the agreement, Entegris paid Asyst \$38.75 million for the tangible assets associated with the WRC product lines and the patents and trademarks listed in the Patent Assignment and Cross-License and Trademark License Agreement entered into in connection with the sale. Entegris will license other patents, trademarks and intellectual property related to the WRC business from Asyst, and will pay royalties to Asyst based on net revenues generated by Entegris through the sale of certain WRC products for a period of five years.

Approximately \$14 million of the funding for the acquisition was obtained via the registrant's revolving commitment facilities with two commercial banks. No balance was outstanding under these facilities preceding the execution of the Agreement. The remaining funds utilized for the acquisition were available from the Registrant's cash, cash equivalents and short-term investments, which stood at approximately \$125 million preceding the execution of the Agreement.

The purchase price was arrived at through arms-length negotiations. At the time of the acquisition there were no material relationships between Entegris or any of its affiliates, any director or officer of Entegris, or any associate of such director or officer, on the one hand, and Asyst, on the other hand.

Pursuant to the transaction, Entegris will service Asyst's warranty obligations of WRC products sold prior to the transaction. The parties have also entered into a transition services agreement to facilitate the transfer of the WRC business to Entegris. The parties have also adopted a procedure for maintaining compatibility between their products in the future.

The press release jointly issued by Entegris and Asyst, dated February 11, 2003, titled "Entegris Acquires Silicon Wafer and Reticle Carrier Product Lines from Asyst Technologies" is attached hereto as Exhibit 99.1.
