PROPOSALS TO BE VOTED ON

PROPOSAL 1

AMENDMENT OF ARTICLES OF INCORPORATION

INTRODUCTION:

The Board of Directors of the Company has approved an amendment (the "Amendment") to the Company's Articles of Incorporation to increase the authorized number of shares of common stock from 50,000,000 shares to 60,000,000 shares. The shareholders are being asked to approve this proposed Amendment. The Amendment will take effect, if at all, after it is approved by the shareholders of the Company and after filing the Amendment with the Secretary of State of the State of Montana. The proposed Amendment to the Company's Articles of Incorporation is attached to this proxy statement as Appendix A.

REASON FOR AMENDMENT:

The Board of Directors believes it is in the best interest of the Company and its shareholders to approve the Amendment and increase the number of authorized but unissued shares of common stock because:

- o Shares of common stock must be available to meet the respective conversion and exercise privileges of the Company's convertible Series D preferred stock, common stock warrants and outstanding convertible note payables;

- o Additional shares of common stock must be available to provide the Company with the flexibility to respond to acquisition and equity fundraising opportunities, to expand and finance the Company's operating activities and to establish strategic relationships with corporate partners; and

- o Additional shares of common stock must be available to issue to directors and other key employees and consultants in order to attract and retain competent and dedicated management for the Company.

The availability of additional shares of common stock is particularly important if we need to undertake any of the foregoing actions on an expedited basis and wish to avoid the time and expense of seeking shareholder approval for an amendment to our Articles of Incorporation. Other than as discussed above

Edgar Filing: UNITED STATES ANTIMONY CORP - Form DEF 14A

with respect to the exercise and conversion privileges of the Company's convertible Series D preferred stock, common stock warrants and outstanding convertible note payables, we have no present agreement or arrangement to issue any of the shares for which approval is sought. If the amendment is approved by the shareholders, the Board of Directors does not intend to solicit further shareholder approval prior to the issuance of any additional shares of common stock.

At the Record Date, there were 42,801,524 shares of common stock issued and outstanding. In addition, (i) 7,126,127 shares of common stock have been allocated for issuance pursuant to outstanding common stock purchase warrants, (ii) an outstanding note payable is convertible into 700,000 shares of common stock, and (iii) 500,000 shares of common stock have been reserved for issuance under the Company's 2000 stock plan. As a result, the total of outstanding and reserved shares of common stock equals 51,127,651. However, the Company's Articles of Incorporation only authorize 50,000,000 shares of common stock, resulting in an over-allocation of 1,127,651 shares. In addition, the Company has 1,751,005 shares of Series D preferred stock and warrants to purchase 111,185 shares of Series D preferred stock that are convertible on a one-to-one basis for shares of common stock.

The increase in authorized common stock will not have any immediate effect on the rights of existing shareholders. However, the Board of Directors will have the authority to issue common stock without requiring future shareholder approval of such issuances. To the extent that additional shares are issued in the future, they would decrease the existing shareholders' percentage equity ownership and, depending on the price at which they are issued, could be dilutive to the existing shareholders.

The increase in the authorized number of shares of common stock and the subsequent issuance of such shares could have the effect of delaying or preventing a change in control of USAC without further action by the shareholders. Shares of authorized and unissued common stock could, within the limits imposed by applicable law, be issued in one or more transactions which could make a change in control of USAC more difficult, and therefore less likely. Any such issuance of additional stock could have the effect of diluting the earnings per share and the book value per share of outstanding shares of common stock, and such additional shares could be used to dilute the stock ownership or voting rights of a person seeking to obtain control of USAC. Our Board of Directors is not currently aware of any attempt to take over or acquire us. While it

3

may be deemed to have potential anti-takeover effects, the proposed Amendment to increase the authorized common stock is not prompted by any specific effort or takeover threat currently perceived by management.

NO PREEMPTIVE RIGHTS:

Under the Company's Articles of Incorporation, shareholders will not be entitled to preemptive rights upon the adoption of the proposed Amendment and the issuance of additional shares of common stock by the Company thereafter.

NO DISSENTER'S RIGHTS:

Under Montana law, shareholders are not entitled to dissenter's rights of appraisal with respect to the proposed Amendment.

VOTE AND RECOMMENDATION:

Edgar Filing: UNITED STATES ANTIMONY CORP - Form DEF 14A

The affirmative vote of the holders of a majority of common stock and voting preferred stock entitled to vote, each voting as a separate class, is required to approve the Amendment. THE BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" THE AMENDMENT TO OUR ARTICLES OF INCORPORATION TO INCREASE THE NUMBER OF AUTHORIZED SHARES OF COMMON STOCK FROM 50,000,000 SHARES TO 60,000,000 SHARES.
