### Pathfinder Bancorp, Inc. Announces First Quarter Earnings

Oswego, New York, April 28, 2008 Pathfinder Bancorp, Inc., the mid-tier holding company of Pathfinder Bank, (NASDAQ SmallCap Market; symbol: PBHC, listing: PathBcp) announced reported net income of \$332,000, or \$0.13 per diluted share, for the three months ended March 31, 2008 as compared to \$165,000, or \$0.07 per diluted share for the same period in 2007. The return on average assets and return on average shareholders' equity were 0.40% and 5.94%, respectively, for the three months ended March 31, 2008, compared with 0.21% and 3.13%, respectively, for the three months ended March 31, 2007.

"First quarter earnings continued a favorable trend of revenue growth from both net interest income and fee income sources." according to Thomas Schneider, President and Chief Executive Officer. "Additionally", Schneider further stated, "net interest income grew by 13% on a combination of volume increase and spread expansion, while core fee income categories increased by 17% over the first quarter of 2007. These results were slightly mitigated by higher provisioning for loan losses to reflect the growth in the loan portfolio and general economic conditions."

Net interest income for the three months ended March 31, 2008, increased \$286,000 when compared to the same period during 2007. Interest income

## Edgar Filing: PATHFINDER BANCORP INC - Form 8-K

increased \$231,000, or 5%, combined with decreased interest expense of \$55,000, or 3%. Net interest rate spread increased to 2.99% for the first quarter of 2008 from 2.80% for the same period in 2007. Average interest-earning assets increased 7% to \$305.8 million at March 31, 2008 as compared to \$284.6 million at March 31, 2007, while the yield on those assets decreased 10 basis points to 5.94% compared to 6.04% for the same period in 2007. The increase in average earning assets is primarily attributable to an \$18.6 million increase in the average loan portfolio, a \$1.5 million increase in average investment securities and a \$1.0 million increase in the average balance of interest earning deposits. Average interest bearing liabilities increased \$17.6 million, or 7%, while the cost of funds decreased 28 basis points to 2.95% from 3.23% for the same period in 2007. The increase in the average balance of interest bearing liabilities resulted primarily from a \$10.4 million increase in average borrowed funds and a \$7.3 million increase in average deposits.

Provision for loan losses for the quarter ended March 31, 2008 increased to \$145,000 from \$50,000 for the same period in 2007. The increased provision is reflective of a growing loan portfolio and one more heavily weighted to commercial term and commercial real estate, which have higher inherent risk characteristics than a consumer real estate portfolio, as well as a general weakening in economic conditions. The Company's ratio of allowance for loan losses to period end loans increased to 0.83% at March 31, 2008 as compared to 0.76% at December 31, 2007. Nonperforming loans to period end loans increased to 0.96% at March 31, 2008 from 0.71% at December 31, 2007. The increase in total non-performing loans is primarily the result of delinquencies of three commercial loan relationships.

Non-interest income, exclusive of gains and losses from the sale of securities, loans and foreclosed real estate, increased to \$698,000 for the quarter ended March 31, 2008 compared to \$596,000 for the same quarter in the prior year. The increase in non-interest income is primarily attributable to a \$51,000 increase in service charges on deposit accounts, a \$26,000 increase in loan servicing fees, a \$18,000 increase in the bank's Visa debit card fees and an \$11,000 increase in the value of bank owned life insurance.

Net gains and losses from the sale of securities, loans and foreclosed real estate increased to a net gain of \$6,000 for the quarter ended March 31, 2008 as compared to a net loss of \$10,000 when compared to the same quarter of 2007. The increase was primarily due to the gain recognized on the sale of foreclosed real estate in the first quarter of 2008.

Non-interest expenses remained relatively consistent at \$2.5 million for the quarter ended March 31, 2008, when compared to the same period in the prior year. An increase in salaries and employee benefits of \$110,000 was primarily due to annual merit increases and other incentive based compensation costs. Building occupancy expenses were \$28,000 higher as a result of increased depreciation expenses, property taxes and communication charges. A \$36,000 increase in other expenses was primarily the result of higher costs associated with foreclosed real estate properties as the number of properties increased to 8 from 5 in the comparable quarter of 2007. Audits and exams expense increased as a result of year-end audit travel related expenses. Offsetting these increases were reductions of \$56,000 in amortization expense as the core deposit intangibles became fully amortized in October 2007. Data processing expenses were \$33,000 lower than the comparable quarter of 2007 as a result of lower depreciation costs and maintenance expenses on equipment. An \$18,000 reduction in professional and other services was primarily due to consulting charges for the SOX 404 review process being lower in the first quarter of 2008 when compared to the first quarter of 2007. This reduction was offset by increased legal fees and investment management expenses.

## Edgar Filing: PATHFINDER BANCORP INC - Form 8-K

Pathfinder Bancorp, Inc. is the mid-tier holding company of Pathfinder Bank, a New York chartered savings bank headquartered in Oswego, New York. The Bank has seven full service offices located in its market area consisting of Oswego County. Financial highlights for Pathfinder Bancorp, Inc. are attached.
