Exhibit A

**SPESCOM SOFTWARE REPORTS FOURTH QUARTER AND YEAR END RESULTS**

**SAN DIEGO, CA, December 30, 2005** Spescom Software Inc., (OTCBB: SPCO), a leading provider of enterprise content and configuration management solutions, today reported unaudited results of operations for its fiscal fourth quarter and year ended September 30, 2005.

Revenue for the fourth quarter of 2005 totalled \$1.2 million, with a net loss to common shareholders of (\$1,634,000), or (\$0.04) per diluted share after cumulative preferred dividends of \$66,000. This compares to the fourth quarter of 2004, in which the company had revenues of \$2.4 million and net income to common shareholders of \$94,000, or \$0.00 per share. The fourth quarter of 2005 includes a one-time restructuring charge of \$203,000 related to employee terminations, along with expense of \$140,000 in connection with extending the life of certain warrants.

**For the year ended September 30, 2005, total revenue was \$5.8 million, with a net loss to common shareholders of (\$6,049,000) or (\$0.17) per share after a deemed preferred dividend of \$2,200,000 and cumulative preferred dividends of \$301,000. The deemed preferred dividend was based on the intrinsic value of convertible preferred stock and warrants issued in November 2004 as calculated under the Black-Scholes method. This compares to the previous fiscal year, with total revenues of \$9.0 million and a net loss of (\$223,000), or (\$0.01) per share, after cumulative preferred dividends of \$271,000.**

Deferred revenue, which is primarily comprised of payments received in advance of performance of maintenance contracts, reached \$3,026,000 at the end of FY2005, up from \$1,919,000 or 58% from the same period a year ago and representing three quarters of sequential growth.

At September 30, 2005, the company's contract backlog, which includes deferred revenue, reached \$4,355,000, as compared to \$2,599,000 at September 30, 2004, increasing 68%.

This fiscal year, particularly the last few months, has marked a number of positive changes for Spescom, noted Keith Stentiford, who was appointed Spescom Software's CEO in August. While we reduced costs of operations and invested heavily in marketing and sales in 2005, we also achieved major milestones, like the release of our flagship eB software on the .Net platform. As a result, new order sales and new customers are climbing, including major contract wins with Constellation Energy, Aker Kvaener, and the City of Lancaster.

Seeing opportunity, new partners have joined us, including marketing partner Siemens Chemtech. In addition, the company closed an additional round of equity capital with M.A.G. Capital and Monarch Pointe Fund in October 2005. We believe that all of these elements together set the stage for future growth and market expansion.

Added John Low, Spescom's CFO, The build up in our backlog and deferred revenue is evidence that we are on the right track. The company's total bookings for the year amounted to \$7,581,000. It is also notable that nearly half of FY2005's non-maintenance bookings were achieved during the final quarter.
