NOTICE OF 2009 ANNUAL MEETING OF
SHAREHOLDERS
To Be Held on May 7, 2009

NOTICE IS HEREBY GIVEN that the 2009 Annual Meeting of Shareholders of Peoples Bancorp of North Carolina, Inc. (the "Company") will be held as follows:

Place: Catawba Country Club
1154 Country Club Road
Newton, North Carolina

Date: May 7, 2009

Time: 11:00 a.m., Eastern Time

The purposes of the Annual Meeting are to consider and vote upon the following matters:

- To elect four persons who will serve as members of the Board of Directors until the 2011 Annual Meeting of Shareholders or until their successors are duly elected and qualified;
- To approve a new Peoples Bancorp of North Carolina 2009 Omnibus Stock Ownership and Long Term Incentive Plan;
- To participate in an advisory (non-binding) vote to approve the compensation of the Company's executive officers, as disclosed in the Proxy Statement;
- To ratify the appointment of Porter Keadle Moore, LLP ("PKM") as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2009; and
- To consider and act on any other matters that may properly come before the Annual Meeting or any adjournment.

The Board of Directors has established March 10, 2009 as the record date for the determination of shareholders entitled to notice of and to vote at the Annual Meeting. If an insufficient number of shares is present in person or by proxy to constitute a quorum at the time of the Annual Meeting, the Annual Meeting may be adjourned in order to permit further solicitation of proxies by the Company.

A form of proxy is enclosed to enable you to vote your shares at the Annual Meeting. You are urged, regardless of the number of shares you hold, to complete, sign, date and return the proxy promptly. A return envelope, which requires no postage if mailed in the United States, is enclosed for your convenience.

By Order of the Board of Directors,

/s/ Tony W. Wolfe

Tony W. Wolfe
President and Chief Executive Officer

Newton, North Carolina

PEOPLES BANCORP OF NORTH CAROLINA, INC.

PROXY STATEMENT

Annual Meeting of Shareholders
To Be Held On May 7, 2009

This Proxy Statement is being mailed to our shareholders on or about March 27, 2009 for solicitation of proxies by the Board of Directors of Peoples Bancorp of North Carolina, Inc. Our principal executive offices are located at 518 West C Street, Newton, North Carolina 28658. Our telephone number is (828) 464-5620.

In this Proxy Statement, the terms “we,” “us,” “our” and the “Company” refer to Peoples Bancorp of North Carolina, Inc. The term “Bank” means Peoples Bank, our wholly-owned, North Carolina-chartered bank subsidiary. The terms “you” and “your” refer to the shareholders of the Company.

Important Notice Regarding the Availability of Proxy Materials for the Shareholder Meeting to Be Held on May 7, 2009. The Notice, Proxy Statement and the Annual Report to Shareholders for the year ended December 31, 2008 are also available at

[www.snl.com/IRWebLinkX/GenPage.aspx?IID=4050385\\$GKP=202713](http://www.snl.com/IRWebLinkX/GenPage.aspx?IID=4050385$GKP=202713).

You may also access the above off-site website by going to www.peoplesbanknc.com and click on the link.

INFORMATION ABOUT THE ANNUAL MEETING

Your vote is very important. For this reason, our Board is requesting that you allow your common stock to be represented at the 2009 Annual Meeting of Shareholders by the proxies named on the enclosed proxy card.

When is the Annual Meeting? May 7, 2009 at 11 a.m., Eastern Time

Where will the Annual Meeting be held? At the Catawba Country Club, 1154 Country Club Road, Newton, North Carolina

What items will be voted on at the

Annual Meeting?

1. ELECTION OF DIRECTORS. To elect four directors to serve until the 2011 Annual Meeting of Shareholders;
2. APPROVAL OF THE 2009 OMNIBUS PLAN. To approve the new Peoples Bancorp of North Carolina, Inc. 2009 Omnibus Stock Ownership and Long Term Incentive Plan (the "2009 Omnibus Plan");
3. PARTICIPATION IN ADVISORY VOTE. To participate in an advisory (non-binding) vote to approve the compensation of the Company's executive officers, as disclosed in the Proxy Statement.
- 4.

RATIFICATION OF REGISTERED PUBLIC ACCOUNTING FIRM. To ratify the appointment of PKM as the Company's independent registered public accounting firm for fiscal year 2009; and

5. OTHER BUSINESS. To consider any other business as may properly come before the Annual Meeting or any adjournment.

Who can vote? Only holders of record of our common stock at the close of business on March 10, 2009 (the "Record Date") will be entitled to notice of and to vote at the Annual Meeting and any adjournment of the Annual Meeting. On the Record Date, there were 5,539,056 shares of our common stock outstanding and entitled to vote and 707 shareholders of record.

How do I vote by proxy? You may vote your shares by marking, signing and dating the enclosed proxy card and returning it in the enclosed postage-paid envelope. If you return your signed proxy card before the Annual Meeting, the proxies will vote your shares as you direct. The Board of Directors has appointed proxies to represent shareholders who cannot attend the Annual Meeting in person.

For the election of directors, you may vote for (1) all of the nominees, (2) none of the nominees, or (3) all of the nominees except those you designate. If a nominee for election as a director becomes unavailable for election at any time at or before the Annual Meeting, the proxies will vote your shares for a substitute nominee. For each other item of business, you may vote "FOR" or "AGAINST" or you may "ABSTAIN" from voting.

If you return your signed proxy card but do not specify how you want to vote your shares, the proxies will vote them "FOR" the election of all of our nominees for directors and "FOR" all other proposals presented in this Proxy Statement in accordance with Board of Directors recommendations.

If your shares are held in the name of a broker or other nominee (i.e., held in "street name"), you will need to obtain a proxy instruction form from the broker holding your shares and return the form as directed by your broker.

We are not aware of any other matters to be brought before the Annual Meeting. If matters other than those discussed above are properly brought before the Annual Meeting, the proxies may vote your shares in accordance with their best judgment.

How do I change or revoke my proxy? You can change or revoke your proxy at any time before it is voted at the Annual Meeting in any of three ways: (1) by delivering a written notice of revocation to the Secretary of the Company; (2) by delivering another properly signed proxy card to the Secretary of the Company with a more recent date than your first proxy card; or (3) by attending the Annual Meeting and voting in person. You should deliver your written notice or superseding proxy to the Secretary of the Company at our principal executive offices listed above.

How many votes can I cast? You are entitled to one vote for each share held as of the Record Date on each nominee for election and each other matter presented for a vote at the Annual Meeting. You may not vote your shares cumulatively in the election of directors.

How many votes are required to approve the proposals? If a quorum is present at the Annual Meeting, each director nominee will be elected by a plurality of the votes cast in person or by proxy. If you withhold your vote on a nominee, your shares will not be counted as having voted for that nominee.

The proposal to approve the Company's 2009 Omnibus Plan and the advisory vote on the compensation of the Company's executive officers will be approved by the affirmative vote of the holders of a majority of the shares present, or represented by proxy, at the Annual Meeting.

The proposal to ratify the appointment of the Company's independent registered public accounting firm for 2009 will be approved if the votes cast in favor exceed the votes cast in opposition.

Any other matters properly coming before the Annual Meeting for a vote will require the affirmative vote of the holders of a majority of the shares represented in person or by proxy at the Annual Meeting and entitled to vote on that matter.

Abstentions and broker non-votes are not treated as votes cast on any proposal, therefore, neither will have an effect on the vote for the election of any director, approval of the 2009 Omnibus Plan, or the ratification of our independent registered public accounting firm.

A broker non-vote occurs when a broker does not vote on a particular matter because the broker does not have discretionary authority on that matter and has not received instructions from the owner of the shares.

In the event there are insufficient votes present at the Annual Meeting for a quorum or to approve or ratify any proposal, the Annual Meeting may be adjourned in order to permit the further solicitation of proxies.

What constitutes a "quorum" for the Annual Meeting? A majority of the outstanding shares of our common stock entitled to vote at the Annual Meeting, present in person or represented by proxy, constitutes a quorum (a quorum is necessary to conduct business at the Annual Meeting). Your shares will be considered part of the quorum if you have voted by proxy. Abstentions, broker non-votes and votes withheld from any director nominee count as shares present at the Annual Meeting for purposes of determining a quorum.

Who pays for the solicitation of proxies? We will pay the cost of preparing, printing and mailing materials in connection with this solicitation of proxies. In addition to solicitation by mail, our officers, directors and regular employees, as well as those of the Bank, may make

solicitations personally, by telephone or otherwise without additional compensation for doing so. We reserve the right to engage a proxy solicitation firm to assist in the solicitation of proxies for the Annual Meeting. We will, upon request, reimburse brokerage firms, banks and others for their reasonable out-of-pocket expenses in forwarding proxy materials to beneficial owners of stock or otherwise in connection with this solicitation of proxies.

When are the 2010 Annual Meeting due? To be considered either for inclusion in the proxy materials solicited by the Board of Directors for the proposals for 2010 Annual Meeting, proposals must be received by the Secretary of the Company at our principal executive offices at 518 West C Street, Newton, North Carolina 28658 (or at P.O. Box 467, Newton, North Carolina 28658-0467) no later than December 4, 2009. To be included in the proxy materials, a proposal must comply with our Bylaws, Rule 14a-8 and all other applicable provisions of Regulation 14A under the Securities Exchange Act of 1934, as amended (the "Exchange Act").

Any proposal not intended to be included in the proxy statement for the 2010 Annual Meeting, but intended to be presented at that Annual Meeting, must be received by us at our principal executive offices listed above no later than February 17, 2010.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The Securities and Exchange Act of 1934 (the "Exchange Act"), requires that any person who acquires the beneficial ownership of more than five percent of the Company's common stock notify the Securities and Exchange Commission (the "SEC") and the Company. Following is certain information, as of March 10, 2009, regarding those persons or groups who held of record, or who are known to the Company to own beneficially, more than five percent of the outstanding common stock.

Name and Address of Beneficial Owner	Amount and Nature of Beneficial Ownership ¹	Percent of Class ²
Christine S. Abernethy P.O. Box 820 Newton, NC 28658	651,095 ³	11.75%
Tontine Partners, LP 55 Railroad Avenue, 3rd Floor Greenwich, CT 06830-6378	410,245	7.41%

¹ Unless otherwise noted, all shares are owned directly of record by the named individuals, by their spouses and minor children, or by other entities controlled by the named individuals. Voting and investment power is not shared unless otherwise indicated.

² Based upon a total of 5,539,056 shares of common stock outstanding as of the Record Date.

³ Carolina Glove Company, Inc. owns 107,604 shares of common stock. These shares are included in the calculation of Ms. Abernethy's total beneficial ownership interest. Ms. Abernethy owns approximately 50% of the stock of Carolina Glove Company, Inc. The business is operated by a family committee. Ms. Abernethy has no active day-to-day participation in the business affairs of Carolina Glove Company, Inc.

Set forth below is certain information, as of the Record Date, regarding those shares of common stock owned beneficially by each of the persons who currently serves as a member of the Board of Directors, is a nominee for election to the Board at the Annual Meeting, or is a named executive officer ("NEO") of the Company. Also shown is the number of shares of common stock owned by the directors and executive officers of the Company as a group.

Name and Address	Amount and Nature of Beneficial Ownership ¹	Percentage of Class ²
James S. Abernethy Post Office Box 327 Newton, NC 28658	171,414 3	3.03%

Name and Address	Amount and Nature of Beneficial Ownership ¹	Percentage of Class ²
All current directors and nominees and executive officers as a group (15 people)	710,319 15,16	12.54%

*Does not exceed one percent of the common stock outstanding.

¹ Unless otherwise noted, all shares are owned directly of record by the named individuals, by their spouses and minor children, or by other entities controlled by the named individuals. Voting and investment power is not shared unless otherwise indicated.

² Based upon a total of 5,539,056 shares of common stock outstanding as of the Record Date and 126,175 stock options exercisable within 60 days with respect to the designated recipient(s).

³ Includes 64,038 shares of common stock owned by Alexander Railroad Company. Mr. J. Abernethy is Vice President, Secretary and Chairman of the Board of Directors of Alexander Railroad Company.

⁴ Includes 5,310 shares of common stock owned by Mr. R. Abernethy's spouse, for which Mr. R. Abernethy disclaims beneficial ownership.

⁵ Includes 26,764 shares of common stock in which Mr. Beaman has the right to acquire beneficial interest within 60 days by the exercise of stock options granted under the Omnibus Stock Ownership and Long Term Incentive Plan.

⁶ Includes 20,444 shares of common stock in which Mr. Cable has the right to acquire beneficial interest within 60 days by the exercise of stock options granted under the Omnibus Stock Ownership and Long Term Incentive Plan.

⁷ Includes 1,650 shares of common stock owned by Mr. Howard's mother over which Mr. Howard holds a power of attorney. Includes 825 shares of common stock owned by Howard Ventures, Inc. Mr. Howard is Vice President of Howard Ventures, Inc.

⁸ Includes 18,400 shares of common stock in which Mr. Lampron has the right to acquire beneficial interest within 60 days by the exercise of stock options granted under the Omnibus Stock Ownership and Long Term Incentive Plan.

⁹ Includes 6,835 shares of common stock owned by Mr. Robinson's spouse, for which Mr. Robinson disclaims beneficial ownership.

¹⁰ Includes 21,455 shares of common stock in which Mr. Sellers has the right to acquire beneficial interest within 60 days by the exercise of stock options granted under the Omnibus Stock Ownership and Long Term Incentive Plan.

¹¹ Includes 1,650 shares of common stock owned by Drum Funeral Home, LLC. Mr. Terry is Executive Vice President of Drum Funeral Home, LLC.

¹² Includes 2,722 shares of common stock owned by Timmerman Manufacturing, Inc. Mr. Timmerman is President and a Director of Timmerman Manufacturing, Inc.

¹³ Includes 39,112 shares of common stock in which Mr. Wolfe has the right to acquire beneficial interest within 60 days by the exercise of stock options granted under the Omnibus Stock Ownership and Long Term Incentive Plan.

14 Includes 64,038 shares of common stock owned by Alexander Railroad Company. Mr. Zachary is President, Treasurer, General Manager and a Director of Alexander Railroad Company.

15 The 64,038 shares owned by Alexander Railroad Company and attributed to Mr. J. Abernethy and Mr. Zachary are only included once in calculating this total.

16 Includes 126,175 shares of common stock in which the executive officers, as a group, have the right to acquire beneficial interest within 60 days by the exercise of stock options granted under the Omnibus Stock Ownership and Long Term Incentive Plan.

Directors James S. Abernethy and Robert C. Abernethy are brothers and are sons of Christine S. Abernethy, who owns in excess of 10% of the common stock.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires the Company's executive officers and directors, and persons who own more than ten percent of the common stock, to file reports of ownership and changes in ownership with the SEC. Executive officers, directors and greater than ten percent beneficial owners are required by SEC regulations to furnish the Company with copies of all Section 16(a) forms they file.

Based solely on a review of the copies of such forms furnished to the Company and written representations from the Company's executive officers and directors, the Company believes that during the fiscal year ended December 31, 2008, its executive officers and directors and greater than ten percent beneficial owners complied with all applicable Section 16(a) filing requirements.

PROPOSAL 1

ELECTION OF DIRECTORS

Our Board of Directors has set its number at ten members. Our current Bylaws provide that in order to be eligible for consideration at the Annual Meeting of Shareholders, all nominations of directors, other than those made by the Nominating Committee or the Board of Directors, must be in writing and must be delivered to the Secretary of the Company not less than 50 days nor more than 90 days prior to the meeting at which such nominations will be made; provided, however, that if less than 60 days' notice of the meeting is given to the shareholders, such nominations must be delivered to the Secretary of the Company not later than the close of business on the tenth day following the day on which the notice of meeting was mailed.

The following table provides information about the four nominees for election to the Board of Directors for a term of two years (until 2011), as well as the six continuing directors.

Name	Age on December 31, 2008	Principal Occupation During Last Five Years	Director Since	Term Expires
Robert C. Abernethy	58	President, Secretary and Treasurer, Carolina Glove Company, Inc. (glove manufacturer); Secretary and Assistant Treasurer, Midstate Contractors, Inc. (paving company)	1976	2009
James S. Abernethy	54	Vice President, Carolina Glove Company, Inc. (glove manufacturer); President and Assistant Secretary, Midstate Contractors, Inc. (paving company); Vice President, Secretary and Chairman of the Board of Directors, Alexander Railroad Company	1992	2009

Larry E. Robinson	63	President and Chief Executive Officer, The Blue Ridge Distributing Company, Inc. (beer and wine distributor); Partner and Vice President, United Beverages of North Carolina, LLC (beer distributor)	1993	2009
William Gregory Terry	41	Executive Vice President, Drum & Willis-Reynolds Funeral Homes and Crematory	2004	2009

THE BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE "FOR" ALL OF THE NOMINEES NAMED ABOVE FOR ELECTION AS DIRECTORS.

The following table gives information about our directors continuing in office.

Name	Age on December 31, 2008	Principal Occupation During Last Five Years	Director Since	Term Expires
John W. Lineberger, Jr.	58	President, Lincoln Bonded Warehouse Company (commercial warehousing facility)	2004	2010
Gary E. Matthews	53	President and Director, Matthews Construction Company, Inc.	2001	2010
Dan Ray Timmerman, Sr.	61	President/CEO, Timmerman Manufacturing, Inc. (wrought iron furniture, railings and gates manufacturer)	1995	2010
Benjamin I. Zachary	52	President, Treasurer, General Manager and Director of Alexander Railroad Company	1995	2010
Douglas S. Howard	49	Vice President, Howard Ventures, Inc.; Secretary/Treasurer, Denver Equipment of Charlotte, Inc.	2004	2011
Billy L. Price, Jr., M.D.	52	Managing Partner and Practitioner of Internal Medicine, Catawba Valley Internal Medicine, PA	2004	2011

We have no reason to believe that any of the nominees for election will be unable or will decline to serve if elected. In the event of death or disqualification of any nominee or the refusal or inability of any nominee to serve as a director, however, the proxies will vote for the election of another person as they determine in their discretion or may allow the vacancy to remain open until filled by the Board. In no circumstance will any proxy be voted for more than two nominees who are not named in this proxy statement. Properly executed and returned proxies, unless revoked, will be voted as directed by you or, in the absence of direction, will be voted in favor of the election of the recommended nominees. An affirmative vote of a plurality of votes cast at the Annual Meeting is necessary to elect a nominee as a director.

OUR BOARD OF DIRECTORS AND ITS COMMITTEES

How often did our Board of Directors meet during 2008?

Our Board held 16 meetings during 2008. All incumbent directors attended more than 75% of the total number of meetings of the Board and its committees on which they served during the year.

What committees does our Board have?

During 2008, our Board had four standing committees, the Audit Committee, the Governance Committee, the Compensation Committee, and the Executive Committee. The voting members of these Committees are appointed by the Board annually from among its members. Certain of our executive officers also serve as non-voting, advisory members of these committees.

Executive Committee. The Executive Committee performs duties as assigned by the full Board of Directors. Actions taken by the Executive Committee must be approved by the full Board. The Executive Committee consists of Directors R. Abernethy, J. Abernethy, Lineberger, Matthews and Howard, as well as Mr. Wolfe, the President and Chief Executive Officer of the Company. It meets on an “as needed” basis and met one time during 2008.

Governance Committee. The Governance Committee is comprised entirely of independent Directors, as defined in Rule 4200(a)(15) of the NASDAQ’s listing standards. During fiscal year 2008 the following persons served on the Committee: Directors R. Abernethy, J. Abernethy, Lineberger, Robinson, Terry, and Timmerman. The Governance Committee is responsible for developing and maintaining the corporate governance policy, as well as acting as the nominating committee for the Board.

The Governance Committee, serving as the nominating committee of the Board of Directors, interviews candidates for membership to the Board of Directors, recommends candidates to the full Board, slates candidates for Director and shareholder votes, and fills any vacancies on the Board of Directors which occur between shareholder meetings. The Governance Committee’s identification of candidates for Director typically results from the business interactions of the members of the Governance Committee or from recommendations received by the committee from other Directors or from Company management. The Governance Committee currently has no written policy with regard to the consideration of director candidates recommended by security holders. If a security holder recommends a director candidate to the Governance Committee, however, the Governance Committee will consider the candidate and apply the same considerations that it would to its own candidates. The recommendation of a candidate by a security holder should be made in writing, addressed to the attention of the Governance Committee at the Company’s corporate headquarters. The recommendation should include a description of the candidate’s background, his or her contact information, and any other information the security holder considers useful and appropriate for the Governance Committee’s consideration of the candidate. The criteria which have been established by the Governance Committee as bearing on the consideration of a candidate’s qualification to serve as a Director include the following: the candidate’s ethics, integrity, involvement in the community, success in business, relationship with the Bank, investment in the Company, place of residence (i.e., proximity to the Bank’s market area), and financial expertise.

The Governance Committee met one time during fiscal year 2008.

A copy of the Company’s Governance Committee Charter, which contains the Company’s and the Bank’s governance policies and nomination policies, is reviewed annually and amended as needed, by the Committee. Shareholders may obtain a copy of the charter of the Governance Committee at no cost by requesting one from the Company’s Secretary at P.O. Box 467, Newton, North Carolina 28658-0467.

Audit Committee. The Company has a separately designated standing audit committee which was established in accordance with Section 3(a)(58)(A) of the Exchange Act. The Committee has a written charter which is reviewed annually, and amended as needed, by the Committee. A copy of the Audit Committee Charter is available on the Bank’s website (www.peoplesbanknc.com) under Investor Relations. The Audit Committee consists of Directors R. Abernethy, Howard, Matthews, Price, Timmerman and Zachary. The Board of Directors has determined that these members are independent as that term is defined in Rule 4200(a)(15) of the NASDAQ’s listing standards.

The Board of Directors has determined that each member of the Audit Committee named above qualifies as an “audit committee financial expert” based on each of the member’s educational background and business experience.

The Audit Committee meets at least quarterly and, among other responsibilities, oversees (i) the independent auditing of the Company; (ii) the system of internal controls that management has established; and (iii) the quarterly and annual financial information to be provided to shareholders and the Securities and Exchange Commission. The Audit Committee met nine times during the fiscal year ended December 31, 2008.

REPORT OF AUDIT COMMITTEE

The Audit Committee has reviewed and discussed the audited financial statements with management of the Company and has discussed with the independent auditors the matters required to be discussed by Auditing Standards No. 61 as amended (AICPA, Professional Standards, Vol. 1 AV section 380), as adopted by the Public Company Accounting Oversight Board in Rule 3200T. In addition, the Committee has received the written disclosures and the letter from the independent accountants required by the applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountant's communications with the audit committee concerning independence, and has discussed with the independent accountant the independent accountant's independence. Based upon these reviews and discussions, the Committee recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2008.

Robert C. Abernethy	Douglas S. Howard
---------------------	-------------------

Benjamin I. Zachary	Dan R. Timmerman, Sr.
---------------------	-----------------------

Gary E. Matthews	Dr. Billy L. Price, Jr.
------------------	-------------------------

Compensation Committee. The Company's Compensation Committee is responsible for reviewing the Bank's salary programs and recommendations to the Company's and the Bank's board of directors regarding compensation of the executive officers. Upon recommendation from the Compensation Committee, the Company's Board of Directors ultimately determines such compensation. See the discussion under Compensation Discussion and Analysis for more information on the functions and activities of the Compensation Committee.

All of the members of the Compensation Committee are independent as defined in Section 4200(a)(15) of the NASDAQ's listing standards. The Board of Directors determines on an annual basis each director's independence. The members of the Compensation Committee in fiscal year 2008 were Directors R. Abernethy, J. Abernethy, Lineberger, Robinson, Terry and Timmerman. The Compensation Committee is responsible for developing, implementing and maintaining the Company's and the Bank's compensation policies. The Compensation Committee met seven times during the fiscal year ended December 31, 2008.

A copy of the Company's Compensation Committee Charter, which contains the Company's and the Bank's compensation policies and nomination policies, is reviewed annually and amended as needed, by the Committee. Shareholders may obtain a copy of the charter of the Compensation Committee at no cost by requesting one from the Company's Secretary at P.O. Box 467, Newton, North Carolina 28658-0467.

The Committee engages a compensation consultant to help evaluate the Company's compensation design, process and decisions. Tony Wolfe, President and CEO of the Company and the Bank, makes recommendations to the Committee regarding the compensation of the executive officers. Mr. Wolfe participates in the deliberations, but not in the decisions, of the Committee regarding compensation of executive officers other than himself. He does not participate in the Committee's discussion or decisions regarding his own compensation.

The overall objective of our compensation program is to align total compensation so that the individual executive believes it is fair and equitable and provides the highest perceived value to our shareholders and to that individual. In order to accomplish this overall objective, our compensation program is designed to: (i) attract the qualified executives necessary to meet our needs as defined by the Company's strategic plans, and (ii) retain and motivate executives whose performance supports the achievement of our long-term plans and short-term goals.

The Committee considers a number of factors specific to each executive's role when determining the amount and mix of compensation to be paid. These factors are:

- Compensation of the comparable executives at comparable group firms;
- Financial performance of the Company (especially on a "net operating" basis, which excludes the effect of one-time gains and expenses) over the most recent fiscal year and the prior three years;

- Composition of earnings;
- Asset quality relative to the banking industry;
- Responsiveness to the economic environment;
- The Company's achievement compared to its corporate, financial, strategic and operational objectives and business plans; and
- Cumulative shareholder return.

The Company's and the Bank's compensation program consists of the following elements:

- (i) Base Salary. The salaries of our NEOs are designed to provide a reasonable level of compensation that is affordable to the Company and fair to the executive. Salaries are reviewed annually, and adjustments, if any, are made based on the review of competitive salaries in our peer group, as well as an evaluation of the individual officer's responsibilities, job scope, and individual performance. For example, we assess each officer's success in achieving budgeted earnings and return ratios, business conduct and integrity, and leadership and team building skills.
- (ii) Annual Cash Incentive Awards. We believe that annual cash incentive awards encourage our NEOs to achieve short-term targets that are critical to achievement of our strategic plan. The following officers are eligible to receive annual cash incentive awards under our Management Incentive Plan, which provides for cash awards to the following NEOs upon achievement of certain financial objectives:
 - Tony W. Wolfe, President and Chief Executive Officer
 - A. Joseph Lampron, Executive Vice President and Chief Financial Officer
 - Lance A. Sellers, Executive Vice President and Chief Credit Officer
 - William D. Cable, Sr., Executive Vice President and Chief Operating Officer
 - Joseph F. Beaman, Jr., Executive Vice President, Chief Administrative Officer and Corporate Secretary

We seek to ensure that a significant portion of each executive officer's total annual cash compensation is linked to the attainment of the annual performance objectives determined by the executive officer and the Compensation Committee under the Management Incentive Plan. No annual cash incentive awards were made to NEOs in 2008.

- (iii) Discretionary Bonus and Service Awards. From time to time the Compensation Committee may recommend to the Board that additional bonuses be paid based on accomplishments that significantly exceed expectations during the fiscal year. These bonuses are totally discretionary as to who will receive a bonus and the amount of any such bonus. No discretionary bonuses were awarded to NEOs in 2008. The Bank gives service awards to each employee and director for every five years of service with the Bank to promote longevity of service for both directors and employees. Service awards are made in the form of shares of the Company's common stock. The number of shares awarded increases with the number of years of service to the Bank.
- (iv) Long-Term Equity Incentive Awards. The Company maintains the 1999 Omnibus Stock Ownership and Long Term Incentive Plan ("Omnibus Plan"), under which it is permitted to grant incentive stock options, restricted stock grants, stock appreciation rights and performance units. The purpose of the

Omnibus Plan is to promote the interests of the Company by attracting and retaining employees of outstanding ability and to provide executives of the Company greater incentive to make material contributions to the success of the Company by providing them with stock-based compensation which will increase in value based upon the market performance of the common stock and/or the corporate achievement of financial and other performance objectives. No rights under the Omnibus Plan were granted to any NEO in 2008. The Compensation Committee is reviewing the use of long-term equity incentives, with the intent to associate the vesting of awards to the achievement of selected financial performance goals.

Under the terms of the Omnibus Plan, option exercise prices are always based upon the closing trading price of the Company's common stock on the date of grant by the Board of Directors.

- (v) Retirement Benefits. The Company maintains supplemental executive retirement agreements (SERPs) for the benefit of Messrs. Wolfe, Lampron, Sellers, Cable and Beaman. The Committee's goal is to provide competitive retirement benefits given the restrictions on executives within tax-qualified plans. The Committee worked with Matthews Young in analyzing the possible benefits of using SERPs to address the issues of internal and external equity in terms of retirement benefits offered to all employees at the Company as a percentage of final average pay and executives in our peer group. The Committee approved supplemental retirement benefits targeting 40% of the final average pay for all NEOs. The Committee selected a target of 40% to match such benefits offered to other employees fully participating in qualified retirement plans offered by the Company. For more information on the SERPs, see page 26 of this Proxy Statement.
- (vi) Severance Benefits. The Company has employment agreements with our NEOs which provide, among other things, for severance benefits upon certain types of employment terminations. We believe employment agreements serve a number of functions, including (i) retention of our executive team; (ii) mitigation of any uncertainty about future employment and continuity of management in the event of a change in control; and (iii) protection of the Company and customers through non-compete and non-solicitation covenants. Additional information regarding the employment agreements, including a description of key terms and a quantification of benefits that would have been received by our NEOs had they incurred a termination of employment on December 31, 2008, may be found on page 20 of this Proxy Statement.

Implications of Participation in the Troubled Asset Relief Program Capital Purchase Program on Executive Compensation Arrangements.

In October 2008, President George Bush signed into law the Emergency Economic Stabilization Act ("EESA") which gave the United States Treasury ("UST") the authority to develop programs that would stabilize the U.S. financial institutions. Pursuant to this authority, UST developed the Troubled Asset Relief Program ("TARP") which includes the Capital Purchase Program ("CPP"). The Company entered into a Securities Purchase Agreement on December 23, 2008 with UST under the CPP which provides that during the period that UST holds equity or debt securities of the Company, the compensation of our chief executive officer, chief financial officer and three other most highly compensated executive officers will be subject to the following:

- A "clawback" of any bonus or incentive compensation paid based on financial statements or other criteria that prove to be materially inaccurate;

A limitation on the value of the payments and benefits to which the executive would otherwise be entitled upon an involuntary termination of employment of 2.99 times the executive's average annual taxable compensation for the five years prior to the involuntary termination; and

- A waiver of incentive compensation pursuant to arrangements that are determined by the Compensation Committee to encourage our NEOs to take unnecessary and excessive risks that threaten the value of the Company.

With respect to the application of the CPP provisions described above, the NEOs for a year are the “named executive officers” who are identified in our annual proxy statement for that year (reporting the executive’s compensation for the immediately preceding year).

Additionally, due to our participation in the CPP, the amount that we are able to deduct under Section 162(m) of the Internal Revenue Code has been reduced from \$1 million to \$500,000, and we are unable to deduct compensation under the performance-based compensation exception of Section 162(m). Accordingly, the maximum deduction that we can take for compensation attributable to the services of our NEOs during the period UST holds equity or debt securities of the Company is \$500,000 per NEO.

Participation in the CPP also required that the Compensation Committee, in conjunction with the Company’s senior risk officer, take certain steps in an effort to ensure compliance with the prohibition of incentive compensation arrangements that involve excessive risk taking in the Emergency Economic Stabilization Act of 2008. As such, the Compensation Committee and the Company’s senior risk officer have met to discuss and review the relationship between our risk management policies and practices and our NEO incentive compensation arrangements. This meeting included a discussion of the design of our NEO incentive compensation arrangement and a presentation by the senior risk officer detailing the material sources of risk in our business lines and an explanation of our risk management policies. Within this framework, a variety of topics were discussed including:

- The parameters of acceptable and excessive risk taking in light of a number of considerations, including the understanding that some risk taking is an inherent part of the operations of a financial institution;
- The other controls that the Company and the Bank have established (other than reviews of the Company’s compensation practices) that limit undesirable risk taking; and
- The general business goals and concerns of the Company, ranging from growth and profitability to the need to attract, retain and incentivize top tier talent.

As a result of this review and discussion, it was determined by the committee that the design and goals of the existing NEO incentive compensation arrangements does not create an incentive for NEOs to engage in unnecessary and excessive risk taking. The committee believes that the discretionary nature of its decision-making process in determining the amount of any incentive compensation awards based upon its after-the-fact assessment of a variety of financial and other performance factors serves to mitigate the potential for excessive risk taking.

Effect of the American Recovery and Reinvestment Act of 2009

The Compensation Committee’s analysis discussed above was prepared based upon the various rules, regulations and laws applicable to the Company and the Bank prior to February 17, 2009, the date the American Recovery and Reinvestment Act of 2009 was enacted. This Act contains expansive new restrictions on executive compensation for financial institutions participating in the CPP, including the Company and directs the UST to adopt rules implementing such restrictions. These new legislative and regulatory restrictions may impact the executive compensation decisions made by the Compensation Committee going forward until we are no longer subject to such restrictions.

Compensation Committee Interlocks and Insider Participation

No member of the Compensation Committee is now, or formerly was, an officer or employee of the Company or the Bank. None of the NEOs serves as a member of the board of directors of another entity whose executive officers or directors serve on the Company's Board of Directors.

COMPENSATION COMMITTEE CERTIFICATION

The Compensation Committee certifies that it has reviewed with the Company's and the Bank's senior risk officer the incentive compensation arrangements of the NEOs and has made reasonable efforts to ensure that such incentive compensation arrangements or plans do not encourage the NEOs to take unnecessary and excessive risks that threaten the value of the Company or the Bank.

Sr.

Does the Company have a Code of Ethics?

The Company and the Bank have a Code of Business Conduct and Ethics for its directors, officers and employees. The Code of Business Conduct and Ethics requires that individuals avoid conflicts of interest, comply with all laws and other legal requirements, conduct business in an honest and ethical manner and otherwise act with integrity and in the best interests of the Company and the Bank. The Code of Business Conduct and Ethics is a guide to help ensure that all employees live up to the highest ethical standards.

Copies of the Code of Business Conduct and Ethics are available on the Company's website at www.peoplesbanknc.com.

As is permitted by SEC rules, the Company intends to post on its website any amendment to or waiver from any provision in the Code of Ethics for CEO and Senior Financial Officers that applies to the chief executive officer, the chief financial officer, the controller, or persons performing similar functions, and that relates to any element of the standards enumerated in the rules of the SEC.

How can you communicate with the Board or its members?

We do not have formal procedures for shareholder communication with our Board. In general, our directors and officers are easily accessible by telephone, postal mail or e-mail. Any matter intended for your Board, or any individual director, can be directed to Tony Wolfe, our President and Chief Executive Officer or Joe Lampron, our Chief Financial Officer, at our principal executive offices 518 West C Street, Newton, North Carolina 28658. You also may direct correspondence to our Board, or any of its members, in care of the Company at the foregoing address. Your communication will be forwarded to the intended recipient unopened.

What is our policy for director attendance at Annual Meetings?

Although it is customary for all of our directors to attend Annual Meetings of Shareholders, we have no formal policy in place requiring attendance. All Board members attended our 2008 Annual Meeting of Shareholders held on May 1, 2008.

How can a shareholder nominate someone for election to the Board?

Our Bylaws provide that in order to be eligible for consideration at the Annual Meeting of Shareholders, all nominations of directors, other than those made by the Nominating Committee or the Board of Directors, must be in writing and must be delivered to the Secretary of the Company not less than fifty days nor more than ninety days prior to the meeting at which such nominations will be made; provided, however, that if less than sixty days' notice of the meeting is given to the shareholders, such nominations must be delivered to the Secretary of the Company not later than the close of business on the tenth day following the day on which the notice of meeting was mailed.

The Board may disregard any nominations that do not comply with these requirements. Upon the instruction of the Board, the inspector of voting for the Annual Meeting may disregard all votes cast for a nominee if the nomination does not comply with these requirements. Written notice of nominations should be directed to the Secretary of the Company.

Who serves on the Board of Directors of the Bank?

The Bank has ten directors currently serving on its board of directors, who are the same people who are currently Directors of the Company.

EXECUTIVE COMPENSATION AND BENEFITS

Director Compensation

Directors' Fees. Members of the Board of Directors receive no fees or compensation for their service. However, all members of the Board of Directors are also directors of the Bank and are compensated for that service. Directors receive a fee of \$750 for each Bank board of directors meeting attended. An additional fee of \$500 is paid to committee members for each committee meeting attended. In addition to these meeting fees, each director also received an annual retainer of \$9,000. The Chairman of the Bank's board of directors receives an additional \$250 per meeting attended and the chairpersons of each committee receive an additional \$150 per meeting attended. Directors who are members of the board of directors of Real Estate Advisory Services, Inc., and Peoples Investment Services, Inc., subsidiaries of the Bank, received \$500 per board meeting. Beginning in 2009, directors will receive \$375 for special meetings via conference call rather than the normal committee or Board meeting fee.

The Bank maintains a Service Recognition Program, under which directors, officers and employees are eligible for awards. Under this Program, directors, officers and employees are awarded a combination of common stock of the Company and cash, with the amount of the award based upon the length of service to the Bank. Any common stock awarded under the Program is purchased by the Bank on the open market, and no new shares are issued by the Company under the Service Recognition Program.

Directors' Stock Benefits Plan. Members of the Board of Directors are eligible to participate in the Company's Omnibus Stock Ownership and Long Term Incentive Plan (the "Omnibus Plan"). Each director has been awarded 9,737 book value shares (adjusted to reflect 10% stock dividends on April 24, 2000, March 16, 2005, and June 16, 2006 and a three-for-two stock split on June 15, 2008, as appropriate) under the Omnibus Plan. Directors J. Abernethy, R. Abernethy, Robinson, Timmerman and Zachary were awarded book value shares on September 28, 1999. The book value of the common stock on September 28, 1999, was \$6.31 (as adjusted). These book value shares are now fully vested. Director Matthews was awarded book value shares upon his election to the Board of Directors on May 3, 2001. The book value of the common stock on May 3, 2001, was \$7.69 (as adjusted). Mr. Matthews' book value shares are now fully vested. Directors Howard, Lineberger, Price and Terry were awarded book value shares on May 6, 2004. The book value of the common stock on May 6, 2004, was \$8.64 (as adjusted). Their shares vest at a rate of 20% annually, with the first 20% vesting on May 6, 2005, and the final 20% vesting on May 6, 2009.

Directors' Deferred Compensation Plan. In January 2002, the Bank established a non-qualified deferred compensation plan for all of its directors. The Bank's directors are also directors of the Company. Under this plan, each director may defer all or a portion of his fees to the plan each year. The director may elect to invest the deferred compensation in a restricted list of eleven investment funds. The Bank may make matching contributions to the plan for the benefit of the director from time to time at the discretion of the Bank. Directors are fully vested in all amounts they contribute to the plan and in any amounts contributed by the Bank. The Bank has established a Rabbi Trust to hold the

directors' accrued benefits under the plan. Plan assets are invested as directed by each director. There are no "above-market" returns provided for in this Plan.

Benefits under the plan are payable in the event of the director's death, resignation, removal, failure to be re-elected, retirement or in cases of hardship. Directors may elect to receive deferred compensation payments in one lump sum or in installments.

Directors' Supplemental Retirement Plan. In January 2002, the Bank implemented a non-qualified supplemental retirement benefits plan for all its directors. The plan is designed to provide a retirement benefit to the directors while at the same time minimizing the financial impact on the Bank's earnings. Under the Plan, the Company purchased life insurance contracts on the lives of each director. The increase in cash surrender value of the contracts constitutes the Company's contribution to the plan each year. The Bank will pay annual benefits to each director for 15 years beginning upon retirement from the Board of Directors. The Bank is the sole owner of all of the insurance contracts.

The following table reports all forms of compensation paid to or accrued for the benefit of each director during the 2008 fiscal year.

DIRECTOR COMPENSATION

Name	Fees Earned or Paid in Cash (\$)	Stock Awards (\$) ¹	Option Awards (\$)	Non-Equity Incentive Plan Compensation (\$)	Change in Pension Value and Nonqualified Deferred Compensation Earnings ²	All Other Compensation (\$)	Total (\$)

¹ Stock awards represent the expense accrued by the Bank for each director under the Omnibus Stock Ownership and Long Term Incentive Plan as described on page 15, "Directors' Stock Benefits Plan."

² Change in Pension Value and Nonqualified Deferred Compensation Earnings represents the expense accrued by the Bank for each director under the Directors' Supplemental Retirement Plan as described above on page 16, "Directors' Supplemental Retirement Plan."

3 Mr. Robinson completed 15 years of service with the Bank in 2008. He received a service award of 88 shares of the Company's common stock and cash for a total value of \$1,275 on the grant date.

Executive Officers

The following table sets forth certain information with respect to the persons who are executive officers of either the Company or the Bank, or both.

Name	Age on December 31, 2008	Positions and Occupations During Last Five Years	Employed by the Company or the Bank Since
Tony W. Wolfe	62	President and Chief Executive Officer of the Company and the Bank	1990
Joseph F. Beaman, Jr.	59	Executive Vice President and Corporate Secretary of the Company; Executive Vice President, Chief Administrative Officer and Secretary of the Bank	1977
William D. Cable, Sr.	40	Executive Vice President and Assistant Corporate Treasurer of the Company; Executive Vice President and Chief Operating Officer of the Bank.	1995
Lance A. Sellers	46	Executive Vice President and Assistant Corporate Secretary of the Company; Executive Vice President and Chief Credit Officer of the Bank.	1998
A. Joseph Lampron	54	Executive Vice President, Chief Financial Officer and Corporate Treasurer of the Company; Executive Vice President and Chief Financial Officer of the Bank.	2001

Management Compensation

The executive officers of the Company are not paid any cash compensation by the Company. However, the executive officers of the Company also are executive officers of the Bank and receive compensation from the Bank.

The table on the following page shows, for the fiscal years ended December 31, 2008, 2007 and 2006, the cash compensation received by, as well as certain other compensation paid or accrued for those years, the Bank's Chief Executive Officer and the Bank's executive officers whose total annual salary and bonus exceeded \$100,000.

Summary Compensation Table

Name and Principal Position (a)	Year (b)	Salary (c)	Bonus (d)	Stock Awards (e)	Option Awards (f)	Non-Equity Incentive Plan Compensation (g)	Change in Pension Value and Nonqualified Deferred	All Other Compensation(1) (i)	Total (j)

1 Perquisites for the fiscal year did not exceed \$10,000 for any NEO other than Mr. Wolfe.

2 For Mr. Wolfe, includes for 2008: \$11,074 under the 401(k) plan, \$4,213 premium paid for group term life insurance in excess of \$50,000 and \$1,860 paid for the Split Dollar Death Benefit, and perquisites consisting of country club dues of \$3,650, car allowance of \$535, spouse attendance at conference of \$500, disability insurance premium of \$15,662 and cell phone allowance of \$1,080; for 2007: \$11,212 under the 401(k) plan, \$3,469 premium paid for group term life insurance in excess of \$50,000 and \$1,812 paid for the Split Dollar Death Benefit, and perquisites consisting of country club dues of \$3,540, car allowance of \$1,450, spouse attendance at conference of \$811, disability insurance premium of \$15,662 and cell phone allowance of \$1,080; and for 2006: \$10,764 under the 401(k) plan, \$3,247 premium paid for group term life insurance in excess of \$50,000 and \$1,719 paid for the Split Dollar Death Benefit.

3 For Mr. Lampron, includes for 2008: \$7,909 under the 401(k) plan, \$707 premium for the group term life insurance in excess of \$50,000 and \$342 paid for the Split Dollar Death Benefit; for 2007: \$7,347 under the 401(k) plan, \$618 premium for the group term life insurance in excess of \$50,000 and \$329 paid for the Split Dollar Death Benefit; and for 2006: \$7,738 under the 401(k) plan, \$574 premium for the group term life insurance in excess of \$50,000 and \$311 paid for the Split Dollar Death Benefit.

4 For Mr. Beaman, includes for 2008: \$6,498 under the 401(k) plan, \$1,042 premium for the group term life insurance in excess of \$50,000 and \$347 paid for the Split Dollar Death Benefit; for 2007: \$6,084 under the 401(k) plan, \$980 premium for the group term life insurance in excess of \$50,000 and \$339 paid for the Split Dollar Death Benefit; and for 2006: \$7,236 under the 401(k) plan, \$939 premium for the group term life insurance in excess of \$50,000 and \$325 paid for the Split Dollar Death Benefit.

5 For Mr. Sellers, includes for 2008: \$10,052 under the 401(k) plan, \$612 premium for the group term life insurance in excess of \$50,000 and \$326 paid for the Split Dollar Death Benefit; for 2007: \$8,643 under the 401(k) plan, \$536 premium for the group term life insurance in excess of \$50,000 and \$308 paid for the Split Dollar Death Benefit; and for 2006: \$8,216 under the 401(k) plan, \$336 premium for the group term life insurance in excess of \$50,000 and \$151 paid for the Split Dollar Death Benefit.

6 For Mr. Cable, includes for 2008: \$8,111 under the 401(k) plan, \$317 premium paid for group term life insurance in excess of \$50,000 and \$112 paid for the Split Dollar Death Benefit; for 2007: \$7,327 under the 401(k) plan, \$251 premium paid for group term life insurance in excess of \$50,000 and \$104 paid for the Split Dollar Death Benefit; and for 2006: \$6,627 under the 401(k) plan and a \$233 premium paid for group term life insurance in excess of \$50,000 and \$76 paid for the Split Dollar Death Benefit.

7 Mr. Lampron completed five years of service with the Bank in 2007. He received a service award of eight shares of the Company's common stock and cash for a total value on the grant date of \$325.

8 Mr. Beaman completed 30 years of service with the Bank in 2007. He received a service award of 241 shares of the Company's common stock and cash for a total value on the grant date of \$5,000.

9 Mr. Sellers completed 10 years of service with the Bank in 2008. He received a service award of 44 shares of the Company's common stock and cash for a total value on the grant date of \$650.

Employment Agreements

The Bank has entered into employment agreements with Tony W. Wolfe, President and Chief Executive Officer; Joseph F. Beaman, Jr., Executive Vice President, Chief Administrative Officer and Corporate Secretary; Lance A. Sellers, Executive Vice President, Chief Credit Officer and Assistant Corporate Secretary; A. Joseph Lampron, Executive Vice President, Chief Financial Officer and Corporate Treasurer; and William D. Cable, Sr., Executive Vice President, Chief Operating Officer and Assistant Corporate Treasurer, in order to establish their duties and compensation and to provide for their continued employment with the Bank. The agreements provide for an initial term of employment of three years. Commencing on the first anniversary date and continuing on each anniversary date thereafter, unless notice of a non-extension is given by either party, each agreement is automatically extended for an additional year so that the remaining term shall always be no less than two and no more than three years. The agreements also provide that the base salary shall be reviewed by the Board of Directors not less often than annually. In addition, the employment agreements provide for discretionary bonuses and participation in other management incentive, pension, profit-sharing, medical or retirement plans maintained by the Bank, as well as fringe benefits normally associated with such employee's office. Mr. Wolfe's agreement provides for a company automobile. The employment agreements provide that they may be terminated by the Bank for cause, as defined in the agreements, and that they may otherwise be terminated by the Bank (subject to vested rights) or by the employee.

In the event of a change in control, the term of the employment agreements shall be automatically extended for three years from the date of the change of control. For purposes of the employment agreement, a change in control generally will occur if (i) any "person" (as such term is used in Section 13(d) and 14(d) of the Exchange Act), other than a person who beneficially owned as of January 1, 1998, more than 5% of the Bank's securities, acquires beneficial ownership of voting stock and irrevocable proxies representing 20% or more of any class of voting securities of either the Company or the Bank, (ii) the election of directors constituting more than one-half of the Board of Directors of the Company or the Bank who, prior to their election, were not nominated for election or approved by at least three-fourths of the Board of Directors of the Company as then constituted; (iii) either the Company or the Bank consolidates or merges with or into another corporation, association or entity or is otherwise reorganized, where neither the Company nor the Bank, respectively, is the surviving corporation in the transaction; or (iv) all or substantially all of the assets of either the Company or the Bank are sold or otherwise transferred to or acquired by any other entity or group.

In addition, the employee may voluntarily terminate his employment at any time following a change in control and continue to receive his base salary for the remainder of the term of the employment agreement, if, after the change in control, (i) the employee is assigned duties and/or responsibilities that are inconsistent with his position prior to the change in control or that are inconsistent with his reporting responsibilities at that time, (ii) the employee's compensation or benefits are reduced, or (iii) the employee is transferred, without his consent, to a location which is an unreasonable distance from his current principal work location.

If there had been a change in control of the Company, or Mr. Wolfe had terminated his employment after a change in control, that was effective as of December 31, 2008, Mr. Wolfe would have been entitled to receive \$1,100,770 under the terms of his employment agreement.

If there had been a change of control, or any voluntary termination of employment following a change in control under the terms of their respective employment agreements, Mr. Lampron would have been entitled to receive \$565,310; Mr. Beaman, \$467,993; Mr. Sellers \$725,071; and Mr. Cable, \$582,086.

An additional thirteen (13) middle management officers had employment agreements during 2008. The term of these agreements is until December 1, 2009, renewed annually and the agreements contain provisions similar to those discussed above.

Equity Compensation Plan Information

The following table presents the number of shares of Company common stock to be issued upon the exercise of outstanding options, warrants and rights; the weighted-average price of the outstanding options, warrants and rights and the number of options, warrants and rights remaining that may be issued under the Company's Omnibus Plan described below.

Plan Category	Number of securities to be issued upon exercise of outstanding options, warrants and rights	Weighted-average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))
	(a)	(b)	(c)
Equity compensation plans approved by security holders	191,695 ¹ ,2	\$8.273	630,478 ⁴
Equity compensation plans not approved by security holders	0	\$0	0
Total	191,695¹,2	\$8.273	630,478⁴

¹ Includes 191,695 stock options issued under the 1999 Omnibus Plan, which are fully vested as of December 31, 2008. Of the outstanding stock options, options to purchase a total of 15,483 shares of the common stock were granted on September 28, 1999; 19,391 options were granted on September 25, 2000; 63,544 options were granted on October 30, 2001; 7,510 options were granted on December 18, 2001; 72,966 options were granted on December 17, 2002; 3,630 options were granted on May 6, 2004; and 2,421 options were granted on December 16, 2004.

² Includes 3,000 shares of restricted stock granted on September 20, 2007, 1,750 shares granted on March 20, 2008 and 2,000 granted on November 30, 2008 under the 1999 Omnibus Plan. These restricted stock grants cliff vest three years after issuance.

³ The exercise prices for the grants of stock options under the 1999 Omnibus Plan on September 28, 1999; September 25, 2000; October 30, 2001; December 18, 2001; December 17, 2002; May 6, 2004 and December 16, 2004 are: \$9.02 (as adjusted due to a 10% stock dividend granted on April 24, 2000); \$6.99; \$8.78; \$8.10; \$7.77; \$10.31; and \$10.57, respectively. All prices and shares have been adjusted for the 10% stock dividends paid March 16, 2005 and June 16, 2006 and the three-for-two stock split paid June 15, 2007. The exercise price for the grants of restricted stock is \$9.18, the closing price for the Company's stock on December 31, 2008.

⁴ The number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a)) reflects 390,000 additional shares approved May 3, 2008, which have been restated to 585,000 additional shares to reflect the three-for-two stock split paid June 15, 2007.

Omnibus Stock Ownership and Long Term Incentive Plan

The Board of Directors implemented the Omnibus Plan which was approved by the Company's shareholders on May 13, 1999. Last year, shareholders approved Amendment No. 1 to the Company's Omnibus Stock Option and Long Term Incentive Plan (the "1999 Omnibus Plan"), which provided for 585,000, adjusted for the three-for-two stock split on June 15, 2007 shares of the Company's common stock to be added to the 1999 Omnibus Plan. These shares underlie Rights which may be granted under the Omnibus Plan. On March 20, 2008, the Board of Directors amended the 1999 Omnibus Plan to bring it into compliance with 409A of the Internal Revenue Code of 1986, as

amended. Under the terms of the 1999 Omnibus Plan, these amendments did not require shareholder approval. The 1999 Omnibus Plan will expire prior to the 2009 Annual Meeting. The 1999 Omnibus Plan has very similar provisions as the 2009 Omnibus Plan described under Proposal 2.

Incentive Compensation Plans

The Bank also has a Management Incentive Plan for officers and an Employee Incentive Plan for employees of the Bank. Eligibility under the Employee Incentive Plan is granted to all employees upon ninety (90) days of service with the Bank. Participants in the Employee Incentive Plan are entitled to receive quarterly cash incentives based upon a graduated schedule indexed to attainment of corporate budget. Participants in the Management Incentive Plan are recommended annually by the President and Chief Executive Officer to the Bank's Board of Directors. Each individual's incentive pool is determined by a formula which links attainment of corporate budget with attainment of individual goals and objectives. Incentives under the Management Incentive Plan are paid annually.

Grants of Plan-Based Awards. The following table gives information related to grants of plan-based awards made by the Company to the NEOs during the 2008 fiscal year:

GRANTS OF PLAN-BASED AWARDS

Name	Grant Date	Estimated Future Payouts Under Non-Equity Incentive Plan Awards			Estimated Future Payouts Under Equity Incentive Plan Awards			All Other Stock Awards: Number of Shares of Stock or Units (#)	All Other Awards: Number of Securities lying Options (#)	Exercise Price of Awards (\$/Sh)	Grant Date Fair Value of Stock and Option Awards
		Threshold	Target	Maximum	Threshold	Target	Maximum

OPTION EXERCISES AND STOCK VESTED

Name	Option Awards		Stock Awards	
	Number of Shares Acquired on Exercise (#)	Value Realized on Exercise (\$)	Number of Shares Acquired on Vesting (#)	Value Realized on Vesting (\$)
(a)	(b)	(c)	(d)	(e)
Tony W. Wolfe	0	\$0		
A. Joseph Lampron	0	\$0		
Joseph F. Beaman, Jr.	0	\$0		
Lance A. Sellers ¹	2,379	\$32,449	44	\$650
William D. Cable, Sr.	1,289	\$17,430		

¹ Mr. Sellers completed 10 years of service with the Bank in 2008. He received a service award of 44 shares of the Company's common stock and cash for a total value on the grant date of \$650.

Deferred Compensation Plan

In January 2002, the Bank established a non-qualified deferred compensation plan for directors and certain officers. Eligible officers selected by the Bank's board of directors may elect to contribute a percentage of their compensation to the plan. The Bank may make matching or other contributions to the plan as well, in amounts determined at the discretion of the Bank. Participants are fully vested in all amounts contributed to the plan by them or on their behalf.

Benefits under the plan are payable in the event of the participant's retirement, death, termination, or as a result of hardship. Benefit payments may be made in a lump sum or in installments, as selected by the participant.

The Bank has established a Rabbi Trust to hold the accrued benefits of the participants under the plan.

NONQUALIFIED DEFERRED COMPENSATION

Name	Executive Contributions in Last FY (\$)	Registrant Contributions in Last FY (\$)	Aggregate Earnings in Last FY (\$)	Aggregate Withdrawals/ Distributions (\$)	Aggregate Balance at Last FYE (\$)
(a)	(b)	(c)	(d)	(e)	(f)
Tony W. Wolfe	\$17,963		\$0		
A. Joseph Lampron	\$4,746		\$0		
Joseph F. Beaman, Jr.	\$1,300		\$0		
Lance A. Sellers	\$0		\$0		
William D. Cable, Sr.	\$12,978		\$0		

Supplemental Retirement Plan

In January 2002, the Bank implemented a non-qualified supplemental retirement benefits plan (“SERP”) for certain officers. The plan is designed to provide a retirement benefit to the officers while at the same time minimizing the financial impact on the Bank’s earnings. Under the Plan, the Company purchased life insurance contracts on the lives of certain officers. The increase in cash surrender value of the contracts constitutes the Company’s contribution to the plan each year. The Bank will pay benefits to participating officers for a period between ten years and the life of the officer. The Bank is the sole owner of all of the insurance contracts.

PENSION BENEFITS

Name	Plan Name	Number of Years Credited Service (#)	Present Value of Accumulated Benefit (\$)	Payments During Last Fiscal Year (\$)
(a)	(b)	(c)	(d)	(e)
Tony W. Wolfe	SERP	5	\$686,020	0
A. Joseph Lampron	SERP	5	\$81,598	0
Joseph F. Beaman, Jr.	SERP	5	\$95,973	0
Lance A. Sellers	SERP	5	\$71,184	0
William D. Cable, Sr.	SERP	5	\$24,455	0

Discretionary Bonuses and Service Awards

In the past, the Bank has paid bonuses to its employees in amounts determined in the discretion of the Bank’s board of directors. The Bank anticipates that discretionary bonuses will continue to be paid to its employees in the future. The Bank also gives service awards to each employee for every five years of service with the Bank. Service awards are made in the form of shares of the Company’s common stock. The number of shares awarded increases with the years of service to the Bank.

Profit Sharing Plan and 401(k) Plan

The Bank has a Profit Sharing Plan and 401(k) Plan for all eligible employees. The Bank made no contribution to the Profit Sharing Plan for the year ended December 31, 2008. No investments in Bank stock have been made by the plan.

Under the Bank’s 401(k) Plan, the Bank matches employee contributions to a maximum of five percent of annual compensation. The Bank’s 2008 contribution to the 401(k) Plan pursuant to this formula was approximately \$483,000. All contributions to the 401(k) Plan are tax deferred.

The Profit Sharing Plan and 401(k) Plan permit participants to choose from ten investment funds which are selected by a committee comprised of senior management. Both the 401(k) Plan and Profit Sharing Plan were amended in 2000 to permit participation in the plans beginning in the second month of employment. Both plans provide for vesting of 20% of the benefit after two years employment and 20% each year thereafter until participants are 100% vested after six years employment.

Indebtedness of and Transactions with Management and Directors

The Company is a "listed issuer" under the rules and regulations of the Exchange Act whose common stock is listed on NASDAQ. The Company uses the definition of independence contained in NASDAQ's listing standards to determine the independence of its directors and that the Board of Directors and each standing committee of the Board is in compliance with NASDAQ listing standards for independence.

Certain directors and executive officers of the Bank and their immediate families and associates were customers of and had transactions with the Bank in the ordinary course of business during 2008. All outstanding loans, extensions of credit or overdrafts, endorsements and guarantees outstanding at any time during 2008 (i) were made in the ordinary course of business, (ii) were made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with other persons, and (iii) were transactions which in the opinion of management of the Bank did not involve more than the normal risk of collectibility or present other unfavorable features.

The Bank leases two of its facilities from Shortgrass Associates, L.L.C. ("Shortgrass"). Director John W. Lineberger, Jr., owns 25% of the membership interests in Shortgrass. Pursuant to the terms of the leases for the two facilities leased by the Bank, during 2008 the Bank paid a total of \$193,152 to Shortgrass in lease payments for these facilities. Each of the facilities is subject to a 20-year lease between the Bank and Shortgrass. The Board of Directors routinely, and no less than annually, reviews all transactions, direct and indirect, between the Company or the Bank and any employee or director, or any of such person's immediate family members. Transactions are reviewed as to comparable market values for similar transactions. All material facts of the transactions and the director's interest are discussed by all disinterested directors and a decision made about whether the transaction is fair to the Company and the Bank. A majority vote of all disinterested directors is required to approve the transaction.

The Board of Directors also evaluates the influence family relationships may have on the independence of directors who are related by blood or marriage. Christine S. Abernethy, a greater than ten percent shareholder of the Company, has two sons, Robert C. Abernethy and James S. Abernethy, who serve on the Board of Directors. All of the non-related directors have determined that the family relationships among Christine S. Abernethy, James S. Abernethy and Robert C. Abernethy do not affect the brothers' independence as directors.

PERFORMANCE GRAPH

The following graph compares the Company's cumulative shareholder return on its common stock with a NASDAQ index and with a southeastern bank index. The graph was prepared by SNL Securities, L.C., Charlottesville, Virginia, using data as of December 31, 2008.

Peoples Bancorp of North Carolina, Inc.

PROPOSAL 2

APPROVAL OF THE COMPANY'S 2009 OMNIBUS STOCK OPTION AND LONG TERM INCENTIVE PLAN

The 1999 Omnibus Plan was approved by shareholders in May of 1999. The 1999 Omnibus Plan will expire under its own terms on March 30, 2009. The Board of Directors has determined that it is in the best interests of the Company and its shareholders to propose shareholder approval of the 2009 Omnibus Plan.

General. The purpose of the Omnibus Plan is to promote the interests of the Company by attracting and retaining directors and employees of outstanding ability and to provide executive and other key employees of the Company and its subsidiaries greater incentive to make material contributions to the success of the Company by providing them with stock-based compensation which will increase in value based upon the market performance of the common stock and/or the corporate achievement of financial and other performance objectives. A copy of the 2009 Omnibus Plan is attached hereto as Appendix B.

The 2009 Omnibus Plan will be administered by the Governance Committee of the Board of Directors (the "Committee"). Subject to the terms of the 2009 Omnibus Plan, the Committee and the Board of Directors have authority to construe and interpret, for eligible employees and eligible directors, respectively, the 2009 Omnibus Plan, to determine the terms and provisions of Rights (as defined below) to be granted under the 2009 Omnibus Plan, to define the terms used in the 2009 Omnibus Plan and in the Rights granted thereunder, to prescribe, amend and rescind rules and regulations relating to the 2009 Omnibus Plan, to determine the individuals to whom and the times at which Rights shall be granted and the number of shares to be subject to, or to underlie, each Right awarded, and to make all other determinations necessary or advisable for the administration of the 2009 Omnibus Plan.

Rights Which May Be Granted. Under the 2009 Omnibus Plan, the Committee may grant or award eligible participants Options, rights to receive restricted shares of common stock, long term incentive units (each equivalent to one share of common stock), SARs, and/or Book Value Shares. These grants and awards are referred to herein as the "Rights." All Rights must be granted or awarded by February 19, 2019, the tenth anniversary of the date the Board of Directors adopted the 2009 Omnibus Plan. The Board of Directors has provided for 360,000 shares of the Company's common stock be included in the 2009 Omnibus Plan to underlie Rights which may be granted thereunder.

Options. Options granted under the 2009 Omnibus Plan to eligible directors and employees may be either incentive stock options ("ISOs") or non-qualified stock options ("NSOs"). The exercise price of an Option may not be less than 100% of the last-transaction price for the common stock quoted by the Nasdaq Market on the date of grant.

The Committee shall determine the expiration date of each Option granted, up to a maximum of ten years from the date of grant. In the Committee's discretion, it may specify the period or periods of time within which each Option will first become exercisable, which period or periods may be accelerated or shortened by the Committee.

Each Option granted will terminate upon the expiration date established by the Committee or upon the earlier of (i) twelve months after the holder ceases to be an eligible employee or director by reason of death or disability, and (ii) immediately as of the date the holder is no longer an eligible employee or director for any reason other than death or disability. In the event of a change in control (as that term is defined in the 2009 Omnibus Plan), any unvested options granted under the 2009 Omnibus Plan will immediately and automatically vest.

Restricted Stock and Restricted Stock Units. The Committee may award Rights to acquire shares of common stock or restricted stock units, subject to certain transfer restrictions ("Restricted Stock" or "Restricted Stock Unit") to eligible participants under the 2009 Omnibus Plan for such purchase price per share, if any, as the Committee, in its discretion,

may determine appropriate. The Committee shall determine the expiration date for each Restricted Stock or Restricted Stock Unit award, up to a maximum of ten years from the date of grant. In the Committee's

discretion, it may specify the period or periods of time within which each Restricted Stock or Restricted Stock Unit award will first become exercisable, which period or periods may be accelerated or shortened by the Committee. Under the terms of the 2009 Omnibus Plan, the Committee also has the discretion to pay out awards of Restricted Stock or Restricted Stock Units in the Company's common stock, cash or a combination of stock and cash.

Awards of Restricted Stock shall terminate in the same manner as described above in connection with the termination of Options.

Performance Units. Under the 2009 Omnibus Plan, the Committee may grant to eligible directors and employees awards of long term incentive units, each equivalent in value to one share of common stock ("Units"). Except as otherwise provided, Units awarded may be distributed only after the end of a performance period of two or more years, as determined by the Committee, beginning with the year in which the awards are granted.

The percentage of the Units awarded that are to be distributed will depend on the level of financial and other performance goals achieved by the Company during the performance period. The Committee may adopt one or more performance categories in addition to, or in substitution for, a performance category or may eliminate all performance categories other than financial performance. All performance categories other than financial performance may not be applied in the aggregate as a factor of more than one against financial performance.

As soon as practicable after each performance period, the percentage of Units awarded that are to be distributed, based on the levels of performance achieved, will be determined and distributed to the recipients of such awards in the form of a combination of shares of common stock and cash. Units awarded, but which the recipients are not entitled to receive, will be cancelled.

In the event of the death or disability of a Unit recipient prior to the end of any performance period, the number of Units awarded for such performance period will be reduced in proportion to the number of months remaining in the performance period after the date of death or disability; and the remaining portion of the award, if any, may, in the discretion of the Committee, be adjusted based upon the levels of performance achieved prior to the date of death or disability, and distributed within a reasonable time after death or disability. In the event a recipient of Units ceases to be an eligible director or employee for any reason other than death or disability, all Units awarded, but not yet distributed, will be cancelled.

In the event of a change in control (as that term is defined in the 2009 Omnibus Plan), any outstanding Units will immediately and automatically be reduced as appropriate to reflect a shorter performance period.

An amount equal to the dividend payable on one share of common stock (a "dividend equivalent credit") will be determined and credited on the payment date to each Unit recipient's account for each Unit awarded and not yet distributed or cancelled. Such amount will be converted within the account to an additional number of Units equal to the number of shares of common stock which could be purchased at the last-transaction price of the common stock on the Nasdaq Market on the dividend payment date.

No dividend equivalent credits or distribution of Units may be credited or made if, at the time of crediting or distribution, (i) the regular quarterly dividend on the common stock has been omitted and not subsequently paid or there exists any default in payment of dividends on any such outstanding shares of common stock; (ii) the rate of dividends on the common stock is lower than at the time the Units to which the dividend equivalent credit relates were awarded, adjusted for certain changes; (iii) estimated consolidated net income of the Company for the twelve-month period preceding the month the dividend equivalent credit or distribution would otherwise have been made is less than the sum of the amount of the dividend equivalent credits and Units eligible for distribution under the 2009 Omnibus Plan in that month plus all dividends applicable to such period on an accrual basis, either paid, declared or accrued at

the most recently paid rate, on all outstanding shares of common stock; or (iv) the dividend equivalent credit or distribution would result in a default in any agreement by which the Company is bound.

If an extraordinary event occurs during a performance period which significantly alters the basis upon which the performance levels were established, the Committee may make adjustments which it deems appropriate in the performance levels. Such events may include changes in accounting practices, tax, financial institution laws or regulations or other laws or regulations, economic changes not in the ordinary course of business cycles, or compliance with judicial decrees or other legal requirements.

Stock Appreciation Rights. The 2009 Omnibus Plan provides that the Committee may award to eligible directors and employees Rights to receive cash based upon increases in the market price of common stock over the last transaction price of the common stock on the Nasdaq Market (the "Base Price") on the date of the award. The Committee may adjust the Base Price of a SAR based upon the market value performance of the common stock in comparison with the aggregate market value performance of a selected index or at a stated annual percentage rate. The expiration date of a SAR may be no more than ten years from the date of award.

Each SAR awarded by the Committee may be exercisable immediately or may become vested over such period or periods as the Committee may establish, which periods may be accelerated or shortened in the Committee's discretion.

Each SAR awarded will terminate upon the expiration date established by the Committee, termination of the employment or directorship of the SAR recipient, or in the event of a change in control, as described above in connection with the termination of Options.

Book Value Shares. The 2009 Omnibus Plan provides that the Committee may award to eligible directors and eligible employees long term incentive units, each equivalent in value to the book value of one share of common stock on the date of award ("Book Value Shares"). The Committee shall specify the period or periods of time within which each Book Value Share will vest, which period or periods may be accelerated or shortened by the Committee. Upon redemption, the holder of a Book Value Share will receive an amount equal to the difference between the book value of the common stock at the time the Book Value Share is awarded and the book value of the common stock at the time the Book Value Share is redeemed, adjusted for the effects of dividends, new share issuances, and mark-to-market valuations of the Company's investment securities portfolio in accordance with FASB 115.

The expiration date of each Book Value Share awarded shall be established by the Committee, up to a maximum of ten years from the date of award. However, awards of Book Value Shares shall earlier terminate in the same manner as described above in connection with the termination of Options.

Adjustments. In the event the outstanding shares of the common stock are increased, decreased, changed into or exchanged for a different number or kind of securities as a result of a stock split, reverse stock split, stock dividend, recapitalization, merger, share exchange acquisition, or reclassification, appropriate proportionate adjustments will be made in (i) the aggregate number or kind of shares which may be issued pursuant to exercise of, or which underlie, Rights; (ii) the exercise or other purchase price, or Base Price, and the number and/or kind of shares acquirable under, or underlying, Rights; (iii) and rights and matters determined on a per share basis under the 2009 Omnibus Plan. Any such adjustment will be made by the Committee, subject to ratification by the Board of Directors. As described above, the Base Price of a SAR may also be adjusted by the Committee to reflect changes in a selected index. Except with regard to Units and Book Value Shares awarded under the 2009 Omnibus Plan, no adjustment in the Rights will be required by reason of the issuance of common stock, or securities convertible into common stock, by the Company for cash or the issuance of shares of common stock by the Company in exchange for shares of the capital stock of any corporation, financial institution or other organization acquired by the Company or a subsidiary thereof in connection therewith.

Any shares of common stock allocated to Rights granted under the 2009 Omnibus Plan, which Rights are subsequently cancelled or forfeited, will be available for further allocation upon such cancellation or forfeiture.

Federal Income Tax Consequences

Options. Under current provisions of the Code, the federal income tax treatment of ISOs and NSOs is different. Options granted to employees under the 2009 Omnibus Plan may be ISOs which are designed to result in beneficial tax treatment to the employee but not a tax deduction to the Company.

The holder of an ISO generally is not taxed for federal income tax purposes on either the grant or the exercise of the option. However, the optionee must include in his or her federal alternative minimum tax income any excess (the “Bargain Element”) of the acquired common stock’s fair market value at the time of exercise over the exercise price paid by the optionee. Furthermore, if the optionee sells, exchanges, gives or otherwise disposes of such common stock (other than in certain types of transactions) either within two years after the option was granted or within one year after the option was exercised (an “Early Disposition”), the optionee generally must recognize the Bargain Element as compensation income for regular federal income tax purposes. Any gain realized on the disposition in excess of the Bargain Element is subject to recognition under the usual rules applying to dispositions of property. If a taxable sale or exchange is made after such holding periods are satisfied, the difference between the exercise price and the amount realized upon the disposition of the common stock generally will constitute a capital gain or loss for tax purposes.

Options granted to directors under the 2009 Omnibus Plan would be “NSOs.” In general, the holder of an NSO will recognize at the time of exercise of the NSO, compensation income equal to the amount by which the fair market value of the common stock received on the date of exercise exceeds the sum of the exercise price and any amount paid for the NSO.

If an optionee exercises an ISO or NSO and delivers shares of common stock as payment for part or all of the exercise price of the stock purchased (the “Payment Stock”), no gain or loss generally will be recognized with respect to the Payment Stock; provided, however, if the Payment Stock was acquired pursuant to the exercise of an ISO, the optionee will be subject to recognizing as compensation income the Bargain Element on the Payment Stock as an Early Disposition if the exchange for the new shares occurs prior to the expiration of the holding periods for the Payment Stock.

The Company generally would not recognize gain or loss or be entitled to a deduction upon either the grant of an ISO or NSO or the optionee’s exercise of an ISO. The Company generally will recognize gain or loss or be entitled to a deduction upon the exercise of an NSO. If there is an Early Disposition, the Company generally would be entitled to deduct the Bargain Element as compensation paid to the optionee.

The above and other descriptions of federal income tax consequences are necessarily general in nature and do not purport to be complete. Moreover, statutory provisions are subject to change, as are their interpretations, and their application may vary in individual circumstances. Such descriptions may not be used to avoid any federal tax penalty. Such descriptions are written to support this proxy statement. Each taxpayer should seek advice based on the taxpayer’s particular circumstances from an independent tax advisor. Finally, the consequences under applicable state and local income tax laws may not be the same as under the federal income tax laws

Restricted Stock and Restricted Stock Units. Pursuant to Section 83 of the Code, recipients of Restricted Stock and Restricted Stock Unit awards under the 2009 Omnibus Plan will recognize ordinary income in an amount equal to the fair market value of the shares of common stock granted to them at the time that the shares vest and become transferable. The Company will be entitled to deduct as a compensation expense for tax purposes the same amounts recognized as income by recipients of Restricted Stock awards in the year in which such amounts are included in income.

Units. The Company expects that participants generally will not be taxed on the award of Units. Instead, any cash and the then fair market value of any common stock received by the participants upon the distribution of a Unit generally will be taxable to the participants as compensation income upon such distribution. At that time, the Company generally will be entitled to claim a deduction in an amount equal to the compensation income.

SARs. Pursuant to Section 83 of the code, recipients of SARs under the 2009 Omnibus Plan will recognize, at the time a SAR award is exercised, ordinary income in an amount equal to the difference between the fair market value of the common stock at the time of award of the SAR and the fair market value of the common stock at the time that the SAR is exercised. The Company will be entitled to deduct as a compensation expense for tax purposes the same amounts recognized as income by recipients of SAR awards in the year in which such amounts are included in income.

Book Value Shares. The Company expects that participants generally will not be taxed on the award of Book Value Shares. Instead, any cash received by the participants upon redemption of the Book Value Shares generally will be taxable to the participant as compensation income upon distribution. At that time, the Company generally will be entitled to claim a deduction in an amount equal to the compensation income.

THE BOARD OF DIRECTORS RECOMMENDS THAT THE SHAREHOLDERS VOTE FOR APPROVAL OF THE COMPANY'S 2009 OMNIBUS PLAN.

PROPOSAL 3

ADVISORY (NON-BINDING) PROPOSAL TO APPROVE THE COMPENSATION OF THE COMPANY'S NAMED EXECUTIVE OFFICERS

The Company believes that our 2008 compensation policies and procedures are centered on a pay-for-performance culture and are strongly aligned with the long-term interests of our shareholders. These policies and procedures are described in detail on pages 10 to 13 of this Proxy Statement.

The ARRA provides that all participants in the TARP permit a non-binding shareholder vote to approve the compensation of the participant's executives. Therefore, the Board of Directors is providing our shareholders with the right to cast an advisory vote on the compensation of the Company's NEOs at the 2009 Annual Meeting of Shareholders.

This proposal, commonly known as a "say-on-pay" proposal, gives you as a shareholder the opportunity to vote on the compensation of our NEOs through the following resolution:

"RESOLVED, that the shareholders of Peoples Bancorp of North Carolina, Inc. approve the compensation of its Named Executive Officers named in the Summary Compensation Table in this Proxy Statement, as described in the narrative and the tabular disclosure regarding the compensation of the Named Executive Officers contained in this Proxy Statement."

Under the ARRA, your vote on this matter is advisory and will therefore not be binding upon the Board of Directors. However, the Compensation Committee will take the outcome of the vote into account when determining further executive compensation arrangements.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE APPROVAL OF THIS PROPOSAL.

PROPOSAL 4

RATIFICATION OF SELECTION OF INDEPENDENT AUDITOR

Porter Keadle Moore, LLP, of Atlanta, Georgia ("PKM"), has been selected by the Audit Committee as the Company's and the Bank's independent auditor for the year ending December 31, 2009. Such selection is being submitted to the

Company's shareholders for ratification. Representatives of PKM are expected to attend the Meeting and will be afforded an opportunity to make a statement, if they so desire, and to respond to appropriate questions from shareholders.

Audit Fees

The aggregate fees billed by PKM for professional services rendered in connection with the (i) audit of the Company's annual financial statements for 2008 and 2007; (ii) review of the financial statements included in the Company's quarterly filings on Form 10-Q during those fiscal years; and (iii) review of the Company's internal controls over financial reporting in 2008 and 2007 were approximately \$166,000 and \$202,000, respectively.

Audit Related Fees

The aggregate fees billed by PKM in 2008 and 2007 for professional services rendered for assurance and related services that are reasonably related to the performance of the audit or review of the Company's financial statements and not included in "Audit Fees" above were approximately \$18,000 and \$19,000, respectively. These fees were primarily related to the audit of the Company's profit sharing and 401(k) plan and the testing of management's assertions regarding internal controls in accordance with the Federal Deposit Insurance Corporation Improvement Act.

Tax Fees

The aggregate fees billed in each of the last two fiscal years for professional services rendered by PKM for tax compliance, tax advice, and tax planning were approximately \$27,000 and \$25,000 in 2008 and 2007, respectively. These fees were primarily related to the preparation of the Company's income tax returns, assistance with quarterly income tax estimates and preparation of Forms 5500 for various benefit plans.

All Other Fees

In addition to the fees outlined above, PKM billed fees in the amount of \$5,000 in 2008 and \$0 in 2007. These fees primarily related to input on and review of documents associated with the TARP application.

The fees billed by PKM are pre-approved by the Audit Committee of the Company in accordance with the policies and procedures for the Audit Committee set forth in the committee's charter. The Audit Committee typically pre-approves all audit and non-audit services provided by the Company's independent auditors and may not engage the independent auditors to perform any prohibited non-audit services. For 2008, 98% of the total fees paid for audit, audit related and tax services were pre-approved. For 2007, 100% of the fees for audit, audit related, and tax were pre-approved. The Audit Committee has determined that the rendering of non-audit professional services by PKM, as identified above, is compatible with maintaining PKM's independence.

THE BOARD OF DIRECTORS RECOMMENDS THAT THE SHAREHOLDERS VOTE FOR RATIFICATION OF THE APPOINTMENT OF PKM AS INDEPENDENT AUDITOR FOR THE COMPANY AND THE BANK FOR THE FISCAL YEAR ENDING DECEMBER 31, 2009.

DATE FOR RECEIPT OF SHAREHOLDER PROPOSALS

It is presently anticipated that the 2010 Annual Meeting of Shareholders of the Company will be held on May 6, 2010. In order for shareholder proposals to be included in the Company's proxy materials for that meeting, such proposals must be received by the Secretary of the Company at the Company's principal executive office no later than December 4, 2009 and meet all other applicable requirements for inclusion in the Proxy Statement.

In the alternative, a shareholder may commence his or her own proxy solicitation and present a proposal from the floor at the 2010 Annual Meeting of Shareholders of the Company. In order to do so, the shareholder must notify the Secretary of the Company in writing, at the Company's principal executive office no later than February 17, 2010, of

his or her proposal. If the Secretary of the Company is not notified of the shareholder's proposal by February 17, 2010, the Board of Directors may vote on the proposal pursuant to the discretionary authority granted by the proxies solicited by the Board of Directors for the 2010 Annual Meeting.

OTHER MATTERS

Management knows of no other matters to be presented for consideration at the Meeting or any adjournments thereof. If any other matters shall properly come before the Meeting, it is intended that the proxyholders named in the enclosed form of proxy will vote the shares represented thereby in accordance with their judgment, pursuant to the discretionary authority granted therein.

MISCELLANEOUS

The Annual Report of the Company for the year ended December 31, 2008, which includes financial statements audited and reported upon by the Company's independent auditor, is being mailed as Appendix A to this Proxy Statement; however, it is not intended that the Annual Report be deemed a part of this Proxy Statement or a solicitation of proxies.

THE FORM 10-K FILED BY THE COMPANY WITH THE SEC, INCLUDING THE FINANCIAL STATEMENTS AND SCHEDULES THERETO, WILL BE PROVIDED FREE OF CHARGE UPON WRITTEN REQUEST DIRECTED TO: PEOPLES BANCORP OF NORTH CAROLINA, INC., POST OFFICE BOX 467, 518 WEST C STREET, NEWTON, NORTH CAROLINA 28658-0467, ATTENTION: A. JOSEPH LAMPRON.

By Order of the Board of
Directors,

/s/ Tony W. Wolfe
Tony W. Wolfe
President and Chief Executive
Officer

Newton, North Carolina
March 27, 2009

APPENDIX A

PEOPLES BANCORP OF NORTH CAROLINA, INC.

General Description of Business

Peoples Bancorp of North Carolina, Inc. (the "Company"), was formed in 1999 to serve as the holding company for Peoples Bank (the "Bank"). The Company is a bank holding company registered with the Board of Governors of the Federal Reserve System (the "Federal Reserve") under the Bank Holding Company Act of 1956, as amended (the "BHCA"). The Company's principal source of income is any dividends, which are declared and paid by the Bank on its capital stock. The Company has no operations and conducts no business of its own other than owning the Bank. Accordingly, the discussion of the business which follows concerns the business conducted by the Bank, unless otherwise indicated.

The Bank, founded in 1912, is a state-chartered commercial bank serving the citizens and business interests of the Catawba Valley and surrounding communities through 21 banking offices located in Lincolnton, Newton, Denver, Catawba, Conover, Maiden, Claremont, Hiddenite, Hickory, Charlotte, Monroe, Cornelius, Mooresville and Raleigh North Carolina. The Bank also operates a loan production office in Denver, North Carolina. At December 31, 2008, the Company had total assets of \$968.8 million, net loans of \$770.2 million, deposits of \$721.1 million, total securities of \$131.2 million, and shareholders' equity of \$101.1 million.

The Bank has a diversified loan portfolio, with no foreign loans and few agricultural loans. Real estate loans are predominately variable rate commercial property loans, which include residential development loans to commercial customers. Commercial loans are spread throughout a variety of industries with no one particular industry or group of related industries accounting for a significant portion of the commercial loan portfolio. The majority of the Bank's deposit and loan customers are individuals and small to medium-sized businesses located in the Bank's market area. The Bank's loan portfolio also includes Individual Taxpayer Identification Number (ITIN) mortgage loans generated through the Bank's Banco de le Gente offices. Additional discussion of the Bank's loan portfolio and sources of funds for loans can be found in "Management's Discussion and Analysis of Financial Condition and Results of Operations" on pages A-4 through A-29 of the Annual Report, which is included in this Form 10-K as Exhibit 13.

The operations of the Bank and depository institutions in general are significantly influenced by general economic conditions and by related monetary and fiscal policies of depository institution regulatory agencies, including the Federal Reserve, the Federal Deposit Insurance Corporation (the "FDIC") and the North Carolina Commissioner of Banks (the "Commissioner").

At December 31, 2008, the Bank employed 270 full-time equivalent employees.

Subsidiaries

The Bank is a subsidiary of the Company. The Bank has two subsidiaries, Peoples Investment Services, Inc. and Real Estate Advisory Services, Inc. Through a relationship with Raymond James Financial Services, Inc., Peoples Investment Services, Inc. provides the Bank's customers access to investment counseling and non-deposit investment products such as stocks, bonds, mutual funds, tax deferred annuities, and related brokerage services. Real Estate Advisory Services, Inc., provides real estate appraisal and real estate brokerage services.

In June 2006, the Company formed a wholly owned Delaware statutory trust, PEBK Capital Trust II ("PEBK Trust II"), which issued \$20.0 million of guaranteed preferred beneficial interests in the Company's junior subordinated deferrable interest debentures. All of the common securities of PEBK Trust II are owned by the Company. The proceeds from the issuance of the common securities and the trust preferred securities were used by PEBK Trust II to purchase \$20.6 million of junior subordinated debentures of the Company, which pay a floating rate equal to three month LIBOR plus 163 basis points. The proceeds received by the Company from the sale of the junior subordinated

debentures were used in December 2006 to repay the trust preferred securities issued by PEBK Trust in December 2001 and for general purposes. The debentures represent the sole asset of PEBK Trust II. PEBK Trust II is not included in the consolidated financial statements.

The trust preferred securities issued by PEBK Trust II accrue and pay quarterly at a floating rate of three-month LIBOR plus 163 basis points. The Company has guaranteed distributions and other payments due on the trust preferred securities to the extent PEBK Trust II does not have funds with which to make the distributions and other payments. The net combined effect of the trust preferred securities transaction is that the Company is obligated to make the distributions and other payments required on the trust preferred securities.

These trust preferred securities are mandatorily redeemable upon maturity of the debentures on June 28, 2036, or upon earlier redemption as provided in the indenture. The Company has the right to redeem the debentures purchased by PEBK Trust II, in whole or in part, on or after June 28, 2011. As specified in the indenture, if the debentures are redeemed prior to maturity, the redemption price will be the principal amount and any accrued but unpaid interest.

A-1

This report contains certain forward-looking statements with respect to the financial condition, results of operations and business of Peoples Bancorp of North Carolina, Inc. (the “Company”). These forward-looking statements involve risks and uncertainties and are based on the beliefs and assumptions of management of the Company and on the information available to management at the time that these disclosures were prepared. These statements can be identified by the use of words like “expect,” “anticipate,” “estimate” and “believe,” variations of these words and other similar expressions. Readers should not place undue reliance on forward-looking statements as a number of important factors could cause actual results to differ materially from those in the forward-looking statements. Factors that could cause actual results to differ materially include, but are not limited to, (1) competition in the markets served by Peoples Bank (the “Bank”), (2) changes in the interest rate environment, (3) general national, regional or local economic conditions may be less favorable than expected, resulting in, among other things, a deterioration in credit quality and the possible impairment of collectibility of loans, (4) legislative or regulatory changes, including changes in accounting standards, (5) significant changes in the federal and state legal and regulatory environment and tax laws, (6) the impact of changes in monetary and fiscal policies, laws, rules and regulations and (7) other risks and factors identified in the Company’s other filings with the Securities and Exchange Commission. The Company undertakes no obligation to update any forward-looking statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS

The following is a discussion of our financial position and results of operations and should be read in conjunction with the information set forth under Item 1A Risk Factors and the Company's consolidated financial statements and notes thereto on pages A-30 through A-61.

Introduction

Management's discussion and analysis of earnings and related data are presented to assist in understanding the consolidated financial condition and results of operations of the Company, for the years ended December 31, 2008, 2007 and 2006. The Company is a registered bank holding company operating under the supervision of the Federal Reserve Board and the parent company of Peoples Bank (the "Bank"). The Bank is a North Carolina-chartered bank, with offices in Catawba, Lincoln, Alexander, Mecklenburg, Iredell, Union and Wake counties, operating under the banking laws of North Carolina and the rules and regulations of the Federal Deposit Insurance Corporation (the "FDIC").

Overview

Our business consists principally of attracting deposits from the general public and investing these funds in commercial loans, real estate mortgage loans, real estate construction loans and consumer loans. Our profitability depends primarily on our net interest income, which is the difference between the income we receive on our loan and investment securities portfolios and our cost of funds, which consists of interest paid on deposits and borrowed funds. Net interest income also is affected by the relative amounts of interest-earning assets and interest-bearing liabilities. When interest-earning assets approximate or exceed interest-bearing liabilities, a positive interest rate spread will generate net interest income. Our profitability is also affected by the level of other income and operating expenses. Other income consists primarily of miscellaneous fees related to our loans and deposits, mortgage banking income and commissions from sales of annuities and mutual funds. Operating expenses consist of compensation and benefits, occupancy related expenses, federal deposit and other insurance premiums, data processing, advertising and other expenses.

Our operations are influenced significantly by local economic conditions and by policies of financial institution regulatory authorities. The earnings on our assets are influenced by the effects of, and changes in, trade, monetary and fiscal policies and laws, including interest rate policies of the Board of Governors of the Federal Reserve System (the "Federal Reserve"), inflation, interest rates, market and monetary fluctuations. Lending activities are affected by the demand for commercial and other types of loans, which in turn is affected by the interest rates at which such financing may be offered. Our cost of funds is influenced by interest rates on competing investments and by rates offered on similar investments by competing financial institutions in our market area, as well as general market interest rates. These factors can cause fluctuations in our net interest income and other income. In addition, local economic conditions can impact the credit risk of our loan portfolio, in that (1) local employers may be required to eliminate employment positions of individual borrowers, and small businesses and (2) commercial borrowers may experience a downturn in their operating performance and become unable to make timely payments on their loans. Management evaluates these factors in estimating its allowance for loan losses and changes in these economic factors could result in increases or decreases to the provision for loan losses.

Our business emphasis has been to operate as a well-capitalized, profitable and independent community-oriented financial institution dedicated to providing quality customer service. We are committed to meeting the financial needs of the communities in which we operate. We believe that we can be more effective in serving our customers than many of our non-local competitors because of our ability to quickly and effectively provide senior management responses to customer needs and inquiries. Our ability to provide these services is enhanced by the stability of our senior management team.

The Federal Reserve has decreased the Federal Funds Rate 4.00% since December 31, 2007 with the rate set at 3.25% as of December 31, 2008. These decreases had a negative impact on 2008 earnings and will continue to have a negative impact on the Bank's net interest income in the future periods. The negative impact from the decrease in the Federal Funds Rate has been partially offset by the increase in earnings realized on interest rate contracts, including both interest rate swaps and interest rate floors, utilized by the Company. Additional information regarding the Company's interest rate contracts is provided below in the section entitled "Asset Liability and Interest Rate Risk Management."

On December 23, 2008, the Company entered into a Securities Purchase Agreement ("Purchase Agreement") with the United States Department of the Treasury ("UST"). Under the Purchase Agreement, the Company agreed to issue and sell 25,054 shares of Series A preferred stock and warrants to purchase 357,234 shares of common stock associated with the Company's participation in the U.S. Treasury Department's Capital Purchase Program ("CPP") under the Troubled Asset Relief Program ("TARP"). Proceeds from this issuance of preferred shares were allocated between preferred stock and the warrant based on their relative fair values at the time of the sale. Of the \$25.1 million in

A-4

proceeds, \$24.4 million was allocated to the Series A preferred stock and \$704,000 was allocated to the common stock warrant. The discount recorded on the preferred stock that resulted from allocating a portion of the proceeds to the warrant is being accreted directly to retained earnings over a five-year period applying a level yield. No dividends were declared or paid on the Series A preferred stock during 2008, and cumulative undeclared dividends at December 31, 2008 were \$28,000. The CPP, created by the UST, is a voluntary program in which selected, healthy financial institutions were encouraged to participate. Approved use of the funds includes providing credit to qualified borrowers, either as companies or individuals, among other things. Such participation is intended to support the economic development of the community and thereby restore the health of the local and national economy.

The Series A preferred stock qualifies as Tier 1 capital and will pay cumulative dividends at a rate of 5% per annum for the first five years and 9% per annum thereafter. The Series A preferred stock may be redeemed at the stated amount of \$1,000 per share plus any accrued and unpaid dividends. Under the terms of the original Purchase Agreement, the Company could not redeem the preferred shares until December 23, 2011 unless the total amount of the issuance, \$25.1 million, was replaced with the same amount of other forms of capital that would qualify as Tier 1 capital. However, with the enactment of the American Recovery and Reinvestment Act of 2009 (“ARRA”), the Company can now redeem the preferred shares at any time, if approved by the Company’s primary regulator. The Series A preferred stock is non-voting except for class voting rights on matters that would adversely affect the rights of the holders of the Series A preferred stock.

The exercise price of the warrant is \$10.52 per common share and it is exercisable at anytime on or before December 18, 2018.

The Company is subject to the following restrictions while the Series A preferred stock is outstanding: 1) UST approval is required for the Company to repurchase shares of outstanding common stock; 2) the full dividend for the latest completed CPP dividend period must be declared and paid in full before dividends may be paid to common shareholders; 3) UST approval is required for any increase in common dividends per share; and 4) the Company may not take tax deductions for any senior executive officer whose compensation is above \$500,000. There were additional restrictions on executive compensation added in the ARRA for companies participating in the TARP, including participants in the CPP.

It is the intent of the Company to utilize CPP funds to make loans to qualified borrowers in the Bank’s market area. The funds will also be used to absorb losses incurred when modifying loans or making concessions to borrowers in order to keep borrowers out of foreclosure. The Bank is also working with its current builders and contractors to provide financing for potential buyers who may not be able to qualify for financing in the current mortgage market in order to help these customers sell existing single family homes. The Bank will also use the CPP capital infusion as additional Tier I capital to protect the Bank from potential losses that may be incurred during this current recessionary period.

The Company qualified as an accelerated filer in accordance with Rule 12b-2 of the Securities Exchange Act of 1934, effective December 31, 2006. Therefore, the Company was subject to the requirements of Section 404 of the Sarbanes-Oxley Act of 2002 (“SOX 404”). The Company incurred additional consulting and audit expenses in becoming compliant with SOX 404, and will continue to incur additional audit expenses to comply with SOX 404 when SOX 404 becomes applicable to smaller reporting companies. Management does not expect expenses related to SOX 404 to have a material impact on the Company’s financial statements. The Company qualified as a smaller reporting company effective June 30, 2008, due to a decrease in market capitalization. Management does not expect significant cost savings from this change in filing status, as certification of the effectiveness of internal controls by management will still be required.

The Bank opened a new office in Iredell County, in Mooresville, North Carolina in January 2008. Also in January 2008, the Bank opened a new Banco de la Gente office in Wake County, in Raleigh, North Carolina in a continuing

effort to serve the Latino community. While there are no additional offices planned in 2009, management will continue to look for branching opportunities in nearby markets.

Summary of Significant Accounting Policies

The consolidated financial statements include the financial statements of Peoples Bancorp of North Carolina, Inc. and its wholly owned subsidiary, Peoples Bank, along with its wholly owned subsidiaries, Peoples Investment Services, Inc. and Real Estate Advisory Services, Inc (collectively called the “Company”). All significant intercompany balances and transactions have been eliminated in consolidation.

The Company’s accounting policies are fundamental to understanding management’s discussion and analysis of results of operations and financial condition. Many of the Company’s accounting policies require significant judgment regarding valuation of assets and liabilities and/or significant interpretation of specific accounting guidance. The following is a summary of some of the more subjective and complex accounting policies of the Company. A more

A-5

complete description of the Company's significant accounting policies can be found in Note 1 of the Notes to Consolidated Financial Statements in the Company's 2008 Annual Report to Shareholders which is Appendix A to the Proxy Statement for the May 7, 2009 Annual Meeting of Shareholders.

Many of the Company's assets and liabilities are recorded using various techniques that require significant judgment as to recoverability. The collectability of loans is reflected through the Company's estimate of the allowance for loan losses. The Company performs periodic and systematic detailed reviews of its lending portfolio to assess overall collectability. In addition, certain assets and liabilities are reflected at their estimated fair value in the consolidated financial statements. Such amounts are based on either quoted market prices or estimated values derived from dealer quotes used by the Company, market comparisons or internally generated modeling techniques. The Company's internal models generally involve present value of cash flow techniques. The various techniques are discussed in greater detail elsewhere in management's discussion and analysis and the notes to consolidated financial statements.

There are other complex accounting standards that require the Company to employ significant judgment in interpreting and applying certain of the principles prescribed by those standards. These judgments include, but are not limited to, the determination of whether a financial instrument or other contract meets the definition of a derivative in accordance with Statement of Financial Accounting Standards ("SFAS") No. 133, "Accounting for Derivative Instruments and Hedging Activities." For a more complete discussion of policies, see the notes to consolidated financial statements.

In September 2006, the Financial Accounting Standard Board ("FASB") ratified the conclusions reached by the Emerging Issues Task Force ("EITF") on EITF 06-4, "Accounting for Deferred Compensation and Postretirement Benefit Aspects of Endorsement Split-Dollar Life Insurance Arrangements." This issue requires companies to recognize an obligation for either the present value of the entire promised death benefit or the annual "cost of insurance" required to keep the policy in force during the post-retirement years. EITF 06-4 was effective for the Company as of January 1, 2008. During first quarter 2008, the Company made a \$467,000 reduction to retained earnings for the cumulative effect of EITF 06-4 as of January 1, 2008 pursuant to the guidance of this pronouncement to record the portion of this benefit earned by participants prior to adoption of this pronouncement.

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements." SFAS No. 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. SFAS No. 157 applies under other accounting pronouncements that require or permit fair value measurements. SFAS No. 157 was effective for the Company as of January 1, 2008. This standard had no effect on the Company's financial position or results of operations.

SFAS No. 157 establishes a three-level fair value hierarchy for fair value measurements. Level 1 inputs are quoted prices in active markets for identical assets or liabilities that a company has the ability to access at the measurement date. Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 3 inputs are unobservable inputs for the asset or liability. The Company's fair value measurements for items measured at fair value at December 31, 2008 included:

	Fair Value			
	Measurements	Level 1	Level 2	Level 3
	December 31, 2008	Valuation	Valuation	Valuation
Investment securities available for sale	\$ 124,916,349	935,032	122,731,317	1,250,000
Market value of derivatives (in other assets)	\$ 4,980,701	-	4,980,701	-

Fair values of investment securities available for sale are determined by obtaining quoted prices on nationally recognized securities exchanges when available. If quoted prices are not available, fair value is determined using matrix pricing, which is a mathematical technique used widely in the industry to value debt securities without relying

exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities. Fair values of derivative instruments are determined using widely accepted valuation techniques including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate curves and implied volatilities.

A-6

The following is an analysis of fair value measurements of investment securities available for sale using Level 3, significant unobservable inputs, for the year ended December 31, 2008:

	Investment Securities Available for Sale Level 3 Valuation
Balance, beginning of period	\$ 250,000
Change in book value	-
Change in gain/(loss) realized and unrealized	-
Purchases/(sales)	1,000,000
Transfers in and/or out of Level 3	-
Balance, end of period	\$ 1,250,000
Change in unrealized gain/(loss) for assets still held in Level 3	\$ 0

In accordance with the provisions of SFAS No. 114, the Company has specific loan loss reserves for loans that management has determined to be impaired. These specific reserves are determined on an individual loan basis based on management's current evaluation of the Company's loss exposure for each credit, given the appraised value of any underlying collateral. At December 31, 2008, the Company had specific reserves of \$462,000 in the allowance for loan losses on loans totaling \$7.5 million. The Company's December 31, 2008 fair value measurement for impaired loans is presented below:

	Fair Value Measurements December 31, 2008	Level 1 Valuation	Level 2 Valuation	Level 3 Valuation	Total Gains/(Losses) for the Year Ended December 31, 2008
Impaired loans	\$ 7,073,045	-	5,902,848	1,170,197	(345,000)
Other real estate	\$ 1,866,971	-	1,866,971	-	(165,630)

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities," which permits entities to choose to measure financial instruments and certain other instruments at fair value. SFAS No. 159 was effective for the Company as of January 1, 2008. The Company did not choose this option for any asset or liability, and therefore SFAS No. 159 did not have any effect on the Company's financial position, results of operations or disclosures.

In February 2008, the FASB issued FASB Staff Position ("FSP") FAS No. 140-3, "Accounting for Transfers of Financial Assets and Repurchase Financing Transactions." This FSP provides guidance on accounting for a transfer of a financial asset and a repurchase financing under SFAS No. 140, "Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities." This FSP is not expected to have a material effect on the Company's financial position, results of operations or disclosures.

In February 2008, the FASB issued FSP FAS No. 157-1, "Application of FASB Statement No. 157 to FASB Statement No. 13 and Other Accounting Pronouncements That Address Fair Value Measurements for Purposes of Lease Classification or Measurement under Statement 13." This FSP amends SFAS No. 157, "Fair Value Measurements," to exclude SFAS No. 13, "Accounting for Leases" and other accounting pronouncements that address fair value measurements for purposes of lease classification or measurement under SFAS No. 13. This FSP is not expected to have any effect on the Company's financial position, results of operations or disclosures.

In February 2008, the FASB issued FSP FAS No. 157-2, "Effective Date of FASB Statement No. 157." This FSP delays the effective date of SFAS No. 157, "Fair Value Measurements," for nonfinancial assets and nonfinancial liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). This FSP is not expected to have any effect on the Company's financial position, results of operations or disclosures.

In October 2008, the FASB issued FSP FAS No. 157-3, "Determining the Fair Value of a Financial Asset When the Market for That Asset Is Not Active." This FSP clarifies the application of SFAS No. 157, "Fair Value Measurements," in a market that is not active. This FSP is not expected to have any effect on the Company's financial position, results of operations or disclosures.

A-7

In March 2008, the FASB issued SFAS No. 161, "Disclosures about Derivative Instruments and Hedging Activities." SFAS No. 161 is an amendment to SFAS No. 133, which provides for enhanced disclosures about how and why an entity uses derivatives and how and where those derivatives and related hedged items are reported in the entity's financial statements. SFAS No. 161 is effective for the Company as of January 1, 2009. As this is a disclosure related standard, this standard is not expected to have any effect on the Company's financial position or results of operations. SFAS No. 161 will result in additional disclosures related to the Company's derivatives.

In September 2008, the FASB issued FSP FAS No. 133-1 and FIN 45-4, "Disclosures about Credit Derivatives and Certain Guarantees: An Amendment of FASB Statement No. 133 and FASB Interpretation No. 45 and Clarification of the Effective Date of FASB Statement No. 161." This FSP is an amendment to SFAS No. 133, which provides for enhanced disclosure requirements for credit risk derivatives. This FSP is not expected to have any effect on the Company's financial position, results of operations or disclosures.

In December 2008, the FASB issued FSP FAS No. 132(R)-1, "Employers' Disclosures about Postretirement Benefit Plan Assets." This FSP amends SFAS No. 132, "Employers' Disclosures about Pensions and Other Postretirement Benefits," to provide guidance on an employer's disclosures about plan assets of a defined benefit pension or other postretirement plan. This FSP is not expected to have any effect on the Company's financial position, results of operations or disclosures.

Management of the Company has made a number of estimates and assumptions relating to reporting of assets and liabilities and the disclosure of contingent assets and liabilities to prepare the accompanying consolidated financial statements in conformity with GAAP. Actual results could differ from those estimates.

The remainder of management's discussion and analysis of the Company's results of operations and financial position should be read in conjunction with the consolidated financial statements and related notes presented on pages A-30 through A-62.

Results of Operations

Summary. The Company reported earnings of \$6.4 million in 2008, or \$1.14 basic net earnings per common share and \$1.13 diluted net earnings per common share, a 33% decrease as compared to \$9.6 million, or \$1.68 basic net earnings per common share and \$1.65 diluted net earnings per common share, for 2007. The Company's decrease in net earnings for 2008 is primarily attributable to a decrease in net interest income, an increase in provision for loan losses and an increase in non-interest expense, which was partially offset by an increase in non-interest income.

Net earnings for 2007 represented an increase of 5% as compared to 2006 net earnings of \$9.2 million or \$1.61 basic net earnings per common share and \$1.58 diluted net earnings per common share. The increase in 2007 net earnings was primarily attributable to growth in interest-earning assets, which contributed to increases in net interest income and an increase in non-interest income. In addition, the Company had a decrease in the provision for loan losses for the year ended December 31, 2007 as compared to the same period in 2006. The increases in net interest income and non-interest income and the decrease in the provision for loan losses were partially offset by an increase in non-interest expense.

The return on average assets in 2008 was 0.69%, compared to 1.13% in 2007 and 1.19% in 2006. The return on average shareholders' equity was 8.38% in 2008 compared to 13.59% in 2007 and 14.68% in 2006.

Net Interest Income. Net interest income, the major component of the Company's net income, is the amount by which interest and fees generated by interest-earning assets exceed the total cost of funds used to carry them. Net interest income is affected by changes in the volume and mix of interest-earning assets and interest-bearing liabilities, as well as changes in the yields earned and rates paid. Net interest margin is calculated by dividing tax-equivalent net interest income by average interest-earning assets, and represents the Company's net yield on its interest-earning assets.

Net interest income was \$32.8 million for 2008 or a 4% decrease from net interest income of \$34.1 million in 2007. The decrease was primarily attributable to a reduction in the Bank's prime commercial lending rate. The decrease in loan interest income resulting from a decline in prime rate was partially offset by an increase in income from derivative instruments. Net income from derivative instruments was \$3.4 million for the year ended December 31, 2008 compared to a net loss of \$406,000 for the same period in 2007. Net interest income increased 6% in 2007 from \$32.3 million in 2006.

Table 1 sets forth for each category of interest-earning assets and interest-bearing liabilities, the average amounts outstanding, the interest incurred on such amounts and the average rate earned or incurred for the years ended December 31, 2008, 2007 and 2006. The table also sets forth the average rate earned on total interest-earning assets, the

A-8

average rate paid on total interest-bearing liabilities, and the net yield on average total interest-earning assets for the same periods. Yield information does not give effect to changes in fair value that are reflected as a component of shareholders' equity. Yields and interest income on tax-exempt investments have been adjusted to tax equivalent basis using an effective tax rate 38.55% for securities that are both federal and state tax exempt and an effective tax rate of 6.90% for state tax exempt securities. Non-accrual loans and the interest income that was recorded on these loans, if any, are included in the yield calculations for loans in all periods reported.

Table 1- Average Balance Table

(Dollars in thousands)	December 31, 2008			December 31, 2007			December 31, 2006		
	Average Balance	Interest	Yield / Rate	Average Balance	Interest	Yield / Rate	Average Balance	Interest	Yield / Rate

*Includes U.S. government sponsored enterprises that are non-taxable for state income tax purposes of \$63.6 million in 2008, \$74.9 million in 2007 and \$65.9 million in 2006. An effective tax rate of 6.90% was used to calculate the tax equivalent yield on these securities.

Changes in interest income and interest expense can result from variances in both volume and rates. Table 2 describes the impact on the Company's tax equivalent net interest income resulting from changes in average balances and average rates for the periods indicated. The changes in interest due to both volume and rate have been allocated to volume and rate changes in proportion to the relationship of the absolute dollar amounts of the changes in each.

Net interest income	\$ 3,158	(4,538)	(1,380)	3,314	(1,348)	1,966

Net interest income on a tax equivalent basis totaled \$33.6 million in 2008, decreasing 4% or \$1.4 million from 2007. The decrease was attributable to a reduction in the Bank's prime commercial lending rate. The interest rate spread, which represents the rate earned on interest-earning assets less the rate paid on interest-bearing liabilities, was 3.36% in 2008, a decrease from the 2007 net interest spread of 3.67%. The net yield on interest-earning assets in 2008 decreased to 3.83% from the 2007 net interest margin of 4.37%.

Tax equivalent interest income decreased \$5.4 million or 9% in 2008 primarily due to a reduction in the Bank's prime commercial lending rate. The yield on interest-earning assets decreased to 6.52% in 2008 from 7.81% in 2007 as a result of a decrease in the average yield received on loans resulting from Federal Reserve interest rate decreases, which were partially offset by an increase in the average outstanding balance of loans and income from interest rate derivative contracts. Average interest-earning assets increased \$75.3 million primarily as the result of an \$81.8 million increase in average loans. Average investment securities in 2008 increased 4% to \$115.9 million when compared to 2007. All other interest-earning assets including federal funds sold were \$13.4 million in 2008 and \$15.4 million in 2007.

Interest expense decreased \$4.1 million or 15% in 2008 due to a decrease in the average rate paid on interest-bearing liabilities. The cost of funds decreased to 3.18% in 2008 from 4.14% in 2007. This decrease in the cost of funds was primarily attributable to decreases in the average rate paid on interest-bearing checking and savings accounts and certificates of deposit. The \$74.8 million growth in average interest-bearing liabilities was primarily attributable to an increase in time deposits of \$44.3 million to \$406.1 million in 2008 from \$361.9 million in 2007 and an increase in interest-bearing checking and savings accounts of \$17.4 million to \$203.6 million in 2008 from \$186.2 million in 2007.

A-10

In 2007 net interest income on a tax equivalent basis increased \$2.0 million or 6% to \$35.0 million in 2007 from \$33.0 million in 2006. The interest rate spread was 3.67% in 2007, a decrease from the 2006 net interest spread of 3.89%. The net yield on interest-earning assets in 2007 decreased to 4.37% from the 2006 net interest margin of 4.51%.

Provision for Loan Losses. Provisions for loan losses are charged to income in order to bring the total allowance for loan losses to a level deemed appropriate by management of the Company based on factors such as management's judgment as to losses within the Company's loan portfolio, including the valuation of impaired loans in accordance with SFAS No. 114 and No. 118, loan growth, net charge-offs, changes in the composition of the loan portfolio, delinquencies and management's assessment of the quality of the loan portfolio and general economic climate.

The provision for loan losses was \$4.8 million, \$2.0 million, and \$2.5 million for the years ended December 31, 2008, 2007 and 2006, respectively. The increase in the provision for loan losses for 2008 is primarily attributable to an increase in non-performing assets, net charge-offs and increased loan growth. Please see the section below entitled "Allowance for Loan Losses" for a more complete discussion of the Bank's policy for addressing potential loan losses.

Non-Interest Income. Non-interest income for 2008 totaled \$10.5 million, an increase of \$1.7 million or 19% from non-interest income of \$8.8 million for 2007. The increases in non-interest income for 2008 are primarily due to an increase in service charges and fees resulting from growth in deposit base coupled with normal pricing changes, an increase in mortgage banking income and a decrease in the loss on sale and write-down of securities for the year ended December 31, 2008 when compared to the same period last year. These increases in non-interest income were partially offset by a decrease in insurance and brokerage commissions and a net increase in losses and write-downs on foreclosed property for the year ended December 31, 2008 as compared to the same period last year. Non-interest income for 2007 increased \$1.2 million or 17% from non-interest income of \$8.8 million for 2006. The increase in non-interest income for 2007 is primarily due to an increase in service charges and fees resulting from growth in deposit base coupled with normal pricing changes, an increase in insurance and brokerage commissions, an increase in mortgage banking income and an increase in miscellaneous income.

Service charges on deposit accounts totaled \$5.2 million during 2008, an increase of \$925,000, or 22% over 2007. Service charge income increased \$349,000, or 9% in 2007 compared to 2006. These increases are primarily attributable to growth in the deposit base coupled with normal pricing changes, which resulted in an increase in account maintenance fees.

Other service charges and fees increased 24% to \$2.4 million for the year ended December 31, 2008 as compared to \$1.9 million for the same period one year ago. This increase is primarily attributable to fee income from growth in the deposit base coupled with normal pricing changes.

The Company reported net losses on sale and write-downs of securities of \$167,000, \$562,000 and \$592,000 in 2008, 2007 and 2006, respectively. The Company periodically evaluates its investments for any impairment which would be deemed other than temporary. As part of its evaluation in 2008, the Company determined that the fair value of one investment was less than the original cost of the investment and that the decline in fair value was not temporary in nature. As a result, the Company wrote down its original investment by \$300,000. The remaining fair value of the investment at December 31, 2008 was \$22,000. Similarly, as part of its evaluation in 2007, the Company wrote down two investments by \$430,000. The remaining fair value of the investments at December 31, 2007 was \$348,000.

Mortgage banking income increased to \$660,000 in 2008 from \$560,000 in 2007 primarily due to an increase in brokered loan activity. During 2007 mortgage banking income increased \$271,000 from the \$289,000 reported in 2006. The increase in mortgage banking income for 2007 was primarily attributable to the \$185,000 write-down of the Bank's mortgage servicing asset in 2006. This write-down was due to Management's assessment that there was minimal fair value in the mortgage servicing rights due to the small remaining balance in the loans serviced for others.

Net losses on other real estate and repossessed assets were \$287,000 and \$118,000 for 2008 and 2007, respectively. During 2006 a net loss on other real estate and repossessed assets of \$108,000 was recognized. The increase in net losses on other real estate and repossessed assets during 2008 was primarily attributable to a \$170,000 net increase in losses and write-downs on foreclosed property for the year ended December 31, 2008 as compared to the same period last year. Management determined that the market value of these assets had decreased significantly and charges were appropriate for 2008.

Miscellaneous income for 2008 totaled \$2.3 million, an increase of 3% from \$2.2 million for 2007. During 2007, miscellaneous income increased 4% from \$2.1 million for 2006.

A-11

Table 3 presents a summary of non-interest income for the years ended December 31, 2008, 2007 and 2006.

Table 3 - Non-Interest Income

(Dollars in thousands)	2008	2007	2006
Service charges	\$ 5,203	4,279	3,930
Other service charges and fees	2,399	1,938	1,540
Gain (loss) on sale of securities	(167)	(562)	(592)
Mortgage banking income	660	560	289
Insurance and brokerage commissions	426	521	389
Loss on foreclosed and repossessed assets	(287)	(118)	(108)
Miscellaneous	2,261	2,198	2,106
Total non-interest income	\$ 10,495	8,816	7,554

Non-Interest Expense. Total non-interest expense amounted to \$28.9 million for 2008, an increase of 11% from 2007. Non-interest expense for 2007 increased 13% to \$26.0 million from non-interest expense of \$23.0 million for 2006.

Salary and employee benefit expense was \$15.2 million in 2008, compared to \$13.9 million during 2007, an increase of \$1.3 million or 9%, following a \$2.1 million or 18% increase in salary and employee benefit expense in 2007 over 2006. The increase in salary and employee benefits in 2008 and 2007 is primarily due to normal salary increases and expense associated with additional staff for new branches.

The Company recorded occupancy expenses of \$5.0 million in 2008, compared to \$4.8 million during 2007, an increase of \$278,000 or 6%, following an increase of \$571,000 or 14% in occupancy expenses in 2007 over 2006. The increases in 2008, 2007 and 2006 are primarily due to an increase in furniture and equipment expense and lease expense associated with new branches.

The total of all other operating expenses increased \$1.3 million or 18% to \$8.7 million during 2008. The increase in other expense for 2008 is primarily attributable to an increase in of \$407,000 in FDIC insurance expense, an increase of \$309,000 in deposit program expense and an increase of \$133,000 in foreclosure expense. Other operating expense increased \$336,000 or 5% in 2007 over 2006. The increase in other expense for 2007 is primarily attributable to increases of \$215,000 in advertising expense.

Table 4 presents a summary of non-interest expense for the years ended December 31, 2008, 2007 and 2006.

Table 4 - Non-Interest Expense

Total non-interest expense	\$ 28,893	25,993	22,983

Income Taxes. Total income tax expense was \$3.2 million in 2008 compared with \$5.3 million in 2007 and \$5.2 million in 2006. The primary reason for the decrease in taxes for 2008 as compared to 2007 and 2006 was the decrease in pretax income. The Company's effective tax rates were 33.46%, 35.76% and 36.05% in 2008, 2007 and 2006, respectively.

A-12

Liquidity. The objectives of the Company's liquidity policy are to provide for the availability of adequate funds to meet the needs of loan demand, deposit withdrawals, maturing liabilities and to satisfy regulatory requirements. Both deposit and loan customer cash needs can fluctuate significantly depending upon business cycles, economic conditions and yields and returns available from alternative investment opportunities. In addition, the Company's liquidity is affected by off-balance sheet commitments to lend in the form of unfunded commitments to extend credit and standby letters of credit. As of December 31, 2008 such unfunded commitments to extend credit were \$158.9 million, while commitments in the form of standby letters of credit totaled \$4.3 million.

The Company uses several sources to meet its liquidity requirements. The primary source is core deposits, which includes demand deposits, savings accounts and certificates of deposits of denominations less than \$100,000. The Company considers these to be a stable portion of the Company's liability mix and the result of on-going consumer and commercial banking relationships. As of December 31, 2008, the Company's core deposits totaled \$497.2 million, or 69% of total deposits.

The other sources of funding for the Company are through large denomination certificates of deposit, including brokered deposits, federal funds purchased, securities under agreement to repurchase and FHLB borrowings. The Bank is also able to borrow from the Federal Reserve on a short-term basis.

At December 31, 2008, the Bank had a significant amount of deposits in amounts greater than \$100,000, including brokered deposits of \$61.0 million, which mature over the next two years. The balance and cost of these deposits are more susceptible to changes in the interest rate environment than other deposits. For additional information, please see the section below entitled "Deposits."

The Bank has a line of credit with the FHLB equal to 20% of the Bank's total assets, with an outstanding balance of \$77.0 million at December 31, 2008. The remaining availability at FHLB was \$71.2 million at December 31, 2008. At December 31, 2008, the carrying value of loans pledged as collateral to the FHLB totaled approximately \$244.9 million. The Bank had \$5.0 million in borrowings from the Federal Reserve Bank ("FRB") at December 31, 2008. This borrowing was a 28-day Term Auction Facility loan at an interest rate of 0.28% which matured in January 2009. The FRB borrowings are collateralized by a blanket assignment on all qualifying loans that the Bank owns which are not pledged to the FHLB. At December 31, 2008, the carrying value of loans pledged as collateral to the FRB totaled approximately \$280.8 million.

The Bank also had the ability to borrow up to \$38.0 million for the purchase of overnight federal funds from four correspondent financial institutions as of December 31, 2008.

The liquidity ratio for the Bank, which is defined as net cash, interest-bearing deposits with banks, federal funds sold, certain investment securities and certain FHLB advances available under the line of credit, as a percentage of net deposits (adjusted for deposit runoff projections) and short-term liabilities was 26.80% at December 31, 2008, 28.04% at December 31, 2007 and 31.15% at December 31, 2007. The minimum required liquidity ratio as defined in the Bank's Asset/Liability and Interest Rate Risk Management Policy is 20%.

As disclosed in the Company's Consolidated Statements of Cash Flows included elsewhere herein, net cash provided by operating activities was approximately \$10.7 million during 2008. Net cash used in investing activities of \$65.7 million consisted primarily of a net increase in loans of \$65.2 million. Net cash provided by financing activities amounted to \$53.1 million, primarily from a \$27.4 million net increase in deposits and the \$25.1 issuance of Series A preferred stock.

Asset Liability and Interest Rate Risk Management. The objective of the Company's Asset Liability and Interest Rate Risk strategies is to identify and manage the sensitivity of net interest income to changing interest rates and to minimize the interest rate risk between interest-earning assets and interest-bearing liabilities at various

maturities. This is done in conjunction with the need to maintain adequate liquidity and the overall goal of maximizing net interest income. Table 5 presents an interest rate sensitivity analysis for the interest-earning assets and interest-bearing liabilities for the year ended December 31, 2008.

A-13

Table 5 - Interest Sensitivity Analysis

(Dollars in thousands)	Immediate	1-3 months	4-12 months	Total Within One Year	Over One Year & Non-sensitive	Total

Interest-earning assets as a percentage of interest-bearing liabilities	178.39%	6.00%	11.51%	86.25%	328.91%	

The Company manages its exposure to fluctuations in interest rates through policies established by the Asset/Liability Committee (“ALCO”) of the Bank. The ALCO meets monthly and has the responsibility for approving asset/liability management policies, formulating and implementing strategies to improve balance sheet positioning and/or earnings and reviewing the interest rate sensitivity of the Company. ALCO tries to minimize interest rate risk between interest-earning assets and interest-bearing liabilities by attempting to minimize wide fluctuations in net interest income due to interest rate movements. The ability to control these fluctuations has a direct impact on the profitability of the Company. Management monitors this activity on a regular basis through analysis of its portfolios to determine the difference between rate sensitive assets and rate sensitive liabilities.

The Company's rate sensitive assets are those earning interest at variable rates and those with contractual maturities within one year. Rate sensitive assets therefore include both loans and available for sale securities. Rate sensitive liabilities include interest-bearing checking accounts, money market deposit accounts, savings accounts, time deposits and borrowed funds. As shown in Table 5, the Company's balance sheet is asset-sensitive, meaning that in a given period there will be more assets than liabilities subject to immediate repricing as interest rates change in the market. Because most of the Company's loans are tied to the prime rate, they reprice more rapidly than rate sensitive interest-bearing deposits. During periods of rising rates, this results in increased net interest income. The opposite occurs during periods of declining rates. Rate sensitive assets at December 31, 2008 totaled \$921.1 million, exceeding rate sensitive liabilities of \$758.3 million by \$162.8 million.

The Company has an overall interest rate risk management strategy that incorporates the use of derivative instruments to minimize significant unplanned fluctuations in earnings that are caused by interest rate volatility. By using derivative instruments, the Company is exposed to credit and market risk. If the counterparty fails to perform, credit risk is equal to the extent of the fair-value gain in the derivative. The Company minimizes the credit risk in derivative instruments by entering into transactions with high-quality counterparties that are reviewed periodically by the Company. As of December 31, 2008, the Company had cash flow hedges with a notional amount of \$165.0 million. These derivative instruments consist of three interest rate floor contracts and one interest rate swap contract. The interest rate floor contracts are used to hedge future cash flows from payments on the first \$115.0 million of certain variable rate loans

against the downward effects of their repricing in the event of a decreasing rate environment during the terms of the interest rate floor contracts. If the prime rate falls below the contract rate during the term of the contract, the Company will receive payments based on notional amount times the difference between the contract rate and the weighted average prime rate for the quarter. No payments will be received by the Company if the weighted average prime rate is equal to or higher than the contract rate. The interest rate floor contracts in effect at December 31, 2008 will expire in 2009. The interest rate swap contract is used to convert \$50.0 million of variable rate loans to a fixed rate. Under the swap contract, the Company receives a fixed rate of 6.245% and pays a variable rate based on the current prime rate (3.25% at December 31, 2008) on the notional amount of \$50.0 million. The swap agreement matures in June 2011. The Company recognized \$3.4 million in interest income, net of premium amortization, from interest rate derivative contracts during the year ended December 31, 2008. Based on the current interest rate environment, it is expected the Company will continue to receive income on these interest rate contracts throughout 2009.

Tables 6 and 7 present additional information on the Company's derivative financial instruments as of December 31, 2008.

Table 6 - Derivative Instruments
(Dollars in thousands)

Interest rate derivative contracts		\$ 4,981		\$ 1,907	N/A		N/A	\$ -

Other assets	Other assets	\$ -
-----------------	-----------------	------

Included in the rate sensitive assets are \$506.2 million in variable rate loans indexed to prime rate subject to immediate repricing upon changes by the Federal Open Market Committee (“FOMC”). The Bank utilizes interest rate floors on certain variable rate loans to protect against further downward movements in the prime rate. At December 31, 2008, the Bank had \$149.0 million in loans with interest rate floors. The floors were in effect on \$147.0 million of these loans pursuant to the terms of the promissory notes on these loans. The weighted average rate on these loans is 1.59% higher than the indexed rate on the promissory notes without interest rate floors.

An analysis of the Company’s financial condition and growth can be made by examining the changes and trends in interest-earning assets and interest-bearing liabilities. A discussion of these changes and trends follows.

Analysis of Financial Condition

Investment Securities. All of the Company’s investment securities are held in the available-for-sale (“AFS”) category. At December 31, 2008 the market value of AFS securities totaled \$124.9 million, compared to \$121.0 million and \$117.6 million at December 31, 2007 and 2006, respectively. The increase in 2008 investment securities is the result of net securities purchases that are part of management’s objective to grow the investment portfolio in an effort to manage the credit risk in the balance sheet. This increase in AFS securities was partially offset by paydowns on mortgage-backed securities, calls and maturities. Table 8 presents the market value of the AFS securities held at December 31, 2008, 2007 and 2006.

Table 8 - Summary of Investment Portfolio

(Dollars in thousands)	2008	2007	2006
Obligations of United States government sponsored enterprises	\$ 58,487	76,992	72,744
Obligations of states and political subdivisions	26,973	25,905	24,366
Mortgage-backed securities	37,271	16,271	19,220
Trust preferred securities	1,250	250	750
Equity securities	935	1,550	501
Total securities	\$ 124,916	120,968	117,581

The composition of the investment securities portfolio reflects the Company's investment strategy of maintaining an appropriate level of liquidity while providing a relatively stable source of income. The investment portfolio also provides a balance to interest rate risk and credit risk in other categories of the balance sheet while providing a vehicle for the investment of available funds, furnishing liquidity, and supplying securities to pledge as required collateral for certain deposits.

The Company's investment portfolio consists of U.S. government sponsored enterprise securities, municipal securities, U.S. government enterprise sponsored mortgage-backed securities, and trust preferred securities and equity securities. AFS securities averaged \$115.9 million in 2008, \$120.3 million in 2007 and \$118.1 million in 2006. Table 9 presents the amortized cost of AFS securities held by the Company by maturity category at December 31, 2008. Yield information does not give effect to changes in fair value that are reflected as a component of shareholders' equity. Yields are calculated on a tax equivalent basis. Yields and interest income on tax-exempt investments have been adjusted to tax equivalent basis using an effective tax rate 38.55% for securities that are both federal and state tax exempt and an effective tax rate of 6.90% for state tax exempt securities.

Loans. The loan portfolio is the largest category of the Company's earning assets and is comprised of commercial loans, real estate mortgage loans, real estate construction loans and consumer loans. The Company grants loans and extensions of credit primarily within the Catawba Valley region of North Carolina, which encompasses Catawba, Alexander, Iredell and Lincoln counties and also in Mecklenburg, Union and Wake counties in North Carolina. Although the Company has a diversified loan portfolio, a substantial portion of the loan portfolio is collateralized by real estate, which is dependent upon the real estate market. Non-real estate loans also can be affected by local economic conditions. In management's opinion, there are no significant concentrations of credit with particular borrowers engaged in similar activities.

A-16

Real estate mortgage loans include both commercial and residential mortgage loans. At December 31, 2008, the Company had \$108.6 million in residential mortgage loans, \$93.3 million in home equity loans and \$272.8 million in commercial mortgage loans, which include \$218.0 million using commercial property as collateral and \$54.8 million using residential property as collateral. At December 31, 2008, real estate construction loans included \$126.5 million in speculative construction and development loans.

Residential mortgage loans include \$51.0 million made to customers in the Company's traditional banking offices and \$57.6 million in mortgage loans originated in the Company's Latino banking operations. All residential mortgage loans are originated as fully amortizing loans, with no negative amortization. Also, the Company does not have credit exposure for residential mortgage loans originated that are not reflected in the Company's assets.

The mortgage loans originated in the traditional banking offices are generally 15 to 30 year fixed rate loans with attributes that cause the loans to not be sellable in the secondary market. These factors may include higher loan-to-value ratio, limited documentation on income, non-conforming appraisal or non-conforming property type and are generally made to existing Bank customers. These loans have been originated throughout the Company's five county service area, with no geographic concentration. At December 31, 2008 there were 12 loans with an outstanding balance of \$1.1 million 30 days or more past due and no loans more than 90 days past due.

The mortgage loans originated in the Company's Latino operations are primarily adjustable rate mortgage loans that adjust annually after the end of the first five years of the loan. The loans are tied to the one-year T-Bill index and, if they were to adjust at December 31, 2008, would have a reduction in the interest rate on the loan. The underwriting on these loans includes both full income verification and no income verification, with loan-to-value ratios of up to 95% without private mortgage insurance. A majority of these loans would be considered subprime loans, as they were underwritten using stated income rather than fully documented income verification. No other loans in the Company's portfolio would be considered subprime. The majority of these loans have been originated within the Charlotte, NC metro area. At this time, Charlotte has begun to experience a decline in values within the residential real estate market. At December 31, 2008 there were 96 loans with an outstanding balance of \$10.8 million 30 days or more past due and four loans more than 90 days past due totaling \$514,000. Total losses on this portfolio, since the first loans were originated in 2004 have amounted to approximately \$348,000 through December 31, 2008.

As a recipient of CPP funds, the Bank will strive to work with delinquent borrowers in an attempt to mitigate foreclosure. The funds will also be used to absorb losses incurred when modifying loans or making concessions to borrowers in order to keep borrowers out of foreclosure.

The composition of the Company's loan portfolio is presented in Table 10.

Table 10 - Loan Portfolio

(Dollars in thousands)	2008		2007		2006		2005		2004

Net loans	\$ 770,163		713,174		643,078		559,239		527,419	

As of December 31, 2008, gross loans outstanding were \$781.2 million, an increase of \$58.9 million or 8% from the December 31, 2007 balance of \$722.3 million. Commercial loans decreased \$5.2 million in 2008. Real estate mortgage loans grew \$57.0 million when compared to 2007 due to an increase in non-conforming mortgage loans and commercial real estate loans. Real estate construction loans increased \$6.5 million in 2008 as a result of an increase in real estate development loans. Consumer loans increased \$589,000 in 2008.

A-17

Table 11 identifies the maturities of all loans as of December 31, 2008 and addresses the sensitivity of these loans to changes in interest rates.

Table 11 - Maturity and Repricing Data for Loans

(Dollars in thousands)	Within one year or less	After one year through five years	After five years	Total loans

Total loans	\$ 542,979	178,862	59,347	781,188

In the normal course of business, there are various commitments outstanding to extend credit that are not reflected in the financial statements. At December 31, 2008, outstanding loan commitments totaled \$158.9 million. Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments may expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. Additional information regarding commitments is provided below in the section entitled "Contractual Obligations" and in Note 10 to the Consolidated Financial Statements.

Allowance for Loan Losses. The allowance for loan losses reflects management's assessment and estimate of the risks associated with extending credit and its evaluation of the quality of the loan portfolio. The Bank periodically analyzes the loan portfolio in an effort to review asset quality and to establish an allowance for loan losses that management believes will be adequate in light of anticipated risks and loan losses. In assessing the adequacy of the allowance, size, quality and risk of loans in the portfolio are reviewed. Other factors considered are:

- the Bank's loan loss experience;
- the amount of past due and non-performing loans;
 - specific known risks;
- the status and amount of other past due and non-performing assets;
 - underlying estimated values of collateral securing loans;
 - current and anticipated economic conditions; and
- other factors which management believes affect the allowance for potential credit losses.

Management uses several measures to assess and monitor the credit risks in the loan portfolio, including a loan grading system that begins upon loan origination and continues until the loan is collected or collectibility becomes doubtful. Upon loan origination, the Bank's originating loan officer evaluates the quality of the loan and assigns one of nine risk grades, each grade indicating a different level of loss reserves. The loan officer monitors the loan's performance and credit quality and makes changes to the credit grade as conditions warrant. When originated or renewed, all loans over a certain dollar amount receive in-depth reviews and risk assessments by the Bank's Credit

Administration. Before making any changes in these risk grades, management considers assessments as determined by the third party credit review firm (as described below), regulatory examiners and the Bank's Credit Administration. Any issues regarding the risk assessments are addressed by the Bank's senior credit administrators and factored into management's decision to originate or renew the loan as well as the level of reserves deemed appropriate for the loan. The Bank's Board of Directors reviews, on a monthly basis, an analysis of the Bank's reserves relative to the range of reserves estimated by the Bank's Credit Administration.

As an additional measure, the Bank engages an independent third party to review the underwriting, documentation and risk grading analyses. This independent third party reviews and evaluates all loan relationships greater than \$1.0 million. The third party's evaluation and report is shared with management and the Bank's Board of Directors.

A-18

Management considers certain commercial loans with weak credit risk grades to be individually impaired and measures such impairment based upon available cash flows and the value of the collateral. Allowance or reserve levels are estimated for all other graded loans in the portfolio based on their assigned credit risk grade, type of loan and other matters related to credit risk.

Management uses the information developed from the procedures described above in evaluating and grading the loan portfolio. This continual grading process is used to monitor the credit quality of the loan portfolio and to assist management in determining the appropriate levels of the allowance for loan losses.

The allowance for loan losses is comprised of three components: specific reserves, general reserves and unallocated reserves. After a loan has been identified as impaired, management measures impairment in accordance with SFAS No. 114, "Accounting by Creditors for Impairment of a Loan." When the measure of the impaired loan is less than the recorded investment in the loan, the amount of the impairment is recorded as a specific reserve. These specific reserves are determined on an individual loan basis based on management's current evaluation of the Company's loss exposure for each credit, given the payment status, financial condition of the borrower, and value of any underlying collateral. Loans for which specific reserves are provided are excluded from the general allowance calculations as described below. At December 31, 2008 and 2007, the recorded investment in loans that were considered to be impaired under SFAS No. 114 was approximately \$7.5 million and \$8.0 million, respectively, with related allowance for loan losses of approximately \$462,000 and \$1.2 million for December 31, 2008 and 2007, respectively.

The general allowance reflects reserves established under the provisions of SFAS No. 5, "Accounting for Contingencies" for collective loan impairment. These reserves are based upon historical net charge-offs using the last three years' experience. This charge-off experience may be adjusted to reflect the effects of current conditions. The Bank considers information derived from its loan risk ratings and external data related to industry and general economic trends.

The unallocated allowance is determined through management's assessment of probable losses that are in the portfolio but are not adequately captured by the other two components of the allowance, including consideration of current economic and business conditions and regulatory requirements. The unallocated allowance also reflects management's acknowledgement of the imprecision and subjectivity that underlie the modeling of credit risk. Due to the subjectivity involved in determining the overall allowance, including the unallocated portion, this unallocated portion may fluctuate from period to period based on management's evaluation of the factors affecting the assumptions used in calculating the allowance.

Management considers the allowance for loan losses adequate to cover the estimated losses inherent in the Company's loan portfolio as of the date of the financial statements. Management believes it has established the allowance in accordance with accounting principles generally accepted in the United States of America and in consideration of the current economic environment. Although management uses the best information available to make evaluations, significant future additions to the allowance may be necessary based on changes in economic and other conditions that adversely affect the operating results of the Company.

There were no significant changes in the estimation methods or fundamental assumptions used in the evaluation of the allowance for loan losses for the year ended December 31, 2008 as compared to the year ended December 31, 2007. Such revisions, estimates and assumptions are made in any period in which the supporting factors indicate that loss levels may vary from the previous estimates.

Additionally, various regulatory agencies, as an integral part of their examination process, periodically review the Bank's allowances for loan losses. Such agencies may require adjustments to the allowances based on their judgments of information available to them at the time of their examinations.

Net charge-offs for 2008 were \$2.9 million. The ratio of net charge-offs to average total loans was 0.38% in 2008, 0.19% in 2007 and 0.27% in 2006. Management expects the ratio of net charge-offs to average total loans to increase again in 2009 due to the recessionary economic conditions and the decline in real estate values and new home sales. The allowance for loan losses increased to \$11.0 million or 1.41% of total loans outstanding at December 31, 2008. For December 31, 2007 and 2006, the allowance for loan losses amounted to \$9.1 million or 1.26% of total loans outstanding and \$8.3 million, or 1.27% of total loans outstanding, respectively. Management would expect the percentage of the allowance for loan losses to total loans to increase in 2009 if non-performing loans continue to increase as a result of the current recessionary economic conditions.

A-19

Table 12 presents the percentage of loans assigned to each risk grade along with the general reserve percentage applied to loans in each risk grade at December 31, 2008 and 2007.

Table 12 - Loan Risk Grade Analysis

Risk Grade	Percentage of Loans By Risk Grade*	
	2008	2007
Risk 1 (Excellent Quality)	4.08%	11.06%
Risk 2 (High Quality)	17.95%	14.06%
Risk 3 (Good Quality)	63.08%	62.53%
Risk 4 (Management Attention)	10.42%	9.51%
Risk 5 (Watch)	2.14%	1.57%
Risk 6 (Substandard)	0.80%	0.13%
Risk 7 (Low Substandard)	0.00%	0.03%
Risk 8 (Doubtful)	0.00%	0.00%
Risk 9 (Loss)	0.00%	0.00%

* Excludes non-accrual loans

Table 13 presents an analysis of the allowance for loan losses, including charge-off activity.

Table 13 - Analysis of Allowance for Loan Losses

(Dollars in thousands)	2008	2007	2006	2005	2004
Reserve for loan losses at beginning	\$ 9,103	8,303	7,425	8,049	9,722

--------------------------------------------------------------------------------	-------	-------	-------	-------	-------

Non-performing Assets. Non-performing assets, comprised of non-accrual loans, other real estate owned, other repossessed assets and loans for which payments are more than 90 days past due totaled \$14.2 million at December 31, 2008 compared to \$8.5 million at December 31, 2007. Non-accrual loans were \$11.8 million at December 31, 2008, an increase of \$3.8 million from non-accruals of \$8.0 million at December 31, 2007. As a percentage of loans outstanding, non-accrual loans were 1.51% and 1.11% at December 31, 2008 and 2007, respectively. The Bank had \$514,000 in loans 90 days past due and still accruing at December 31, 2008 as compared to no loans for the same period in 2007. Other real estate owned totaled \$1.9 million and \$483,000 as of December 31, 2008 and 2007, respectively. The Bank had no repossessed assets as of December 31, 2008 and 2007.

A-20

At December 31, 2008, the Company had non-performing loans, defined as non-accrual and accruing loans past due more than 90 days, of \$12.3 million or 1.58% of total loans. Non-performing loans for 2007 were \$8.0 million, or 1.11% of total loans and \$7.6 million, or 1.17% of total loans for 2006. Interest that would have been recorded on non-accrual loans for the years ended December 31, 2008, 2007 and 2006, had they performed in accordance with their original terms, amounted to approximately \$850,000, \$693,000 and \$429,000, respectively. Interest income on impaired loans included in the results of operations for 2008, 2007, and 2006 amounted to approximately \$65,000, \$29,000 and \$144,000, respectively.

Management continually monitors the loan portfolio to ensure that all loans potentially having a material adverse impact on future operating results, liquidity or capital resources have been classified as non-performing. Should economic conditions deteriorate, the inability of distressed customers to service their existing debt could cause higher levels of non-performing loans. Management anticipates continued weakness in the housing market, which combined with the current recessionary economic conditions will, in all likelihood, result in higher levels of non-performing loans in 2009.

It is the general policy of the Company to stop accruing interest income and place the recognition of interest on a cash basis when a loan is placed on non-accrual status and any interest previously accrued but not collected is reversed against current income. Generally a loan is placed on non-accrual status when it is over 90 days past due and there is reasonable doubt that all principal will be collected.

A summary of non-performing assets at December 31 for each of the years presented is shown in Table 14.

Table 14 - Non-performing Assets

(Dollars in thousands)	2008	2007	2006	2005	2004
Non-accrual loans	\$ 11,815	7,987	7,560	3,492	5,097
Loans 90 days or more past due and still accruing	514	-	78	946	245
Total non-performing loans	12,329	7,987	7,638	4,438	5,342
All other real estate owned	1,867	483	344	531	682
All other repossessed assets	-	-	-	-	-
Total non-performing assets	\$ 14,196	8,470	7,982	4,969	6,024
As a percent of total loans at year end					
Non-accrual loans	1.51%	1.11%	1.16%	0.62%	0.95%
Loans 90 days or more past due and still accruing	0.07%	0.00%	0.01%	0.17%	0.05%
Total non-performing assets	1.82%	1.17%	1.23%	0.88%	1.12%

Deposits. The Company primarily uses deposits to fund its loan and investment portfolios. The Company offers a variety of deposit accounts to individuals and businesses. Deposit accounts include checking, savings, money market and time deposits. As of December 31, 2008, total deposits were \$721.1 million, an increase of \$27.5 million or 4% increase over the December 31, 2007 balance of \$693.6 million. Core deposits, which include demand deposits, savings accounts and certificates of deposits of denominations less than \$100,000, increased to \$497.2 million at December 31, 2008 from \$490.1 million at December 31, 2007.

Time deposits in amounts of \$100,000 or more totaled \$220.4 million, \$203.5 million and \$194.2 million at December 31, 2008, 2007 and 2006, respectively. At December 31, 2008, brokered deposits amounted to \$61.0 million as compared to \$53.9 million at December 31, 2007. Brokered deposits are generally considered to be more susceptible to withdrawal as a result of interest rate changes and to be a less stable source of funds, as compared to deposits from the local market. Brokered deposits outstanding as of December 31, 2008 have a weighted average rate of 3.25% with a weighted average original term of 8 months.

A-21

Table 15 is a summary of the maturity distribution of time deposits in amounts of \$100,000 or more as of December 31, 2008.

Table 15 - Maturities of Time Deposits over \$100,000

(Dollars in thousands)	2008
Three months or less	\$ 106,166
Over three months through six months	58,526
Over six months through twelve months	40,819
Over twelve months	14,864
Total	\$ 220,375

Borrowed Funds. The Company has access to various short-term borrowings, including the purchase of federal funds and borrowing arrangements from the FHLB and other financial institutions. At December 31, 2008, FHLB borrowings totaled \$77.0 million compared to \$87.5 million at December 31, 2007 and \$89.3 million at December 31, 2006. Average FHLB borrowings for 2008 were \$79.2 million, compared to average balances of \$80.1 million for 2007 and \$74.1 million for 2006. The maximum amount of outstanding FHLB borrowings was \$97.6 million in 2008, and \$95.0 in 2007 and \$99.5 in 2006. The FHLB borrowings outstanding at December 31, 2008 had both fixed and adjustable interest rates ranging from 3.71% to 6.49%. At December 31, 2008, all of the Bank's FHLB borrowings had maturities exceeding one year. The FHLB has the option to convert \$72.0 million of the total borrowings to a floating rate and, if converted, the Bank may repay borrowings without a prepayment fee. The Company also has an additional \$5.0 million in variable rate convertible borrowings, which may be repaid without a prepayment fee if converted by the FHLB. Additional information regarding FHLB borrowings is provided in Note 6 to the Consolidated Financial Statements.

The Bank had \$5.0 million in borrowings from the FRB at December 31, 2008. This borrowing was a 28-day Term Auction Facility loan at an interest rate of 0.28% which matured in January 2009.

Demand notes payable to the U. S. Treasury, which represent treasury tax and loan payments received from customers, amounted to approximately \$1.6 million at December 31, 2008, 2007 and 2006.

Securities sold under agreements to repurchase amounted to \$37.5 million, \$27.6 million and \$6.4 million as of December 31, 2008, 2007 and 2006, respectively.

Junior Subordinated Debentures (related to Trust Preferred Securities). In June 2006 the Company formed a wholly owned Delaware statutory trust, PEBK Capital Trust II ("PEBK Trust II"), which issued \$20.0 million of guaranteed preferred beneficial interests in the Company's junior subordinated deferrable interest debentures. All of the common securities of PEBK Trust II are owned by the Company. The proceeds from the issuance of the common securities and the trust preferred securities were used by PEBK Trust II to purchase \$20.6 million of junior subordinated debentures of the Company, which pay a floating rate equal to three-month LIBOR plus 163 basis points. The proceeds received by the Company from the sale of the junior subordinated debentures were used to repay in December 2006 the trust preferred securities issued by PEBK Trust in December 2001 and for general purposes. The debentures represent the sole asset of PEBK Trust II. PEBK Trust II is not included in the consolidated financial statements.

The trust preferred securities issued by PEBK Trust II accrue and pay quarterly at a floating rate of three-month LIBOR plus 163 basis points. The Company has guaranteed distributions and other payments due on the trust preferred securities to the extent PEBK Trust II has funds with which to make the distributions and other payments. The net combined effect of the trust preferred securities transaction is that the Company is obligated to make the distributions and other payments required on the trust preferred securities.

These trust preferred securities are mandatorily redeemable upon maturity of the debentures on June 28, 2036, or upon earlier redemption as provided in the indenture. The Company has the right to redeem the debentures purchased by PEBK Trust II, in whole or in part, on or after June 28, 2011. As specified in the indenture, if the debentures are redeemed prior to maturity, the redemption price will be the principal amount and any accrued but unpaid interest.

Contractual Obligations and Off-Balance Sheet Arrangements. The Company's contractual obligations and other commitments as of December 31, 2008 are summarized in Table 16 below. The Company's contractual obligations include the repayment of principal and interest related to FHLB advances and junior subordinated debentures, as well as certain payments under current lease agreements. Other commitments include commitments to extend credit. Because not all of these commitments to extend credit will be drawn upon, the actual cash requirements are likely to be significantly less than the amounts reported for other commitments below.

A-22

Table 16 - Contractual Obligations and Other Commitments

(Dollars in thousands)	Within One Year	One to Three Years	Three to Five Years	Five Years or More	Total
Contractual Cash Obligations					
Long-term borrowings	\$ -	12,000	-	65,000	77,000
Junior subordinated debentures	-	-	-	20,619	20,619
Operating lease obligations	769	1,191	701	1,893	4,554
Total	\$ 769	13,191	701	87,512	102,173
Other Commitments					
Commitments to extend credit	\$ 54,767	14,566	2,336	87,270	158,939
Standby letters of credit and financial guarantees written	4,294	22	-	-	4,316
Total	\$ 59,061	14,588	2,336	87,270	163,255

The Company enters into derivative contracts to manage various financial risks. A derivative is a financial instrument that derives its cash flows, and therefore its value, by reference to an underlying instrument, index or referenced interest rate. Derivative contracts are carried at fair value on the consolidated balance sheet with the fair value representing the net present value of expected future cash receipts or payments based on market interest rates as of the balance sheet date. Derivative contracts are written in amounts referred to as notional amounts, which only provide the basis for calculating payments between counterparties and are not a measure of financial risk. Therefore, the derivative amounts recorded on the balance sheet do not represent the amounts that may ultimately be paid under these contracts. Further discussions of derivative instruments are included above in the section entitled "Asset Liability and Interest Rate Risk Management" beginning on page A-13 and in Notes 1, 10, 11 and 16 to the Consolidated Financial Statements.

Capital Resources. Shareholders' equity at December 31, 2008 was \$101.1 million compared to \$70.1 million at December 31, 2007 and \$62.8 million at December 31, 2006. Unrealized gains and losses, net of taxes, at December 31, 2008 and 2007 amounted to gains of \$5.5 million and \$1.7 million, respectively. At December 31, 2006, unrealized gains and losses, net of taxes, amounted to a loss of \$771,000. Average shareholders' equity as a percentage of total average assets is one measure used to determine capital strength. Average shareholders' equity as a percentage of total average assets was 8.20%, 8.34% and 8.09% for 2008, 2007 and 2006. The return on average shareholders' equity was 8.38% at December 31, 2008 as compared to 13.59% and 14.68% as of December 31, 2007 and December 31, 2006, respectively. Total cash dividends paid during 2008 amounted to \$2.7 million. Cash dividends totaling \$2.3 million and \$1.9 million were paid during 2007 and 2006, respectively.

In November 2006, the Company's Board of Directors authorized the repurchase of up to \$2.0 million in common shares of the Company's outstanding common stock through its existing Stock Repurchase Plan effective through the end of November 2007. During 2007, the Company repurchased 100,000 shares, or \$1,938,000, of its common stock under this plan.

In August 2007, the Company's Board of Directors authorized the repurchase of up to 75,000 common shares of the Company's outstanding common stock through its existing Stock Repurchase Plan effective through the end of August 2008. The Company repurchased 50,497 shares, or \$873,000, of its common stock under this plan during 2007. The Company repurchased 25,000 shares, or \$350,000, of its common stock under this plan during 2008. The Board of

Directors ratified the purchase of 497 additional shares in March 2008.

In March 2008, the Company's Board of Directors authorized the repurchase of up to 100,000 common shares of the Company's outstanding common stock through its existing Stock Repurchase Plan effective through the end of March 2009. The Company has repurchased 65,500 shares, or \$776,000, of its common stock under this plan as of December 31, 2008. Because of the Company's participation in the CPP, discussed below, the Company can no longer repurchase shares of its common stock under the Stock Repurchase Plan without UST approval.

On December 23, 2008, the Company entered into a Purchase Agreement with the UST. Under the Purchase Agreement, the Company agreed to issue and sell 25,054 shares of Series A preferred stock and warrants to purchase 357,234 shares of common stock associated with the Company's participation in the CPP under the TARP. Proceeds from this issuance of preferred shares were allocated between preferred stock and the warrant based on their relative fair

A-23

values at the time of the sale. Of the \$25.1 million in proceeds, \$24.4 million was allocated to the Series A preferred stock and \$704,000 was allocated to the common stock warrant. The discount recorded on the preferred stock that resulted from allocating a portion of the proceeds to the warrant is being accreted directly to retained earnings over a five-year period applying a level yield. No dividends were declared or paid on the Series A preferred stock during 2008, and cumulative undeclared dividends at December 31, 2008 were \$28,000. The CPP, created by the UST, is a voluntary program in which selected, healthy financial institutions were encouraged to participate. Approved use of the funds includes providing credit to qualified borrowers, either as companies or individuals, among other things. Such participation is intended to support the economic development of the community and thereby restore the health of the local and national economy.

The Series A preferred stock qualifies as Tier 1 capital and will pay cumulative dividends at a rate of 5% per annum for the first five years and 9% per annum thereafter. The Series A preferred stock may be redeemed at the stated amount of \$1,000 per share plus any accrued and unpaid dividends. Under the terms of the original Purchase Agreement, the Company could not redeem the preferred shares until December 23, 2011 unless the total amount of the issuance, \$25.1 million, was replaced with the same amount of other forms of capital that would qualify as Tier 1 capital. However, with the enactment of the ARRA, the Company can now redeem the preferred shares at any time, if approved by the Company's primary regulator. The Series A preferred stock is non-voting except for class voting rights on matters that would adversely affect the rights of the holders of the Series A preferred stock.

The exercise price of the warrant is \$10.52 per common share and it is exercisable at anytime on or before December 18, 2018.

The Company is subject to the following restrictions while the Series A preferred stock is outstanding: 1) UST approval is required for the Company to repurchase shares of outstanding common stock; 2) the full dividend for the latest completed CPP dividend period must be declared and paid in full before dividends may be paid to common shareholders; 3) UST approval is required for any increase in common dividends per share; and 4) the Company may not take tax deductions for any senior executive officer whose compensation is above \$500,000. There were additional restrictions on executive compensation added in the ARRA for companies participating in the TARP, including participants in the CPP.

Under regulatory capital guidelines, financial institutions are currently required to maintain a total risk-based capital ratio of 8.0% or greater, with a Tier 1 risk-based capital ratio of 4.0% or greater. Tier 1 capital is generally defined as shareholders' equity and trust preferred securities less all intangible assets and goodwill. Tier 1 capital at December 31, 2008, 2007 and 2006 includes \$20.0 million in trust preferred securities. The Company's Tier 1 capital ratio was 13.65%, 11.03% and 11.70% at December 31, 2008, 2007 and 2006, respectively. Total risk-based capital is defined as Tier 1 capital plus supplementary capital. Supplementary capital, or Tier 2 capital, consists of the Company's allowance for loan losses, not exceeding 1.25% of the Company's risk-weighted assets. Total risk-based capital ratio is therefore defined as the ratio of total capital (Tier 1 capital and Tier 2 capital) to risk-weighted assets. The Company's total risk-based capital ratio was 14.90%, 12.16% and 12.86% at December 31, 2008, 2007 and 2006, respectively. In addition to the Tier 1 and total risk-based capital requirements, financial institutions are also required to maintain a leverage ratio of Tier 1 capital to total average assets of 4.0% or greater. The Company's Tier 1 leverage capital ratio was 12.40%, 10.43% and 10.80% at December 31, 2008, 2007 and 2006, respectively.
