ANNUAL
REPORT
DECEMBER 31, 2004

February 1, 2005

DEAR FELLOW SHAREHOLDER,

This was a good year for our investors as the market value of the shares was little changed year-over-year, despite fluctuations during the period, and the dividend was stable throughout the year:

- The Fund's shares opened the year at a market price of \$2.16, a discount of -1.4% from the net asset value ("NAV") of \$2.19 per share.
- At year-end, the Fund's shares closed at a market price of \$2.19, a discount

Edgar Filing: NEW AMERICA HIGH INCOME FUND INC - Form N-CSR

of -3.1% from the closing NAV of \$2.26.

- The Fund paid dividends totaling approximately \$.23 per common share, a dividend yield of 10.6% based on the beginning of year market price of \$2.16.

	TOTAL RETURNS FOR THE PERIODS ENDING DEC	
	1 YEAR	3 YEARS CU

New America High Income Fund (Stock Price and Dividends)*	12.80%	17.0
New America High Income Fund (NAV and Dividends)	14.60%	22.2
Lipper Closed-End Fund Leveraged High Yield Average	17.02%	55.9
CS First Boston High Yield Index	11.95%	47.6
10 Year U.S. Treasury Bond	4.87%	21.7

Sources: CS First Boston, Citigroup, Lipper, The New America High Income Fund, Inc,

- * Because the Fund's shares may trade at either a discount or premium to the Fund's net asset value per share, returns based upon the share price and dividends will tend to differ from those derived from the underlying change in net asset value.

In prior shareholder letters, we have discussed the impact of the Fund's leverage on the Fund's performance. Again, we remind our fellow shareholders that in times of high yield market volatility, leverage creates greater volatility in the Fund's NAV than we would experience with an identical un-leveraged portfolio. When prices in the high yield bond market rise, the Fund's NAV may rise at a faster rate, however this positive effect becomes a negative effect when the market declines. One has only to look back to the period from 1998 through 2002 to judge the punishing impact of a poor market on a portfolio with leverage.

In 2004 the Fund's leverage was an important contributor to the common stock dividend. The Fund's leverage is in the form of Auction Term Preferred Stock (the "ATP"). The additional income contributed by the ATP is generated by the difference between the current cost of the leverage and the higher income earned on the portfolio assets attributable to the ATP. The dividend paid on the ATP is set at monthly auctions and fluctuates with short-term interest rates. The common stock dividend is principally affected by two factors, the current yield on the Fund's portfolio and the cost of the ATP. While we cannot control the portfolio yield, we have fixed the dividend cost of the ATP at 3.775% by entering into a 5 year interest rate swap. If the portfolio's current yield changes significantly, it is likely the Board of Directors will consider a change in the common stock dividend.

The portfolio had total net assets attributable to common stock and ATP ("TNA") of \$342 million at year-end, of which \$130 million were assets attributable to the ATP. The Fund is governed by the Investment Company Act of 1940 (the "1940 Act"). The 1940 Act limits the amount of leverage in the form of ATP that the Fund may employ to a maximum of 50% of the TNA. In addition, the Fund must comply with a number of asset coverage tests imposed by Moody's Investors Service and Fitch, Inc., both of which provide credit ratings for the Fund's ATP. During declining

Edgar Filing: NEW AMERICA HIGH INCOME FUND INC - Form N-CSR

markets the Fund may reduce the amount of ATP outstanding to ensure that the ratio of the leverage to TNA continues to meet 1940 Act and rating agency requirements. If the Fund needs to reduce the ATP outstanding, it may have to raise the necessary cash by selling high yield portfolio securities, which may negatively impact the common stock dividend.

Despite the strong high yield market environment over the last two years, we remain reasonably positive about the stability of our portfolio under the management of Mark Vasselkiv, assisted by Paul Karpers and the able high yield team at T. Rowe Price Associates. Mark's and Paul's comments on the high yield market and portfolio strategy are outlined below.

HIGH YIELD MARKET UPDATE

The high yield bond market delivered gains for 2004, on the heels of its strong results in 2003, marking the first time it has delivered double-digit returns in consecutive years since the 1996-1997 period. For the past two years the high yield asset class has enjoyed near perfect market conditions, to the benefit of high yield companies and investors alike. Corporate fundamentals showed improvement in a temperate economic climate, while investor demand for higher-yielding securities in an overall low interest rate environment continued to attract capital to the asset class and support prices. Returns were solid across the spectrum of ratings categories, but particularly strong among the lowest rated (CCC) credits. The good results have left the asset class with historically low absolute yields, and in our view, limited potential for additional capital appreciation in 2005. While the favorable trends most high yield companies have enjoyed seem likely to persist into the year, the high yield bond market now has little room to absorb negative surprises. With interest rates remaining low and credit spreads extremely tight, the potential for a repeat of 2004 performance seems highly unlikely.

A positive development in the latter months of the year put a strong exclamation point on the excellent performance high yield investors have enjoyed for over two years. Merger and acquisition activity in the U.S. has accelerated, and high yield companies are in many cases targets of investment grade corporations looking to consolidate their industries. The Fund benefited in the fourth quarter from Nextel's announced merger with Sprint, the planned roll up of International Steel Group and Ispat Inland by their high grade foreign buyer, Mittal, and the purchase of luxury retailer Barney's, completed in December by Jones Apparel Group. These deals and several others contributed to capital gains in the portfolio throughout the year. The Nextel announcement was particularly rewarding, as it was one of the Fund's largest positions.

While the pick-up in mergers was a more recent phenomenon that may carry into 2005, the pace of refinancing activity continued at a healthy clip throughout the year as corporate issuers looked to take advantage of low interest rates. Events from the gaming industry illustrate the impact such activity could likely have on the portfolio's level of income as we move into 2005. Two of our largest holdings, the Venetian and Wynn Resorts, pursued transactions that eliminated their high cost debt. Venetian, upon completing a highly successful IPO, announced a partial tender for a portion of an 11% bond issue, and may very well eliminate the remainder of the issue shortly. While Wynn, taking advantage of near insatiable investor appetite for gaming paper, replaced a 12% issue with a new bond offering a 6.625% coupon, though the organization has yet to open its first casino property. Throughout the year there were several large mergers announced among casino companies, including combinations among MGM and Mandalay Bay, Harrah's and Caesar's Palace, and Penn National and Argosy. We anticipate the companies will eliminate any legacy high cost debt with the successful closing of these deals. For example, bonds from Penn National carrying an 11.125% interest rate are expected to be called and replaced with a new issue that will carry a far lower coupon. The challenge will be reinvesting the

Edgar Filing: NEW AMERICA HIGH INCOME FUND INC - Form N-CSR

proceeds from these mergers, tenders, and early redemptions in the gaming industry and elsewhere at attractive rates, as the universe of truly "high yielding" high yield debt grows evermore scarce.

2

STRATEGY UPDATE

We made few major structural changes in the portfolio throughout the year, but kept a bias toward higher quality securities in our research efforts and remained ever vigilant to what we see as a trend to higher interest rates. We are particularly concerned about the lack of adequate compensation offered by lower-rated CCC bonds. About half the CCC rated issues the Fund owns yield less than 8%, although in our view many of them carry single-B characteristics and deserve higher ratings from the agencies. With BB's earning about 6%, it seems to us to make little sense to own the most speculative credits. In fact, General Motors, rated BBB, though widely anticipated to be facing an eventual downgrade to below investment grade, yielded 6.8% at the time of the Fund's purchase, higher than most BB and single-B rated issues in the portfolio.

The telecommunications theme continued to play out well during the last three months of the year. Many of our top performers came from this sector, including AT&T, MCI, Qwest and Nextel. Given the strong performance of the AT&T bonds, we locked in profits and sold down the position in early December. In addition to the Nextel announcement, Western Wireless seems likely to be acquired by Alltel in 2005. We added a significant position to Rogers Communications in the fourth quarter, a high quality Canadian operator of wireless phone and cable television services.

We experienced no defaults and few major credit problems during the second half of the year and feel the quality of the positions in the Fund should allow this trend to continue into 2005. We are growing more cautious, however, with respect to interest rates and spreads, and see the first quarter as an ideal time to review the portfolio for interest rate sensitive paper and questionable situations that could run into trouble in the future. This includes any holdings created to finance leveraged buyout activity, given the increasingly aggressive behavior of private equity sponsors. Private equity investors that fund the purchase of companies by issuing high yield debt are doing highly levered deals and often paying themselves huge dividends through the issuance of subordinated bonds. We feel that both occurrences are a very poor omen for the high yield asset class, not necessarily in the coming year, but over the intermediate term. As always, our focus is two fold, seeking a high level of income while preserving the Fund's principal. While it has grown increasingly difficult to achieve these objectives in the present environment, we are still able to generate the occasional idea that appears to offer sufficient income relative to the underlying credit risk. Historically, when market conditions have been at their best for high yield investors, speculation has always crept into the asset class. We see this development occurring now, and we will be ever mindful to it and its consequences in our portfolio management decisions for the year ahead.

Thank you for your interest in the Fund.

Sincerely,

-
- (a) Denotes issuer is in bankruptcy proceedings.
 - (b) Security is a Pay-in-Kind bond. Income on this bond accrues based upon the interest method which results in a constant rate of interest being recognized.
 - (c) Security is valued at fair value using methods determined by the Board of Directors. The total value of these securities at December 31, 2004 was \$0.
 - (d) Percentages indicated are based on total net assets to common shareholders of \$212,165.
 - (e) Not rated.
 - (f) Non-income producing.
 - (g) Securities are exempt from registration under Rule 144A of the Securities Act of 1933. Such securities may be resold, normally to qualified institutional buyers in transactions exempt from registration. Unless otherwise noted, 144A securities are deemed to be liquid. See Note 1(a) of the Notes to Financial Statements for valuation policy. Total market value of Rule 144A securities amounted to \$66,338 as of December 31, 2004.
 - (h) Securities are step interest bonds. Interest on these bonds accrue based on the interest method which results in a constant rate of interest being recognized.

The accompanying notes are an integral part of these financial statements.

PORTFOLIO TURNOVER RATE	70.90%	120.47%	82.47%

(a) Dollars in thousands.

(b) The Fund issued Series C ATP on October 17, 2003. The per share data and ratios for the year ended December 31, 2003 reflect this transaction.

(c) As required, effective January 1, 2001, the Fund has adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies and began amortizing discount and premium on debt securities. This had no effect on net investment income per share and a \$.01 increase to net realized and unrealized loss per share for the year ended December 31, 2001. The effect of this change increased the ratio of net investment income to average net assets from 16.29% to 16.70%. Per share, ratios and supplemental data for periods prior to January 1, 2001 have not been restated to reflect this change in presentation.

* Ratios calculated on the basis of expenses and net investment income applicable to the common shares relative to the average net assets of the common stockholders only.

Calculation is based on average shares outstanding during the indicated period due to the per share effect of the Fund's August, 2003 rights offering.

+ Total investment return is calculated assuming a purchase of common stock at the current market value on the first day and a sale at the current market value on the last day of each year reported. Dividends and distributions are assumed for purposes of this calculation to be reinvested at prices obtained under the dividend reinvestment plan. This calculation does not reflect brokerage commissions.

The accompanying notes are an integral
part of these financial statements.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2004

(1) SIGNIFICANT ACCOUNTING AND OTHER POLICIES

The New America High Income Fund, Inc. (the Fund) was organized as a corporation in the state of Maryland on November 19, 1987 and is registered with the Securities and Exchange Commission as a diversified, closed-end investment company under the Investment Company Act of 1940. The Fund commenced operations on February 26, 1988. The investment objective of the Fund is to provide high current income while seeking to preserve stockholders' capital through investment in a professionally managed, diversified portfolio of "high yield" fixed-income securities.

The Fund invests primarily in fixed maturity corporate debt securities that are rated less than investment grade. Risk of loss upon default by the issuer is significantly greater with respect to such securities compared to investment grade securities because these securities are generally unsecured and are often subordinated to other creditors of the issuer and because these issuers usually have high levels of indebtedness and are more sensitive to adverse economic conditions, such as a recession, than are investment grade issuers. In some cases, the collection of principal and timely receipt of interest is dependent upon the issuer attaining improved operating results, selling assets or obtaining additional financing.

The Fund may focus its investments in certain industries, subjecting it to greater risk than a Fund that is more diversified. See the schedule of investments for information on individual securities as well as industry diversification and credit quality ratings.

The Fund's financial statements have been prepared in conformity with accounting principles generally accepted in the United States for investment companies that require the management of the Fund to, among other things, make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

The following is a summary of significant accounting policies consistently followed by the Fund, which are in conformity with those generally accepted in the investment company industry.

(a) VALUATION OF INVESTMENTS--Investments for which market quotations are readily available are stated at market value, which is determined by using the most recently quoted bid price provided by an independent pricing service or

Edgar Filing: NEW AMERICA HIGH INCOME FUND INC - Form N-CSR

principal market maker. Independent pricing services provide market quotations based primarily on quotations from dealers and brokers, market transactions, accessing data from quotations services, offering sheets obtained from dealers and various relationships between securities. Short-term investments with original maturities of 60 days or less are stated at amortized cost, which approximates market value. Following procedures approved by the Board of Directors, investments for which market quotations are not readily available (primarily fixed-income corporate bonds and notes) are stated at fair value on the basis of subjective valuations furnished by securities dealers and brokers. Other investments, with a cost of approximately \$7,214,000 and a value of \$0, are valued in good faith at fair market value using methods determined by the Board of Directors.

(b) INTEREST AND DIVIDEND INCOME--Interest income is accrued on a daily basis. Discount on short-term investments is amortized to investment income. Premiums or discounts on corporate debt securities are amortized based on the interest method for financial reporting purposes. All income on original issue discount and step interest bonds is accrued based on the effective interest method for tax reporting purposes as required by federal income tax regulations. The Fund does not amortize market premiums or discounts

22

for tax purposes. Dividend payments received in the form of additional securities are recorded on the ex-dividend date in an amount equal to the value of the security on such date.

(c) FEDERAL INCOME TAXES--It is the Fund's policy to comply with the requirements of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders each year. Accordingly, no federal income tax provision is required.

(2) TAX MATTERS AND DISTRIBUTIONS

At December 31, 2004, the total cost of securities (including temporary cash investments) for federal income tax purposes was approximately \$331,405,000. Aggregate gross unrealized gain on securities in which there was an excess of value over tax cost was approximately \$15,779,000. Aggregate unrealized loss on securities in which there was an excess of tax cost over value was approximately \$8,700,000. Net unrealized gain on investments for tax purposes at December 31, 2004 was approximately \$7,079,000

At December 31, 2004, the Fund had approximate capital loss carryovers available to offset future capital gains, if any, to the extent provided by regulations:

CARRYOVER AVAILABLE	EXPIRATION DATE
-----	-----
\$ 35,581,000	December 31, 2007
21,821,000	December 31, 2008
67,043,000	December 31, 2009
45,239,000	December 31, 2010
7,387,000	December 31, 2011
125,000	December 31, 2012

\$ 177,196,000	

Edgar Filing: NEW AMERICA HIGH INCOME FUND INC - Form N-CSR

It is the policy of the Fund to reduce future distributions of realized gains to shareholders to the extent of the unexpired capital loss carry forward.

The tax character of distributions paid to common and preferred shareholders of approximately \$23,725,000 in 2004 was from ordinary income.

As of December 31, 2004, the components of distributable earnings on a tax basis were approximately:

Undistributed Net Investment Income	\$	443,000
Undistributed Long-Term Gain		--
Unrealized Gain	\$	8,001,000
Capital Losses Carry Forward and Post October Losses Deferred	\$	179,118,000

The difference between components of distributable earnings on a tax basis and the amounts reflected in the Statement of Assets and Liabilities are primarily due to market discount adjustments.

Distributions on common stock are declared based upon annual projections of the Fund's investment company taxable income. The Fund records all dividends and distributions payable to shareholders on the ex-dividend date and declares and distributes income dividends monthly.

The Fund was required to amortize market discounts and premiums for financial reporting purposes beginning January 1, 2001. This new accounting policy results in additional interest income in some years and decreased interest income in others for financial reporting purposes only. The Fund does not amortize market discounts or premiums for tax purposes. Therefore, the additional or decreased interest income for financial reporting purposes does not result in additional or decreased common stock dividend income.

The Fund has recorded several reclassifications in the capital accounts to present undistributed net investment income or accumulated net realized gains and losses on a tax basis, which is considered to be more informative to the shareholder. These reclassifications have no impact on the net asset value of the Fund.

23

(3) INVESTMENT ADVISORY AGREEMENT

T. Rowe Price Associates, Inc. (T. Rowe Price), the Fund's Investment Advisor, earned approximately \$1,159,000 in management fees during the year ended December 31, 2004. Management fees paid by the Fund to T. Rowe Price were calculated at 0.50% on the first \$50,000,000 of the Fund's average weekly net assets, 0.40% on the next \$50 million and 0.30% on average weekly net assets in excess of \$100 million. T. Rowe Price's fee is calculated based on assets attributable to the Fund's common and auction term preferred stock. At December 31, 2004, the fee payable to T. Rowe Price was approximately \$100,000, which was included in accrued expenses on the accompanying statement of assets and liabilities.

(4) AUCTION TERM PREFERRED STOCK (ATP)

On October 17, 2003, the Fund issued 1,200 shares of Series C ATP. The underwriting discount of \$300,000 and offering expenses of \$358,000 were recorded as a reduction of the capital in excess of par value on common stock.

Edgar Filing: NEW AMERICA HIGH INCOME FUND INC - Form N-CSR

The Fund had 5,200 shares of ATP issued and outstanding at December 31, 2004. The ATP's dividends are cumulative at a rate determined at an auction, and dividend periods will typically be 28 days unless notice is given for periods to be longer or shorter than 28 days. Dividend rates ranged from 1.08% to 2.55% for the year ended December 31, 2004. The average dividend rate as of December 31, 2004 was 2.47%.

The ATP is redeemable, at the option of the Fund, or subject to mandatory redemption (if the Fund is in default of certain coverage requirements) at a redemption price equal to \$25,000 per share plus accumulated and unpaid dividends. The ATP has a liquidation preference of \$25,000 per share plus accumulated and unpaid dividends. The Fund is required to maintain certain asset coverages with respect to the ATP under the Fund's Charter and the 1940 Act in order to maintain the Fund's Aaa/AAA ratings by Moody's Investors Service, Inc. and Fitch, Inc., respectively.

(5) ATP AUCTION-RELATED MATTERS

Bankers Trust Company (BTC) serves as the ATP's auction agent pursuant to an agreement entered into on January 4, 1994. The term of the agreement is unlimited and may be terminated by either party. BTC may resign upon notice to the Fund, such resignation to be effective on the earlier of the 90th day after the delivery of such notice and the date on which a successor auction agent is appointed by the Fund. The Fund may also replace BTC as auction agent at any time.

After each auction, BTC as auction agent will pay to each broker-dealer, from funds provided by the Fund, a maximum service charge at the annual rate of 0.25 of 1% or such other percentage subsequently agreed to by the Fund and the broker-dealers, of the purchase price of shares placed by such broker-dealers at such auction. In the event an auction scheduled to occur on an auction date fails to occur for any reason, the broker-dealers will be entitled to service charges as if the auction had occurred and all holders of shares placed by them had submitted valid hold orders. The Fund incurred approximately \$317,000 for service charges for the year ended December 31, 2004. This amount is included under the caption preferred and auction fees in the accompanying statement of operations.

(6) INTEREST RATE SWAPS

The Fund entered into an interest payment swap arrangement with Fleet National Bank (Fleet) for the purpose of partially hedging its dividend payment obligations with respect to the ATP. Pursuant to the Swap Arrangement the Fund makes payments to Fleet on a monthly basis at a fixed annual rate. In exchange for such payment Fleet makes payments to the Fund on a

24

monthly basis at a variable rate determined with reference to one month LIBOR. The variable rates ranged from 1.09% to 2.33% for the year ended December 31, 2004. The effective date, notional amount, maturity and fixed rate of the swap is as follows:

EFFECTIVE DATE	NOTIONAL CONTRACT AMOUNT	MATURITY	FIXED ANNUAL RATE
11/5/04	\$130 million	11/5/09	3.775%

Swap transactions, which involve future settlement, give rise to credit risk.

Edgar Filing: NEW AMERICA HIGH INCOME FUND INC - Form N-CSR

Credit risk is the amount of loss the Fund would incur in the event counterparties failed to perform according to the terms of the contractual commitments. In the event of nonperformance by the counterparty, the Fund's dividend payment obligation with respect to the ATP would no longer be partially hedged. Therefore, the ATP dividend would no longer be partially fixed. In an unfavorable interest rate environment, the Fund would be subject to higher net ATP dividend payments, resulting in less income available for the common share dividend. The Fund does not anticipate nonperformance by any counterparty. While notional contract amounts are used to express the volume of interest rate swap agreements, the amounts potentially subject to credit risk, in the event of nonperformance by counterparties, are substantially smaller.

The Fund recognizes all freestanding derivative instruments in the balance sheet as either assets or liabilities and measures them at fair value. Any change in the unrealized gain or loss is recorded in current earnings. For the year ended December 31, 2004, the Fund's obligations under the swap agreements were more than the amount received from Fleet by approximately \$3,071,000 and such amount is included in the accompanying statement of operations.

In connection with the termination of an interest rate swap agreement during the year, the Fund also paid approximately \$3,157,000 to Fleet. This payment is reflected on the accompanying statement of operations as a realized loss on interest rate swap agreements.

The estimated fair value of the interest rate swap agreement at December 31, 2004 amounted to approximately \$923,000 of unrealized gain and is presented in the accompanying balance sheet.

(7) PURCHASES AND SALES OF SECURITIES

Purchases and proceeds of sales or maturities of long-term securities during the year ended December 31, 2004 were approximately:

Cost of purchases	\$231,657,000
Proceeds of sales or maturities	\$230,267,000

(8) RELATED PARTY TRANSACTIONS

A partner of Goodwin Procter LLP, counsel to the Fund, serves as a Director of the Fund. Fees earned by Goodwin Procter LLP amounted to approximately \$208,000 for the year ended December 31, 2004.

The Fund paid approximately \$311,000 during the year ended December 31, 2004 to two officers of the Fund for the provision of certain administrative services.

(9) RIGHTS OFFERING

The Fund issued to stockholders of record as of the close of business on July 21, 2003, rights to subscribe for an aggregate of 23,397,095 shares of common stock, \$.01 par value per share, of the Fund. One right was issued for each three full shares of common stock beneficially held on the record date. The rights entitled a stockholder to acquire at the subscription price of \$1.81 per share one share for each right held. The subscription price was 94% of the average of the last reported sales price of the Fund's Common Stock on the New York Stock Exchange on August 18, 2003, the expiration date and the nine preceding business days. On August 22, 2003 the Fund completed its rights offering. Proceeds of approximately \$42,349,000 and

Edgar Filing: NEW AMERICA HIGH INCOME FUND INC - Form N-CSR

shares of 23,397,095 were recorded. In addition, offering expense of approximately \$817,000 was netted against the rights offering proceeds in 2003 and \$84,000 in 2004.

COMMON AND AUCTION TERM PREFERRED STOCK TRANSACTIONS

From time to time in the future, the Fund may effect redemptions and/or repurchases of its ATP as provided in the applicable constituent instruments or as agreed upon by the Fund and sellers. The Fund intends to effect such redemptions and/or repurchases to the extent necessary to maintain applicable asset coverage requirements.

The Fund may purchase shares of its Common Stock in the open market when the Common Stock trades at a discount to net asset value or at other times if the Fund determines such purchases are in the best interest of its stockholders. There can be no assurance that the Fund will take such action in the event of a market discount to net asset value or that Fund purchases will reduce a discount.

COMPLIANCE CERTIFICATIONS

(Unaudited)

On May 25, 2004, your Fund submitted a CEO annual certification to the New York Stock Exchange (NYSE) on which the Fund's principal executive officer certified that he was not aware, as of that date, of any violation by the Fund of the NYSE's Corporate Governance listing standards. In addition, as required by Section 302 of the Sarbanes-Oxley Act of 2002 and related SEC rules, the Fund's principal executive and principal financial officers have made quarterly certifications, included in filings with the SEC on Forms N-CSR and N-Q, relating to, among other things, the Fund's disclosure controls and procedures and internal control over financial reporting.

26

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders
The New America High Income Fund, Inc.

We have audited the accompanying statement of assets and liabilities of The New America High Income Fund, Inc., including the schedule of investments, as of December 31, 2004, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the three years in the period then ended. These financial statements and financial highlights are the responsibility of the fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2004, by correspondence with custodians and brokers or by other appropriate auditing procedures. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to

Edgar Filing: NEW AMERICA HIGH INCOME FUND INC - Form N-CSR

above present fairly, in all material respects, the financial position of The New America High Income Fund, Inc. as of December 31, 2004, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the three years in the period then ended, in conformity with U.S. generally accepted accounting principles.

the officer's death or until the officer resigns or has been removed.

30

EquiServe Trust Company N.A.
P.O. Box 43011
Providence, RI 02940-3011

3709-AR-05

ITEM 2. CODE OF ETHICS.

As of December 31, 2003, the Fund has adopted a code of ethics, as defined in Item 2 of Form N-CSR, that applies to its Principal Executive Officer, Principal Financial Officer/Chief Financial Officer, Principal Accounting Officer, Vice President, Treasurer and Manager of Accounting and Finance. The code of ethics is posted on the Fund's web site at www.newamerica-hyb.com.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The Fund's Audit and Nominating Committee is comprised solely of Directors who are "independent" as such term has been defined by the Securities and Exchange Commission in regulations implementing Section 407 of the Sarbanes-Oxley Act. The Board of Directors (a) has determined that each member of the Audit and Nominating Committee is "financially literate" and has "accounting or related financial management experience" as these terms are used in the corporate governance standards of the New York Stock Exchange and (b) believes that each has substantial experience relating to the review of financial statements and the operations of audit committees. In addition, the Board of Directors has determined that based upon their review of her experience and education, Ms. Piret qualifies as an "audit committee financial expert", as that term has been defined by the instructions to this Item.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

AUDIT FEES. For fiscal 2004 and 2003, the aggregate fees billed by KPMG LLP ("KPMG"), the Fund's independent public accountants, for audit of the Fund's annual financial statements, review of the semi-annual financial statements and assistance in connection with the Fund's filing of the registration statements totaled \$50,000 and \$96,000, respectively.

AUDIT-RELATED FEES. KPMG billed \$15,000 and \$31,500 for fiscal 2004 and 2003, respectively, for assurance and related services that are reasonably related to the performance of the audit and review of the Fund's financial statements, including quarterly agreed upon procedures related to requirements of the Fund's articles supplementary.

TAX FEES. During fiscal 2004, KPMG's fees for its professional services related to preparation of the Fund's federal and state tax returns, review of excise distributions, and testing of quarterly asset diversification totaled \$7,250. During fiscal 2003, KPMG's fees for its professional services related to preparation of the Fund's federal and state tax returns, review of excise distributions, and testing of quarterly asset diversification totaled \$7,000.

ALL OTHER FEES. KPMG did not provide any other services to the Fund in 2004 or 2003 other than those listed above.

NON-AUDIT FEES. KPMG did not provide any other services to the Fund in

Edgar Filing: NEW AMERICA HIGH INCOME FUND INC - Form N-CSR

2004 or 2003 other than those listed above. KPMG's fees for non-audit services in fiscal 2004 billed to T. Rowe Price Group, Inc. ("Price Group") and its subsidiaries totaled approximately \$418,600. KPMG's fees for non-audit services in fiscal 2003 billed to Price Group totaled \$257,500, other than fees billed for professional services rendered for the audit of the annual financial statements and the reviews of the financial statements included in Forms 10-Q. The Committee has considered and determined that the performance by KPMG of non-audit services to Price Group and its subsidiaries is compatible with maintaining that firm's independence in connection with serving as the Fund's independent public accountants.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

The Fund has a separately-designated standing audit committee, the Audit and Nominating Committee, established by and amongst the Fund's Board of Directors for the purpose of overseeing the accounting and financial reporting processes of the Fund and audits of the Fund's financial statements. The Audit and Nominating Committee consists of the Fund's Directors who are not "interested persons" of the Fund within the meaning of the Investment Company Act of 1940, as amended (the "1940 Act") - Joseph L. Bower, Bernard J. Korman, Ernest E. Monrad, and Marguerite A. Piret.

ITEM 6.

This schedule is included as part of the report to shareholders filed under Item 1 of this Form.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

PROXY VOTING POLICIES AND PROCEDURES

At its June 26, 2003 meeting, the Fund's Board of Directors authorized and directed T. Rowe Price, the Fund's investment adviser, to vote proxies relating to the Fund's portfolio securities in accordance with T. Rowe Price's proxy voting policies and procedures. T. Rowe Price, as an investment adviser with a fiduciary responsibility to the Fund, analyzes the proxy statements of issuers whose stock is owned by the Fund, if any.

PROXY ADMINISTRATION. The T. Rowe Price Proxy Committee develops T. Rowe Price's positions on all major corporate issues, creates guidelines, and oversees the voting process. The Proxy Committee, composed of portfolio managers, investment operations managers, and internal legal counsel, analyzes proxy policies based on whether they would adversely affect stockholders' interests and make a company less attractive to own. In evaluating proxy policies each year, the Proxy Committee relies upon its own fundamental research, independent research provided by third parties, and information presented by company managements and stockholder groups.

Once the Proxy Committee establishes its recommendations, they are distributed to the firm's portfolio managers as voting guidelines. Ultimately, the portfolio manager votes on the proxy proposals of companies in his or her portfolio. When portfolio managers cast votes that are counter to the Proxy Committee's guidelines, they are required to document their reasons in

2

writing to the Proxy Committee. Annually, the Proxy Committee reviews T. Rowe Price's proxy voting process, policies, and voting records.

T. Rowe Price has retained Institutional Shareholder Services ("ISS"), an

Edgar Filing: NEW AMERICA HIGH INCOME FUND INC - Form N-CSR

expert in the proxy voting and corporate governance area, to provide proxy advisory and voting services. These services include in-depth research, analysis, and voting recommendations as well as vote execution, reporting, auditing and consulting assistance for the handling of proxy voting responsibility and corporate governance-related efforts. While the Proxy Committee relies upon ISS research in establishing T. Rowe Price's voting guidelines--many of which are consistent with ISS positions--T. Rowe Price may deviate from ISS recommendations on general policy issues or specific proxy proposals.

FIDUCIARY CONSIDERATIONS. T. Rowe Price's decisions with respect to proxy issues are made in light of the anticipated impact of the issue on the desirability of investing in the portfolio company. Proxies are voted solely in the interests of the Fund or Fund stockholders. Practicalities involved with international investing may make it impossible at times, and at other times disadvantageous, to vote proxies in every instance.

CONSIDERATION GIVEN MANAGEMENT RECOMMENDATIONS. When determining whether to invest in a particular company, one of the key factors T. Rowe Price considers is the quality and depth of its management. As a result, T. Rowe Price believes that recommendations of management on most issues should be given weight in determining how proxy issues should be voted.

T. ROWE PRICE VOTING POLICIES. Specific voting guidelines have been established by the Proxy Committee for recurring issues that appear on proxies. The following is a summary of the more significant T. Rowe Price policies:

- ELECTION OF DIRECTORS. T. Rowe Price generally supports slates with a majority of independent directors and nominating committees chaired by an independent board member. T. Rowe Price withholds votes for inside directors serving on compensation and audit committees and for directors who miss more than one-fourth of the scheduled board meetings.
- EXECUTIVE COMPENSATION. T. Rowe Price's goal is to assure that a company's equity-based compensation plan is aligned with stockholders' long-term interests. While it evaluates most plans on a case-by-case basis, T. Rowe Price generally opposes compensation packages that provide what it views as excessive awards to a few senior executives or that contain excessively dilutive stock option plans. T. Rowe Price bases its review on criteria such as the costs associated with the plan, plan features, dilution to stockholders and comparability to plans in the company's peer group. T. Rowe Price generally opposes plans that give a company the ability to reprice options.
- ANTI-TAKEOVER AND CORPORATE GOVERNANCE ISSUES. T. Rowe Price generally opposes anti-takeover measures and other proposals designed to limit the ability of stockholders to act on possible transactions. When voting on

3

corporate governance proposals, T. Rowe Price will consider the dilutive impact to stockholders and the effect on stockholder rights.

- SOCIAL AND CORPORATE RESPONSIBILITY ISSUES. T. Rowe Price generally votes with a company's management on social issues unless they have substantial economic implications for the company's business and operations that have not been adequately addressed by management.

MONITORING AND RESOLVING CONFLICTS OF INTEREST. The Proxy Committee is also

Edgar Filing: NEW AMERICA HIGH INCOME FUND INC - Form N-CSR

responsible for monitoring and resolving possible material conflicts between the interests of T. Rowe Price and those of its clients with respect to proxy voting. Because T. Rowe Price's voting guidelines are pre-determined by the Proxy Committee using recommendations from ISS, an independent third party, application of the T. Rowe Price guidelines to vote clients' proxies should in most instances adequately address any possible conflicts of interest. However, for proxy votes inconsistent with T. Rowe Price guidelines, the Proxy Committee reviews all such proxy votes in order to determine whether the portfolio manager's voting rationale appears reasonable. The Proxy Committee also assesses whether any business or other relationships between T. Rowe Price and a portfolio company could have influenced an inconsistent vote on that company's proxy. Issues raising possible conflicts of interest are referred to designated members of the Proxy Committee for immediate resolution.

ITEM 8.

Not applicable.

ITEM 9. PURCHASE OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

Not applicable.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

Not applicable.

ITEM 11. CONTROLS AND PROCEDURES.

(a) The Fund's principal executive officer and principal financial officer concluded that the Fund disclosure controls and procedures (as defined in Rule 30a-3(c) under the 1940 Act) provide reasonable assurances that information required to be disclosed by the Fund on Form N-CSR is recorded, processed, summarized and reported within the required time periods and that information required to be disclosed by the Fund in the reports that it files or submits on Form N-CSR is accumulated and communicated to the Fund's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure, based on their evaluation of the disclosure controls and procedures as of a date within 90 days of the filing date of this report.

(b) There was no change in the Fund's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act) that occurred during the Fund's second fiscal quarter of the period that has materially affected, or is reasonably likely to materially affect, the Fund's internal control over financial reporting.

ITEM 12. EXHIBITS.

(a) (1) The code of ethics referenced in Item 2.

4

(a) (2) The certifications required by Rule 30a-2(a) under the 1940 Act.

(a) (3) Not applicable.

(b) The certifications required by Rule 30a-2(b) under the 1940 Act.
