Item 2.02. Results Of Operations And Financial Condition.

On November 8, 2012, Energizer Holdings, Inc. (the "Company") issued a press release announcing financial and operating results for its fourth fiscal quarter ended September 30, 2012 and fiscal 2013 guidance. This press release, which included the attached unaudited Statement of Earnings for the quarter, is furnished as Exhibit 99.1 hereto and incorporated herein by reference.

The information furnished pursuant to this Item 2.02, including the attached exhibit, shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or otherwise subject to the liabilities of such section, nor shall such information or exhibit be deemed incorporated by reference into any filing under the Securities Act of 1933 or Exchange Act, except as shall be expressly set forth by specific reference in such a filing.

Item 2.05. Costs Associated with Exit or Disposal Activities.

On November 4, 2012 the Board of Directors of Energizer Holdings, Inc. ("Energizer" or the "Company") approved a restructuring plan and delegated authority to the Company's management to determine the final plan with respect to these initiatives. The plan was developed in connection with an assessment of the Company's cost structure and operating model undertaken to improve its cost competitiveness and deliver enhanced financial returns.

These actions are expected to reduce the global workforce by more than 10%, or approximately 1,500 colleagues.

In order to achieve these savings, we are undertaking efforts to:

Rationalize and streamline operations facilities in the Household Products Division:

Close Maryville, MO battery manufacturing facility

Close St. Albans, VT battery manufacturing facility

Close Tampoi, Malaysia battery packaging facility

Streamline Asheboro, NC battery manufacturing and packaging facilities

Streamline Walkerton, Canada packaging facility

Streamline lights manufacturing in China

Consolidate G&A functional support across the organization;

Streamline the Household Products Division product portfolio to enable increased focus on our core battery business;

Streamline the marketing organization within our Household Products division;

Optimize our go-to-market strategies and organization structures within our international markets;

Reduce overhead spending including changes to benefit programs and other targeted spending reductions; and

Create a center-led purchasing function to drive procurement savings.

In addition, there are on-going analyses of our international footprint, legal entity structure and global delivery of transactional services to identify and assess additional scale efficiencies. These assessments will be completed in the coming months.

At this time, the Company is not able, in good faith, to make a determination of the timing or estimated amount or range of amounts to be incurred for each major type of cost nor the charge that will result in future cash expenditures.

The Company will file an amendment to this report upon the determination of such amounts. The Company anticipates, however, that a substantial portion of the actions will be completed by the end of fiscal 2014. The Company estimates one-time charges associated with achieving these benefits to be approximately 1.25 times gross annualized savings, of which approximately 25% to 30% are estimated to be non-cash charges. The Company anticipates that \$120 million to \$140 million of these one-time charges will occur in fiscal 2013. Additionally, the Company expects to incur additional incremental capital expenditures, primarily in information technology.

We expect that a majority of the one-time charges associated with these initiatives are expected to be recorded within the next 12 to 18 months as restructuring costs will likely be incurred ahead of achieving estimated savings.

The Company issued a press release on November 8, 2012 announcing these plans. A copy of that press release is furnished with this Form 8-K as Exhibit 99.2.

This Form 8-K contains forward-looking statements including without limitation those regarding Energizer's future business outlook, potential cost savings and the timing of any such savings, costs to achieve such savings, future investment in the business, actions required to obtain the savings detailed, the impact of cost savings on financial metrics, future earnings, future earnings per share, changes to operating metrics, business strategy, the timing or amount of capital expenditures, compensation practices and the timing of future announcements.
