SIERRA WIRELESS REPORTS THIRD QUARTER 2003 RESULTS

VANCOUVER, BRITISH COLUMBIA - Sierra Wireless, Inc. (NASDAQ: SWIR, TSX: SW)

Edgar Filing: SIERRA WIRELESS INC - Form 6-K

is reporting better than expected third quarter results, including revenue of \$26.2 million, a lower-than-expected loss and positive cash flow.

Our results are reported in US dollars and are prepared in accordance with United States generally accepted accounting principles. For the three months ended September 30, 2003, our revenue was \$26.2 million, operating expenses were \$11.5 million, our net loss was \$0.9 million and our loss per share was \$0.05. During the third quarter of 2003, we incurred restructuring and integration costs of \$2.2 million related to the acquisition of AirPrime; these costs were lower than expected. In addition, we received and recorded an additional recovery of \$0.2 million from Metricom. Our results, where described as adjusted, exclude these amounts.

"We are pleased to report that, for the fifth consecutive quarter, we grew revenues over the comparable quarter, generated positive cash flow and produced an operating profit. During the third quarter, we closed on the AirPrime acquisition and commenced integration activities. Sales of AirCards and embedded modules were strong and North American revenues were up significantly during the quarter", said David Sutcliffe, Chairman and Chief Executive Officer. "Looking ahead, we have strong fourth quarter demand for 2.5G AirCards and embedded modules, we plan to complete the AirPrime business integration and to bring our recently-announced Voq professional phone to market. We expect overall economic and industry conditions to continue to be challenging. Our business operating premise is profitable growth and our priorities remain expansion of our distribution channels, sell through to end customers and investment in new products for future growth."

Results for the third quarter of 2003, relative to company guidance provided on July 17, 2003:

Third quarter revenue for 2003 of \$26.2 million was better than our guidance range of \$24.0 to \$25.0 million. Gross margin was 40.8%, better than our guidance of approximately 39.0%. Our adjusted operating expenses were \$9.5 million, higher than our guidance range of \$8.4 to \$8.7 million. Our net loss of \$0.9 million, or loss per share of \$0.05, was better than our guidance range of a net loss of \$2.9 to \$3.0 million, or loss per share of \$0.17. Our adjusted net earnings were \$1.1 million, better than our guidance range of adjusted net earnings of \$0.9 to \$1.0 million. We had a positive cash flow of \$1.4 million that was better than our guidance of negative cash flow of \$4 million.

Results for the third quarter of 2003, compared to the third quarter of 2002:

Our revenue for the third quarter of 2003 increased by 24.2% to \$26.2 million, from \$21.1 million for the same period in 2002. Gross margin improved to 40.8% from 39.2%. Operating expenses increased to \$11.5 million and adjusted operating expenses increased to \$9.5 million, in each case compared to \$7.9 million in 2002. Net loss for the third quarter of 2003 was \$0.9 million or loss per share of \$0.05, compared to net earnings of \$0.5 million, or diluted earnings per share of \$0.03, in the third quarter of 2002. Adjusted net earnings for the third quarter of 2003 increased to \$1.1 million or adjusted diluted earnings per share of \$0.06.

2

Results for the third quarter of 2003, compared to the second quarter of 2003:

Revenue for the three months ended September 30, 2003 amounted to \$26.2 million, compared to \$20.7 million in the second quarter of 2003, an increase of 26.6%.

Edgar Filing: SIERRA WIRELESS INC - Form 6-K

Gross margins were \$10.7 million or 40.8% in the third quarter of 2003, compared to \$8.3 million or 40.3% in the second quarter of 2003. Our gross margin percentage improved slightly compared to the previous quarter due to product cost reductions which were partially offset by changes in product mix.

Adjusted operating expenses were \$9.5 million, compared to \$7.8 million in the previous quarter. This increase is a result of the addition of staff and projects related to the AirPrime acquisition, development and marketing costs of the Voq professional phone and decreased funding from research and development funding agreements. Our gross research and development investments were \$4.7 million in the third quarter of 2003 compared to \$3.1 million in the second quarter of 2003.

Adjusted net earnings were \$1.1 million for the three months ended September 30, 2003, compared to \$0.6 million for the three months ended June 30, 2003. Our adjusted diluted earnings per share were \$0.06 for the third quarter of 2003, compared to adjusted diluted earnings per share of \$0.04 for the second quarter of 2003.

Acquisition of AirPrime, Inc.

On August 12, 2003, we completed our acquisition of AirPrime, Inc., a privately-held supplier of high-speed CDMA wireless products located in Carlsbad, California. The results of AirPrime's operations have been included in our consolidated financial results since that date. The combined entity is expected to be a well-positioned market leader with a broad product line, innovative engineering, blue chip customers, global channels and a strong balance sheet.

Third Quarter Highlights Included:

- o In July, AirPrime announced that Handspring, an innovator in personal communication products, had selected the EM3400 series as the CDMA wireless engine to power their recently announced Treo 600 product line.
- o Together with Citrix Systems, Inc., QUALCOMM, Sprint and Trio Teknologies, we announced the launch of a four-city series of Mobile Access Technology Workshops designed to instruct enterprise organizations on how to improve anytime, anywhere, any-application, any-device wireless access for field professionals. The program represents one of the largest free pilots of 3G CDMA2000 1X technology for enterprise users to date.
- o We signed a distribution agreement with Cedros, a specialist for communication, web and groupware solutions. Cedros will distribute our products to the German marketplace including the Sierra Wireless AirCard(R) 750, a wide area wireless PC Card, and the new MP 750 rugged wireless modem for GSM/GPRS cellular networks.
- o Lucent Technologies demonstrated third-generation (3G) mobile applications with several of the industry's leading companies at the Association of Public Safety Communications Officials' (APCO) 2003 Conference & Symposium. Lucent is collaborating with companies such as Padcom(R) and Sierra Wireless to highlight how 3G mobile high-speed data networks can be utilized by public safety personnel.
- o We announced the commercial availability of the MP 555 GPS rugged wireless modem, the second product available in our next generation MP Series. We also announced the first North American implementation of

the new MP 555 GPS with the Ontario Provincial Police in Canada. By outfitting its patrol cars with a new wireless system that combines the MP 555 GPS wireless modem and Panasonic Toughbook notebook computers, officers will have the ability to access provincial and national databases and improve the efficiency of the dispatch and arrest process.

- o Dr. Norman Toms, our Chief Technical Officer, won the Cecil Green Award for Technology Entrepreneurship, which is awarded by The Science Council of BC to an individual who has started or developed a knowledge-based company that has demonstrated ability to profitably create and sell world-class products over time.
- o Along with CompassCom Inc., we were selected by the City of Aurora in Colorado to migrate its Public Works Department to next generation technology. CompassCom Inc.'s Automatic Vehicle Location suite of products and our new rugged wireless modem, the MP 750 GPS, have been implemented to help the city track, monitor, and dispatch its vehicles over a broader coverage area with high-speed mobility.
- o In October 2003, we announced the Voq line of professional phones and value-added software for business users. New Voq-branded professional phones will be based on Microsoft Windows Mobile software for Smartphones and will feature both a familiar phone keypad and a unique flip-open QWERTY thumbpad. The first Voq model will support global markets by operating over the GSM and GPRS wireless networks and is expected to be commercially available in the first half of 2004.

Financial Guidance

We first provided guidance for the fourth quarter ending December 31, 2003 on July 17, 2003. We are updating our fourth quarter guidance to reflect our current business indicators and expectations. Inherent in this guidance is higher than normal risk resulting from uncertainty associated with the integration of AirPrime, the timing of volume shipments to channels and with the rate of end customer adoption of newer products. All figures are estimates based on management's current beliefs and assumptions and are subject to change. Our actual results could differ materially from those presented below.

We expect to continue to incur AirPrime related integration costs in Q4 2003. We expect integration activities and costs to be substantially completed by year-end.

	Q4 2003 Previous Guidance	Q4 2003 Updated Guid
	-----	-----
Revenue	\$28 - \$30 million	\$30 - \$32 million
Gross margin	38% - 39%	39% - 40%
Operating expenses	\$9.8 - \$10.4 million	\$10.5 - \$11.8 million
Restructuring and other charges	Nil	Nil
Integration costs	\$1.1 - \$1.5 million	\$1.4 - \$1.6 million
Net earnings (loss)	\$(0.2) - \$(0.3) million	\$(0.2) - \$(0.3) million
Diluted earnings (loss) per share	\$(0.01)	\$(0.01)

Edgar Filing: SIERRA WIRELESS INC - Form 6-K

Net earnings (loss), excluding restructuring and integration costs	\$0.8 - \$1.3 million	\$1.0 - \$1.3 million
Diluted earnings (loss) per share, excluding restructuring and integration costs	\$0.04 - \$0.06	\$0.05 - \$0.06
Cash flow	Neutral	Positive \$1 million

4

Management Retirement

Dr. Norman Toms, 59, will be retiring from his role as Chief Technical Officer and will transition to an ongoing, part time advisory role. We expect that this transition will be completed by March 2004 and that other members of the management team will assume Dr. Toms' responsibilities. Dr. Toms founded Sierra Wireless in May 1993, served as its first Chief Executive Officer, became the Chief Technical Officer in May 1995 following the appointment of David Sutcliffe as Chief Executive Officer. Dr. Toms deferred earlier retirement plans in order to provide technical guidance to the development of the first Voq professional phone.

Forward-Looking Statements

This press release contains forward-looking statements that involve risks and uncertainties. These forward-looking statements relate to, among other things, plans and timing for the introduction or enhancement of our services and products, statements about future market conditions, supply conditions, channel and end customer demand conditions, revenues, gross margins, operating expenses, profits, and other expectations, intentions, and plans contained in this press release that are not historical fact. Our expectations regarding future revenues and earnings depend in part upon our ability to successfully integrate AirPrime into our business and our ability to develop, manufacture, and supply products that we do not produce today and that meet defined specifications. When used in this press release, the words "plan", "expect", "believe", and similar expressions generally identify forward-looking statements. These statements reflect our current expectations. They are subject to a number of risks and uncertainties, including, but not limited to, changes in technology and changes in the wireless data communications market. In light of the many risks and uncertainties surrounding the wireless data communications market, you should understand that we cannot assure you that the forward-looking statements contained in this press release will be realized.

About Sierra Wireless

Sierra Wireless is a leader in delivering highly differentiated wireless solutions that enable our customers to improve their productivity and lifestyle. Sierra Wireless develops and markets AirCard, the industry-leading wireless PC card line for portable computers; embedded modules for OEM wireless applications; the MP line of rugged vehicle-mounted connectivity solutions and Voq, a line of professional phones with easy-to-use, secure software solutions for mobile professionals. For more information on Sierra Wireless, visit our web site at www.sierrawireless.com. For more information on Voq professional phones, visit our web site at www.voq.com.

"AirCard" and "Voq" are trademarks of Sierra Wireless, Inc. Other product or service names mentioned herein may be the trademarks of their respective
