**Item 2.05 Costs Associated with Exit or Disposal Activities**

On September 30, 2008, NeuroMetrix, Inc. (the Company) approved a plan for the proposed closure of its facility in Columbia, Maryland and discontinuance of sales of DigiScopes and DigiScope related services. This decision was made as part of the Company's ongoing focus on cost-efficiencies in all areas of its business, and its refocused efforts towards its core business, which is the sale of the ADVANCE System and support for its existing NC-stat System customers. The Company plans to cease operations at the Maryland facility and cease business activities relating to its DigiScope product by the end of the fourth quarter of 2008. The Company currently estimates the restructuring, exit costs and other charges to be approximately \$5.2 million to \$5.5 million, of which approximately \$500,000 to \$700,000 is expected to be cash. The following are the major categories of costs expected to be incurred: (1) severance charges and retention costs of approximately \$100,000, (2) fixed asset impairment of approximately \$2.3 million to \$2.4 million, (3) facility lease costs after operations cease of approximately \$200,000 to \$300,000, (4) approximately \$2.4 million in impairment charges related to the write-down of intangible assets and (5) approximately \$200,000 to \$300,000 of other asset write-downs and exit costs. The Company currently expects to record approximately \$4.8 million to \$5.1 million of charges relating to this closure in the third quarter of 2008, of which approximately \$2.3 million to \$2.4 million relates to the impairment of fixed assets and approximately \$2.4 million relates to the impairment of intangible assets. The Company currently expects to record severance charges of approximately \$100,000 related to this closure in the fourth quarter of 2008. The remaining charges are currently expected to be substantially incurred over the subsequent twelve months period. The Company aims to realize approximately \$1.0 million to \$1.3 million in potential annual cost savings from the closure of the Maryland facility and discontinuance of sales of DigiScopes and DigiScope related services.
