SHAREHOLDER LETTER

March 31, 2009

To Our Shareholders:

- During the 12 months ended March 31, 2009, the Clough Global Allocation Fund's (the Fund) total return, assuming reinvestment of all distributions, was -32.20% based on net asset value and -37.50% based on the market price of the stock. That compares with a -38.09% return for the S&P 500 for the same period.
- Since the Fund's inception on July 28, 2004, the total growth in net asset value assuming reinvestment of all distributions has been 5.85%, this compares to a cumulative total return of -20.35% for the S&P 500 through March 31, 2009.
- The Fund's compound annual return since inception is 1.22% compared to -4.75% for the S&P 500 through March 31, 2009.
- Total distributions since inception have been \$9.07, and based on the current dividend rate of \$0.26 per share, offer a yield of 9.53% on market price as of April 22, 2009, of \$10.91.

The financial markets over the past twelve months have suffered a contraction of liquidity that affected all investment asset classes. Today we think that positive equity returns in 2009 would be possible if the portfolio were properly focused. The indices may make little net progress over the year, but credit should begin to expand in certain industries and global fiscal stimulus will take root. Moreover, in a world characterized by an overwhelming shortage of yield, we believe the few profitable themes that emerge could work extremely well. Most of our efforts are centered on finding companies that offer exposure to an emerging or recovering demand cycle while generating attractive free cash flow yields. Our investments are focused on:

(1) High-quality corporate bonds currently offer attractive yields and fortunately we believe we have the analytical resources to find solid opportunities in that market. We have invested from about 11-20% among the Funds in investment grade corporate bonds. These markets remain relatively illiquid, which is one reason values have emerged. Wall Street firms no longer have balance sheet capacity with which to inventory bonds, so building a diversified portfolio is a cumbersome process. Fiduciaries will be actively seeking yield, though building these portfolios will prove difficult for most large institutional investors and we believe our smaller size gives us an advantage. We expect quality corporate bond yields to be arbitrated down closer to Treasury yields, and bond prices should rise providing attractive total return opportunities.

(2) A sustainable boom in Chinese domestic consumer demand powered by strong productivity gains and a secular decline in China's unnecessarily high savings rates. China is one place in which we not only see few signs of a bubble, but enormous pent up demand in an unleveraged consumer sector. Moreover, most of our Chinese company holdings are listed in Hong Kong. The Hong Kong currency peg to the U.S. dollar forces the central bank to mimic the U.S. Federal Reserve in expanding liquidity. That should also serve as a catalyst to higher equities values.

www.cloughglobal.com

(3) Global crude oil producers and deep water drilling technologies. We have written at length in previous communications on our positive view of this sector. Our opinion has not changed although positive secular supply/demand constraints are temporarily masked by the decline in oil demand due to the global recession.

(4) Industrial or technology companies that currently face weak demand, but generate positive cash flow even at depressed operating levels. Profits for these companies would be leveraged to an even modest demand recovery and many have large cash holdings. Fund holding Cisco Systems currently holds 35% of its market capitalization in cash, for example.

(5) Brazilian financials and consumer companies which should benefit as a credit cycle reaccelerates in that economy in response to the Brazilian Central Bank's moves to lower interest rates.

Apart from these themes, however, we have identified a number of emerging opportunities which allow us to further diversify the Fund. The economic headlines may continue to be bad, but after a near 60% decline in equities and a decade of negative returns we have begun to increase our equity exposure. Our eyes are wide open and we are aware the economy will be deleveraging for some time, but not only has the 2008 equity price collapse presented us with selected equities which are priced at deep value levels, but some of them we think offer a strong secular or recovery growth profile. We highlight three areas of investment below:

(1) Auto Parts. While excess capacity and leverage will likely leave the economy's services sector in a long term state of low profitability, this should not be the case in some manufacturing sectors. In our view, the rate of inventory liquidation is unsustainable in some industries and we are near an inflection point where even stable demand will require higher production rates. We seldom gravitate to hyperbole but the auto parts supply industry is in a state of collapse and the survivors could offer a once in a generation price opportunity. Many auto parts suppliers have de minimis market capitalizations, current sales levels are well below replacement demand, and inventories are rapidly being drawn down. Substantial capacity will be taken out as companies disappear. Many of them could not make money when auto sales were twice the current level, and their bonds are several levels below investment grade. Now they are near bankruptcy and those bankruptcies will have the desired effect of reducing excess capacity and rendering the survivors a more profitable future.

Earlier this decade, we saw how a collapse in capacity restored pricing and profitability in the global steel industry. Today, great names like BorgWarner and Goodyear (neither currently held) trade 50-60% off their highs, will likely perform better in a more rational marketplace, and face a great deal of pent up demand.

(2) 3G wireless penetration. Smartphones are rapidly proliferating and the power behind 3G is becoming a present reality. According to Merrill Lynch, as of April 2, 2009, Carrier competition, emerging market demand and the emergence of mobile data service should cause subscribers to grow more than 20% annually and the number of handsets

Edgar Filing: Clough Global Allocation Fund - Form N-CSR

to triple over the next four to five years. In emerging economies, 3G mobile broad-band may be the sole source of Internet access. After much delay, China is issuing 3G licenses to a number of carriers. Qualcomm, a chip supplier which collects royalties on every 3G handset, and Nokia, a cash rich handset provider, are the major Fund holdings in the sector and we are actively seeking others.

(3) Rebuilding the electric grid. We continue to search for investments which are exposed to the rebuilding of the nation's electric transmission system. Not only is it outmoded and prone to breakdowns (a colorful article in the recent edition of Wired magazine covers this issue), but investment in green energy plants will be in locations that are not serviced by sufficient transmission capacity, and will require totally new delivery systems. General Cable, with a \$950 billion market capitalization, and Quanta Services, with a \$4.4 billion market capitalization, both Fund holdings, are direct beneficiaries of both types of spending.

Others have commented about the deflationary economy we live in and the various government response programs that have been designed to resuscitate demand. The reality is that the private economy may remain depressed but so are interest rates and the cost of capital for legitimate needs. Therein lies the opportunity, we think, and we are optimistic about the likelihood we can build net asset value in coming quarters. We are always conscious of our downside, attempt to be careful in our use of leverage, and remain flexible.

We attempt to communicate regularly with our shareholders and update investment commentary on a regular basis on our website, www.cloughglobal.com. We thank you for your interest in the Clough Global Allocation Fund. If you have any questions about your investment, please call 1-877-256-8445.

Sincerely,

Charles I. Clough, Jr.

Clough Capital Partners, L.P. is a Boston-based investment management firm that has approximately \$2.2 billion under management. For equities, the firm uses a global and theme-based investment approach based on identifying chronic shortages and growth opportunities. For fixed-income, Clough believes changing economic fundamentals help reveal potential global credit market opportunities based primarily on flow of capital into or out of a country. Clough was founded in 2000 by Chuck Clough and partners James Canty and Eric Brock. These three are the portfolio managers for the Clough Global Allocation Fund.

Forward-looking statements are based on information that is available on the date hereof, and neither the fund manager nor any other person affiliated with the fund manager has any duty to update any forward-looking statements. Important factors that could affect actual results to differ from these statements include, among other factors, material, negative changes to the asset class and the actual composition of the portfolio

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

March 31, 2009

To the Shareholders and Board of

Trustees of Clough Global Allocation Fund:

We have audited the accompanying statement of assets and liabilities of Clough Global Allocation Fund, (the Fund), including the statement of investments, as of March 31, 2009, and the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for the periods presented. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of March 31, 2009, by correspondence with the custodian and brokers. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Clough Global Allocation Fund as of March 31, 2009, the results of its operations and cash flows for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for the periods presented, in conformity with accounting principles generally accepted in the United States of America.

^ As approved by the Board of Trustees of the Fund, the fiscal year-end changed from May 31 to March 31, effective March 15, 2006.

* Based on average shares outstanding

(1) Total investment return is calculated assuming a purchase of a common share at the opening on the first day and a sale at closing on the last day of each period reported. Total investment return on net asset value excludes a sales load of \$0.90 per share for the period, effectively reducing the net asset value at issuance from \$20.00 to \$19.10. Dividends and distributions, if any, are assumed for purposes of this calculation to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Total investment returns do not reflect brokerage commissions on the purchase or sale of the Fund's common shares. Total investment returns for less than a full year are not annualized. Past performance is not a guarantee of future results.

(2) Ratios do not reflect dividend payments to preferred shareholders.

(3) Annualized.

(4) All series of AMPS issued by the Fund were fully redeemed, at par value, on May 22, 2008.

(5) Calculated by subtracting the Fund's total liabilities (excluding Preferred Shares) from the Fund's total assets and dividing by the number of preferred shares outstanding.

(6) Based on monthly prices.

NOTES TO FINANCIAL STATEMENTS

March 31, 2009

1. SIGNIFICANT ACCOUNTING AND OPERATING POLICIES

Clough Global Allocation Fund (the Fund) is a closed-end management investment company that was organized under the laws of the state of Delaware by an Amended Agreement and Declaration of Trust dated April 27, 2004. The Fund is a non-diversified series with an investment objective to provide a high level of total return. The Declaration of Trust provides that the Trustees may authorize separate classes of shares of beneficial interest.

Security Valuation: The net asset value per share of the Fund is determined no less frequently than daily, on each day that the New York Stock Exchange (the Exchange) is open for trading, as of the close of regular trading on the Exchange (normally 4:00 p.m. New York time). Trading may take place in foreign issues held by the Fund at times when the Fund is not open for business. As a result, the Fund's net asset value may change at times when it is not possible to purchase or sell shares of the Fund. Securities held by the Fund for which exchange quotations are readily available are valued at the last sale price, or if no sale price or if traded on the over-the-counter market, at the mean of the bid and asked prices on such day. Debt securities for which the over-the-counter market is the primary market are normally valued on the basis of prices furnished by one or more pricing services at the mean between the latest available bid and asked prices. As authorized by the Trustees, debt securities (other than short-term obligations) may be valued on the basis of valuations furnished by a pricing service which determines valuations based upon market transactions for normal, institutional-size trading units of securities. Short-term obligations maturing within 60 days are valued at amortized cost, which approximates value, unless the Trustees determine that under particular circumstances such method does not result in fair value. Over-the-counter options are valued at the mean between bid and asked prices provided by dealers. Financial futures contracts listed on commodity exchanges and exchange-traded options are valued at closing settlement prices. Securities for which there is no such quotation or valuation and all other assets are valued at fair value in good faith by or at the direction of the Trustees.

Foreign Securities: The Fund may invest a portion of its assets in foreign securities. In the event that the Fund executes a foreign security transaction, the Fund will generally enter into a forward foreign currency contract to settle the foreign security transaction. Foreign securities may carry more risk than U.S. securities, such as political, market and currency risks.

The accounting records of the Fund are maintained in U.S. dollars. Prices of securities denominated in foreign currencies are translated into U.S. dollars at the closing rates of exchange at period end. Amounts related to the purchase and sale of foreign securities and investment income are translated at the rates of exchange prevailing on the respective dates of such transactions.

The effect of changes in foreign currency exchange rates on investments is included with the fluctuations arising from changes in market values of securities held and reported with all other foreign currency gains and losses in the Fund's Statement of Operations.

A foreign currency contract is a commitment to purchase or sell a foreign currency at a future date, at a negotiated rate. The Fund may enter into foreign currency contracts to settle specific purchases or sales of securities denominated in a foreign currency and for protection from adverse

Edgar Filing: Clough Global Allocation Fund - Form N-CSR

exchange rate fluctuation. Risks to the Fund include the potential inability of the counterparty to meet the terms of the contract.

The net U.S. dollar value of foreign currency underlying all contractual commitments held by the Fund and the resulting unrealized appreciation or depreciation are determined using prevailing forward foreign currency exchange rates. Unrealized appreciation and

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

March 31, 2009

depreciation on foreign currency contracts are reported in the Fund's Statement of Assets and Liabilities as a receivable or a payable and in the Fund's Statement of Operations with the change in unrealized appreciation or depreciation. There were no outstanding foreign currency contracts for the Fund as of March 31, 2009.

The Fund may realize a gain or loss upon the closing or settlement of the foreign transaction. Such realized gains and losses are reported with all other foreign currency gains and losses in the Statement of Operations.

Fair Valuation: If the price of a security is unavailable in accordance with the Fund's pricing procedures, or the price of a security is suspect, e.g., due to the occurrence of a significant event, the security may be valued at its fair value determined pursuant to procedures adopted by the Board of Trustees. For this purpose, fair value is the price that the Fund reasonably expects to receive on a current sale of the security. Due to the number of variables affecting the price of a security, however; it is possible that the fair value of a security may not accurately reflect the price that the Fund could actually receive on a sale of the security. As of March 31, 2009, securities which have been fair valued represented 0.17% of the Fund's net assets.

The Fund adopted the provisions of Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157 (FAS 157), Fair Value Measurements, on April 1, 2008. FAS 157 established a three-tier hierarchy to establish classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability that are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability that are developed based on the best information available.

Various inputs are used in determining the value of each Fund's investments as of the reporting period end. These inputs are categorized in the following hierarchy under applicable financial accounting standards:

Level 1 Quoted prices in active markets for identical investments

Level 2 Significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 Significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

Edgar Filing: Clough Global Allocation Fund - Form N-CSR

The following is a summary of the inputs used to value the Fund's investments as of March 31, 2009.

Valuation Inputs	Investments in Securities at Value		Other Financial Instruments* at Value	
Level 1 - Quoted Prices	\$	143,312,202	\$	(19,145,854)
Level 2 - Other Significant Observable Inputs		31,916,494		(147,690)
Level 3 - Significant Unobservable Inputs				
Total	\$	175,228,696	\$	(19,293,544)

* Other financial instruments include written options and securities sold short.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

March 31, 2009

The following is a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value:

	Investments in Securities	
Balance as of 3/31/08	\$	562,500
Realized gain/(loss)		(487,500)
Change in unrealized appreciation/(depreciation)		
Net purchases/(sales)		(75,000)
Transfers in and/or out of level 3		
Balance as of 3/31/09	\$	

Options: The Fund may purchase or write (sell) put and call options. One of the risks associated with purchasing an option among others, is that the Fund pays a premium whether or not the option is exercised. Additionally, the Fund bears the risk of loss of premium and change in market value should the counterparty not perform under the contract. Put and call options purchased are accounted for in the same manner as portfolio securities. The cost of securities acquired through the exercise of call options is increased by premiums paid. The proceeds from securities sold through the exercise of put options are decreased by the premiums paid.

When the Fund writes an option, an amount equal to the premium received by the Fund is recorded as a liability and is subsequently adjusted to the current value of the option written. Premiums received from writing options that expire unexercised are treated by the Fund on the expiration date as realized gains from investments. The difference between the premium and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or, if the premium is less than the amount paid for the closing purchase transaction, as a realized loss. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security or currency in determining whether the Fund has realized a gain or loss. If a put option is exercised, the premium reduces the cost basis of the securities purchased by the Fund. The Fund, as writer of an option, bears the market risk of an unfavorable change in the price of the security underlying the written option. Written and purchased options are non-income producing securities.

Written option activity for the year ended March 31, 2009 was as follows:

Written Call Options	Contracts	Premiums

Short Sales: The Fund may sell a security it does not own in anticipation of a decline in the fair value of that security. When the Fund sells a security short, it must borrow the security sold short and deliver it to the broker-dealer through which it made the short sale. A gain, limited to the price at which the Fund sold the security short, or a loss, unlimited in size, will be recognized upon the termination of the short sale.

Income Taxes: The Fund's policy is to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.

FASB Interpretation No. 48 (FIN 48) Accounting for Uncertainty in Income Taxes, requires that the financial statement effects of a tax position taken or expected to be taken in a tax return be recognized in the financial statements when it is more likely than not, based on the technical merits, that the position will be sustained upon examination. Management has concluded that the Fund has taken no uncertain tax positions that require adjustment to the financial statements to comply with the provisions of FIN 48. The Fund files income tax returns in the U.S. federal jurisdiction and Colorado. The statute of limitations on the Fund's federal and state tax filings remains open for the fiscal years ended March 31, 2009, March 31, 2008, March 31, 2007, and March 31, 2006.

Distributions to Shareholders: The Fund intends to make a level dividend distribution each quarter to Common Shareholders after payment of interest on any outstanding borrowings or dividends on any outstanding preferred shares. The level dividend rate may be modified by the Board of Trustees from time to time. Any net capital gains earned by the Fund are distributed at least annually to the extent necessary to avoid federal income and excise taxes. Distributions to shareholders are recorded by the Fund on the ex-dividend date. The Fund has applied to the Securities and Exchange Commission for an exemption from Section 19(b) of the Investment Company Act of 1940, as amended, (the 1940 Act) and Rule 19b-1 thereunder permitting the Fund to make periodic distributions of long-term capital gains, provided that the distribution policy of the Fund with respect to its Common Shares calls for periodic (e.g., quarterly/monthly) distributions in an amount equal to a fixed percentage of the Fund's average net asset value over a specified period of time or market price per common share at or about the time of distribution or pay-out of a level dollar amount.

Securities Transactions and Investment Income: Investment security transactions are accounted for as of trade date. Dividend income is recorded on the ex-dividend date. Certain dividend income from foreign securities will be recorded as soon as the Fund is informed of the dividend if such information is obtained subsequent to the ex-dividend date and may be subject to withholding taxes in these jurisdictions. Interest income, which includes amortization of premium and accretion of discount, is accrued as earned. Realized gains and losses from securities transactions and unrealized appreciation and depreciation of securities are determined using the highest cost basis for both financial reporting and income tax purposes.

Use of Estimates: The Fund's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America. This requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from these estimates.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

March 31, 2009

Recent Accounting Pronouncements: In March 2008 the FASB issued FASB Statement No. 161, Disclosures about Derivative Instruments and Hedging Activities (SFAS No. 161), which is intended to improve financial reporting about derivative instruments and hedging activities. It is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. The Fund is currently evaluating the potential impact, if any, the adoption of SFAS No. 161 will have on the Fund's financial statements.

2. TAXES

Classification of Distributions: Net investment income (loss) and net realized gain (loss) may differ for financial statement and tax purposes. The character of distributions made during the year from net investment income or net realized gains may differ from its ultimate characterization for federal income tax purposes.

The tax character of the distributions paid by the Fund during the periods ended March 31, 2009 and March 31, 2008 were as follows:

	2009	2008
Distributions paid from:		
Ordinary Income	\$ 9,051,757	\$ 22,299,706
Long-Term Capital Gain	3,193,929	8,395,762
Return of Capital	4,576,993	
Total	\$ 16,822,679	\$ 30,695,468

Components of Earnings: Tax components of distributable earnings are determined in accordance with income tax regulations which may differ from composition of net assets reported under accounting principles generally accepted in the United States. Accordingly, for the period ended March 31, 2009, certain differences were reclassified. The Fund decreased accumulated net investment loss by \$6,091,321, decreased accumulated net realized gain by \$(6,091,395) and decreased paid in capital by \$74. These differences were primarily due to the differing tax treatment of foreign currency and certain other investments and the tax treatment of distributions.

At March 31, 2009, the Fund had available for tax purposes unused capital loss carryovers of \$10,763,701, expiring March 31, 2017.

As of March 31, 2009, the components of distributable earnings on a tax basis were as follows:

Edgar Filing: Clough Global Allocation Fund - Form N-CSR

Undistributed net investment income	\$	
Accumulated net realized gain		(26,386,565)
Unrealized appreciation		(31,774,775)
Other Cumulative Effect of Timing Differences		336,477
Total	\$	(57,824,863)

Net unrealized appreciation/depreciation of investments based on federal tax cost as of March 31, 2009, were as follows:

Gross appreciation (excess of value over tax cost)	\$	7,189,065
Gross depreciation (excess of tax cost over value)		(38,963,840)
Net appreciation (excess of value over tax cost) of foreign currency and derivatives		
Net unrealized depreciation	\$	(31,774,775)
Cost of investments for income tax purposes	\$	208,812,223

Post October Loss: Under current tax law, capital and currency losses realized after October 31 may be deferred and treated as occurring on the first day of the following fiscal

year. For the fiscal year ended March 31, 2009, the Fund elected to defer capital losses occurring between November 1, 2008 and March 31, 2009 in the amount of \$15,622,864.

3. CAPITAL TRANSACTIONS

Common Shares: There are an unlimited number of no par value common shares of beneficial interest authorized. Of the 10,434,606 common shares outstanding on March 31, 2009, ALPS Fund services (ALPS) owned 5,236 shares.

Transactions in common shares were as follows:

	For the Year Ended March 31, 2009	For the Year Ended March 31, 2008
Common shares outstanding - beginning of period	10,434,606	10,434,606
Common shares issued as reinvestment of dividends		
Common shares outstanding - end of period	10,434,606	10,434,606

Preferred Shares: In April 2008 the Fund announced its intent to redeem all outstanding shares of its Auction Market Preferred Shares (AMPS). Proper notice was sent to AMPS holders on or before May 22, 2008, and all outstanding AMPS issued by the Fund were redeemed at par, in their entirety, pursuant to their terms.

The Fund obtained alternative financing to provide new funding in order to redeem the AMPS and provide up to 33% leverage to the Fund going forward. The Fund's Board of Trustees approved the refinancing in April 2008. See Note 6 Leverage, for further information on the borrowing facility used by the Fund during the year ended, and as of, March 31, 2009.

4. PORTFOLIO SECURITIES

Purchases and sales of investment securities, other than short-term securities, for the year ended March 31, 2009 aggregated \$590,178,337 and \$624,362,547 respectively. Purchases and sales of U.S. government and agency securities, other than short-term securities, for the year ended March 31, 2009 aggregated \$55,688,510 and \$60,356,118, respectively.

5. INVESTMENT ADVISORY AND ADMINISTRATION AGREEMENTS

Clough Capital Partners L.P. (Clough) serves as the Fund's investment adviser pursuant to an Investment Advisory Agreement with the Fund. As compensation for its services to the Fund, Clough receives an annual investment advisory fee of 0.70% based on the Fund's average daily total assets, computed daily and payable monthly. ALPS serves as the Fund's administrator pursuant to an Administration, Bookkeeping and Pricing Services Agreement with the Fund. As compensation for its services to the Fund, ALPS receives an annual administration fee of 0.285% based on the Fund's average daily total assets, computed daily and payable monthly. ALPS will pay all expenses incurred by the Fund, with the exception of advisory fees, trustees' fees, portfolio transaction expenses, litigation expenses, taxes, cost of preferred shares, expenses of conducting repurchase offers for the purpose of repurchasing Fund shares, and extraordinary expenses.

Both Clough and ALPS are considered to be affiliates of the Fund as defined in the 1940 Act.

6. LEVERAGE

In January 2009 the Fund entered into a Committed Facility Agreement (the Agreement) with BNP Paribas Prime Brokerage, Inc. (BNP) that allows the Fund to borrow up to an initial limit of \$60,200,000 (the Initial Limit). Subsequent to the date of this report, the Fund and BNP amended the Agreement to increase the borrowing limit to \$71,200,000, subject to the applicable asset coverage requirement of Section 18 of the 1940 Act. Borrowings under the Agreement are secured by assets of the Fund. Interest is charged at the three month LIBOR (London Inter-bank Offered Rate) plus 1.10% on the amount borrowed and 1.00% on the undrawn balance. The Fund also pays a one time Arrangement fee of 0.25% on (i) the Initial Limit and (ii) the increased borrowing amount in the excess of the Initial Limit, paid in monthly installments for the six months immediately following the date on which borrowings were drawn by the Fund. The Arrangement fee paid for the year ended March 31, 2009 totaled \$75,250 and is included in Other expenses in the Statement of Operations. For the year ended March 31, 2009, the average amount borrowed under the agreement and the average interest rate for the amount borrowed were \$60,006,154 and 2.35% respectively. As of March 31, 2009, the amount of such outstanding borrowings is \$60,200,000. The interest rate applicable to the borrowings on March 31, 2009 was 2.29%.

In addition, BNP has the ability to reregister the collateral in its own name or in another name other than the Fund to pledge, re-pledge, sell, lend or otherwise transfer or use the collateral (Hypothecated Securities) with all attendant rights of ownership. The Fund can recall any Hypothecated Securities upon demand and without condition and BNP is obligated to return such security or equivalent security to the Fund the lesser of five days or the standard market settlement time in the principal market in which the Hypothecated Securities are traded after such request. If the Fund recalls a Hypothecated Security in connection with a sales transaction and BNP fails to return the Hypothecated Securities or equivalent securities in a timely fashion, BNP shall remain liable to the Fund's custodian for the ultimate delivery of such Hypothecated Securities or equivalent securities to the executing broker for the sales transaction and for any buy-in costs that the executing broker may impose with respect to the failure to deliver. If Hypothecated Securities are not returned by BNP to the Fund by the deadline to exercise a corporate action (conversion, sub-division, consolidation, etc.) with respect to such Hypothecated Securities, the Fund can request, and BNP shall, to the extent commercially reasonable under the circumstances, return equivalent securities in such form that will arise if the right had been exercised. The Fund shall also have the right to apply and set off an amount equal to one hundred percent (100%) of the then-current fair market value of such Hypothecated Securities against any amounts owed to BNP under the Agreement. The Fund may, with 30 days notice, reduce the Maximum Commitment Financing (Initial Limit amount plus the increased borrowing amount in excess of the Initial Limit) to a lesser amount if drawing on the full amount would result in a violation of the applicable asset coverage requirement of Section 18 of the 1940 Act.

Prior to entering into the Arrangement, as described above, in May 2008 the Fund had entered into an overnight collateralized lending facility (the Overnight Facility). The Fund used the Overnight Facility to fully redeem the AMPS (as discussed in Note 3) and to keep the Fund leveraged near an anticipated level of 33% of total assets. For the year ended March 31, 2009, the average amount borrowed under the overnight facility and the

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

March 31, 2009

average interest rate for the amount borrowed were \$82,762,951 and 2.12% respectively. As of March 31, 2009, the amount of such outstanding borrowings is \$0.

The Board of Trustees has approved both of these financing arrangements.

The interest incurred on borrowed amounts is recorded as Interest on Loan in the Statement of Operations, a part of Total Expenses. Total Expenses are used to calculate some of the ratios shown in the Financial Highlights. This differs from the way the dividends paid on the AMPS were recorded in prior years as those amounts were excluded from Total Expenses on the Statement of Operations. This change in presentation, based on accounting principles generally accepted in the U.S., can cause the ratio of expenses to average net assets (as shown in the Financial Highlights) to increase compared to prior fiscal years. This is a reflection of how the information is presented on the financial statements, rather than a true increase in the cost of leverage (financing vs. the AMPS now redeemed).

7. OTHER

The Independent Trustees of the Fund receive a quarterly retainer of \$3,500 and an additional \$1,500 for each meeting attended. The Chairman of the Board of Trustees receives a quarterly retainer of \$4,200 and an additional \$1,800 for each meeting attended. The Chairman of the Audit Committee receives a quarterly retainer of \$3,850 and an additional \$1,650 for each meeting attended.

DIVIDEND REINVESTMENT PLAN

March 31, 2009 (Unaudited)

Unless the registered owner of Common Shares elects to receive cash by contacting The Bank of New York Mellon (the Plan Administrator or BNY Mellon), all dividends declared on Common Shares will be automatically reinvested by the Plan Administrator for shareholders in the Fund's Dividend Reinvestment Plan (the Plan), in additional Common Shares. Shareholders who elect not to participate in the Plan will receive all dividends and other distributions in cash paid by check mailed directly to the shareholder of record (or, if the Common Shares are held in street or other nominee name, then to such nominee) by BNY Mellon as dividend disbursing agent. You may elect not to participate in the Plan and to receive all dividends in cash by contacting BNY Mellon, as dividend disbursing agent, at the address set forth below. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by notice if received and processed by the Plan Administrator prior to the dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared dividend or other distribution. Some brokers may automatically elect to receive cash on your behalf and may re-invest that cash in additional Common Shares for you. If you wish for all dividends declared on your Common Shares to be automatically reinvested pursuant to the Plan, please contact your broker.

The Plan Administrator will open an account for each Common Shareholder under the Plan in the same name in which such Common Shareholder's Common Shares are registered. Whenever the Fund declares a dividend or other distribution (together, a Dividend) payable in cash, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in Common Shares. The Common Shares will be acquired by the Plan Administrator for the participants' accounts, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized Common Shares from the Fund (Newly Issued Common Shares) or (ii) by purchase of outstanding Common Shares on the open market (Open-Market Purchases) on the American Stock Exchange or elsewhere. If, on the payment date for any Dividend, the closing market price plus estimated brokerage commissions per Common Share is equal to or greater than the net asset value per Common Share, the Plan Administrator will invest the Dividend amount in Newly Issued Common Shares on behalf of the participants. The number of Newly Issued Common Shares to be credited to each participant's account will be determined by dividing the dollar amount of the Dividend by the net asset value per Common Share on the payment date; provided that, if the net asset value is less than or equal to 95% of the closing market value on the payment date, the dollar amount of the Dividend will be divided by 95% of the closing market price per Common Share on the payment date. If, on the payment date for any Dividend, the net asset value per Common Share is greater than the closing market value plus estimated brokerage commissions, the Plan Administrator will invest the Dividend amount in Common Shares acquired on behalf of the participants in Open-Market Purchases. In the event of a market discount on the payment date for any Dividend, the Plan Administrator will have until the last business day before the next date on which the Common Shares trade on an ex-dividend basis or 30 days after the payment date for such Dividend, whichever is sooner (the Last Purchase Date), to invest the Dividend amount in Common Shares acquired in Open-Market Purchases. If, before the Plan Administrator has completed its Open-Market Purchases, the market price per Common Share exceeds the net asset value per Common Share, the average per Common Share purchase price paid by the Plan Administrator may exceed the net asset value of the Common Shares, resulting in the acquisition of fewer Common Shares than if the Dividend had been paid in Newly Issued Common Shares on the Dividend payment date. Because of the foregoing difficulty with respect to Open-Market Purchases, the Plan

provides that if the Plan Administrator is unable to invest the full Dividend amount in Open-Market Purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Administrator may cease making Open-Market Purchases and may invest the uninvested portion of the Dividend amount in Newly Issued Common Shares at the net asset value per Common Share at the close of business on the Last Purchase Date provided that, if the net asset value is less than or equal to 95% of the then current market price per Common Share; the dollar amount of the Dividend will be divided by 95% of the market price on the payment date.

The Plan Administrator maintains all shareholders' accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by shareholders for tax records. Common Shares in the account of each Plan participant will be held by the Plan Administrator on behalf of the Plan participant, and each shareholder proxy will include those shares purchased or received pursuant to the Plan. The Plan Administrator will forward all proxy solicitation materials to participants and vote proxies for shares held under the Plan in accordance with the instructions of the participants. In the case of Common Shareholders such as banks, brokers or nominees which hold shares for others who are the beneficial owners, the Plan Administrator will administer the Plan on the basis of the number of Common Shares certified from time to time by the record shareholder's name and held for the account of beneficial owners who participate in the Plan.

There will be no brokerage charges with respect to Common Shares issued directly by the Fund. However, each participant will pay a pro rata share of brokerage commissions incurred in connection with Open-Market Purchases. The automatic reinvestment of Dividends will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such Dividends. Participants that request a sale of Common Shares through the Plan Administrator are subject to brokerage commissions. The Fund reserves the right to amend or terminate the Plan. There is no direct service charge to participants with regard to purchases in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants.

All correspondence or questions concerning the Plan should be directed to the Plan Administrator, The Bank of New York Mellon, 101 Barclay Street, New York, New York 10286, 11E, Transfer Agent Services, (800) 433-8191.

Item 6. **Schedule of Investments.**

Schedule of Investments is included as part of the Report to Stockholders filed under Item 1 of this form.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

Attached, as Exhibit Item 7, is a copy of the registrant's policies and procedures.

Item 8. Portfolio Managers of Closed-End Management Investment Companies.

(a)(1) As of: March 31, 2009

Portfolio Managers Name	Title	Length of Service	Business Experience: 5 Years
Charles I. Clough, Jr.	Partner and Portfolio Manager	Since Inception	Founding Partner Clough Capital Partners LP. Portfolio Manager for pooled investment accounts, separately managed accounts, and investment companies for over nine years.
Eric A. Brock	Partner and Portfolio Manager	Since Inception	Founding Partner Clough Capital Partners LP. Portfolio Manager for pooled investment accounts, separately managed accounts, and investment companies for over nine years.
James E. Canty	Partner and Portfolio Manager	Since Inception	Founding Partner of Clough Capital LP. Portfolio Manager, Chief Financial Officer and General Counsel for pooled investment accounts, separately managed accounts, and investment companies for over nine years. Mr. Canty is currently a member of the Board of Directors of Clough Offshore Fund, Ltd and Board of Trustees of Clough Global Equity Fund and Clough Global Opportunities Fund. Because of his affiliation with Clough, Mr. Canty is an interested Trustee of the Fund.

(a)(2) As of March 31, 2009, the Portfolio Managers listed above are also responsible for the day-to-day management of the following:

Edgar Filing: Clough Global Allocation Fund - Form N-CSR

Portfolio Managers Name	Registered Investment Companies	Other Pooled Investment Vehicles (1)	Other Accounts(2)	Material Conflicts If Any
Charles I Clough, Jr.	3 Accounts \$1,533.0 million Total Assets	4 Accounts \$327.6 million Total Assets	2 Accounts \$164.0 million Total Assets	See below (3)
Eric A. Brock	3 Accounts \$1,533.0 million Total Assets	4 Accounts \$327.6 million Total Assets	2 Accounts \$164.0 million Total Assets	See below (3)
James E. Canty	3 Accounts \$1,533.0 million Total Assets	4 Accounts \$327.6 million Total Assets	2 Accounts \$164.0 million Total Assets	See below (3)

(1) The advisory fees are based in part on the performance for each accounts.

(2) The advisory fee is based in part on the performance for one account totaling \$159.9 million in assets.

(3) Material Conflicts:

Material conflicts of interest may arise as a result of the fact that the Portfolio Managers also have day-to-day management responsibilities with respect to both the Fund and the various accounts listed above (collectively with the Fund, the Accounts). These potential conflicts include:

Limited Resources. The Portfolio Managers cannot devote their full time and attention to the management of each of the Accounts. Accordingly, the Portfolio Managers may be limited in their ability to identify investment opportunities for each of the Accounts that are as attractive as might be the case if the Portfolio Managers were to devote substantially more attention to the management of a single Account. The effects of this potential conflict may be more pronounced where the Accounts have different investment strategies.

Limited Investment Opportunities. If the Portfolio Managers identify a limited investment opportunity that may be appropriate for more than one Account, the investment opportunity may be allocated among several Accounts. This could limit any single Account's ability to take full advantage of an investment opportunity that might not be limited if the Portfolio Managers did not provide investment advice to other Accounts.

Different Investment Strategies. The Accounts managed by the Portfolio Managers have differing investment strategies. If the Portfolio Managers determine that an investment opportunity may be appropriate for only some of the Accounts or decide that certain of the Accounts should take different positions with respect to a particular security, the Portfolio Managers may effect transactions for one or more Accounts which may affect the market

Edgar Filing: Clough Global Allocation Fund - Form N-CSR

price of the security or the execution of the transaction, or both, to the detriment or benefit of one or more other Accounts.

Variation in Compensation. A conflict of interest may arise where Clough or Clough Associates, LLC, as applicable, is compensated differently by the Accounts that are managed by the Portfolio Managers. If certain Accounts pay higher management fees or performance-based incentive fees, the Portfolio Managers might be motivated to prefer certain Accounts over others. The Portfolio Managers might also be motivated to favor Accounts in which they have a greater ownership interest or Accounts that are more likely to enhance the Portfolio Managers' performance record or to otherwise benefit the Portfolio Managers.

Selection of Brokers. The Portfolio Managers select the brokers that execute securities transactions for the Accounts that they supervise. In addition to executing trades, some brokers provide the Portfolio Managers with research and other services which may require the payment of higher brokerage fees than might otherwise be available. The Portfolio Managers' decision as to the selection of brokers could yield disproportionate costs and benefits among the Accounts that they manage, since the research and other services provided by brokers may be more beneficial to some Accounts than to others.

(a)(3) Portfolio Manager Compensation as of March 31, 2009.

The Portfolio Managers each receive a fixed base salary from Clough. The base salary for each Portfolio Manager is typically determined based on market factors and the skill and experience of each Portfolio Manager. Additionally, Clough distributes its annual net profits to the three Portfolio Managers, with Mr. Clough receiving a majority share and the remainder being divided evenly between Mr. Brock and Mr. Canty.

(a)(4) Dollar Range of Securities Owned as of March 31, 2009.

Portfolio Managers	Dollar Range of the Registrant's Securities Owned by the Portfolio Managers
Charles I. Clough, Jr.	\$100,001 - \$500,000
Eric A. Brock	\$10,001 - \$50,000
James E. Canty	\$10,001 - \$50,000

Item 9. Purchases of Equity Securities by Closed-End Management Investment Companies and Affiliated Purchasers.

None

Item 10. Submission of Matters to Vote of Security Holders.

Edgar Filing: Clough Global Allocation Fund - Form N-CSR

On March 11, 2009, the Board of Trustees (Board) of the Registrant adopted amended and restated bylaws of the Registrant (the Bylaws) that designate revised procedures by which stockholders may submit proposals to the Registrant s Board.

Edgar Filing: Clough Global Allocation Fund - Form N-CSR

Provided in the text below is a summary of changes approved by the Board; (i) a shareholder proposal to the Fund, including nominees to the Board (Shareholder Proposals), shall be required to be received no earlier than the 150th day and not later than the 120th day prior to the first anniversary of the Registrant's proxy statement for the preceding year's annual meeting, (ii) in the case of a special meeting of shareholders all Shareholder Proposals must be given by the 10th day following the day on which the notice of the special meeting date was given or public disclosure of the date of special meeting was made, (iii) any shareholder wishing to bring a Shareholder Proposal at a special or annual shareholder meeting shall also be required to provide; (a) representation as to his/her eligibility to vote at the said shareholder meeting, (b) to the extent such shareholder and/or nominee has entered into any financial transaction impacting the common shares, to include but not limited to hedging or otherwise managing profit, loss, or risk of change in the value of the common stock and (c) any shareholder nominee proposal must provide such information as is needed to ensure the Registrant's compliance with Regulation 14A under the Securities Exchange Act of 1934, as amended and (iv) a special meeting may only be called by (a) majority vote of the Board of Trustees, (b) the Chairman or (c) the President of the Registrant.

Item 11. Controls and Procedures.

(a) The registrant's principal executive officer and principal financial officer have concluded that the Registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended) are effective based on their evaluation of these controls and procedures as of a date within 90 days of the filing date of this document.

(b) There was no change in the Registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940, as amended) during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Item 12. Exhibits.

(a)(1) The Code of Ethics that applies to the registrant's principal executive officer and principal financial officer is attached hereto as Exhibit 12.A.1.

(a)(2) The certifications required by Rule 30a-2(a) of the Investment Company Act of 1940, as amended, and Section 302 of the Sarbanes-Oxley Act of 2002 are attached hereto as Ex-99.Cert.

(a)(3) Not applicable.

Edgar Filing: Clough Global Allocation Fund - Form N-CSR

(b) A certification for the Registrant's Principal Executive Officer and Principal Financial Officer, as required by Rule 30a-2(b) of the Investment Company Act of 1940, as amended, and Section 906 of the Sarbanes-Oxley Act of 2002 are attached hereto as Ex-99.906Cert.

(c) The Proxy Voting Policies and Procedures is attached hereto as Ex99. Item 7.
