For Immediate Release

Radware to Delist from Tel Aviv Stock Exchange

TEL AVIV, ISRAEL. December 9, 2008 Radware Ltd. (NASDAQ: RDWR), the leading provider of integrated application delivery solutions for business-smart networking, announced today that its Board of Directors has resolved to delist the Company's ordinary shares from trading on the Tel-Aviv Stock Exchange (TASE). As such, Radware has requested that the TASE initiate the process.

Under applicable Israeli law, the delisting of Radware's ordinary shares from trading on the TASE is expected to become effective within three months from the date of request. During this time its ordinary shares will continue to be traded on the TASE. Radware will announce the exact date of the delisting in the coming months.

Meir Moshe, CFO of Radware, said, "Since we listed the Company's ordinary shares on the TASE in May 2004, trading volume has been relatively low. The majority of trading is actually being conducted on the NASDAQ. Therefore, we have made the decision, as a global company which conducts the majority of its activities outside of Israel, to delist from the TASE and continue trading on the NASDAQ.

Radware shares will continue to be listed on the NASDAQ Global Market, and the Company will continue to make public reports in accordance with the rules and regulations of NASDAQ and the U.S. Securities and Exchange Commission.

About Radware

Radware (NASDAQ:RDWR), the global leader in integrated application delivery solutions, assures the full availability, maximum performance, and complete security of business-critical applications for more than 6,000 enterprises and carriers worldwide. With APSolute™, Radware's comprehensive and award-winning suite of intelligent front end, access, and security products, companies in every industry can drive business productivity, improve profitability, and reduce IT operating and infrastructure costs by making their networks business smart.
