APOLLO SOLAR ENERGY, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2013
(UNAUDITED)

NOTE 1. BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements of Apollo Solar Energy, Inc. (the “Company”) reflect all material adjustments consisting of only normal recurring adjustments which, in the opinion of management, are necessary for a fair presentation of results for the interim periods. Certain information and footnote disclosures required under accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission, although the Company believes that the disclosures are adequate to make the information presented not misleading. These consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2012 as filed with the Securities and Exchange Commission.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and those estimates. Estimates that are particularly susceptible to change include assumptions used in determining the fair value of securities owned and non-readily marketable securities.

The results of operations for the nine months ended September 30, 2013 are not necessarily indicative of the results to be expected for the entire year or for any future period.

The Company’s functional currency is the Chinese Renminbi (“RMB”); however, the accompanying financial statements have been translated and presented in United States Dollars (“USD”).

Reclassifications

Certain amounts of prior period were reclassified for presentation purposes.

Going concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As shown in the accompanying financial statements, the Company has negative working capital of \$7,684,753 as at September 30, 2013, did not generate cash from its operations, and has had operating losses during past two years. These circumstances, among others, raise substantial doubt about the Company’s ability to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

APOLLO SOLAR ENERGY, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2013
(UNAUDITED)

Management plans to increase its marketing in order to generate more revenues and to reduce certain other operating expenses. Nevertheless, for our next fiscal year, we anticipate our cash flow from operations to improve. The Company anticipates that its current cash position will be insufficient to support the Company's operations at current capacity for the next twelve month period and, therefore, will need to seek additional financing of its operations. We may rely on bank borrowing as well as capital issuances and loans from existing shareholders. We are actively exploring various proposals and alternatives in order to secure sources of financing and improve our financial position. We may raise such additional capital through the issuance of our equity securities, which may result in significant dilution to our current investors. We are also exploring potential strategic partnerships, which could provide a capital infusion to the Company.

Discontinued Operations

On July 8, 2013, the Company entered into an Equity Transfer Agreement with Ling Zhao, Chunbao Pan and Xiaoping Zhou to sell its interest in Hefei Junrun Energy & Technology Co., Ltd. ("Hefei Junrun").

The gain on disposal of Hefei Junrun was as following:

| | |
|---|------------|
| Consideration received | \$ 643,790 |
| Net equity of Hefei Junrun | (45,554) |
| Gain on disposition of discontinued operation | \$ 598,236 |

Accordingly, the Company has accounted for Hefei Junrun as discontinued operations. The consolidated financial statements reflect the operating results and balance sheet items of the discontinued operations separately from continuing operations. Prior year's amounts have been reclassified to conform with current year's presentation of the discontinued operations. The following table summarized the operating result of the discontinued operations for the three and nine months ended September 30, 2013 and 2012, respectively:

| | For the Three Months Ended September 30 | | For the Nine Months Ended September 30 | |
|---|--|-------------|---|--------------|
| | 2013 | 2012 | 2013 | 2012 |
| Revenue | \$ - | \$ 429,520 | \$ 825,683 | \$ 586,273 |
| Cost of goods sold | - | (361,142) | (679,856) | (502,338) |
| Gross profit (loss) | - | 68,378 | 145,827 | 83,935 |
| Operating expenses | - | 71,877 | 158,616 | 188,839 |
| Operating loss from discontinued operations before income tax | - | (3,499) | (12,789) | (104,904) |
| Net loss from discontinued operations | \$ - | \$ (3,499) | \$ (12,789) | \$ (104,904) |

The following summarized the assets and liabilities of discontinued operations as of December 31, 2012:

| | |
|---|-----------|
| Cash | \$4,475 |
| Accounts receivable, net | 13,184 |
| Inventories | 91,080 |
| Prepaid expenses and other current assets | 68,187 |
| Current assets held of discontinued operations | 176,926 |
| Non-current assets held of discontinued operations | 131,552 |
| Total assets held of discontinued operations | \$308,478 |
| Accounts payable - trade | \$63,247 |
| Accrued expenses and other current liabilities | 187,697 |
| Current liabilities held of discontinued operations | \$250,944 |

APOLLO SOLAR ENERGY, INC.
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2013
 (UNAUDITED)

NOTE 2. INVENTORIES

Inventories are valued at the lower of cost or net realizable value with cost determined on the weighted-average method. Work in progress and finished goods are composed of direct material, direct labor and a portion of manufacturing overhead. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs to complete and dispose. The Company recorded inventory mark-down for the nine months ended September 30, 2013 and 2012 of \$311,427 and \$324,831, respectively.

Inventories consist of the following:

| | September 30, 2013 | December 31, 2012 |
|---------------------------------------|-----------------------|----------------------|
| Raw Materials | \$ 513,419 | \$ 762,001 |
| Work-in-progress | 796,888 | 860,535 |
| Finished goods - continued operations | 1,373,704 | 1,489,107 |
| Total | \$ 2,684,011 | \$ 3,111,643 |

NOTE 3. PREPAID EXPENSES AND OTHER CURRENT ASSETS

Prepaid expenses and other current assets consist following:

| | September 30, 2013 | December 31, 2012 |
|------------------------|--------------------------|-------------------------|
| Advances for purchases | \$ 388,819 | \$ 200,727 |
| Other receivables | 184,210 | 84,692 |
| Total | \$ 573,029 | \$ 285,419 |

NOTE 4. RELATED PARTIES TRANSACTIONS AND BALANCES

The breakdown of due from/due to related parties consists of the following:

| | September 30, 2013 | December 31, 2012 |
|---|--------------------------|-------------------------|
| Due from (to) Xinju | \$ (39,328) | \$ (37,704) |
| Due to shareholders and related parties | 481,271 | 411,026 |
| Total | \$ 441,943 | \$ 373,322 |

Due to shareholders and due to/from Xinju are non-interest bearing and due on demand.

Xinju is a related company partially owned by the second largest shareholder of the Company.

7

APOLLO SOLAR ENERGY, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2013
(UNAUDITED)

NOTE 5. EQUITY METHOD INVESTMENT IN JOINT VENTURE

On November 9, 2009, Sichuan Apollo Solar Science & Technology Co. Ltd. (“Sichuan Apollo”), a wholly-owned foreign subsidiary of the Company, entered into a joint venture agreement (the “Agreement”) with Bengbu Design & Research Institute for Glass Industry (“Bengbu”) and a local Chinese government agency (the “Agency”). The Joint Venture (“JV”) was formed to conduct research and development related to glass used in the production of thin film solar cells and manufacture thin film solar cells. The Company accounts for this investment under the equity method of accounting.

Under the terms of the agreement, Bengbu and the Agency own an aggregate of 65% of the JV and Sichuan Apollo owns the remaining 35%. The JV was formed with a cash contribution by Bengbu and the Agency and the contribution by Sichuan Apollo of assets consisting of land, a manufacturing plant, equipment and three patents, with a net book value of approximately \$1.7 million with a fair market value of RMB 49,980,000 (approximately \$7.3 million). In addition, under the terms of the agreement, responsibility for debt of Sichuan Apollo aggregating RMB 37,170,000 (approximately \$5,444,500) owed to the Agency was assigned to the JV. The fair market value of the net assets contributed by Sichuan Apollo, as determined by Sichuan Apollo’s management giving consideration to the valuation services provided by an independent third party, was equal to 35% of the aggregate contribution of the three parties to the JV.

As of December 31, 2012, all parties has finished the total capital contribution of RMB142,800,000 (approximately \$22.7 million) to JV per agreement. In accordance with ASC 805-40, Sichuan Apollo has reported a gain on the difference between the cost of its investment in the JV and the Company’s proportionate share of the fair value of the JV’s net equity, an amount which, if the JV were treated as a consolidated subsidiary, would have resulted in negative goodwill to be recorded as a gain. This resulted in an excess of the proportionate share of the JV’s net assets at fair market value over the cost of the assets contributed by Sichuan Apollo, which was reported as income on the Company statement of operations. The Company contributed its assets over time and recognized its proportional gain during the periods in which it contributed the assets. All gain has been recognized during 2012.

Summarized financial information for our investment in the JV assuming a 100% ownership interest is as follows:

| | September 30, 2013 | September 30, 2012 |
|-------------------------|-----------------------|-----------------------|
| Statement of operations | | |
| Revenues | \$ 25,628 | \$ - |
| Cost of sales | 54,367 | - |
| Gross profit | - | - |
| Operating Loss | (789,550) | (321,480) |
| Loss before income tax | (789,550) | (321,480) |

NOTE 7. SHORT-TERM LOAN

Short-term loans consist of the following loans collateralized by assets of the Company:

| | September 30, 2013 | December 31, 2012 |
|---|-----------------------|----------------------|
| 1) Loan payable to Chengdu Xihang Gang Construction & Investment Co., Ltd. due on demand, without interest collateralized by certain plant equipment of Sichuan Apollo | \$ 673,033 | \$ 655,441 |
| 2) Loan payable to Bank of China, Xihanggang Branch, Chengdu due on August 22, 2013, with interest at 8.4% per annum, collateralized by the buildings of Sichuan Apollo | - | 730,031 |
| 3) Loan payable to Bank of China, Xihanggang Branch, Chengdu due on September 17, 2013, with interest at 7.74% per annum, collateralized by the buildings of Sichuan Apollo | - | 698,290 |
| 4) Loan payable to Industrial and Commercial Bank of China, due on November 19, 2013 and December 3, 2013, with interest of 6.6% and 6.00% per annum, respectively, collateralized by the land of Sichun Apollo and its 100% ownership of Xinlong | 3,096,278 | 3,015,347 |
| 5) Loan payable to Bank of China, Xihanggang Branch, Chengdu, due on September 20, 2013 | - | 793 |
| 6) Loans payable to unrelated party, non-interest bearing and due on July 22, 2013 | - | 1,428,323 |
| 7) Loan payable to Wuhan Economic Development Group through Industrial and Commercial Bank of China, Huangpu Branch, due on March 31, 2013, with interest at 7.5% per annum, collateralized by Sichun Xinlong's 100% ownership in Shimian | - | 1,269,620 |
| 8) Loans payable to China CITIC Bank, due on April 18 and 22, 2014, with interest at 7.5% per annum, collateralized by land and buildings of | 4,888,860 | - |

Sichun Apollo

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2013
(UNAUDITED)

NOTE 8. CONVERTIBLE LOAN

On October 31, 2012, the Company entered into a Loan Agreement with Golden Bridge Education Inc., pursuant to which the Company may borrow up to \$500,000. Pursuant to the Agreement, the lender has an option to convert the loan balance into the Company's common stock before October 31, 2013 at \$2 per share. This loan has an annual interest rate of 10% and a term of 5 years. The loan is collateralized by 2% of the ownership of the Joint Venture referred to in Note 5.

On March 28, 2013, the Company entered into another loan Agreement with Golden Bridge Education Inc., pursuant to which the Company may borrow up to \$500,000. Pursuant to the Agreement, the loan has an annual interest rate of 10% and a term of 5 years. The Company is required to pay \$12,500 of interest every three month. The lender has an option to convert the loan balance into the Company's common stock before the loan agreement has expired.

Both loans were subordinated to the bank loan and is a senior loan to all other liabilities. The purpose of the loan is to purchase raw materials. As of September 30, 2013, the Company had exhausted the borrowing limits on both Loan Agreements, and owed \$1,000,000 to Golden Bridge Education Inc.

The Company evaluated the conversion option of these loans and determined that they do not contain an embedded derivative instrument.

NOTE 9. TAXES

Corporation income tax

The Company is incorporated in the United States of America and is subject to United States federal taxation. No provisions for income taxes have been made, as the Company had no U.S. taxable income for the three and nine months ended September 30, 2013 and 2012.

The Company's Chinese subsidiaries are governed by the Income Tax Law of the PRC concerning the privately run and foreign invested enterprises, which are generally subject to tax at a statutory rate of 25% on income reported in the statutory financial statements after appropriate tax adjustments.

Based on management's present assessment, the Company has determined that it is more likely than not a deferred tax asset attributable to the future utilization of the net operating loss carry-forward as of September 30, 2013 will not be realized. Accordingly, the Company has provided a 100% allowance against the deferred tax asset in the financial statements at September 30, 2013. The Company will continue to review this valuation allowance and make adjustments as appropriate.

The Company has net operating loss carry-forwards in China and United States of approximately \$3,000,000 and \$8,000,000, respectively, which expire between 2012 and 2022. The Company has a deferred tax asset resulting from the tax loss carry-forwards of approximately \$4,000,000 for which the Company has provided a 100% valuation allowance.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2013
(UNAUDITED)

NOTE 9. TAXES (continued)

The comparison of income tax expense at the U.S. statutory rate of 35% in 2013 and 2012, to the Company's effective tax is as follows:

| Taxes | Nine Months Ended | |
|--|--------------------------|--------------------------|
| | September 30, 2013 | September 30, 2012 |
| U.S. Statutory rate of 35% | \$ (761,865) | \$ (766,611) |
| Tax rate difference between China and U.S. | 189,059 | 354,415 |
| Change in valuation allowance | 521,625 | 412,196 |
| Net operating loss expired | 200,741 | - |
| Tax paid for prior year | - | 102,835 |
| Permanent difference | (149,560) | - |
| Effective tax | \$ - | \$ 102,835 |

The provisions for income taxes are summarized as follows:

| | Nine Months Ended | |
|----------|--------------------------|--------------------------|
| | September 30, 2013 | September 30, 2012 |
| Current | \$ - | \$ 102,835 |
| Deferred | - | - |
| Total | \$ - | \$ 102,835 |

Value added tax ("VAT")

Enterprises or individuals who sell commodities, engage in repair and maintenance or import or export goods in the PRC are subject to a value added tax in accordance with the PRC laws. The value added tax standard rate is 17% of the gross sales price. A credit is available whereby VAT paid on the purchases of semi-finished products or raw materials used in the production of the Company's finished products can be used to offset the VAT due on the sales of the finished products.

NOTE 10. PRC STATUTORY RESERVES

In accordance with the PRC Companies Law, the Company was required to transfer 10% of its profit after tax, as determined in accordance with accounting standards and regulations of the PRC, to the statutory surplus reserve. The statutory surplus reserve is non-distributable. As of September 30, 2013 and December 31, 2012, the Company did not

accumulate any statutory reserve due to the accumulated deficit.

APOLLO SOLAR ENERGY, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2013
(UNAUDITED)

NOTE 12. CONCENTRATIONS

For the nine months ended September 30, 2013, three major customers accounted for approximately 15%, 24.8% and 33.4% of total sales, respectively. For the nine months ended September 30, 2013, 99.4% of sales were made to customers in Asia.

For the three months ended September 30, 2013, two major customers accounted for approximately 66% and 19% of total sales, respectively. For the three months ended September 30, 2013, 99.8% of sales were made to customers in Asia.

For the nine months ended September 30, 2012, two major customers accounted for approximately 16% and 15% of total sales, respectively. For the nine months ended September 30, 2012, 10% of sales were made to customers in North America and 90% of sales were made to customers in Asia. Two vendors accounted for approximately 38% and 13% of total purchases, respectively.

For the three months ended September 30, 2012, two major customers accounted for approximately 27% and 12% of total sales, respectively. For the three months ended September 30, 2012, 98% of sales were made to customers in Asia and 2% of sales were made to customers in North America. Four vendors accounted for approximately 49%, 15%, 13% and 11% of total purchases, respectively.

NOTE 13 SUBSEQUENT EVENTS

The Company has reviewed its subsequent events through the date these financial statements were issued and has determined that no additional material subsequent events have occurred through such date.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion contains forward-looking statements that involve risks and uncertainties. Forward-looking statements include, but are not limited to, statements regarding future events, our plans and expectations and financial projections. Our actual results could differ materially from those discussed herein. Factors that could cause or contribute to such differences include, but are not limited to, those discussed elsewhere in this Form 10-Q and in our Annual Report on Form 10-K filed on May 10, 2013. Unless the context otherwise requires, the terms "we," the "Company," "us," or "Apollo" refers to Apollo Solar Energy, Inc. and our wholly-owned subsidiaries and variable interest entities.

Overview

We are a China-based vertically integrated refiner of tellurium, or Te, and high-purity tellurium-based metals for specific segments of the electronic materials market. Our main expertise is in the production of Te-based compounds used to produce thin-film solar cells, cell modules and solar electronic products. While no reserves under the SEC's Industry Guide 7 can currently be delineated at our properties, we believe that the tellurium to be used in our products in the future will be primarily sourced from our Dashuigou project located in Sichuan Province, PRC. In addition, we expect to source tellurium from another property in Shimian, Majiagou, PRC, through variable interest entity agreements, or the VIE Agreements, executed in April, 2009, with Sichuan Xinju Mineral Resources Development Corporation and certain of its shareholders holding 51.6619% of its voting stock, which shareholders are our direct or indirect employees. Under the terms of the VIE Agreements, we have been granted the exclusive exploration and mining rights to these two projects in accordance with a license granted by the Chinese government, which extends through January 2014 for exploration and mining activities at our Dashuigou property, and through June 2014 for mining activities at our Majiagou property, subject to potential renewal thereafter.

Currently, tellurium is produced as a by-product in the process of processing copper and other metals. As a result, costs are high. We believe that the Dashuigou and Majiagou projects are the only two known deposits in the world in which tellurium, one of the rarest metallic elements on earth, is the primary commodity of economic interest. By the end of 2014, we plan to obtain approximately 50% to 60% of the tellurium necessary for our products from the Dashuigou and Majiagou projects and believe this ability to be a significant competitive advantage because the cost of tellurium sourced from our own properties will be substantially lower than that purchased from an outside third party. We will source the remaining 40% to 50% of our tellurium needs from third-party suppliers with whom we have established good business relationships over the past few years. By vertically integrating our processes, we believe we are able to achieve significant operating efficiencies and produce high-quality products that offer cost and quality benefits to our customers.

Our refining operations are currently based in a 330,000 square foot facility in Chengdu, Sichuan Province, PRC. We expect this facility to eventually have the capacity to produce more than 300 tons of high-purity photovoltaic cell materials and 42 other types of electronic materials. Future expansion of this facility in vacant land leased to the Company will have a capacity to produce up to an additional 350 tons of high-purity photovoltaic cell materials.

We are currently in the exploration stage of operations in accordance with the requirements of SEC Industry Guide 7. However, we believe we are unique in that we expect to both mine and refine our tellurium-based products, with primary refining capabilities as provided by Sichuan Xinju Mineral Resources Development Corporation pursuant to the VIE Agreements, and secondary refining capabilities directly through our Company. Our primary refining capabilities are such that we can treat metal concentrates (containing, for example, as little as 50% of the metals of interest), and extract and refine the metals of interest so that they can be fed to our secondary refining operations, where we attain a higher level of purity. Because we expect to mine the raw material in the future, and perform both refining functions, both directly and through our VIE Arrangement, we consider ourselves a supplier that will in the future have uniquely integrated capabilities. Our end-products are tellurium, cadmium, zinc and related compounds of 99.999% (five nines, or 5N) purity or above. Our products are critical precursors in a number of electronic applications, including the rapidly-expanding thin-film photovoltaic, or PV, market.

Thin film technologies, because of their relatively low usage of raw materials when compared with traditional silicon-based photovoltaic technologies, offer a potential cost advantage in the marketplace. Accordingly, we believe these technologies are beginning to gain an ever increasing foothold in the market.

Our Variable Interest Entity Agreements

As illustrated in the diagram below, we entered into various exclusive contractual arrangements on April 10, 2009 with Sichuan Xinju Mineral Resources Development Corporation, or the VIE, and certain of its shareholders who are our direct or indirect employees and who collectively own 51.6619% of the VIE. Among other things, these VIE Agreements granted to our wholly-owned subsidiary a first option to purchase the exploration rights related to the Dashuigou area property and the mining rights related to that certain tellurium and bismuth property in Shimian Majiagou, which rights we collectively referred to as the Exploration Business. Additionally, the VIE and certain of its shareholders who collectively own 51.6619% of the VIE granted to our wholly-owned subsidiary an exclusive right to purchase all of the products produced from the Exploration Business for a specified period of time. As a result, we consolidate the financial results of the VIE related to the Exploration Business pursuant to FASB ASC 810-10, "Consolidation."

(1) Agreements that provide us with effective control over Sichuan Xinju Mineral Resources Development Co. Ltd., or the VIE, include a purchase option agreement, a business operations agreement and an exclusive technical and consulting agreement.

The agreements between the VIE and our other affiliated entities or persons are summarized below:

- First Option Exclusive Acquiring Agreement among Sichuan Xinlong Tellurium Industry & Technique Co., Ltd., Sichuan Xinju Mineral Resources Development Co., Ltd., Renyi Hou and Ling Yong, which grants to our wholly-owned subsidiary a first option to purchase the Mining Business at such time as the purchase becomes advisable, permissible and in our best interest.
- Exclusive Sales Agreement between Sichuan Xinlong Tellurium Industry & Technique Co., Ltd. and Sichuan Xinju Mineral Resources Development Co., Ltd., which grant to our wholly-owned subsidiary the exclusive right to buy all of the output of the Mining Business.
- Business Operation Agreement among Sichuan Xinlong Tellurium Industry & Technique Co., Ltd., Sichuan Xinju Mineral Resources Development Co., Ltd., Renyi Hou and Ling Yong, which imposes certain restrictions and obligations on the VIE and certain of its shareholders to support the VIE arrangement, including refraining from competing with our business and modifying the business operations of the VIE without the prior consent of our wholly-owned subsidiary.
- Exclusive Technical and Consulting Agreement between Sichuan Xinlong Tellurium Industry & Technique Co., Ltd. and Sichuan Xinju Mineral Resources Development Co., Ltd., which requires the VIE to provide certain technical and consulting services exclusively to our wholly-owned subsidiary in connection with the Mining Business. Our wholly-owned subsidiary agrees to provide up to \$6.0 million in investing funding to the VIE in connection with its operation of the Mining Business, on such terms as the parties shall agree from time to time.

Results of Operations

Sales

Sales for the three and nine months ended September 30, 2013 were \$6,350,549 and \$13,446,941 respectively, compared to the sales of \$583,800 and \$3,287,427 in the same period in 2012, an increase of \$ 5,766,749 or approximately 987.8% for the three months period and an increase of \$ 10,159,514 or 309.0% for the nine months period. The primary reasons for the increase in sales were:

- Sales orders increased due to more incentives for sales people as a result of the reform enforced in the purchase department and sales department since last year.
- The special trading business we started this April has the features of high turnover and low profit margin.
- Compared to the same period in 2013, the market in 2012 was rather depressed.

Gross profit/loss

Our cost of sales increased by \$5,396,283 and \$9,026,585 or 676.1% and 225.71% in the three and nine months ended September 30, 2013 compared to the same periods of 2012. Although the increase in cost of sales was significantly lower than the increase in our sales, our gross margin remained very low: 2% during the three months ended September 30, 2013 and 3% during the nine months then ended. The primary reason for this low level of gross margin was the delay in production from our tellurium mines, caused by new government regulations. Without an internal source of tellurium, we were forced to purchase tellurium on the world market. As a significant amount of our revenue was generated from the sale of compounds incorporating high purity tellurium, our margin was impacted adversely. We expect this situation to improve as we have satisfied the new government regulations and expect internal tellurium production to be initiated in the next year.

Selling expense

For the three months ended September 30, 2013, selling expenses were \$54,980 compared to \$62,779 for the three months ended September 30, 2012, representing a decrease of 12.4%. For the nine months ended September 30, 2013, selling expenses were \$189,127 compared to \$155,438 for the nine months ended September 30, 2012, representing an increase of 21.6%. This increase occurred because the Company carried out more promotions in the first nine months of 2013 than in the first nine months of 2012.

General and administrative expenses

We incurred general and administrative expenses of \$261,984 and \$1,356,631 for the three and nine months ended September 30, 2013, compared to \$506,649 and \$1,833,215 in the same period of 2012, representing a decrease of 48.3% for the three month period and 26.0% for the nine month period. The decrease in our general and administrative expenses was primarily due to headcount reduction as a result of internal reform.

Research and development expenses

For the three months ended September 30, 2013, we incurred research and development expenses of \$168,731, compared to \$442,618 for the three months ended September 30, 2012. This represents a decrease of 61.88%. For the nine months ended September 30, 2013, we incurred research and development expenses of \$799,414, compared to \$977,538 for the nine months ended September 30, 2012. This represents a decrease of 18.2%. The decrease in the expenses was due to our decreased effort on research and development for new products during 2013.

Operating loss

Our operating loss for the three months ended September 30, 2013 was \$329,576, which was 73% less than our operating loss for the three months ended September 30, 2012. Our operating loss for the nine months ended September 30, 2013 was \$1,924,049, which was \$1,753,948 or 47.7% better than our operating loss for the nine months ended September 30, 2012.

Other income (expense)

In 2009, we entered into a joint venture agreement, pursuant to which we acquired a 35% interest for the contribution of certain assets with a fair value of RMB49,980,000 (approximately \$7.3 million) and debt of RMB37,170,000 (approximately \$5.4 million). Accounting standards require that we report a gain on the difference between the initial cost of the investment and our proportionate share of the fair value of the Joint Venture's net equity.

During the three and nine months ended September 30, 2013, the operations of the Joint Venture resulted in net loss of \$253,730 and \$789,550, respectively. Because we own 35% of the equity in the Joint Venture and account for that investment on the equity method, we recorded Equity in loss of Joint Venture of \$88,805 and \$276,344 for the three and nine months ended September 30, 2013, respectively. During the three and nine months ended September 30, 2012, our equitable share of the Joint Venture's gain totaled \$66,230 and loss of \$112,518, respectively.

In addition, during the three and nine months ended September 30, 2013 we recorded net interest expense of \$141,708 and \$561,811, respectively. By comparison, during the three and nine months ended September 30, 2012 we recorded net interest expense of \$80,421 and \$333,674, respectively. The increase in interest expenses was related to the increase in short term loan. During April, 2013, the Company borrowed \$4,888,860 from China CITIC bank. These loans are due on April 18 and 22, 2014 with interest at 7.5% per year.

Gain on disposition of discontinued operation

On July 8, 2013, the Company entered into an Equity Transfer Agreement with Ling Zhao, Chunbao Pan and Xiaoping Zhou to transfer back all equity interest in Hefei Junrun Energy & Technology Co., Ltd. ("Hefei Junrun"). The Company recorded a gain on disposition of discontinued operation of \$598,236 in other income.

Net income/loss

We recorded net income of \$38,147 for the three months ended September 30, 2013, which was \$1,286,230 greater than the net loss of \$1,248,083 recorded in the same period of 2012. The net income for the three months ended September 30, 2013 was the result of netting our loss from continuing operations against the gain of \$598,236 that we realized on the sale of our discontinued operation. During the nine months ended September 30, 2013 we recorded a net loss of \$ 2,176,757, compared to a net loss of \$2,293,154 recorded in the same period of 2012, an increase of \$116,397 or 5.1%. However, our continuing operations for those periods, despite the significant improvement in revenue and gross profit, resulted in an increase of \$573,954 in our net loss, due to the fact that during the nine months ended September 30, 2012 we recorded a gain of \$2,038,774 as a result of our investment in the joint venture.

Liquidity and Capital Resources

We have historically funded our operations primarily through paid-in capital, sales of goods, loan from stockholders and short term loans from financial institutions in China. Based on our current cash level and management's forecast of operating cash flows, management has determined that the Company will require additional funds, either debt or equity, to finance our planned operations for the next twelve months.

The following table summarizes our liquidity and capital resources from on the dates presented:

| | September 30, 2013 | December 31, 2012 |
|--------------------------|-----------------------|----------------------|
| Cash | \$ 1,570,050 | \$ 935,750 |
| Working capital(deficit) | \$ (7,684,753) | \$ (7,448,641) |
| Stockholders' Equity | \$ 13,167,441 | \$ 14,736,634 |

The Company had a working capital deficit of \$7,684,753 at September 30, 2013. This represented an atrophy of \$236,112 since December 31, 2012. The primary reason for the atrophy of working capital was the \$2,176,758 loss that we incurred during nine months ended September 30, 2013, which we funded, in part, by taking short-term loans.

The following table describes our contractual commitments and obligations as of September 30, 2013:

| Contractual Obligations | Total | Payments due by Period (in \$) | | | |
|--|--------------|--------------------------------|----------------|----------------|-------------------------|
| | | Less Than 1 Year | 1 – 3 Years | 3 – 5 Years | More Than 5 Years |
| Short term loans | \$ 8,658,171 | \$ 8,658,171 | \$ - | \$ - | \$ - |
| Loans from shareholder and related party | \$ 441,943 | \$ 441,943 | \$ - | \$ - | \$ - |
| Convertible loans | \$ 1,000,000 | | | \$ 1,000,000 | \$ - |

Given that the Company's debt obligations in the next twelve months equal 182% of its current assets at September 30, 2013, management has determined that additional funds will have to be secured in order to finance our operations for the coming year.

Cash Flows

| | Nine Months Ended September 30, | |
|--|---------------------------------|----------------|
| | 2013 | 2012 |
| Net cash used in operating activities | \$ (1,508,549) | \$ (2,557,136) |
| Net Cash provided by(used in) investing activities | 549,653 | (144,787) |
| Net cash provided by financing activities | 1,555,480 | 2,923,194 |
| Effect of exchange rate changes on cash | 37,716 | 35,213 |
| Net increase in cash | 634,300 | 256,484 |
| Cash at beginning of period | 935,750 | 363,771 |
| Cash at end of period | \$ 1,570,050 | \$ 620,255 |

Net cash used in operating activities.

The operating activities of our continuing operations during the nine months ended September 30, 2013 used \$1,571,671 in cash. The use of cash was less than our net loss from continuing operations of \$2,762,204, primarily because we reduced our inventory by \$504,832.

The operating activities of our continuing operations during the nine months ended September 30, 2012 used \$2,212,528 in cash. The use of cash exceeded our net loss from continuing operations of \$2,188,250 primarily because our net loss was reduced by the non-cash gain of \$2,038,774 that we recorded as a result of our investment in the Joint Venture. That gain was partially offset, however, by sizeable reductions in our inventory and accounts receivable balances, reflecting the decline in the level of our operations during 2012.

Net cash (used in) investing activities.

Due to our lack of funds, we have made only very modest additions to our capital assets during recent years. During the nine months ended September 30, 2013 we invested only \$27,957 in property and equipment and \$10,952 of disposal of property and equipment. However, net cash provided by investing activities for the nine months ended September 30, 2013 was \$549,653, as we received \$567,811 in cash from the disposition of Hefei Junrun, net of the cash balance on Hefei Junrun's book.

Net cash used in investing activities for the nine months ended September 30, 2012 was \$144,787, which resulted from the purchase of property and equipment.

Net cash (used in)/provided by financing activities.

We funded our operations during the nine months ended September 30, 2013 primarily by taking short-term loans totaling \$642,986 and with the proceeds of \$899,030 from convertible loans.

We funded our operations during the nine months ended September 30, 2012 primarily by taking short-term loans totaling \$2,865,182.

The Company believes that its cash flows generated internally may not be sufficient to sustain operations and repay short term bank loans for the next twelve months. Therefore, from time to time, the Company may require extra funding through short term borrowing from PRC banks or other financing activities.

Off-Balance Sheet Transactions

We have no material off-balance sheet transactions.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not Applicable.

ITEM 4. CONTROLS AND PROCEDURES

(a) Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-15 under the Securities Exchange Act of 1934, as amended, or the Exchange Act, as of the end of the period covered by this report. That evaluation disclosed that the Company has material defects in its disclosure controls and procedures. Specifically management determined that there is a lack of expertise in U.S. GAAP among the Company's management personnel. They also determined that the size of the Company's accounting staff and low number of supervisory personnel prevented an appropriate segregation of accounting functions. Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that were not effective as of September 30, 2013.

(b) Changes in Internal Controls

There were no changes in our internal control over financial reporting during the three months ended September 30, 2013 that have materially affected, or are reasonably likely to materially affect our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

On October 8, 2013 a complaint was filed in the United States District Court for the District of New Jersey titled "Warner Technology & Investment Corp. v. Sichuan Apollo Solar Energy Technology Co., Ltd. and Renyi Hou." The Complaint alleges that Sichuan Apollo and Hou made misleading representations to Warner Technology to induce it to invest in Apollo Solar Energy, Inc. The Complaint also makes allegations specifically against Renyi Hou. Damages in excess of \$10 million are demanded from the defendants.

ITEM 1A. RISK FACTORS

In addition to other information set forth in this report, you should carefully consider the “Risk Factors” discussed in our Annual Report on Form 10-K filed on May 10, 2013, for our 2012 fiscal year. There have been no material changes to the “Risk Factors” previously disclosed in our Annual Report on Form 10-K.
