33. Description of Issuer's primary areas of operations.

Food industry has gained maximum advantages as a result of devaluation of the ruble in 1998 and steady growth of the population's real earnings in the last three years. Besides, the increasing flow of direct investment in the industry has led to a better quality of Russian-made products and their higher competitiveness. Regardless of the rising rate of the ruble in real terms, the share of imported goods in the consumption structure is about 3%. Thus competition in food industry is mainly centered around Russian brands. As a result, the rate of growth in food industry was the highest in the Russian economy, amounting to 11.5%

in 2000 and 11.2% in 2001. Mindful of the expected GDP growth by 4-4.5% and 8% rise of the population's real earnings in 2002, growth in food industry may exceed 9.5%.

There are sufficient grounds to hope that the industry's consolidation, higher quality of products, and expected annual 5-6% rise in real earnings will help food industry remain among the leaders of Russia's economic growth. The flow of foreign investment in the industry that has amounted to two-thirds of the total direct foreign investments in Russia in the last two years also confirms this assumption.

Recent industrial developments show that the consolidation of food industry is likely to bring about the emergence of large domestic producers capable of competing effectively on the market.

On the other hand, one may expect increasing competition on the part of foreign companies such as Danone, Parmalat, Campina and Erhmann that have set up the production of dairy products in Russia. Their market advantages include a large advertisement budget, advanced know-how for new products promotion, and access to cheap financial resources.

Foreign companies have also been expanding the variety of products. In the past their products were basically oriented toward the narrow premium segment (in the upper price bracket) whereas today foreign companies' products are also designated for the mass consumer with an average income.

The primary area of the Company's operations is control over and management of a group of its subsidiaries and other affiliated companies specified in this Prospectus, which manufacture and sell milk (dairy) products and juices (drinks, nectars) (hereinafter, in combination with the Company, referred to as the WBD Group). The Issuer also offers licensing agreements on the use of trademarks in its ownership. At that, the Issuer's current and future operations plans are inseparably linked up with those of the WBD Group.

The Wimm-Bill-Dann Group is a major manufacturer of dairy products and juices. Around 70% of its revenue comes from the sales of dairy products and the rest 30%, from the sales of juices.

Since its establishment in 1992, the WBD Group has been a leader on the Russian market of dairy and juice-containing products. According to the study conducted by AC Nielsen in nine large Russian cities, including Moscow and St. Petersburg, in December 2001-January 2002, the WBD Group was in the lead on all packaged dairy products markets (with the exception of pasteurized milk): its share on the domestic market of traditional dairy products constituted 33%, in enriched milk products sales, 41%, and in yogurt and milk desserts sales, 46%. AC Nielsen's study carried out in eleven large Russian cities showed that in 2001 the WBD Group's share in the total domestic sales of juices reached 37.5% and 49.1% in Moscow, the main Russian juice consumer. The nineteen manufacturing facilities of the WBD Group are located in fifteen Russian and CIS cities; its distribution network covers 26 cities in the CIS, Germany, Israel, and Netherlands.

The main objective of the WBD Group is to provide consumers with top-quality food by way of a careful selection of raw materials, use of modern production technologies, and strict quality controls. All its products are manufactured on the basis of the Company's own recipes mindful of domestic consumers' preferences and tastes.

1. ***Forecast of Future Developments on the Dairy Market.***

The further consolidation of dairy and juice industry and stronger competition with foreign companies operating in Russia are likely to be major market tendencies. Given below is a segment-based market development forecast.

Milk is one of the most widespread food products in Russia popular among all age groups regardless of location and income. The milk market as a whole will develop steadily with a 5-percent annual consumption growth resulting from a rise in the gross yield and processing of milk in all categories of producers.

In spite of all its advantages, pasteurized milk prevalent on the market has an essential drawback - a short shelf life, which makes it less attractive for retail trade. Consequently, the share of this type of milk is expected to go down in favor of sterilized milk. In addition, sterilized milk will be replaced by a new generation of the product without the specific sterilization after-taste, its shelf life over two weeks without cooling or cold storage.

Kefir (fermented milk, a traditional Russian dairy product). It is the most popular dairy product in Russia. Growth in the segment will result from changes in the consumption structure in favor of biokefirs, their production currently organized by local manufacturers. The consumption of traditional kefir is expected to decline

Curds (cottage cheese). The market is stable. An average 2-percent rise will be determined by the development of dairy production in general. Consumers are likely to switch over to curds desserts, which may reduce the consumption of traditional curds.

Rural and small town dwellers are primary consumers of ryazhenka (fermented baked milk) and bonnyclabber. Unlike bonnyclabber, ryazhenka is also popular among the population of large cities. The bonnyclabber segment is expected to shrink due to the reduction of rural population and decrease in the regional consumption of the product.

Cream. The main feature of the market is the reduction of the share of pasteurized cream in the total output because of a short shelf life and the growing share of sterilized cream. Consumption rise will mainly depend on the rate of income growth.

Butter. As a whole, the market development rate is expected to be 2-4% a year. A rise in butter consumption is unlikely to exceed 1-2%, the main growth factor being an increase in the production of margarine and combined varieties of butter, spreads, by 4-5% a year.

Viscous yogurt. It is one of the most dynamic segments of the dairy market. The development and growth of the viscous yogurt market in 2002-2003 will result from developing local production, Western producers coming out on the market (Pascual and Onken), and a rise in regional consumption. Unique products with new flavors, additives, useful properties, and biocultures will be the most dynamic part of the segment.

Potable yogurt. The segment is expected to develop dynamically since the market is still far from saturation, youth and teenagers consumption culture is still taking shape, and consumers are switching over to the product from traditional flavored kefir.

Viscous milk desserts. The market is still underdeveloped. It has more imported products than other markets. Yet, gradually, Russian manufacturers are turning to the production of viscous milk desserts. Underdeveloped consumption culture restrains consumption growth.

Liquid desserts. The market is sufficiently developed. Major consumers include both young people and children as well as adults. The segment will develop as a result of a rise in consumption among teenagers.

Juice and dairy products. It is the most dynamic category of milk products. It has a considerable growth potential due to the population s striving for a healthy life style and consumption of low-fat vitamin-fortified products.

Curds desserts. The segment is developing rapidly given the traditional character of curds. A rise in the segment will mainly depend on the rate of growth of real earnings and consumers switching over from traditional cottage cheese to curds desserts.

Chocolate-coated cheese curds. Consumption culture in large cities is well-developed. Producers' regional expansion and a wider variety of the products are expected to provide for the segment's growth.

Condensed milk. It is a traditional food product used in pastry cooking. The market is developed. There are large and well-known producers. Growth can be achieved through a wider variety of products, new flavors, and new types of packaging.

2. Forecast of Future Developments on the Juice and Juice-Containing Products Market.

The market's growth will continue although the rate of growth may slow down. Yet it will remain high enough. Market capacity in 2001 was 1,100,000,000 liters – a 44-percent rise in comparison with the previous year. In 2002 juice consumption was supposed to increase by 26-30% and reach around 1,400,000,000 liters. The expected rise for 2003 is 20%.

The juice market's growth results from the improvement of the economic situation in Russia, rising per capita income, and emergence of consumption culture with juice regarded as tasty and healthy food. Per capita consumption rose from 8 liters in 2001 to 10 liters in 2002. In large cities (Moscow, St. Petersburg) juice consumption is nearing European standards while Russia's average per capita consumption of juices is twice lower than in Europe.

Stronger competition provoked by major manufacturers' considerably expanded capacities will be the main market tendency in 2003. Consequently, the juice market is expected to consolidate further in the hands of four principal players that are likely to increase their market share at the expense of small regional producers whose share may go down to 5%.

History of the Issuer's Foundation and Activities.

Open Joint-Stock Company Wimm-Bill-Dann Foods (hereinafter referred to as the Issuer or the Company) was registered on May 31, 2001. The purpose of its creation was to consolidate several production and trading companies, whose shares had been privately owned by a group of persons and were transferred to the Company by including them in authorized capital during its creation in 2001. Control over and management of the WBD Group are the Issuer's principal areas of activity. In keeping with Article 4 of the Issuer's Charter, The main purpose of the Company is to fully satisfy the demand of legal entities and private persons in products (works, services), produced (performed, provided) in accordance with its charter activity, and to receive profits. On February 14, 2002, OJSC Wimm-Bill-Dann Foods completed the public issue of and registered common shares represented by American depositary receipts (ADR) at the New York Stock Exchange under the WBD symbol. Each ADR represents one basic common share of the Company.

The story of WBD Group began in 1992, when the first company owned by a group of persons rented a production line at the Lianozovo Dairy and purchased the first lot of juice concentrates and packaging materials. November 25, 1992 WBD Group produced its first pack of juice under the Wimm-Bill-Dann brand. This name had been chosen in order to attract consumers, who at that point preferred imported

products due to their novelty to the market, and also because of the prevailing belief in the higher quality of imported goods. From the very first appearance on the market the name Wimm-Bill-Dann turned into a brand, known to and popular among the majority of Russian consumers.

Plans of the Issuer's Future Activities.

Due to the specifics of the Issuer's primary area of operations, the Issuer's future activities plans should include a higher efficiency of WBD Group management. The Issuer's future activities plans are closely connected with the plans of WBD Group. The use of trademarks by WBD Group businesses, offered on the basis of licensing agreements, will constitute the Issuer's main source of future income.

The WBD Group is constantly striving to dynamically develop its business and achieve further competitive advantages.

The growing dairy market demands an increase in production volumes without a decline in quality. An increase in juice production capacity is also planned.

One of the main competitive advantages of the WBD Group is its powerful and well-established network of independent distributors. In order to support the steady growth of sales, the construction of Cash&Carry stores will continue. The growth of additional income is planned through both promoting the primary brands of the WBD Group on the regional markets, and expanding the product range in order to fill major consumer segments, both in terms of flavors and prices.

In general, the plans of future activities of the Issuer and the WBD Group include an intention to fully satisfy the demand of legal entities and private persons in products (works, services), produced (performed, provided) in accordance with its Charter, and to receive profits.

To achieve these goals, the WBD Group will concentrate on the following areas of activity:

1) production of dairy products and juices. The Issuer is positive that the WBD Group has enough potential to retain and strengthen its leading position in this area;

2) higher efficiency of production. The WBD Group intends to improve the quality of its products, reduce costs, increase cash flows, and achieve a higher efficiency of work of its employees;

3) business growth resulting from the production of cheese. Domestic brands of cheese in the Russian Federation are mainly manufactured by small facilities producing traditional cheeses for mass consumption, characterized by low prices and inferior quality. Superior quality brands of hard and soft cheese are imported from Baltic states and other European countries. The WBD Group is planning to start the production of top-quality branded hard and soft cheeses in 2003.

4) business growth resulting from the production of mineral water. The WBD Group intends to concentrate on the primary areas of its activity. Yet it is also going to start the production of mineral water early in 2003. The WBD Group believes that despite relatively strong competition, this market segment has an essential potential given a correct marketing approach. The growth of mineral water consumption in summer is expected to make up for the declining seasonal demand for dairy products.

Major Types of Products (Works, Services).

The types of products (works, services) providing for no less than 10 percent of the Issuer's volume of sales (proceeds) in the three full fiscal years preceding the date of approval of the decision to issue the bonds, or for each full fiscal year following the foundation provided the Issuer has been operating for less than three years, and for the last quarter preceding the date of approval of the decision to issue the bonds. All types of export products (works, services) shall be included herein.

The above shall also include the dynamics of changes in release prices for the Issuer's products (works, services), also in comparison with the consumer price index or the industrial producers price index, published by the RF State Committee for Statistics.

Offering licensing agreements on the use of trademarks.

The Company's primary area of operation is control over and management of a group of its subsidiaries and affiliated companies. The main type of products (services) providing for over 10% of the Company's volume of sales (proceeds) in 2001 and in the 9 months of 2002, is the offer of licensing agreements to WBD Group businesses to use trademarks.

In 2001-2002, the prices in licensing agreements on the use of trademarks were set in US dollars (payments were made in rubles at the rate of the RF Central Bank as of an appropriate date). In 2001 and the first nine months of 2002, the dollar prices in the above agreements did not change. Since the prices in licensing agreements were set in US dollars, the table below features relative changes in licensing agreement prices due to changes in the ruble-to-dollar ratio during the said period in order to make a comparison with changes in the consumer price index in Russia during a relevant period. The table shows that in 2001 the licensing agreement price in rubles went up by 3.7% while the consumer price index rose by 18.6%. In the 9 months of 2002, the licensing agreement price in rubles increased by 7%, and the index rose by 10.3%.

Thus the price rise for the Issuer's services in 2001-9 months of 2002 was less than Russia's total price rise.

Dynamic of Changes in Release Prices for Products (Works, Services):

Item	Year 1999	Year 2000	Year 2001	Quarter 3
Offering licensing agreements on the use of trademarks(1)				
Changes in licensing agreement price, %			3.7	7
Sales proceeds, rubles			2 198 000	3 718 000
Total sales proceeds, rubles			2 198 000	3 718 000(2)
Consumer price index, %			118.6	110.3

Notes to the table:

1. The price of licensing agreements on the use of trademarks by WBD Group businesses (per unit price) cannot be set unconditionally, for it comprises several independent factors (design cost, category of a commodity segment to be trademarked, sales volumes for each commodity and its consumer properties, and terms and scope of rights for each trademark

Edgar Filing: WIMM BILL DANN FOODS OJSC - Form 6-K

2. Other sales amounting to 25,281,000 rubles (specified in p. 014, form No.2 of accounts for the 9 months of 2002) will be included in non-sales revenue in the fourth quarter of 2002 (p. 120, form No.2).

During the period in question, the Issuer effected no export supplies.

Character of Sales:

Seasonal activity:

The Issuer makes no cyclic or seasonal sales of services. The WBD Group's sales of dairy products are of a seasonal character. Dairy products are in maximum demand in winter when domestic milk production hits rock bottom. Contrariwise, in summer demand for dairy products declines while the production of raw milk is at a maximum.

Juice sales are definitely seasonal. They go up in spring and especially during the period preceding the New Year holidays. Seasonal peaks fall on April and December. In spring the expansion of sales is conditioned by consumers' care for their health; juice is regarded as a natural addition to fruits, as the only source of vitamins and a valuable product for daily consumption. The traditional sales spurt in December positively correlates with the general tendency toward intensive retail turnover before the New Year holidays and the population's higher purchasing power.

The issuer's suppliers whose share is no less than 10 percent of total tangible assets supplies: *None*.

The Issuer does not have any suppliers of tangible assets. The Issuer is not engaged in import supplies. Raw materials for the WBD Group are supplied by Russian and CIS producers (Kyrgyzstan, Ukraine). The main raw material for dairy industry is raw milk produced in the territory of Russia. The raw materials for juices and juice-containing drinks are fruit and berry concentrates, the origin of which depends on the area of their growth (e.g. apples in Southern Russia, tomatoes in Eastern and Central Europe). The Tetra Pak company is one of the leading suppliers of packaging for the WBD Group. These sources will remain available in the future.

Markets.

Due to the specifics of the Issuer's primary activity, the market for its services is determined by the number and location of the WBD Group facilities. A decline in the financial position of WBD Group businesses may be the only negative factor influencing the Issuer's market of services. Today the WBD Group's main market is the territory of the Russian Federation. The Issuer intends to expand the market geographically. The only major factor of possible decrease in demand for the Group's products would be a sharp decrease in the population's purchasing capacity, since the Group's products belong to the convenience category. The possibility of stronger competition on the part of both domestic and foreign manufacturers of dairy and juice products is another negative factor.

Stock Management Practices.

The Issuer has no stocks and hence no stock management. The Issuer's policy in relation to working capital is aimed to increase its turnover and keep its amount at a minimum level necessary for current operations.

Major Competitors.

By virtue of its primary mission – control, management, and services in the interests of the WBD Group – the Issuer does not have competitors. Consequently, it would be impossible to analyze the Issuer's market share and its competitiveness factors in terms of their importance and with an allowance for factor ratings.

The principal competitors of the WBD Group on traditional and enriched dairy products markets include Russian producers such as Petmol (St. Petersburg), Ostantinsky, Ochakovsky, and Cherkizovsky Dairies (Moscow) as well as small manufacturers in Russian regions. On the market of vitamin-fortified dairy products, the WBD Group competes mainly with Danone. As for yogurts, milk desserts, and, to some extent, dairy products for children, the main competitors of the WBD Group are foreign companies such as Danone, Campina, Onken u Ehrmann.

In the Issuer's opinion, the WBD Group is expected to compete with the following companies on the dairy market in the near future:

1) Danone of France: the most active foreign company in Russia, pursuing an aggressive advertisement policy. It owns a dairy in the Volga region that produces natural yogurt, fruit-flavored yogurt, and kefir and a dairy in the Moscow region. The company's products, both imported and made in Russia, are sold under the Danone trademark all over the Russian Federation through its own distribution network. According to the study conducted by AC Nielsen in nine Russian cities, in 2001 Danone's sales in the yogurt and milk dessert segment amounted to 12% and in vitamin-fortified dairy products, 5%;

2) Petmol of St. Petersburg: produces a wide variety of dairy products, concentrating however on yogurts and desserts. Petmol's shares are publicly quoted at the Russian stock exchange. According to the study conducted by AC Nielsen in nine Russian cities, in 2001 the company's share was 9% in the traditional dairy segment and 8% in the yogurt and milk dessert segment while the share of Parmalat in the traditional dairy segment reached 2%;

3) Ochakovsky Dairy of Moscow: a major dairy producer in Russia and principal competitor of the WBD Group in Moscow. Its products are very popular among consumers. According to the study conducted by AC Nielsen in nine Russian cities, in 2001 the company's share was 5% in the traditional dairy segment and 4% in the enriched products segment.

The shares of the WBD Group and its principal competitors for enlarged product categories on the dairy market, % (as of September 2002, according to AC Nielsen research):

The principal competitors of the WBD Group on the domestic juice market include Parmalat of Italy and medium- and small-size Russian producers such as:

1) Multon of St. Petersburg: its share on the national and Moscow markets was 29 and 18.7% accordingly in 2001 as shown by the study conducted by AC Nielsen in eleven Russian cities. Dobry and Niko juice brands and other products of the company appeared on the Moscow market in 1998 and have won considerable market shares since then, primarily, due to an aggressive pricing policy;

2) Lebedyansky of the Lipetsk region: the company's share on the national and Moscow markets was 10.9 and 14.5% accordingly in 2001 as shown by the study conducted by AC Nielsen in eleven Russian cities. Its Tonus and Ya brands have become very popular among consumers and effectively compete with juices produced by local manufacturers;

3) Nidan-Ekofrukt of Novosibirsk: a Russian-US joint venture whose share was 6.4% both on the national and Moscow markets in 2001 according to AC Nielsen's study carried out in eleven large Russian cities.

The shares of the WBD Group and its principal competitors on the juice market, % (as of September 2002, according to AC Nielsen's study conducted in eleven large Russian cities):

The WBD Group gets mineral water from an underground spring in Valdai. The region is famous for top-quality mineral water. There is a facility in Nizhny Novgorod that bottles small amounts of mineral water. The WBD Group is planning to start a serial production of mineral water early in 2003 and full-scale production in mid 2003. Historically, the consumption of noncarbonated mineral water has not been widespread in Russia. The situation, however, is radically changing under the effect of environmental factors. The consumption of bottled drinking water is growing rapidly in large Russian cities. The mineral water market is expanding not only in terms of volume but also in terms of a wider variety of products and new trademarks. Furthermore, the number of superior quality brands is growing, and the share of imported brands is going down. In the Issuer's opinion, the WBD Group's principal competitors include Aqua Minerale (Pepsi trademark), BonAqua (Coca-Cola trademark) as well as Borzhomi, Narzan, and Svyatoi Istochnik produced at CIS facilities. The WBD Group is planning to position its new trademark in modern style by emphasizing the mineral origin of the water and produce it with different degrees of carbonation (still, medium-carbonated, and highly carbonated) in bottles of different sizes for consumers' better choice.

Analysis of the WBD Group's Competitive Factors.

The WBD Group has a number of advantages over other Russian producers: high productive capacity, superior quality of products, high-level innovation, and opportunities for new products development and marketing. Other competitive advantages which, in the Issuer's opinion, enable the WBD Group to retain its leading position on the Russian market, include: strong and diversified trademarks, unobstructed access to raw material

sources, extensive sales network, emphasis on the development of new products, modern manufacturing facilities and technologies, external financing opportunities, and efficient leadership. The WBD Group intends to take advantage of those opportunities by pursuing a sales promotion strategy focused on superior quality products and development of new products that would not be inferior to their Western analogs in taste and consistence.

Some Russian producers, however, have certain advantages over the WBD Group, related to a lower cost of production and lower advertisement and shipment expenses. Recent industrial tendencies also show that the consolidation of the industry may lead to the emergence of large domestic producers capable of competing with the WBD Group on the market.

Foreign dairy producers have a large advertisement budget and advanced manufacturing know-how permits them to offer top-quality products made on the basis of up-to-date technologies through well-established sales systems. In the past foreign companies focused on concrete market niches, more often than not, on the premium segment (upper price range) whereas today they are increasingly turning to products for the average consumer with an average income. Besides, such companies as Danone, Parmalat, Campina, and Erhmann have begun investing in Russian manufacturing businesses, which may reduce the competitiveness of WBD Group products, for the competitors now have an opportunity to produce their commodities in Russia. For example, Danone, owning two Russian dairies, has put several yogurt brands on the Russian market, some of them developed specifically for Russian consumers. Campina of Netherlands, also owning a dairy in Russia, makes fresh yogurts and yogurts with a long shelf life. Erhmann of Germany makes yogurt at a Russian dairy, and Onken and Pascual, also foreign companies, are planning to open manufacturing facilities in Russia. As a result of the growing output of yogurts and milk desserts in Russia, the above foreign companies have become the WBD Group's principal competitors in this market segment.

Values of market shares that, in the Issuer's opinion, it and its competitors have had (percentage) in the three full fiscal years preceding the date of approval of the decision to issue the bonds, or for each full fiscal year following the date of foundation provided the Issuer has been operating for less than three years:

MATTERS PUT TO A VOTE AND RESULTS OF VOTING THEREON

4. On the fourth matter: Approval of the terms of a bonded loan issue for 1.5 billion rubles

4.1. Be it resolved that a resolution to place bonds of WBD Foods OJSC to the sum of 1,500,000,000 rubles (the Bonds).

Votes: FOR - 10 (ten) members of the board of directors; AGAINST - none; ABSTAINED - none. The resolution was adopted unanimously in the stated wording.

4.2. Be it resolved that the following parameters and terms of placement and redemption of the Bonds be established:

1. Characteristics

Type of the securities: certificated interest-bearing nonconvertible bearer bonds, series 01.

Form of the securities: certificated bearer instrument with obligatory centralized storage.

The Bonds of the issue shall be certified by a single certificate. Separate certificates to bondholders are not provided.

The certificate is subject to centralized storage at the National Depository Center, which shall perform the functions of Depositary.

Nominal value of each security of the issue: 1,000 (one thousand) rubles.

Number of Bonds to be placed within the scope of the issue: 1,500,000 (one million five hundred thousand).

Total size of the issue: 1,500,000,000 (one billion five hundred million) rubles.

2. Terms of placement of Bonds of the first issue

A) Method of placement of the Bonds: open subscription

B) Placement dates

The start date of the bond placement shall be the sixth business day after the Company publishes in the newspaper *Vedomosti* an announcement of the placement of Bonds of the first issue, but no earlier than the first business day following the expiration of two weeks after the disclosure by the Company of information on the state registration of the bond issue. An announcement of the procedure for disclosure of information shall be published in *Vedomosti* after the state registration of the bond issue.

The end date of the bond placement shall be the earlier of the following two dates:

- a) the tenth business day following the start date of the placement;
- b) the date of placement of the last Bond of this issue (i.e., the first date as of which all Bonds of the issue will have been placed). At the same time, the end date of the bond placement cannot be later than one year after the date of approval of the resolution to issue the securities.

C) Procedure for placement of the Bonds

Placement of the Bonds shall be effected by means of purchase and sale transactions concluded using the trading and settlement system of Moscow Interbank Currency Exchange ZAO (MICEX). Transactions in conjunction with the bond placement shall be concluded by means of the satisfaction of bond buy/sell bids submitted in accordance with the rules of the Stock Market Section of MICEX.

An Underwriter a professional participant in the securities market and member of the Stock Market Section of MICEX, acting in its own name but on behalf and at the expense of the Company shall act as the Seller of the Bonds during the placement thereof.

The functions of Underwriter shall be performed by Troika Dialog Investment Company ZAO.

D) Procedure for determining the placement price of the Bonds

The placement price of one Bond of the issue shall be equal to the nominal value of the bond. Therewith, beginning from the second day of the bond placement, when a transaction for purchase of Bonds is completed the buyer shall also pay the accumulated coupon income on the bond (ACI), calculated using the following formula:

$$ACI = Nom * C_f * (T - T(0))/365 * 100\%$$

where

Nom = the nominal value of one Bond;

C_1 = the interest rate of the 1st coupon in percent per annum;

T = the date of placement of the Bonds;

$T(0)$ = the start date of the bond placement.

The ACI shall be calculated to a precision of one kopeck (rounded using mathematical rounding rules).

E) Form of payment

When purchased Bonds shall be paid for in ruble funds.

Payment for the Bonds shall be made in cashless form in the currency of the Russian Federation in accordance with settlement rules in the stock market section of MICEX.

3. Rights of owners of Bonds of the first issue and the procedure for granting thereof:

1. Bondholders shall be entitled to receive the nominal value of the Bonds at maturity.
2. Bondholders shall be entitled to receive coupon (interest) income in the form of a percentage of the nominal value of the Bonds.
3. In the event of the liquidation of the issuer, bondholders shall be entitled to receive the nominal value of the Bonds and the ACI in the order of priority established by applicable law of the Russian Federation.
4. Bondholders shall have the right to freely sell or otherwise alienate their Bonds upon the registration of the report on the results of the bond issue.
5. A bondholder shall be entitled to declare a Bond of this issue due and payable and to demand immediate repayment of the nominal value of the debt represented by the Bond in the following cases:
 - a) the issuer announces its inability to fulfill financial obligations in relation to Bonds of this issue;
 - b) the issuer fails to perform the obligation to pay the nominal value of Bonds of this issue at maturity, upon the expiration of 15 (fifteen) business days following the set maturity date;
 - c) the issuer fails to promptly perform the obligation to pay coupon income on Bonds of this issue in accordance with the terms of the issue. In such case, the right to demand redemption of the Bonds shall arise upon the expiration of 15 (fifteen) business days following the date set for payment of the respective coupon income.
6. Bondholders shall also be entitled to demand early redemption of Bonds in the cases set forth in the Resolution to Issue Securities and the Prospectus.
7. Bondholders shall be entitled to exercise other rights provided by the legislation of the Russian Federation.

Edgar Filing: WIMM BILL DANN FOODS OJSC - Form 6-K

The Company undertakes to transfer promptly and in full to the payment agent for this bond issue the amounts necessary to fulfil the Company's payment obligations toward bondholders pursuant to this resolution to issue securities.

All debt of the issuer in respect of the Bonds of this issue shall be legally equal and equally binding for performance.

If the Company fails to perform its obligations in respect of the Bonds, bondholders and/or nominee holders of the Bonds shall have the right to demand that the entity providing security for the bond issue perform obligations in respect of payment of the nominal value of the Bonds.

The entity providing security for this issue of Bonds is «Trading company WIMM-BILL-DANN» Closed Joint Stock Company.

4. For the purposes of securing the Bonds of the issue, the Company and «Trading company WIMM-BILL-DANN» Closed Joint Stock Company have entered into an agreement on provision of security to Wimm-Bill-Dann Foods Open Joint Stock Company in the amount of 1,500,000,000 (one billion five hundred million) rubles for purposes of the bond issue.

5. Income from the Bonds is coupon income (payable upon the expiration of each coupon period) in the form of a percentage of the nominal value of the Bonds.

The Bonds have six coupons.

The dates of the coupon payments are calculated according to the following formulas:

$$T_1=T_0+182, T_2=T_0+364, T_3=T_0+546, T_4=T_0+728, T_5=T_0+910, T_6=T_0+1092;$$

where

T_0 = start date of the placement of Bonds of the issue, T_1 = date of the 1st coupon payment, T_2 = date of the 2nd coupon payment, T_3 = date of the 3rd coupon payment, T_4 = date of the 4th coupon payment, T_5 = date of the 5th coupon payment, T_6 = date of the 6th coupon payment; The start date of the coupon (interest) period for the 1st coupon of the issue shall be the start date the bond placement. The start date of the coupon period for the 2nd coupon shall be the payment date of the 1st coupon of the issue. The start date of the coupon period for the 3rd coupon shall be the payment date of the 2nd coupon of the issue. The start date of the coupon period for the 4th coupon shall be the payment date of the 3rd coupon of the issue. The start date of the coupon period for the 5th coupon shall be the payment date of the 4th coupon of the issue. The start date of the coupon period for the 6th coupon shall be the payment date of the 5th coupon of the issue.

The end date of each coupon period shall be the payment date of that coupon.

If the end date of a coupon period falls on a non-business day (regardless of whether such day is a government-mandated non-business day or a non-business day for settlement operations), payment of the due sum shall be made on the next business day. A bondholder shall not be entitled to demand interest or any other compensation for such delay in payment.

The amount payable on each coupon of a Bond shall be calculated using the following formula:

$$K_j = C_j * Nom * (T(j) - T(j - 1)) / (365 * 100%),$$

where

j = number of the coupon period, $j = 1, 2, 3, 4, 5, 6$;

K_j = amount of the coupon payment for each Bond;

Nom = nominal value of one Bond;

C_j = interest rate of the j th coupon, in percent per annum;

$T(j - 1)$ = start date of the j th coupon period;

$T(j)$ = end date of the j th coupon period.

The amount payable on a coupon shall be calculated to a precision of one kopeck (rounded to the nearest whole number using mathematical rounding rules).

Payment of the nominal value of Bonds upon their maturity and payment of interest income on Bonds shall be made in monetary form in the currency of the Russian Federation.

a) Procedure for determining the interest rate for the 1st coupon:

The interest rate for the 1st coupon shall be equal to the inflation amount for the corresponding one-year period, defined as the Consumer Price Index for Russia (CPI) calculated monthly by the RF State Statistics Committee (Goskomstat) in accordance with RF State Statistics Committee Resolution No. 23 of March 25, 2002 (Resolution No. 23), as a percentage relative to the same month of the preceding year, for the calendar month ending no later than 45 days before the start date of the bond placement, as a percentage relative to the same month of the preceding year, less 100%, and an inflation premium. The CPI value shall be published on the website of Troika Dialog Investment Company no later than 10 days before the start date of the bond placement. The inflation premium (in percent per annum) shall be determined by an auction held among potential buyers of the Bonds on the start date of the bond placement. Three business days before the auction to determine the inflation premium, members of the stock market section of Moscow Interbank Currency Exchange ZAO (MICEX) shall gather preliminary orders from potential buyers. Gathering of preliminary orders shall be concluded by the day of the auction. On the day of the auction, members of the stock market section of MICEX shall submit bids for the auction using the MICEX trading system both at their own expense and at the expense and on behalf of clients. The time of submission of bids for the competition shall be established by MICEX. The bids shall be sent by members of the stock market section of MICEX to the Underwriter with the following significant terms specified:

- a.1) Purchase price: 100% of the nominal value;
- a.2) Number of Bonds that the potential buyer wishes to acquire, if the issuer sets an inflation premium greater than or equal to the acceptable inflation premium specified in the order;
- a.3) The acceptable inflation premium for the investor. Acceptable inflation premium means the inflation premium at which, if such premium were announced by the issuer, the potential investor would be prepared to buy the number of Bonds specified in the bid at a price of 100% of the nominal value of the Bonds. The acceptable inflation premium must be expressed in percent per annum to a precision of 1/100 (one-hundredth) of one percent;
- a.4) Funds must be reserved in an amount sufficient to make full payment for the Bonds specified in the bids, including MICEX's commission.

Bids in which one or more of the aforesaid significant terms do not conform to the requirements set forth in sections a.1 - a.4 shall not be admitted to the auction to determine the inflation premium.

Upon the end of the bid submission period MICEX shall prepare a register of the bids received and deliver the register to the issuer or seller of the Bonds, in which capacity Troika Dialog Investment Company ZAO (location: 103009, Moscow, ul. Sadovaya-Triumfalnaya, d. 4/10; postal address: 103009, Moscow, Romanov pereulok, d. 4) (the Underwriter) shall act.

On the basis of an analysis of the bids submitted for the auction, the issuer shall adopt a resolution setting the inflation premium, calculate the rate of interest on the first coupon, and communicate the adopted resolution to the Underwriter and MICEX in writing.

The Underwriter shall publish a notice of the inflation premium and the interest rate for the first coupon, using the MICEX trading system by sending electronic messages to all members of the stock [market] section of MICEX.

After receiving notice of the inflation premium from the Company, the Underwriter shall conclude transactions by submitting counter-offers to bids in which the inflation premium is less than or equal to the inflation premium set by the Company.

- b) Procedure for determining the rate of interest on the 2nd, 3rd, 4th, 5th, and 6th coupons.

The rate of interest on the 2nd, 3rd, 4th, 5th, and 6th (C_2 , C_3 , C_4 , C_5 , and C_6) shall be calculated from the level of inflation for the corresponding one-year period (as defined below). The level of inflation shall be determined on the basis of the Consumer Price Index for Russia calculated monthly by the RF State Statistics Committee in accordance with RF State Statistics Committee Resolution No. 23 of March 25, 2002, as a percentage relative to the same month of the preceding year. The interest rate for each of the aforesaid coupons shall be done calculated using the following formula:

$$C_j = \text{Premium} + \text{Inflation } 12M_j,$$

where

C_j = the interest rate for the j th coupon in percent per annum, $j = 2, 3, 4, 5, 6$;

Premium = the inflation premium determined by the auction held among potential buyers of the Bonds on the start date of the bond placement, in percent per annum;

Inflation 12M_j = the CPI calculated by the RF State Statistics Committee for the calendar month ending no later than 45 days before the start date of the j th coupon period, as a percentage relative to the same month of the preceding year, less 100%;

The CPI is provided by the RF State Statistics Committee upon request. The CPI shall be published on the website of Troika Dialog Investment Company no later than 10 days before the start of the respective coupon period.

If a negative value for C_j is obtained from the formula specified above, C_j shall be taken as equal to zero; if the obtained value of C_j is greater than 25%, C_j shall be taken as equal to 25%.

If, during the period of circulation of the Bonds, the official procedure for calculating the CPI and/or the normative act establishing the procedure for calculating the CPI is altered or the CPI is replaced by an index similar to the CPI with respect to its purposes, the interest rate for a coupon shall be determined using the CPI (or its similar replacement) calculated in accordance with normative acts in force at the time of its calculation.

If information on the CPI is not published by the RF State Statistics Committee and not published on the Internet website of Troika Dialog Investment Company by the date necessary to calculate the interest rate for a coupon (as set forth above), the value of *Inflation 12M_j* for that coupon shall be taken as equal to the value of *Inflation 12M_j* for the preceding coupon.

6. Terms of redemption and payment of interest

Form of redemption

Repayment of Bonds and payment of interest on Bonds shall be made in Russian Federation rubles in cashless form.

Terms and procedure for redemption of the Bonds, including maturity

Redemption period for Bonds of the issue.

Start date:

The start date of redemption of the Bonds shall be the 1092nd (one thousand ninety-second) day following the start date of the placement of Bonds of the issue.

End date:

The start date and end date of redemption of the Bonds coincide.

Terms and procedure for redemption:

The Bonds shall be redeemed at their nominal value by the Payment Agent on behalf of the Company (Payment Agent).

The Company undertakes to transfer promptly and in full to the Payment Agent for this bond issue the amounts necessary to fulfill payment obligations pursuant to this resolution to issue securities.

The Company may appoint additional payment agents and cancel such appointments. An official notice of such actions shall be published by the Company in the newspaper *Vedomosti* no later than 10 (ten) business days before the execution of such appointments or cancellations.

If the maturity date of the Bonds falls on a non-business day (regardless of whether such day is a government-mandated non-business day or a non-business day for settlement operations), payment of the due sum shall be made on the next business day. A bondholder shall not be entitled to demand interest or any other compensation for such delay in payment.

7. Percentage of Bonds that must be placed, failing which the issue will be deemed not to have taken place

No percentage is established.

8. Procedure for calculating accumulated coupon income during circulation of the Bonds.

At any time from the placement date until maturity of the issue, the accumulated coupon income (ACI) shall be calculated using the following formula:

$$ACI = Nom * C_j * (T - T((j - 1)) / 365 * 100\%),$$

where

Nom = the nominal value of one Bond; $j = 1, 2, 3, 4, 5, 6$;

C_j = the interest rate of the j th coupon in percent per annum;

$T(j-1)$ = the start date of the j th coupon period;

T = the current date.

The ACI shall be calculated to a precision of one kopeck (rounded to the nearest whole number using mathematical rounding rules).

9. Possibility of acquisition of Bonds by the Company.

The Company has the right to acquire its own Bonds by means of contracts of sale concluded in accordance with RF legislation, including on the basis of public irrevocable offers made by the Company and published in mass media.

Edgar Filing: WIMM BILL DANN FOODS OJSC - Form 6-K

A resolution to acquire bonds, including on the basis of public irrevocable offers, shall be adopted by the Board of Directors. Such resolution must establish the terms, procedure, and dates of acquisition of the Bonds.

58.1

Category of Shares: Common

Form of Shares: Registered, uncertificated

Full Name of Category/Form of Authorized Shares: Registered common shares, uncertificated

Holder Rights for Shares of this Category (Type):

According to the Company's Charter:

8.1. Each common share of the Company grants the shareholder who owns it an identical amount of rights.

8.2. Shareholders owning common shares of the Company may in accordance with the Federal Law on Joint Stock Companies and the Company's charter participate in the General Meeting of Shareholders with the right to vote on all issues within its competence, and are entitled to receive dividends and, in the event of the Company's liquidation, a part of its property.

8.3. A shareholder also has the right:

8.3.1. To elect and be elected to the management and supervisory bodies of the Company;

D. OTHER DATA ON THE ISSUER'S SECURITIES.

Edgar Filing: WIMM BILL DANN FOODS OJSC - Form 6-K

8.3.2. To obtain information from the Company's management bodies in the manner established by current Russian legislation and by this Charter.

8.3.3. To appoint his own representative(s) to exercise his voting right and other rights granted by shares of the Company.

8.4. Shareholders owning common shares also have other rights granted to them by this Charter and by current legislation.

8.5. Conversion of common shares into preferred shares, bonds, or other issued securities is not permitted.

In accordance with the Russian law, shareholders have other rights, including, but not limited to:

1. Shareholder of open joint stock companies may dispose of their shares without the agreement of other shareholders of the company.
2. Shareholder or nominee holder may request that they be entered in the registry of the company's shareholders no later than three days from the date of submission of documents required by the Russian legislation. A refusal to entry in the registry of the company's shareholders may be appealed in court.
3. Shareholder or nominee holder may request that the keeper of the registry of the company's shareholders confirm their right to shares by issuing an abstract from the registry of the company's shareholders, which is not a security.

4. Shareholder may appeal in court a decision made by the general meeting of shareholders in violation of the provisions of the Act on Joint Stock Companies, other legislation of the Russian Federation, or the company's Charter, if he/she did not participate in the general meeting of shareholders or voted against such decision, and the decision violates his/her rights and legal interests. The court may, upon considering all circumstances of the case, leave such decision effective if the vote of such shareholder could not affect the outcome of the voting, the violations were immaterial, and the decision did not cause damage to such shareholder.

5. Shareholder(s) owning a total of 2 or more percent of the company's voting shares may, no later than 30 days from the end of the company's fiscal year, if the company's Charter does not stipulate a larger period, suggest no more than two issues for the agenda of the annual general meeting of shareholders and nominate candidates to the company's Board of Directors and Inspection Commission, the number of them not to exceed the size of these bodies. A decree of the company's Board of Directors refusing entry of an issue in the agenda of the annual general meeting of shareholders or of a candidacy in the list of candidates to the company's Board of Directors and Inspection Commission may be appealed in court.

6. Shareholder(s) owning a total of 10 or more percent of the company's voting shares as of the date of request, may request an extraordinary general meeting of the company's shareholders. A decree of the company's Board of Directors refusing an extraordinary general meeting of shareholders may be appealed in court. If the company's Board of Directors does not make a decision on holding an extraordinary general meeting or on refusing an extraordinary general meeting, persons requesting such meeting may hold an extraordinary general meeting of shareholders.

7. Shareholder(s) owning a total of 1 or more percent of the company's offered equity shares may file a lawsuit against a member of the company's Board of Directors, company's individual executive body (President of the Board), or a member of company's collective executive body (the Board) to cover the damage to the company, as stipulated in Section 71(2) of the Act on Joint Stock Companies.

8. Shareholders owning voting shares may request that the company buy all or part of their shares in the following cases: re-organization of the company or completion of a large-scale deal, decided upon by the general meeting of shareholders in accordance with Section 89(2) of the Act on Joint Stock Companies, if they voted against such deal or did not participate in the voting on these issues; change or amendments to the company's Charter, or approval of the new edition of the Charter, limiting their rights, if they voted against such decision or did not participate in the voting.

9. Shareholder(s) owning a total of 10 or more percent of the company's voting shares, may at any time request an inspection (revision) of the company's financial and economic activity.

10. Shareholder may request that the company provides him/her with paid copies of documents, listed in Section 89(1) of the Act on Joint Stock Companies, and other company documents, as stipulated in the Russian legislation.

11. Other rights, as stipulated by the current Russian law.
