PRESS RELEASE
FOR IMMEDIATE RELEASE

AETERNA LABORATORIES REPORTS FIRST QUARTER RESULTS

Company benefiting from recent Zentaris acquisition

ALL AMOUNTS ARE EXPRESSED IN CANADIAN DOLLARS

QUEBEC CITY, CANADA, APRIL 30, 2003 -- AETerna Laboratories Inc. (NASDAQ: AELA, TSX: AEL) reported consolidated revenues for the first quarter ended March 31, 2003 of \$40.8 million and a net loss of \$4.8 million, or \$0.12 per share, compared to revenues of \$25.3 million, and a net loss of \$5.7 million, or \$0.17 per share, for the same period in 2002. First quarter highlights include marketing and development agreements with LG Life Sciences (Neovastat(R)), German Remedies Limited (Impavido(R)), Baxter Healthcare S.A. (D-63153), as well as \$25 million in convertible term loans with two strategic long-time partners, and settlement of the \$40 million balance of the Zentaris purchase price. The acquisition of Zentaris has provided AETerna with an expanded 12 product portfolio ranging from preclinical to marketing stage.

"The increase in revenues for this quarter reflects our ability to quickly and successfully integrate our new biopharmaceutical subsidiary Zentaris, which was only acquired last December," said Gilles Gagnon, President and Chief Executive Officer at AETerna. "We are reaping benefits from our expanded portfolio which is generating significant revenues from both new strategic partnerships, as well as sales of Cetrotide(R) for IN VITRO fertilization. At the clinical level, our ongoing Neovastat Phase III trial in kidney cancer will be unblinded in the months ahead and positive results could translate into a major breakthrough for AETerna as the first company to market an angiogenesis inhibitor for the treatment of cancer."

FINANCIAL RESULTS

Revenues for the three-month period ended March 31, 2003 were \$40.8 million compared to \$25.3 million for the same period last year. This increase of \$15.5 million or 61% comes mainly from the biopharmaceutical segment with revenues totalling \$12.5 million. The balance of \$3 million comes from the Cosmetics & Nutrition (C&N) and the Distribution segments, representing a 12% growth compared to the first quarter of 2002.

The acquisition of Frankfurt-based Zentaris, in December 2002, provided all of the revenues in the biopharmaceutical segment for the quarter. Revenues in this segment were generated by Cetrotide(R) sales and royalties, as well as milestone payments, research and development contract fees and amortization of upfront payments.

For this same quarter, investments in R&D reached \$10.9 million compared to \$5.3 million during the same period last year. This increase is attributable to the acquisition of Zentaris whose R&D investments totalled \$5.6 million for this first quarter. R&D investments are dedicated to our lead antiangiogenic compound in oncology, Neovastat, to Cetrorelix, our lead compound in endocrinology, and to our recently acquired Zentaris drug discovery unit, including a 100,000

Edgar Filing: AETERNA LABORATORIES INC - Form 6-K

proprietary compound library.

The Company has recorded a net loss of \$4.8 million, or \$0.12 per share, for the quarter, compared to a net loss of \$5.7 million or \$0.17 per share for the same period in 2002. The new revenues from Zentaris for the biopharmaceutical segment explain the reduction of the net loss in comparison with 2002.

In March 2003, the Company settled the \$40 million balance of the purchase price of Zentaris with Degussa AG and closed \$25 million in convertible term loans with SGF Sante and Solidarity Fund QFL. The Company's cash and short-term investment position was \$52.4 million at quarter end.

"With both our biopharmaceutical products segment and our profitable subsidiary, Atrium Biotechnologies, generating cash, we are efficiently controlling our burn rate," said Dennis Turpin, Vice President and Chief Financial Officer at AETerna. "AETerna is in a solid financial position with \$52.4 million in cash and short-term investments."

SCIENTIFIC AND CLINICAL DEVELOPMENT

Neovastat's ongoing double-blind randomized placebo controlled Phase III trial for renal cell carcinoma, involves 302 patients. Patient recruitment was completed in December 2001 and the trial is still at the patient survival monitoring stage. Following discussions with the FDA (USA), Health Products and Food Branch (Canada) and Medicines Control Agency (UK), analysis of the trial's database will start when the number of deceased patients has reached 230. As of today, this number has not been reached. Furthermore, it has been agreed with these health authorities that should that number not be reached by September 30, 2003, analysis of the trial's database would begin at that time and all patients still taking part in the trial would receive Neovastat. Trial results will be available during the current year.

Furthermore, the following people were appointed to AETerna's Scientific Advisory Board:

- Dr. Klaus H.R. Diedrich, MD, Director of the Department of Gynecology and Obstetrics at the University Clinic in Luebeck, Germany.
- Dr. Rene Frydman, MD, Head, Department of Gynecology and Obstetrics at the Hopital Antoine Beclere in Clamart, a suburb of Paris.
- Dr. Fernand Labrie, OC, OQ, MD, PhD, Head, Centre hospitalier de l'Universite Laval (CHUL) Research Centre in Quebec City.

BUSINESS DEVELOPMENT

- Agreement for marketing Neovastat in Korea with LG Life Sciences. The agreement provides AETerna with upfront and milestone payments, as well as a return on manufacturing and sales of Neovastat. This partnership also extends AETerna's coverage for Neovastat to 50% of the oncology world market and allows the Company to surpass the \$50 million mark in milestone payments.
- Agreement with German Remedies Limited to sell Impavido(R), the first oral treatment for black fever, in India and Bangladesh.
- Significant milestone payment from Baxter Healthcare S.A. for D-63153 for prostate cancer.
- Agreement with Hainan Chang An Pharmaceutical Ltd. to manufacture and sell

Lobaplatin in China for multiple cancer indications.

CORPORATE GOVERNANCE

Gilles Gagnon, President and Chief Operating Officer, was promoted President and Chief Executive Officer of the Company, while Dr. Eric Dupont, remains the Company's Executive Chairman of the Board, which is comprised of six external and three internal members.

ABOUT AETERNA LABORATORIES INC.

AEterna is a biopharmaceutical company focused on the development of novel therapeutic treatments, mainly in oncology and endocrinology. The product pipeline includes 12 products ranging from the preclinical to marketing stage. AEterna's strategic worldwide partners include Access Oncology, Ardana Bioscience, Baxter Healthcare S.A., German Remedies Ltd., Grupo Ferrer Internacional, Hainan Chang An Pharmaceutical Ltd., LG Life Sciences Ltd., Mayne Group, Medac GmbH, Nippon Kayaku, Serono International S.A., Shionogi & Co., Ltd., Solvay Pharmaceuticals B.V., and Teikoku Hormone Mfg. Co., Ltd.

AEterna owns 100% of the biopharmaceutical company, Zentaris GmbH, based in Frankfurt, Germany. AEterna also owns 61.8% of Atrium Biotechnologies Inc., which develops and markets nutritional supplements, as well as active ingredients and fine chemical products intended for the cosmetics, nutrition, fine chemicals and pharmaceuticals industries. Atrium markets over 500 products in 20 countries to industry leaders such as Estee Lauder, L'Oreal, Clarins, Chanel, Aventis, SanofiSynthelabo and Nestle.

AEterna and its entities have 270 employees in Canada and Europe.

AEterna shares are listed on the Toronto Stock Exchange (AEL) and the NASDAQ National Market (AELA).

News releases and additional information about AEterna are available on its Web site at www.aeterna.com.

NOTICE: A quarterly conference call and webcast have been scheduled for today, Wednesday, April 30, 2003 at 11:00 a.m. Eastern time. Participants may access the live webcast via AEterna's website at www.aeterna.com or by telephone using the following numbers:
416-640-4127, 514-807-8791 or 1-800-814-4890.

A replay of the conference call will be available at 416-640-1917 passcode 250093# from April 30 at 1:00 p.m., through May 2 at 11:59 p.m. A replay of the webcast will also be available on AEterna's website from April 30 through May 30, 2003.

SAFE HARBOR STATEMENT

This press release contains forward-looking statements, which are made pursuant to the safe harbor provisions of the U.S. Securities Litigation Reform Act of 1995. Forward-looking statements involve known and unknown risks and uncertainties which could cause the Company's actual results to differ materially from those in the forward-looking statements. Such risks and uncertainties include, among others, the availability of funds and resources to pursue R&D projects, the successful and timely completion of clinical studies, the ability of the Company to take advantage of the business opportunities in the pharmaceutical industry, uncertainties related to the regulatory process and general changes in economic conditions. Investors should consult the Company's ongoing quarterly and annual filings with the Canadian and U.S. securities
