## NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Unaudited)

**1. Basis of Presentation**

The accompanying unaudited consolidated condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States and applicable rules and regulations of the Securities and Exchange Commission (the Commission) pertaining to interim financial information. Accordingly, these interim financial statements do not include all information or footnote disclosures required by accounting principles generally accepted in the United States for complete financial statements and, therefore should be read in conjunction with the consolidated financial statements and notes thereto in the Company's 2006 Annual Report on Form 10-K and other current filings with the Commission. In the opinion of management, all adjustments, consisting of those of a normal recurring nature, necessary to present fairly the results of the periods presented have been included. The results of operations for the interim periods presented may not necessarily be indicative of the results to be expected for the full year.

**2. Earnings per Share**

Basic earnings per share is based on the weighted-average number of common shares outstanding during the period. Diluted earnings per share includes the dilutive effect of stock options and restricted stock.

A reconciliation of the weighted-average common shares outstanding on a basic and diluted basis is as follows (in thousands):

	<b>Three Months Ended</b>		<b>Nine Months Ended</b>	
	<b>June 30,</b>		<b>June 30,</b>	
	<b>2007</b>	<b>2006</b>	<b>2007</b>	<b>2006</b>
Basic weighted average shares	103,323	105,019	103,292	104,542
Effect of dilutive shares:				
Stock options and restricted stock	1,990	1,400	1,698	1,445
Diluted weighted average shares	105,313	106,419	104,990	105,987

For the nine months ended June 30, 2007, options to purchase 597,950 shares of common stock were outstanding but were not included in the computation of diluted earnings per share. Inclusion of these shares would be antidilutive.

For the three months ended June 30, 2007 and 2006, and for the nine months ended June 30, 2006, all options outstanding were included in the computation of diluted earnings per share.

**3. Inventories**

Inventories consist primarily of replacement parts and supplies held for use in the Company's drilling operations.

## 4. Investments

The following is a summary of available-for-sale securities, which excludes those accounted for under the equity method of accounting, investments in limited partnerships carried at cost and assets held in a Non-qualified Supplemental Savings Plan. The investment in the limited partnership carried at cost was \$12.4 million at June 30, 2007 and September 30, 2006. The estimated fair value of the investments carried at cost was \$18.6 million and \$14.5 million at June 30, 2007 and September 30, 2006, respectively. The assets held in the Non-qualified Supplemental Savings Plan are valued at fair market which totaled \$7.5 million at June 30, 2007 and \$5.9 million at September 30, 2006. The recorded amounts for investments accounted for under the equity method are \$68.6 million and \$58.3 million at June 30, 2007 and September 30, 2006, respectively.

7. Financial Instruments

At September 30, 2006, the Company's short-term investments consisted primarily of auction rate securities classified as available-for-sale. During the nine months ended June 30, 2007, the Company sold \$48.3 million in auction rate securities with no realized gains or losses. There were no sales of auction rate securities in the third quarter of fiscal 2007. The proceeds of those sales are included in the sale of investments under investing activities on the Consolidated Condensed Statements of Cash Flows.

8. Derivative Financial Instruments

The Company's objective with a written option is to optimize earnings from the Company's portfolio of available-for-sale securities. An amount equal to the premium received by the Company for the option is recorded as a liability and is subsequently marked-to-market at the end of each accounting period with the results included in net income. Premiums received from writing options that expire unexercised are treated by the Company on the expiration date as realized gains from investments. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether the Company has realized a gain or loss. As the writer of an option, the Company bears the market risk of an unfavorable change in the price of the security underlying the written option.

During the nine months ended June 30, 2007, the Company entered into two written option transactions which expired May 19, 2007. The Company received a premium of approximately \$0.2 million in the second quarter of fiscal 2007. The option was exercised in the third quarter and the Company included the premium in the proceeds from the sale of available-for-sale securities.

9. Cash Dividends

The \$0.045 cash dividend declared March 7, 2007, was paid June 1, 2007. On June 6, 2007, a cash dividend of \$0.045 per share was declared for shareholders of record on August 15, 2007, payable September 4, 2007.

10. Stock-Based Compensation

The Company has two plans providing for common-stock based awards to employees and to non-employee Directors. The plans permit the granting of various types of awards including stock options and restricted stock awards. Restricted stock may be granted for no consideration other than prior and future services. The purchase price per share for stock options may not be less than market price of the underlying stock on the date of grant. Stock options expire ten years after grant. Vesting requirements are determined by the Human Resources Committee of the Company's Board of Directors. Readers should refer to Note 6 of the consolidated financial statements in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2006 for additional information related to these stock-based compensation plans.

In October 2005, the Company adopted SFAS 123(R) Share-Based Payment using a modified prospective application. The Company uses the Black-Scholes formula to estimate the value of stock options granted. The fair value of the options is amortized to compensation expense on a straight-line basis over the requisite service periods of the stock awards, which are generally the vesting periods. The Company has the right to satisfy option exercises from treasury shares and from authorized but unissued shares.

## NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Unaudited)

During the nine months ended June 30, 2007, the Company repurchased 681,900 shares of its common stock at an aggregate cost of \$15.9 million. The Company may repurchase additional shares of its common stock during fiscal 2007 if the share price is favorable.

A summary of compensation cost for stock-based payment arrangements recognized in general and administrative expense and cash received from the exercise of stock options is as follows (in thousands, except per share amounts):

	Three Months Ended June 30,		Nine Months Ended June 30,	
	2007	2006	2007	2006
Compensation expense				
Stock options	\$ 1,372	\$ 1,231	\$ 4,262	\$ 7,411
Restricted stock	347	314	1,017	720
	\$ 1,719	\$ 1,545	\$ 5,279	\$ 8,131
After-tax stock based compensation	\$ 1,066	\$ 957	\$ 3,273	\$ 5,041
Per basic share	\$ .01	\$ .01	\$ .03	\$ .05
Per diluted share	\$ .01	\$ .01	\$ .03	\$ .05
Cash received from exercise of stock options	\$ 2,405	\$ 481	\$ 3,277	\$ 12,341

In December 2005, the Company accelerated the vesting of share options held by a senior executive who retired. As a result of that modification, the Company recognized additional compensation expense of \$2.9 million for the nine months ended June 30, 2006.

## STOCK OPTIONS

The following summarizes the weighted-average assumptions utilized in the model for the three and nine months ended June 30, 2007 and 2006:

	2007	2006
Risk-free interest rate	4.6	% 4.5
Expected stock volatility	35.9	% 36.9
Dividend yield	.7	% .5
Expected term (in years)	5.5	5.2

*Risk-Free Interest Rate.* The risk-free interest rate is based on U.S. Treasury securities for the expected term of the option.

*Expected Volatility Rate.* Expected volatilities are based on the daily closing price of the Company's stock based upon historical experience over a period which approximates the expected term of the option.

*Dividend Yield.* The expected dividend yield is based on the Company's current dividend yield.

*Expected Term.* The expected term of the options granted represents the period of time that they are expected to be outstanding. The Company estimates the expected term of options granted based on historical experience with grants and exercises.

The weighted-average fair value of options granted in the first quarter of fiscal 2007 was \$10.36 and the weighted-average fair value of options granted in the second quarter of fiscal 2007 was \$9.11. The weighted-average fair value of options granted in the first quarter of fiscal 2006 was \$11.62. No options were granted in the second quarter of fiscal 2006 or in the third quarters of fiscal 2007 and 2006.

The total intrinsic value of options exercised during the three and nine months ended June 30, 2007 was \$4.0 million and \$5.0 million, respectively. The total intrinsic value of options exercised during the three and nine months ended June 30, 2006 was \$12.4 million and \$34.8 million, respectively.

As of June 30, 2007, the unrecognized compensation cost related to the stock options was \$12.0 million. That cost is expected to be recognized over a weighted-average period of 2.7 years.

## RESTRICTED STOCK

Restricted stock awards consist of the Company's common stock and are time vested over 3-5 years. The Company recognizes compensation expense on a straight-line basis over the vesting period. The fair value of restricted stock awards is determined based on the closing trading price of the Company's shares on the grant date. The weighted-average grant-date fair value of shares granted for the nine months ended June 30, 2007 and 2006 was \$26.90 and \$30.24, respectively.

A summary of the status of the Company's restricted stock awards as of June 30, 2007 and 2006, and changes during the nine months then ended are presented below:

	Nine months ended June 30, 2007		2006	
	Shares (in thousands)	Weighted- Average Grant-Date Fair Value	Shares (in thousands)	Weighted- Average Grant-Date Fair Value

Vested				
Forfeited				
Unvested at June 30,	240	\$ 29.27	213	\$ 29.57

All grants of restricted stock awards shown in the table above were in the first quarter of that fiscal year.

As of June 30, 2007, there was \$4.9 million of total unrecognized compensation cost related to unvested restricted stock options granted under the Plan. That cost is expected to be recognized over a weighted-average period of 3.6 years.

## 11. Notes Payable and Long-term Debt

At June 30, 2007, the Company had the following unsecured long-term debt outstanding:

Maturity Date	Interest Rate	
Fixed rate debt:		
August 15, 2007	5.51%	\$ 25,000,000
August 15, 2009	5.91%	25,000,000
August 15, 2012	6.46%	75,000,000
August 15, 2014	6.56%	75,000,000
Senior credit facility:		
December 18, 2011	5.67%	205,000,000
		\$ 405,000,000
less long-term debt due within one year		(25,000,000 )
Long-term debt		\$ 380,000,000

The terms of the fixed rate debt obligations require the Company to maintain a minimum ratio of debt to total capitalization.

On December 18, 2006, the Company entered into an agreement with a multi-bank syndicate for a five-year, \$400 million senior unsecured credit facility. The Company anticipates that the majority of all of the borrowings over the life of the facility will accrue interest at a spread over LIBOR. The Company will also pay a commitment fee based on the unused balance of the facility. The spread over LIBOR as well as the commitment fee will be determined according to a scale based on a ratio of the Company's total debt to total capitalization. The LIBOR spread will range from .30 percent to .45 percent depending on the ratios. At June 30, 2007, the LIBOR spread on borrowings was .35 percent and the commitment fee was .075 percent per annum.

Financial covenants in the facility require the Company to maintain a funded leverage ratio (as defined) of less than 50 percent and an interest coverage ratio (as defined) of not less than 3.00 to 1.00. The new facility contains additional terms, conditions, and restrictions that the Company believes are usual and customary in unsecured debt arrangements for companies that are similar in size and credit quality. At closing, the Company transferred two letters of credit totaling \$20.9 million to the facility that remained outstanding at June 30, 2007. As of June 30, 2007, the Company had \$205 million borrowed against the facility. The advance bears interest at 5.67 percent. Subsequent to June 30, 2007, the outstanding borrowings were reduced by \$5 million.

In conjunction with the \$400 million senior unsecured credit facility, the Company entered into an agreement with a single bank to amend and restate the previous unsecured line of credit from \$50 million to \$5 million. Pricing on the amended line of credit is prime minus 1.75 percent. The covenants and other terms and conditions are similar to the aforementioned senior credit facility except that there is no commitment fee. At June 30, 2007, the Company had no outstanding borrowings against this line.

12. Income Taxes

The Company's effective tax rate was 36.6 percent in the first nine months of fiscal 2007, compared to 38.3 percent in the first nine months of fiscal 2006. The effective tax rate for the three months ended June 30, 2007 and 2006 was 36.5 percent and 37.8 percent, respectively. The effective rate differs from the U.S. federal statutory rate of 35.0 percent primarily due to state and foreign taxes.

13. Contingent Liabilities and Commitments

In conjunction with the Company's current drilling rig construction program, purchase commitments for equipment, parts and supplies of approximately \$130.9 million are outstanding at June 30, 2007.

Various legal actions, the majority of which arise in the ordinary course of business, are pending. The Company maintains insurance against certain business risks subject to certain deductibles. None of these legal actions are expected to have a material adverse effect on the Company's financial condition, cash flows or results of operations.

The Company is contingently liable to sureties in respect of bonds issued by the sureties in connection with certain commitments entered into by the Company in the normal course of business. The Company has agreed to indemnify the sureties for any payments made by them in respect of such bonds.

14. Segment Information

The Company operates principally in the contract drilling industry. The Company's contract drilling business includes the following reportable operating segments: U.S. Land, U.S. Offshore, and International. The contract drilling operations consist mainly of contracting Company-owned drilling equipment primarily to major oil and gas exploration companies. The Company's primary international areas of operation include Venezuela, Colombia, Ecuador, other South American countries and Africa. The International operations have similar services, have similar types of customers, operate in a consistent manner and have similar economic and regulatory characteristics. Therefore, the Company has aggregated its International operations into one reportable segment. The Company also has a Real Estate segment whose operations are conducted exclusively in the metropolitan area of Tulsa, Oklahoma. The key areas of operation include a shopping center and several multi-tenant warehouses. Each reportable segment is a strategic business unit which is managed separately. Other includes investments and corporate operations.

The Company evaluates segment performance based on income or loss from operations (segment operating income) before income taxes which includes:

- revenues from external and internal customers
- direct operating costs
- depreciation and
- allocated general and administrative costs

but excludes corporate costs for other depreciation, income from asset sales and other corporate income and expense.

## NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Unaudited)

General and administrative costs are allocated to the segments based primarily on specific identification and, to the extent that such identification is not practical, on other methods which the Company believes to be a reasonable reflection of the utilization of services provided.

Segment operating income for all segments is a non-GAAP financial measure of the Company's performance, as it excludes general and administrative expenses, corporate depreciation, income from asset sales and other corporate income and expense.

The Company considers segment operating income to be an important supplemental measure of operating performance by presenting trends in the Company's core businesses. This measure is used by the Company to facilitate period-to-period comparisons in operating performance of the Company's reportable segments in the aggregate by eliminating items that affect comparability between periods. The Company believes that segment operating income is useful to investors because it provides a means to evaluate the operating performance of the segments and the Company on an ongoing basis using criteria that are used by our internal decision makers. Additionally, it highlights operating trends and aids analytical comparisons. However, segment operating income has limitations and should not be used as an alternative to operating income or loss, a performance measure determined in accordance with GAAP, as it excludes certain costs that may affect the Company's operating performance in future periods.

Summarized financial information of the Company's reportable segments for the nine months ended June 30, 2007, and 2006, is shown in the following tables:

16. Risk Factors

The Company derives its revenue in Venezuela from Petróleos de Venezuela, S.A. (PDVSA), the Venezuelan state-owned petroleum company. The net receivable from PDVSA, as disclosed in the Company's 2006 Annual Report on Form 10-K, was approximately \$66 million at December 1, 2006. At June 30, 2007, the net receivable from PDVSA was approximately \$50 million. As of August 1, 2007, the net receivable from PDVSA was approximately \$46 million. With the collection of the amounts due, all prior short-term borrowings from two local banks in Venezuela have been paid.

17. Gain Contingencies

In August 2005, the Company's Rig 201, which operates on an operator's tension-leg platform in the Gulf of Mexico, lost its entire derrick and suffered significant damage as a result of Hurricane Katrina. The rig was insured at a value that approximated replacement cost. Capital costs incurred in conjunction with any repairs are capitalized and depreciated in accordance with the Company's accounting policies. Insurance proceeds of approximately \$3.0 million were received in fiscal 2006. These proceeds approximated the net book value of equipment. During the nine months ended June 30, 2007, additional insurance proceeds of approximately \$11.1 million were received and recorded as gain from involuntary conversion of long-lived assets in the Consolidated Statements of Income. Additional claims will be submitted and as received, will also be recorded as income. Insurance proceeds are included in the Consolidated Statements of Cash Flows under investing activities. At this time, it is expected the entire amount of insurance proceeds may not be received until fiscal 2008. The Company anticipates the rig returning to service during the fourth quarter of fiscal 2007.

18. Recently Issued Accounting Standards

In February 2007, the Financial Accounting Standards Board (FASB) issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities-Including an amendment of FASB Statement No. 115*. SFAS No. 159 permits entities to choose to measure many financial instruments and certain other items at fair value. SFAS No. 159 is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007. The Company is currently evaluating the potential impact, if any, the adoption of SFAS No. 159 will have on its financial statements.

In September 2006, the Financial Accounting Standards Board (FASB) issued SFAS No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Benefit Plans* (SFAS 158). SFAS 158 requires companies to recognize the overfunded or underfunded status of a defined benefit postretirement plan as an asset or liability in its statement of financial position. This statement is effective for financial statements as of the end of fiscal years ending after December 15, 2006. The Company's pension plan was frozen on September 30, 2006, and as a result, the Company has effectively reflected the funded status of the plan in the Consolidated Balance Sheets; therefore, SFAS 158 will have no impact on consolidated financial statements.

In September 2006, the Financial Accounting Standards Board (FASB) issued SFAS No. 157, *Fair Value Measurements*. SFAS No. 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. This statement is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The Company is currently evaluating SFAS No. 157 to determine the impact, if any, on its financial statements.

In June, 2006, the Financial Accounting Standards Board ( FASB ) issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes-an interpretation of FASB Statement No. 109*. This interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return, and provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. This interpretation is effective for fiscal years beginning after December 15, 2006. The Company is currently assessing the impact of this interpretation on the financial statements.

19. Subsequent Events

Subsequent to June 30, 2006, the Company sold 50,000 shares of an available-for-sale security resulting in a gain of approximately \$4.4 million, \$2.7 million after-tax. Proceeds from the sale were \$4.8 million.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION  
AND RESULTS OF OPERATIONS

June 30, 2007

**RISK FACTORS AND FORWARD-LOOKING STATEMENTS**

The following discussion should be read in conjunction with the consolidated condensed financial statements and related notes included elsewhere herein and the consolidated financial statements and notes thereto included in the Company's 2006 Annual Report on Form 10-K. The Company's future operating results may be affected by various trends and factors, which are beyond the Company's control. These include, among other factors, fluctuations in natural gas and crude oil prices, expiration or termination of drilling contracts, forfeiture of early termination payments under fixed term contracts due to sustained unacceptable performance, unsuccessful collection of receivables, including Venezuelan receivables, inability to procure key rig components, failure to timely deliver rigs within applicable grace periods, disruption to or cessation of business of the Company's limited source vendors or fabricators, currency exchange losses, changes in general economic and political conditions, adverse weather conditions including hurricanes, rapid or unexpected changes in technologies, and uncertain business conditions that affect the Company's businesses. Accordingly, past results and trends should not be used by investors to anticipate future results or trends. The Company's risk factors are more fully described in the Company's 2006 Annual Report on Form 10-K. No material changes in the risk factors have occurred.

With the exception of historical information, the matters discussed in Management's Discussion & Analysis of Financial Condition and Results of Operations include forward-looking statements. These forward-looking statements are based on various assumptions. The Company cautions that, while it believes such assumptions to be reasonable and makes them in good faith, assumptions about future events and conditions almost always vary from actual results. The differences between good faith assumptions and actual results can be material. The Company is including this cautionary statement to take advantage of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 for any forward-looking statements made by, or on behalf of, the Company. The factors identified in this cautionary statement are important factors (but not necessarily all important factors) that could cause actual results to differ materially from those expressed in any forward-looking statement made by, or on behalf of, the Company.

**RESULTS OF OPERATIONS**

**Three Months Ended June 30, 2007 vs. Three Months Ended June 30, 2006**

The Company reported net income of \$115.2 million (\$1.09 per diluted share) from operating revenues of 421.3 million for the third quarter ended June 30, 2007, compared with net income of \$80.0 million (\$0.75 per diluted share) from operating revenues of \$319.8 million for the third quarter of fiscal year 2006. Net income for the third quarter of fiscal 2007 includes approximately \$15.5 million (\$0.15 per diluted share) of after-tax gains from the sale of available-for-sale securities. Net income for the third quarter of fiscal 2006 includes approximately \$5.8 million (\$0.05 per diluted share) of after-tax gains from the sale of available-for-sale securities. Net income for the third quarter of fiscal 2007 includes approximately \$3.9 million (\$0.03 per diluted share) of after-tax gains from the sale of assets. Net income for the third quarter of fiscal 2006 includes approximately \$1.2 million (\$0.01 per diluted share) of after-tax gains from the sale of assets. Also included in net income for the third quarter of fiscal 2007 is approximately \$3.7 million (\$0.03 per diluted share) of after-tax gains from involuntary conversion of long-lived assets.

The following tables summarize operations by business segment for the three months ended June 30, 2007 and 2006. Operating statistics in the tables exclude the effects of offshore platform and international management contracts, and do not include reimbursements of out-of-pocket expenses in revenue, expense and margin per day calculations. Per day calculations for international operations also exclude gains and losses from translation of foreign currency transactions. Segment operating income is described in detail in Note 14 to the financial statements.

U.S. LAND segment operating income increased to \$114.6 million for the third quarter of fiscal 2007 compared to \$93.7 million in the same period of fiscal 2006. Revenues were \$303.5 million and \$214.9 million in the third quarter of fiscal 2007 and 2006, respectively. Included in land revenues for the three months ended June 30, 2007 and 2006 are reimbursements for out-of-pocket expenses of \$14.0 million and \$10.0 million, respectively. The \$20.9 million increase in segment operating income was primarily the result of increased activity days.

Average land rig revenue per day was \$23,401 and \$23,503 for the third quarter of fiscal 2007 and 2006, respectively. Land rig utilization was 96 percent and 100 percent for the third quarter of fiscal 2007 and 2006, respectively. Land rig activity days for the third quarter of fiscal 2007 were 12,371 compared with 8,716 for the same period of fiscal 2006, with an average of 135.9 and 95.8 rigs working during the third quarter of fiscal 2007 and 2006, respectively. The increase in rig days and average rigs working is attributable to 48 new rigs entering the fleet since the third quarter of fiscal 2006.

Average rig expense per day increased \$1,054 to \$11,619 per day at June 30, 2007 from \$10,565 per day at June 30, 2006. Intense demand for a quality labor force has elevated payroll and related costs along with increases in materials and supplies.

In the third quarter of fiscal 2007, one idle rig was sold from the U.S. Land fleet.

## MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION

## AND RESULTS OF OPERATIONS

June 30, 2007

Revenues, direct operating expenses, and segment operating income declined in the third quarter of fiscal 2007 compared to the third quarter of fiscal 2006 primarily as a result of decreased activity days. The decrease in activity days is due to two rigs working in the third quarter of fiscal 2006 that were stacked in the third quarter of 2007.

At June 30, 2007, the Company has five of its nine platform rigs working, three rigs waiting on location and one rig stacked. Subsequent to June 30, 2007, one of the working rigs was stacked.

INTERNATIONAL DRILLING segment operating income for the third quarter of fiscal 2007 was \$30.4 million, compared to \$17.7 million in the same period of fiscal 2006. Rig utilization for International operations was 90 percent for the third quarter of fiscal 2007, compared with 93 percent for the third quarter of fiscal 2006. During the current quarter, an average of 24.3 rigs worked compared to an average of 25.0 rigs in the third quarter of fiscal 2006. International revenues were \$90.1 million in the third quarter of fiscal 2007, compared with \$67.8 million in the third quarter of fiscal 2006. The increase in revenue is attributable to increased dayrates from contract renewals in Venezuela. The Company anticipates utilization in the fourth quarter of fiscal 2007 to decline compared to the third quarter. This decline should result in lower fourth quarter operating income compared to the third quarter of fiscal 2007. Included in International revenues for the three months ended June 30, 2007 and 2006 are reimbursements for out-of-pocket expenses of \$8.9 million and \$6.6 million, respectively.

**OTHER**

General and administrative expenses decreased to \$11.5 million in the third quarter of fiscal 2007 from \$13.0 million in the third quarter of fiscal 2006. The \$1.5 million decrease is primarily due to a reduction of pension expense in the third quarter of fiscal 2007 compared to 2006. The Pension Plan was frozen and benefit accruals were discontinued effective September 30, 2006, thus reducing the service cost of the Plan.

Interest and dividend income decreased to \$1.0 million in the third quarter of fiscal 2007 compared to \$2.6 million in the third quarter of fiscal 2006. The \$1.6 million decrease is attributable to a reduction in short-term investments that were used at maturity to meet the capital needs associated with the FlexRig construction.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION

AND RESULTS OF OPERATIONS

June 30, 2007

Interest expense was \$3.3 million and \$1.3 million in the third quarter of fiscal 2007 and 2006, respectively. With advances on the credit facility, interest expense before capitalized interest increased \$2.2 million during the third quarter of fiscal 2007 compared to the third quarter of fiscal 2006. Capitalized interest was \$2.1 million and \$1.9 million for the three months ended June 30, 2007 and 2006, respectively.

Income from asset sales was \$6.2 million in the third quarter of fiscal 2007, compared to \$1.9 million in the same period of fiscal 2006. The increase of \$4.3 million in the third quarter of fiscal 2007 was primarily due to the sale of one U.S. land rig.

Income from the sale of investment securities was \$25.3 million, \$15.5 million after-tax (\$0.15 per diluted share) in the third quarter of fiscal 2007. In the third quarter of fiscal 2006, income from the sale of investment securities was \$9.4 million \$5.8 million after-tax (\$0.05 per diluted share).

In the third quarter of fiscal 2007, the Company recorded income of \$5.9 million from involuntary conversion of long-lived assets that sustained significant damage as a result of hurricane Katrina in 2005.

**Nine Months Ended June 30, 2007 vs. Nine Months Ended June 30, 2006**

The Company reported net income of \$332.9 million (\$3.17 per diluted share) from operating revenues of \$1,180.2 million for the nine months ended June 30, 2007, compared with net income of \$195.4 million (\$1.84 per diluted share) from operating revenues of \$866.0 million for the first nine months of fiscal year 2006. Net income for the first nine months of fiscal 2007 includes \$31.8 million (\$0.30 per diluted share) of after-tax gains from the sale of available-for-sale securities sold primarily in the first and third quarters. The proceeds from the sale were used to repurchase 681,900 shares of Company common stock for approximately \$15.9 million in October 2006 and funding capital expenditures. Net income for the first nine months of fiscal 2006 includes \$7.5 million (\$0.07 per diluted share) of after-tax gains from the sale of available-for-sale securities. The proceeds from the sale of securities in the nine months ending June 30, 2006 were used to fund capital expenditures. Also included in net income is after-tax gains from the sale of assets of approximately \$24.7 million (\$0.24 per diluted share) for the nine months ended June 30, 2007, compared to approximately \$4.1 million of after-tax gains (\$0.04 per diluted share) for the nine months ended June 30, 2006. Also included in net income for fiscal 2007 is approximately \$7.0 million (\$0.06 per diluted share) of after-tax gains from involuntary conversion of long-lived assets.

The following tables summarize operations by business segment for the nine months ended June 30, 2007 and 2006. Operating statistics in the tables exclude the effects of offshore platform and international management contracts, and do not include reimbursements of out-of-pocket expenses in revenue, expense and margin per day calculations. Per day calculations for international operations also exclude gains and losses from translation of foreign currency transactions. Segment operating income is described in detail in Note 14 to the financial statements.

U.S. LAND segment operating income in the first nine months of fiscal 2007 increased to \$342.8 million from \$247.6 million in the first nine months of fiscal 2006.

Revenues were \$842.6 million in the first nine months of fiscal 2007, compared with \$581.3 million in the same period of fiscal 2006. Included in land revenues for the nine months ended June 30, 2007 and June 30, 2006 are reimbursements for out-of-pocket expenses of \$40.5 million and \$31.5 million, respectively. The \$95.2 million increase in segment operating income was primarily the result of higher land rig margins and increased activity days.

Land rig revenue days for the first nine months of 2007 were 34,075 compared with 24,837 for the same period of 2006, with an average of 124.9 and 91.0 rigs working during the first nine months of fiscal 2007 and 2006, respectively. The increase in rig days and average rigs working is attributable to 36 new rigs entering the fleet in fiscal 2007.

## MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION

## AND RESULTS OF OPERATIONS

June 30, 2007

U.S. OFFSHORE operating revenues, direct operating expenses and segment operating income decreased due to lower activity. Included in offshore revenues for the nine months ended June 30, 2007 and June 30, 2006 are reimbursements for out-of-pocket expenses of \$10.2 and \$9.9 million, respectively. Segment operating income decreased to \$10.9 million in the first nine months of fiscal 2007 from \$20.1 million in the first nine months of fiscal 2006. Rig days were 1,656 and 2,071 for the first nine months of fiscal 2007 and 2006, respectively. The decrease in days is due to two rigs working less in fiscal 2007 than fiscal 2006.

At June 30, 2007, the Company has five of its nine platform rigs working, three waiting on location and one rig stacked. Subsequent to June 30, 2007, one of the working rigs was stacked.

INTERNATIONAL DRILLING segment operating income in the first nine months of fiscal 2007 was \$77.7 million, compared to \$40.1 million in the same period of 2006. The increase in segment operating income is primarily the result of increased rig activity and higher dayrates. Segment operating income also benefited from a new FlexRig being added to the international fleet at the end of fiscal 2006, increasing the number of international rigs to twenty-seven. Rig utilization for International operations averaged 93 percent for the first nine months of fiscal 2007, compared with 88 percent for the first nine months of fiscal 2006. An average of 25.1 rigs worked during the first nine months of fiscal 2007, compared to 23.8 rigs in the first nine months of fiscal 2006. International revenues were \$249.3 million and \$179.2 million in the first nine months of fiscal 2007 and 2006, respectively. The overall increase in margins per day was primarily the result of dayrate increases in several foreign markets with the most significant increase occurring in Venezuela. Included in International revenues for the nine months ended June 30, 2007 and 2006 are reimbursements for out-of-pocket expenses of \$32.5 million and \$18.5 million, respectively.

Direct operating expenses for the first nine months of fiscal 2007 were up 24 percent from the first nine months of fiscal 2006 due to increased activity days and inflationary pressures in the oil service sector.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION

AND RESULTS OF OPERATIONS

June 30, 2007

**OTHER**

General and administrative expenses decreased to \$35.5 million in the first nine months of fiscal 2007 from \$38.9 million in the first nine months of fiscal 2006. The \$3.4 million decrease is primarily due to recording, in fiscal 2006, \$2.9 million of stock-based compensation expense due to the Company accelerating the vesting of share options held by a senior executive that retired. Additionally, in fiscal 2007, pension expense decreased approximately \$3.7 million from fiscal 2006. The Pension Plan was frozen and benefit accruals were discontinued effective September 30, 2006, thus reducing the service cost of the Plan. This decrease is partially offset by increases in employee labor, benefits and operating costs associated with the number of employees increasing in fiscal 2007.

Interest and dividend income decreased to \$3.2 million in the first nine months of fiscal 2007, compared to \$7.6 million in the same period of fiscal 2006. The \$4.4 million decrease is attributable to a reduction in short-term investments that were used at maturity to meet the capital needs associated with the FlexRig construction.

Interest expense was \$6.1 million and \$5.8 million for the nine months ended June 30, 2007 and 2006, respectively. Interest expense is primarily attributable to the \$200 million long-term debt in both periods and advances on the senior credit facility in fiscal 2007. The increase in interest expense is due to an increase in interest expense for advances on the senior credit facility in fiscal 2007. This increase is partially offset by an increase in capitalized interest of \$3.5 million to \$7.2 million compared to \$3.7 million in fiscal 2006 related to the Company's rig construction program.

Income from the sale of investment securities was \$51.8 million, \$31.8 million after-tax (\$0.30 per diluted share) in the first nine months of fiscal 2007. In the first nine months of fiscal 2006, income from the sale of investment securities was \$12.1 million, \$7.5 million after-tax (\$0.07 per diluted share). The gain in both periods was from the sale of available-for-sale investments.

Income from asset sales increased to \$39.0 million in the first nine months of fiscal 2007, compared to \$6.4 million in the same period of fiscal 2006. The increase of \$32.6 million is primarily due to the sale of two domestic offshore rigs and one domestic land rig in 2007 compared to the sale of one domestic land rig in 2006.

In fiscal 2007, the Company recorded income of \$11.1 million from involuntary conversion of long-lived assets that sustained significant damage as a result of hurricane Katrina in 2005.

**LIQUIDITY AND CAPITAL RESOURCES**

Cash and cash equivalent balances increased to \$70.6 million at June 30, 2007 from \$33.9 million at September 30, 2006. Contributing to the increase in cash and cash equivalents were: net cash provided by operating activities of \$385.4 million, proceeds from the sale of investment securities of \$112.9 million, proceeds from the sale of assets and insurance proceeds totaling \$56.6 million, increase in long-term debt of \$205.0 million, and cash received from the exercise of stock options and the excess tax benefit from stock-based compensation of \$4.5 million. The decreases include capital expenditures of \$681.1 million, repurchase of common stock of \$17.6 million, a reduction in bank overdraft of \$11.3 million, payments made on short-term notes payable of \$3.7 million and dividends paid of \$14.0 million.

## MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION

## AND RESULTS OF OPERATIONS

June 30, 2007

The Company's contract drilling backlog, consisting of executed contracts with original terms in excess of one year, as of July 1, 2007 and October 31, 2006 was \$1.868 billion and \$2.116 billion, respectively. Approximately 91 percent of the July 1, 2007 backlog is not reasonably expected to be filled in fiscal 2007. Term contracts customarily provide for termination at the election of the customer with an early termination payment to be paid to the Company if a contract is terminated prior to the expiration of the fixed term. However, under certain limited circumstances, such as destruction of a drilling rig, bankruptcy, sustained unacceptable performance by the Company, or delivery of a rig beyond certain grace and/or liquidated damage periods, no early termination payment would be paid to the Company. In addition, a significant amount of the backlog represents term contracts for new rigs that will be constructed in the future. The Company obtains certain key rig components from a single or limited number of vendors or fabricators. Certain of these vendors or fabricators are thinly capitalized independent companies located on the Texas Gulf Coast. Therefore, disruptions in rig component deliveries may occur. Accordingly, the actual amount of revenue earned may vary from the backlog reported. See Fixed Term Contract Risk, Limited Number of Vendors, Thinly Capitalized Vendors and Operating and Weather Risks under Item 1A. Risk Factors of the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission on December 13, 2006.

The following table sets forth the total backlog by reportable segment as of July 1, 2007 and October 31, 2006, and the percentage of the July 1, 2007 backlog not reasonably expected to be filled in fiscal 2007:

Reportable Segment	Total Backlog 07/01/2007 (in billions)	10/31/2006	Percentage Not Reasonably Expected to be Filled in Fiscal 2007
Land	\$ 1.735	\$ 1.949	91.0%
Offshore	.078	.078	96.7%
International	.055	.089	73.4%
	\$ 1.868	\$ 2.116	

During the nine months ended June 30, 2007, the Company committed to build 11 new FlexRigs. These 11, along with the 66 rigs announced in fiscal 2005 and 2006 brings the Company's commitment to 77 new FlexRigs. The drilling services are performed on a daywork contract basis. Through June 30, 2007, 64 rigs were completed for delivery, and 60 of the 64 rigs began field operations by June 30, 2007. The remaining rigs are expected to be completed by the end of the second quarter of fiscal 2008.

During fiscal 2006, labor and equipment shortages resulted in construction delays and increased costs compared to initial schedules and original cost estimates. Delivery schedules of the new rigs were pushed back to such a degree that late-delivery contractual liquidated damage payments were incurred and are expected to be incurred for most of the remaining rigs. However, the incurred and projected liquidated damage payments had, and are expected to have, an immaterial impact on revenues and margins. During the nine months ended June 30, 2007, 40 rigs were completed for delivery. The Company expects to maintain a delivery of three to four rigs per month to the field during fiscal 2007.

Capital expenditures were \$681.1 million and \$322.6 million for the first nine months of fiscal 2007 and 2006, respectively. Capital expenditures increased from 2006 primarily due to the Company's current construction program of new FlexRigs.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION  
AND RESULTS OF OPERATIONS

June 30, 2007

The Company anticipates capital expenditures to total approximately \$890 million for fiscal 2007. Additional new build contracts and equipment purchases have increased the previous estimate of \$750 million. The Company's operating cash requirements and estimated capital expenditures, including rig construction, for fiscal 2007 will be funded through current cash, cash provided from operating activities, funds available under the credit facilities and, if needed, sales of available-for-sale securities.

The Company's indebtedness totaled \$405 million at June 30, 2007, as described in Note 11 to the Consolidated Condensed Financial Statements.

There were no other significant changes in the Company's financial position since September 30, 2006.
