**RELEVANT FACTS RELATING TO THE  
FINANCIAL STATEMENTS AS OF DECEMBER 31, 2007**

**Buenos Aires, January 18, 2008 Petrobras Energía Participaciones S.A. (Buenos Aires: PBE, NYSE: PZE), controlling company of Petrobras Energía S.A. (Buenos Aires: PESA), informs that Petrobras Energía S.A. announced the following relevant facts relating to the financial statements as of December 31, 2007:**

**1- Estimated effects derived from the Amendment to Ecuador's Hydrocarbons Law**

Within the framework of the new legislation that regulates the exploitation of hydrocarbons in Ecuador, in October 2007 the Ecuadorian Government issued an Amendment to the Regulations for the Application of Law 42-2006, amendatory to the Hydrocarbons Law, under which as from October 18, 2007 the State's share in extraordinary revenues from crude oil price increases was increased to 99% while the oil companies' share was reduced to 1%.

Given the significant adverse impact derived from the beforementioned regulatory change, an impairment charge of approximately P\$750 million is estimated to be recorded in the financial statements as of December 31, 2007 in order to adjust the book value of assets in Ecuador to their recoverable value.

Meetings are currently being held between the Company representatives and Ecuadorian authorities in order to integrate the Ecuadorian Government's objectives sought through amendment of Law 42 with an economic profitability framework for the Company's operations.

**2- Estimated effects derived from the Company's businesses in Venezuela**

Within the framework of migration of operating contracts to Mixed Companies in Venezuela, in 2006 the Company received from Corporación Venezolana de Petróleo a non-bearing interest, divisible and transferable credit for approximately US\$ 88.5 million, which may be used for the payment of acquisition bonds within the framework of any new mixed company project for the development of oil exploration and production activities or license for the development of gas exploration and production operations in Venezuela.

Since to the date hereof no projects have been materialized as from reception of the beforementioned credit, efforts made for the transfer thereof to third parties were not successful and no other applicable alternative is anticipated, a write-down of approximately P\$181 million is estimated to be recorded in the Financial Statements as of December 31, 2007 in relation to the above mentioned credit.
