Quorum. Representation of at least 33¹/₃% of all outstanding ordinary shares of the company is required to constitute a quorum. Accordingly, it is important that your shares be represented at the 2012 annual general meeting.

Proxies. A shareholder entitled to attend and vote at the 2012 annual general meeting is entitled to appoint a proxy to attend and vote on his or her behalf. A proxy need not also be a shareholder. **Whether or not you plan to attend the meeting, please complete, date and sign the enclosed proxy card and return it in the enclosed envelope.** A proxy card must be received by Vote Processing, c/o Broadridge, 51 Mercedes Way, Edgewood, NY 11717 not less than 48 hours before the time appointed for holding the 2012 annual general meeting. Availability of Proxy Materials on the Internet. We are pleased to take advantage of Securities and Exchange Commission rules that allow issuers to furnish proxy materials to some or all of their shareholders on the Internet. In accordance with Singapore law, our registered shareholders (shareholders who own our ordinary shares in their own name through our transfer agent, Computershare Investor Services, LLC) will not be able to vote their shares over the Internet, but we will be providing this service to our beneficial holders (shareholders whose ordinary shares are held by a brokerage firm, a bank or other nominee). We believe these rules will allow us to provide our shareholders with the information they need, while lowering the costs of delivery and reducing the environmental impact of our annual general meeting of shareholders.

NOTICE OF EXTRAORDINARY GENERAL MEETING OF SHAREHOLDERS

To Be Held on August 30, 2012

To our Shareholders:

You are cordially invited to attend, and NOTICE IS HEREBY GIVEN, of an extraordinary general meeting of shareholders of FLEXTRONICS INTERNATIONAL LTD. ("Flextronics" or the "Company"), which will be held at our U.S. corporate offices located at 6201 America Center Drive, San Jose, CA 95002, U.S.A., on August 30, 2012 at 10:00 a.m., California time, or immediately following the conclusion or adjournment of our 2012 annual general meeting of shareholders (which is being held at 9:00 a.m., California time on the same day and at the same place). The extraordinary general meeting of shareholders is being held for the purpose of approving a renewal of the Share Purchase Mandate permitting Flextronics to purchase or otherwise acquire its own issued ordinary shares.

We are asking our shareholders to approve this renewal of the Share Purchase Mandate at the extraordinary general meeting in order to provide the Company with additional flexibility in the number of shares that it may repurchase pursuant to the Share Purchase Mandate.

In accordance with the provisions of the Singapore Companies Act, Cap. 50, the Share Purchase Mandate generally permits us to purchase up to an aggregate of 10% of the total number of our issued ordinary shares, calculated based on the greater of the total number of issued ordinary shares outstanding as of (x) the date of our last annual general meeting of shareholders and (y) the date on which the Share Purchase Mandate renewal is approved. All shares purchased by us following the date of our last annual general meeting of shareholders (that is, the annual general meeting that *precedes* the meeting at which the mandate is renewed) are subject to this 10% limitation. For example, if we sought approval for the renewal of the Share Purchase Mandate at our 2012 annual general meeting of shareholders, we would have to reduce the number of new shares that we could repurchase by the number of shares purchased by us at any time after the date of our 2011 annual general meeting. By holding an extraordinary general meeting after our 2012 annual general meeting for the purpose of approving the renewal of the Share Purchase Mandate, the applicable date of our last annual general meeting of shareholders will be the date of the 2012 annual general meeting (rather than the date of the 2011 annual general meeting) and we will not need to reduce the number of shares that we can repurchase by any shares repurchased between the 2011 and 2012 annual general meetings. For additional information on this proposal, please refer to the joint proxy statement accompanying this notice.

The full text of the resolution proposed for approval by our shareholders is as follows:

1. To pass the following resolution as an Ordinary Resolution:

"RESOLVED THAT:

- (a) for the purposes of Sections 76C and 76E of the Singapore Companies Act, Cap. 50, the exercise by our Directors of all of our powers to

Table of Contents

- (i) purchase or otherwise acquire issued ordinary shares in the capital of the company not exceeding in the aggregate the number of issued ordinary shares representing 10% of the total number of issued ordinary shares outstanding as of the date of the passing of this Resolution (excluding any ordinary shares which are held as treasury shares as at that date); or
- (ii) in the event that the Singapore Minister for Finance prescribes by notification such higher percentage in excess of 10% pursuant to Section 76B(3) of the Singapore Companies Act, Cap. 50, purchase or otherwise acquire issued ordinary shares in the capital of the company not exceeding in the aggregate the number of issued ordinary shares representing the percentage that is equivalent to the higher of:
 - (1) where the Singapore Minister for Finance prescribes by notification a percentage equivalent to or in excess of 20%, 20%; or
 - (2) any other percentage that is lower than the percentage specified in sub-paragraph (1) above (but exceeds 10%) as prescribed by the Singapore Minister for Finance,of the total number of issued ordinary shares outstanding as of the date of the passing of this Resolution (excluding any ordinary shares which are held as treasury shares as at that date), at such price or prices as may be determined by our Directors from time to time up to the maximum purchase price described in paragraph (c) below, whether by way of:
 - (i) market purchases on the NASDAQ Global Select Market or any other stock exchange on which our ordinary shares may for the time being be listed and quoted; and/or
 - (ii) off-market purchases (if effected other than on the NASDAQ Global Select Market or, as the case may be, any other stock exchange on which our ordinary shares may for the time being be listed and quoted) in accordance with any equal access scheme(s) as may be determined or formulated by our Directors as they consider fit, which scheme(s) shall satisfy all the conditions prescribed by the Singapore Companies Act, Cap. 50, and otherwise in accordance with all other laws and regulations and rules of the NASDAQ Global Select Market or, as the case may be, any other stock exchange on which our ordinary shares may for the time being be listed and quoted as may for the time being be applicable, be and is hereby authorized and approved generally and unconditionally;
- (b) unless varied or revoked by our shareholders in a general meeting, the authority conferred on our Directors pursuant to the mandate contained in paragraph (a) above may be exercised by our Directors at any time and from time to time during the period commencing from the date of the passing of this resolution and expiring on the earlier of:
 - (i) the date on which our next annual general meeting is held; or
 - (ii) the date by which our next annual general meeting is required by law to be held;
- (c) the maximum purchase price (excluding brokerage commission, applicable goods and services tax and other related expenses) which may be paid for an ordinary share purchased or acquired by us pursuant to the mandate contained in paragraph (a) above, shall not exceed:
 - (i) in the case of a market purchase of an ordinary share, the highest independent bid or the last independent transaction price, whichever is higher, of our ordinary shares quoted or reported on the NASDAQ Global Select Market or, as the case may be, any other stock exchange on which our ordinary shares may for the time being be listed and quoted, or shall not exceed any volume weighted average price, or other price determined under any pricing mechanism, permitted under SEC Rule 10b-18, at the time the purchase is effected; and

- (ii) in the case of an off-market purchase pursuant to an equal access scheme, 150% of the Prior Day Close Price, which means the closing price of our ordinary shares as quoted on the NASDAQ Global Select Market or, as the case may be, any other stock exchange on which our ordinary shares may for the time being be listed and quoted, on the day immediately preceding the date on which we announce our intention to make an offer for the purchase or acquisition of our ordinary shares from holders of our ordinary shares, stating therein the purchase price (which shall not be more than the maximum purchase price calculated on the foregoing basis) for each ordinary share and the relevant terms of the equal access scheme for effecting the off-market purchase; and
- (d) our Directors and/or any of them be and are hereby authorized to complete and do all such acts and things (including executing such documents as may be required) as they and/or he may consider expedient or necessary to give effect to the transactions contemplated and/or authorized by this resolution."

2. To transact any other business which may properly be put before the extraordinary general meeting.

Notes

Eligibility to Vote at Extraordinary General Meeting; Receipt of Notice. The Board of Directors has fixed the close of business on July 2, 2012 as the record date for determining those shareholders of the company who will be entitled to receive copies of this notice and accompanying joint proxy statement. However, all shareholders of record on August 30, 2012, the date of the extraordinary general meeting, will be entitled to vote at the extraordinary general meeting.

Quorum. Representation of at least 33¹/₃% of all outstanding ordinary shares of the company is required to constitute a quorum. Accordingly, it is important that your shares be represented at the extraordinary general meeting.

Proxies. A shareholder entitled to attend and vote at the extraordinary general meeting is entitled to appoint a proxy to attend and vote on his or her behalf. A proxy need not also be a shareholder. **Whether or not you plan to attend the meeting, please complete, date and sign the enclosed proxy card and return it in the enclosed envelope.** A proxy card must be received by Vote Processing, c/o Broadridge, 51 Mercedes Way, Edgewood, NY 11717 not less than 48 hours before the time appointed for holding the extraordinary general meeting. You may revoke your proxy at any time prior to the time it is voted. Shareholders who are present at the meeting may revoke their proxies and vote in person or, if they prefer, may abstain from voting in person and allow their proxies to be voted.

Availability of Proxy Materials on the Internet. We are pleased to take advantage of Securities and Exchange Commission rules that allow issuers to furnish proxy materials to some or all of their shareholders on the Internet. In accordance with Singapore law, our registered shareholders (shareholders who own our ordinary shares in their own name through our transfer agent, Computershare Investor Services, LLC) will not be able to vote their shares over the Internet, but we will be providing this service to our beneficial holders (shareholders whose ordinary shares are held by a brokerage firm, a bank or other nominee). We believe these rules will allow us to provide our shareholders with the information they need, while lowering the costs of delivery and reducing the environmental impact of our extraordinary general meeting of shareholders.

Disclosure Regarding Share Purchase Mandate Funds. Only funds legally available for purchasing or acquiring our issued ordinary shares in accordance with our Articles of Association and the applicable laws of Singapore will be used for the purchase or acquisition by us of our own issued ordinary shares pursuant to the proposed renewal of the Share Purchase Mandate referred to in this notice. We intend to use our internal sources of funds and/or borrowed funds to finance the purchase

Table of Contents

or acquisition of our issued ordinary shares. The amount of financing required for us to purchase or acquire our issued ordinary shares, and the impact on our financial position, cannot be ascertained as of the date of this notice, as these will depend on the number of ordinary shares purchased or acquired and the price at which such ordinary shares are purchased or acquired and whether the ordinary shares purchased or acquired are held in treasury or cancelled. Our net tangible assets and the consolidated net tangible assets of the company and its subsidiaries will be reduced by the purchase price of any ordinary shares purchased or acquired and cancelled. We do not anticipate that the purchase or acquisition of our ordinary shares in accordance with the Share Purchase Mandate would have a material impact on our financial condition and cash flows.

Bernard Liew Jin Yang

PART I INFORMATION ABOUT THE MEETINGS

We are furnishing this joint proxy statement in connection with the solicitation by our Board of Directors of proxies to be voted at the 2012 annual general meeting of our shareholders and an extraordinary general meeting of our shareholders, or at any adjournments thereof, for the purposes set forth in the notices of annual general meeting and extraordinary general meeting that accompany this joint proxy statement. Unless the context requires otherwise, references in this joint proxy statement to "the company," "we," "us," "our" and similar terms mean Flextronics International Ltd. and its subsidiaries.

Proxy Mailing. This joint proxy statement and the enclosed proxy cards were first mailed on or about July 13, 2012 to shareholders of record as of July 2, 2012.

Costs of Solicitation. The entire cost of soliciting proxies will be borne by us. Following the original mailing of the proxies and other soliciting materials, our directors, officers and employees may also solicit proxies by mail, telephone, e-mail, fax or in person. These directors, officers and employees will not receive additional compensation for those activities, but they may be reimbursed for any reasonable out-of-pocket expenses. Following the original mailing of the proxies and other soliciting materials, we will request that brokers, custodians, nominees and other record holders of our ordinary shares forward copies of the proxy and other soliciting materials to persons for whom they hold ordinary shares and request authority for the exercise of proxies. In these cases, we will reimburse such holders for their reasonable expenses if they ask that we do so. We have retained Georgeson Inc., an independent proxy solicitation firm, to assist in soliciting proxies at an estimated fee of \$8,000, plus reimbursement of reasonable expenses.

Registered Office. The mailing address of our registered office is No. 2 Changi South Lane, Singapore 486123.

Table of Contents

VOTING RIGHTS AND SOLICITATION OF PROXIES

The close of business on July 2, 2012 is the record date for shareholders entitled to notice of our 2012 annual general meeting and the extraordinary general meeting. All of the ordinary shares issued and outstanding on August 30, 2012, the date of both the annual general meeting and the extraordinary general meeting, are entitled to be voted at each of the annual general meeting and the extraordinary general meeting, and shareholders of record on August 30, 2012 and entitled to vote at each such meeting will, on a poll, have one vote for each ordinary share so held on the matters to be voted upon. As of July 2, 2012, we had 665,215,394 ordinary shares issued and outstanding.

Proxies. Ordinary shares represented by proxies in the forms accompanying this joint proxy statement that are properly executed and returned to us will be voted at the 2012 annual general meeting and the extraordinary general meeting, as applicable, in accordance with our shareholders' instructions.

If your ordinary shares are held through a broker, a bank, or other nominee, which is sometimes referred to as holding shares in "street name", you have the right to instruct your broker, bank or other nominee on how to vote the shares in your account. Your broker, bank or other nominee will send you a voting instruction form for you to use to direct how your shares should be voted.

Quorum and Required Vote. Representation at each of the 2012 annual general meeting and the extraordinary general meeting of at least 33 $\frac{1}{3}$ % of all of our issued and outstanding ordinary shares is required to constitute a quorum to transact business at each meeting.

The affirmative vote by a show of hands of at least a majority of the shareholders present and voting, or, if a poll is demanded by the chair or by holders of at least 10% of the total number of our paid-up shares in accordance with our Articles of Association, a simple majority of the shares voting, is required (i) at the 2012 annual general meeting, to re-elect the directors nominated pursuant to Proposal Nos. 1 and 2, to re-appoint Deloitte & Touche LLP as our independent auditors pursuant to Proposal No. 3, to approve the ordinary resolution contained in Proposal No. 4, and to approve the non-binding, advisory resolution contained in Proposal No. 5 and (ii) at the extraordinary general meeting, to approve the ordinary resolution to approve the renewal of the Share Purchase Mandate. Consistent with the company's historical practice, the chair of each of the 2012 annual general meeting and the extraordinary general meeting will demand a poll in order to enable the ordinary shares represented in person or by proxy to be counted for voting purposes.

Under the Singapore Companies Act, where there is a contested election, a nominee must oppose a specific Board nominated nominee for a vacant Board seat, and in such case, only the candidate receiving the greater number of affirmative votes and which represents a simple majority of affirmative votes of shareholders present and voting on the matter will be elected.

Abstentions and Broker Non-Votes. Abstentions and "broker non-votes" are considered present and entitled to vote at each of the 2012 annual general meeting and the extraordinary general meeting for purposes of determining a quorum. A "broker non-vote" occurs when a broker, a bank or other nominee who holds shares for a beneficial owner does not vote on a particular proposal because the broker, bank or other nominee has not received directions from the beneficial owner and does not have discretionary power to vote on that particular proposal. If a broker, bank or other nominee indicates on the proxy card that it does not have discretionary authority to vote as to a particular matter, those shares, along with any abstentions, will not be counted in the tabulation of the votes cast on the proposal being presented to shareholders.

If you are a beneficial owner, your broker, bank or other nominee has authority to vote your shares for or against the re-appointment of our independent auditors and for or against the approval of the general authorization for our directors to allot and issue ordinary shares, even if the broker does

Table of Contents

not receive voting instructions from you. Your broker, bank or other nominee, however, does not have the discretion to vote your shares on any other proposals included in this joint proxy statement without receiving voting instructions from you. **It is very important that you instruct your broker, bank or other nominee how to vote on these proposals.** If you do not complete the voting instructions, your shares will not be considered in the election of directors or any other proposal included in this joint proxy statement other than the re-appointment of our independent auditors and the approval of the general authorization for our directors to allot and issue ordinary shares.

If you are a registered shareholder, in the absence of contrary instructions, shares represented by proxies submitted by you will be voted (i) at the 2012 annual general meeting: "FOR" the Board nominees in Proposal Nos. 1 and 2 and "FOR" Proposal Nos. 3 through 5; and (ii) at the extraordinary general meeting: "FOR" the proposal to approve the Share Purchase Mandate. Our management does not know of any matters to be presented at the 2012 annual general meeting or the extraordinary general meeting other than those set forth in this joint proxy statement and in the notices accompanying this joint proxy statement. If other matters should properly be put before either of the meetings, the proxy holders will vote on such matters in accordance with their best judgment.

Any shareholder of record has the right to revoke his or her proxy at any time prior to voting at the 2012 annual general meeting or the extraordinary general meeting by:

submitting a subsequently dated proxy; or

by attending the meeting and voting in person.

If you are a beneficial holder who holds your ordinary shares through a broker, a bank or other nominee and you wish to change or revoke your voting instructions, you will need to contact the broker, the bank or other nominee who holds your shares and follow their instructions. If you are a beneficial holder and not the shareholder of record, you may not vote your shares in person at the 2012 annual general meeting or extraordinary general meeting unless you obtain a legal proxy from the record holder giving you the right to vote the shares.

**PART II PROPOSALS TO BE CONSIDERED AT THE
2012 ANNUAL GENERAL MEETING OF SHAREHOLDERS**

**PROPOSAL NOS. 1 AND 2:
RE-ELECTION OF DIRECTORS**

Article 95 of our Articles of Association requires that at each annual general meeting one-third of the directors (or, if their number is not a multiple of three, then the number nearest to but not more than one-third of the directors), are required to retire from office. The directors required to retire in each year are those who have been in office the longest since their last re-election or appointment. As between persons who became or were last re-elected directors on the same day, those required to retire are (unless they otherwise agree among themselves) determined by lot. Under Article 91 of our Articles of Association, any director holding office as a Chief Executive Officer shall not be subject to retirement by rotation, unless the Board of Directors determines otherwise, or be taken into account in determining the number of directors required to retire by rotation. As a result, Mr. McNamara, our Chief Executive Officer and one of our directors, is not subject to retirement by rotation or taken into account in determining the number of directors required to retire by rotation. Under Article 101 of our Articles of Association, any director appointed by the Board to fill a vacancy or as an additional director shall not be taken into account in determining the number of directors required to retire by rotation. As a result, Mr. Lay Koon Tan, who was appointed as an additional director by our Board in accordance with Article 101 of our Articles of Association, is not taken into account in determining the number of directors required to retire by rotation.

Retiring directors are eligible for re-election. Messrs. James A. Davidson and William D. Watkins are the members of our Board of Directors who will retire by rotation at our 2012 annual general meeting. Messrs. Davidson and Watkins are eligible for re-election and have been nominated to stand for re-election at the 2012 annual general meeting. If either Mr. Davidson or Mr. Watkins fails to receive the affirmative vote of a majority of the shares present and voting on the resolution to approve his re-election (that is, if the number of shares voted "FOR" the director nominee does *not* exceed the number of votes cast "AGAINST" that nominee), he will not be re-elected to the Board and the number of incumbent Directors comprising the Board of Directors will be reduced accordingly. Abstentions, if any, will have no effect.

On March 13, 2012, Mr. Lip-Bu Tan announced that he would resign from his position as a director at our 2012 annual general meeting. The Singapore Companies Act, Cap. 50, which we refer to in this joint proxy statement as the Companies Act, requires that we must have at all times at least one director ordinarily resident in Singapore. At the time that Mr. Lip-Bu Tan announced his resignation, he was the only member of our board of directors who was ordinarily resident in Singapore. On March 13, 2012, Mr. Lay Koon Tan was appointed as a director by the Board pursuant to Article 101 of our Articles of Association. Mr. Lay Koon Tan is also ordinarily resident in Singapore. Article 101 of our Articles of Association provides that any person appointed as a director by the Board shall hold office only until the next annual general meeting and then shall be eligible for re-election. In accordance with Article 101 of our Articles of Association, Mr. Lay Koon Tan is eligible for re-election and has been nominated to stand for re-election at the 2012 annual general meeting. As Mr. Lay Koon Tan will be the only member of our Board of Directors who is ordinarily resident in Singapore after the effectiveness of Mr. Lip-Bu Tan's resignation, any purported vacation of Mr. Lay Koon Tan's office at the 2012 annual general meeting shall be deemed to be invalid absent a prior appointment of another director to the Board who is ordinarily resident in Singapore.

The proxy holders intend to vote all proxies received by them in the accompanying form of proxy card for the nominees for directors listed below under "Nominees to our Board of Directors." In the event that any nominee is unable or declines to serve as a director at the time of the 2012 annual general meeting, the proxies will be voted for any nominee who shall be designated by the present

Table of Contents

Board of Directors of the company, in accordance with Article 100 of our Articles of Association, to fill the vacancy.

As of the date of this joint proxy statement, our Board of Directors is not aware of any nominee who is unable or will decline to serve as a director.

Board of Directors

Our Articles of Association give our Board of Directors general powers to manage our business. The Board oversees and provides policy guidance on our strategic and business planning processes, oversees the conduct of our business by senior management and is principally responsible for the succession planning for our key executives, including our Chief Executive Officer.

Our Board of Directors held a total of seven meetings during fiscal year 2012. During the period for which each current director was a director or a committee member, each director attended at least 75% of the aggregate of the total number of meetings of our Board in fiscal 2012 together with the total number of meetings held by all committees of our Board on which he served. During fiscal year 2012, our non-employee directors met at regularly scheduled executive sessions without management participation.

Our Board has adopted a policy that encourages each director to attend the annual general meeting, but attendance is not required. Messrs. McNamara and Davidson attended the company's 2011 annual general meeting in person, and Messrs. Bingham, Edwards and Schulman and Dr. Shih participated by teleconference.

Director Independence

To assist our Board of Directors in determining the independence of our directors, the Board has adopted Director Independence Guidelines that incorporate the definition of "independence" adopted by The NASDAQ Stock Market LLC, which we refer to as Nasdaq in this joint proxy statement. Our Board has determined that each of the company's directors, other than Mr. McNamara, is an

Table of Contents

independent director as defined by the applicable rules of Nasdaq and our Director Independence Guidelines. Under the Nasdaq definition and our Director Independence Guidelines, a director is independent only if the Board determines that the director does not have any relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. In addition, under the Nasdaq definition and our Director Independence Guidelines, a director will not be independent if the director has certain disqualifying relationships. In evaluating independence, the Board broadly considers all relevant facts and circumstances. Our Director Independence Guidelines are included in our Guidelines with Regard to Certain Governance Matters, a copy of which is available on the Corporate Governance page of our website at www.flextronics.com.

In evaluating the independence of our independent directors, the Board considered certain transactions, relationships and arrangements between us and various third parties with which certain of our independent directors are affiliated, and determined that such transactions, relationships and arrangements did not interfere with such directors' exercise of independent judgment in carrying out their responsibilities as directors. These transactions, relationships and arrangements were as follows:

Mr. H. Raymond Bingham, the Chairman of our Board of Directors, is (i) a non-management director and less than 1% beneficial owner of each of Spansion Inc. and STMicroelectronics N.V., each of which was a supplier of our company during the most recent fiscal year and (ii) a non-management director and less than 1% beneficial owner of Oracle Corporation, which was a customer and supplier of our company during the most recent fiscal year. Sales to or purchases from each of these organizations were made in the ordinary course of business, on commercial terms and on an arms'-length basis and amounted to less than the greater of \$1,000,000 or 2% of the recipient company's gross revenues during the most recent fiscal year, except that purchases from STMicroelectronics accounted for approximately 2% of the gross revenues of STMicroelectronics during the most recent fiscal year. Mr. Bingham had no role in the decision-making with respect to such transactions.

Mr. James A. Davidson, a member of our Board of Directors, is a Co-founder, Managing Partner and Managing Director of Silver Lake Partners, a private equity investment firm, and in connection with his position with Silver Lake, Mr. Davidson is a non-management director and/or an indirect beneficial owner of certain portfolio companies of affiliated funds of Silver Lake, which are customers and/or suppliers of our company. Mr. Davidson is also a director of Virtual Instruments Corporation, which is a supplier of our company. Sales to or purchases from each of these organizations were made in the ordinary course of business, on commercial terms and on an arms'-length basis and amounted to less than the greater of \$1,000,000 or 2% of the recipient company's gross revenues during the most recent fiscal year, except that purchases from Avago Technologies Limited accounted for approximately 6.8% of the gross revenues of Avago during the most recent fiscal year, purchases from Power-One, Inc. accounted for approximately 2% of the gross revenues of Power One during the most recent fiscal year and purchases from SMART Modular Technologies (WWH), Inc. accounted for approximately 23.9% of the gross revenues of SMART Modular Technologies during the most recent fiscal year. Our company's relationship with SMART Modular Technologies preceded its acquisition by Silver Lake, and substantially all of the purchases from SMART Modular Technologies were made at the direction of certain of our customers. Mr. Davidson had no role in the decision-making with respect to such transactions.

Mr. Lip-Bu Tan, a member of our Board of Directors who is retiring from the Board effective immediately after the 2012 Annual Meeting, is the CEO, president and director of Cadence Design Systems, which is one of our customers and suppliers and a non-management director of Aptina Imaging Corp., which is one of our suppliers. He is also the founder and Chairman of Walden International, a venture capital fund. In connection with his position as Chairman of Walden International, Mr. Tan is a non-management director/observer and/or an indirect

beneficial owner of certain portfolio companies of Walden International, which are customers and/or suppliers of our company. Sales to or purchases from each of these organizations were made in the ordinary course of business, on commercial terms and on an arms'-length basis and amounted to less than the greater of \$1,000,000 or 2% of the recipient company's gross revenues during the most recent fiscal year, except that purchases from Aptina Imaging Corp. accounted for approximately 4.5% of the gross revenues for Aptina during the most recent fiscal year, purchases from Inphi Corporation accounted for approximately 3.6% of the gross revenue of Inphi during the most recent fiscal year, purchases from Multiplex, Inc. accounted for approximately 10.1% of the gross revenues for Multiplex during the most recent fiscal year and purchases from SolarEdge Technologies Inc. accounted for approximately 43.7% of the gross revenues for SolarEdge during the most recent fiscal year. Substantially all of the purchases from Aptina, Multiplex and SolarEdge were made at the direction of certain of our customers. Mr. Tan had no role in the decision-making with respect to such transactions, other than his role as CEO, president and director of Cadence Design Systems with respect to transactions with that organization.

Mr. William D. Watkins, a member of our Board of Directors, is (i) a non-management director and less than 1% beneficial owner of Maxim Integrated Products, Inc., which is a supplier of our company, and (ii) the CEO of Bridgelux, Inc., which is one of our customers. Purchases from Maxim were made in the ordinary course of business, on commercial terms and on an arms'-length basis and accounted for approximately 2.7% of the gross revenues for Maxim during the most recent fiscal year. Sales to Bridgelux, Inc. were made in the ordinary course of business, on commercial terms and on an arms'-length basis and amounted to less than the greater of \$1,000,000 or 2% of our gross revenues during the most recent fiscal year. Mr. Watkins had no role in the decision-making with respect to such transactions other than his role as CEO of Bridgelux, Inc. with respect to transactions with that organization.

Board Leadership Structure and Role in Risk Oversight

Our Board of Directors currently consists of nine directors, including Mr. Lip-Bu Tan, who will resign at our 2012 annual general meeting, each of whom, other than Mr. McNamara, is independent under the company's Director Independence Guidelines and the applicable rules of Nasdaq. Mr. McNamara has served as our Chief Executive Officer, or CEO, since January 1, 2006, and as a member of our Board of Directors since October 2005. Mr. Bingham, who is an independent director, has served as our Chairman of the Board since January 2008. The Board has separated the roles of Chairman and CEO since 2003.

Our Board of Directors believes that the most effective Board leadership structure for the company at the present time is for the roles of CEO and Chairman of the Board to be separated, and for the Chairman of the Board to be an independent director. Under this structure, our CEO is generally responsible for setting the strategic direction for the company and for providing the day-to-day leadership over the company's operations, while the Chairman of the Board provides guidance to the CEO, sets the agenda for meetings of the Board and presides over Board meetings. Our Board of Directors believes that having an independent Chairman set the agenda and establish the priorities and procedures for the work of the Board provides a greater role for the independent directors in the oversight of the company, and also provides the continuity of Board leadership necessary for the Board to fulfill its responsibilities. This leadership structure is supplemented by the fact that all of our directors, other than Mr. McNamara, are independent and all of the committees of the Board are composed solely of, and chaired by, independent directors. In addition, our non-employee directors meet at regularly scheduled executive sessions without management participation. The Board retains the authority to modify this leadership structure as and when

Table of Contents

appropriate to best address the company's unique circumstances at any given time and to serve the best interests of our shareholders.

Our Board of Directors' role in risk oversight involves both the full Board of Directors and its committees. The Audit Committee is charged with the primary role in carrying out risk oversight responsibilities on behalf of the Board. Pursuant to its charter, the Audit Committee reviews the company's policies and practices with respect to risk assessment and risk management, including discussing with management the company's major risk exposures and the steps that have been taken to monitor and mitigate such exposures. The company's enterprise risk management process is designed to identify risks that could affect the company's achievement of business goals and strategies, to assess the likelihood and potential impact of significant risks to the company's business, and to prioritize risk control and mitigation. Our Chief Financial Officer, our General Counsel and our Chief Ethics and Compliance Officer periodically report on the Company's risk management policies and practices to relevant Board committees and to the full Board. The Audit Committee reviews the company's major financial risk exposures as well as major operational, compliance, reputational and strategic risks, including steps to monitor, manage and mitigate those risks. In addition, each of the other Board committees is responsible for oversight of risk management practices for categories of risks relevant to their functions. For example, the Compensation Committee has oversight responsibility for the company's overall compensation structure, including review of its compensation practices, with a view to assessing associated risk. See "*Compensation Risk Assessment*." The Board as a group is regularly updated on specific risks in the course of its review of corporate strategy, business plans and reports to the Board by its respective committees. The Board believes that its leadership structure supports its risk oversight function by providing a greater role for the independent directors in the oversight of the company.

the listing standards of the NASDAQ Global Select Market. The Board has also determined that Mr. Edwards is an "audit committee financial expert" within the meaning of the rules of the SEC and is "financially sophisticated" within the meaning of the rules of Nasdaq. The Audit Committee held six meetings during fiscal year 2012 and regularly meets in executive sessions without management present. The committee's principal functions are to:

monitor and evaluate periodic reviews of the adequacy of the accounting and financial reporting processes and systems of internal control that are conducted by our financial and senior management, and our independent auditors;

be directly responsible for the appointment, compensation and oversight of the work of our independent auditors (including resolution of any disagreements between our management and the auditors regarding financial reporting); and

facilitate communication among our independent auditors, our financial and senior management and our Board.

Our Board has adopted an Audit Committee Charter that is available on the Corporate Governance page of the Investor Relations section of our website at www.flextronics.com.

Compensation Committee

Responsibilities and Meetings

The Compensation Committee of our Board of Directors is responsible for reviewing and approving the goals and objectives relating to, and recommending to our Board the compensation of, our Chief Executive Officer and all other executive officers. The committee also oversees management's decisions concerning the performance and compensation of other officers, administers the company's equity compensation plans, reviews and recommends to our Board the compensation of our non-employee directors and regularly evaluates the effectiveness of our overall executive compensation program. The Compensation Committee is currently composed of Messrs. Davidson and Schulman and Dr. Shih, each of whom our Board has determined to be an independent director under applicable listing standards of Nasdaq. The committee held six meetings during fiscal year 2012 and regularly meets in executive sessions without management present. The specific powers and responsibilities of the Compensation Committee are set forth in more detail in the Compensation Committee Charter, which is available on the Corporate Governance page of the Investor Relations section of our website at www.flextronics.com.

Delegation of Authority

When appropriate, our Compensation Committee may form, and delegate authority to, subcommittees. In addition, in accordance with the company's equity compensation plans, the Compensation Committee's charter allows the committee to delegate to our Chief Executive Officer its authority to grant stock options to employees of the company who are not directors or executive officers. Pursuant to the Compensation Committee's Equity Compensation Grant Policy, however, all grants of equity awards (including stock options and restricted share unit awards, which we have also referred to in the past as share bonus awards) must be approved by the Board of Directors or the Compensation Committee.

Compensation Processes and Procedures

The Compensation Committee evaluates our compensation programs and makes recommendations to our Board regarding compensation to be paid or awarded to our executive officers. As part of its process, the Compensation Committee meets with our Chief Executive Officer, Chief Financial Officer, Executive Vice President, Human Resources and our Senior Vice President, Global Total Rewards and

Corporate Sustainability to obtain recommendations with respect to the structure of our compensation programs, as well as an assessment of the performance of individual executives and recommendations on compensation for individual executives. In addition, the Compensation Committee has the authority to retain and terminate any third-party compensation consultant and to obtain advice and assistance from internal and external legal, accounting and other advisors. During our 2012 fiscal year, the Compensation Committee engaged Radford, an Aon Hewitt Company (referred to in this joint proxy statement as Radford), as its independent adviser for certain executive compensation matters. Radford was retained by the Compensation Committee to provide an independent review of the company's executive compensation programs, including an analysis of both the competitive market and the design of the programs. More specifically, Radford furnished the Compensation Committee with reports on peer company practices relating to the following matters: short and long-term compensation program design; annual share utilization and shareowner dilution levels resulting from equity plans; and executive stock ownership and retention values. As part of its reports to the Compensation Committee, Radford evaluated our peer companies, and provided competitive compensation data and analysis relating to the compensation of our Chief Executive Officer and our other executives and senior officers. Radford also assisted the Compensation Committee with its risk assessment of our compensation programs.

The Compensation Committee relied on input from Radford in evaluating management's recommendations and arriving at the Compensation Committee's recommendations to the Board with respect to the elements of compensation discussed below under "**Compensation Discussion and Analysis**." The Compensation Committee expects that it will continue to retain a compensation consultant on future executive compensation matters.

The Compensation Committee also reviews and makes recommendations to our Board for the compensation of our non-employee directors. To assist the Compensation Committee in its annual review of director compensation, our management provides director compensation data compiled from the annual reports and proxy statements of companies in our peer comparison group. In addition, the Compensation Committee retained Radford to assist the committee in its review of our non-employee director compensation program. This review was conducted to establish whether the compensation paid to our non-employee directors was competitive when compared to the practices of our peer group of companies. The Compensation Committee reviewed, among other things, the existing cash compensation of our non-employee directors, the grant date fair value of restricted share unit awards, the total compensation of our non-employee Chairman of the Board and the aggregate number of our ordinary shares held by each of our non-employee directors. The Compensation Committee, with the assistance of Radford, also took into consideration compensation trends for outside directors and the implementation of our share ownership guidelines for non-employee directors. Based in part on Radford's review and analysis of the compensation practices of our peer group, our Board of Directors, upon the recommendation of the Compensation Committee, made no changes in the compensation payable to our non-employee directors and our Chairman of the Board for fiscal year 2012. The current compensation payable to our non-employee directors and our Chairman of the Board is discussed in the section below captioned "**Non-Management Directors' Compensation for Fiscal Year 2012**."

Relationship with Compensation Consultant

In addition to serving as compensation consultant to the Compensation Committee in fiscal year 2012 with respect to the compensation of our executive officers and non-employee directors, Radford and its affiliates have provided other services to our management. Radford's fees in connection with providing consulting services with respect to the compensation of our executive officers and non-employee directors in fiscal year 2012 were approximately \$105,000.

Table of Contents

Radford is a division of Aon Corporation. During our 2012 fiscal year, Aon Corporation and its affiliates, which we refer to collectively as Aon, were retained by the company to provide services unrelated to executive and director compensation matters, relating to global employee benefits services, property insurance and risk services. The decision to engage Aon for these other services was made by management. Although aware of such other services, our Compensation Committee did not review or approve such other services provided by Aon, which services were approved by management in the ordinary course of business. The aggregate fees paid for those other services in fiscal 2012 were approximately \$6,700,000.

Our Compensation Committee has determined that the provision by Aon of services unrelated to executive and director compensation matters in fiscal year 2012 were compatible with maintaining the objectivity of Radford in its role as compensation consultant to the committee and that the consulting advice it received from Radford was not influenced by Aon's other relationships with the company. The Compensation Committee is sensitive to the concern that the services provided by Aon, and the related fees, could impair the objectivity and independence of Radford, and the committee believes that it is important that objectivity be maintained. However, the committee also recognizes that the services provided by Aon are valuable to the company and that it could be inefficient and not in the company's interest to use a separate firm to provide those services at this time. In addition, the Compensation Committee has confirmed that Radford and Aon maintain appropriate safeguards to assure that the consulting services provided by Radford are not influenced by the company's business relationship with Aon. Specifically, Radford provided to the Compensation Committee an annual update on Radford and Aon Corporation's financial relationship with the company and assurances that members of Radford who perform consulting services for the Compensation Committee have a reporting relationship and compensation determined separately from Aon Corporation's other lines of business and from its other work for the company.

Compensation Committee Interlocks and Insider Participation

During our 2012 fiscal year, Messrs. Davidson and Schulman and Dr. Shih served as members of the Compensation Committee. None of our executive officers served on the Compensation Committee during our 2012 fiscal year. None of our directors has interlocking or other relationships with other boards, compensation committees or our executive officers that require disclosure under Item 407(e)(4) of Regulation S-K.

Nominating and Corporate Governance Committee

Our Nominating and Corporate Governance Committee currently is currently composed of Messrs. Bingham and Edwards and Mr. Lip-Bu Tan, each of whom our Board has determined to be an independent director under the applicable listing standards of Nasdaq. Mr. Lip-Bu Tan will resign from the Nominating and Corporate Governance Committee in connection with his resignation from the Board of Directors. The Nominating and Corporate Governance Committee held five meetings during fiscal year 2012 and regularly meets in executive sessions without management present. The committee recruits, evaluates and recommends candidates for appointment or election as members of our Board. The committee is also responsible for shaping and overseeing the application of the company's corporate governance policies and procedures, including recommending corporate governance guidelines to the Board. In addition, the committee oversees the Board's annual self-evaluation process and any Board communications with shareholders. Our Board has adopted a Nominating and Corporate Governance Committee Charter that is available on the Corporate Governance page of the Investor Relations section of our website at www.flextronics.com.

The goal of the Nominating and Corporate Governance Committee is to ensure that our Board possesses a variety of perspectives and skills derived from high-quality business and professional experience. Although the Board does not have a formal policy on diversity, the Nominating and

Table of Contents

Corporate Governance Committee seeks to achieve a balance and diversity of knowledge, experience and capability on our Board, while maintaining a sense of collegiality and cooperation that is conducive to a productive working relationship within the Board and between the Board and management. In addition, the committee seeks nominees with the highest professional and personal ethics and values, an understanding of our business and industry, a high level of education, broad-based business acumen, and the ability to think strategically. Although the committee uses these and other criteria to evaluate potential nominees, we have no stated minimum criteria for nominees.

The Nominating and Corporate Governance Committee generally recruits, evaluates and recommends nominees for our Board based upon recommendations by our directors and management. The committee will also consider recommendations submitted by our shareholders. The committee does not have different standards for evaluating nominees depending on whether they are proposed by our directors and management or by our shareholders. Shareholders can recommend qualified candidates for our Board to the Nominating and Corporate Governance Committee by submitting recommendations to our corporate secretary at Flextronics International Ltd., 2 Changi South Lane, Singapore 486123. Submissions that are received and meet the criteria outlined above will be forwarded to the Nominating and Corporate Governance Committee for review and consideration. Shareholder recommendations for our 2013 annual general meeting should be made not later than March 15, 2013 to ensure adequate time for meaningful consideration by the Nominating and Corporate Governance Committee. To date, we have not received any such recommendations from our shareholders.

Director Share Ownership Guidelines

At the recommendation of the Compensation Committee, our Board of Directors adopted share ownership guidelines for our non-employee directors in July 2009 in connection with its review of our non-employee directors' compensation. The ownership guidelines encourage our non-employees directors to hold a minimum number of our ordinary shares equivalent to \$225,000 in value. The guidelines encourage our non-employee directors to reach this goal within five years of the date that the Board approved the guidelines or the date of their election to our Board of Directors, whichever is later, and to hold at least such minimum value in shares for as long as he or she serves on our Board. All of our non-employee directors have already met the minimum requirements of the stock ownership guidelines, except Mr. Lay Koon Tan, who was appointed to the Board on March 13, 2012, has not yet served on the Board for five years and is working toward making the required investment.

NON-MANAGEMENT DIRECTORS' COMPENSATION FOR FISCAL YEAR 2012

The key objective of our non-employee directors' compensation program is to attract and retain highly qualified directors with the necessary skills, experience and character to oversee our management. By using a combination of cash and equity-based compensation, the compensation program is designed to recognize the time commitment, expertise and potential liability relating to active Board service, while aligning the interests of our Board of Directors with the long-term interests of our shareholders. In accordance with the policy of our Board of Directors, we do not pay management directors for Board service in addition to their regular employee compensation. For a discussion of the compensation paid to our only management director, Mr. McNamara, for services provided as our CEO, see the sections of this joint proxy statement entitled "*Compensation Discussion and Analysis*" and "*Executive Compensation*."

In addition to the compensation provided to our non-employee directors, which is detailed below, each non-employee director is reimbursed for any reasonable out-of-pocket expenses incurred in connection with attending in-person meetings of the Board of Directors and Board committees, as well for any fees incurred in attending continuing education courses for directors.

Fiscal Year 2012 Equity Compensation

Yearly Restricted Share Unit Awards

Under the terms of the discretionary restricted share unit grant provisions of our 2010 Equity Incentive Plan, which we refer to as the 2010 Plan, each non-employee director is eligible to receive grants of restricted share unit awards at the discretion of our Board of Directors. In accordance with the compensation program recommended by the Compensation Committee and approved by the Board, each non-employee director receives, following each annual general meeting of the company, a yearly restricted share unit award consisting of such number of shares having an aggregate fair market value of \$150,000 on the date of grant. These yearly restricted share unit awards vest in full on the date immediately prior to the date of the next year's annual general meeting. During fiscal year 2012, each non-employee director, other than Mr. Lay Koon Tan, who was not a director on the grant date, received a restricted share unit award covering 21,398 ordinary shares under this program.

Initial Awards

Upon initially becoming a director of the company, each non-employee director receives a pro-rated share of the yearly restricted share unit award granted to our directors, which is discussed above. The pro-rated award vests on the date immediately prior to the date of our next annual general meeting and is based on the amount of time that the director serves on the Board until such date. Mr. Lay Koon Tan received a restricted share unit award covering 8,951 ordinary shares under this program in fiscal year 2012.

Discretionary Grants

Under the terms of the discretionary option grant provisions of the 2010 Plan, non-employee directors are eligible to receive stock options granted at the discretion of the Compensation Committee. No director received stock options pursuant to the discretionary grant program during fiscal year 2012.

Compensation for the Non-Employee Chairman of the Board

Our non-executive Chairman is entitled to receive, following each annual general meeting of the company, (i) the \$100,000 in additional annual cash compensation described above, payable quarterly in arrears, and (ii) an additional yearly restricted share unit award that consists of such number of shares having an aggregate fair market value of \$100,000 on the date of grant, which vests on the date immediately prior to the date of the next year's annual general meeting. Following the 2011 annual general meeting, our non-executive Chairman of the Board received a restricted share unit award covering 14,265 ordinary shares under the equity portion of this program. Our Chairman of the Board is also eligible to receive all other compensation payable to our non-employee directors for his service as a member of the Board.

In addition, following approval by our shareholders at our 2011 annual general meeting held on July 22, 2011, our Chairman of the Board is entitled to receive the regular cash compensation payable to a member of the Board for service on any Board committees, including service as chairman of any Board committees. Our non-executive Chairman of the Board currently serves as the Chairman of the Nominating and Corporate Governance Committee. Prior to the approval by our shareholders at our 2011 annual general meeting to provide the Chairman of the Board with regular cash compensation for service on Board committees, the Chairman of the Board was entitled to receive compensation for his

committee service in the form of restricted share unit awards, which vest immediately following our next annual general meeting and are valued as of such date. Following our 2011 annual general meeting, our non-executive Chairman of the Board received a restricted share unit award covering 2,286 ordinary shares under this program for his service on the Audit Committee and as Chairman of the Nominating and Corporate Governance Committee.

All future equity awards to our directors will be granted under the 2010 Plan, the adoption of which was

approved by our shareholders at our 2010 annual general meeting. Under the terms of the 2001 Plan, if a director ceases to provide services to the company for any reason other than death, cause (as defined in the 2001 Plan) or disability (as defined in the 2001 Plan), then the director may exercise any options which have vested by the date of such termination within three months of the termination date or such other period not exceeding five years or the term of the option, as determined by the Compensation Committee. If a director ceases to provide services to the company because of death or disability, then the director may exercise any options which have vested by the date of such termination within 12 months of the termination date or such other period not exceeding five years or the term of the option, as determined by the Compensation Committee. All stock options held by a director who is terminated for cause expire on the termination date, unless otherwise determined by the Compensation Committee.

In the event of a dissolution or liquidation of the company or if we are acquired by merger or asset sale or in the event of other change of control events, the treatment of outstanding stock options granted under the 2001 Plan (other than option grants made under the automatic option grant program described below), and of outstanding restricted share units granted under the 2010 Plan, is as described in the section entitled "Potential Payments upon Termination or Change in Control."

For stock option grants made under the automatic option grant program of the 2001 Plan, in the event of a change of control transaction described above, each outstanding stock option will accelerate so that each such option shall, prior to the effective date of such transaction at such times and with such conditions as determined by the Compensation Committee, (i) become fully vested with respect to the total number of shares then subject to such award and (ii) remain exercisable for a period of three months following the consummation of the change of control transaction. However, in the event of a hostile take-over of the company pursuant to a tender or exchange offer, the director has a right to surrender each option, which has been held by him or her for at least six months, in return for a cash distribution by the company in an amount equal to the excess of (a) the take-over price per share over (b) the exercise price payable for such share.

**PROPOSAL NO. 3:
RE-APPOINTMENT OF INDEPENDENT AUDITORS FOR FISCAL YEAR 2013 AND
AUTHORIZATION OF OUR BOARD TO FIX THEIR REMUNERATION**

Our Audit Committee has approved, subject to shareholder approval, the re-appointment of Deloitte & Touche LLP as the company's independent registered public accounting firm to audit our accounts and records for the fiscal year ending March 31, 2013, and to perform other appropriate services. In addition, pursuant to Section 205(16) of the Companies Act, our Board of Directors is requesting that the shareholders authorize the directors, upon the recommendation of the Audit Committee, to fix the auditors' remuneration for services rendered through the 2013 annual general meeting. We expect that a representative from Deloitte & Touche LLP will be present at the 2012 annual general meeting. This representative will have the opportunity to make a statement if he or she so desires and is expected to be available to respond to appropriate questions.

Principal Accountant Fees and Services

Set forth below are the aggregate fees billed by our principal accounting firm, Deloitte & Touche LLP, a member firm of Deloitte Touche Tohmatsu, and their respective affiliates for services performed during fiscal years 2012 and 2011. All audit and permissible non-audit services reflected in the fees below were pre-approved by the Audit Committee in accordance with established procedures.

	Fiscal Year	
	2012	2011
	(in millions)	
Audit Fees	\$ 7.5	\$ 7.8
Audit-Related Fees		
Tax Fees	1.9	2.2
All Other Fees	0.2	0.3
Total	\$ 9.6	\$ 10.3

Audit Fees consist of fees for professional services rendered by our independent registered public accounting firm for the audit of our annual consolidated financial statements included in our Annual Report on Form 10-K (including services incurred with rendering an opinion under Section 404 of the Sarbanes-Oxley Act of 2002) and the review of our consolidated financial statements included in our Quarterly Reports on Form 10-Q. These fees include fees for services that are normally incurred in connection with statutory and regulatory filings or engagements, such as comfort letters, statutory audits, consents and the review of documents filed with the SEC.

Audit-Related Fees consist of fees for assurance and related services by our independent registered public accounting firm that are reasonably related to the performance of the audit or review of our consolidated financial statements and not included in Audit Fees. We did not incur fees under this category in fiscal years 2012 and 2011.

Tax Fees consist of fees for professional services rendered by our independent registered public accounting firm for tax compliance, tax advice, and tax planning services, including assistance regarding federal, state and international tax compliance, return preparation, tax audits and customs and duties.

All Other Fees consist of fees for professional services rendered by our independent registered public accounting firm for permissible non-audit services, if any. The fees incurred under this category during each of fiscal years 2012 and 2011 primarily related to enterprise risk management consulting services.

Audit Committee Pre-Approval Policy

Our Audit Committee's policy is to pre-approve all audit and permissible non-audit services provided by our independent registered public accounting firm. These services may include audit services, audit-related services, tax services and other services. Pre-approval is generally provided for up to one year, and any pre-approval is detailed as to the particular service or category of services. The independent registered public accounting firm and management are required to periodically report to the Audit Committee regarding the extent of services provided by the independent registered public accounting firm in accordance with this pre-approval, and the fees for the services performed to date. The Audit Committee may also pre-approve particular services on a case-by-case basis.

Our Audit Committee has determined that the provision of non-audit services under appropriate circumstances may be compatible with maintaining the independence of Deloitte & Touche LLP, and that all such services provided by Deloitte & Touche LLP to us in the past were compatible with maintaining such independence. The Audit Committee is sensitive to the concern that some non-audit services, and related fees, could impair independence and the Audit Committee believes it important that independence be maintained. However, the Audit Committee also recognizes that in some areas, services that are identified by the relevant regulations as "tax fees" or "other fees" are sufficiently related to the audit work performed by Deloitte & Touche LLP that it would be highly inefficient and unnecessarily expensive to use a separate firm to perform those non-audit services. The Audit Committee intends to evaluate each such circumstance on its own merits, and to approve the performance of non-audit services where it believes efficiency can be obtained without meaningfully compromising independence.

The Board recommends a vote "FOR" the re-appointment of Deloitte & Touche LLP as our independent auditors for fiscal year 2013 and authorization of the Board, upon the recommendation of the Audit Committee, to fix their remuneration.

AUDIT COMMITTEE REPORT

The information contained under this "Audit Committee Report" shall not be deemed to be "soliciting material" or to be "filed" with the SEC, nor shall such information be incorporated by reference into any filings under the Securities Act of 1933, as amended, which we refer to as the Securities Act, or under the Securities Exchange Act of 1934, as amended, which we refer to as the Exchange Act, or be subject to the liabilities of Section 18 of the Exchange Act, except to the extent that we specifically incorporate this information by reference into any such filing.

The Audit Committee assists our Board of Directors in overseeing financial accounting and reporting processes and systems of internal controls. The Audit Committee also evaluates the performance and independence of our independent registered public accounting firm. The Audit Committee operates under a written charter, a copy of which is available on the Corporate Governance page of the Investor Relations section of our website at www.flextronics.com. Under the written charter, the Audit Committee must consist of at least three directors, all of whom must be "independent" as defined by the Exchange Act and the rules of the SEC and Nasdaq. The members of the committee during fiscal year 2012 were Messrs. Bingham, Edwards, Watkins, and, from March 13, 2012, Mr. Lay Koon Tan, each of whom is an independent director. The current members of the committee are Messrs. Robert L. Edwards, Lay Koon Tan and William D. Watkins.

Our financial and senior management supervise our systems of internal controls and the financial reporting process. Our independent auditors perform an independent audit of our consolidated financial statements in accordance with generally accepted auditing standards and express opinions on these consolidated financial statements. In addition, our independent auditors express their own opinion on the effectiveness of our internal control over financial reporting. The Audit Committee monitors these processes.

Table of Contents

The Audit Committee has reviewed and discussed with both the management of the company and our independent auditors our audited consolidated financial statements for the fiscal year ended March 31, 2012, as well as management's assessment and our independent auditors' evaluation of the effectiveness of our internal control over financial reporting. Our management represented to the Audit Committee that our audited consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States of America.

The Audit Committee also discussed with our independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61, as amended (AICPA, *Professional Standards*, Vol. 1, AU section 380), as adopted by the Public Company Oversight Board in Rule 3800T. The Audit Committee also has discussed with our independent auditors the firm's independence from company management and the company, and reviewed the written disclosures and letter from the independent registered certified public accounting firm required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent registered certified public accounting firm's communications with the Audit Committee concerning independence. The Audit Committee has also considered whether the provision of non-audit services by our independent auditors is compatible with maintaining the independence of the auditors. The Audit Committee's policy is to pre-approve all audit and permissible non-audit services provided by our independent auditors. All audit and permissible non-audit services performed by our independent auditors during fiscal year 2012 and fiscal year 2011 were pre-approved by the Audit Committee in accordance with established procedures.

Based on the Audit Committee's discussions with the management of the company and our independent auditors and based on the Audit Committee's review of our audited consolidated financial statements together with the reports of our independent auditors on the consolidated financial statements and the representations of our management with regard to these consolidated financial statements, the Audit Committee recommended to the company's Board of Directors that the audited consolidated financial statements be included in our Annual Report on Form 10-K for the fiscal year ended March 31, 2012, which was filed with the SEC on May 29, 2012.

**PROPOSAL NO. 4:
ORDINARY RESOLUTION TO AUTHORIZE
ORDINARY SHARE ISSUANCES**

We are incorporated in the Republic of Singapore. Under Singapore law, our directors may only issue ordinary shares and make or grant offers, agreements or options that might or would require the issuance of ordinary shares, with the prior approval from our shareholders. We are submitting this proposal because we are required to do so under the laws of Singapore before we can issue any ordinary shares in connection with our equity compensation plans, possible future strategic transactions, or public and private offerings.

If this proposal is approved, the authorization would be effective from the date of the 2012 annual general meeting until the earlier of (i) the conclusion of the 2013 annual general meeting or (ii) the expiration of the period within which the 2013 annual general meeting is required by law to be held. The 2013 annual general meeting is required to be held no later than 15 months after the date of the 2012 annual general meeting and no later than six months after the date of our 2013 fiscal year end (except that Singapore law allows for a one-time application for an extension of up to a maximum of two months to be made with the Singapore Accounting and Corporate Regulatory Authority).

Our Board believes that it is advisable and in the best interests of our shareholders for our shareholders to authorize our directors to issue ordinary shares and to make or grant offers, agreements or options that might or would require the issuance of ordinary shares. In the past, the Board has issued shares or made agreements that would require the issuance of new ordinary shares in the following situations:

in connection with strategic transactions and acquisitions;

pursuant to public and private offerings of our ordinary shares as well as instruments convertible into our ordinary shares;
and

in connection with our equity compensation plans and arrangements.

If this proposal is not approved, we would not be permitted to issue any new ordinary shares, including shares issuable pursuant to compensatory equity awards (other than shares issuable on exercise or settlement of outstanding options, restricted share units and other instruments convertible into or exercisable for ordinary shares, which were previously granted when the previous shareholder approved share issue mandates were in force). If we are unable to rely upon equity as a component of compensation, we would have to review our compensation practices, and would likely have to substantially increase cash compensation to retain key personnel.

Notwithstanding this general authorization to issue our ordinary shares, we will be required to seek shareholder approval with respect to future issuances of ordinary shares where required under the rules of Nasdaq, such as where the company proposes to issue ordinary shares that will result in a change in control of the company or in connection with a private offering involving the issuance of ordinary shares representing 20% or more of our outstanding ordinary shares at a price less than the greater of book or market value.

Our Board expects that we will continue to issue ordinary shares and grant options and restricted share unit awards in the future under circumstances similar to those in the past. As of the date of this joint proxy statement, other than issuances of ordinary shares or agreements that would require the issuance of new ordinary shares in connection with our equity compensation plans and arrangements, we have no specific plans, agreements or commitments to issue any ordinary shares for which approval of this proposal is required. Nevertheless, our Board believes that it is advisable and in the best interests of our shareholders for our shareholders to provide this general authorization in order to avoid the delay and expense of obtaining shareholder approval at a later date and to provide us with

Table of Contents

greater flexibility to pursue strategic transactions and acquisitions and raise additional capital through public and private offerings of our ordinary shares as well as instruments convertible into our ordinary shares.

If this proposal is approved, our directors would be authorized to issue, during the period described above, ordinary shares subject only to applicable Singapore laws and the rules of Nasdaq. The issuance of a large number of ordinary shares could be dilutive to existing shareholders or reduce the trading price of our ordinary shares on the NASDAQ Global Select Market.

We are not submitting this proposal in response to a threatened takeover. In the event of a hostile attempt to acquire control of the company, we could seek to impede the attempt by issuing ordinary shares, which may dilute the voting power of our existing shareholders. This could also have the effect of impeding the efforts of our shareholders to remove an incumbent director and replace him with a new director of their choice. These potential effects could limit the opportunity for our shareholders to dispose of their ordinary shares at the premium that may be available in takeover attempts.

**PROPOSAL NO. 5:
NON-BINDING, ADVISORY RESOLUTION
ON EXECUTIVE COMPENSATION**

In accordance with Section 14A of the Exchange Act, and as a matter of good corporate governance, we are asking our shareholders to approve, in a non-binding, advisory vote, the compensation of our named executive officers as reported in this joint proxy statement in the Compensation Discussion and Analysis and in the compensation tables and accompanying narrative disclosure under "*Executive Compensation*." Our named executive officers are identified in the Compensation Discussion and Analysis and include our chief executive officer, our chief financial officer and the three other most highly compensated executive officers serving at the end of our 2012 fiscal year, as well as two others who served as executive officers during a portion of the fiscal year and who otherwise would have been included among the three other most highly compensated executive officers.

As a general matter, the Compensation Committee seeks to allocate a substantial portion of the named executive officers' compensation to components that are performance-based and at-risk. The Compensation Committee also generally seeks to allocate a substantial portion of executive compensation to long-term cash and equity awards. The Compensation Committee periodically assesses our compensation programs to ensure that they are appropriately aligned with our business strategy and are achieving their objectives. The Compensation Committee regularly reviews our compensation programs and peer company data and best practices in the executive compensation area. In past years, the Compensation Committee has recommended and our Board has approved changes in our compensation policies and practices in order to align with best practices. Overall, the Compensation Committee has sought to weight a higher percentage of our executives' total direct compensation to performance-based and long-term components. Key features of our compensation programs that align with best practices in executive compensation are:

we generally target the fixed elements of our compensation, or our base salary, at the 50th percentile of our peer companies or the market data, and generally target our performance or variable annual and long-term incentive compensation and total direct compensation at between the 60th and 65th percentiles of our peer companies or the market data; however, our competitive positioning or benchmarking is reviewed each year in the context of historical performance and our overall compensation programs, including prior incentive awards;

long-term equity incentive compensation is comprised 50% of performance-based and 50% service-based restricted share units;

we use the company's total shareholder return relative to the Standard and Poor's 500 Index as the performance measure for our performance-based restricted share units;

our incentive plans have thresholds levels of performance that must be met before any bonuses are paid or performance-based restricted share units vest;

payout levels are capped under both our short and long-term incentive plans;

we use multiple performance metrics under our incentive plans to mitigate risk, so that executives are not excessively incentivized by any single metric;

all non-GAAP adjustments under our annual incentive plan are subject to approval by the Compensation Committee to ensure that the non-GAAP adjustment effects on payout levels appropriately reflect company performance;

we do not maintain a supplemental executive retirement plan (SERP);

we have adopted stock ownership guidelines for our executives and other senior officers; and

Table of Contents

we have adopted an incentive compensation recoupment policy.

Our fiscal year 2012 was a transformational year and one in which we took further steps to achieve a more diversified portfolio, as evidenced by our exit of the Original Design Manufacturing (ODM) PC business. The Compensation Committee believes that management began to address the challenges in fiscal 2012 and positioned the company for improved operating results in fiscal 2013. Consistent with our pay-for-performance compensation philosophy, the Compensation Committee took the following key actions with respect to the compensation of the named executive officers:

Maintained Base Salary Levels. Base salaries of the named executive officers were not increased, with the exception of Mr. Hoak, whose base salary was increased from \$425,000 to \$450,000, which approximated the 25th percentile of the market data.

Significantly Lower Annual Incentive Bonus Payouts. Bonuses under our annual incentive bonus plan are based upon the achievement of company and business unit (in the cases of business unit executives) performance goals. Based on fiscal 2012 operating performance, bonus payouts were at 17.2% of target for Messrs. McNamara, Read, Collier and Hoak, 14.2% of target for Mr. Barbier, and 62.7% for Mr. Humphries.

No Long-Term Deferred Compensation Plan Award. Annual contributions under our deferred compensation plan (which cliff vest after four years) only may be made if the company exceeds the threshold annual performance level under our incentive bonus plan. Based on fiscal 2012 performance, there were no deferred cash awards made in fiscal 2013 with respect to fiscal 2012 performance.

Lower Total Cash Compensation and Lower Total Direct Compensation. Mr. McNamara's total cash compensation (the sum of base salary and annual incentive bonus payout) decreased 60.3% from fiscal 2011 and his total direct compensation (the sum of base salary, annual incentive bonus payout and long-term equity awards) decreased 38.2% from fiscal 2011. For our next five named executive officers (other than Mr. Hoak, who joined the company in January 2011), the average decrease in total cash compensation was 39.0%.

We urge shareholders to read carefully the Compensation Discussion and Analysis section of this joint proxy statement to review the correlation between the compensation of our named executive officers and our performance. The Compensation Discussion and Analysis also describes in more detail how our executive compensation policies and procedures operate and are designed to achieve our compensation objectives. We also encourage you to read the Summary Compensation Table and the other related compensation tables and narrative that follow the Compensation Discussion and Analysis, which provide detailed information on the compensation of our named executive officers.

While the vote on this resolution is advisory and not binding on the company, the Compensation Committee or the Board, each of the Compensation Committee and the Board value the opinions of our shareholders and will consider the outcome of the vote on this resolution when making decisions regarding future executive compensation arrangements.

**The Board recommends a vote "FOR" the approval of
the non-binding, advisory resolution on executive compensation.**

**PART III PROPOSAL TO BE CONSIDERED AT
THE EXTRAORDINARY GENERAL MEETING OF SHAREHOLDERS**

ORDINARY RESOLUTION TO RENEW THE SHARE PURCHASE MANDATE

Our purchases or acquisitions of our ordinary shares must be made in accordance with, and in the manner prescribed by, the Singapore Companies Act, Cap 50 (or the Companies Act), the applicable listing rules of Nasdaq and such other laws and regulations as may apply from time to time.

Singapore law requires that we obtain shareholder approval of a "general and unconditional share purchase mandate" given to our directors if we wish to purchase or otherwise acquire our ordinary shares. This general and unconditional mandate is referred to in this joint proxy statement as the Share Purchase Mandate, and it allows our directors to exercise all of the company's powers to purchase or otherwise acquire our issued ordinary shares on the terms of the Share Purchase Mandate.

Although our shareholders approved a renewal of the Share Purchase Mandate at the extraordinary general meeting of shareholders held in 2011, the Share Purchase Mandate renewed at the extraordinary general meeting will expire on the date of the 2012 annual general meeting. Accordingly, we are submitting this proposal to seek approval from our shareholders at the extraordinary general meeting for another renewal of the Share Purchase Mandate. On July 18, 2011, the Board authorized the repurchase of our ordinary shares in an aggregate amount up to \$200 million, subject to the approval of our shareholders of the Share Purchase Mandate at the extraordinary general meeting held on July 22, 2011. Pursuant to the Companies Act, share repurchases under our share repurchase plans are subject to an aggregate limit of 10% of our issued ordinary shares outstanding as of the date of the extraordinary general meeting held on July 22, 2011. On December 7, 2011, the Board authorized the repurchase of additional ordinary shares of the company out of the remaining balance of the company's issued ordinary shares outstanding in an amount not to exceed the 10% limitation. Until the 2012 annual general meeting, any repurchases would be made under the Share Purchase Mandate renewed at the extraordinary general meeting held in 2011. Commencing on the date of the 2012 annual general meeting, any repurchases may only be made if the shareholders approve the renewal of the Share Purchase Mandate at the extraordinary general meeting. The share purchase program does not obligate the company to repurchase any specific number of shares and may be suspended or terminated at any time without prior notice.

If renewed by shareholders at the extraordinary general meeting, the authority conferred by the Share Purchase Mandate will, unless varied or revoked by our shareholders at a general meeting, continue in force until the earlier of the date of the 2013 annual general meeting or the date by which the 2013 annual general meeting is required by law to be held.

The authority and limitations placed on our share purchases or acquisitions under the proposed Share Purchase Mandate, if renewed at the extraordinary general meeting, are summarized below.

Limit on Allowed Purchases

We may only purchase or acquire ordinary shares that are issued and fully paid up. The prevailing limitation under the Companies Act that is currently in force does not permit us to purchase or acquire more than 10% of the total number of our issued ordinary shares outstanding at the date of the extraordinary general meeting. Any of our ordinary shares which are held as treasury shares will be disregarded for purposes of computing this 10% limitation.

The Companies Act empowers the Singapore Minister for Finance to prescribe by notification a different percentage as the share repurchase limit, which may be in excess of 10%. In the event that the Minister for Finance prescribes by notification a higher percentage in excess of 10% pursuant to Section 76B(3) of the Companies Act, we are seeking approval for our Directors to authorize the purchase or acquisition of our issued ordinary shares not exceeding in the aggregate either (i) 20% of

Table of Contents

our total number of issued ordinary shares outstanding as of the date of the passing of this proposal (excluding any ordinary shares which are held as treasury shares as at that date); or (ii) such other lower percentage (which nevertheless exceeds 10%) as may be prescribed by the Minister for Finance. We will at all times fully observe the share repurchase limit that applies from time to time and will only exceed the current 10% on the condition that any such higher percentage (up to a maximum of 20%) is approved by the Minister for Finance through a notification issued pursuant to the Section 76B(3) of the Companies Act.

Purely for illustrative purposes, on the basis of 668,592,931 issued ordinary shares outstanding as of June 1, 2012, and assuming no additional ordinary shares are issued or repurchased on or prior to the date of the extraordinary general meeting:

based on the prevailing 10% limit, we would be able to purchase not more than 66,859,293, issued ordinary shares pursuant to the proposed renewal of the Share Purchase Mandate; and

in the event that the Singapore Minister for Finance approves such higher limit up to a maximum of 20%, we would be able to purchase not more than 133,718,586 issued ordinary shares pursuant to the proposed renewal of the Share Purchase Mandate.

All ordinary shares purchased by us following the date of our last annual general meeting of shareholders (that is, the annual general meeting that *precedes* the meeting at which the mandate is renewed) are subject to the 10% limitation (or such higher limitation not greater than 20% as may be approved by the Minister for Finance). For example, if we sought approval for the renewal of the Share Purchase Mandate at our 2012 annual general meeting of shareholders, we would have to reduce the number of new shares that we could repurchase by the number of shares purchased by us at any time following the date of our 2011 annual general meeting.

We are holding the extraordinary general meeting immediately following our 2012 annual general meeting so that the applicable date of our last annual general meeting for purposes of the Share Purchase Mandate will be the date of the 2012 annual general meeting (that is, the same date as the extraordinary general meeting), rather than the date of the 2011 annual general meeting. We believe that this approach will provide our Board with greater flexibility in determining the number of shares that the company may repurchase.

In fiscal year 2012, we used \$509.8 million to repurchase our ordinary shares under the Share Purchase Mandate, reducing our outstanding shares by 81.7 million shares to 683.7 million shares as of March 31, 2012.

Duration of Share Purchase Mandate

Purchases or acquisitions of ordinary shares may be made, at any time and from time to time, on and from the date of approval of the Share Purchase Mandate up to the earlier of:

the date on which our next annual general meeting is held or required by law to be held; or

the date on which the authority conferred by the Share Purchase Mandate is revoked or varied by our shareholders at a general meeting.

Manner of Purchases or Acquisitions of Ordinary Shares

Purchases or acquisitions of ordinary shares may be made by way of:

market purchases on the NASDAQ Global Select Market or any other stock exchange on which our ordinary shares may for the time being be listed and quoted, through one or more duly licensed dealers appointed by us for that purpose; and/or

Table of Contents

off-market purchases (if effected other than on the NASDAQ Global Select Market or, as the case may be, any other stock exchange on which our ordinary shares may for the time being be listed and quoted), in accordance with an equal access scheme as prescribed by the Companies Act.

If we decide to purchase or acquire our ordinary shares in accordance with an equal access scheme, our directors may impose any terms and conditions as they see fit and as are in our interests, so long as the terms are consistent with the Share Purchase Mandate, the applicable rules of Nasdaq, the provisions of the Companies Act and other applicable laws. In addition, an equal access scheme must satisfy all of the following conditions:

offers for the purchase or acquisition of ordinary shares must be made to every person who holds ordinary shares to purchase or acquire the same percentage of their ordinary shares;

all of those persons must be given a reasonable opportunity to accept the offers made; and

the terms of all of the offers must be the same (except differences in consideration that result from offers relating to ordinary shares with different accrued dividend entitlements and differences in the offers solely to ensure that each person is left with a whole number of ordinary shares).

Purchase Price

The purchase price (excluding brokerage commission, applicable goods and services tax and other related expenses of the purchase or acquisition) to be paid for each ordinary share will be determined by our directors. The maximum purchase price to be paid for the ordinary shares as determined by our directors must not exceed:

in the case of a market purchase, the highest independent bid or the last independent transaction price, whichever is higher, of our ordinary shares quoted or reported on the NASDAQ Global Select Market or, as the case may be, any other stock exchange on which our ordinary shares may for the time being be listed and quoted, or shall not exceed any volume weighted average price, or other price determined under any pricing mechanism, permitted under SEC Rule 10b-18, at the time the purchase is effected; and

in the case of an off-market purchase pursuant to an equal access scheme, 150% of the "Prior Day Close Price" of our ordinary shares, which means the closing price of an ordinary share as quoted on the NASDAQ Global Select Market or, as the case may be, any other stock exchange on which our ordinary shares may for the time being be listed and quoted, on the day immediately preceding the date on which we announce our intention to make an offer for the purchase or acquisition of our ordinary shares from holders of our ordinary shares, stating therein the purchase price (which shall not be more than the maximum purchase price calculated on the foregoing basis) for each ordinary share and the relevant terms of the equal access scheme for effecting the off-market purchase.

Treasury Shares

Under the Companies Act, ordinary shares purchased or acquired by us may be held as treasury shares. Some of the provisions on treasury shares under the Companies Act are summarized below.

Maximum Holdings. The number of ordinary shares held as treasury shares may not at any time exceed 10% of the total number of issued ordinary shares.

Voting and Other Rights. We may not exercise any right in respect of treasury shares, including any right to attend or vote at meetings and, for the purposes of the Companies Act, we shall be treated as having no right to vote and the treasury shares shall be treated as having no voting rights. In

Table of Contents

addition, no dividend may be paid, and no other distribution of our assets may be made, to the company in respect of treasury shares, other than the allotment of ordinary shares as fully paid bonus shares. A subdivision or consolidation of any treasury share into treasury shares of a smaller amount is also allowed so long as the total value of the treasury shares after the subdivision or consolidation is the same as before the subdivision or consolidation, respectively.

Disposal and Cancellation. Where ordinary shares are held as treasury shares, we may at any time:

sell the treasury shares for cash;

transfer the treasury shares for the purposes of or pursuant to an employees' share scheme;

transfer the treasury shares as consideration for the acquisition of shares in or assets of another company or assets of a person;

cancel the treasury shares; or

sell, transfer or otherwise use the treasury shares for such other purposes as may be prescribed by the Minister for Finance of Singapore.

Sources of Funds

Only funds legally available for purchasing or acquiring ordinary shares in accordance with our Articles of Association and the applicable laws of Singapore shall be used. We intend to use our internal sources of funds and/or borrowed funds to finance any purchase or acquisition of our ordinary shares. Our directors do not propose to exercise the Share Purchase Mandate in a manner and to such an extent that would materially affect our working capital requirements.

The Companies Act permits us to purchase or acquire our ordinary shares out of our capital and/or profits. Acquisitions or purchases made out of capital are permissible only so long as we are solvent for the purposes of section 76F(4) of the Companies Act. A company is solvent if (a) it is able to pay its debts in full at the time of the payment made in consideration of the purchase or acquisition (or the acquisition of any right with respect to the purchase or acquisition) of ordinary shares in accordance with the provisions of the Companies Act and will be able to pay its debts as they fall due in the normal course of business during the 12-month period immediately following the date of the payment; and (b) the value of the company's assets is not less than the value of its liabilities (including contingent liabilities) and will not, after giving effect to the proposed purchase or acquisition, become less than the value of its liabilities (including contingent liabilities).

Status of Purchased or Acquired Ordinary Shares

Any ordinary share that we purchase or acquire will be deemed cancelled immediately on purchase or acquisition, and all rights and privileges attached to such ordinary share will expire on cancellation (unless such ordinary share is held by us as a treasury share). The total number of issued shares will be diminished by the number of ordinary shares purchased or acquired by us and which are not held by us as treasury shares.

We will cancel and destroy certificates in respect of purchased or acquired ordinary shares as soon as reasonably practicable following settlement of any purchase or acquisition of such ordinary shares.

Financial Effects

Our net tangible assets and the consolidated net tangible assets of our subsidiaries will be reduced by the purchase price of any ordinary shares purchased or acquired and cancelled or held as treasury shares. We do not anticipate that the purchase or acquisition of our ordinary shares in accordance with

Table of Contents

the Share Purchase Mandate would have a material impact on our consolidated financial condition and cash flows.

The financial effects on us and our group (including our subsidiaries) arising from purchases or acquisitions of ordinary shares which may be made pursuant to the Share Purchase Mandate will depend on, among other things, whether the ordinary shares are purchased or acquired out of our profits and/or capital, the number of ordinary shares purchased or acquired, the price paid for the ordinary shares and whether the ordinary shares purchased or acquired are held in treasury or cancelled.

Under the Companies Act, purchases or acquisitions of ordinary shares by us may be made out of profits and/or our capital so long as the company is solvent.

Our purchases or acquisitions of our ordinary shares may be made out of our profits and/or our capital. Where the consideration paid by us for the purchase or acquisition of ordinary shares is made out of our profits, such consideration (excluding brokerage commission, goods and services tax and other related expenses) will correspondingly reduce the amount available for the distribution of cash dividends by us. Where the consideration that we pay for the purchase or acquisition of ordinary shares is made out of our capital, the amount available for the distribution of cash dividends by us will not be reduced. To date, we have not declared any cash dividends on our ordinary shares and have no current plans to pay cash dividends.

Rationale for the Share Purchase Mandate

We believe that a renewal of the Share Purchase Mandate at the extraordinary general meeting will benefit our shareholders by providing our directors with appropriate flexibility to repurchase ordinary shares if the directors believe that such repurchases would be in the best interests of our shareholders. Our decision to repurchase our ordinary shares from time to time will depend on our continuing assessment of then-current market conditions, our need to use available cash to finance acquisitions and other strategic transactions, the level of our debt and the terms and availability of financing.

Take-Over Implications

If, as a result of our purchase or acquisition of our issued ordinary shares, a shareholder's proportionate interest in the company's voting capital increases, such increase will be treated as an acquisition for the purposes of The Singapore Code on Take-overs and Mergers. If such increase results in a change of effective control, or, as a result of such increase, a shareholder or a group of shareholders acting in concert obtains or consolidates effective control of the company, such shareholder or group of shareholders acting in concert could become obliged to make a take-over offer for the company under Rule 14 of The Singapore Code on Take-overs and Mergers.

The circumstances under which shareholders (including directors or a group of shareholders acting together) will incur an obligation to make a take-over offer are set forth in Rule 14 of The Singapore Code on Take-overs and Mergers, Appendix 2. The effect of Appendix 2 is that, unless exempted, shareholders will incur an obligation to make a take-over offer under Rule 14 if, as a result of the company purchasing or acquiring our issued ordinary shares, the voting rights of such shareholders would increase to 30% or more, or if such shareholders hold between 30% and 50% of our voting rights, the voting rights of such shareholders would increase by more than 1% in any period of six months. Shareholders who are in doubt as to their obligations, if any, to make a mandatory take-over offer under The Singapore Code on Take-overs and Mergers as a result of any share purchase by us should consult the Securities Industry Council of Singapore and/or their professional advisers at the earliest opportunity.

**The Board recommends a vote "FOR" the resolution
to approve the proposed renewal of the Share Purchase Mandate.**

COMPENSATION DISCUSSION AND ANALYSIS

Executive Summary

Our fiscal year 2012 was a transformational year and one in which we took further steps to achieve a more diversified portfolio, as evidenced by our exit of the Original Design Manufacturing (ODM) PC business. We continue our focus on diversifying our product portfolio from the high volume, low margin High Velocity Solutions market to other markets with a view to improving profitability and revenue growth, and we expect these actions to take further effect over the course of fiscal 2013. We believe that this diversified portfolio provides our investors with a more stable and predictable business model. Also, as a result of the challenges faced by our camera modules business and consistent with our portfolio management strategy, in March 2012, we entered into an agreement to sell certain assets of our Vista Point Technologies camera module business. We reported the results of operations of the divested camera modules business as discontinued operations.

Our ODM PC manufacturing and related design operations contributed operating losses of approximately \$113.1 million in fiscal 2012, which significantly impacted our fiscal 2012 operating performance. Revenue from continuing operations increased \$0.9 billion, or 3.2%, from \$28.5 billion during fiscal year 2011 to \$29.4 billion in fiscal 2012, almost entirely based on organic growth. GAAP net income from continuing operations was \$510.6 million in fiscal 2012 as compared with \$606.3 million in fiscal 2011, and GAAP diluted earnings per share from continuing operations were \$0.70 in fiscal 2012 versus \$0.77 in fiscal 2011.

Despite these challenges, the company generated free cash flow of \$416.3 million (cash flow from operations less capital expenditures), and we delivered \$509.8 million to shareholders in the form of share repurchases, reducing our outstanding shares by 81.7 million shares to 683.7 million shares as of March 31, 2012. Balance sheet metrics reflect year-end cash of \$1.5 billion, total debt of \$2.2 billion and net debt (total debt less total cash) of \$682 million.

The Compensation Committee believes that management began to address the challenges in fiscal 2012 and positioned the company for improved operating results in fiscal 2013. Consistent with our

Table of Contents

pay-for-performance compensation philosophy, the Compensation Committee took the following key actions with respect to the compensation of the named executive officers:

Maintained Base Salary Levels. Base salaries of the named executive officers were not increased, with the exception of Mr. Hoak, whose base salary was increased from \$425,000 to \$450,000, which approximated the 25th percentile of the market data.

Significantly Lower Annual Incentive Bonus Payouts. Bonuses under our annual incentive bonus plan are based upon the achievement of company and business unit (in the cases of business unit executives) performance goals. Based on fiscal 2012 operating performance, bonus payouts were at 17.2% of target for Messrs. McNamara, Read, Collier and Hoak, 14.2% of target for Mr. Barbier, and 62.7% for Mr. Humphries.

No Long-Term Deferred Compensation Plan Award. Annual contributions under our deferred compensation plan (which cliff vest after four years) only may be made if the company exceeds the threshold annual performance level under our incentive bonus plan. Based on fiscal 2012 performance, there were no deferred cash awards made in fiscal 2013 with respect to fiscal 2012 performance.

Lower Total Cash Compensation and Lower Total Direct Compensation. Mr. McNamara's total cash compensation (the sum of base salary and annual incentive bonus payout) decreased 60.3% from fiscal 2011 and his total direct compensation (the sum of base salary, annual incentive bonus payout and long-term equity awards) decreased 38.2% from fiscal 2011. For our next five named executive officers (other than Mr. Hoak, who joined the company in January 2011), the average decrease in total cash compensation was 39.0%.

In this Compensation Discussion and Analysis section, we discuss the material elements of our compensation programs and policies, including program objectives and reasons why we pay each element of our executives' compensation. Following this discussion, you will find a series of tables containing more specific details about the compensation earned by, or awarded to, the following individuals, whom we refer to as the named executive officers or NEOs. This discussion focuses principally on compensation and practices relating to the named executive officers for our 2012 fiscal year who continued to serve as executive officers:

Name	Position
Michael M. McNamara	Chief Executive Officer
Paul Read	Chief Financial Officer
Francois Barbier	President, Global Operations and Components
Chris Collier	Senior Vice President, Finance
Jonathan Hoak	Executive Vice President and General Counsel
Paul Humphries	President, High Reliability Solutions and Executive Vice President, Human Resources
Michael J. Clarke	Former President, Infrastructure

Compensation Philosophy and Objectives

We believe that the quality, skills and dedication of our executive officers are critical factors affecting the company's performance and shareholder value. Accordingly, the key objective of our compensation programs is to attract, retain and motivate superior executive talent by paying for the achievement of meaningful company objectives, while maintaining an appropriate cost structure. Our compensation programs are designed to link a substantial component of our executives' compensation

Table of Contents

to the achievement of performance goals that directly correlate to the enhancement of shareholder value. Finally, our compensation programs are designed to have the right balance of short and long-term compensation elements to ensure an appropriate focus on operational objectives and the creation of long-term value.

To accomplish these objectives, the Compensation Committee has structured our compensation programs to include the following key features and compensation elements:

base salaries, which generally are targeted to be at the median of our peer group companies;

cash bonuses, based on pre-established annual and quarterly performance goals related to the company and business unit (in the cases of business unit executives), with 50% of the quarterly payouts held back and subject to a reconciliation to annual payout achievement;

equity-based compensation, which aligns our executives' interests with those of our shareholders and promotes executive retention;

in fiscal 2012, we continued our equity incentive program implemented in fiscal 2011 and granted performance-based and service-based restricted share units, with payout of the performance-based awards based on our total shareholder return relative to the S&P 500 Index;

our performance-based restricted share units represented 50% (at target) of the total number of underlying shares;

our performance-based restricted share units provide for vesting based on performance 50% after three years and 50% after four years, thereby promoting the enhancement of long-term shareholder value and executive retention; our service-based restricted share units provide for back-end loaded vesting of 30% after three years and 40% after four years (with 10% vesting after one year and 20% vesting after two years);

our equity grant strategy is to target a burn rate at a level consistent with our peer companies, while considering the need to attract and retain a broader employee base than our peer companies as well as the effects of our share buybacks; we aggressively manage our net burn rate to achieve a more competitive comparison to our peer companies; and

performance-based contributions to our deferred compensation plan, which only may be awarded if the company achieves threshold levels of performance under our incentive bonus plan; these awards are designed to promote executive retention, as any contributions cliff vest after four years.

As a general matter, the Compensation Committee seeks to allocate a substantial portion of the named executive officers' compensation to components that are performance-based and at-risk. The Compensation Committee also generally seeks to allocate a substantial portion of executive compensation to long-term, performance-based cash and equity awards. The Compensation Committee does not maintain fixed policies for allocating among current and long-term compensation or among cash and non-cash compensation. Instead, the Compensation Committee maintains flexibility and adjusts different elements of compensation based upon its evaluation of the key compensation goals set forth above. However, the Compensation Committee seeks to maintain a weighting towards variable cash and equity compensation and longer-term incentive compensation to mitigate the risk arising from any element of compensation. In addition, to further align our executives' interests with our shareholders and mitigate risk relating to our compensation programs, we adopted stock ownership guidelines and an incentive compensation recoupment policy. See "*Executive Stock Ownership Guidelines*" and "*Executive Incentive Compensation Recoupment Policy*" below.

Table of Contents

While compensation levels may differ among NEOs based on competitive factors, performance, job criticality, experience and the skill set of each specific NEO, there are no material differences in the compensation philosophies, objectives or policies for our NEOs. We do not maintain a policy regarding internal pay equity. However, the Compensation Committee reviews the ratio of the CEO's total direct compensation with that of other named executive officers as part of its overall review of our compensation programs.

None of the named executive officers serves pursuant to an employment agreement at the present time, and each serves at the will of the company's Board of Directors (subject to severance obligations under law). When an executive officer retires, resigns or is terminated, the Compensation Committee exercises its business judgment in approving an appropriate separation or severance arrangement in light of all relevant circumstances, including the individual's term of employment, severance obligations under applicable law, past accomplishments and reasons for separation from the company.

Alignment with Compensation Best Practices

The Compensation Committee regularly reviews our compensation programs and peer company data and best practices in the executive compensation area. In past years, the Compensation Committee has recommended and our Board has approved changes in our compensation policies and practices in order to align with best practices. Overall, the Compensation Committee has sought to weight a higher percentage of our executives' total direct compensation to performance-based and long-term components. Key features of our compensation programs that align with best practices in executive compensation are:

we generally target the fixed elements of our compensation, or our base salary, to approach over time the 50th percentile of our peer companies or the market data, and generally target our performance or variable annual and long-term incentive compensation and total direct compensation at between the 60th and 65th percentiles of our peer companies or the market data; however, our competitive positioning or benchmarking is reviewed each year in the context of historical performance and our overall compensation programs, including prior incentive awards; for fiscal 2012, Mr. McNamara's total direct compensation was targeted at the 50th percentile of our peer companies and the next five named executive officers' total direct compensation generally was targeted to approximate or to be within a range around the median of our peer companies or the market data;

long-term equity incentive compensation is comprised 50% of performance-based and 50% service-based restricted share units;

we use the company's total shareholder return relative to the Standard and Poor's 500 Index as the performance measure for our performance-based restricted share units, with 50% of the award vesting based on performance over a three-year period and 50% of the award vesting based on performance over a four-year period; our service-based restricted share units provide for back-end loaded vesting of 30% after three years and 40% after four years;

for fiscal year 2012, 86.6% of Mr. McNamara's total target direct compensation was either "at-risk" or long-term, and overall for our next five NEOs, 79.2% of total target direct compensation was either "at-risk" or long-term;

our incentive plans have threshold levels of performance that must be met before any bonuses are paid or performance-based restricted share units vest;

payout levels are capped under both our short and long-term incentive plans;

Table of Contents

we use multiple performance metrics under our incentive plans to mitigate risk, so that executives are not excessively incentivized by any single metric;

all non-GAAP adjustments under our annual incentive plan are subject to approval by the Compensation Committee to ensure that the non-GAAP adjustment effects on payout levels appropriately reflect company performance;

total target direct compensation of our CEO was less than 3.8 times the average of the next five NEOs;

our executives do not have severance agreements, whether or not in connection with a change in control; our equity awards do not have "single trigger" accelerated vesting upon a change in control;

we do not maintain a supplemental executive retirement plan (SERP);

our 2010 Equity Incentive Plan prohibits "share recycling" and options/SAR repricing (including cash buyouts); we do not pay dividends or dividend equivalents on our restricted share units;

our net burn rate for fiscal 2012 was 0.8%, roughly at the 25th percentile of our peer companies; our 3-year average net burn rate for fiscal 2010 through fiscal 2012 was 0.8%, below the 25th percentile of our peer companies; our gross burn rate for fiscal 2012 was 2.7%, above the 75th percentile of our peer companies, while our 3-year average gross burn rate was 1.9%, slightly above the 25th percentile of our peer companies; we achieved these rates while repurchasing an aggregate of 147.1 million shares in fiscal 2011 and fiscal 2012;

we do not provide excessive executive perquisites;

we have adopted stock ownership guidelines for our executives and other senior officers;

we prohibit executives and senior officers from engaging in hedging transactions in company stock or trading options or other derivatives;

we have adopted an incentive compensation recoupment policy; and

we believe that we provide clear and transparent disclosures of our compensation programs and practices, so that our shareholders can understand the elements of our compensation programs, the reasons why we pay them, and how compensation is linked to performance, including our annual and long-term performance targets and their achievement.

Results of the 2011 Say on Pay Advisory Vote

As required by Section 14A of the Exchange Act, we provided shareholders with a "say on pay" advisory vote on executive compensation at our 2011 Annual General Meeting held on July 22, 2011. The advisory vote received the support of 73.5% of the votes cast at the Annual General Meeting. As a result the Compensation Committee continues to evaluate the alignment of our executive compensation with shareholder interests. In addition, we continue to engage in a dialogue with major institutional shareholders to receive their input and to communicate our compensation philosophy and pay for performance alignment. As previously disclosed, we plan to hold the say on pay advisory vote on an annual basis.

Compensation Committee

The Compensation Committee periodically assesses our compensation programs to ensure that they are appropriately aligned with our business strategy and are achieving their objectives. The Compensation Committee also reviews market trends and changes in competitive practices. Based on its review and assessment, the Compensation Committee from time to time recommends changes in our

Table of Contents

compensation programs to our Board. The Compensation Committee is responsible for recommending to our Board the compensation of our Chief Executive Officer and all other executive officers. The Compensation Committee also oversees management's decisions concerning the compensation of other company officers, administers our equity compensation plans, and evaluates the effectiveness of our overall executive compensation programs.

Independent Consultants and Advisors

The Compensation Committee has the authority to retain and terminate any independent, third-party compensation consultants and to obtain advice and assistance from internal and external legal, accounting and other advisors. During our 2012 fiscal year, the Compensation Committee engaged Radford, an Aon Hewitt Company (referred to in this discussion as Radford), as its independent adviser for certain executive compensation matters. Radford was retained by the Compensation Committee to provide an independent review of the company's executive compensation programs, including an analysis of both the competitive market and the design of the programs. More specifically, Radford furnished the Compensation Committee with reports on peer company practices relating to the following matters: short and long-term compensation program design; annual share utilization and shareowner dilution levels resulting from equity plans; and executive stock ownership and retention values. As part of its reports to the Compensation Committee, Radford evaluated our selected peer companies, and provided competitive compensation data and analysis relating to the compensation of our Chief Executive Officer and our other executives and senior officers. Radford also assisted the Compensation Committee with its risk assessment of our compensation programs.

Radford is owned by Aon Hewitt Corporation, a multi-national, multi-services insurance and consulting firm. For a discussion of amounts paid to Radford for executive and director compensation consulting services and amounts paid to Aon Hewitt Corporation and its affiliates for non-executive and non-director compensation consulting services, please see "*Compensation Committee Relationship with Compensation Consultant.*" The Compensation Committee has determined that the provision by Aon of services unrelated to executive and director compensation matters in fiscal year 2012 was compatible with maintaining the objectivity of Radford in its role as compensation consultant to the Compensation Committee and that the consulting advice it received from Radford was not influenced by Aon's other relationships with the company. The Compensation Committee has retained Radford as its independent compensation consultant for fiscal year 2013 and expects that it will continue to retain an independent compensation consultant on future executive compensation matters.

Role of Executive Officers in Compensation Decisions

The Compensation Committee makes recommendations to our Board on all compensation actions relating to our executive officers. As part of its process, the Compensation Committee meets with our Chief Executive Officer and other executives to obtain recommendations with respect to the structure of our compensation programs, as well as an assessment of the performance of individual executives and recommendations on compensation for individual executives. As discussed in greater detail below under "*Fiscal Year 2012 Executive Compensation Incentive Bonus Plan,*" our Chief Executive Officer and other executives develop recommendations for performance measures and target and payout opportunities under our incentive bonus plan based on management's business forecast both at the company and business unit levels, which are reviewed and approved by our Board.

Competitive Positioning

In arriving at its recommendations to our Board on the amounts and components of compensation for our Chief Executive Officer and other executive officers, the Compensation Committee considers competitive compensation data prepared by its independent compensation consultant. The Compensation Committee reviews this data in the context of historical performance and our overall

Table of Contents

compensation programs, including prior incentive awards. The Compensation Committee considered the following competitive compensation data:

to benchmark compensation for our CEO and CFO, Radford constructed a peer group consisting of 22 peer companies based on the following criteria and market data as of January 2011: (i) global companies with a technology focus and with significant manufacturing operations; (ii) companies with revenues between \$10 billion and \$50 billion (approximately .5x to 2x Flextronics's trailing 12 months revenues); and (iii) companies with a market capitalization between \$3 billion and \$25 billion. Radford compiled compensation data from such companies' SEC filings; and

to benchmark compensation for our other executives and senior officers, including our named executives officers (other than our CEO and CFO), Radford recommended and the Compensation Committee approved using data from Radford's published compensation survey for technology companies. Radford recommended and the Compensation Committee approved using survey data for technology companies with annual revenues between \$10 billion and \$50 billion and with significant manufacturing operations in order to align the data more closely to the criteria selected for the CEO/CFO peer group. Radford recommended and the Compensation Committee approved the use of this survey data because this survey data provided a better match based upon job responsibility, including revenue responsibility, and are more reflective of the market for talent for these positions. In addition, the survey data was more appropriate for the broader executive group, which includes business unit executives, because publicly available compensation data from peer company SEC filings for matching positions generally was not available.

Peer companies are recommended by the Compensation Committee's independent consultant and approved by the Compensation Committee. In selecting peer companies, the Compensation Committee seeks to select companies that are comparable to us on the basis of various criteria, including revenues, industry, global scope of operations, and market capitalization, and that the Compensation Committee believes would compete with us for executive talent.

The CEO/CFO peer group for fiscal year 2012 compensation decisions consisted of the following companies:

Alcatel-Lucent	Applied Materials, Inc.
Arrow Electronics, Inc.	Avnet, Inc.
Danaher Corporation	Dell Inc.
Eaton Corporation	Emerson Electric Co.
General Dynamics Corporation	Honeywell International Inc.
Illinois Tool Works Inc.	Jabil Circuit, Inc.
Johnson Controls, Inc.	Motorola Solutions, Inc.
Northrop Grumman Corporation	Raytheon Company
Royal Philips Electronics	Seagate Technology
Tyco International Ltd.	United Technologies Corporation
Western Digital Corporation	Xerox Corporation

The Compensation Committee has approved the same CEO/CFO peer group for fiscal year 2013, except that United Technologies was removed from the peer group because its revenues and market capitalization did not fall within the criteria set forth above.

Table of Contents

The companies included in the Radford survey used for fiscal 2012 compensation benchmarking for our other executives and senior officers are as follows:

Alcatel-Lucent	AOL Inc.
Arrow Electronics, Inc.	Cisco Systems, Inc.
Comcast Corporation	Covidien plc
Deere & Company	Dell Inc.
DIRECTV	E.I. du Pont de Nemours and Company
EMC Corporation	Honeywell International Inc.
Intel Corporation	Jabil Circuit, Inc.
Johnson Controls, Inc.	L-3 Communications
Lockheed Martin Corporation	Motorola Solutions, Inc.
Navistar International Corporation	Nokia Corporation
Northrop Grumman Corporation	QUALCOMM Incorporated
Qwest Communications International Inc.	Research In Motion Limited
Science Applications International Corporation	Seagate Technology
Sprint Nextel Corporation	Texas Instruments Incorporated
Thermo Fisher Scientific Inc.	Tyco International Ltd.
Western Digital Corporation	Xerox Corporation

The Compensation Committee generally seeks to set base salary at the 50th percentile and total target direct compensation at between the 60th and 65th percentiles of our peer companies or the market data. Total target direct compensation is the sum of base salary, target annual incentive compensation and target long-term incentive awards. Our competitive positioning or benchmarking is reviewed by the Compensation Committee each year in the context of historical performance and our overall compensation programs, including prior incentive awards. Total target direct compensation, as well as individual components, may vary by executive based on the executive's experience, job criticality, level of responsibility and performance, as well as competitive market conditions.

Fiscal Year 2012 Executive Compensation

Summary of Fiscal Year 2012 Compensation Decisions

Although management achieved a number of steps to diversify our product portfolio from the high volume, low margin High Velocity Solutions market to other markets with a view to improving profitability, our ODM PC manufacturing and related design operations significantly impacted our fiscal 2012 operating performance. As a result, bonus payouts under our annual incentive bonus plan were at 17.2% of target for Messrs. McNamara, Read, Collier and Hoak, 14.2% of target for Mr. Barbier, and 62.7% of target for Mr. Humphries. In addition, based on fiscal 2012 performance, there were no deferred cash awards made in fiscal 2013 under our long-term cash incentive program with respect to fiscal 2012 performance.

For fiscal 2012, equity-based compensation was comprised 50% of performance-based restricted share units and 50% of service-based restricted share units. Mr. McNamara's equity grant was targeted to approximate the 50th percentile of our peer companies and the next five NEOs' equity grants generally were targeted between the 50th and 60th percentiles of our peer companies or the market data.

Table of Contents

Mr. McNamara's total cash compensation (the sum of base salary and annual incentive bonus payout) decreased 60.3% from fiscal 2011 and his total direct compensation (the sum of base salary, annual incentive bonus payout and long-term equity awards) decreased 38.2% from fiscal 2011. For our next five named executive officers, the average decrease in total cash compensation was 39.0% and the average total direct compensation remained similar.

Based on company performance, the Compensation Committee believes that compensation levels for fiscal year 2012 were appropriate and consistent with the philosophy and objectives of the company's compensation programs.

Elements of Compensation

We allocate compensation among the following components for our named executive officers:

base salary;

annual incentive bonus awards;

performance-based and service-based stock incentive awards;

performance based deferred compensation; and

other benefits.

As discussed above, a key element of our compensation philosophy is that a significant portion of executive compensation is "performance-based" and therefore "at-risk." A second key element of our compensation philosophy is that a significant portion of executive compensation is comprised of long-term elements in order to align executive compensation with sustained, long-term performance and stock price appreciation. Annual incentive compensation, performance-based restricted share units and performance-funded contributions under our deferred compensation plan are compensation that is "at-risk" because their payouts depend entirely upon performance. Our performance-based and service-based restricted share units and performance-funded deferred compensation plan contributions are designed to provide significant retention and alignment with long-term shareholder value enhancement, with these awards predominantly vesting after periods of three years and four years. The following pie charts illustrate the mix of our compensation and show that for our Chief Executive Officer, 86.6% of

Table of Contents

total target direct compensation is either "at-risk" or long-term, and, overall for our next five NEOs, 79.2% of total target direct compensation is either "at-risk" or long-term:

Base Salary

We seek to set our executives' base salaries at levels which are competitive with our peer companies based on each individual executive's role and the scope of his or her responsibilities, also taking into account the executive's experience and the base salary levels of other executives within the company. The Compensation Committee typically reviews base salaries every fiscal year and adjusts base salaries to take into account competitive market data, individual performance and promotions or changes in responsibilities.

Mr. McNamara's base salary was maintained at \$1,250,000, which approximated the 60th percentile of our peer companies.

Mr. Read's base salary was maintained at \$600,000, which approximated the 50th percentile of our peer companies.

Mr. Barbier's base salary was maintained at \$600,000, which was between the 60th and 75th percentiles of the market data. Mr. Collier's base salary was maintained at \$400,000, which exceeded the 75th percentile of the market data. Mr. Hoak's base salary was increased from \$425,000 to \$450,000, which approximated the 25th percentile of the market data. Mr. Humphries' base salary was increased from \$475,000 to \$525,000, which exceeded the 75th percentile of the market data.

Incentive Bonus Plan

Through our incentive bonus plan, we seek to provide pay for performance by linking incentive awards to company and business unit performance. In designing the incentive bonus plan, our Chief Executive Officer and management team develop and recommend performance metrics and targets, which are reviewed and are subject to adjustment by the Compensation Committee and our Board. Performance metrics and payout levels are determined based on management's business forecast both at the company and business unit levels, as reviewed and approved by the Board. In fiscal 2012, target levels for performance were set at approximately the levels included in our business forecast. Maximum payout levels were tied to stretch or "home run" levels of performance. As part of the process of setting performance targets, the Compensation Committee reviewed analyst consensus estimates for fiscal 2012 and confirmed that target performance measures were appropriately aligned with such estimates.

For fiscal 2012, our performance measures emphasized profitability and revenue growth at the corporate and business unit level, and specific business unit goals at the business unit level. In addition, our performance measures emphasized continued cash flow generation. Performance measures were based on quarterly and annual targets.

Key features of the bonus plan in fiscal 2012 were as follows:

performance targets were based on key company and business unit financial metrics;

performance targets were measured on an annual and quarterly basis, with total bonus opportunities based on annual performance; bonuses were paid out quarterly, with 50% of the quarterly payouts held back subject to the fiscal year end reconciliation of annual payout achievements;

the financial goals varied based on each executive's responsibilities, with a substantial weighting on business unit financial metrics for business unit executives;

performance measures under the plan were: annual and quarterly revenue growth, operating profit (as a percentage of sales), return on invested capital and adjusted earnings per share targets at the company level; and annual and quarterly operating profit (as a percentage of sales), revenue growth, profit after interest percentage, inventory turnover, and other business-unit specific targets at the business unit level for certain executives; annual and fourth quarter performance measures were based on results from continuing operations;

certain performance measures were calculated on a non-GAAP basis and excluded after-tax intangible amortization and stock-based compensation expense;

all non-GAAP adjustments were subject to approval by the Compensation Committee to ensure that the non-GAAP adjustment effects on payout levels appropriately reflected company performance;

bonuses were based entirely on achievement of financial performance objectives; there was no individual performance component;

each executive's target bonus was set at a percentage of base salary, based on the level of the executive's responsibilities;

the CEO's target bonus was set at 150% of base salary and the CFO's target bonus was set at 125% of base salary;

for executives other than the CEO and CFO, the target bonus was set at a range of between 70% and 90% of base salary;

Table of Contents

payout opportunities for each bonus component ranged from 50% of target to a maximum of 300% of target (200% in the cases of the CEO, CFO and corporate officers); and

if the company failed to achieve the threshold level for any performance measure, no payout was awarded for that measure.

The Compensation Committee recommended and our Board approved different performance metrics for our Chief Executive Officer, Chief Financial Officer and corporate officers as compared with business unit executives. In addition, we varied the weightings for certain performance metrics among different executives, in order to better align individual awards with our business strategy.

The incentive bonus plan award opportunities for each NEO are shown in the Grants of Plan-Based Awards in Fiscal Year 2012 table. In fiscal 2012, the target incentive bonus awards were set at approximately the 60th percentile of our peer companies for Mr. McNamara; at approximately the 75th percentile of our peer companies for Mr. Read; at the 50th percentile of the market data for Mr. Barbier; between the 60th and 75th percentiles of the market data for Mr. Collier; approximating the 25th percentile of the market data for Mr. Hoak; and between the 50th and 60th percentiles of the market data for Mr. Humphries.

Non-GAAP Adjustments

We used adjusted non-GAAP performance measures for our incentive bonus plan in fiscal 2012. We use adjusted measures to eliminate the distorting effect of certain unusual income or expense items. The adjustments are intended to:

align award payout opportunities with the underlying growth of our business; and

avoid outcomes based on unusual items.

In calculating non-GAAP financial measures, we exclude certain items to facilitate a review of the comparability of the company's operating performance on a period-to-period basis because such items are not, in the Compensation Committee's view, related to the company's ongoing operational performance. The non-GAAP measures are used to evaluate more accurately the company's operating performance, for calculating return on investment, and for benchmarking performance against competitors. For fiscal 2012, non-GAAP adjustments consisted of excluding after-tax stock-based compensation expense and intangible amortization. All adjustments are subject to approval by the Compensation Committee to ensure that payout levels are consistent with performance.

Incentive Awards for the CEO and CFO

Messrs. McNamara and Read were each eligible for a bonus award based on achievement of quarterly and annual revenue growth, adjusted operating profit percentage, ROIC and adjusted EPS targets. We refer to these performance measures as the "company performance metric." The weightings for each of these performance measures was 25%. Mr. McNamara's annual target bonus was 150% of base salary and Mr. Read's annual target bonus was 125% of base salary. Mr. McNamara's target percentage of base salary remained the same as in fiscal 2011 and resulted in total target cash approximating the 60th percentile of our peer companies. Mr. Read's bonus target as a percentage of base salary also remained the same as in fiscal 2011 and resulted in total target cash between the 50th and 60th percentiles of our peer companies.

The following table sets forth the payout level opportunities that were available for Messrs. McNamara and Read as a percentage of the target award for each performance measure based on different levels of performance. Revenue targets represented year over year growth targets of 8% at the 50% payout level, 12% at the 100% payout level, 16% at the 150% payout level and 20% at the 200% payout level. Payout levels for each performance measure ranged from 50% to 200% of target

Incentive Awards for NEOs other than the CEO and CFO

Mr. Barbier, President of Flextronics Global Operations and Components, was eligible for a bonus based on achievement of the quarterly and annual company performance metrics (i.e., the performance measures that applied to Messrs. McNamara and Read), as well as various business unit performance metrics, including revenue, operating profit percentage, profit after interest percentage and inventory turns for our mobile and consumer segment, and operating profit percentage, profit after interest percentage, inventory turns and customer satisfaction for our Global Operations sites. Mr. Barbier's annual target bonus was 90% of base salary. Mr. Barbier's target percentage of base salary increased from 80% in fiscal 2011 and resulted in total target cash approximating the 50th percentile of the market data. Actual payout level opportunities ranged from 50% to 300% of target. The weightings of the performance metrics for Mr. Barbier were 50% for the company performance metric and 50% for the business unit metrics. For performance levels between the 50% and 200% payout levels, straight line interpolation was used to arrive at the payout level. Mr. Barbier only was eligible for a 300% payout level for any of the performance measures if his business unit or the company achieved an annual maximum level of performance for the metric. Certain business unit metrics were calculated on an adjusted non-GAAP basis consistent with the company performance metric. We treat the business unit performance measures as confidential. We set these measures at levels designed to motivate Mr. Barbier to achieve operating results at his business unit in alignment with our business strategy with payout opportunities at levels of difficulty consistent with our company performance metric.

Messrs. Collier and Hoak were each eligible for a bonus award based on achievement of the quarterly and annual company performance metrics, with the same weightings as Messrs. McNamara and Read. The annual target bonus was 70% of base salary for both Mr. Collier and Mr. Hoak. Mr. Collier's target percentage of base salary increased from 60% in fiscal 2011 and resulted in total target cash above the 75th percentile of the market data. Mr. Hoak's bonus target as a percentage of base salary remained the same as in fiscal 2011 and resulted in total target cash slightly below the 25th percentile of the market data.

Mr. Humphries, President of High Reliability Solutions and Executive Vice President, Human Resources, was eligible for a bonus based on achievement of the quarterly and annual company performance metrics (i.e., the performance measures that applied to Messrs. McNamara and Read), as well as various business unit performance metrics, including revenue, operating profit percentage, profit after interest percentage and inventory turns for our High Reliability Solutions segment. Mr. Humphries' annual target bonus was 90% of base salary. Mr. Humphries' target percentage of base salary increased from 70% in fiscal 2011 and resulted in total target cash between the 50th and 60th percentiles of the market data. Actual payout level opportunities ranged from 50% to 300% of target. The weightings of the performance metrics for Mr. Humphries were 30% for the company performance metric and 70% for the business unit metrics. For performance levels between the 50% and 200% payout levels, straight line interpolation was used to arrive at the payout level. Mr. Humphries only was eligible for a 300% payout level for any of the performance measures if his business unit or the company achieved an annual maximum level of performance for the metric. Certain business unit metrics were calculated on an adjusted non-GAAP basis consistent with the company performance metric. We treat the business unit performance measures as confidential. We set these measures at levels designed to motivate Mr. Humphries to achieve operating results at his business unit in alignment with our business strategy with payout opportunities at levels of difficulty consistent with our company performance metric.

The Compensation Committee believes that bonuses awarded under our incentive bonus plan appropriately reflected the company's performance and appropriately rewarded the performance of the named executive officers.

Long-Term Incentive Programs

The Compensation Committee's general policy is to target long-term incentive compensation (which is deemed to include target annual performance-based contributions to the deferred compensation plan) at between the 60th and 65th percentiles of our peer companies and market data, subject to individual variances. As noted earlier, our competitive positioning for long-term incentive compensation is determined in the context of historical performance and our overall compensation programs, including prior incentive awards. For fiscal 2012, Mr. McNamara's long-term incentive award was targeted to approximate the 50th percentile of our peer companies, and the next five named executive officers' long-term incentive awards generally were targeted to be within a range around the median of our peer companies or the market data.

Long-Term Cash Incentive Awards

In prior years, the Compensation Committee has recommended and the Board has approved long-term cash incentive awards that allowed for named executive officers and certain other senior officers to earn cash bonuses based upon the achievement by the company of certain three-year performance targets. In fiscal 2011, the company adopted the 2010 Deferred Compensation Plan, which replaces both the prior long-term cash incentive awards program and our senior executive and senior management deferred compensation plans. Under the new plan, the company in its discretion may make contributions in amounts up to 30% of each participant's base salary (subject to offsets for non-U.S. executives' pension and other benefits), provided that Mr. Read is not eligible for annual performance-based contributions until past company contributions vest under his prior deferred compensation accounts. Contributions will be made, subject to Committee approval, based on achievement of the same performance metrics as under our incentive bonus plan and will cliff vest after four years. The new plan and the prior deferred compensation plans are discussed further under "*Deferred Compensation*" below. Based on fiscal 2011 performance, in fiscal 2012, Mr. McNamara received a deferred cash award in the amount of 30% of his base salary, Mr. Barbier received a deferred cash award in the amount of 20% of his base salary, Mr. Collier received a deferred cash award in the amount of 30% of his base salary, and Mr. Humphries received a deferred cash award in the amount of 30% of his base salary. Based on fiscal 2012 performance, there were no deferred cash awards made in fiscal 2013 with respect to fiscal 2012 performance. For additional information about company contributions to the named executive officers deferral accounts made in fiscal year 2012, please see the section entitled "*Executive Compensation Nonqualified Deferred Compensation in Fiscal Year 2012.*"

Stock-Based Compensation

Restricted Share Unit Awards and Stock Options

The Compensation Committee grants performance-based and service-based restricted share unit awards (the equivalent of restricted stock units) and stock options. Equity incentives are designed to align the interests of the named executive officers with those of our shareholders and provide each individual with a significant incentive to manage the company from the perspective of an owner, with an equity stake in the business. These awards are also intended to promote executive retention, as unvested restricted share unit awards and stock options are forfeited if the executive voluntarily leaves the company. Restricted share unit awards are structured as either performance-based awards, which vest only if pre-established performance measures are achieved, or service-based awards, which vest if the executive remains employed through the vesting period. Before the restricted share unit award vests, the executive has no ownership rights in our ordinary shares. The payouts are made in shares, so the value of the award goes up or down based on share price performance from the beginning of the grant, further aligning the interests of the executive with long-term shareholder value creation. Each stock option allows the executive officer to acquire our ordinary shares at a fixed price per share (the closing market price on the grant date) generally over a period of seven years, thus providing a return to the officer only if the market price of the shares appreciates over the option term.

Beginning with fiscal 2011, the Compensation Committee determined that equity awards for executives and other senior officers generally would be allocated 50% to performance-based restricted share unit awards and 50% to service-based restricted share unit awards. None of the NEOs has received an option grant since 2009 and no equity awards were granted to the named executive officers in fiscal 2010. The Compensation Committee believes that this allocation promotes retention, serves to link long-term compensation to the company's long-term performance and limits the dilutive effect of equity awards. Key features of these awards are as follows:

vesting of the performance-based restricted share units is tied to the company's total shareholder return versus total shareholder return of the S&P 500, with payouts ranging from 0% to 150% based on performance; the Compensation Committee believes that the relative total shareholder return metric used for the performance-based awards is a widely-accepted investor benchmark that appropriately aligns compensation with performance;

one-half of the performance-based restricted share units will vest after three years and one-half will vest after four years;

service-based restricted share units vest in four installments of 10%, 20%, 30% and 40% on the first, second, third and fourth anniversaries of the grant date; the back-end loaded vesting schedule results in 70% of the award vesting after periods of three years and four years;

the four-year vesting schedules for both the performance-based and service-based awards provides for retention and aligns our executives with long-term shareholder value enhancement; overall 40% of the awards vest after three years and 45% of the awards vest after four years; and

we do not pay dividends or dividend equivalents on our restricted share units.

Vesting of the performance-based awards will depend on the company achieving levels of total shareholder return relative to the average of the Standard & Poor's 500 Index total shareholder return

Table of Contents

for the respective three and four-year performance periods, as follows (with vesting for performance between the indicated performance levels computed on the basis of linear interpolation):

	Flextronics TSR as a % of S&P 500 Index Average TSR	Awards Earned as a % of Target Awards
Maximum	Above 150% of S&P Average	150%
	125% of S&P Average	125%
Target	100% of S&P Average	100%
	50% of S&P Average	50%
Threshold	Below 50% of S&P Average	0%

The size of the restricted share unit award or option grant to each executive officer generally is set at a level that is intended to create a meaningful opportunity for share ownership based upon the individual's current position with the company, but the Compensation Committee and Board also take into account (i) the individual's potential for future responsibility and promotion over the term of the award, (ii) the individual's performance in recent periods, and (iii) the number of restricted share unit awards and options held by the individual at the time of grant. In addition, the Compensation Committee and Board consider competitive equity award data, and determine award size consistent with the Compensation Committee's and our Board's objective of setting long-term incentive compensation at a competitive level in relation to our peer companies and market data, subject to individual variances. The Compensation Committee and Board also consider annual share usage and overall shareholder dilution when determining the size of equity awards.

Grants During Fiscal Year 2012

The number of performance-based and service-based restricted share unit awards granted to the named executive officers in fiscal year 2012, and the grant-date fair value of these awards determined in accordance with ASC 78-10, are shown in the Grants of Plan-Based Awards in Fiscal Year 2012 table.

As part of the annual compensation review process, the Compensation Committee recommended and the Board approved the following performance-based and service-based restricted share unit awards to our named executive officers. The figures represent the sum of the restricted share unit awards granted, which is split 50-50 between performance-based awards (at target) and service-based awards: Mr. McNamara 800,000; Mr. Read 325,000; Mr. Barbier 260,000; Mr. Collier 100,000; Mr. Hoak 50,000; and Mr. Humphries 180,000. Mr. McNamara's long-term incentive compensation for fiscal 2012 was set to approximate the 50th percentile of our peer companies and Mr. Read's was set slightly above the 60th percentile of our peer companies. Mr. Barbier's long-term incentive compensation for fiscal 2012 was set below the 50th percentile of the market data; Mr. Collier's long-term incentive compensation was set above the 65th percentile of the market data; Mr. Hoak's long-term incentive compensation was set below the 50th percentile of the market data; and Mr. Humphries' long-term incentive compensation was set below the 50th percentile of the market data. Overall, our executives' and senior officers' long-term incentive awards were set below the 50th percentile of the market data. For purposes of benchmarking long-term incentive compensation, the Compensation Committee treats the target cash awards under the new deferred compensation plan as long-term incentive compensation. As noted above, Mr. Read is not eligible for annual performance-based deferred compensation until past deferred cash awards under his deferral accounts vest, and his fiscal 2012 equity grant was therefore benchmarked without taking into account any target deferred compensation award.

Administration of Equity Award Grants

The Compensation Committee grants options with exercise prices set at the market price on the date of grant, based on the closing market price. Our current policy is that options and restricted share unit awards granted to executive officers are only made during open trading windows. Awards are not timed in relation to the release of material information. Our current policy provides that grants to non-executive new hires and follow on grants to non-executives are made on pre-determined dates five times a year.

Hedging Policy

Under our insider trading policy, short-selling, trading in options or other derivatives on our shares or engaging in hedging transactions are prohibited.

Deferred Compensation

Each of the named executive officers participates in a deferred compensation plan or arrangement. These plans and arrangements are intended to promote retention by providing a long-term savings opportunity on a tax-efficient basis. Beginning in fiscal 2011, we replaced our prior senior executive and senior management plans with our 2010 deferred compensation plan. Under the new plan, participating officers may defer up to 70% of their base salary and bonus, net of certain statutory and benefit deductions. The company may make a discretionary matching contribution for these deferrals to reflect limitations on our matching contribution under our 401(k) plan. Initial company contributions under the plan for new senior executive participants who did not participate in the prior plans will be 50% of base salary and will not be tied to company performance. Annual company contributions will be performance-based (using the same performance measures used under the incentive bonus plan) and may be made in amounts of up to 30% of each participant's base salary (subject to offsets for non-U.S. executives' pension and other benefits), subject to approval by the Compensation Committee. Initial contributions and any annual contributions, together with earnings, will cliff vest after four years provided that the participant remains employed by the company. For performance below the threshold payout level under the incentive bonus plan, there will be no contribution; for performance between the threshold and target payout levels, the Compensation Committee may award a contribution ranging from 50% to 100% of the target contribution; and for performance at or above the target payout level, the Compensation Committee may award a contribution of 100% of the target contribution. For purposes of benchmarking compensation, the Compensation Committee treats target cash awards as long-term incentive compensation. Deferred balances under the plan are deemed to be invested in hypothetical investments selected by the participant or the participant's investment manager. Participants may receive their vested compensation balances upon termination of employment either through a lump sum payment or in installments over a period of up to ten years. Participants also may elect in-service distributions through a lump sum payment or in installments over a period of up to five years. The deferred account balances are unfunded and unsecured obligations of the company, receive no preferential standing, and are subject to the same risks as any of the company's other general obligations. We do not pay or guarantee above-market returns. The appreciation, if any, in the account balances of plan participants is due solely to the underlying performance of the investments selected by participants.

As discussed above under "**Long-Term Incentive Programs Long-Term Cash Incentive Awards**," based on fiscal 2011 performance, in fiscal 2012, Mr. McNamara received a deferred cash award in the amount of 30% of his base salary, Mr. Barbier received a deferred cash award in the amount of 20% of his base salary, Mr. Collier received a deferred cash award in the amount of 30% of his base salary, and Mr. Humphries received a deferred cash award in the amount of 30% of his base salary. Deferred awards made under the prior plans are discussed below with respect to certain of the NEOs who participated in prior plans. Deferred cash awards made under the prior plans will continue to vest in

accordance with the provisions of the prior plans, which will be grandfathered, but no additional contributions will be made under the prior plans. Based on fiscal 2012 performance, there were no deferred cash awards made in fiscal 2013 with respect to fiscal 2012 performance.

Mr. McNamara participated in the company's senior executive deferred compensation plan (referred to as the senior executive plan). Following his appointment as Chief Financial Officer, Mr. Read also became a participant in the senior executive plan effective January 1, 2009. Mr. Read participated in the company's senior management deferred compensation plan (referred to as the senior management plan) prior to his appointment as Chief Financial Officer. Messrs. Barbier, Collier, and Humphries participated in the senior management plan.

Deferred Compensation for Messrs. McNamara and Read. Under the senior executive plan, awards for deferred long-term incentive bonuses could be awarded in return for services to be performed in the future. During fiscal year 2006, the Compensation Committee recommended and the Board approved a deferred bonus for Mr. McNamara of \$5,000,000. The deferred bonus (together with earnings) for Mr. McNamara vested as follows: (i) 10% vested on April 1, 2006; (ii) 15% vested on April 1, 2007; (iii) 20% vested on April 1, 2008; (iv) 25% vested on April 1, 2009; and (v) 30% vested on April 1, 2010.

During fiscal year 2009, in recognition of his appointment as Chief Financial Officer, the Compensation Committee recommended and the Board approved an initial one-time funding payment of \$2,000,000 for Mr. Read in the senior executive plan. The deferred bonus (together with earnings) for Mr. Read will vest as follows: (i) 10% vested on January 1, 2010; (ii) 15% vested on January 1, 2011; (iii) 20% vested on January 1, 2012; (iv) 25% will vest on January 1, 2013; and (v) 30% will vest on January 1, 2014. Prior to his appointment as Chief Financial Officer, Mr. Read was a participant in the senior management plan. As part of the annual contribution, Mr. Read was eligible to receive a contribution equal to 30% of his base salary. Past contributions (together with earnings) will vest as follows: (i) one-third will vest on July 1, 2012; (ii) one-half of the remaining balance will vest on July 1, 2013; and (iii) the remaining balance will vest on July 1, 2014.

Any unvested portions of the deferred bonus for Mr. Read (with respect to his senior executive plan account) will become 100% vested upon a change of control (as defined in the senior executive plan) if he is employed at that time or if his employment is terminated as a result of death or disability. Other than in cases of death or disability or a change of control, any unvested amounts will be forfeited if the executive's employment is terminated, unless otherwise provided in a separation agreement. With respect to Mr. Read's senior management plan account, 100% will become vested in the case of his death and a percentage of the unvested portion of Mr. Read's senior management account will become vested in the event of a change of control (as defined in the senior management plan), in an amount equal to the number of months of completed service from July 1, 2005 through July 1, 2014, divided by 108. Any portion of his senior management plan account that remains unvested after a change of control shall continue to vest in accordance with the original vesting schedule.

Deferred Compensation for Mr. Barbier. During fiscal year 2005, the Compensation Committee recommended and the Board approved an initial one-time funding payment of \$250,000 for Mr. Barbier in the senior management plan. As part of the annual contribution, until 2010, Mr. Barbier was eligible to receive a contribution equal to 30% of his base salary. Past contributions (together with earnings) will vest as follows: (i) one-third vested on July 1, 2011; (ii) one-half of the remaining balance vested on July 1, 2012; and (iii) the remaining balance will vest on July 1, 2013.

Deferred Compensation for Mr. Collier. Beginning with 2005 until 2010, Mr. Collier received annual and discretionary deferred contributions under the senior management plan. These contributions (together with earnings) will vest as follows: (i) one-third will vest on the first July 1st that occurs at least one year after the day that the sum of his age and years of service with the company equals or

Table of Contents

exceeds 60; (ii) one-third will vest one year after the first vesting date; and (iii) one-third will vest two years after the first vesting date.

Deferred Compensation for Mr. Humphries. Beginning with 2005 until 2010, Mr. Humphries received annual and discretionary deferred contributions under the senior management plan. These contributions (together with earnings) will vest as follows: (i) one-third will vest on the first July 1st that occurs at least one year after the day that the sum of his age and years of service with the company equals or exceeds 60; (ii) one-third will vest one year after the first vesting date; and (iii) one-third will vest two years after the first vesting date.

Under the senior management plan, any unvested portions of the deferral accounts of Messrs. Barbier, Collier and Humphries will become 100% vested if their employment is terminated as a result of death. In the event of a change of control (as defined in the senior management plan), a portion of the deferral account will vest, calculated as a percentage equal to the number of service months from July 1, 2005 to July 1, 2013, divided by 96 for Mr. Barbier, the number of service months from July 1, 2005 to July 1, 2014, divided by 108 for Mr. Collier, and the number of service months from July 1, 2005 to July 1, 2011, divided by 72 for Mr. Humphries. Any portion of their deferral accounts that remains unvested after a change of control shall continue to vest in accordance with the original vesting schedule. Other than in cases of death or a change of control, any unvested amounts will be forfeited if the executive's employment is terminated, unless otherwise provided in a separation agreement.

For additional information about (i) executive contributions to the named executive officers' deferral accounts, (ii) company contributions to the deferral accounts, (iii) earnings on the deferral accounts, and (iv) deferral account balances as of the end of fiscal year 2012, see the section entitled "*Executive Compensation Nonqualified Deferred Compensation in Fiscal Year 2012.*" The deferral accounts are unfunded and unsecured obligations of the company, receive no preferential standing, and are subject to the same risks as any of the company's other general obligations.

Benefits

Executive Perquisites

Perquisites represent a small part of the overall compensation program for the named executive officers. In fiscal year 2012, we paid the premiums on long-term disability insurance for our named executive officers. We also reimbursed Mr. Barbier for costs associated with his international assignment and Mr. Humphries for his relocation assignment, which are discussed below. In addition, we reimbursed Mr. Read and Mr. Barbier for FICA and Medicare taxes due upon the partial vesting of their deferred bonuses during fiscal year 2012. We also provide a company vehicle allowance for Mr. Barbier. These and certain other benefits are quantified under the "All Other Compensation" column in the Summary Compensation Table.

As discussed above, we have replaced our prior deferred compensation plans with our 2010 deferred compensation plan. Under the prior plans, vested amounts were not paid until termination, while the new plan provides for distribution options, including in-service distributions. For amounts vesting under the prior plans, we will continue to reimburse the executives for FICA taxes since the executives will continue to be unable to access vested funds prior to retirement; however, the executives will continue to be responsible for the tax liability associated with the reimbursement. For amounts vesting under the new plan, the executives will be responsible for FICA taxes and the company will not reimburse the executives for any taxes due upon vesting.

While company aircraft are generally used for company business only, our Chief Executive Officer and Chief Financial Officer and their spouses and guests may be permitted to use company aircraft for personal travel. We calculate the incremental cost to the company for use of the company aircraft by

using an hourly rate for each flight hour. The hourly rate is based on the variable operational costs of each flight, including fuel, maintenance, flight crew travel expense, catering, communications and fees, including flight planning, ground handling and landing permits. To the extent any travel on company aircraft resulted in imputed income to the executive officer in fiscal year 2012, the company provided gross-up payments to cover the executive officer's personal income tax due on such imputed income. These benefits are quantified under the "All Other Compensation" column in the Summary Compensation Table.

Relocation Assignments

In connection with Mr. Barbier's relocation assignment to the company's Milpitas facility, effective August 30, 2010, we agreed to reimburse Mr. Barbier for certain relocation expenses incurred by Mr. Barbier, including a housing allowance of \$6,000 per month and an auto allowance of up to \$1,200 per month. These benefits are quantified under the "All Other Compensation" column in the Summary Compensation Table.

In connection with Mr. Humphries' relocation assignment to the company's Milpitas facility, effective August 30, 2010, we agreed to reimburse Mr. Humphries for certain relocation expenses incurred by Mr. Humphries, including a housing allowance of \$3,500 per month and an auto allowance of \$1,200 per month. These benefits are quantified under the "All Other Compensation" column in the Summary Compensation Table.

401(k) Plan; French Defined Contribution Pension Plan

Under our 401(k) Plan, all of our employees are eligible to receive matching contributions. Effective fiscal year 2011, we also instituted a new annual discretionary matching contribution. The amount of any discretionary annual contribution will be based on company performance and other economic factors as determined at the end of the following corporate fiscal year. For fiscal year 2012, we elected not to make a discretionary contribution. We do not provide an excess 401(k) plan for our executive officers. Our named executive officers participated in the program in fiscal year 2012.

Mr. Barbier participates in defined contribution pension schemes mandated under French law. For fiscal 2012, the company made required contributions aggregating approximately \$123,147.

Other Benefits

Executive officers are eligible to participate in all of the company's employee benefit plans, such as medical, dental, vision, group life, disability, and accidental death and dismemberment insurance, in each case on the same basis as other employees, subject to applicable law.

Termination and Change of Control Arrangements

The named executive officers are entitled to certain termination and change of control benefits under their deferred compensation plans and under certain of their equity awards. These benefits are described and quantified under the section entitled "**Executive Compensation Potential Payments Upon Termination or Change of Control.**" As described in that section, if there is a change of control of the company, the entire unvested portion of the deferred compensation account of Mr. Read under the senior executive plan will accelerate, and a percentage of the unvested portion of Messrs. Read's, Barbier's, Collier's and Humphries' deferred compensation accounts under the senior management plan will accelerate based on their respective periods of service. As of April 2010, Mr. McNamara was fully vested under the senior executive plan. Under our 2010 Deferred Compensation Plan, vesting of initial and annual awards will accelerate in cases of death, disability, or a change in control. In the case of a change in control, vesting only will accelerate if employment is terminated without cause or for good reason within two years of the change in control. The Compensation Committee determined that a

single trigger for acceleration of the executives' deferred compensation accounts was appropriate under the senior executive and senior management plans in order to provide certainty of vesting for benefits that represent the executives' primary source of retirement benefits. However, under our 2010 Deferred Compensation Plan, vesting only will accelerate following a change in control if employment is terminated, as described above, which is a double trigger. Under the terms of certain of our equity incentive plans and the form of restricted share unit award agreement used for certain of our grants of restricted share unit awards to our employees (including our executives), in the event of a change of control, each outstanding stock option and each unvested restricted share unit award with such a provision shall automatically accelerate, provided that vesting shall not so accelerate if, and to the extent, such award is either to be assumed or replaced. The Compensation Committee believes that these provisions provide our Board with appropriate flexibility to address the treatment of options and restricted share unit awards in a merger or similar transaction that is approved by our Board, while providing appropriate protections to our executives and other employees in transactions which are not approved by our Board. Under the terms of certain of our equity plans, the Compensation Committee has the discretion to provide that certain awards may automatically accelerate upon an involuntary termination of service within a designated time period following a change of control, even if such awards are assumed or replaced.

Executive Stock Ownership Guidelines

In fiscal 2011, to more closely align the interests of our management with those of our shareholders, our Board of Directors, upon the recommendation of the Compensation Committee, adopted stock ownership guidelines for all of our executive officers and direct reports of the chief executive officer. The ownership guidelines provide for our executive officers to own a minimum number of our ordinary shares, which (i) for our CEO, is the number of shares having a value equal to at least four times his annual base salary, (ii) for our CFO, is the number of shares having a value equal to at least two and one-half times his annual base salary and (iii) for all of our other executive officers and CEO direct reports, is the number of shares having a value equal to at least one and one-half times his or her annual base salary. All ordinary shares held by our executives, as well as the value of fully-vested stock options (net of the value of taxes), count toward these goals. The guidelines provide for our executives to reach these goals within five years of the date that the Board approved the guidelines or the date they joined the company, whichever is later, and to hold such a minimum number of shares for as long as he or she is an officer. The company has determined that the named executive officers are in compliance with the current requirements under the guidelines.

Executive Incentive Compensation Recoupment Policy

In May 2010, the Compensation Committee recommended and our Board adopted an Executive Incentive Compensation Recoupment Policy. The policy covers our executive officers and direct reports of our chief executive officer, and applies to bonuses or awards under the company's short and long-term incentive bonus plans, awards under our equity incentive plans, and contributions under our deferred compensation plans where the contributions are based on the achievement of financial results. In the event of a material restatement of financial results where a covered officer engaged in fraud or misconduct that caused the need for the restatement, the Board will have discretion to recoup incentive compensation of any covered officer if and to the extent the amount of compensation which was paid or which vested would have been lower if the financial results had been properly reported. In the case of equity awards that vested based on the achievement of financial results that were subsequently reduced, the Board also may seek to recover gains from the sale or disposition of vested shares (including shares purchased upon the exercise of options that vested based on the achievement of financial results). In addition, the Board will have discretion to cancel outstanding equity awards where the financial results which were later restated were considered in granting such awards. The Board only may seek recoupment in cases where the restatement shall have occurred within 36 months of the publication of the audited financial statements that have been restated.

COMPENSATION RISK ASSESSMENT

With the assistance of Radford, the Compensation Committee reviewed our compensation policies and practices and determined that our compensation programs do not encourage excessive or inappropriate risk-taking. The Compensation Committee believes that the design and mix of our compensation programs appropriately encourage our executive and senior officers to focus on the creation of long-term shareholder value. In its review, the Compensation Committee noted the following features:

our executive compensation programs appropriately balance short and long-term incentives, with short-term incentives representing approximately 20% of total direct compensation and long-term incentives representing approximately 56% of total direct compensation, thereby focusing executives on enhancing long-term shareholder value;

our incentive bonus plan uses several performance measures at the corporate level, as well as different performance measures for our business unit executives;

payout levels are capped under our incentive bonus plan and payout opportunities may be achieved on a straight line interpolation basis between threshold and target levels, and generally between the target and maximum levels;

non-GAAP adjustments are made to align achievement of performance measures with our business strategy; all non-GAAP adjustments are subject to Compensation Committee approval to ensure that actual payout levels appropriately reflect company and business unit performance; and

annual non-management bonus plans allocate a lower percentage of variable cash compensation than for management with bonus awards and sales commission plans capped at multiples of target achievement.

In addition to the design and mix of our compensation programs, to further align executives' and senior officers' interests with our shareholders and mitigate risk relating to our compensation programs, in fiscal 2011 the company adopted stock ownership guidelines and an incentive compensation recoupment policy, which are discussed above.

This column shows the grant-date fair value of service-based and performance-based restricted share unit awards under FASB ASC Topic 718-10 granted to our named executive officers in fiscal year 2012. The grant-date fair value is the amount that we will expense in our financial statements over the award's vesting schedule. Expense will be reversed for awards that do not vest as a result of the named executive officers not meeting the requisite service requirement; however expense will not be reversed for awards that do not vest as a result of not achieving the performance requirement. For

restricted share unit awards with service-based vesting, fair value is the closing price of our ordinary shares on the grant date. For restricted share unit awards where vesting is contingent on meeting a market condition, the grant-date fair value was calculated using a monte carlo simulation. Additional information on the valuation assumptions is included in Note 3 of our audited consolidated financial statements for the fiscal year ended March 31, 2012, "Share-Based Compensation," included in our Annual Report on Form 10-K for the fiscal year ended March 31, 2012. These amounts reflect our accounting expense, and do not correspond to the actual value that will be recognized by the named executive officers.

Fifty percent of the restricted share unit awards vest after three years and fifty percent vest after four years. Vesting of the performance-based awards will depend on the company achieving levels of total shareholder return relative to the average of the Standard & Poor's 500 Index total shareholder return for the respective three and four-year performance periods.

Pension Benefits in Fiscal Year 2012

Our named executive officers do not receive any compensation in the form of pension benefits.

Nonqualified Deferred Compensation in Fiscal Year 2012

Each of our named executive officers participates in our 2010 deferred compensation plan, except for Mr. Hoak, who joined the company in fiscal year 2011, and for Mr. Read. Our deferred compensation program is intended to promote retention by providing a long-term savings opportunity on a tax-efficient basis. Beginning in fiscal 2011, we replaced our existing deferred compensation plans with the 2010 deferred compensation plan. Under the new plan, participating officers may defer up to 70% of their base salary and bonus, net of certain statutory and benefit deductions. The company may make a discretionary matching contribution for these deferrals to reflect limitations on our matching contribution under our 401(k) plan. Under this plan, we may make performance-based annual contributions, subject to the company meeting pre-established business performance criteria, in amounts up to 30% of each participant's base salary (subject to offsets for non-U.S. executives' pension and other benefits), which will cliff vest after four years. Amounts credited to the deferral accounts are deemed to be invested in hypothetical investments selected by a participant or an investment manager on behalf of each participant. Participants in the 2010 deferred compensation plan may receive their vested deferred compensation balances upon termination of employment at such time as is specified in their deferral agreements, which may include a lump sum payment or installment payments made over a period of years. Participants also may elect in-service distributions through a lump sum payment or in installments over a period of up to five years.

Prior to fiscal year 2011, Messrs. McNamara and Read participated in our Senior Executive Deferred Compensation Plan, which we refer to as the senior executive plan. Participants in the senior

Table of Contents

executive plan received long-term deferred bonuses, which were subject to vesting requirements. In addition, a participant was able to defer up to 80% of his salary and up to 100% of his cash bonuses. The deferred compensation was credited to a deferral account established under the senior executive plan for recordkeeping purposes. Amounts credited to the deferral accounts are deemed to be invested in hypothetical investments selected by an investment manager on behalf of each participant. Participants in the senior executive plan may receive their vested deferred compensation balances upon termination of employment either through a lump sum payment or in installments over a period of up to 10 years.

Prior to fiscal year 2011, Messrs. Barbier, Collier, Clarke and Humphries participated in the company's Senior Management Deferred Compensation Plan (referred to as the senior management plan). Mr. Read participated in the senior management plan until December 1, 2008, when our Board approved his participation in the senior executive plan. Under the senior management plan, participants received deferred discretionary contributions, which were subject to vesting requirements. Deferred balances under the senior management plan are deemed to be invested in hypothetical investments selected by the participant or the participant's investment manager. Participants in the senior management plan will receive their vested deferred compensation balances upon termination of employment through a lump sum payment on the later of January 15th of the year following termination and six months following termination. In addition, any unvested portions of the deferral accounts will become 100% vested if the executive's employment is terminated as a result of his or her death.

Under each of the deferred compensation plans, we entered into trust agreements providing for the establishment of irrevocable trusts into which we are required to deposit cash or other assets as specified in the applicable deferral agreement, equal to the aggregate amount required to be credited to the participant's deferral account, less any applicable taxes to be withheld. The deferred account balances of the participants in deferred compensation plans are unfunded and unsecured obligations of the company, receive no preferential standing, and are subject to the same risks as any of our other general obligations.

For a discussion of the contributions and deferred bonuses granted to each of the named executive officers and their vesting terms, including vesting upon the executive's termination or a change in control of the company, see the sections entitled "**Compensation Discussion and Analysis Deferred Compensation**" of this joint proxy statement and "**Executive Compensation Potential Payments Upon Termination or Change of Control**" below.

- (1) Reflects the salary and bonus payments deferred by our named executive officers during the fiscal year. These amounts are included in the Summary Compensation Table under the "Salary" column.
- (2) These amounts represent contributions under the 2010 deferred compensation plan. These awards cliff vest after four years. None of these awards have vested under this plan as of March 31, 2012. These amounts, including any earnings or losses thereon, will be reported under the "Bonus" column of the Summary Compensation Table upon vesting in future years if the executive continues to be a named executive officer. For additional information on these contributions and their vesting terms, including vesting upon the executive's termination or a change in control of the company, see the sections entitled "*Compensation Discussion and Analysis Deferred Compensation*" of this joint proxy statement and "*Executive Compensation Potential Payments Upon Termination or Change of Control*."
- (3) Reflects earnings (or losses) for each named executive officer on both the vested and unvested portions of the executive's deferred compensation account(s). The above-market portion of the earnings on the vested portion of the executive's deferred compensation account(s) is included under the "Change in Pension Value and Nonqualified Deferred Compensation Earnings" column in the Summary Compensation Table. Any earnings that vest in a given year are reported in the "Bonus" column in the Summary Compensation Table.
- (4) The amounts in this column have previously been reported in the Summary Compensation Table for this and prior fiscal years, except for the following amounts: Paul Read \$2,422,150; Francois Barbier \$761,063; Christopher Collier \$1,247,549; Paul Humphries \$1,006,560. For Mr. Barbier, the amount includes \$521,053 unvested in his international plan account and a \$240,010 unvested balance in his 2010 deferred compensation plan account. For Mr. McNamara, the amount includes a \$720,890 unvested balance in his 2010 deferred compensation plan account. For Mr. Collier, the amount includes \$999,290 unvested balance in his senior management plan account and \$248,259 unvested balance in his 2010 deferred compensation plan account. - (5) Upon his resignation in December 2011, Mr. Clarke forfeited \$750,865, the entire unvested portion of his deferred compensation accounts (including \$640,865 in his senior management plan account and \$110,000 in his 2010 deferred compensation plan account).

Potential Payments Upon Termination or Change in Control

As described in the section entitled "*Compensation Discussion and Analysis*" of this joint proxy statement, our named executive officers do not have employment or severance agreements with us. However, our named executive officers (other than Mr. Clarke) are entitled to certain termination and change in control benefits under each executive's deferred compensation plan and under certain equity awards.

As noted above, Mr. Clarke resigned from his position with the company effective as of December 29, 2011. In connection with his separation from the company, Mr. Clarke was not entitled to, and did not receive, any severance benefits. In addition, upon his separation, Mr. Clarke forfeited the unvested portion of his deferred compensation account and all unvested stock options and share bonus awards.

Acceleration of Vesting of Deferred Compensation

2010 deferred compensation plan. If the employment of any participant in the 2010 deferred compensation plan is involuntarily terminated by the company without cause or is terminated by the executive with good reason within two years following a change in control (as defined in the 2010 deferred compensation plan), the entire unvested portion of the deferred compensation account of the named executive officer will vest.

Senior executive plan. Mr. McNamara's senior executive plan deferred compensation account was fully vested as of March 31, 2011. If the employment of Mr. Read is terminated as a result of his death or disability, the entire unvested portion of his deferred compensation account will vest. If there is a change of control (as defined in the senior executive plan), the entire unvested portion of the deferred compensation account of Mr. Read will vest.

Senior management plan. Under the senior management plan, any unvested portions of the deferral accounts of Messrs. Read, Barbier, and Collier will become 100% vested if their employment is terminated as a result of death. In the event of a change of control (as defined in the senior management plan), a portion of the deferral account will vest, calculated as a percentage equal to the number of months from July 1, 2005 to July 1, 2014, divided by 108 for Mr. Read; the number of service months from July 1, 2005 to July 1, 2013, divided by 96 for Mr. Barbier, and the number of service months from July 1, 2005 to July 1, 2014, divided by 108 for Mr. Collier. Any portion of their deferral accounts that remains unvested after a change of control shall continue to vest in accordance with the original vesting schedule.

Acceleration of Vesting of Equity Awards

The number of unvested equity awards held by each named executive officer as of March 31, 2012 is listed above in the Outstanding Equity Awards at 2012 Fiscal Year-End table. All unvested outstanding equity awards held by our named executive officers at the end of fiscal year 2012 were granted under the 2001 Plan, the 2002 Interim Incentive Plan, which we refer to as our 2002 Plan, or the 2010 Plan, which provide certain benefits to plan participants in the event of the termination of such participant's employment or a change in control of the company. The terms of these benefits are described below.

Table of Contents

Exercise of Stock Options Upon Termination

Under the terms of the 2001 Plan and the 2002 Plan, if a plan participant ceases to provide services to the company for any reason other than death, cause (as defined in the plan) or disability (as defined in the plan), then the participant may exercise any options which have vested by the date of such termination within three months of the termination date or such other period not exceeding five years or the term of the option, as determined by the Compensation Committee. If a participant ceases to provide services to the company because of death or disability, then the participant may exercise any options which have vested by the date of such termination within 12 months of the termination date or such other period not exceeding five years or the term of the option, as determined by the Compensation Committee. All stock options held by a plan participant who is terminated for cause expire on the termination date, unless otherwise determined by the Compensation Committee. In addition, subject to any waiver by the Compensation Committee, all unvested restricted share unit awards and unvested stock options held by a plan participant will be forfeited if the participant ceases to provide services to the company for any reason.

Acceleration of Vesting Upon a Change in Control

Our equity incentive plans are "double trigger" plans, meaning that unvested stock options and unvested restricted share unit awards vest immediately only if (i) there is a change in control of the company and (ii)(x) such options or awards are not converted, assumed or replaced by the successor or survivor corporation or (y) if provided by the Compensation Committee as described below, the service of the award recipient is involuntarily terminated within a designated period following the effective date of such change in control.

Except for grants to our non-employee directors made under the automatic option grant program of the 2001 Plan, under the terms of the 2001 Plan and the 2002 Plan and the form of restricted share unit award agreement used under these two plans for certain of our grants of restricted share unit awards to our employees (including our executives), in the event of a dissolution or liquidation of the company or if we are acquired by merger or asset sale or in the event of other change of control events, each outstanding stock option issued under the 2001 Plan or the 2002 Plan and each unvested restricted share unit award with such a provision shall automatically accelerate so that each such award shall, immediately prior to the effective date of such transaction, become fully vested with respect to the total number of shares then subject to such award. However, subject to the specific terms of a given award, vesting shall not so accelerate if, and to the extent, such award is either to be assumed or replaced with a comparable right covering shares of the capital stock of the successor corporation or parent thereof or is replaced with a cash incentive program of the successor corporation which preserves the inherent value existing at the time of such transaction.

Under the terms of our 2010 Plan, unless otherwise provided in the applicable award agreement or other agreement between the company and the participant, in the event of a change of control of the company (as defined in the 2010 Plan) in which the participant's awards are not converted, assumed, or replaced by a successor or survivor corporation, or a parent or subsidiary thereof, then such awards will become fully exercisable and all forfeiture restrictions on such awards will lapse immediately prior to the change of control and, following the consummation of such a change of control, all such awards will terminate and cease to be outstanding.

Where awards under the 2010 Plan are assumed or continued after a change in control, the Compensation Committee may provide that one or more awards will automatically accelerate upon an involuntary termination of service within a designated period (not to exceed eighteen (18) months) following the effective date of such change in control. If the Compensation Committee so determines, any such award will, immediately upon an involuntary termination of service following a change of control, become fully exercisable and all forfeiture restrictions on such award will lapse.

Table of Contents

All of our named executive officer's stock options with exercise prices less than \$7.22 per share, the closing price of our ordinary shares on the last business day of our 2012 fiscal year, were granted under and are subject to the change in control provisions of one of the plans described above. In addition, 1,600,000 of Mr. McNamara's unvested restricted share unit awards, 600,000 of Mr. Read's unvested restricted share unit awards, 410,000 of Mr. Barbier's unvested restricted share unit awards, 290,000 of Mr. Humphries' unvested restricted share unit awards, 210,000 of Mr. Collier's unvested restricted shares unit awards, and 87,500 of Mr. Hoak's unvested restricted share unit awards provide that the awards include such a change in control provision.

**Potential Payments Upon Termination or Change in Control
as of March 31, 2012**

The following table and accompanying note show the estimated payments and benefits that would be provided to each named executive officer (other than Mr. Clarke) as a result of (i) the accelerated vesting of deferred compensation in the case of his death, disability, a termination following a change of control or a change of control with a termination and (ii) the accelerated vesting of unvested equity awards in the event of a change of control if such awards are not assumed by the successor company in connection with the change of control. As noted above, Mr. Clarke did not receive any severance benefits in connection with his separation from the company.

Calculations for this table assume that the triggering event took place on March 31, 2012, the last business day of our 2012 fiscal year, and are based on the price per share of our ordinary shares on such date, which was \$7.22. The following table does not include potential payouts under our named executive officers' nonqualified deferred compensation plans relating to vested benefits.

Name	Change in Control: Accelerated Vesting of Deferred Compensation(1)	Change in Control: Accelerated Vesting of Restricted Share Unit Awards(2)	Change in Control: Accelerated Vesting of Stock Options(3)	Total
Michael M. McNamara		\$ 11,552,000	\$ 5,120,000	\$ 16,672,000
Paul Read	\$ 2,080,301	\$ 4,332,000	\$ 2,480,000	\$ 8,892,301
Francois P. Barbier	\$ 439,638	\$ 2,960,200	\$ 847,125	\$ 4,246,963
Christopher E. Collier	\$ 749,468	\$ 1,516,200	\$ 372,000	\$ 2,637,668
Jonathan S. Hoak		\$ 631,750		\$ 631,750
Paul Humphries		\$ 2,093,800	\$ 556,157	\$ 2,649,957

(1)

The amount shown for each executive represents the portion of the unvested portion of his deferred compensation account that would vest in the event of a change in control of the company (without a termination following such change in control). An additional \$720,890 for Mr. McNamara, \$240,010 for Mr. Barbier, \$248,259 for Mr. Collier and \$308,204 for Mr. Humphries would vest if the executive is terminated without cause or resigns for good reason following a change of control. The portion of the unvested portion of the executive's deferred compensation account that would vest in the event of his death is \$2,422,149 for Mr. Read, \$521,053 for Mr. Barbier, \$999,290 for Mr. Collier, and nothing for the other executives. The portion of Mr. Read's deferred compensation account that would vest in the event of his disability is \$1,054,755; no other executive's account would vest in the event of his disability.

(2)

The amounts shown represent the estimated value of the accelerated vesting of restricted share unit awards following a change of control under the terms of our equity incentive plans, which assumes that such restricted share unit awards are not assumed or replaced by the successor corporation or its parent. If such awards are assumed or replaced in a change of control transaction, the vesting of such awards will not accelerate; provided, that the Compensation Committee may determine that awards under the 2010 Plan may accelerated if the executive is

terminated within a certain period (not to exceed 18 months) following a change of control. All amounts shown in this column represent the intrinsic value of the awards based on the closing price of our ordinary shares on March 31, 2012, the assumed date of the triggering event.

- (3) The estimated values shown represent the acceleration of stock options following a change of control of the company or similar corporate transaction, assuming that such stock options are not assumed or replaced by the successor corporation or its parent. If such options are assumed or replaced in a change of control transaction, the vesting of such awards will not accelerate; provided, that the Compensation Committee may determine that awards under the 2010 Plan may accelerate if the executive is terminated within a certain period (not to exceed 18 months) following a change of control. The amounts shown represent the intrinsic value of the awards based on the closing price of our ordinary shares on March 31, 2012, the assumed date of the triggering event.

EQUITY COMPENSATION PLAN INFORMATION

As of March 31, 2012, we maintained only our 2010 Plan, which replaced (i) the 2001 Plan, (ii) the 2002 Plan, (iii) our 2004 Award Plan for New Employees, and (iv) the Solectron Corporation 2002 Stock Plan, which we refer to collectively as the Prior Plans. The following table provides information about equity awards outstanding under these plans as of March 31, 2012.

Plan Category	Number of Ordinary Shares to be Issued Upon Exercise of Outstanding Options and Vesting of Restricted Share Unit Awards	Weighted-Average Exercise Price of Outstanding Options(1)	Number of Ordinary Shares Remaining Available for Future Issuance Under Equity Compensation Plans (Excluding Ordinary Shares Reflected in Column (a))
	(a)	(b)	(c)
Equity compensation plans approved by shareholders	49,476,633(2) \$	7.63	51,698,379(3)
Equity compensation plans not approved by shareholders(4),(5),(6)	10,416,295(7) \$	8.41	
Total	59,892,928 \$	7.78	51,698,379(3)

- (1) The weighted-average exercise price does not take into account ordinary shares issuable upon the vesting of outstanding restricted share unit awards, which have no exercise price.
- (2) Includes 14,177,233 ordinary shares issuable upon the vesting of restricted share unit awards. The remaining balance consists of ordinary shares issuable upon the exercise of outstanding stock options. Approximately 30,000 shares subject to restricted share unit awards are subject to performance criteria which management of the company believes are not probable of being achieved and these awards are not expected to vest. For awards subject to market performance criteria, the amount reported reflects the number of shares to be issued if the target level is achieved. An additional 1,148,750 shares would be issued if the maximum market performance level is achieved.
- (3) Consists of ordinary shares available for grant under the 2010 Plan. The 2010 Plan provides for grants of up to 10.0 million ordinary shares, plus ordinary shares available for grant as a result of the forfeiture, expiration or termination of options and restricted share unit awards granted under such Prior Plans (if such ordinary shares are issued under such other stock options or restricted share unit awards, they will not become available under the 2010 Plan) and shares that were available for grant under the Prior Plans at the time of the consolidation of such plans into the 2010 Plan. Each ordinary share that is subject to a stock option is counted against this limit as one

Table of Contents

share. Each share that is subject to a restricted share unit award is counted against this limit as one and seventy-one hundredths (1.71) shares.

- (4) The 2004 Plan was established in October 2004 and consolidated into the 2010 Plan in 2010. Options granted under the 2004 Plan generally vest over four years and generally expire seven or ten years from the date of grant. Unvested options are forfeited upon termination of employment. The following table sets forth information as of May 31, 2012, except as otherwise indicated, regarding the beneficial ownership of our ordinary shares by:

each shareholder known to us to be the beneficial owner of more than 5% of our outstanding ordinary shares;

each of our named executive officers;

each director; and

all executive officers and directors as a group.

Unless otherwise indicated, the address of each of the individuals named below is: c/o Flextronics International Ltd., No. 2 Changi South Lane, Singapore 486123.

Information in this table as to our directors, named executive officers and all directors and executive officers as a group is based upon information supplied by these individuals. Information in this table as to our greater than 5% shareholders is based solely upon the Schedules 13G filed by these shareholders with the SEC. Where information regarding shareholders is based on Schedules 13G, the number of shares owned is as of the date for which information was provided in such schedules.

Beneficial ownership is determined in accordance with the rules of the SEC that deem shares to be beneficially owned by any person who has or shares voting or investment power with respect to such shares. Ordinary shares subject to options that are currently exercisable or are exercisable within 60 days of May 31, 2012, and ordinary shares subject to restricted share unit awards that vest within 60 days of May 31, 2012 are deemed to be outstanding and to be beneficially owned by the person holding such awards for the purpose of computing the percentage ownership of such person, but are not treated as outstanding for the purpose of computing the percentage ownership of any other person. Unless otherwise indicated below, the persons and entities named in the table have sole voting and sole investment power with respect to all the shares beneficially owned, subject to community property laws where applicable.

For each individual and group included in the table below, percentage ownership is calculated by dividing the number of shares beneficially owned by such person or group by the sum of the 669,782,730 shares of common stock outstanding on May 31, 2012 plus the number of shares of

CERTAIN RELATIONSHIPS AND RELATED PERSON TRANSACTIONS

Review of Related Person Transactions

Our Code of Business Conduct and Ethics provides guidance for addressing actual or potential conflicts of interests, including those that may arise from transactions and relationships between us and our executive officers or directors. In addition, in order to formalize our policies and procedures for the review, approval or ratification, and disclosure of related person transactions, our Board of Directors adopted a Statement of Policy with Respect to Related Person Transactions. The policy generally provides that the Nominating and Corporate Governance Committee (or another committee comprised solely of independent directors) will review, approve in advance or ratify, all related person transactions between us and any director, any nominee for director, any executive officer, any beneficial owners of more than 5% of our ordinary shares or any immediate family member of any of the foregoing individuals. Under the policy, some ordinary course transactions or relationships are not

required to be reviewed, approved or ratified by the applicable Board committee, including, among other things, the following transactions:

transactions involving less than \$25,000 for any individual related person;

compensation arrangements with directors and executive officers resulting solely from their service on the Board or as executive officers, so long as such arrangements are disclosed in our filings with the SEC or, if not required to be disclosed, are approved by our Compensation Committee; and

indirect interests arising solely from a related person's service as a director and/or owning, together with all other related persons, directly or indirectly, less than a 10% beneficial ownership interest in a third party (other than a partnership) which has entered into or proposes to enter into a transaction with us.

We have various procedures in place to identify potential related person transactions, and the Nominating and Corporate Governance Committee works with our management and our Office of General Counsel in reviewing and considering whether any identified transactions or relationships are covered by the policy. Our Statement of Policy with Respect to Related Person Transactions is included in our Guidelines with Regard to Certain Governance Matters, a copy of which is available along with a copy of the company's Code of Business Conduct and Ethics on the Corporate Governance page of our website at www.flextronics.com.
