BABSON CAPITAL PARTICIPATION INVESTORS

Babson Capital Participation Investors is a closed-end investment company, first offered to the public in 1988, whose shares are traded on the New York Stock Exchange.

INVESTMENT OBJECTIVE & POLICY

Babson Capital Participation Investors (the "Trust") is a closed-end management investment company, first offered to the public in 1988, whose shares are traded on the New York Stock Exchange under the trading symbol "MPV". The Trust's share price can be found in the financial section of newspapers under either the New York Stock Exchange listings or Closed-End Fund listings.

The Trust's investment objective is to maximize total return by providing a high level of current income, the potential for growth of income, and capital appreciation. The Trust's principal investments are privately placed, below-investment grade, long-term debt obligations purchased directly from their issuers, which tend to be smaller companies. The Trust will also invest in publicly traded debt securities (including high yield securities) again with an emphasis on those with equity features, and in convertible preferred stocks and, subject to certain limitations, readily marketable equity securities. Below-investment grade or high yield securities have predominantly speculative characteristics with respect to the capacity of the issuer to pay interest and repay principal. The Trust is prohibited from purchasing below-investment grade securities if, after giving effect to the purchase, more than 75% of the Trust's total assets would be invested in below-investment grade securities, which are securities that are rated, at the time of purchase, BB or B by S&P or Ba or B by Moody's, or, if unrated, are believed by Babson Capital Management LLC ("Babson Capital") to be of an equivalent quality. In addition, the Trust will not invest in any debt security that is rated, at the time of acquisition, below B by S&P or Moody's, or if unrated, is believed by Babson Capital

to be of an equivalent quality. In addition, the Trust may invest in high quality, readily marketable securities.

TOTAL ANNUAL PORTFOLIO RETURN (AS OF 12/31 EACH YEAR)*

* Data for Babson Capital Participation Investors (the "Trust") represents portfolio returns based on change in the Trust's net asset value (net of all fees and expenses) assuming the reinvestment of all dividends and distributions. These returns differ from the total investment return based on market value of the Trust's shares due to the difference between the Trust's net asset value and the market value of its shares outstanding (see page 12 for total investment return based on market value). Babson Capital Participation Investors

TO OUR SHAREHOLDERS

I am pleased to share with you the Trust's Annual Report for the year ended December 31, 2015.

PORTFOLIO PERFORMANCE

The Trust's net total portfolio rate of return for 2015 was 6.2%, as measured by the change in net asset value assuming the reinvestment of all dividends and distributions. The Trust's total net assets were \$135,349,634 or \$13.10 per share, as of December 31, 2015. This compares to \$137,568,919 or \$13.35 per share, as of December 31, 2014. The Trust paid a quarterly dividend of \$0.27 per share for each of the four quarters of 2015, for a total annual dividend of \$1.08 per share. In 2014, the Trust also paid four quarterly dividends of \$0.27 per share, for a total annual dividend of \$1.08 per share. Net investment income for 2015 was \$0.95 per share, including approximately \$0.10 per share of non-recurring income, compared to 2014 net investment income of \$1.04 per share, which included approximately \$0.16 per share of non-recurring income.

The Trust's stock price increased 3.9% during 2015, from \$13.23 as of December 31, 2014 to \$13.75 as of December 31, 2015. The Trust's stock price of \$13.75 as of December 31, 2015 equates to a 5.0% premium over the December 31, 2015 net asset value per share of \$13.10. The Trust's average quarter-end premium for the 3-, 5-, and 10-year periods ended December 31, 2015 was 1.5%, 9.3% and 7.6%, respectively.

The table below lists the average annual net returns of the Trust's portfolio, based on the change in net assets and assuming the reinvestment of all dividends and distributions. Average annual returns of the Barclays Capital U.S. Corporate High Yield Index and the Russell 2000 Index for the 1-, 3-, 5-, 10- and 25-year periods ended December 31, 2015 are provided for comparison purposes only.

PRIVATE PORTFOLIO ACTIVITY

In 2015, the Trust closed 20 new private placement investments, as well as four "add-on" investments in existing portfolio companies. The 20 new investments were in AFC - Dell Holding Corporation; Animal Supply Company; ASC Holdings, Inc.; Aurora Parts & Accessories LLC; BlueSpire Holding, Inc.; Compass Chemical International LLC; Eagle Family Foods, Inc.; FMH Holdings Corporation; GlynnDevins Acquisition Corporation; Hollandia Produce LLC; Kygen Company; Master Cutlery LLC; MC Sign Holdings LLC; Power Stop Holdings LLC; Randy's Worldwide Automotive; Sunvair Aerospace Group Inc.; Team Drive-Away Holdings LLC; Tristar Global Energy Solutions, Inc.; Westminster Acquisition LLC and York Wall Holding Company. In addition, the Trust added to existing private placement investments in Advanced Manufacturing Enterprises LLC; Hartland Controls Holding Corporation; Merex Holding Corporation and Strahman Holdings Inc. A brief description of these investments can be found in the Consolidated Schedule of Investments. The total amount invested by the Trust in these transactions was \$27,511,179, which was up 7.6% from the \$25,579,289 of new private placement investments made by the Trust in 2014. We are pleased to have generated strong new investment volume for the Trust two years in a row.

—

The Trust's new investment activity in 2015 benefited from high levels of middle market merger and acquisition activity in the first half of the year, and a stable level of activity in the second half of the year. For the full year, middle market buyout volume was flat with 2014, but still at its highest level since 2007. The dark clouds on the horizon, though, continue to be the high purchase prices and leverage levels that have been common in buyout transactions for the last couple of years. Competition for new investment opportunities remains intense, as there continues to be an overabundance of private debt and equity capital looking to be invested. As a result, attractive companies are being aggressively pursued by both buyers and lenders alike. In 2014, average purchase price multiples for small companies were at their highest levels over the past 15 years. In 2015, to our amazement, average purchase price multiples actually increased another approximately 11% over the prior year and reached new record levels. Leverage multiples have also been worrisomely high for several years. Though 2015 leverage levels were flat with the prior year, they are still at their second highest level over the past 15 years.

Though we were very active investors on behalf of the Trust in both 2015 and 2014, we did so, and will continue to do so, cautiously and with discipline, consistent with our longstanding investment philosophy of seeking to take prudent levels of risk and getting paid appropriately for the risk taken. We are not willing to provide financial leverage at levels that we believe are imprudent. In 2015, in the face of these aggressive market conditions, we continued our history of investing in companies at lower than market leverage levels. The average leverage of the Trust's new private placement investments in 2015 was 4.3 times EBITDA, compared to the average market multiple of 5.3 times EBITDA. This approach has served us well over the long term and through all kinds of market cycles.

In addition to strong new investment activity, the condition of the Trust's existing portfolio remained solid throughout the year. Sales and earnings for the Trust's portfolio companies as a whole continued their upward momentum, though at a more moderate level than in 2014. We had more credit upgrades in the portfolio this year than downgrades (based on our internal credit rating system), while the number of companies on our watch list or in default remained at or near the lowest level we have seen over the last eight years.

We had 21 companies exit from the Trust's portfolio during 2015. This is a high level of exit activity for the Trust's portfolio, especially coming on top of the unprecedented 32 exits we experienced in 2014, and is another indicator of how active and aggressive the markets continued to be in 2015. In 18 of these exits, the Trust realized a positive return on its investment. These investments were: ASC Group, Inc.; All Current Holding Company; Arch Global Precision LLC; Arrow Tru-Line Holdings, Inc.; Bravo Sports Holding Corporation; Capital Specialty Plastics, Inc.; CorePharma LLC; Crane Rental Corporation; Eatem Holding Company; EPM Holding Company; MVI Holdings, Inc.; Nicoat Acquisitions LLC; RAJ Manufacturing Holdings LLC; Rose City Holding Company; Spartan Foods Holding Company; Truck Bodies & Equipment International; TruStile Doors, Inc.; and Wheaton Holding Corporation. Three long-standing troubled investments, American Hospice Management Holding LLC; Golden County Foods Holdings, Inc.; and MicroGroup, Inc., were realized in 2015 at a loss. The Trust also benefited from dividends associated with the recapitalizations of five companies during the year.

Babson Capital Participation Investors

The level of refinancing activity in the portfolio in 2015 was thankfully down from the high level of refinancings we saw in 2014 and 2013. These transactions, in which the debt instruments held by the Trust were fully or partially prepaid, are being driven by companies seeking to take advantage of low interest rates and the abundant availability of capital. Unless replaced by new investments, these prepayments reduce net investment income. During 2015, we had 15 portfolio companies fully or partially prepay their debt obligations to the Trust, compared to 20 such prepayments in 2014 and 32 in 2013.

The high level of exit activity in the portfolio this year, along with another year of above-average prepayment activity, was the principal reason that the Trust's net investment income, excluding non-recurring items, declined from \$0.88 per share in 2014 to \$0.85 per share in 2015.

OUTLOOK FOR 2015

We had a strong fourth quarter of 2015 in terms of new investment closings, and that has carried over into 2016. We have a healthy backlog of deal flow. Surveys of middle market financiers indicate that most expect 2016 to be another active year in terms of deal flow. We did see the pressure on leverage levels and investment returns stabilize as we progressed through 2015, and that also is expected to continue into 2016. As a result, assuming economic conditions remain reasonably stable, we are optimistic about the outlook for new investment activity for the Trust in 2016. We also have a number of portfolio companies that are in the process of being sold and we are hopeful that those exits will once again generate capital gains for the Trust. Rest assured that despite constantly changing market conditions, we will continue to employ on behalf of the Trust the same investment philosophy that has served it well since its inception: investing in companies which we believe have a strong business proposition, solid cash flow and experienced, ethical management. We believe this philosophy, along with Babson Capital's seasoned investment management team, positions the Trust well to meet its long-term investment objectives.

While the Trust was able to maintain its \$0.27 per share quarterly dividend in 2015 for a total annual dividend of \$1.08 per share, we must make note again, as we did in last year's and the 2013 Annual Report, that this dividend level may not be sustainable throughout 2016. The Trust's net investment income per share, excluding non-recurring income, of \$0.86 per share in 2015 was once again below the dividend rate. Net investment income per share from recurring sources has been below the dividend rate for every quarter since the second quarter of 2012. As we have discussed in prior reports, net investment income is down due principally to the considerable reduction in the number of private debt securities in the portfolio resulting from the high level of exits and prepayment activity that has occurred over the last three years. Despite two years of robust new investment activity, we have not been able to grow the portfolio enough to offset this ongoing effect. We have been able to maintain the \$0.27 per share quarterly dividend with current income, non-recurring income and earnings carried forward from prior quarters. Over time,

however, the Trust's dividend-paying ability tends to be correlated with its recurring earnings capacity. In 2015, the Trust earned \$0.10 per share of non-recurring income, mostly due to dividend distributions from the recapitalization of a few portfolio companies. In addition, the Trust received \$0.15 per share of income from PI Subsidiary Trust, a wholly-owned subsidiary of the Trust. This dividend represents income from investments held by PI Subsidiary Trust. This income has replenished the Trust's earnings carry-forwards and should be available to supplement recurring income for the next few quarters. Unless market conditions change dramatically though, it is still unlikely that we will be able to rebuild the portfolio back to its former size in the near term and grow net investment income. As a result, it is likely that in 2016 we will have to reduce the dividend from the current \$0.27 per share quarterly rate. As we move through 2016, we and the Board of Trustees will continue to evaluate the current and future earnings capacity of the Trust and formulate a dividend strategy that is consistent with that earnings level.

As always, I would like to thank you for your continued interest in and support of Babson Capital Participation Investors. I look forward to seeing you at the Trust's annual shareholder meeting in Springfield on April 22, 2016.

Sincerely,

Michael L. Klofas

President

Babson Capital Participation Investors

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. History

Babson Capital Participation Investors (the "Trust") was organized as a Massachusetts business trust under the laws of the Commonwealth of Massachusetts pursuant to a Declaration of Trust dated April 7, 1988.

The Trust is a diversified closed-end management investment company. Babson Capital Management LLC ("Babson Capital"), a wholly-owned indirect subsidiary of Massachusetts Mutual Life Insurance Company ("MassMutual"), acts as its investment adviser. The Trust's investment objective is to maximize total return by providing a high level of current income, the potential for growth of income, and capital appreciation. The Trust's principal investments are privately placed, below-investment grade, long-term debt obligations purchased directly from their issuers, which tend to be smaller companies. The Trust will also invest in publicly traded debt securities (including high yield securities), and in convertible preferred stocks and, subject to certain limitations, readily marketable equity securities. Below-investment grade or high yield securities have predominantly speculative characteristics with respect to the capacity of the issuer to pay interest and repay capital. In addition, the Trust may invest in high quality, readily marketable securities.

On January 27, 1998, the Board of Trustees authorized the formation of a wholly-owned subsidiary of the Trust ("PI Subsidiary Trust") for the purpose of holding certain investments. The

Determination of Fair Value

The determination of the fair value of the Trust's investments is the responsibility of the Trust's Board of Trustees (the "Trustees"). The Trustees have adopted procedures for the valuation of the Trust's securities and has delegated responsibility for applying those procedures to Babson Capital. Babson Capital has established a Pricing Committee which is responsible for setting the guidelines used in following the procedures adopted by the Trustees ensuring that those guidelines are being followed. Babson Capital considers all relevant factors that are reasonably available, through either public information or information available to Babson Capital, when determining the fair value of a security. The Trustees meet at least once each quarter to approve the value of the Trust's portfolio securities as of the close of business on the last business day of the preceding quarter. This valuation requires the approval of a majority of the Trustees of the Trust, including a majority of the Trustees who are not interested persons of the Trust or of Babson Capital. In approving valuations, the Trustees will consider reports by Babson Capital analyzing each portfolio security in accordance with the procedures and guidelines referred to above, which include the relevant factors referred to below. Babson Capital has agreed to provide such reports to the Trust at least quarterly. The consolidated financial statements include private placement restricted securities valued at \$91,744,170 (67.78% of net assets) as of December 31, 2015 whose values have been estimated by the Trustees based on the process described above in the absence of readily ascertainable market values. Due to the inherent uncertainty of valuation, those estimated values may differ significantly from the values that would have been used had a ready market for the securities existed, and the differences could be material.

results of the PI Subsidiary Trust are consolidated in the accompanying financial statements. Footnote 2.D below discusses the Federal tax consequences of the PI Subsidiary Trust.

Following is a description of valuation methodologies used for assets recorded at fair value.

Significant Accounting Policies

The following is a summary of significant accounting policies followed consistently by the Trust in the preparation of its consolidated financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Corporate Public Securities - Bank Loans, Corporate Bonds, Preferred Stocks and Common Stocks

The Trust uses external independent third-party pricing services to determine the fair values of its Corporate Public Securities. At December 31, 2015, 100% of the carrying value of these investments was from external pricing services. In the event that the primary pricing service does not provide a price, the Trust utilizes the pricing provided by a secondary pricing service.

The Trustees have determined that the Trust is an investment company in accordance with Accounting Standards Codification ("ASC") 946, Financial Services - Investment Companies, for the purpose of financial reporting.

A. Fair Value Measurements:

Under U.S. GAAP, fair value represents the price that should be received to sell an asset (exit price) in an orderly transaction between willing market participants at the measurement date.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

Public debt securities generally trade in the over-the-counter market rather than on a securities exchange. The Trust's pricing services use multiple valuation techniques to determine fair value. In instances where significant market activity exists, the pricing services may utilize a market based approach through which quotes from market makers are used to determine fair value. In instances where significant market activity may not exist or is limited, the pricing services also utilize proprietary valuation models which may consider market characteristics such as benchmark yield curves, option adjusted spreads, credit spreads, estimated default rates, coupon rates, anticipated timing of principal underlying prepayments, collateral, and other unique security features in order to estimate the relevant cash flows, which are then discounted to calculate the fair value.

The Trust's investments in bank loans are normally valued at the bid quotation obtained from dealers in loans by an independent pricing service in accordance with the Trust's valuation policies and procedures approved by the Trustees.

Public equity securities listed on an exchange or on the NASDAQ National Market System are valued at the last quoted sales price of that day.

Annually, Babson Capital conducts reviews of the primary pricing vendors to validate that the inputs used in that vendors' pricing process are deemed to be market observable as defined in the standard. While Babson Capital is not provided access to proprietary models of the vendors, the reviews have included on-site walk-throughs of the pricing

flows of those notes using a specific discount rate. Changes to that discount rate are driven by changes in general interest rates, probabilities of default and credit adjustments. The discount rate used within the models to discount the future anticipated cash flows is considered a significant unobservable input. Significant increases/(decreases) in the discount rate would result in a significant (decrease)/increase to the notes' fair value.

The fair value of certain distressed notes is based on an enterprise waterfall methodology which is discussed in the equity security valuation section below.

Corporate Restricted Securities - Common Stock, Preferred Stock and Partnerships & LLC's

The fair value of equity securities is determined using an enterprise waterfall methodology. Under this methodology, the enterprise value of the company is first estimated and that value is then allocated to the company's outstanding debt and equity securities based on the documented priority of each class of securities in the capital structure. Generally, the waterfall proceeds from senior debt tranches of the capital structure to senior then junior subordinated debt, followed by each class of preferred stock and finally the common stock.

To estimate a company's enterprise value, the company's trailing twelve months earnings before interest, taxes, depreciation and amortization ("EBITDA") is multiplied by a valuation multiple.

process, methodologies and control procedures for each asset class and level for which prices are provided. The review also includes an examination of the underlying inputs and assumptions for a sample of individual securities across asset classes, credit rating levels and various durations, a process Babson Capital continues to perform annually. In addition, the pricing vendors have an established challenge process in place for all security valuations, which facilitates identification and resolution of prices that fall outside expected ranges. Babson Capital believes that the prices received from the pricing vendors are representative of prices that would be received to sell the assets at the measurement date (exit prices) and are classified appropriately in the hierarchy.

Corporate Restricted Securities - Corporate Bonds

The fair value of certain notes is determined using an internal model that discounts the anticipated cash

Both the company's EBITDA and valuation multiple are considered significant unobservable inputs. Significant increases/(decreases) to the company's EBITDA and/or valuation multiple would result in significant increases/(decreases) to the equity value. An increase/(decrease) to the discount would result in a (decrease)/increase to the equity value.

Short-Term Securities

Short-term securities, of sufficient credit quality, with more than sixty days to maturity are valued at fair value, using external independent third-party services. Short-term securities having a maturity of sixty days or less are valued at amortized cost, which approximates fair value.

Babson Capital Participation Investors

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**Quantitative Information about Level 3 Fair Value Measurements**

The following table represents quantitative information about Level 3 fair value measurements as of December 31, 2015.

	Fair Value	Valuation Technique	Unobservable Inputs	Range	Weighted Average
Corporate Bonds	\$65,642,825	Discounted Cash Flows	Discount Rate	9.6% to 20.8%	13.2%
	\$2,015,247	Market Approach	Valuation Multiple	3.7x to 7.4x	6.4x
			EBITDA	-\$2.0 million to \$64 million	\$4.2 million
Equity Securities	\$23,879,185	Market Approach	Valuation Multiple	3.7x to 12.2x	7.9x
			Discount for lack of marketability	0% to 20%	0.2%
			EBITDA	-\$2.0 million to \$151.4 million	\$18.7 million

Fair Value Hierarchy

The Trust categorizes its investments measured at fair value in three levels, based on the inputs and assumptions used to determine fair value. These levels are as follows:

Level 1 - quoted prices in active markets for identical securities

Level 2 - other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 - significant unobservable inputs (including the Trust's own assumptions in determining the fair value of investments)

The following is a summary of the inputs used to value the Trust's net assets as of December 31, 2015:

Assets:	Total	Level 1	Level 2	Level 3
Restricted Securities

Interest (Amortization)	\$ 224,740	\$ -
Net realized gain on investments before taxes	317,384	-
Net change in unrealized appreciation of investments before taxes	2,318,875	361,387

B. Accounting for Investments:**D. Federal Income Taxes:**

Investment transactions are accounted for on the trade date. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis, including the amortization of premiums and accretion of discounts on bonds held using the yield-to-maturity method. The Trust does not accrue income when payment is delinquent and when management believes payment is questionable.

Realized gains and losses on investment transactions and unrealized appreciation and depreciation of investments are reported for financial statement and Federal income tax purposes on the identified cost method.

C. Use of Estimates:

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The Trust has elected to be taxed as a "regulated investment company" under the Internal Revenue Code, and intends to maintain this qualification and to distribute substantially all of its net taxable income to its shareholders. In any year when net long-term capital gains are realized by the Trust, management, after evaluating the prevailing economic conditions, will recommend that Trustees either designate the net realized long-term gains as undistributed and pay the federal capital gains taxes thereon, or distribute all or a portion of such net gains. For the year ended December 31, 2015, the Trust did not have any realized taxable long-term capital gains.

The Trust is taxed as a regulated investment company and is therefore limited as to the amount of non-qualified income that it may receive as the result of operating a trade or business, e.g. the Trust's pro rata share of income allocable to the Trust by a partnership operating company. The Trust's violation of this limitation could result in the loss of its status as a regulated investment company, thereby subjecting all of its net income and capital gains to corporate taxes prior to distribution to its shareholders. The Trust, from time-to-time, identifies investment opportunities in the securities of entities

Babson Capital Participation Investors

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

that could cause such trade or business income to be allocable to the Trust. The PI Subsidiary Trust (described in Footnote 1, above) was formed in order to allow investment in such securities without adversely affecting the Trust's status as a regulated investment company.

Net investment income and net realized gains or losses of the Trust as presented under U.S. GAAP may differ from distributable taxable earnings due to earnings from the PI Subsidiary Trust as well as certain permanent and temporary differences in the recognition of income and realized gains or losses on certain investments. Permanent differences will result in reclassifications to the capital accounts. In 2015, the Trust increased undistributed net investment income by \$2,028,529, increased accumulated net realized gain on investments by \$579,859, increased retained net realized gain on investments by \$221,422 and decreased additional paid in capital by \$2,829,811 to more accurately display the Trust's capital financial position on a tax-basis in accordance with U.S. GAAP. These re-classifications had no impact on net asset value.

The PI Subsidiary Trust is not taxed as a regulated investment company. Accordingly, prior to the Trust receiving any distributions from the PI Subsidiary Trust, all of the PI Subsidiary Trust's taxable income and realized gains, including non-qualified income and realized gains, is subject to taxation at prevailing corporate tax rates.

The tax effects of temporary differences that give rise to significant portions of the deferred tax assets and liabilities as of December 31, 2015 were as follows:

Deferred tax assets:

Net operating loss	-
Total deferred tax assets	-
Less valuation allowance	-
Deferred tax asset	-

Deferred tax liabilities:

Unrealized gain/Cum. Diff. BA assets	509,088
Total deferred tax liabilities	509,088
Net deferred tax liability	(\$509,088)

The Trust recognizes a tax benefit from an uncertain position only if it is more likely than not that the position is sustainable, based solely on its technical merits and consideration of the relevant taxing authority's widely understood administrative practices and precedents. If this threshold is met, the Trust measures the tax benefit as the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement. The Trust has evaluated and determined that the tax positions did not have a material effect on the Trust's financial position and results of operations for the year ended December 31, 2015.

A reconciliation of the differences between the PI Subsidiary Trust's income tax expense and the amount computed by applying the prevailing U.S.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

Each of the Trust's Federal tax returns for the prior three fiscal years remain subject to examination by the Internal Revenue Service.

E. Distributions to Shareholders:

The Trust records distributions to shareholders from net investment income and net realized gains, if any, on the ex-dividend date. The Trust's net investment income dividend is declared four times per year, in April, July, October, and December. The Trust's net realized capital gain distribution, if any, is declared in December.

The components capital shown in the following table represent the Trust's undistributed net investment income, undistributed net capital gains, losses the Trust may be able to offset against gains in future taxable years, as well as unrealized appreciation (depreciation) on securities and other fund investments, if any, at December 31, 2015, each of which is determined on a U.S. Federal tax basis:

Undistributed (Overdistributed)		Undistributed	Net Unrealized Appreciation
Net Investment Income	Net Capital Gain	Accumulated Loss Carryforward	(Depreciation)on Securities and Other Investments
\$ 1,335,978	\$ -	\$ (551,274)	\$ (1,304,301)

The tax character of distributions declared during the years ended December 31, 2015 and 2014 was as follows:

Distributions paid from:	2015	2014
Ordinary Income	\$ 11,143,733	\$ 9,866,694

B. Fee:

For its services under the Contract, Babson Capital is paid a quarterly investment advisory fee equal to 0.225% of the value of the Trust's net assets as of the last business day of each fiscal quarter, an amount approximately equivalent to 0.90% on an annual basis. A majority of the Trustees, including a majority of the Trustees who are not interested persons of the Trust or of Babson Capital, approve the valuation of the Trust's net assets as of such day.

4. Senior Indebtedness

MassMutual holds the Trust's \$15,000,000 Senior Fixed Rate Convertible Note (the "Note") issued by the Trust on December 13, 2011. The Note is due December 13, 2023 and accrues interest at 4.09% per annum. MassMutual, at its option, can convert the principal amount of the Note into common shares. The dollar amount of principal would be converted into an equivalent dollar amount of common shares based upon the average price of the common shares for ten business days prior to the notice of conversion. For the year ended December 31, 2015, the Trust incurred total interest expense on the Note of \$613,500.

The Trust may redeem the Note, in whole or in part, at the principal amount proposed to be redeemed together with the accrued and unpaid interest thereon through the redemption date plus the Make Whole Premium. The Make Whole Premium equals the excess of (i) the present value of the scheduled payments of principal and interest which the Trust would have paid but for the proposed redemption, discounted at the rate of interest of U.S. Treasury obligations whose maturity approximates that of the Note plus 0.50% over (ii) the principal of the Note proposed to be redeemed. Management estimates that the fair value of the Note was \$15,366,600 as of December 31, 2015.

The Trust may redeem the Note, in whole or in part, at the principal amount proposed to be redeemed together with the accrued and unpaid interest thereon through the redemption date plus the Make Whole Premium. The Make Whole Premium equals the excess of (i) the present value

Management estimates that the fair value of the Note was \$15,366,600 as of December 31, 2015.

3. Investment Advisory and Administrative Services Contract

A. Services:

Under an Investment Advisory and Administrative Services Contract (the "Contract") with the Trust, Babson Capital has agreed to use its best efforts to present to the Trust a continuing and suitable investment program consistent with the investment objectives and policies of the Trust. Babson Capital represents the Trust in any negotiations with issuers, investment banking firms, securities brokers or dealers and other institutions or investors relating to the Trust's investments. Under the Contract, Babson Capital also provides administration of the day-to-day operations of the Trust and provides the Trust with office space and office equipment, accounting and bookkeeping services, and necessary executive, clerical and secretarial personnel for the performance of the foregoing services.

5. Purchases and Sales of Investments

Babson Capital Participation Investors

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

The aggregate cost of investments is substantially the same for financial reporting and Federal income tax purposes as of December 31, 2015. The net unrealized depreciation of investments for financial reporting and Federal tax purposes as of December 31, 2015 is \$1,503,208 and consists of \$11,070,599 appreciation and \$12,573,807 depreciation.

Net unrealized depreciation of investments on the Statement of Assets and Liabilities reflects the balance net of a deferred tax liability of \$509,088 on net unrealized gains on the PI Subsidiary Trust.

7. **Aggregate Remuneration Paid to Officers, Trustees and Their Affiliated Persons**

For the year ended December 31, 2015, the Trust paid its Trustees aggregate remuneration of \$228,600. During the year, the Trust did not pay any compensation to any of its Trustees who are "interested persons" (as defined by the 1940 Act) of the Trust. The Trust classifies Messrs. Noreen and Joyal as "interested persons" of the Trust.

All of the Trust's officers are employees of Babson Capital. Pursuant to the Contract, the Trust does not compensate its officers who are employees of Babson Capital (except for the Chief Compliance Officer of the Trust unless assumed by Babson Capital). For the year ended December 31, 2015, Babson Capital paid the compensation of the Chief Compliance Officer of the Trust. Mr. Noreen, one of the Trust's Trustees, is an "affiliated person" (as defined by the 1940 Act) of MassMutual and Babson Capital. The Trust did not make any payments to Babson Capital for the year ended December 31, 2015, other than amounts payable to Babson Capital pursuant to the Contract.

As required under New York Stock Exchange ("NYSE") Corporate Governance Rules, the Trust's principal executive officer has certified to the NYSE that he was not aware, as of the certification date, of any violation by the Trust of the NYSE's Corporate Governance listing standards. In addition, as required by Section 302 of the Sarbanes-Oxley Act of 2002 and related SEC rules, the Trust's principal executive and principal financial officers have made quarterly certifications, included in filings with the Securities and Exchange Commission on Forms N-CSR and N-Q, relating to, among other things, the Trust's disclosure controls and procedures and internal control over financial reporting, as applicable.

9. Subsequent Events

The Trust has evaluated the possibility of subsequent events after the balance sheet date of December 31, 2015, through the date that the financial statements were issued. The Trust has determined that there are no material events that would require recognition or disclosure in this report through this date.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Shareholders and Board of Trustees of Babson Capital Participation Investors:

We have audited the accompanying consolidated statement of assets and liabilities of Babson Capital Participation Investors (the "Trust"), including the consolidated schedule of investments, as of December 31, 2015, and the related consolidated statements of operations and cash flows for the year then ended, the consolidated statements of changes in net assets for each of the years in the two-year period then ended, and the consolidated selected financial highlights for each of the years in the five-year period then ended. These consolidated financial statements and consolidated selected financial highlights are the responsibility of the Trust's management. Our responsibility is to express an opinion on these consolidated financial statements and consolidated selected financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements and consolidated selected financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2015, by correspondence with custodian and counterparties. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements and consolidated selected financial highlights referred to above present fairly, in all material respects, the financial position of Babson Capital Participation Investors as of December 31, 2015, the consolidated results of their operations and cash flows for the year then ended, the consolidated changes in their net assets for each of the years in the two-year period then ended, and the consolidated

selected financial highlights for each of the years in the five-year period then ended, in conformity with U.S. generally accepted accounting principles.

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

Babson Capital Participation Investors (the "Trust") offers a Dividend Reinvestment and Cash Purchase Plan (the "Plan"). The Plan provides a simple and automatic way for shareholders to add to their holdings in the Trust through the receipt of dividend shares issued by the Trust or through the reinvestment of cash dividends in Trust shares purchased in the open market. The dividends of each shareholder will be automatically reinvested in the Trust by DST Systems, Inc., the Transfer Agent, in accordance with the Plan, unless such shareholder elects not to participate by providing written notice to the Transfer Agent. A shareholder may terminate his or her participation by notifying the Transfer Agent in writing.

Participating shareholders may also make additional contributions to the Plan from their own funds. Such contributions may be made by personal check or other means in an amount not less than \$100 nor more than \$5,000 per quarter. Cash contributions must be received by the Transfer Agent at least five days (but no more than 30 days) before the payment date of a dividend or distribution.

Whenever the Trust declares a dividend payable in cash or shares, the Transfer Agent, acting on behalf of each participating shareholder, will take the dividend in shares only if the net asset value is lower than the market price plus an estimated brokerage commission as of the close of business on the valuation day. The valuation day is the last day preceding the day of dividend payment. When the dividend is to be taken in shares, the number of shares to be received is determined by dividing the cash dividend by the net asset value as of the close of business on the valuation date or, if greater than net asset value, 95% of the closing share price. If the net asset value of the shares is higher than the market value plus an estimated commission, the Transfer Agent, consistent with obtaining the best price and execution, will buy shares on the open market at current prices promptly after the dividend payment date.

The reinvestment of dividends does not, in any way, relieve participating shareholders of any federal, state or local tax. For federal income tax purposes, the amount reportable in respect of a dividend received in newly-issued shares of the Trust will be the fair market value of the shares received, which will be reportable as ordinary income and/or capital gains.

As compensation for its services, the Transfer Agent receives a fee of 5% of any dividend and cash contribution (in no event in excess of \$2.50 per distribution per shareholder.)

ITEM 2. CODE OF ETHICS.

The Registrant adopted a Code of Ethics for Senior Financials Officers (the "Code") on October 17, 2003, which is available on the Registrant's website at www.babsoncapital.com/mci. During the period covered by this Form N-CSR, there were no amendments to, or waivers from, the Code.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The Registrant's Board of Trustees has determined that Mr. Michael H. Brown, a Trustee of the Registrant and a member of its Audit Committee, is an audit committee financial expert. Mr. Brown is "independent" for purposes of this Item 3 as required by applicable regulation.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

The Registrant has engaged its principal accountant, KPMG LLP, to perform audit services, audit-related services, tax services and other services during the past two fiscal years. The following table details the aggregate fees billed or expected to be billed for each of the last two fiscal years by KPMG LLP.

Fees Billed to the Registrant:

	KPMG LLP Year Ended December 31, 2015	KPMG LLP Year Ended December 31, 2014
Audit Fees	\$ 71,000	\$ 64,500
Audit-Related Fees	0	0
Tax Fees	45,665	46,200
All Other Fees	0	0
Total Fees	\$ 116,665	\$ 110,700

Non-Audit Fees Billed to Babson and MassMutual:

KPMG LLP Year Ended	KPMG LLP Year Ended
------------------------	------------------------

Edgar Filing: BABSON CAPITAL PARTICIPATION INVESTORS - Form N-CSR

	December 31, 2015	December 31, 2014
Audit-Related Fees	\$ 1,393,808	\$ 1,268,006
Tax Fees	333,000	140,000
All Other Fees	23,100	0
Total Fees	\$ 1,749,908	\$ 1,408,006

The category "Audit Fees" refers to performing an audit of the Registrant's annual financial statements or services that are normally provided by the principal accountant in connection with statutory and regulatory filings or engagements for those fiscal years. The category "Audit-Related Fees" reflects fees billed by KPMG LLP for various non-audit and non-tax services rendered to the Registrant and Babson, such as a SOC - 1 review, consulting and agreed upon procedures reports. Preparation of Federal, state and local income tax and tax compliance work are representative of the fees reported in the "Tax Fees" category. The category "All Other Fees" represents fees billed by KPMG LLP for consulting rendered to the Registrant and Babson.

The Sarbanes-Oxley Act of 2002 and its implementing regulations allow the Registrant's Audit Committee to establish a pre-approval policy for certain services rendered by the Registrant's principal accountant. During 2015, the Registrant's Audit Committee approved all of the services rendered to the Registrant by KPMG LLP and did not rely on such a pre-approval policy for any such services.

The Audit Committee has also reviewed the aggregate fees billed for professional services rendered by KPMG LLP for 2014 and 2015 for the Registrant and for the non-audit services provided to Babson, and Babson's parent, MassMutual. As part of this review, the Audit Committee considered whether the provision of such non-audit services was compatible with maintaining the principal accountant's independence.

The 2014 fees billed represent final 2014 amounts, which may differ from the preliminary figures available as of the filing date of the Registrant's 2015 Annual Form N-CSR and includes, among other things, fees for services that may not have been billed as of the filing date of the Registrant's 2015 Annual Form N-CSR, but are now properly included in the 2014 fees billed to the Registrant, Babson and MassMutual.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

The Registrant maintains an Audit Committee composed exclusively of Trustees of the Registrant who qualify as "independent" Trustees under the current listing standards of the New York Stock Exchange and the rules of the U.S. Securities and Exchange Commission. The Audit Committee operates pursuant to a written Audit Committee Charter, which is available (1) on the Registrant's website, www.babsoncapital.com/mpv; and (2) without charge, upon request, by calling, toll-free 866-399-1516. The current members of the Audit Committee are Michael H. Brown, Susan B. Sweeney and Maleyne M. Syracuse.

ITEM 6. SCHEDULE OF INVESTMENTS

A schedule of investments for the Registrant is included as part of this report to shareholders under Item 1 of this Form N-CSR.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The Registrant's Board of Trustees has delegated proxy voting responsibilities relating to the voting securities held by the Registrant to its investment adviser, Babson Capital Management LLC ("Babson"). A summary of Babson's proxy voting policies and procedures are set forth below.

Summary of Babson's Proxy Voting Policy:

Babson views the voting of proxies as an integral part of its investment management responsibility and believes, as a general principle, that proxies should be acted upon (voted or abstained) solely in the best interest of its clients (i.e. in a manner it believes is most likely to enhance the economic value of the underlying securities held in client accounts). To implement this general principle, Babson engages a proxy service provider (the "Service Provider") that is responsible for processing and maintaining records of proxy votes. In addition, the Service Provider will retain the services of an independent third party research provider (the "Research Provider") to provide research and recommendations on proxies. Babson's Proxy Voting Policy is generally to vote proxies in accordance with the recommendations of the Research Provider. In circumstances where the Research Provider has not provided recommendations with respect to a proxy, Babson will vote in accordance with the Research Provider's proxy voting guidelines (the "Guidelines"). In circumstances where the Research Provider has not provided a recommendation or has not contemplated an issue within its Guidelines, the proxy will be analyzed on a case-by-case basis.

Babson recognizes that there may be times when it is in the best interest of clients to vote proxies (i) against the Research Provider's recommendations or (ii) in instances where the Research Provider has not provided a recommendation vote against the Guidelines. Babson can vote, in whole or in part, against the Research Provider's recommendations or Guidelines, as it deems appropriate. The procedures set forth in the Proxy Voting Policy are designed to ensure that votes against the Research Provider's recommendations or Guidelines are made in the best interests of clients and are not the result of any material conflict of interest (a "Material Conflict"). For purposes of the Proxy Voting Policy, a Material Conflict is defined as any position, relationship or interest, financial or otherwise, of Babson or a Babson associate that could reasonably be expected to affect the independence or judgment concerning proxy voting.

Summary of Babson's Proxy Voting Procedures:

Babson will vote all client proxies for which it has proxy voting discretion, where no Material Conflict exists, in accordance with the Research Provider's recommendations or Guidelines, unless (i) Babson is unable or determines not to vote a proxy in accordance with the Proxy Voting Policy or (ii) an authorized investment person or designee (a "Proxy Analyst") determines that it is in the client's best interests to vote against the Research Provider's recommendations or Guidelines. In such cases where a Proxy Analyst believes a proxy should be voted against the Research Provider's recommendations or Guidelines, Proxy Administrator will vote the proxy in accordance with the Proxy Analyst's recommendation as long as (i) no other Proxy Analyst disagrees with such recommendation and (ii) no known Material Conflict is identified by the Proxy Analyst(s) or the Proxy Administrator. If a Material Conflict is identified by a Proxy Analyst or the Proxy Administrator, the proxy will be submitted to the Trading Practices Committee to determine how the proxy is to be voted in order to achieve that client's best interests.

No associate, officer, director or board of managers/directors of Babson or its affiliates (other than those assigned such responsibilities under the Proxy Voting Policy) can influence how Babson votes client proxies, unless such person has been requested to provide assistance by a Proxy Analyst or Trading Practices Committee member and has disclosed any known Material Conflict. Pre-vote communications are prohibited. In the event that pre-vote communications occur, it should be reported to the Trading Practices Committee or Babson's Chief Compliance Officer or General Counsel prior to voting. Any questions or concerns regarding proxy-solicitor arrangements should be addressed to Babson's Chief Compliance Officer and/or General Counsel.

Investment management agreements generally delegate the authority to vote proxies to Babson in accordance with Babson's Proxy Voting Policy. In the event an investment management agreement is silent on proxy voting, Babson should obtain written instructions from the client as to their voting preference. However, when the client does not provide written instructions as to their voting preferences, Babson will assume proxy voting responsibilities. In the event that a client makes a written request regarding voting, Babson will vote as instructed.

Obtaining a Copy of the Proxy Voting Policy:

Clients may obtain a copy of Babson's Proxy Voting Policy and information about how Babson voted proxies related to their securities, free of charge, by contacting the Chief Compliance Officer, Babson Capital Management LLC, 1500 Main Street, Suite 2800, P.O. Box 15189, Springfield, MA 01115-5189, or calling toll-free, 1-877-766-0014.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The following disclosure item is made as of the date of this Form N-CSR unless otherwise indicated.

PORTFOLIO MANAGER. Michael L. Klofas serves as the President of the Registrant (since 2009) and as one of its Portfolio Managers. Mr. Klofas began his service to the Registrant in 1998 as a Vice President. With over 25 years of industry experience, Mr. Klofas is a Managing Director of the Mezzanine and Private Equity Group of Babson. Mr. Klofas joined MassMutual in 1988. Prior to joining MassMutual, he spent two years at a small venture capital firm and two years at a national public accounting firm. At MassMutual and then Babson, Mr. Klofas has analyzed and invested in traditional private placements and high yield public bonds. He also spent four years leading Babson's workout and restructuring activities. Since 1993, he has focused on originating, analyzing, structuring and documenting mezzanine and private equity investments. Mr. Klofas holds a B.A. from Brandeis University and an M.B.A. from Babson College. He is also a Certified Public Accountant and a Chartered Financial Analyst. Mr. Klofas also presently serves as President of Babson Capital Corporate Investors, another closed-end management investment company advised by Babson.

PORTFOLIO MANAGEMENT TEAM. Mr. Klofas has primary responsibility for overseeing the investment of the Registrant's portfolio, with the day-to-day investment management responsibility of the Registrant's portfolio being shared with the following Babson investment professional (together with the Portfolio Manager, the "Portfolio Team").

Robert M. Shettle is responsible for overseeing the investment of the Registrant's portfolio. Mr. Shettle has served as a Vice President of the Registrant and of Babson Capital Corporation Investors, another closed-end management company advised by Babson, since 2015. He has over 17 years of industry experience and currently serves as a Managing Director of Babson and Head of the North America Mezzanine and Private Equity Group. He focuses on originating, analyzing, structuring and documenting mezzanine and private equity investments and private equity fund investments. He joined MassMutual/Babson in 1998. Prior to joining Babson, he spent six years at Fleet National Bank as a Vice President and commercial loan officer and three years at Anderson Consulting. Mr. Shettle holds a B.S. from the University of Connecticut and a M.B.A. from Rensselaer Polytechnic Institute. He is also a Chartered Financial Analyst.

Sean Feeley is responsible for the day-to-day management of the Registrant's public high yield and investment grade fixed income portfolio. Mr. Feeley has been a Vice President of the Registrant since 2011. Mr. Feeley is a Managing Director of Babson and head of the High Yield Research Team with over 22 years of industry experience in high yield bonds and loans in various investment strategies. Prior to joining Babson in 2003, he was a Vice President at Cigna Investment Management in project finance and a Vice President at Credit Suisse in leveraged loan finance. Mr. Feeley holds a B.S. from Canisius College and an M.B.A. from Cornell University. Mr. Feeley is a Certified Public Accountant and a Chartered Financial Analyst.

OTHER ACCOUNTS MANAGED BY THE PORTFOLIO TEAM. The members of the Registrant's Portfolio Team also have primary responsibility for the day-to-day management of other Babson advisory accounts, including, among others, closed-end and open-end investment companies, private investment funds, MassMutual-affiliated accounts, as well as separate accounts for institutional clients. These advisory accounts are identified below.

- (F) Messrs. Klofas and Shettle manage the private placement mezzanine debt securities of the general investment account of Massachusetts Mutual Life Insurance Company and C.M. Life Insurance Company; however, these assets are not represented in the table above.

MATERIAL CONFLICTS OF INTEREST. The potential for material conflicts of interest may exist as the members of the Portfolio Management Team have responsibilities for the day-to-day management of multiple advisory accounts. These conflicts may be heightened to the extent the individual, Babson and/or an affiliate has an investment in one or more of such accounts. Babson has identified (and summarized below) areas where material conflicts of interest are most likely to arise, and has adopted policies and procedures that it believes are reasonable to address such conflicts.

Transactions with Affiliates: Babson or its affiliates, including MassMutual and its affiliates, may from time to time, acting as principal, buy securities or other investments for itself from or sell securities or other investments it owns to its advisory clients. Likewise, Babson may either directly or on behalf of MassMutual, purchase and/or hold securities or other investments that are subsequently sold or transferred to advisory clients. Babson has a conflict of interest in connection with a transaction where it or an affiliate is acting as principal since it may have an incentive to favor itself or its affiliates over its advisory clients in connection with the transaction. To address these conflicts of interest, Babson has adopted a Transactions with Affiliates Policy, which ensures any such transaction is consistent with Babson's fiduciary obligations to act in the best interests of its clients, including its ability to obtain best execution in connection with the transaction, and is in compliance with applicable legal and regulatory requirements.

Cross Trades: Babson may effect cross-trades on behalf of its advisory clients whereby one advisory client buys securities or other investments from or sells securities or other investments to another advisory client. Babson may also effect cross-trades involving advisory accounts or funds in which it or its affiliates, including MassMutual, and their respective employees, have an ownership interest or for which Babson is entitled to earn a performance or incentive fee. As a result, Babson has a conflict of interest in connection with the cross-trade since it may have an incentive to favor the advisory client or fund in which it or its affiliate has an ownership interest and/or is entitled to a performance or incentive fee. To address these conflicts of interest, Babson has adopted a Transactions with Affiliates Policy, which ensures any such cross-trade is consistent with Babson's fiduciary obligations to act in the best interests of each of its advisory clients, including its ability to obtain best execution for each advisory client in connection with the cross-trade transaction, and is in compliance with applicable legal and regulatory requirements. Babson will not receive a commission or any other remuneration (other than its advisory fee) for effecting cross-trades between advisory clients.

Edgar Filing: BABSON CAPITAL PARTICIPATION INVESTORS - Form N-CSR

Loan Origination Transactions: While Babson or its affiliates generally do not act as an underwriter or member of a syndicate in connection with a securities offering, Babson or its affiliates (or an unaffiliated entity in which Babson or its affiliates has an ownership interest) may act as an underwriter, originator, agent, or member of a syndicate in connection with the origination of senior secured loans or other lending arrangements with borrowers, where such loans may be purchased by Babson advisory clients during or after the original syndication. Babson advisory clients may purchase such loans directly from Babson or its affiliates (or an unaffiliated entity in which Babson or its affiliates has an ownership interest) or from other members of the lending syndicate. Babson or its affiliates may directly or indirectly receive underwriting, origination, or agent fees in connection with such loan originations. As a result, Babson has a conflict of interest in connection with such loan origination transactions since it has an incentive to base its investment recommendation to its advisory clients on the amount of compensation, underwriting, origination or agent fees it would receive rather than on its advisory clients' best interests. To address this conflict of interest, Babson has adopted a Transactions with Affiliates Policy, which ensures any such transaction is consistent with Babson's fiduciary obligations to act in the best interests of its clients, including its ability to obtain best execution in connection with the transaction, and is in compliance with applicable legal and regulatory requirements.

MML Investors Services, LLC ("MMLISI"), an indirect wholly-owned subsidiary of MassMutual, is an SEC-registered investment adviser and broker-dealer that may act as an introducing broker for the purpose of effecting securities transactions for brokerage customers. While a Babson advisory client could request that MMLISI effect securities transactions for it that would result in commissions to MMLISI, currently no Babson advisory client directs Babson to effect securities transactions for its account through MMLISI.

Investments by Advisory Clients: Babson may invest client assets in securities or other investments that are also held by (i) Babson or its affiliates, including MassMutual, (ii) other Babson advisory accounts, (iii) funds or accounts in which Babson or its affiliates or their respective employees have an ownership or economic interest or (iv) employees of Babson or its affiliates. Babson may also, on behalf of its advisory clients, invest in the same or different securities or instruments of issuers in which (i) Babson or its affiliates, including MassMutual, (ii) other Babson advisory accounts, (iii) funds or accounts in which Babson, its affiliates, or their respective employees have an ownership or economic interest or (iv) employees of Babson or its affiliates, have an ownership interest as a holder of the debt, equity or other instruments of the issuer. Babson has a conflict of interest in connection with any such transaction since investments by its advisory clients may directly or indirectly benefit Babson and/or its affiliates and employees by potentially increasing the value of the securities or instruments it holds in the issuer. Any investment by Babson on behalf of its advisory clients will be consistent with its fiduciary obligations to act in the best interests of its advisory clients, and otherwise be consistent with such clients' investment objectives and restrictions.

Babson or its affiliates may also recommend that clients invest in registered or unregistered investment companies, including private investment funds such as hedge funds, private equity funds or structured funds (i) advised by Babson or an affiliate, (ii) in which Babson, an affiliate or their respective employees has an ownership or economic interest or (iii) with respect to which Babson or an affiliate has an interest in the entity entitled to receive the fees paid by such funds. Babson has a conflict of interest in connection with any such recommendation since it may have an incentive to base its recommendation to invest in such investment companies or private funds on the fees that Babson or its affiliates would earn as a result of the investment by its advisory clients in the investment companies or private funds. Any recommendation to invest in a Babson advised fund or other investment company will be consistent with Babson's fiduciary obligations to act in the best interests of its advisory clients, consistent with such clients' investment objectives and restrictions. Babson may, in certain limited circumstances, offer to clients that invest in private investment funds that it advises an equity interest in entities that receive advisory fees and carried profits interest from such funds.

Employee Co-Investment: Babson may permit certain of its portfolio managers and other eligible employees to invest in certain private investment funds advised by Babson or its affiliates and/or share in the performance or incentive fees received by Babson from such funds. If the portfolio manager or eligible employee was responsible for both the portfolio management of the private fund and other Babson advisory accounts, such person would have a conflict of interest in connection with investment decisions since the person may have an incentive to direct the best investment ideas, or to allocate trades, in favor of the fund in which he or she is invested or otherwise entitled to share in the performance or incentive fees received from such fund. To address these conflicts of interest, Babson has adopted a Side by Side Management of Private Investment Funds and Other Advisory Accounts Policy which requires, among others things, that Babson treat each of its advisory clients in a manner consistent with its fiduciary obligations and prohibits Babson from favoring any particular advisory account as a result of the ownership or economic interests of Babson, its affiliates or employees, in such advisory account. Any investment by a Babson employee in one of its private funds is also governed by Babson's Employee Co-Investment Policy, which ensures that any co-investment by a Babson employee is consistent with Babson's Code of Ethics, as summarized above.

Management of Multiple Accounts: As noted above, Babson's portfolio managers are often responsible for the day-to-day management of multiple accounts, including, among others, separate accounts for institutional clients, closed-end and open-end registered investment companies, and/or private investment funds (such as hedge funds, private equity funds and structured funds), as well as for proprietary accounts of Babson and its affiliates, including MassMutual and its affiliates. The potential for material conflicts of interest exist whenever a portfolio manager has responsibility for the day-to-day management of multiple advisory accounts. These conflicts may be heightened to the extent a portfolio manager is responsible for managing a proprietary account for Babson or its affiliates or where the portfolio manager, Babson and/or an affiliate has an investment in one or more of such accounts or an interest in the performance of one or more of such accounts (e.g., through the receipt of a performance or incentive fee).

Investment Allocation: Such potential conflicts include those relating to allocation of investment opportunities. For example, it is possible that an investment opportunity may be suitable for more than one account managed by Babson, but may not be available in sufficient quantities for all accounts to participate fully. Similarly, there may be limited opportunity to sell an investment held by multiple accounts. A conflict arises where the portfolio manager has an incentive to treat an account preferentially because the account pays Babson or its affiliates a performance-based fee or the portfolio manager, Babson or an affiliate has an ownership or other economic interest in the account. As noted above, Babson also acts as an investment manager for certain of its affiliates, including MassMutual. These affiliate accounts co-invest jointly and concurrently with Babson's other advisory clients and therefore share in the allocation of such investment opportunities. To address these conflicts of interest associated with the allocation of trading and investment opportunities, Babson has adopted an Investment Allocation Policy and trade allocation procedures that govern the allocation of portfolio transactions and investment opportunities across multiple advisory accounts, including affiliated accounts, which are summarized below under Item 12 - Brokerage Practices, Investment Allocation Policy. In addition, as noted above, to address these conflicts of interest, Babson has adopted a Side by Side Management of Private Investment Funds and Other Advisory Accounts Policy which requires, among others things, that Babson treat each of its advisory clients in a manner consistent with its fiduciary obligations and prohibits Babson from favoring any particular advisory account as a result of the ownership or economic interests of Babson, its affiliates or employees, in such advisory accounts. Any investment by a Babson employee in one of its private funds is also governed by Babson's Employee Co-Investment Policy, which ensures that any co-investment by a Babson employee is consistent with Babson's Code of Ethics, as summarized above.

Personal Securities Transactions: Short Sales: Potential material conflicts of interest may also arise related to the knowledge and timing of an account's trades, investment opportunities and broker selection. Babson and its portfolio managers have information about the size, timing and possible market impact of the trades of each account they manage. It is possible that portfolio managers could use this information for their personal advantage and/or to the advantage or disadvantage of various accounts which they manage. For example, a portfolio manager could, or cause a favored account to, "front run" an account's trade or sell short a security for an account immediately prior to another accounts sale of that security. To address these conflicts, Babson has adopted policies and procedures, including a Short Sales Policy, which ensures that the use of short sales by Babson is consistent with Babson's fiduciary obligations to its clients, a Side by Side Management of Private Investment Funds and Other Advisory Accounts Policy, which requires, among other things, that Babson treat each of its advisory clients in a manner consistent with its fiduciary obligations and prohibits Babson from favoring any particular account as a result of the ownership or economic interest of Babson, its affiliates or employees and a Code of Ethics, as summarized above.

Trade Errors: Potential material conflicts of interest may also arise if a trade error occurs in a client account. A trade error is deemed to occur if there is a deviation by Babson from the applicable standard of care in connection with the placement, execution or settlement of a trade for an advisory account that results in (1) Babson purchasing securities not permitted or authorized by a client's investment advisory agreement or otherwise failing to follow a client's specific investment directives; (2) Babson purchasing or selling the wrong security or the wrong amount of securities on behalf of a client's account; or (3) Babson purchasing or selling securities for, or allocating securities to, the wrong client account. When correcting these errors, conflicts of interest between Babson and its advisory accounts may arise as decisions are made on whether to cancel, reverse or reallocate the erroneous trades. In order to address these conflicts, Babson has adopted an Errors Policy governing the resolution of trading errors, and will follow the Errors Policy in order to ensure that trade errors are handled promptly and appropriately and that any action taken to remedy an error places the interest of a client ahead of Babson's interest.

Best Execution: Directed Brokerage: With respect to securities transactions for most of the accounts it manages, Babson determines which broker to use to execute each order, consistent with its fiduciary duty to seek best execution of the transaction. Babson manages certain accounts, however, for clients who limit its discretion with respect to the selection of brokers or direct it to execute such client's transaction through a particular broker. In these cases, trades for such an account in a particular security may be placed separately from, rather than aggregated with, those in the same security for other accounts. Placing separate transaction orders for a security may temporarily affect the market price of the security or otherwise affect the execution of the transaction to the possible detriment of one or more of the other account(s) involved. Babson has adopted a Best Execution Policy and a Directed Brokerage Policy which are summarized below under Item 12 - Brokerage Practices, Broker Selection/Recommendations and Directed Brokerage.

Babson and its portfolio managers or employees may have other actual or potential conflicts of interest in managing an advisory account, and the list above is not a complete description of every conflict of interest that could be deemed to exist.

COMPENSATION. Compensation packages at Babson are structured such that key professionals have a vested interest in the continuing success of the firm. Portfolio managers' compensation is comprised of base salary and a discretionarily allocated incentive bonus, which includes a performance-driven annual bonus, and may include a deferred long-term incentive bonus and also may contain a performance fee award. As part of the firm's continuing effort to monitor retention, Babson participates in annual compensation surveys of investment management firms to ensure that Babson's compensation is competitive with industry norms.

The base salary component is generally positioned at mid-market. Increases are tied to market, individual performance evaluations and budget constraints.

Portfolio Managers may receive a yearly incentive bonus. Factors impacting the potential bonuses include but are not limited to: i) investment performance of funds/accounts managed by a Portfolio Manager, ii) financial performance of Babson, iii) client satisfaction, iv) collaboration, v) risk management and vi) integrity.

Long-term incentives are designed to share the long-term success of the firm and take the form of deferred cash awards, which may include an award that resembles phantom restricted stock; linking the value of the award to a formula which includes Babson's overall earnings, revenue and assets under management. A voluntary separation of service will result in a forfeiture of unvested long-term incentive awards.
