NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in millions except per share amounts)

1. BACKGROUND AND BASIS OF PRESENTATION

Convergys Corporation (Convergys or the Company) is a global leader in customer experience outsourcing, focused on bringing value to its clients through every customer interaction. As of June 30, 2017, Convergys had approximately 120,000 employees in 33 countries, interacting with our clients' customers in 58 languages. In order to help clients serve their customers, Convergys operates 149 contact centers. Convergys leverages its geographic footprint and comprehensive capabilities to help leading companies create quality customer experiences across multiple interaction channels, such as voice, chat, email and interactive voice response.

The accompanying Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial reporting (U.S. GAAP) and U.S. Securities and Exchange Commission (SEC) regulations, and, in the opinion of management, include all adjustments necessary for a fair presentation of the results of operations, financial position and cash flows for each period shown. All adjustments are of a normal and recurring nature. Certain information and footnote disclosures normally included in Financial Statements prepared in accordance with generally accepted accounting principles in the United States have been condensed or omitted. Interim Consolidated Financial Statements are not necessarily indicative of the financial position or operating results for an entire year. These interim Consolidated Financial Statements should be read in conjunction with the audited Financial Statements and the Notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2016, filed with the SEC on February 22, 2017. Certain balances within the prior year Consolidated Financial Statements have been reclassified to conform to current year presentation.

2. RECENT ACCOUNTING PRONOUNCEMENTS

In January 2017, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2017-04, "Simplifying the Test for Goodwill Impairment." This ASU eliminates the two-step process that required identification of potential impairment and a separate measure of the actual impairment. Goodwill impairment charges, if any, would be determined by the difference between a reporting unit's carrying value and its fair value (impairment loss is limited to the carrying value). This standard is effective for annual or any interim goodwill impairment tests beginning after December 15, 2019. The adoption of this standard is not expected to have a material impact on the Company's consolidated financial statements.

In March 2017, the FASB issued ASU 2017-07, "Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Costs." This ASU requires the service component of pension and other postretirement benefit costs to be presented in the same line item as other employee compensation costs on the consolidated statement of income; however, the other components of net benefit cost are required to be presented outside of operating income within the consolidated statements of income. The Company retrospectively adopted this ASU on January 1, 2017. The impact of the adoption on balances previously reported as of June 30, 2016 were as follows:

Consolidated Statement of Income Caption	Three Months Ended June 30, 2016	
	Previously Reported	Currently Reported
Cost of providing services and products sold	\$435.9	\$435.1
Selling, general and administrative	\$170.0	\$169.5
Total costs and expenses	\$647.3	\$646.0
Operating Income	\$45.0	\$46.3
Other income (expense), net	\$0.5	(\$0.8)

Edgar Filing: CONVERGYS CORP - Form 10-Q

Consolidated Statement of Income Caption	Six Months Ended June 30, 2016		
	Previously Reported	Change	Currently Reported
Cost of providing services and products sold	\$887.1	(\$1.6)	\$885.5
Selling, general and administrative	\$341.5	(\$0.9)	\$340.6
Total costs and expenses	\$1,310.3	(\$2.5)	\$1,307.8
Operating Income	\$104.1	\$2.5	\$106.6
Other income (expense), net	\$0.5	(\$2.5)	(\$2.0)

In March 2016, the FASB issued ASU 2016-09, "Improvements to Employee Share-Based Payment Accounting." This ASU is intended to simplify accounting for share-based payments and requires that excess tax benefits for share-based payments be recorded as a reduction of income tax expense and reflected within operating cash flows rather than being recorded within equity and reflected within financing cash flows. The ASU also provides the option to recognize forfeitures as they occur rather than estimating the number of awards expected to be forfeited. The Company adopted this ASU as of January 1, 2017 and is applying the new guidance related to excess tax benefits on a prospective basis. The Company has elected to account for forfeitures of share-based payments as they occur and will no longer apply estimated forfeiture rates. As a result of this election, the Company recorded a \$0.6 cumulative-effect adjustment to the retained earnings balance as of January 1, 2017 for outstanding awards based on the difference between the fair value of awards historically expected to be forfeited and the fair value of awards actually forfeited.

In February 2016, the FASB issued ASU 2016-02, "Leases." This ASU will require lessees to recognize almost all leases on the balance sheet as a right-of-use asset and a lease liability. For income statement purposes, the FASB retained a dual model, requiring leases to be classified as finance leases or operating leases. This update is effective for interim and annual periods beginning after December 15, 2018 with early adoption permitted. The Company is currently assessing the effect that adoption of the new standard will have on its consolidated financial statements.

In May 2014, the FASB issued ASU 2014-09, "Revenue from Contracts with Customers." The standard will apply one comprehensive revenue recognition model across all contracts, entities and sectors. The core principal of the new standard is that revenue should be recognized to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Once effective, this ASU will replace most of the existing revenue recognition requirements of U.S. GAAP. This standard is effective for interim and annual reporting periods beginning after December 15, 2017. The Company's implementation activities related to this standard are aligned to meeting the required adoption date. The Company expects the largest impacts to its financial statements to result from the new qualitative and quantitative disclosures that will be required upon adoption of the new standard, and the capitalization of certain direct and incremental contract costs that will be required to be capitalized and amortized over the life of the corresponding contract. The Company has concluded that it will apply the modified retrospective adoption alternative for this standard, which will result in a cumulative effect adjustment to retained earnings as of January 1, 2018.

3. BUSINESS COMBINATIONS

buw Acquisition

On August 1, 2016, the Company acquired buw, a leader in the German customer care industry. The acquisition added 16 sites and approximately 6,000 employees in Germany, Hungary and Romania into Convergys' global operations. The total purchase price, net of cash acquired, was \$137.9, which was funded using available cash and cash equivalents.

Preliminary Purchase Price Allocation

The Company accounted for its acquisition of buw using the acquisition method of accounting in accordance with applicable U.S. GAAP whereby the total purchase price was allocated to tangible and intangible assets acquired and liabilities assumed based on respective fair values. The following table summarizes the preliminary values of the assets acquired and liabilities assumed at the date of acquisition:

	August 1, 2016
Assets:	
Receivables	\$36.2
Other current assets	1.3
Property and equipment	6.9
Goodwill	98.9
Intangible assets	22.7
Other assets	0.3
Liabilities:	
Accounts payable	(0.8)
Accrued expenses	(15.1)
Deferred tax - net	(6.7)
Other long-term liabilities	(5.8)
Total purchase price	\$137.9

As of June 30, 2017, the purchase price allocation for the acquisition was preliminary and subject to completion. Adjustments to the current fair value estimates in the above table may occur as the process conducted for various valuations and assessments is finalized. Goodwill is calculated as the excess of the consideration transferred over the net assets recognized and represents the synergistic benefits that are expected to be realized from the acquisition. The benefits primarily include an expanded geographic footprint in Germany and Eastern Europe. None of the goodwill is expected to be deductible for income tax purposes and was entirely allocated to the Customer Management - Agent Services reporting unit.

Intangible Assets Identified

The following details the total intangible assets identified:

Intangible asset type	Value	Life (years)
Customer relationship	\$22.0	10
Trade name	0.7	1
Total	\$22.7	

The fair value of the customer relationship asset was determined using the income approach through an excess earnings analysis, with projected earnings being discounted at a rate of 13.2%. The customer relationship intangible asset represents relationships between buw and its customers. Convergys applied the income approach through a relief-from-royalty analysis to determine the preliminary fair value of the buw trade name asset. The determination of the useful lives was based upon consideration of market participant assumptions and transaction specific factors.

4. EARNINGS PER SHARE AND SHAREHOLDERS' EQUITY

Earnings per Share

The following is a reconciliation of the numerator and denominator of the basic and diluted earnings per share (EPS) computations:

Edgar Filing: CONVERGYS CORP - Form 10-Q

Shares (in millions)	Shares	Net Income	Per Share Amount
Three Months Ended June 30, 2017			
Basic EPS	93.7	\$39.8	\$0.42

Diluted EPS	100.1	\$39.8	\$0.40
Six Months Ended June 30, 2017			
Basic EPS	94.0	\$77.7	\$0.83
Effect of dilutive securities:			
Stock-based compensation arrangements	0.7	—	(0.01)
Convertible Debt	5.9	—	(0.05)
Diluted EPS	100.6	\$77.7	\$0.77
Three Months Ended June 30, 2016			
Basic EPS	96.2	\$33.2	\$0.35
Effect of dilutive securities:			
Stock-based compensation arrangements	0.6	—	(0.01)
Convertible Debt	5.9	—	(0.02)
Diluted EPS	102.7	\$33.2	\$0.32
Six Months Ended June 30, 2016			
Basic EPS	96.4	\$77.7	\$0.81
Effect of dilutive securities:			
Stock-based compensation arrangements	0.7	—	(0.01)
Convertible Debt	5.9	—	(0.05)
Diluted EPS	103.0	\$77.7	\$0.75

The diluted EPS calculation for the three and six months ended June 30, 2017 excludes 0.3 performance-based restricted stock units granted in 2015, as the performance criteria has not yet been achieved, as well as 0.4 performance-based restricted stock units (0.1 and 0.3 granted in 2017 and 2016, respectively), as the performance criteria for the third year of the 2016 grants and the second and third years of the 2017 grants have not yet been fully defined, thereby precluding a grant for accounting purposes due to a lack of a mutual understanding of the terms of the stock-based awards.

The diluted EPS calculation for the three and six months ended June 30, 2017 includes 5.9 shares associated with the Company's convertible debt. As described more fully in Note 6, during 2009, the Company issued approximately \$125.0 aggregate principal amount of 5.75% Junior Subordinated Convertible Debentures due 2029 (2029 Convertible Debentures). The 2029 Convertible Debentures were convertible, subject to certain conditions, into shares of the Company's common stock at an initial implied conversion price of approximately \$12.07 per share, or eighty-two and eighty-two hundredths shares per one thousand dollars in principal amount of debentures. The conversion rate is subject to adjustment for certain events outlined in the indenture governing the 2029 Convertible Debentures (the Indenture), including payment of dividends. As of June 30, 2017, the implied conversion price for the 2029 Convertible Debentures was approximately \$11.25 per share, or eighty-eight and eighty-six hundredths shares per one thousand dollars in principal amount of debentures.

Shareholders' Equity

The Company repurchased 1.0 and 1.9 of its common shares during the three and six months ended June 30, 2017 at average prices of \$23.13 and \$23.13 per share for a total of \$22.0 and \$43.8. Based upon the timing of transactions, \$0.9 of the shares repurchased in December 2016 settled during the first quarter of 2017. Additionally, \$1.0 of the

shares repurchased during June 2017 had not settled as of June 30, 2017. These shares are excluded from outstanding shares at the end of the second quarter and were settled in cash during the third quarter of 2017.

As of June 30, 2017, the Company had the authority to repurchase \$99.3 of outstanding common shares pursuant to the Board of Directors' August 2015 increase of its then-existing authorization of share repurchases to \$250.0 in the aggregate. The timing and terms of any future share repurchases will depend on a number of considerations including market conditions, our available liquidity and capital needs, and limits on share repurchases that may be applicable under the covenants in our existing credit agreement.

Dividends

During 2016 and 2017, the Company's Board of Directors declared the following dividends per common share, which were paid by the Company on the payment dates listed below:

Announcement Date	Record Date	Dividend Amount	Payment Date
February 23, 2016	March 24, 2016	\$0.08	April 8, 2016
May 9, 2016	June 24, 2016	\$0.09	July 8, 2016
August 8, 2016	September 23, 2016	\$0.09	October 7, 2016
November 8, 2016	December 23, 2016	\$0.09	January 6, 2017
February 22, 2017	March 24, 2017	\$0.09	April 7, 2017
May 8, 2017	June 23, 2017	\$0.10	July 7, 2017

On August 8, 2017, the Company announced that its Board of Directors declared a quarterly cash dividend of \$0.10 per common share to be paid on October 6, 2017 to shareholders of record as of September 22, 2017.

The Board expects that future cash dividends will be paid on a quarterly basis. However, any decision to pay future cash dividends will be subject to Board approval, and will depend on the Company's future earnings, cash flow, financial condition, financial covenants and other relevant factors.

5. GOODWILL AND OTHER INTANGIBLE AND LONG-LIVED ASSETS

Goodwill

Goodwill was \$930.8 at June 30, 2017 compared to \$916.9 at December 31, 2016. This increase was primarily due to foreign currency translation. The Company tests goodwill for impairment annually as of October 1 and at other times if events have occurred or circumstances exist that indicate the carrying value of goodwill may no longer be recoverable. Goodwill impairment testing is performed at the reporting unit level, one level below the business segment. The Company's reporting units are Customer Management - Agent Services and Customer Management - Customer Interaction Technology (CIT). As of June 30, 2017 and December 31, 2016, all goodwill was held by the Customer Management - Agent Services reporting unit.

The annual impairment test performed as of October 1, 2016 indicated that the fair value of the Customer Management - Agent Services reporting unit was substantially in excess of its carrying value. However, impairment charges could be required if a divestiture decision is made or other significant economic events occur with respect to the reporting unit. Subsequent to our October 1, 2016 annual impairment test, no indications of an impairment were identified.

Other Intangible Assets

The Company's other intangible assets, primarily acquired through business combinations, are evaluated periodically if events or circumstances indicate a possible inability to recover their carrying amounts. No impairment charges were recognized in any period presented. As of June 30, 2017 and December 31, 2016, the Company's other intangible assets consisted of the following:

Edgar Filing: CONVERGYS CORP - Form 10-Q

	Gross Carrying Amount	Accumulated Amortization	Net
June 30, 2017			
Customer relationships and other intangibles	\$479.8	(\$184.8)	\$295.0
Trademarks	26.7	(24.0)	2.7
Software (classified within Property and equipment, net)	41.3	(41.3)	—
Total	\$547.8	(\$250.1)	\$297.7
December 31, 2016			
Customer relationships and other intangibles	\$474.0	(\$171.4)	\$302.6
Trademarks	26.5	(21.5)	5.0
Software (classified within Property and equipment, net)	41.3	(41.3)	—
Total	\$541.8	(\$234.2)	\$307.6

The intangible assets are being amortized using the following amortizable lives: 8 to 10 years for software, 1 to 4 years for trademarks and 1 to 17 years for customer relationships and other intangibles. The remaining weighted average amortization period for customer relationships and other intangibles is approximately 13.0 years. Amortization of software is included within depreciation expense as the underlying assets are classified within property and equipment.

Amortization expense for intangibles was \$14.5 and \$13.8 for the six months ended June 30, 2017 and 2016, respectively, and is estimated to be approximately \$28.8 for the year ended December 31, 2017. The related estimated expense for the five subsequent fiscal years is as follows:

For the year ended 2018	\$24.7
For the year ended 2019	24.0
For the year ended 2020	23.4
For the year ended 2021	21.7
For the year ended 2022	21.4
Thereafter	168.2

6. DEBT AND CAPITAL LEASE OBLIGATIONS

Debt and capital lease obligations consisted of the following:

	June 30, December 31,	
	2017	2016

Credit Facility

On January 11, 2017 (the Effective Date), the Company entered into a new credit agreement (New Credit Agreement) and repaid all amounts outstanding and terminated all commitments under its previously existing credit agreement

(Credit Agreement) using initial borrowings under the New Credit Agreement as well as borrowings under the Company's asset securitization facility. The New Credit Agreement consists of a \$215.0 unsecured term loan facility (New Term Loan), maturing on March 3, 2019, and a \$300.0 unsecured revolving credit facility (New Revolving Credit Facility), maturing on January 11, 2022. On the Effective Date, the Company drew \$100.0 in initial borrowings under the New Term Loan. A \$1.0 extinguishment loss was recognized on the Effective Date and is included in interest expense on the Consolidated Statement of Income.

The New Revolving Credit Facility may be extended for two additional one-year periods, subject to the satisfaction of certain conditions set forth in the New Credit Agreement. In addition, aggregate borrowing capacity under the New Credit Agreement may be increased by up to an additional \$250.0 million by increasing the amount of the Revolving Credit Facility or by incurring additional term loans, in each case subject to the satisfaction of certain conditions set forth in the New Credit Agreement, including the receipt of additional commitments for such increase. Borrowings outstanding under the New Credit Agreement may be repaid from time to time without premium or penalty, other than customary breakage costs, if any. Borrowings outstanding under the New Credit Agreement bear interest at a fluctuating rate per annum equal to, at the Company's option, either (a) the applicable adjusted LIBOR plus a spread based on the Company's total net leverage ratio, or (b) a base rate (equal to the higher of the Administrative Agent's prime rate, the federal fund rate plus 0.50%, and the one-month adjusted LIBOR plus 1.0%) plus a spread based on the Company's total net leverage ratio. The Company is also obligated to pay a commitment fee on a quarterly basis on the unused portion of the commitments under the New Revolving Credit Facility based on the Company's total net leverage ratio, which fee is currently 25 basis points. While amounts borrowed and repaid under the New Revolving Credit Facility can be re-borrowed, amounts repaid under the New Term Loan cannot be borrowed again under the New Credit Agreement. The New Credit Agreement contains certain affirmative and negative covenants, as well as terms and conditions that are customary for credit facilities of this type, including financial covenants for leverage and interest coverage ratios. The Company was in compliance with all covenants at June 30, 2017. Total borrowing capacity remaining under the New Revolving Credit Facility was \$300.0, with \$100.0 outstanding on the New Term Loan, as of June 30, 2017. The carrying value of the New Term Loan at June 30, 2017 reflects a discount of \$0.9 related to fees paid directly to the lenders at issuance. This discount is being amortized over the life of the New Term Loan using the effective interest rate method (3.3% as of June 30, 2017), and is included in interest expense in the Consolidated Statements of Income.

The Company established the Credit Agreement on February 28, 2014 in the aggregate amount of \$650.0. The Credit Agreement consisted of unsecured term loans (Term Loan) in the initial aggregate amount of \$350.0, and an unsecured revolving credit facility (Revolving Credit Facility) in the amount of \$300.0. The Term Loan and the Revolving Credit Facility were scheduled to mature on March 3, 2019. Outstanding amounts were subject to interest at the applicable rate described in the Credit Agreement.

Convertible Debentures

During 2009, Convergys issued \$125.0 aggregate principal amount of 5.75% Junior Subordinated Convertible Debentures due September 2029 (2029 Convertible Debentures) in exchange for \$122.5 of 4.875% Unsecured Senior Notes due December 15, 2009, pursuant to an exchange offer. At the date of issuance, the Company recognized the liability component of the 2029 Convertible Debenture at its fair value of \$56.3. The liability component was recognized as the fair value of a similar instrument that did not have a conversion feature at issuance. The equity component, which is the value of the conversion feature at issuance, was recognized as the difference between the proceeds from the issuance of the debentures and the fair value of the liability component, after adjusting for the deferred tax impact of \$32.7. The 2029 Convertible Debentures were issued at a coupon rate of 5.75%, which was below that of a similar instrument that did not have a conversion feature. Therefore, the valuation of the debt component, using the income approach, resulted in a debt discount. The debt discount is being amortized over the life of a similar debt instrument without a conversion feature, which the Company determined to equal the contractual maturity of the 2029 Convertible Debentures. Amortization is based upon the effective interest rate method and is included in interest expense in the Consolidated Statements of Income.

The 2029 Convertible Debentures, which pay a fixed rate of interest semi-annually, have a contingent interest component that will require the Company to pay additional interest if the trading price of the 2029 Convertible Debentures exceeds a specified threshold at specified times, commencing on September 15, 2019, as outlined in the Indenture. The maximum amount of contingent interest that will accrue is 0.75% per annum of the average trading price of the 2029 Convertible Debentures during the periods specified in the Indenture. The fair value of this embedded derivative was not significant at June 30, 2017 or December 31, 2016.

The Company is not entitled to redeem the 2029 Convertible Debentures prior to September 15, 2019. On or after September 15, 2019, the Company may redeem for cash all or part of the 2029 Convertible Debentures at par value plus accrued but unpaid interest if certain trading conditions of the Company's common shares are satisfied. The holders of the 2029 Convertible Debentures have the option to require redemption at par value plus accrued but unpaid interest upon the occurrence of a fundamental change, a defined term in the Indenture.

The 2029 Convertible Debentures are convertible at the option of the holders on or after September 15, 2028 and prior to that date only under the following circumstances: (1) during any calendar quarter if the last reported sales price of the Company's common shares for at least 20 trading days (whether or not consecutive) during a period of 30 consecutive trading days ending on the last trading day of the preceding calendar quarter is greater than or equal to 130% of the applicable conversion price (currently \$14.63) for the 2029 Convertible Debentures on each applicable trading day (hereinafter referred to as the Sales Price Condition); (2) during the five business day period immediately following any five consecutive trading day period (the Measurement Period) in which, as determined following a request by a holder of 2029 Convertible Debentures as provided in the Indenture, the trading price per \$1,000 principal amount of 2029 Convertible Debentures for each trading day of such Measurement Period was less than 98% of the product of the last reported sale price of the Company's common shares and the applicable conversion rate for the 2029 Convertible Debentures on each such trading day; (3) if the Company elects to redeem any or all of the 2029 Convertible Debentures; or (4) upon the occurrence of specified corporate events pursuant to the terms of the Indenture. Upon conversion, the Company will pay cash up to the aggregate principal amount of the 2029 Convertible Debentures to be converted and pay or deliver, as the case may be, cash, common shares of the Company or a combination of cash and common shares of the Company, at the Company's election, in respect of the remainder, if any, of the Company's conversion obligation in excess of the aggregate principal amount of the 2029 Convertible Debentures being converted.

The 2029 Convertible Debentures were convertible, subject to certain conditions, into common shares of the Company at an initial implied conversion price of approximately \$12.07 per share, or eighty-two and eighty-two hundredths shares per one thousand dollars in principal amount of debentures. As of June 30, 2017, the implied conversion price for the 2029 Convertible Debentures was approximately \$11.25 per share, or eighty-eight and eighty-six hundredths shares per one thousand dollars in principal amount of debentures. The conversion rate is subject to adjustment for certain events outlined in the Indenture, including payment of dividends.

As of June 30, 2017 and December 31, 2016, the 2029 Convertible Debentures were convertible at the option of the holders. This conversion right was triggered upon satisfaction of the Sales Price Condition (the closing price of the Company's common shares was greater than or equal to \$14.63, 130% of the conversion price of the 2029 Convertible Debentures at June 30, 2017, for at least 20 of the 30 consecutive trading days ending on June 30, 2017). As a result, the equity component of the 2029 Convertible Debentures equal to \$60.4 (the difference between the par value and carrying value of the 2029 Convertible Debentures at June 30, 2017) has been classified as temporary equity within the June 30, 2017 Consolidated Balance Sheet since this amount was considered redeemable. The Company will reassess the convertibility of the 2029 Convertible Debentures and the related balance sheet classification on a prospective basis. There have been no conversions of the 2029 Convertible Debentures through the date of this filing.

Based on quoted market prices at June 30, 2017, the fair value of the \$125.0 aggregate principal amount of the Company's 2029 Convertible Debentures is \$277.0.

Asset Securitization Facility

During January 2017, the Company amended the terms of its asset securitization facility collateralized by accounts receivable of certain of the Company's subsidiaries. The amendment resulted in an increased purchase limit of \$225.0, with \$90.0 and \$135.0 expiring in January 2018 and January 2020, respectively. As of December 31, 2016, the asset securitization facility had a purchase limit of \$150.0 expiring in January 2017. The asset securitization program is conducted through Convergys Funding Inc., a wholly-owned bankruptcy remote subsidiary of the Company. As of June 30, 2017 and December 31, 2016, Convergys had drawn \$125.0 and \$20.0, respectively, in available funding from qualified receivables. Amounts drawn under this facility have been classified as long-term debt within the Consolidated Balance Sheets, based on the Company's ability and intent to refinance on a long-term basis as of June 30, 2017.

At June 30, 2017, future minimum payments of the Company's debt and capital lease arrangements (exclusive of any debt discounts) are as follows:

2017	\$0.6
2018	50.9
2019	100.6
2020	75.5
2021	—
2022	—
Thereafter	125.0
Total	\$352.6

7. RESTRUCTURING

2017 Restructuring

Company-wide restructuring program

The Company recorded restructuring expenses of \$12.8 for the six months ended June 30, 2017, related to a company-wide initiative to reduce headcount and better align the Company's resources, principally for corporate functions. The 2017 restructuring actions impacted approximately 315 employees. This expense is included in Restructuring charges on the Consolidated Statements of Income and is expected to be substantially paid in cash by March 31, 2018. The total remaining liability under these restructuring actions, which is included in Payables and other current liabilities on the Consolidated Balance Sheet, was \$8.2 as of June 30, 2017 and \$10.2 as of March 31, 2017.

Other Severance

The Company recorded other severance expense of \$1.7 and \$3.9, respectively, for the three and six months ended June 30, 2017, primarily related to headcount reductions resulting from certain client program completions. These actions impacted approximately 250 employees. This severance expense is included in Restructuring charges on the Consolidated Statements of Income and is expected to be substantially paid in cash by December 31, 2017. The total remaining liability under these severance-related actions, which is included in Payables and other current liabilities on the Consolidated Balance Sheet, was \$0.8 as of June 30, 2017 and \$1.4 as of March 31, 2017.

buw integration

The Company recorded severance expense totaling \$0.1 and \$1.0, respectively, for the three and six months ended June 30, 2017, related to the elimination of certain redundant positions as a result of the integration of the buw business. This severance expense was included in Transaction and integration costs on the Consolidated Statements of

Income and is expected to be substantially paid in cash by December 31, 2017. The total remaining liability under these severance-related actions, which is included in Payables and other current liabilities on the Consolidated Balance Sheet, was \$0.5 as of both June 30, 2017 and March 31, 2017.

2016 Restructuring

During 2016, the Company recorded severance charges of \$3.7 related to the Company's ongoing efforts to refine its operating model and reduce costs, as well as headcount reductions resulting from certain client program completions. The 2016 actions impacted approximately 760 employees. These severance-related charges were fully paid in cash by June 30, 2017.

8. EMPLOYEE BENEFIT PLANS

Pensions

The Company sponsors a frozen defined benefit pension plan, which includes both a qualified and non-qualified portion, for all eligible employees in the U.S. (the cash balance plan) and unfunded defined benefit plans for certain eligible employees in the Philippines, Malaysia and France (together with the cash balance plan, the defined benefit plans). The pension benefit formula for the cash balance plan is determined by a combination of compensation and age-based credits and annual guaranteed interest credits. The qualified portion of the cash balance plan has been funded through contributions made to a trust fund. The Company's measurement date for all plans is December 31. The plan assumptions are evaluated annually and are updated as deemed necessary.

Components of pension cost and other amounts recognized in other comprehensive income for the Company's defined benefit plans are as follows:

	Three Months Ended June 30, 2017		Six Months Ended June 30, 2016	
Service cost	\$1.4	\$1.6	\$2.7	\$3.3
Interest cost on projected benefit obligation	1.9	2.2	3.8	4.4
Expected return on plan assets	(2.5)	(2.5)	(5.0)	(5.0)
Amortization and deferrals—net	1.4	1.7	2.9	3.4
Total net pension cost	\$2.2	\$3.0	\$4.4	\$6.1

The Company also sponsors a non-qualified, unfunded executive deferred compensation plan (the EDCP), which permits eligible participants, including executive officers, to defer receipt of certain income. The Company matches up to 100% of the first 3% of a participant's deferred amounts and 50% of a participant's next 2% of deferred amounts. The Company match under the EDCP is reduced by the Company match eligible to be received under the Company's Retirement and Savings Plan.

Components of pension cost and other amounts recognized in other comprehensive loss for the EDCP are as follows:

	Three Months Ended June 30, 2017		Six Months Ended June 30, 2016	
Service cost	\$0.5	\$0.3	\$0.9	\$0.6
Interest cost on projected benefit obligation	0.1	0.1	0.2	0.2

Total pension cost \$0.6\$0.4 \$1.1\$0.8

9. STOCK-BASED COMPENSATION PLANS

The Company's operating results for the three and six months ended June 30, 2017 included stock-based compensation expense of \$4.2 and \$8.5, respectively, compared to \$5.0 and \$9.2, respectively, for the same periods in 2016. Expense for the three and six months ended June 30, 2017 included \$0.1 and less than \$0.1, respectively, related to awards classified as liabilities that will ultimately settle in cash compared to \$0.5 and \$0.9, respectively, for the same periods in the prior year.

Restricted Stock Units

Time-based Restricted Stock Units

During the six months ended June 30, 2017 and 2016, the Company granted 0.2 and 0.5 shares, respectively, of time-based restricted stock units. The weighted average grant date fair values of these grants were \$23.06 and \$26.43, respectively. These time-based grants are scheduled to vest 25% at the first anniversary of the grant date, 25% at the second anniversary and 50% at the third anniversary.

The total compensation cost related to non-vested time-based restricted stock units not yet recognized as of June 30, 2017 was approximately \$14.7, which is expected to be recognized over a weighted average period of 1.7 years. Changes to non-vested time-based restricted stock units for the six months ended June 30, 2017 were as follows:

Shares (in millions)	Number of Shares	Weighted Average Fair Value at Date of Grant
Non-vested at December 31, 2016	1.3	\$23.23
Granted	0.2	23.06
Vested	(0.5)	22.72
Forfeited	—	—
Non-vested at June 30, 2017	1.0	\$23.38

Performance-based Restricted Stock Units

During the six months ended June 30, 2017 and 2016, the Company granted 0.3 and 0.3 shares, respectively, of performance-based restricted stock units. These grants provide for payout based upon the extent to which the Company achieves certain EPS targets, as determined by the Compensation and Benefits Committee of the Board of Directors, over three-year periods. Payout levels for earned shares range from 50% to 200% of award shares. No payout is earned if performance is below the performance minimum threshold level. At June 30, 2017, the targets for the third year of the 2016 grants and the second and third years of the 2017 grants had not yet been set, the key terms had not been effectively communicated to the recipients, and as such the expense related to these grants had not yet been recognized. These grants have been excluded from the table below.

During 2017, the Company established and communicated to participants the final key terms of the 2015 grants, resulting in grants for accounting purposes of 0.3 shares with a grant date fair value of \$21.27 per share. The total compensation cost related to the 2015 non-vested performance-based restricted stock units not yet recognized as of June 30, 2017 was approximately \$4.5, which is expected to be recognized ratably over the remaining vesting period ending in February 2018.

Changes to non-vested performance-based restricted stock units for the six months ended June 30, 2017 were as follows:

Edgar Filing: CONVERGYS CORP - Form 10-Q

Shares (in millions)	Number of Shares	Weighted Average Fair Value at Date of Grant
Non-vested at December 31, 2016	0.3	\$26.48

10. COMMITMENTS AND CONTINGENCIES

Commitments

At June 30, 2017, the Company had outstanding letters of credit and bond obligations of \$22.4 related to performance guarantees. The Company believes that any guarantee obligation that may arise will not be material. The Company also has future purchase commitments with telecommunication and transportation providers of \$8.4 for the remainder of 2017.

Contingencies

The Company, from time to time, is subject to various loss contingencies, including tax and legal contingencies that arise in the ordinary course of business. The Company accrues for a loss contingency when it is probable that a liability has been incurred and the amount of such loss can be reasonably estimated. At this time, the Company believes that any such contingencies, either individually or in the aggregate, will not have a materially adverse effect on the Company's results of operations or financial condition. However, the outcome of litigation cannot be predicted with certainty, and unfavorable resolution of one or more pending matters could have a materially adverse impact on the Company's results of operations or financial condition in the future.

11. FINANCIAL INSTRUMENTS

Derivative Instruments

The Company is exposed to a variety of market risks, including the effects of changes in foreign currency exchange rates and interest rates. The Company's risk management strategy includes the use of derivative instruments to reduce the effects on its operating results and cash flows from fluctuations caused by volatility in currency exchange rates.

The Company serves many of its U.S.-based clients using contact center capacity outside of the U.S. Although the contracts with these clients are typically priced in U.S. dollars, a substantial portion of the costs incurred to deliver services under these contracts are denominated in the local currency of the country where services are provided, which represents a foreign exchange exposure. The Company has hedged a portion of its exposure related to the anticipated cash flow requirements denominated in some of the aforementioned foreign currencies by entering into hedging contracts with several financial institutions to acquire a total of PHP 36,765.0 at a fixed price of \$745.4 at various dates through March 2020, INR 12,435.0 at a fixed price of \$171.0 at various dates through March 2020, CAD 54.8 at a fixed price of \$41.5 at various dates through December 2019 and COP 28,200.0 at a fixed price of \$8.9 at various dates through December 2018, and to sell a total of AUD 18.0 at a fixed price of \$13.4 at various dates through March 2018. These instruments mature within the next 33 months and had a notional value of \$964.9 at June 30, 2017 and \$959.0 at December 31, 2016. The derivative instruments discussed above are designated and are effective as cash flow hedges. The following table reflects the fair values of these derivative instruments:

	June 30, 2017	December 31, 2016
Forward exchange contracts and options designated as hedging instruments:		
Included within other current assets	\$9.2	\$3.0
Included within other non-current assets	6.0	2.3
Included within other current liabilities	21.7	31.3
Included within other long-term liabilities	9.4	15.4

The Company recorded a deferred tax benefit of \$6.1 and \$15.9 related to these derivatives at June 30, 2017 and December 31, 2016, respectively. A total of \$9.8 and \$25.5 of deferred losses, net of tax, related to these cash flow hedges at June 30, 2017 and December 31, 2016, respectively, were included in accumulated other comprehensive loss (OCL). As of June 30, 2017, deferred losses of \$12.5 (\$7.7 net of tax) on derivative instruments included in accumulated OCL are expected to be reclassified into earnings during the next 12 months. The following tables provide the effect of these derivative instruments on the Company's Consolidated Financial Statements during the three and six months ended June 30, 2017 and 2016, respectively:

	Gain (Loss) Recognized in OCL on Derivative (Effective Portion)	Gain (Loss) Reclassified from Accumulated OCL into Income (Effective Portion)	Location of Gain (Loss) Reclassified from Accumulated OCL into Income (Effective Portion)

----------------------------	--------	----------	---	--

The gain or loss recognized related to the ineffective portion of the derivative instruments was immaterial for the three months ended June 30, 2017 and 2016.

The Company also enters into derivative instruments (forwards) to economically hedge the foreign currency impact of assets and liabilities denominated in nonfunctional currencies. During the six months ended June 30, 2017, a loss of \$12.0 was recognized related to changes in fair value of these derivative instruments not designated as hedges, compared to a gain of \$1.0 in the same period in 2016. The gains and losses largely offset the currency gains and losses that resulted from changes in the assets and liabilities denominated in nonfunctional currencies. These gains and losses are classified within other income, net in the accompanying Consolidated Statements of Income. The fair value of these derivative instruments not designated as hedges at June 30, 2017 was a \$3.0 payable.

Short-term Investments

As of June 30, 2017 and December 31, 2016, the Company held investment securities with a fair value of \$12.2 and \$12.4, respectively, that are held in a grantor trust for the benefit of participants in the EDCP and reflect the hypothetical investment balances of EDCP participants. The securities are classified as trading securities and included within short-term investments in the Consolidated Balance Sheets. The investment securities include exchange-traded mutual funds and money market accounts. These securities are carried at fair value, with gains and losses, both realized and unrealized, reported in other income (expense), net in the Consolidated Statements of Income. The cost of securities sold is based upon the specific identification method. Interest and dividends on securities classified as trading are included in other income (expense), net.

12. FAIR VALUE MEASUREMENTS

U.S. GAAP defines a hierarchy which prioritizes the inputs in measuring fair value. The three levels of the fair value hierarchy are as follows: Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities; Level 2 inputs are quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly through market corroboration, for substantially the full term of the financial instrument; and Level 3 inputs are unobservable inputs based on the Company's assumptions used to measure assets and liabilities at fair value. A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement.

At June 30, 2017 and December 31, 2016, the Company had foreign currency forward contracts measured at fair value. The fair values of these instruments were measured using valuations based upon quoted prices for similar assets

Edgar Filing: CONVERGYS CORP - Form 10-Q

and liabilities in active markets (Level 2) and are valued by reference to similar financial instruments, adjusted for terms specific to the contracts. There were no transfers between the three levels of the fair value hierarchy during the six months ended June 30, 2017 and June 30, 2016. The derivative assets and liabilities measured at fair value on a recurring basis as of June 30, 2017 and December 31, 2016 were as follows:

	June 30, 2017	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Derivatives:				
Foreign currency forward contracts (asset position)	\$15.4	\$—	\$15.4	\$—
Foreign currency forward contracts (liability position)	\$34.4	\$—	\$34.4	\$—

	December 31, 2016	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Derivatives:				
Foreign currency forward contracts (asset position)	\$5.6	\$—	\$5.6	\$—
Foreign currency forward contracts (liability position)	\$49.0	\$—	\$49.0	\$—

The Company also had investment securities held in a grantor trust for the benefit of participants of the EDCP measured at fair value at June 30, 2017 and December 31, 2016. These investments are recorded as short-term investments on the Consolidated Balance Sheets. The fair value of these instruments was measured using the quoted prices in active markets for identical assets (Level 1). There were no transfers between the three levels of the fair value hierarchy during the six months ended June 30, 2017 and June 30, 2016. The assets measured at fair value on a recurring basis as of June 30, 2017 and December 31, 2016 were as follows:

	June 30, 2017	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investment securities:

13. INCOME TAXES

The effective tax rate on net income was 13.7% and 14.5% for the three and six months ended June 30, 2017 compared to 19.0% and 18.7%, respectively, in the same period last year. The effective tax rates for both periods were largely impacted by the geographic mix of worldwide income and certain discrete items.

The liability for unrecognized tax benefits was \$21.3 and \$20.8 at June 30, 2017 and December 31, 2016, respectively, and is included in other long-term liabilities in the accompanying Consolidated Balance Sheets. As of June 30, 2017, the total amount of unrecognized tax benefits that would affect income tax expense if recognized in the Consolidated Financial Statements is \$18.5. This amount includes interest and penalties of \$9.4. It is reasonably possible that the total amount of unrecognized tax benefits will decrease between approximately \$1.8 and \$16.1 in the next twelve months; however, actual developments in this area could differ from those currently expected.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(Amounts in millions except per share amounts)

BACKGROUND

Convergys Corporation (Convergys, the Company or we) is a global leader in customer experience outsourcing, focused on bringing value to our clients through every customer interaction. We provide global, multi-channel agent, analytics and technology solutions that we believe deliver superior business outcomes for our clients. Convergys has approximately 120,000 employees working in 33 countries, interacting with our clients' customers in 58 languages. As a global provider in the industry, Convergys has a history of commitment and dedication to excellence in serving many of the world's largest brands. Our business model allows us to deliver consistent, quality service, at scale in the geographies that meet our clients' business needs. We proactively partner to solve client business challenges through our account management model. Our geographic footprint and comprehensive capabilities help leading companies create brand-differentiated customer experiences across all interaction channels to generate revenue and reduce their cost to serve. We are a well-capitalized leader in our market and are able to invest in the services, technology, and analytics that matter to our clients and their customers.

Operations and Structure

On August 1, 2016, Convergys acquired buw, a leader in the German customer care industry. The acquisition added 16 sites and approximately 6,000 employees from Germany, Hungary and Romania into Convergys' global operations.

We believe our global clients benefit from our worldwide workforce located in key geographies, including the United States, the Philippines, Germany, the United Kingdom, India, Canada, Tunisia, Costa Rica, the Dominican Republic, Colombia, Egypt, France, Ireland, Italy, Poland, Romania, China, Malaysia, El Salvador, Honduras, Nicaragua, Bulgaria, Hungary, the Netherlands, Spain, Sweden, Australia, Brazil, Indonesia, Mauritius, Singapore, South Africa, and the United Arab Emirates.

Agent-related revenues, which accounted for 95% of our revenues for the six months ended 2017, are typically recognized as services are performed based on staffing hours or the number of contacts handled by service agents using contractual rates. Remaining revenues are derived from the sale of premise-based and hosted self-care and technology solutions and provision of professional services. Revenues from the sale of these solutions and provision of services are typically recognized as services are provided over the duration of the contract using contractual rates.

Additional Information

The Company files annual, quarterly and current reports and proxy statements with the SEC. These filings are available to the public over the Internet on the SEC's website at <http://www.sec.gov> and on the Company's website at <http://www.convergys.com>. The Company's website and the information contained therein are not incorporated by reference into this quarterly report. You may also read and copy any document we file with the SEC at its public reference room located at 100 F Street, N.E., Washington, DC 20549. You may call the SEC at 1-800-SEC-0330 for further information on the operation of the public reference room.

FORWARD-LOOKING STATEMENTS

This report contains statements, estimates, or projections that constitute “forward-looking statements” as defined under U.S. federal securities laws. In some cases, one can identify forward looking statements by terminology such as “will,” “expect,” “estimate,” “think,” “forecast,” “guidance,” “outlook,” “plan,” “lead,” “project” or other comparable terminology. Forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from our historical experience and our present expectations or projections. These risks include, but are not limited to: (i) the loss of a significant client or significant business from a client; (ii) the future financial performance or outsourcing trends of our largest clients and the major industries that we serve; (iii) contractual provisions that may limit our profitability or enable our clients to reduce or terminate services; (iv) our failure to successfully acquire and integrate businesses, including buw; (v) our inability to protect proprietary or personally identifiable data against unauthorized access or unintended release; (vi) the effects of complying with jurisdiction-specific data privacy requirements, including increased expenses, operational and contractual changes, and diversion of resources; (vii) our inability to maintain and upgrade our technology and network equipment in a timely and cost effective manner; (viii) business and political risks, including ongoing political developments in the Philippines, uncertainty regarding the impact of Britain’s vote to leave the European Union (“Brexit”) or other similar actions by European Union member states, and economic weakness and operational disruption as a result of natural events, political unrest, war, terrorist attacks or other civil disruption; (ix) the effects of foreign currency exchange rate fluctuations; (x) the failure to meet expectations regarding our future tax liabilities, changes in tax laws or regulations that increase our future tax liabilities or the unfavorable resolution of tax contingencies; (xi) adverse effects of regulatory requirements or changes thereto, investigative and legal actions, and other commitments and contingencies; (xii) costs associated with conversions of our convertible debentures that may occur from time to time; and (xiii) those factors contained in our periodic reports filed with the SEC, included in the “Risk Factors” section of our most recent Annual Report on Form 10-K. The forward-looking information in this document is given as of the date of the particular statement and we assume no duty to update this information.

Three Months Ended June 30, 2017 versus Three Months Ended June 30, 2016

Consolidated revenues for the second quarter of 2017 were \$686.8, a 1% decrease from \$692.3 in the same period prior year. Revenues from the acquired buw operations increased revenue by approximately 6%. Changes in currency exchange rates resulted in reduced revenues of approximately 1% in the current quarter as the U.S. dollar strengthened relative to the euro and British pound. Revenues from communications clients decreased 9% from the second quarter of 2016, reflecting a shift of volumes to lower-cost geographies, consolidation of certain programs with our two largest clients, volume decreases with other existing clients and unfavorable currency exchange rate impacts. These decreases were partially offset by revenues from a new client and revenues from the acquired buw operations. Revenues from technology clients decreased 9% from the second quarter of 2016, reflecting volume reductions and unfavorable currency exchange rate impacts. Revenues from financial services clients increased 18% from the second

Edgar Filing: CONVERGYS CORP - Form 10-Q

quarter of 2016, reflecting revenues from new clients and volume increases with several existing clients, as well as revenue from the acquired buw operations, partially offset by volume decreases with other clients. Revenues from all other clients increased 21% from the second quarter of 2016 as a result of volume increases with several existing clients, as well as revenues from the acquired buw operations and revenues from new clients.

Six Months Ended June 30, 2017 versus Six Months Ended June 30, 2016

Consolidated revenues for the six months ended June 30, 2017 were \$1,414.4, consistent with the same period in the prior year. Revenues related to the acquired buw operations increased revenues by approximately 6%. Changes in currency exchange rates resulted in reduced revenues of approximately 1% in the current year as the U.S. dollar strengthened relative to the euro and British pound. Revenues from communications clients decreased 9% from the first half of 2016, reflecting a shift of volumes to lower-cost geographies, volume reductions and program completions with certain existing clients, as well as unfavorable currency exchange rate impacts. These decreases were partially offset by revenues from a new client and revenues from the acquired buw operations. Revenues from technology clients decreased 9% from the first half of 2016 due to volume reductions and unfavorable currency exchange rate impacts, partially offset by volume increases with other existing clients. Revenues from financial services clients increased 19% from the first half of 2016, reflecting revenues from new clients and volume increases with several existing clients, as well as revenue from the acquired buw operations, partially offset by volume decreases with other clients. Other revenues increased 26% from the first half of 2016. This increase is attributable to volume increases and new programs with existing clients, as well as revenues from the acquired buw operations and revenues from new clients.

Three Months Ended June 30, 2017 versus Three Months Ended June 30, 2016

Total operating costs and expenses for the second quarter of 2017 of \$638.0 decreased 1% from \$646.0 in the same period in the prior year. Operating costs associated with the acquired buw operations increased total costs and expenses by approximately 6% in the second quarter. Changes in currency exchange rates reduced operating costs and expenses by approximately 3% in the second quarter. Operating costs for the prior year quarter included charges for transaction related expenses of \$1.2 related to the acquisition of buw that are not recurring in the current quarter. As a percentage of revenues, the cost of providing services and products sold was 62.1% in the second quarter of 2017 compared to 62.8% in the prior year period, primarily as a result of the timing of certain program implementations, changes in the mix of geographies where services are provided, and favorable currency exchange impacts. Selling, general and administrative expenses of \$174.1 in the second quarter of 2017 increased by 3% compared to the prior year period as a result of expenses from the acquired buw operations, partially offset by favorable currency exchange impacts and savings realized from our 2017 company-wide restructuring program. As a percentage of revenues, selling, general, and administrative cost was 25.3% in the second quarter of 2017 compared to 24.5% in the prior year period. Depreciation expense of \$27.1 decreased \$4.1 from the prior year period, while

amortization expense of \$7.3 increased \$0.4. The decrease in depreciation expense resulted from the timing of certain assets becoming fully depreciated, as well as lower depreciation from the fair value write-up of property and equipment acquired through business combinations. The increase in amortization expense resulted from acquired intangible assets from the buw acquisition.

Six Months Ended June 30, 2017 versus Six Months Ended June 30, 2016

Total operating costs and expenses for the first half of 2017 of \$1,316.8 increased slightly from \$1,307.8 for the first half of 2016. Operating costs associated with the acquired buw operations increased total costs and expenses by approximately 6% in the current period. Changes in currency exchange rates reduced operating costs and expenses by approximately 3% for the six months ended June 30, 2017. Total operating costs and expenses for the six months ended June 30, 2017 and 2016 also included charges for integration related expenses of \$2.6 and \$1.1, respectively, associated with business acquisitions. Operating costs for 2016 also included charges for transaction related expenses of \$1.2 related to the acquisition of buw. As a percentage of revenues, the cost of providing services and products sold was 62.0% for the first six months of 2017, compared to 62.6% in the prior year period, largely due to the timing of certain program implementations. Selling, general and administrative expenses of \$351.6 in the first half of 2017 increased by 3% compared to the prior year period as a result of expenses from the acquired buw operations, partially offset by favorable currency exchange impacts and savings realized from our 2017 company-wide restructuring program. As a percentage of revenue, selling, general and administrative expense was 24.9% for the first six months of 2017 compared to 24.1% in the prior year period. Depreciation expense of \$54.5 decreased \$8.6 from the prior year period, while amortization expense of \$14.5 increased \$0.7. The decrease in depreciation expense resulted from the timing of certain assets becoming fully depreciated, as well as lower depreciation from the fair value write-up of property and equipment acquired through business combinations. The increase in restructuring expense is a result of the \$12.8 charge in the six months ended June 30, 2017 associated with a company-wide initiative to reduce headcount and better align the Company's resources, principally for corporate functions.

Operating Income and Adjusted Operating Income (a non-GAAP measure)

In order to assess the underlying operational performance of the business and to have a basis to compare underlying results to prior and future periods, we provide the non-GAAP measures, Adjusted Operating Income and Adjusted Operating Margin (Adjusted Operating Income divided by Total Revenues), in the table below. For the three and six months ended June 30, 2017 and 2016, Adjusted Operating Income and Adjusted Operating Margin exclude the following operating charges:

1. Restructuring charges of \$12.8 for the six months ended June 30, 2017, associated with a company-wide initiative to reduce headcount and better align the Company's resources, principally for corporate functions;
2. Depreciation of \$0.9 and \$1.9 for the three and six months ended June 30, 2017, respectively, and \$2.3 and \$5.5, respectively, in the prior year periods, resulting from the fair value write-up of property and equipment acquired through business combinations;
3. Acquisition integration expenses of \$1.1 and \$2.6 for the three and six months ended June 30, 2017, respectively, and \$1.1 for the three and six months ended June 30, 2016, primarily related to fees for third-party consulting services and severance expense;
4. Amortization of acquired intangible assets of \$7.3 and \$14.5 for the three and six months ended June 30, 2017, respectively, and \$6.9 and \$13.8, respectively, in the prior year periods;
5. Transaction expenses of \$1.2 for the three and six months ended June 30, 2016, associated with the acquisition of buw, primarily related to fees paid for third-party consulting services.

Adjustments for these items are relevant in evaluating the overall performance of the business. Limitations associated with the use of these non-GAAP measures include that these measures do not present all of the amounts associated

Edgar Filing: CONVERGYS CORP - Form 10-Q

with our results as determined in accordance with GAAP. Management compensates for this limitation by using both the non-GAAP measures and the GAAP measures in its evaluation of performance. These non-GAAP measures should be considered supplemental in nature and should not be construed as being more important than comparable GAAP measures.

The effective tax rate on net income was 14.5% for the six months ended June 30, 2017 compared to an effective tax rate of 18.7% in the same period last year. The effective tax rates for both periods were largely impacted by the geographic mix of worldwide income and certain discrete items.

Net Income; Earnings per Diluted Share; Adjusted Net Income (a non-GAAP measure); Adjusted Earnings per Diluted Share (a non-GAAP measure)

In order to assess the underlying operational performance of the business, we provide non-GAAP measures in the tables below that exclude the operating charges discussed above.

We use net income and earnings per share data excluding the operating charges discussed above and the income tax impact from these charges to assess the underlying operational performance of the business and to have a basis to compare underlying results to prior and future periods. Adjustments for these items are relevant in evaluating the overall performance of the business. Limitations associated with the use of these non-GAAP measures include that these measures do not present all of the amounts associated with our results as determined in accordance with GAAP. Management compensates for these limitations by using the non-GAAP measures, net income and diluted earnings per share excluding these items, and the GAAP measures, net income and diluted earnings per share, in its evaluation of performance. Three Months Ended June 30, 2017 versus Three Months Ended June 30, 2016

Net income for the second quarter of 2017 was \$39.8 compared to \$33.2 for the same period in 2016, while income per diluted share for the second quarter in 2017 was \$0.40 compared to \$0.32 for the same period in 2016. Excluding the operating charges discussed above and the income tax impact from these charges, adjusted net income for the second quarter of 2017 was \$46.1, or \$0.46 per diluted share, compared to \$41.6, or \$0.41 per diluted share for the same period in 2016.

Six Months Ended June 30, 2017 versus Six Months Ended June 30, 2016

Net income for the first half of 2017 was \$77.7 compared to \$77.7 for the same period in 2016, while income per diluted share for the first half of 2017 was \$0.77 compared to \$0.75 for the same period in 2016. Excluding the operating charges discussed above and the income tax impact from these charges, adjusted net income for the first half of 2017 was \$98.2, or \$0.98 per diluted share, compared to \$93.2, or \$0.91 per diluted share for the same period in 2016.

EBITDA and Adjusted EBITDA (non-GAAP measures)

Management uses EBITDA, EBITDA margin (EBITDA divided by Total Revenues), Adjusted EBITDA, Adjusted EBITDA margin (Adjusted EBITDA divided by Total Revenues) and the GAAP measure, net income, to monitor and evaluate the underlying performance of the business and believes the presentation of these measures enhances investors' ability to analyze trends in the business and evaluate our underlying performance relative to other companies in the industry. EBITDA and Adjusted EBITDA should not be considered in isolation or as a substitute for net income or other income statement data prepared in accordance with GAAP, and our presentation of EBITDA and adjusted EBITDA may not be comparable to similarly-titled measures used by other companies. These non-GAAP measures should be considered supplemental in nature and should not be construed as being more important than comparable GAAP measures.

RESTRUCTURING CHARGES

As discussed in Note 7 of the Notes to Consolidated Financial Statements, we recorded the following restructuring charges:

2017 Restructuring

Company-wide restructuring program

The Company recorded restructuring expenses of \$12.8 for the six months ended June 30, 2017, related to a company-wide initiative to reduce headcount and better align the Company's resources, principally for corporate functions. The 2017 restructuring actions impacted approximately 315 employees. This expense is included in Restructuring charges on the Consolidated Statements of Income and is expected to be substantially paid in cash by March 31, 2018. The total remaining liability under these restructuring actions, which is included in Payables and other current liabilities on the Consolidated Balance Sheet, was \$8.2 as of June 30, 2017 and \$10.2 as of March 31, 2017.

Other Severance

The Company recorded other severance expense of \$1.7 and \$3.9, respectively, for the three and six months ended June 30, 2017, primarily related to headcount reductions resulting from certain client program completions. These actions impacted approximately 250 employees. This severance expense is included in Restructuring charges on the Consolidated Statements of Income and is expected to be substantially paid in cash by December 31, 2017. The total remaining liability under these severance-related actions, which is included in Payables and other current liabilities on the Consolidated Balance Sheet, was \$0.8 as of June 30, 2017 and \$1.4 as of March 31, 2017.

buw integration

The Company recorded severance expense totaling \$0.1 and \$1.0, respectively, for the three and six months ended June 30, 2016, related to the elimination of certain redundant positions as a result of the integration of the buw business. This severance expense was included in Transaction and integration costs on the Consolidated Statements of Income and is expected to be substantially paid in cash by December 31, 2017. The total remaining liability under these severance-related actions, which is included in Payables and other current liabilities on the Consolidated Balance Sheet, was \$0.5 as of June 30, 2017 and March 31, 2017.

2016 Restructuring

During 2016, the Company recorded severance charges of \$3.7 related to the Company's ongoing efforts to refine its operating model and reduce costs, as well as headcount reductions resulting from certain client program completions. The 2016 actions impacted approximately 760 employees. These severance-related charges were fully paid in cash by June 30, 2017.

Savings from Restructuring Plans

The 2017 company-wide restructuring program is expected to result in cost reductions of approximately \$21.0 and cash savings of approximately \$19.0 on an annualized basis. The impact of these cost reductions will be spread across our operating expenses, primarily in the selling, general and administrative expense caption of our Consolidated Statements of Income. The impact on liquidity was not material for any of our restructuring plans. Savings associated with the 2016 severance actions were not material.

CLIENT CONCENTRATION

During the first six months of 2017, our three largest clients accounted for 30.9% of our revenues, compared to 36.3% in the same period of 2016. Our largest client, AT&T, accounted for 17.8% of revenues in the first six months of 2017 and 20.9% of revenue in the same period in the prior year. No other client accounted for more than 10% of our

consolidated revenues for the first half of 2017 and 2016. Revenues with our three largest clients are earned under multiple contracts and are subject to variation based on, among other things, general economic conditions, client outsourcing trends, geographical mix of where services are provided and seasonal patterns in our clients' businesses.

FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

Liquidity and Cash Flows

We believe that we have adequate liquidity from cash on hand and expected future cash flows to fund operations, invest in the business, make required debt payments and pay dividends at the discretion of the Board of Directors for the next twelve months. We also believe that available borrowings under existing credit facilities provide additional liquidity that can be used to invest in the business.

Cash flows from operating activities generally provide us with a significant source of funding for our investing and financing activities. Cash flows from operating activities totaled \$122.4 in the first six months of 2017 compared to \$156.3 in the same period last year. The first six months of 2017 and 2016 reflected \$2.8 of payments for transaction and integration related expenses. Excluding these items, cash flows provided by operating activities totaled \$125.2 and \$159.1 for the six months ended June 30, 2017 and 2016, respectively. This decrease was primarily a result of decreased cash flow from working capital in 2017, largely due to the timing of payments on accounts payable and other current liabilities.

Cash flows used in investing activities were \$27.2 during the first six months of 2017, resulting from \$27.9 of capital expenditures during that period partially offset by \$0.7 of net proceeds from the sale of a joint venture interest previously acquired in the buw acquisition. Cash flows used in investing activities were \$35.1 during the first six months of 2016, resulting from \$34.3 of capital expenditures and \$0.8 for the purchase of short-term and other investments during that period.

Cash flows used in financing activities were \$71.3 during the first six months of 2017 compared to \$83.2 during the first six months of 2016. Activity in the current year included net repayments of long-term debt of \$116.0 and net proceeds of amounts drawn under the asset securitization facility of \$105.0. Additionally, we settled in cash the repurchase of 1.9 of the Company's common shares for \$43.7. We also paid \$17.0 in cash dividends and received proceeds of \$0.4 from the exercise of stock options. During the first six months of 2016, we had long-term debt repayments of \$2.0 and net repayments of amounts drawn under the asset securitization facility of \$29.0. Additionally, we settled in cash the repurchase of 1.5 of the Company's common shares for \$38.0. We also paid \$15.5 in cash dividends and received \$1.0 of excess tax benefits from share-based payment arrangements and \$0.3 from the exercise of stock options.

Free Cash Flow and Adjusted Free Cash Flow (non-GAAP measures)

We use free cash flow and adjusted free cash flow, which are non-GAAP measures, to assess the financial performance of the Company. We define free cash flow as cash flows from operating activities less capital expenditures, and adjusted free cash flow as free cash flow less acquisition related items. A reconciliation of the GAAP measure, net cash provided by operating activities, to the non-GAAP measures, free cash flow and adjusted free cash flow, is as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2017	2016	2017	2016
Net cash flow provided by operating activities under U.S. GAAP	\$89.5	\$79.7	\$122.4	\$156.3
Capital expenditures, net of proceeds from disposal of assets	(19.0)	(23.3)	(27.9)	(34.3)
Free cash flow (a non-GAAP measure)	\$70.5	\$56.4	\$94.5	\$122.0

Edgar Filing: CONVERGYS CORP - Form 10-Q

Acquisition - cash paid for integration related expenses ^(A)	1.1	1.4	2.8	2.8
Adjusted free cash flow (a non-GAAP measure)	\$71.6	\$57.8	\$97.3	\$124.8

(A) Payments associated with investment activity for acquisition related items.

Adjusted free cash flow was \$71.6 and \$97.3 for the three and six months ended June 30, 2017, compared to \$57.8 and \$124.8 for the corresponding periods in 2016. The decrease of \$27.6 from the six month period in the prior year is primarily a result of decreased cash flow from working capital in 2017, largely due to the timing of payments on accounts payable and other current liabilities.

We believe that free cash flow and adjusted free cash flow are useful to investors because they present the operating cash flow of the Company, excluding the capital that is spent to continue to improve business operations, such as investment in the Company's existing business. Further, free cash flow and adjusted free cash flow provide an indication of the ongoing cash that is available for debt repayment, returning capital to shareholders and other opportunities. We also believe the presentation of these measures enhances investors' ability to analyze trends in the business and evaluate the Company's underlying performance relative to other companies in the industry. Limitations associated with the use of free cash flow and adjusted free cash flow include that they do not represent the residual cash flow available for discretionary expenditures as they do not incorporate certain cash payments, including payments made on capital lease obligations or cash payments for business acquisitions. Management compensates for these limitations by utilizing the non-GAAP measures, free cash flow and adjusted free cash flow, and the GAAP measure, cash flows from operating activities, in its evaluation of performance.

Capital Resources, Off-Balance Sheet Arrangements and Contractual Commitments

At June 30, 2017, total capitalization was \$1,713.9, consisting of \$289.9 of short-term and long-term debt and capital lease obligations, \$1,363.6 of equity and \$60.4 of temporary equity associated with the convertible debentures conversion feature. At December 31, 2016, total capitalization was \$1,676.0, consisting of \$298.8 of short-term and long-term debt and capital lease obligations, \$1,315.9 of equity and \$61.3 of temporary equity associated with the convertible debentures conversion feature. The total debt-to-capital ratio at June 30, 2017 was 16.9%, compared to 17.8% at December 31, 2016. This decrease is primarily due to a decrease in total debt outstanding as a result of decreased borrowings under the Company's term loan.

On January 11, 2017 (the Effective Date), the Company entered into a new credit agreement (New Credit Agreement) and repaid all amounts outstanding and terminated all commitments under its previously existing credit agreement (Credit Agreement) using initial borrowings under the New Credit Agreement as well as borrowings under the Company's asset securitization facility. The New Credit Agreement consists of a \$215.0 unsecured term loan facility (New Term Loan), maturing on March 3, 2019, and a \$300.0 unsecured revolving credit facility (New Revolving Credit Facility), maturing on January 11, 2022. On the Effective Date, the Company drew \$100.0 in initial borrowings under the New Term Loan. A \$1.0 extinguishment loss was recognized on the Effective Date and is included in interest expense on the Consolidated Statement of Income.

The New Revolving Credit Facility may be extended for two additional one-year periods, subject to the satisfaction of certain conditions set forth in the New Credit Agreement. In addition, aggregate borrowing capacity under the New Credit Agreement may be increased by up to an additional \$250 million by increasing the amount of the Revolving Credit Facility or by incurring additional term loans, in each case subject to the satisfaction of certain conditions set forth in the New Credit Agreement, including the receipt of additional commitments for such increase. Borrowings outstanding under the New Credit Agreement may be repaid from time to time without premium or penalty, other than customary breakage costs, if any. Borrowings outstanding under the New Credit Agreement bear interest at a fluctuating rate per annum equal to, at the Company's option, either (a) the applicable adjusted LIBOR plus a spread based on the Company's total net leverage ratio, or (b) a base rate (equal to the higher of the Administrative Agent's prime rate, the federal fund rate plus 0.50%, and the one-month adjusted LIBOR plus 1.0%) plus a spread based on the Company's total net leverage ratio. The Company is also obligated to pay a commitment fee on a quarterly basis on

the unused portion of the commitments under the New Revolving Credit Facility based on the Company's total net leverage ratio, which fee is currently 25 basis points. While amounts borrowed and repaid under the New Revolving Credit Facility can be re-borrowed, amounts repaid under the New Term Loan cannot be borrowed again under the New Credit Agreement. The New Credit Agreement contains certain affirmative and negative covenants, as well as terms and conditions that are customary for credit facilities of this type, including financial covenants for leverage and interest coverage ratios. The Company was in compliance with all covenants at June 30, 2017. Total borrowing capacity remaining under the New Revolving Credit Facility was \$300.0, with \$100.0 outstanding on the New Term Loan, as of June 30, 2017. The carrying value of the New Term Loan at June 30, 2017 reflects a discount of \$0.9 related to fees paid directly to the lenders at issuance. This discount is being amortized over the life of the New Term Loan using the effective interest rate method (3.3% as of June 30, 2017), and is included in interest expense in the Consolidated Statements of Income.

The Company established the Credit Agreement on February 28, 2014 in the aggregate amount of \$650.0. The Credit Agreement consisted of unsecured term loans (Term Loan) in the initial aggregate amount of \$350.0, and an unsecured revolving credit facility (Revolving Credit Facility) in the amount of \$300.0. The Term Loan and the Revolving Credit Facility were scheduled to mature on March 3, 2019. Outstanding amounts were subject to interest at the applicable rate described in the Credit Agreement.

During 2009, Convergys issued \$125.0 aggregate principal amount of 5.75% Junior Subordinated Convertible Debentures due September 2029 (2029 Convertible Debentures) in exchange for \$122.5 of 4.875% Unsecured Senior Notes due December 15, 2009, pursuant to an exchange offer. The entire balance of the 2029 Convertible Debentures remained outstanding and was convertible at the option of the holders as of June 30, 2017 and December 31, 2016.

During January 2017, the Company amended the terms of its asset securitization facility collateralized by accounts receivable of certain of the Company's subsidiaries. The amendment resulted in an increased purchase limit of \$225.0, with \$90.0 and \$135.0 expiring in January 2018 and January 2020, respectively. As of December 31, 2016, the asset securitization facility had a purchase limit of \$150.0 expiring in January 2017. The asset securitization program is conducted through Convergys Funding Inc., a wholly-owned bankruptcy remote subsidiary of the Company. As of June 30, 2017 and December 31, 2016, Convergys had drawn \$125.0 and \$20.0, respectively, in available funding from qualified receivables. Amounts drawn under this facility have been classified as long-term debt within the Consolidated Balance Sheets, based on the Company's ability and intent to refinance on a long-term basis as of June 30, 2017.

The Company repurchased 1.0 and 1.9 of its common shares during the three and six months ended June 30, 2017 for a total of \$22.0 and \$43.8, respectively. Based upon timing of transactions, \$0.9 of the shares repurchased in December 2016 settled during the first quarter of 2017. Additionally, \$1.0 of the shares repurchased during June 2017 had not settled as of June 30, 2017. These shares are excluded from outstanding shares at the end of the second quarter and were settled in cash during the third quarter of 2017. As of June 30, 2017, the Company had the authority to repurchase \$99.3 of outstanding common shares pursuant to the Board of Directors' August 2015 increase of its then-existing authorization of share repurchases to \$250.0 in the aggregate. The timing and terms of any future share repurchases will depend on a number of considerations including market conditions, our available liquidity and capital needs, and limits on share repurchases that may be applicable under the covenants in our existing credit agreement.

At June 30, 2017, we had outstanding letters of credit and bond obligations of approximately \$22.4 related to performance guarantees. We believe that any guarantee obligation that may arise related to performance and payment guarantees of continuing operations will not be material. The Company also has future purchase commitments with telecommunications and transportation providers of \$8.4 at June 30, 2017.

During 2016 and 2017, our Board of Directors declared the following dividends per common share, which were paid by the Company on the payment dates listed below:

Edgar Filing: CONVERGYS CORP - Form 10-Q

Announcement Date	Record Date	Dividend Amount	Payment Date
February 23, 2016	March 24, 2016	\$0.08	April 8, 2016
May 9, 2016	June 24, 2016	\$0.09	July 8, 2016
August 8, 2016	September 23, 2016	\$0.09	October 7, 2016
November 8, 2016	December 23, 2016	\$0.09	January 6, 2017
February 22, 2017	March 24, 2017	\$0.09	April 7, 2017
May 8, 2017	June 23, 2017	\$0.10	July 7, 2017

On August 8, 2017, the Company announced that its Board of Directors declared a quarterly cash dividend of \$0.10 per common share to be paid on October 6, 2017 to shareholders of record as of September 22, 2017.

The Board expects that future cash dividends will be paid on a quarterly basis. However, any decision to pay future cash dividends will be subject to Board approval, and will depend on our future earnings, cash flow, financial condition, financial covenants and other relevant factors. We intend to continue to use cash dividends as a means of returning capital to our shareholders, subject to our Board's determination that cash dividends are in the best interests of our shareholders.

MARKET RISK

We are exposed to a variety of market risks, including the effects of changes in foreign currency exchange rates and interest rates. Market risk is the potential loss arising from adverse changes in market rates and prices. Our risk management strategy includes the use of derivative instruments to reduce the effects on our operating results and cash flows from fluctuations caused by volatility in currency exchange rates. In using derivative financial instruments to hedge exposures to changes in exchange rates, we expose ourselves to counterparty credit risk. We manage exposure to counterparty credit risk by entering into derivative financial instruments with investment grade-rated institutions that can be expected to perform fully under the terms of the agreements and by diversifying the number of financial institutions with which we enter into such agreements.

Interest Rate Risk

At June 30, 2017, Convergys had \$225.0 of variable rate debt outstanding under the New Term Loan and Asset Securitization Facility, which exposes Convergys to changes in interest rates. Holding other variables constant, including the total amount of outstanding indebtedness, a one hundred basis point increase in interest rates on our variable-rate debt would cause an estimated increase in interest expense of approximately \$2.3 per year.

Foreign Currency Exchange Rate Risk

While most of our contracts are priced in U.S. dollars, we recognize a substantial amount of revenue under contracts that are denominated in Australian dollars, British pounds and euros. A significant increase in the value of the U.S. dollar relative to these currencies may have a material adverse impact on the value of those revenues when translated to U.S. dollars.

We serve many of our U.S.-based clients using contact center capacity outside of the U.S. Although the contracts with these clients are typically priced in U.S. dollars, a substantial portion of the costs incurred to deliver services under these contracts are denominated in the local currency of the country where services are provided, which represents a foreign exchange exposure. Additionally, we have certain client contracts that are priced in Australian dollars, for which a substantial portion of the costs to deliver services are denominated in other currencies. As of June 30, 2017, we have hedged a portion of our exposure related to the anticipated cash flow requirements denominated in certain foreign currencies by entering into hedging contracts with several financial institutions to acquire a total of PHP 36,765.0 at a fixed price of \$745.4 at various dates through March 2020, INR 12,435.0 at a fixed price of \$171.0 at various dates through March 2020 and CAD 54.8 at a fixed price of \$41.5 at various dates through December 2019 and COP 28,200.0 at a fixed price of \$8.9 at various dates through December 2018, and to sell a total of AUD 18.0 at a fixed price of \$13.4 at various dates through March 2018. The fair value of these derivative instruments as of

June 30, 2017 is presented in Note 12 of the Notes to Consolidated Financial Statements. The potential loss in fair value at June 30, 2017 for such contracts resulting from a hypothetical 10% adverse change in the underlying foreign currency exchange rates is approximately \$96.5. This loss would be substantially mitigated by corresponding gains on the underlying foreign currency exposures.

Other foreign currency exposures arise from transactions denominated in a currency other than the functional currency. We periodically enter into hedging contracts that are not designated as hedges. The purpose of these derivative instruments is to protect the Company against foreign currency exposure pertaining to receivables, payables and intercompany transactions that are denominated in currencies different from the functional currencies of the Company or its respective subsidiaries. As of June 30, 2017, the fair value of these derivatives not designated as hedges was a \$3.0 payable.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

See “ITEM 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our annual report for the year ended December 31, 2016 on Form 10-K for a discussion of our critical accounting policies and estimates.

There have been no material changes to our critical accounting policies and estimates in 2017.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The information required by Item 3 is included in Item 2 of this Form 10-Q.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company's Chief Executive Officer and Chief Financial Officer, together with the Company's General Counsel, Chief Accounting Officer and other key members of management, evaluated the effectiveness of the design and operation of the Company's "disclosure controls and procedures" (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Act)) as of the end of the quarter ended June 30, 2017 (Evaluation Date). Based on this evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures were effective as of the Evaluation Date to provide reasonable assurance that the information required to be disclosed by the Company in the reports that it files or submits under the Act is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure, and that such information is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

Changes in Internal Control

There were no changes in the Company's internal control over financial reporting during the period covered by this quarterly report that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II

ITEM 1. LEGAL PROCEEDINGS

For a discussion of certain legal proceedings, see Note 10 of the Notes to the Consolidated Financial Statements of this Form 10-Q, which is incorporated by reference herein.

ITEM 1A. RISK FACTORS

See “ITEM 1A. Risk Factors” in our annual report on Form 10-K for the year ended December 31, 2016 for a discussion of our risk factors. There have been no material changes to our risk factors in 2017.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The Board expects that future cash dividends will be paid on a quarterly basis. However, any decision to pay future cash dividends will be subject to Board approval, and will depend on the Company’s future earnings, cash flow, financial condition, financial covenants and other relevant factors.

We repurchased 1.9 of our common shares for \$43.8 during the six months ended June 30, 2017, as summarized in the following table:

	Shares repurchased	Average price per share
January 2017	254,598	\$25.43
February 2017	257,000	24.22
March 2017	430,300	21.10
April 2017	337,600	21.68
May 2017	319,300	23.63
June 2017	293,100	24.26
Total	1,891,898	\$23.13

All share repurchases were made pursuant to a publicly announced program. At June 30, 2017, the Company had the authority to repurchase \$99.3 of outstanding common shares pursuant to the Board of Directors’ most recent share repurchase authorization of \$250.0 in August 2015. The timing and terms of any future transactions will depend on a number of considerations including market conditions, our available liquidity and capital needs, and limits on share repurchases that may be applicable under the covenants in our New Credit Agreement.
