-

Item 2.02. Results of Operations and Financial Condition.

On April 24, 2015, Registrant released its first quarter 2015 earnings and is furnishing to the Securities and Exchange Commission a copy of the earnings press release as Exhibit 99.1 to this Report under Item 2.02 of Form 8-K.

Exhibit 99.1 to this Report contains certain financial measures that are considered “non-GAAP financial measures” as defined in the SEC rules. Exhibit 99.1 to this Report also contains the reconciliation of these non-GAAP financial measures to their most directly comparable financial measures calculated and presented in accordance with generally accepted accounting principles, as well as the reasons why Registrant’s management believes that presentation of the non-GAAP financial measures provides useful information to investors regarding Registrant’s results of operations and, to the extent material, a statement disclosing any other additional purposes for which Registrant’s management uses the non-GAAP financial measures.

The information contained in Item 2.02 of this Report and in Exhibit 99.1 to this Report shall not be deemed “filed” with the Commission for purposes of Section 18 of the Exchange Act of 1934, as amended, or otherwise subject to the liability of that section.

Item 9.01. Financial Statements and Exhibits.

(d) Exhibits.

Exhibit No.	Description
99.1	Registrant’s first quarter 2015 earnings press release dated April 24, 2015

Forward Looking Statements

This release contains “forward-looking statements” as defined in the Private Securities Litigation Reform Act of 1995. The words “anticipate,” “believe,” “estimate,” “expect,” “intend,” “will,” “should” and similar expressions, as they relate to us, are intended to identify forward-looking statements. These statements reflect management’s current beliefs, assumptions and expectations and are subject to a number of factors that may cause actual results to differ materially. Such factors include, but are not limited to: changes in economic conditions, political conditions, trade protection measures, licensing requirements and tax matters in the United States and in the foreign countries in which we do business; changes in foreign currency exchange rates; our ability to successfully develop new products, technologies and service offerings and to protect our intellectual property rights; the risk that multi-year contracts with governmental entities could be terminated prior to the end of the contract term and that civil or criminal penalties and administrative sanctions could be imposed on us if we fail to comply with the terms of such contracts and applicable law; the risk that our bids do not accurately estimate the resources and costs required to implement and service very complex, multi-year governmental and commercial contracts, often in advance of the final determination of the full scope and design of such contracts or as a result of the scope of such contracts being changed during the life of such contracts; the risk that subcontractors, software vendors and utility and network providers will not perform in a timely, quality manner; service interruptions; actions of competitors and our ability to promptly and effectively react to changing technologies and customer expectations; our ability to obtain adequate pricing for our products and services and to maintain and improve cost efficiency of operations, including savings from restructuring actions and the relocation of our service delivery centers; the risk that individually identifiable information of customers, clients and employees could be inadvertently disclosed or disclosed as a result of a breach of our security systems; the risk in the hiring and retention of qualified personnel; the risk that unexpected costs will be incurred; our ability to recover capital investments; the risk that our Services business could be adversely affected if we are unsuccessful in managing the start-up of new contracts; the collectability of our receivables for unbilled services associated with very large, multi-year contracts; reliance on third parties, including subcontractors, for manufacturing of products and provision of services; our ability to expand equipment placements; interest rates, cost of borrowing and access to credit markets; the risk that our products may not comply with applicable worldwide regulatory requirements, particularly environmental regulations and directives; the outcome of litigation and regulatory proceedings to which we may be a party; and other factors that are set forth in the “Risk Factors” section, the “Legal Proceedings” section, the “Management’s

Discussion and Analysis of

---

Financial Condition and Results of Operations” section and other sections of our 2014 Annual Report on Form 10-K filed with the U.S. Securities and Exchange Commission. Xerox assumes no obligation to update any forward looking statements as a result of new information or future events or developments, except as required by law.

On December 18, 2014, Xerox announced that it had entered into an agreement to sell its Information Technology Outsourcing (“ITO”) business to Atos S.E. The transaction is subject to customary closing conditions and regulatory approval and is expected to close in the second quarter of 2015. As a result of the pending sale of the ITO business, and having met applicable accounting requirements, Xerox is reporting the ITO business as a discontinued operation. The forward looking statements contained in this Report and exhibits to this Report are subject to the risk that the sale of the ITO business may not occur on the terms, within the time and/or in the manner as previously disclosed, if at all.
