Legally Enforceable Restrictions that may Materially Inhibit National Australia Bank Limited's Legal Ability to Provide Material Financial Support to Bank of New Zealand

National Australia Bank Limited does not guarantee the obligations of Bank of New Zealand.

Pursuant to the Banking Act 1959 (Cth), the Australian Prudential Regulation Authority has issued a legally enforceable prudential standard which restricts associations between an authorised deposit-taking institution (such as National Australia Bank Limited) and its related entities.

Any provision of material financial support to Bank of New Zealand by National Australia Bank Limited would need to comply with the following pertinent requirements of the prudential standard:

1. National Australia Bank Limited should not undertake any third-party dealings with the prime purpose of supporting the business of Bank of New Zealand. National Australia Bank Limited must avoid giving any impression of its support unless there are formal legal arrangements in place providing for such support.

2. National Australia Bank Limited should not hold unlimited exposures to Bank of New Zealand.
3. National Australia Bank Limited should not enter into cross-default clauses whereby a default by Bank of New Zealand on an obligation (whether financial or otherwise) is deemed to trigger a default of National Australia Bank Limited in its obligations.
4. In determining limits on acceptable levels of exposure to Bank of New Zealand, the Board of Directors of National Australia Bank Limited should have regard to the level of exposures which would be approved for unrelated entities of broadly equivalent credit status, and the impact on National Australia Bank Limited's stand-alone capital and liquidity positions, as well as its ability to continue operating, in the event of a failure of any related entity to which National Australia Bank Limited is exposed.
5. National Australia Bank Limited's exposure to Bank of New Zealand cannot exceed 50% of National Australia Bank Limited's stand-alone capital base, and its aggregate exposure to all related authorised deposit-taking institutions cannot exceed 150% of that capital base. Exposures in excess of these limits require the prior approval of the Australian Prudential Regulation Authority.

2

The Australian Prudential Regulation Authority has broad powers under the Banking Act 1959 (Cth) to give legally enforceable directions to National Australia Bank Limited in circumstances, for example, where it considers that National Australia Bank Limited has not complied with prudential standards or that it is in the interests of National Australia Bank Limited's deposit holders to do so. In the event that National Australia Bank Limited becomes unlikely to be able to meet its obligations or is about to suspend payments, the Australian Prudential Regulation Authority has the power to take control of National Australia Bank Limited's business or appoint an administrator to National Australia Bank Limited's affairs.

The priority of the creditors of National Australia Bank Limited in the event that National Australia Bank Limited is unable to meet its obligations is governed by various Australian laws, including the Banking Act 1959 (Cth). That Act provides that the assets of National Australia Bank Limited in Australia are to be available to meet its deposit liabilities in Australia in priority to all other liabilities.

Netting of cash flows

Certain cash flows (as indicated by *) are shown net as these cash flows are received and disbursed on behalf of customers and therefore reflect the activities of customers rather than those of the Bank.

Cash and cash equivalents consist of cash and short-term, highly liquid investments that are readily convertible to known amounts of cash, and are subject to insignificant risk of changes in value and are held for the purpose of meeting short-term cash commitments.

Movements in cash and cash equivalents do not represent a cash inflow in the normal sense. Rather, they represent changes in the net inter-bank funding on the balance sheet dates. These balances fluctuate widely in the normal course of business.

The accounting policies and other notes form part of, and should be read in conjunction with, these interim financial statements.

Note 3 Segment Analysis

Business segments

For the purposes of this note a business segment is a distinguishable component of the entity that is engaged in providing groups of related products and services and that is subject to risks and returns that are different from those of other business segments. Separate financial information for each segment is reported to the Board of Directors and Managing Director for the purposes of evaluating performance.

The Banking Group's business is organised into three operating segments: Financial Services New Zealand, Corporate and Institutional Banking and Other. Financial Services New Zealand is the retailing arm of the Banking Group, providing a full range of financial services to customers. Corporate and Institutional Banking is responsible for the Banking Group's relationships with large corporations and institutions. It comprises Corporate Banking, Financial Institutions, Markets, Specialised Finance and a services unit. Other includes segments which are not considered to be separate reportable operating segments. Discontinued Operations refer to the Banking Group's fleet management and car leasing business, which was sold on 31 July 2006. Refer to note 4 for details on the sale of these operations.

Revenues and expenses directly associated with each business segment are included in determining their result. Transactions between business segments are based on agreed recharges between segments. Segment revenue represents revenue directly attributable to a segment and a portion of the Banking Group's revenue that can be allocated to a segment on a reasonable basis. Segment result represents segment revenue less segment expenses and impairment losses on credit exposures and before income taxes.

The above tables reflect allowances for impairment losses on financial assets held at amortised cost. Since 1 October 2005, credit adjustments on financial assets designated at fair value through profit or loss have been incorporated into the carrying value of those assets and charged to the income statement within Gains less losses on financial instruments at fair value. These credit adjustments are analysed in the table below:

Note 12 Asset Quality

The Banking Group provides for impairment losses on credit exposures as disclosed in note 11. Accordingly, when management determines that recovery of a loan is doubtful, the principal amount and accrued interest on the obligation are written down to estimated net realisable value and interest charges are no longer recognised in the income statement.

The Banking Group did not have any assets acquired through security enforcement as at 31 December 2006 (31 December 2005: nil; 30 September 2006: nil).

As at 31 December 2006, the Banking Group had \$9 million of loans that were deemed to be impaired, but are not included in the above table as they have been designated at fair value through profit or loss (31 December 2005: \$2 million; 30 September 2006: \$9 million).

Off-balance sheet impaired assets

There were no off-balance sheet facilities included in the above end of period balance as at 31 December 2006 (31 December 2005: nil; 30 September 2006: \$1 million). No allowance for impairment losses on individual off-balance sheet credit related commitments had been made as at 31 December 2006 (31 December 2005: nil; 30 September 2006: nil).

Other liabilities totalling \$82 million as at 31 December 2006 (31 December 2005: \$69 million; 30 September 2006: \$97 million) rank in priority to general creditors' claims in a winding up of the Bank. Subordinated loans from related entities totalling \$1,205 million as at 31 December 2006 (31 December 2005: \$1,205 million; 30 September 2006: \$1,205 million) rank behind the claims of all other creditors in a winding up. Included in liabilities are obligations of the Bank under repurchase agreements where the Bank has agreed to repurchase Government stock totalling \$298 million as at 31 December 2006 (31 December 2005: \$68 million; 30 September 2006: \$209 million). The Bank held secured deposits of \$45 million as at 31 December 2006 (31 December 2005: \$535 million; 30 September 2006: nil).

Note 20 Contingent Liabilities and Credit Commitments

Bank of New Zealand and other income tax group members have a joint and several liability for the income tax liability of the income tax group. Bank of New Zealand is not expected to incur any additional tax liability as a result of this joint and several liability.

Contingent liabilities and credit commitments exist in respect of commitments to extend credit, letters of credit and financial guarantees, as well as claims, potential claims and court proceedings against entities in the Banking Group. With the exception of the amended assessments from the Inland Revenue Department (the IRD) in relation to structured finance transactions disclosed below, the potential liability arising in respect of these claims cannot be accurately assessed. Where some loss is probable appropriate provisions have been made.

On 31 July 2006, the Bank sold 100% of the share capital in Custom Fleet (NZ) Limited. The Bank provided limited indemnities regarding certain sale-related warranties and the performance of Custom Fleet (NZ) Limited prior to 31 July 2006. Further details in relation to the sale of this controlled entity are provided in note 4.

The principal amount of the Banking Group's derivative and off-balance sheet exposures as at 31 December 2006 (excluding sold puts and sold calls on foreign exchange option contracts, interest rate contracts and other option contracts) is disclosed in note 23.

The notional amount of sold puts and sold calls outstanding as at the off-quarter balance sheet date comprised:

New Zealand structured finance transactions

The New Zealand IRD is carrying out a review of certain structured finance transactions in the banking industry.

As part of this review, the Bank and one of its wholly owned controlled entities have received amended tax assessments for the 1998 to 2002 years from the IRD with respect to certain structured finance transactions. The amended assessments are for income tax of approximately \$256 million. Interest will be payable on this amount, and the possible application of penalties has yet to be considered by the IRD.

The New Zealand Government introduced new legislation, effective 1 July 2005, which addresses their concerns with banks entering into these transactions. All of the structured finance transactions of the Banking Group that are the subject of the IRD's review were terminated by that date.

If the IRD issues amended assessments for all transactions for periods up to 30 June 2005, the maximum sum of primary tax which the IRD might claim for all years is approximately \$416 million. In addition, as at 31 December 2006, interest of \$157 million (net of tax) will be payable.

The Banking Group is confident that its position in relation to the application of the taxation law is correct and it is disputing the IRD's position with respect to these transactions. The Banking Group has obtained independent legal opinions that confirm that the transactions complied with New Zealand tax law. The transactions are similar to transactions undertaken by other New Zealand banks. The Banking Group has commenced legal proceedings to challenge the IRD's assessments.

The financial effect of the unpaid balance of the amounts owing under the amended assessments has not been brought to account in the interim financial statements for the three months ended 31 December 2006.

Commerce Commission

In November 2006, the New Zealand Commerce Commission filed civil proceedings against a number of financial institutions, including the Bank, for alleged breaches of the Commerce Act 1986 relating to credit card interchange fees and other related practices. This follows an industry-wide investigation into arrangements supporting the functioning of payment systems operated in New Zealand and internationally by Visa and MasterCard. This was followed by a claim for damages by some retailers. Both matters are being defended. As at the date of signing of this General Short Form Disclosure Statement, the possible liability the Bank may face cannot be reliably measured. No provision has been made in relation to these matters in the General Short Form Disclosure Statement for the three months ended 31 December 2006.

Note 21 Credit Exposures to Connected Persons and Non-Bank Connected Persons

The Reserve Bank of New Zealand defines Connected Persons to be other members of the National Australia Bank Limited Group and Directors of the Bank. Controlled entities of the Bank are not connected persons. Credit exposures to connected persons are based on actual credit exposures rather than internal limits, net of allowance for impairment losses on individual financial assets and exclude advances of a capital nature. Credit exposures to connected persons reported in the table below are on a gross basis.

As at 31 December 2006, the Banking Group's rating-contingent limit was 70% of the Banking Group's tier one capital. There were no changes to this limit during the three months ended 31 December 2006. Within the overall rating-contingent limit, there is a sublimit of 15% of tier one capital which applies to aggregate credit exposure to non-bank connected persons.

The rating-contingent limit on lending to connected persons as set out in the Bank's Conditions of Registration has been complied with at all times during the three months ended 31 December 2006.

Where a bank is funding a large loan it is common practice to share the risk of a customer default with the connected banks. These arrangements are called risk lay-off arrangements. As at 31 December 2006, the Banking Group had contingent credit exposures of \$262 million (31 December 2005: nil; 30 September 2006: \$372 million) arising from risk lay-off arrangements with connected persons. There were no allowances for impairment losses on individual financial assets against credit exposures to connected persons as at 31 December 2006 (31 December 2005: nil; 30 September 2006: nil).

Note 22 Concentrations of Credit Exposures to Individual Counterparties and Groups of Closely Related Counterparties

The Banking Group's disclosure of concentrations of credit exposures to individual counterparties and groups of closely related counterparties is based on actual credit exposures, and excludes credit exposures to connected persons and OECD governments. Peak credit exposures to individual counterparties are calculated using the Banking Group's end of period shareholder's equity.
