ITEM 2.01 COMPLETION OF ACQUISITION OR DISPOSITION OF ASSETS

On June 23, 2004, Perficient, Inc. (the Company) filed a current report on Form 8-K reporting that on June 18, 2004, the Company consummated the acquisition of Meritage Technologies, Inc. (Meritage), a Delaware corporation, by merging our wholly owned subsidiary, Perficient Meritage, Inc., a Delaware corporation, with and into Meritage. Meritage survived the Merger as our direct wholly owned subsidiary under the name Perficient Meritage, Inc. The Company paid approximately \$7.1 million consisting of approximately \$2.9 million in cash and 1.17 million shares of the Company's common stock valued at approximately \$4.2 million subject to certain post-closing adjustments. The shares of common stock issued in connection with the merger were ascribed a value of \$3.595 per share, which was the average closing price of the Company's common stock for the 23 consecutive trading days ending on June 15, 2004. Approximately \$0.8 million in transaction costs have been incurred in relation to the acquisition. Prior to the acquisition, the assets of Meritage were used to provide information technology consulting services to its customers. The Company intends to continue such use for the assets of Meritage. The foregoing summary does not purport to be complete and is qualified in its entirety by reference to the full text of the Meritage Merger Agreement, a copy of which is included herein as Exhibit 2.1

ITEM 9.01. FINANCIAL STATEMENTS, AND EXHIBITS

In this Report on Form 8-K/A we are providing the following financial information:

(a) Audited Consolidated Financial Statements of Meritage Technologies, Inc. for the years ended December 31, 2002 and 2003;

(b) Unaudited Pro Forma Condensed Combined Statement of Operations of the Company for the year ended December 31, 2003 and six months ended June 30, 2004; operating results of Meritage Technologies, Inc. are included in operating results of Perficient's condensed combined financial statements as of June 18, 2004.

The Company has recorded total consideration for the Meritage acquisition of \$10.3 million, which includes transaction costs. This consideration has been preliminarily allocated to the tangible and identifiable intangible assets acquired and liabilities assumed according to their respective fair values, with the excess purchase consideration being allocated to goodwill at the closing of the transaction. The acquisition was completed on June 18, 2004.

The unaudited pro forma condensed combined income statements of the Company for the year ended December 31, 2003, and the six months ended June 30, 2004, give effect to (i) the acquisition of Meritage Technologies, Inc. applying the purchase method of accounting and (ii) certain adjustments that are directly attributable to the acquisition as if the transaction was consummated as of the beginning of the respective periods.

In the opinion of the Company, all adjustments and/or disclosures necessary for a fair presentation of the pro forma data have been made. These unaudited pro forma statements of operations are presented for illustrative purposes only and are not necessarily indicative of the operating results that would have been achieved had the acquisition occurred as of the dates indicated or of the results that may be obtained in the future. The unaudited pro forma condensed combined statements of operations for the year ended December 31, 2003 and for the six months ended June 30, 2004 do not reflect operational efficiencies and cost savings that may be achieved with respect to the combined companies. Therefore,

Edgar Filing: PERFICIENT INC - Form 8-K/A

these pro forma historical results reflect operating costs which are not indicative or predictive of future period results.

These unaudited pro forma condensed combined income statements and notes thereto should be read in conjunction with the Meritage Technologies, Inc. financial statements and the notes thereto as of and for the years ended December 31, 2002 and 2003 included in this Report on Form 8-K/A; the Company's financial statements and the notes thereto as of and for the year ended December 31, 2003, included in the Company's Annual Report on Form 10-KSB for the fiscal year ended December 31, 2003, as amended by Amendment No. 1 on Form 10-KSB/A, which are incorporated herein by reference; and the Company's condensed consolidated financial statements and the notes thereto as of and for the three and six months period ended June 30, 2004, included in the Company's Quarterly Report on Form 10-QSB which are incorporated herein by reference.

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

To the Stockholders of

Meritage Technologies, Inc. and Subsidiaries:

We have audited the accompanying consolidated balance sheets of Meritage Technologies, Inc. (a Delaware corporation) and Subsidiaries as of December 31, 2002 and 2003, and the related consolidated statements of operations, stockholders' equity (deficit) and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

MERITAGE TECHNOLOGIES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE A THE COMPANY

Meritage Technologies, Inc. (the Company) provides professional services to help Global 3500 enterprises automate business processes and improve operational performance. Meritage specializes in developing solutions in the areas of enterprise portals, content management, custom application development and in supporting enterprise application frameworks. The Company provides consulting services to customers throughout the United States and Canada.

The consolidated financial statements include the accounts of Meritage Technologies, Inc., a Delaware Corporation, and its wholly owned subsidiaries, Meritage Technologies, Inc., an Indiana Corporation, IEC, Ltd., Meritage Technologies Canada, Inc. and Meritage Technologies Canada Corp. All significant intercompany accounts and transactions have been eliminated.

NOTE B SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2. Concentrations of Credit Risk

Financial instruments, which potentially subject the Company to a concentration of credit risk, consist principally of accounts and notes receivable. The Company provides services to customers based on an evaluation of the customer's financial condition, generally without requiring collateral. Exposure to losses on receivables is principally dependent on each customer's financial condition. The Company monitors the exposure for credit losses and maintains allowances for anticipated losses.

In 2002, the Company had sales to one customer that comprised 11% of total revenues. Receivables from this customer were 5% of total receivables at December 31, 2002. In 2003, the Company had sales to two customers that comprised 29% of total revenue. Receivables from

these customers were 32% of total receivables at December 31, 2003.

3. Accounting for Long-Lived Assets

In 2001, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 142 Goodwill and Other Intangible Assets (SFAS 142).

F-7

SFAS 142 provides that goodwill and other intangible assets with indefinite lives should not be amortized. Instead, the carrying value of goodwill is to be evaluated for impairment on an annual basis utilizing fair value techniques. In accordance with SFAS 142, the Company ceased amortization of goodwill as of January 1, 2002 and performed its initial impairment review.

As a result of its impairment review, the Company deemed its goodwill to be impaired, and, accordingly, wrote off the remaining unamortized balance of \$1,952,312. The charge is reflected as a change in accounting principle in the accompanying consolidated statements of operations.

4. Foreign Currency Translation

The financial position and results of operations of the Company's foreign subsidiary are measured using the local currency as the functional currency. Revenues and expenses are translated into U.S. dollars using average exchange rates during the period. Assets and liabilities are translated using rates in effect as of the date of the balance sheet. Translation gains and losses are included as a component of comprehensive income.

5. Revenue Recognition

All revenue is recognized as consulting services are performed. Deferred revenue represents billings in advance of services performed. Unbilled revenue is included as a component of accounts receivable. Losses are recognized at such time facts and circumstances indicate that a loss will be incurred on a contract. Management has concluded that no such loss contracts exist at December 31, 2002 and 2003.

6. Advertising Costs

Advertising costs are expensed as incurred. Advertising costs were not significant in 2002 and 2003.

7. Stock-Based Compensation

The Company accounts for certain stock options according to APB No. 25, Accounting for Stock Issued to Employees, under which no compensation expense is recognized at the time of the grant. Had compensation costs for the Company's stock options been determined based on fair values at the grant date consistent with SFAS 123 (Accounting for Stock Based Compensation), the Company's net income (loss) would have been as follows:

**For the year ended
December 31,**

**For the three months ended
March 31,**

Edgar Filing: PERFICIENT INC - Form 8-K/A

Pro-forma net income (loss)	\$ (8,052,617)	\$ (3,048,888)	\$ 211,448	\$ 103,407

F-8

The fair values of the options granted are estimated on the date of grant using the Black-Scholes option pricing model with assumptions of a risk-free interest rate of 6%, expected lives of 10 years and no expected volatility. The weighted average exercise price of options granted in 2002 and 2003 was \$0.73 per share and \$0.25 per share, respectively.

8. Reclassifications

Certain reclassifications have been made to the prior year financial statements to conform with the current year presentation.

9. Interim Financial Statements (unaudited)

The accompanying unaudited interim condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States and are presented in accordance with the rules and regulations of the Securities and Exchange Commission applicable to interim financial information. Accordingly, certain footnote disclosures have been condensed or omitted. In the opinion of management, the unaudited interim financial statements at March 31, 2004 and for the three months ended March 31, 2003 and 2004 include all adjustments necessary to present fairly the Company's financial position at March 31, 2004, and results of operations and cash flows for the three months ended March 31, 2003 and 2004. Results for the three months ended March 31, 2004 are not necessarily indicative of the results to be expected for the entire year.

10. Recently Issued Accounting Standards

In May 2003, the FASB issued SFAS No. 150, *Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity*. SFAS No. 150 establishes standards on the classification and measurement of certain financial instruments with characteristics of both liabilities and equity. The provisions of SFAS No. 150 are effective for financial instruments entered into or modified after May 31, 2003, and to all other instruments that exist as of the beginning of the first interim financial reporting period beginning after June 15, 2003. The changes that resulted from the issuance of SFAS No. 150 did not have a material effect on the Company's consolidated results of operations or financial position.

11. Segment Information

The Company operates in one segment for financial reporting purposes.

NOTE C LOCATION CLOSURES

During 2002 and 2003, the Company closed offices in several of its operating locations. As a result of these closures, the Company incurred costs of approximately \$660,000 and \$100,000 relating to lease terminations, fixed asset write offs and severance payments in 2002 and 2003, respectively. These costs are included as a component of general and administrative expenses. The rollforward of amounts accrued at year end is as follows:

Property and equipment are stated at cost. The Company provides for depreciation and amortization of property and equipment using the straight-line method.

Maintenance and repair costs are charged to expense as incurred. When property and equipment are disposed, the cost and related accumulated depreciation are removed from the respective accounts, and any gains or losses are included in the statements of operations.

NOTE E REVOLVING LINE-OF-CREDIT

The Company maintains a line-of-credit with a bank. At December 31, 2003, the agreement provides for borrowings up to \$2,215,000 subject to specified borrowing base limitations and net of any letters of credit outstanding. The agreement enables the Company to borrow funds at the bank's prime rate plus 2.75% (6.75% at December 31, 2003). The line is secured by substantially all the business assets of the Company. As of December 31, 2003, the Company was in default of certain debt covenants of its revolving credit agreement. On December 31, 2003, the Company obtained from the bank a forbearance agreement in effect through October 31, 2004. The forbearance agreement requires the Company to maintain minimum levels of earnings before interest and taxes throughout the term of the agreement. Subsequent to year end, the bank extended the forbearance agreement to January 4, 2005 and reduced the available borrowings to \$1,615,000 in \$200,000 increments through October 1, 2004. The Company believes it can remain in compliance with the agreement, as amended throughout 2004. The Company has taken steps to reduce expenses, improve cash flow and return to profitability, including the closing and consolidation of offices in 2002 and 2003.

Based on available funds, current plans and business conditions, management believes that the Company's available cash, borrowings and amounts generated from operations, will be sufficient to meet the Company's cash requirements for the next 12 months. The assumptions underlying this belief include, among other things, that there will be no material adverse developments in the business or market in general. There can be no assurances, however, that those assumed events will occur. If management's plans are not achieved, there may be further negative effects on the results of operations and cash flows, which could have a material adverse effect on the Company.

NOTE F PREFERRED STOCK

The Company has authorized 1,000,000 shares of preferred stock at par value of \$0.001 per share, of which 10,000 shares are designated as Series A and 3,000 shares are designated as Series B. The preferred stock has voting rights based on the number of common shares into which the accreted value of preferred stock is convertible. In addition, a majority of preferred stockholders must approve significant corporate activities including the merger or sale of the Company, issuance of additional common or preferred stock, establishment of new stock option plans, entering into any new line of business, declaring dividends on the common stock or materially amending the compensation package of the chief executive officer.

1. Series A

In 2000, the Company issued 10,000 shares of Series A Senior Cumulative Convertible Participating Preferred Stock (the "Series A"). The Series A is convertible to common stock at an adjusted conversion price of \$2.297 subject to anti-dilution provisions. The Series A is convertible at any time and automatically converts at the time of a Qualified Public Offering (as defined). If a Qualified Public Offering does not occur before August 7, 2005, the Series A stockholders may mandate the Series A be redeemed or the Company be sold. Holders of Series A are provided a preference in liquidation over holders of common stock equal to the greater of the accreted value of the shares or the value of the common stock into which the Series A is convertible at the date of the liquidation.

The Series A accrues dividends at a 6% compounded rate. Through August 7, 2002, such dividends increase the accreted value of the Series A. After that date, the dividends may be paid in cash at the Company's option or continue to add to the accreted value. No dividends were paid in 2003 or 2002.

In addition, the Series A stockholders received warrants to purchase up to 828,994 shares of the Company's common stock at an adjusted amount of \$2.297 per share through August 7, 2003. These warrants become exercisable based on the volume of business referred to the Company by each of the Series A holders. No referral activity thresholds were reached.

On November 13, 2003, Series A stockholders converted 1,852 shares of Series A with a carrying value of \$2,250,000 into 979,539 shares of Common Stock.

2. Series B

In 2002, the Company issued 3,000 shares of Series B Senior Cumulative Convertible Participating Preferred Stock (the "Series B"). The Series B is convertible to common stock at a conversion price of \$1.00 subject to anti-dilution provisions. The Series B stock is convertible at any time and automatically converts at the time of a Qualified Public Offering (as defined). If a Qualified Public Offering does not occur before September 30, 2007, the Series B stockholders may mandate the Series B be redeemed or the Company be sold. Holders of Series B were provided a preference in liquidation over holders of Series A and holders of common stock equal to the greater of 200% of the accreted value of the shares or the value of the common stock into which the Series B is convertible at the date of the liquidation. In 2003, the terms of the preference liquidation of the Series B were amended such that the holders of Series B are provided a preference in liquidation over holders of Series A and holders of common stock equal to the accreted value of the shares or the value of the common stock into which the Series B is convertible at the date of the liquidation.

The Series B accrues dividends at a 6% compounded rate. Through September 30, 2004, such dividends increase the accreted value of the Series B. After that date, the dividends may be paid in cash at the Company's option or continue to add to the accreted value.

Edgar Filing: PERFICIENT INC - Form 8-K/A

In addition, the Series B stockholders received warrants to purchase up to 11,250,000 shares of the Company's common stock at various prices as follows:

3,750,000 shares at \$0.20 per share

3,750,000 shares at \$0.54 per share

3,750,000 shares at \$0.84 per share

The Company allocated the estimated fair value of \$1,387,500 from the proceeds of the Series B issuance to the warrants. The Company adjusted the carrying amount of the Series B to the full redemption value at December 31, 2002.

At December 31, 2002 and 2003, the Company has available net operating loss carryforwards of approximately \$9,000,000 and \$11,000,000, respectively, which may be applied against future taxable income. These carry forwards begin to expire in 2021.

Management of the Company periodically reviews the deferred tax assets for realizability and recognizes a valuation allowance if it is more likely than not that some or all of a deferred tax asset may not be realized. As the Company has suffered recurring losses, management determined a full valuation allowance is appropriate for the net deferred tax assets at December 31, 2003.

The Company's (provision) benefit for income taxes differs from the expected tax (provision) benefit amount computed by applying the statutory federal income tax rate of 34% to income (loss) before income taxes as a result of the following:

The Company has recorded total consideration of approximately \$10.3 million, including approximately \$0.8 million in transaction costs for the Meritage acquisition. The acquisition was completed on June 18, 2004.

The following table shows the components of total consideration:

Cash	\$	2,900,000

In accordance with SFAS 141, *Business Combinations*, the total purchase consideration of approximately \$10.3 million, including transaction costs of approximately \$0.8 million, has been preliminarily allocated to the assets acquired and liabilities assumed, including identifiable intangible assets, based on their respective fair values at the date of acquisition, with excess purchase consideration allocated to goodwill. Such allocation resulted in goodwill of approximately \$7.3 million. Goodwill is not expected to be deductible for income tax purposes.

Note 2 Pro Forma Adjustments

The following unaudited condensed consolidated balance sheet data presents the fair value of the assets acquired and liabilities assumed. The preliminary allocation of the purchase price is based on a comprehensive evaluation of tangible and intangible assets acquired and liabilities assumed. The fair values of the intangible assets acquired are based on an independent appraisal. The excess of purchase price over the fair value of net assets acquired reflects the benefits from expansion of the Company's existing line of business and expected benefits resulting from consolidation and economies of scale. Such balance sheet information includes accruals related to employee severance, relocation and exit costs, as estimated on the date of acquisition:
