Management Report

Introduction

Portugal Telecom, SGPS, S.A. (Portugal Telecom or Company) and its subsidiaries, jointly controlled entities and associated companies which represent its corporate Group (Portugal Telecom Group or Group), operate primarily in the telecommunications sector, in Portugal, Brasil and several other countries in Africa and Asia. The Group disposed of its former investment in Vivo in September 2010, and concluded the acquisition of the investments in Oi and Contax in March 2011. The consolidated annual report of the Company provides a detailed explanation of its consolidated activity and the evolution of its businesses for the year ended 31 December 2011 and, as such, we propose to the shareholders the analysis of that report in conjunction with this report.

Business overview

Apart from management of investments, the Company did not conduct any other business activity.

Legal Information

- There are no outstanding amounts overdue to the Portuguese State and the Portuguese Social Security System.
- The Company with the members of its Board of Directors and Audit Committee did not enter into any material businesses or transactions, except for those mentioned in Note 48 of the 2011 Consolidated Annual Report.

Proposal for application of profits

Considering that:

- A) Net profit for the year ended 31 December 2011 amounted to Euro 342,259,821;

Edgar Filing: PORTUGAL TELECOM SGPS SA - Form 6-K

B) On 3 November 2010, the Board of Directors of Portugal Telecom approved a new shareholder remuneration policy which include, namely, the payment of an ordinary dividend of Euro 0.65 per share for the fiscal year ended 31 December 2011, representing an increase of 13% in relation to the Company's initial commitment of Euro 0.575 per share for the same period (subject to approval by the General Shareholder's Meeting);

C) Also in line with that shareholder remuneration policy, the Board of Directors of Portugal Telecom deliberated, in December 2011, to proceed with an advance over 2011 profits amounting to Euro 192,750,187.50, although the total amount paid to shareholders on 4 January 2012 was Euro 184,799,868.

Table of Contents

The Board of Directors proposes that:

1. Considering the net income for the year amounting to Euro 342,259,821 and the amount of Euro 184,799,868 already paid as an advance over 2011 profits, increased by Euro 232,522,984.50 included in the caption of retained earnings, we propose that, in addition to the advance over 2011 profits deliberated in December 2011, a total of Euro 389,982,937.50 be paid to shareholders, corresponding to Euro 0.435 per share, in respect of the total number of issued shares;

2. Therefore, taking into account the amount corresponding to the advance over 2011 profits deliberated in December 2011 and paid on January 2012, the total amount to be distributed to the shareholders shall amount to Euro 582,733,125, corresponding to a dividend of Euro 0.65 per share;

3. Taking into account the proposal as set out in item 7 on the agenda of the Shareholders Meeting, it will not be possible to accurately determine the number of own shares that will be in treasury on the date of the abovementioned payment without limiting the Company's intervention ability, we propose that, in the distribution of the overall sum of Euro 389,982,937.50, as provided for in the foregoing paragraphs, calculated on the basis of an unit amount per issued share (in this case, Euro 0.435 per share), the following be observed:
 - a) Each issued share shall be paid the unit amount of Euro 0.435;

 - b) The amount corresponding to the shares that, on the payment day of the abovementioned amount, belong to the Company itself (calculated on the said unit amount of Euro 0.435 per issued share) shall not be paid and shall be transferred to retained earnings;

4. That, considering the right to the abovementioned payment pertaining to the shares resulting from the exercise of the right to conversion of convertible bonds issued:
 - a) Each share entitled to dividend resulting from the conversion of convertible bonds shall be paid the said unit amount of Euro 0.435;

 - b) The payment to each share resulting from the conversion of convertible bonds shall be made by using retained earnings.

Notes to the Standalone Financial Statements

As at 31 December 2011

(Amounts in Euro)

1. Introduction

Portugal Telecom, SGPS, S.A. (Portugal Telecom or Company) and its subsidiaries, jointly controlled entities and associated companies (Note 8), which represent its corporate Group (Portugal Telecom Group or Group), operate primarily in the telecommunications sector, in Portugal, Brasil and several other countries in Africa and Asia. The corporate purpose of the Company is the management of investments.

As a result of the five privatization processes between 1 June 1995 and 4 December 2000, Portugal Telecom's share capital is held mainly by private shareholders. The shares of Portugal Telecom are listed on the Euronext and on the *NYSE - New York Stock Exchange*.

On 26 July 2011, Portugal Telecom's General Meeting of Shareholders approved an amendment to the Company's Bylaws, eliminating the special rights granted to the 500 Class A shares (the so-called golden share).

In September 2010, the Group disposed of its 50% interest in Brasilcel, the joint venture that controlled Vivo.

On 27 January 2011, Portugal Telecom concluded the disposal to a third party of the 28.78% stake previously held by the Group in UOL, including the 21.95% (Note 7) and 6.83% stakes held respectively by Portugal Telecom and by another Group company as at 31 December 2010. This transaction was concluded for a total cash consideration of 356 million Brazilian Reais, equivalent to 10.3 Brazilian Reais per share.

On 28 March 2011, Portugal Telecom concluded the acquisition process of the investments in Oi and Contax and the agreements with the controlling shareholders of these companies, for a total cash consideration of R\$8,437 million. As a result of this operation, Portugal Telecom acquired an economic interest of 25.3% in Oi and 14.1% in Contax. Under the terms of this acquisition, Portugal Telecom shares the power to govern the strategic financial and operating policies of these companies, and as such these investments are classified as jointly controlled entities, under the terms of IAS 31 Interest in Joint Ventures. Consequently, as permitted by this standard, the entities acquired are

proportionally consolidated in the consolidated financial statements of Portugal Telecom, while in these standalone financial statements they are recognized by the equity method of accounting. Oi Group is the leading provider of telecommunication services in the Brazilian market and the largest fixed telecommunications

Table of Contents

operator in South America in terms of active clients. Contax is one of the leading corporate services company and the leader in contact centre services in Brazil.

The transaction mentioned above was completed following the Memorandum of Understanding entered into, on 28 July 2010, by Portugal Telecom with Andrade Gutierrez Participações, S.A. (AG) and LF Tel, S.A. (LF), two of the main shareholders of Telemar Participações, which sets the principles for the development of a strategic partnership between Portugal Telecom and Oi Group. The purpose of the strategic partnership between Portugal Telecom and Oi is to develop a global telecommunications platform that will allow for cooperation in diverse areas, with a view to, among other things, sharing best practices, achieving economies of scale, implementing research and development initiatives, developing new technologies, expanding internationally, particularly in Latin America and Africa, diversifying the services provided to customers, maximizing synergies and reducing costs, and seeking to offer constant high quality services to our corporate and individual customers, while creating and adding value for our shareholders.

Under the strategic partnership between Portugal Telecom and Oi, it is envisaged that, amongst other purposes, Oi would acquire up to 10% of the outstanding shares of Portugal Telecom. Up to 31 December 2011, Oi acquired 64,557,566 shares of Portugal Telecom, representing 7.2% of share capital. Portugal Telecom's share in this investment was classified as treasury shares in its Balance Sheet and amounted to Euro 148 million as at 31 December 2011 (Note 14.2).

These financial statements, which relate to the Company on a standalone basis, were prepared in accordance with accounting principles generally accepted in Portugal (Note 2), and, as such, the financial investments were accounted for under the equity method, as explained in Note 3.4. The Company prepared and presented separately its consolidated financial statements, which include the financial statements of the companies controlled by Portugal Telecom. In these standalone financial statements, the shareholders' equity as at 31 December 2011 and the net income for the year then ended include the effect of the consolidation of the shareholders' equity and net income of Portugal Telecom's affiliated companies, based on their respective financial statements, but do not include the effect of the fully or proportionally consolidation of their assets, liabilities, costs and revenues.

2. Basis of presentation

These financial statements were prepared based on Decree-law n.º 158/2009, dated 13 July, and in accordance with the conceptual structure, Accounting and Reporting Standards (NCRF) and Interpretative Standards, as approved by Notices n.º 15652/2009, 15655/2009 and 15653/2009 of the General-Secretary of the Ministry of Finance, dated 27 August 2009, which make up the New Portuguese accounting system, named Sistema de Normalização Contabilística (SNC).

Table of Contents

The Company adopted NCRF for the first time in 2010 and applied for this purpose the *NCRF 3 Adoption For The First Time of NCRF* (NCRF 3), with the transition date being 1 January 2009 for the purposes of the presentation of these financial statements. As permitted by Decree-Law n°. 158/2009, the Company also applies the International Financial Reporting Standards (IAS/IFRS) and related interpretations (SIC/IFRIC) issued by the International Accounting Standards Board (IASB), in order to fill in the gaps or omissions in SNC regarding specific situations of certain transactions.

The consolidated financial statements of Portugal Telecom are prepared, since 1 January 2005, in accordance with IFRS as adopted by the European Union, which are applicable to the listed companies in the European Union. Therefore, the shareholders' equity as at 31 December 2011 and 2010 and the net income for the years then ended that are included in the consolidated financial statements of Portugal Telecom differ from the amounts presented in these standalone financial statements. The reconciliation of the shareholders' equity as at 31 December 2011 and net income for the year then ended, attributable to the Company's shareholders, between the standalone (under NCRF) and the consolidated financial statements (under IFRS), is as follows:

Reconciliation between NCRF and IFRS	(Euro million)	
	Net income	Shareholders equity
In accordance with NCRF	342	2,729
Direct costs with business combinations (IFRS 3)	(12)	(36)
Amortization of goodwill and licences (IAS 36 and 38)	(7)	143
Subsidies for investments (IAS 20)		(8)
Disposal of UOL	16	
In accordance with IFRS	339	2,828

3. Main accounting policies, judgments and estimates

These standalone financial statements were prepared on a going concern basis of accounting. The main accounting policies used in the preparation of these standalone financial statements are described below and were applied consistently.

3.1. Tangible fixed assets

Tangible fixed assets are stated at acquisition cost, which includes the amount paid to acquire the asset and any expenses directly attributable to bring the asset to the location and condition necessary for their operation.

Table of Contents

Tangible fixed assets are depreciated on a straight-line basis from the month they are available for use, during its expected use life. The depreciation rates reflect the useful life of each class of assets, as follows:

Asset class	Years of useful life
Transportation equipment	4
Administrative equipment	3 - 8
Other tangible fixed assets	4 - 8

The gains and losses resulting from any write-off or disposal are determined by the difference between the amount received and the carrying value of the asset, and are recognized in the income statement.

3.2. Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. The remaining lease contracts are considered operating leases. The classification of leases depends on the substance of the transaction and not on the form of the contract.

Assets acquired under finance leases and the corresponding liabilities are accounted for at the beginning of the contract as the lower amount between the fair value of the assets and the present value of minimum lease payments. Rents include the reimbursement of the liability and interest expense, with interest being recognized in the income statement based on a periodic interest rate over the remaining liability.

Under operating leases, rents are recognized on a straight-line basis during the period of the lease.

3.3. Business combinations and goodwill

Acquisitions of subsidiaries are accounted for based on the purchase method. On the acquisition date, the purchase price includes the following components: (a) the fair value of assets acquired; (b) the fair value of liabilities incurred; (c) the fair value of equity instruments issued by the Company in exchange for the control of the subsidiary; and (d) expenses directly attributable to the acquisition. When applicable, the purchase price includes the effect of contingent payments agreed upon under the terms of the transaction, with subsequent changes in those payments being recorded as an adjustment to goodwill.

Any excess of the acquisition cost over the fair value of net assets acquired and contingent liabilities of the acquired company, at the date of acquisition, is recorded as goodwill, in accordance with *NCRF 14 Business Combinations* (NCRF 14). If the acquisition cost is lower

Table of Contents

than the fair value of identifiable net assets, the difference is recorded as a gain in the net income. As provided for in NCRF 3, the Company applies NCRF 14 only to acquisitions occurred after 1 January 2009.

Goodwill resulting from the acquisition of subsidiaries is included in the balance sheet under the caption "Goodwill", while goodwill resulting from the acquisition of associated companies is included under the caption "Financial investments - equity method of accounting", together with the financial investments in those entities, as part of the value assigned to the financial investment.

Goodwill is not amortized, but tested for impairment losses on an annual basis or whenever there is evidence of a potential loss of value. For impairment test purposes, goodwill is allocated to cash generating units. Any impairment loss is recognised in the income statement of the period, and cannot be reversed in a subsequent period.

3.4. Financial investments

Subsidiaries are those entities over which the Company has the power to govern the financial and operating policies of the entity, generally represented by the majority of the voting rights. Associated companies are entities over which the Company has a significant influence but not control, generally represented by stakes between 20% and 50% of voting rights.

Financial investments in subsidiaries and associated companies are recorded under the equity method of accounting. Under this method, financial investments are initially recorded at acquisition cost and subsequently adjusted for the changes, after the acquisition date, in the Company's share in the net assets of those entities. Portugal Telecom's earnings include its share in the earnings of its subsidiaries and associated companies.

Financial investments in foreign entities are translated to Euros using the exchange rates prevailing at the balance sheet date, while the Company's share in the earnings of those entities is computed based on the average exchange rates for the reported period. The effect of translation differences is recognised in shareholders' equity under the caption "Adjustments to financial assets", and is transferred to net income upon the disposal of a foreign entity or the realization of the investment through another way. The exchange rates used in the translation of the main foreign entities (held directly or indirectly by Portugal Telecom) are as follows:

Currency	2011		2010	
	Closing balance	Average	Closing balance	Average
American dollar	1.2939	1.392	1.3362	1.3259
Brazilian Real	2.4159	2.3265	2.2177	2.3315

Financial investments are evaluated whenever there is evidence they may be impaired and the related impairment losses are recorded in the income statement.

Table of Contents

Gains obtained in transactions with subsidiaries and associated companies are eliminated proportionally to the Company's share in those entities, against a reduction in the financial investment.

Capital gains resulting from the disposal of subsidiaries and associated companies within the Group are deferred or reversed until the date these investments are disposed of to a third party. Whenever these gains are deferred, their recognition in earnings is made under the caption Equity in earnings/(losses) of affiliated companies, on the same proportion that goodwill recorded by the acquirer is recognized in earnings.

Additional capital contributions and loans granted to subsidiaries and associated companies are recorded at nominal value, reduced by adjustments for estimated losses, if applicable.

3.5. Accruals and deferrals

The Company records its revenue and expenses as they are generated or incurred, regardless of when they are received or paid, respectively.

3.6. Income taxes

Income tax expense corresponds to the sum of current and deferred taxes. Deferred taxes are recognized in earnings except when they relate to items recorded directly in shareholders' equity, in which case they are also recorded in shareholders' equity.

Portugal Telecom adopted the special taxation regime for Groups of companies, as defined in Section 69 of the Corporate Income Tax Code (IRC), which applies to all companies in which it holds, directly or indirectly, at least 90% of the share capital and that, simultaneously, are located in Portugal and are subject to corporate income tax. Any gain generated by the Group as a result of the adoption of this regime, resulting from tax losses of the companies included in the tax consolidation, is recorded in earnings under the caption Equity in earnings/(losses) of affiliated companies (Note 19). The companies which are not under this regime are subject to corporate income tax on a standalone basis, based on the respective taxable profits and tax rates.

The current income tax is computed based on the estimated taxable income for corporate income tax purposes, based on the statutory tax rate in Portugal, which is increased through a municipal tax and/or through an additional state surcharge depending on the collectible profit of the year (Note 10). The Company applies the municipal tax to consolidated taxable income, in accordance with Portuguese tax legislation, and applies the state surcharge to the standalone taxable income of each of the companies included in the Portugal Telecom's tax consolidation.

The income tax expense recorded in the financial statements was determined in accordance with *NCRF 25 Income Taxes*. In determining income tax expense for the year, besides the

Table of Contents

current tax based on profit before-tax adjusted in accordance with the tax legislation, it is also considered the effects of temporary differences between income before tax and taxable income originated in the year or in preceding years.

Deferred taxes correspond to the temporary differences between assets and liabilities for accounting purposes and the related amounts for taxable purposes. Deferred tax assets and liabilities are computed and evaluated annually, using the tax rates which are expected to be in force at the date of reversal of these temporary differences.

Deferred tax assets are recorded only when there is a reasonable expectation of sufficient future tax profits which allow for their use. As at the balance sheet date the Company conducts a reassessment of the temporary differences originating deferred tax assets, in order to record deferred tax assets not recognized previously and/or to reduce the amount of deferred tax assets that are recognized, based on the current estimate of its recoverable amount.

3.7. Accounts receivable

Accounts receivable are initially recognized at fair value, and subsequently measured at amortized cost, based on the effective interest rate method, deducted from impairment losses.

Impairment losses for doubtful accounts receivable are computed based on the evaluation of the estimated risks resulting from the non-collection of receivables. Impairment losses are recorded in the income statement.

3.8. Non-current assets held for sale

Non-current assets and disposal groups are classified as held for sale if their carrying amount will be recovered primarily through a sale transaction rather than through continuing use. This condition is regarded as met, only when the subject transaction is highly probable and the asset or group of assets is available for immediate sale in its present condition. The sale should be completed within one year as from the date the asset was classified as held for sale.

Non-current assets classified as held for sale are measured at the lower of the assets' previous carrying amount or the fair value less costs to sell.

3.9. Provisions and contingent liabilities

Edgar Filing: PORTUGAL TELECOM SGPS SA - Form 6-K

The Company recognizes provisions when there is a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where any of the above mentioned criteria is not accomplished, the Company discloses the event as a contingent liability, unless the cash outflow is remote.

Table of Contents

Provisions are recognized for an amount corresponding to the present value of the best estimate, at the reporting date, of the resources needed to settle the obligation. That estimate is determined considering the risks and uncertainties associated with the obligation. Provisions are reviewed at the end of each year and adjusted for in order to reflect the best estimate as of that date.

3.10. Loans obtained

Loans obtained are initially recognized at fair value, net of transaction costs incurred, and subsequently presented at amortized cost, based on the effective interest method.

Exchangeable bonds issued by Portugal Telecom are recognized as compound instruments, comprising the following two components: (i) the present value of the debt, estimated through the prevailing market interest rate for similar non-convertible debt, which is recorded as a financial liability; and (ii) the fair value of the embedded option for the holder to convert the bond into equity, which is recorded directly in shareholders equity. As of the balance sheet date, the debt component is recognized at amortized cost and the shareholders equity component is recognized at the initial value.

3.11. Treasury shares

Equity swap contracts on own shares that include an option exercisable by Portugal Telecom for physical settlement are recognised as a financial liability and a corresponding reduction of shareholders equity, and are accounted for as an acquisition of treasury shares on the inception date of the contract.

Portugal Telecom s shares acquired by its subsidiaries are recognized in the Balance Sheet as treasury shares at the acquisition cost, based on the Portugal Telecom s effective interest in those entities.

3.12. Balance sheet classification

Realizable assets and liabilities due over a period greater than one year from the balance sheet date are classified under non-current assets and non-current liabilities, respectively, at present value.

3.13. Foreign currency transactions and balances

Edgar Filing: PORTUGAL TELECOM SGPS SA - Form 6-K

Transactions denominated in foreign currencies (different from the Company's domestic currency) are translated to Euros at the exchange rates prevailing at the time the transactions

Table of Contents

are made. Assets and liabilities in foreign currency for which there is no agreement for fixing an exchange rate are translated to Euros using the exchange rates prevailing at the balance sheet date. Favourable or unfavourable exchange rate differences arising from the differences between exchange rates in force at the date of the respective transactions and those applying on the date of collection or payment or at the balance sheet date are recorded as gains and losses in the income statement.

Assets and liabilities as at 31 December 2011 and 2010 were translated into Euros using the following exchange rates to the Euro reported by the Portuguese Central Bank:

Currency	2011	2010
American dollar	1.2939	1.3362
Brazilian Real	2.4159	2.2177

3.14. Financial assets and liabilities

Financial assets and liabilities are recognized in the balance sheet when the Company becomes part of the corresponding contractual terms, and are classified in the following categories: (a) at cost or amortized cost; and (b) at fair value, with the respective changes being recorded in the income statement.

(a) Financial assets and liabilities at cost or amortized cost

Assets and liabilities are classified at cost or amortized cost if they: (a) have a defined maturity; (b) have a fixed or determined income; and (c) don't represent or include a derivative financial instrument.

Assets and liabilities classified in this category are measured at amortized cost reduced by accumulated impairment losses (for financial assets) and correspond primarily to the following asset and liability captions included in the Company's balance sheet:

- Loans included under the caption Financial investments - equity method of accounting
- Loans obtained
- Balances with Group companies

- Suppliers
- Accrued expenses
- Advances to suppliers
- State and other public entities
- Other accounts receivable and payable
- Other financial assets and liabilities
- Cash and bank deposits

Table of Contents

Amortized cost is determined through the effective interest method. The effective interest rate is the one that discounts the estimated future payments and receipts, during the term of the financial instrument, to the carrying value of the financial asset or liability.

(b) Financial assets and liabilities at fair value

All the remaining financial assets and liabilities not included in the category `cost or amortized cost` are recognized at fair value. These financial assets and liabilities correspond primarily to interest and exchange rate derivative financial instruments.

The changes in the fair value of these derivatives are recognized through shareholders' equity or profit and loss, depending on whether those derivatives meet or not the criteria for hedge accounting, respectively. These changes in fair value are recorded under the caption

Increases/(reductions) in fair value (Note 22).

(c) Impairments on financial assets

Financial assets included under the caption `cost or amortized cost` are subject to impairment tests by the end of each year. Such assets are impaired when there is clear evidence that, as a result of one or more events occurred after its initial recognition, their future estimated cash flows will be affected.

For assets measured at amortized cost, the impairment loss corresponds to the difference between the carrying amount of the asset and the present value of the revised future estimated cash flows discounted using the initial effective interest rate. For financial assets measured at cost, the impairment loss corresponds to the difference between the carrying amount of the asset and the best estimated of the asset's fair value.

Subsequently, if there is a reduction in the impairment loss as a result of an event occurred after the initial recognition of the loss, the impairment should be reversed through earnings. The reversal is recognized up to the limit of the amount that would be recorded (at amortized cost) if the loss had not been initially recognized.

Impairment losses and related reversals are recorded in earnings primarily under the caption `Impairment of accounts receivable ((losses)/reversals)`.

(d) Derecognition of financial assets and liabilities

The Company derecognizes financial assets when its contractual rights to obtain the asset's cash flows expire, or when it transfers to another entity all the significant risks and rewards associated with the ownership of those assets. The Company derecognizes financial liabilities only when the corresponding obligation is settled, cancelled or expires.

3.15. Main accounting estimates and judgements

To prepare the standalone financial statements under NCRF, the Company's management uses estimates and assumptions that have an effect in the application of accounting policies and in

Table of Contents

the amounts reported. Estimates and judgments are continually evaluated and are based on historical experience and other factors including expectations of future events that are believed to be reasonable under the circumstances on which the estimate was based, or as a result of new information or more experience. The main accounting estimates reflected in the financial statements relate to the impairment tests of financial instruments and the evaluation of the fair value of financial instruments.

The Company tests annually its financial investments for impairment, whenever they present evidence of impairment, including severe decline in the operations activity of the affiliated company. Under this analysis, the Company determines the recoverable amounts of the financial investments. The recoverable amounts of investment are determined based on value-in-use calculations. The use of this method requires the estimate of future cash flows expected to arise from the continuing operation for each of the subsidiaries, the choice of a growth rate to extrapolate cash flow projections and the estimate of a suitable discount rate for each cash generating unit.

Estimates used are based on the best information available during the preparation of financial statements, although future events, neither controlled nor foreseeable by the Company, could occur and have an impact on those estimates. In accordance with *NCRF 4 Accounting Policies, Changes in Estimates and Errors* (*NCRF 4*), changes to these estimates that occur after the date of the financial statements are recognized in net income, using a prospective methodology.

3.16. Events occurred after the balance sheet date

Events occurred after the balance sheet date that provide additional information about conditions existing at the balance sheet date are reflected in the financial statements. Events occurred after the balance sheet date that provide information about conditions that occur after the balance sheet date are not reflected in the financial statements, but are disclosed in the notes to the financial statements, if material.

4. Cash flows

The caption "Cash and cash equivalents" of the statement of cash flows includes cash on hand and bank deposits readily convertible to a known amount of cash.

The Company is exposed to a liquidity risk if its sources of funding, including cash balances, operating cash inflows, divestments, credit lines and cash flows obtained from financing operations, do not match its financing needs, such as operating and financing outflows, investments, shareholder remuneration and debt repayments. Based on the cash flows generated by investing activities, mainly from dividends and interest received from affiliated companies, and on the available cash and cash equivalents plus undrawn committed standby

Table of Contents

facilities and underwritten commercial paper agreements, as detailed below, the Company believes that it will be able to meet its obligations.

Considering the centralized cash management system implemented by the Company in 2006 for its operations in Portugal, under which the companies that are included in this system can finance its cash requirements through Portugal Telecom, the Company manages the liquidity risk of its Group operations in Portugal. In order to reduce this risk, Portugal Telecom seeks to maintain a liquidity position and an average maturity of debt that allows the repayment of short-term loans obtained and, simultaneously, the payment of all contractual obligations, as mentioned above. As at 31 December 2011, the amount of available cash, from Group operations in Portugal, plus the undrawn amount of underwritten commercial paper lines (cash immediately available upon a 2 or 3-day notice) and committed standby facilities amounted to Euro 5,095 million, while average maturity of net debt was 3.5 years.

The capital structure of Portugal Telecom is managed in order to ensure that its businesses will be able to continue as a going concern and the maximizing of the return to shareholders. The capital structure of the Group includes loans obtained, cash and cash equivalents and equity attributable to equity holders of the parent, comprising issued capital, treasury shares, reserves and accumulated earnings. Portugal Telecom reviews periodically its capital structure considering the risks associated with each of the above mentioned classes of its capital structure.

The cash flow statement was prepared in accordance with NCRF 2 Statement of Cash Flows, with the following aspects being worth mentioning:

(a) Cash receipts relating to income taxes

e) **Other movements**

In the year ended 31 December 2011, other movements occurred in the caption Investments in subsidiary companies, totalling Euro 131,171,345, include the following net effects:

- An amount of Euro 148,311,037 corresponding to the Company's share in the investment made by Oi for the acquisition of 64,557,566 Portugal Telecom's shares, which was deducted from the financial investment in Oi, which is reflected in the Company's Balance Sheet indirectly through the investment in PT Portugal, and recognized as treasury shares (Note 14.2);
- An amount of Euro 20,646,929 (Note 14.6), corresponding to the portion of dividends paid by Portugal Telecom related to the shares held by Oi that are classified in the Company's Balance Sheet as treasury shares, since the payment of those dividends resulted in a reduction of the caption Cash and bank deposits and an increase in the financial investment in Oi as a result of the dividends received by this entity;
- An amount of Euro 3,512,719 (Note 14.6) corresponding to the portion of dividends attributed by Portugal Telecom in December 2011 related to the shares held by Oi; and
- An amount of Euro 7,019,956 corresponding to the income tax paid by Oi on dividends received from Portugal Telecom, which was recognized directly in shareholders' equity.

In the year ended 31 December 2010, other movements in investments in subsidiaries and associated companies relate to the disposal of a 35.65% stake in PT Prime Tradecom, following which Portugal Telecom's interest decreased to 33.33% and, accordingly, this entity became an associate company instead of a subsidiary. In 2010, other movements occurred in goodwill related to associated companies, in the amount of Euro 4,918,181 (Note 14.5), correspond to the impact of foreign currency translation adjustments on goodwill related to the acquisition of the investment in UOL, which was disposed of in January 2011, as mentioned above.

f) **Non-current assets held for sale**

Non-current assets held for sale in the year ended 31 December 2010, amounting to a net value of Euro 131,839,636, relate to the total investment in UOL, and were reclassified to an independent caption in current assets following an offer received in December 2010 for the disposal of the 28.78% stake held by the Group in UOL, for a total amount of 356 million Brazilian Real. Consequently, the investment in UOL as at 31 December 2010 was adjusted to its recoverable amount, corresponding to the amount to be obtained with this sale, and was classified as a non-current asset held for sale.

Table of Contents

The disposal of the 28.78% stake in UOL, including the 21.95% and 6.83% stakes held as at 31 December 2010 by Portugal Telecom and PT Brasil, respectively, was completed in January 2011. As a result of these operations:

- The Group received a total amount of Euro 155,549,986, having Portugal Telecom received Euro 119,327,361 (Note 4);
- Portugal Telecom recognized a total gain of Euro 11,892,743 (Note 19), which includes a gain of Euro 21,384,507 (Note 14.5) corresponding to cumulative foreign currency translation adjustments relating to this investment, which were transferred from the caption Currency translation adjustments to profit and loss on the date that the Group completed this disposal (27 January 2011).

g) Goodwill

As at 31 December 2011 and 2010, goodwill amounting to Euro 61,419,919 was initially recorded in 2002 as a result of the acquisition of the investment in associated company Páginas Amarelas.

(a) Revenues and gains include sales and services rendered by Portugal Telecom and interest received on bank deposits, while costs and losses include supplies and external services provided to Portugal Telecom and interest paid on financing agreements and equity swaps.

The terms and contractual conditions in agreements entered into by Portugal Telecom and shareholders are similar to those applicable to other independent entities in similar transactions.

8.4. Other information

During the years ended 31 December 2011 and 2010, fixed remunerations board members, which were established by the Remunerations Committee, amounted to Euro 5.32 million and Euro 6.68 million, respectively.

Under the terms of the remuneration policy established by the Remunerations Committee, executive board members are entitled to receive: (i) annual variable remuneration (AVR) related to the performance achieved in the year and payable in the following year, except for the amount in excess of 50% of the total variable remuneration attributed in the year, which payment is deferred for a period of 3 years, and (ii) variable remuneration related to the medium term performance (VRMT), which payment is deferred for a period of 3 years. In 2011, the annual variable remuneration of 2010 paid to the five executive board members amounted to Euro 2.34 million, and in 2010, the annual variable remuneration of 2009 paid to the seven executive board members amounted to Euro 3.52 million. In 2011 and 2010, there were no payments related to the VRMT and, under the terms of the approved remuneration policy of executive board members, the deferred payment of AVR and VRMT amounted to Euro 4.28 million as at 31 December 2011, which is conditional on the positive performance of the Company under the terms of the remuneration policy in place. On an annual basis, Portugal Telecom recognizes an accrual for the variable remunerations.

Table of Contents

Following the recommendation of some shareholders at the 2011 annual general meeting and based on a proposal of the Evaluation Committee, the Remunerations Committee approved an extraordinary variable remuneration payable to the Chairman and five executive board members regarding their performance under the Vivo transaction (Note 1) and the acquisition of a strategic investment in Oi and Contax (Note 1). Under the terms of the remuneration policy of board members, in 2011, the chairman and five executive board members were paid 50% of the above mentioned extraordinary variable remuneration amounting to Euro 2.55 million, and the payment of the remaining 50% was deferred for a period of 3 years, which is conditional on the positive performance of the Company under the terms of the remuneration policy in place. Following the Vivo transaction and based on a board of directors' recommendation, the executive committee approved in December 2010 the payment to the majority of Portugal Telecom's employees of an extraordinary variable remuneration totaling Euro 14 million.

Additionally, in connection with the strategic partnership entered into with Oi and Contax, six of Portugal Telecom's board members perform executive duties in these companies (entities jointly controlled by Portugal Telecom), having received in 2011 a total fixed compensation of Euro 1.21 million, which was established by the competent corporate bodies in accordance with local legislation.

In addition to the above mentioned remunerations, executive board members are also entitled to fringe benefits that are primarily utilized in their daily functions, in accordance with a policy defined for the Group. As at 31 December 2011, there were no board members entitled to post retirement benefits under the plans of PT Comunicações and there was not in place any share based payment program or termination benefit.

For additional information regarding the remunerations of board members and key employees, please read the Corporate Governance Report included in the Consolidated Annual Report 2011.

Table of Contents**9. Other financial assets and liabilities**

As at 31 December 2011 and 2010, these captions include the fair value of derivative financial instruments entered into by the Company and have the following composition:

	Euro

Currency swap with exchange and interest rate components	1,796,673	408,693
Total non-current	8,532,123	3,805,052

The Company entered into several derivative financial instruments, primarily with the purpose of minimize the risk of exposure to exchange and interest rate fluctuations. Derivative financial instruments are signed after a careful analysis of associated risks and rewards to this type of operation, taking into consideration information obtained from different institutions. These transactions are subject to a preliminary approval by the Company's Executive Committee. The positions held by the Company, as well as the relevant financial markets, are regularly monitored. The fair value of these derivatives is determined on a regular basis in order to assess the fair value of these instruments and the related financial implications.

Interest rate risk

As at 31 December 2011, the portfolio of interest rate derivatives consisted of interest rate swaps denominated in Euros, which were entered into with the purpose of eliminating the risk of changes in the interest rates of loans obtained.

As detailed in the table above, these instruments are classified in the following categories:

- **Cash flow hedges**

Edgar Filing: PORTUGAL TELECOM SGPS SA - Form 6-K

Changes in fair value of cash flow hedges are recorded directly in shareholders' equity under the caption "Other reserves", and amounted to losses of Euro 4,135,290 in 2011 and Euro 141,386 in 2010 (Note 14). As at 31 December 2011 and 2010, the nominal value of these instruments amounted to Euro 163.6 million and Euro 205.8 million, respectively, with maturities between 0.2 and 2.0 years and between 0.7 and 2.5 years, respectively;

- **Held for trading**

Changes in fair value of swaps held for trading are recorded in earnings under the caption "Increases/(reductions) in fair value" and amounted to gains of Euro 769,199 in 2011 and

Table of Contents

Euro 949,947 in 2010 (Note 22). As at 31 December 2011 and 2010, the nominal value of these instruments amounted to Euro 14.5 million and Euro 24.4 million, respectively, with an average maturity of 0.7 and 1.2 years, respectively.

Interest rate and foreign currency exchange risk

As at 31 December 2010, Portugal Telecom had a currency swap with exchange and interest rate components, entered into with the purpose of eliminating the exposure to the change in the Euro/US Dollar exchange rate, resulting from a loan denominated in U.S. Dollars contracted in previous years. As at that date, the nominal value of this instrument amounted to 11 million American Dollars. The fair value of this instrument was included in the Balance Sheet under the same caption as the related loan obtained, while the change in its fair value was recognized on a net basis together with the interest and the foreign currency exchange rate fluctuation of the related loan. The loan and the currency swap were paid in December 2011, in the maturity of both instruments.

In 2010, Portugal Telecom and PT Finance (subsidiary company) entered into two currency swap contracts with exchange and interest rate components, in order to eliminate the exposure of PT Finance to the risk of exchange rate fluctuations in loans denominated in U.S. Dollars. Considering that the purpose of these derivatives is to hedge risk in PT Finance, they were classified by the Company as held for trading and their fair value was recognized under the captions of other financial assets and liabilities, as detailed in the table above. Changes in the fair value of these instruments were recognized in earnings under the caption *Increases/(reductions) in fair value*, and amounted to a loss of Euro 605,543 in 2011 and a gain of Euro 230,729 in 2010 (Note 22). In 2011, the Company settled one of these instruments for an amount of Euro 1,421,859, and subsequently entered into a new instrument with the same features, which is outstanding as at 31 December 2011. Both transactions were performed as the financing associated with the first derivative financial instrument was repaid and a new financing has been subsequently contracted with the same features.

10. Income taxes

10.1. Introduction

As from 1 January 2010, following a change in tax legislation, the Company is subject to Corporate Income Tax at a rate of 25%, which is increased up to a maximum of 1.5% of taxable income through a municipal tax and by a 2.5% state surcharge applicable to taxable income in excess of Euro 2 million, leading to a maximum aggregate tax rate of approximately 29.0%. For the years 2012 and 2013, the Company will be subject to corporate income tax at a rate of 25%, which is increased (1) up to a maximum of 1.5% of taxable income through a municipal tax, and

Table of Contents

(2) by a 3.0% and 5.0% state tax applicable on taxable income between Euro 1.5 million and Euro 10.0 million and on taxable income in excess of Euro 10.0 million, respectively.

Portugal Telecom's taxable income in 2011 did not exceed Euro 2 million, and accordingly the Company applied the aggregate tax rate of 26.5% to compute its current income tax estimate. In addition, based on its expectations regarding the standalone taxable income in future years, the Company changed the tax rate used to recognize deferred taxes from 26.5% to 25.0% .

Income taxes are computed based on the tax rate mentioned above and are determined on the basis of profit before-tax adjusted in accordance with tax legislation.

In the year ended 31 December 2011, the Company's taxable income was estimated in accordance with the special taxation regime for groups of companies (tax consolidation), including the following companies: PT Comunicações, S.A.; TMN Telecomunicações Móveis Nacionais, S.A.; PT Contact Telemarketing e Serviços de Informação, S.A.; PT Imobiliária, S.A.; PT Inovação, S.A.; PT Móveis, SGPS, S.A.; PT Pro - Serviços Administrativos e de Gestão Partilhados, S.A.; PT-Sistemas de Informação, S.A.; PT Compras - Serviços de Consultoria e Negociação, S.A.; PT Participações SGPS, S.A.; PT Investimentos Internacionais Consultoria Internacional, S.A.; PT Prestações Mandatária de Aquisições e Gestão de Bens, S.A.; PT Portugal, SGPS, S.A.; PT Sales, S.A.; PT Centro Corporativo, S.A.; Infonet Portugal Serviços de Valor Acrescentado, Lda; and Openidea, Tecnologias de Telecomunicações e Sistemas de Informação, S.A.

In accordance with the prevailing legislation, tax returns are subject to review and correction by the tax authorities during a period of four years (five years for Social Security), except where there have been tax losses, tax benefits have been granted, or there are inspections, claims or challenges under way; in such cases, these periods may be extended or suspended, depending on the circumstances. Based upon the information supplied by its tax advisory services, the Board of Directors considers that any corrections to the tax returns that might result from reviews carried out by the tax authorities will not have a significant effect on the financial statements as at 31 December 2011, considering the provisions recorded and the current expectations of settlement of the tax contingencies described in Note 15.

10.2. Deferred taxes

In determining income tax expense for the year, besides the current tax based on profit before-tax adjusted in accordance with tax legislation, it is also considered the effects of temporary differences between the tax and accounting bases of assets and liabilities, arising in the year or in previous years.

Changes in deferred tax assets recorded in shareholders' equity under the caption Other reserves (Note 14.4) correspond to the tax effect associated with the change in the fair value of interest rate derivatives classified as cash flow hedges.

Deferred tax assets related to tax losses recorded in 2011 resulted from the tax loss recognized in the year by Portugal Telecom's tax consolidation. In accordance with current tax legislation, tax losses can be used during the five years following the year in which they were generated, with a limit of 75% of taxable income in each year. Given the estimated tax results of Group companies for the next five years, the Company believes that these deferred tax losses are recoverable.

Deferred tax liabilities amounting to Euro 14,286,361 and Euro 15,143,542 Euros as at 31 December 2011 and 2010, respectively, correspond to the tax effect associated with the equity component of the exchangeable bonds issued by Portugal Telecom in 2007 (Note 14.4). The change in the period, amounting to Euro 857,181, relates to the impact of the change in the tax rate applied for the calculation of deferred taxes and was recorded directly in shareholders' equity.

Capital gains recorded as a result of the disposal of financial investments to other Group companies are recognized in earnings on the same proportion that goodwill or assets and liabilities identified under the purchase price allocation are recognized in net income by the acquirers or by the disposal of the investment. Both the recognition of capital gains and the effect of the recognition of goodwill, indirectly through the equity method of accounting, are included under the caption Equity in earnings (losses) of affiliated companies (Note 19). Following the disposal of Vivo, completed in September 2010, the Company recognized part of the capital gain related to the disposal of TMN amounting to Euro 1,968,377,000, on the same proportion that goodwill was recognized in the income statement by PT Portugal.

14. Shareholders equity

14.1. Share capital

As at 31 December 2011, the Company's share capital was fully paid and amounted to Euro 26,895,375, and was represented by 896,512,000 ordinary shares and 500 Class A shares, with a nominal value of 3 cents of Euro each.

Following the General Shareholders Meeting of Portugal Telecom held on 26 July 2011, an amendment to the by-laws of the Company was approved, which resulted in the elimination of the special rights granted to the 500 Class A shares.

14.2. Treasury shares

Edgar Filing: PORTUGAL TELECOM SGPS SA - Form 6-K

As at 31 December 2011 and 2010, this caption includes equity swaps entered into by Portugal Telecom over 20,640,000 treasury shares, which were recognized as an effective acquisition of treasury shares, thus implying the recognition of a corresponding financial liability for the respective acquisition cost, amounting to Euro 178,071,826 (Note 16.5) .

Table of Contents

Additionally, as at 31 December 2011, this caption includes treasury shares that were acquired by Oi under the strategic partnership entered into with Portugal Telecom, under which it was envisaged the acquisition by Oi of up to 10% of the outstanding shares of Portugal Telecom. Up to 31 December 2011, Oi acquired 64,557,566 shares of Portugal Telecom, representing 7.2% of the share capital. The Company's share in this investment, held indirectly through Bratel Brasil, was classified in the Balance Sheet as treasury shares and amounted to Euro 148,311,037 (Notes 1 and 7).

14.3. Legal reserve

Portuguese law provides that at least 5% of each annual profits must be appropriated to a legal reserve until this reserve equals the minimum requirement of 20% of share capital. This reserve is not available for distribution to shareholders but may be capitalized or used to absorb losses, once all other reserves and retained earnings have been exhausted.

As at 31 December 2011, the legal reserve was already fully incorporated in accordance with Portuguese law, and amounted to Euro 6,773,139.

14.4. Other reserves

As at 31 December 2011 and 2010, the detail of this caption is as follows:

reassessment of the revalued amount of certain tangible fixed assets of PT Comunicações that are recognized in accordance with the revaluation model (Euro 95 million in 2011), (2) the net actuarial losses recognized by PT Comunicações in connection with its post retirement benefit obligations (Euro 54 million in 2011 and Euro 365 million in 2010), and (3) other changes in shareholders' equity of other affiliated companies.

(b) Following the disposal of the 50% investment of the Group in Brasilcel, completed on September 2010, other changes in shareholders' equity related to this investment were recycled to retained earnings.

(c) These captions include the recycling of reserves and adjustments to financial assets to retained earnings, including: (1) an amount of Euro 1,345,930,203 in 2010 related with actuarial losses net of the tax effect transferred to retained earnings by PT Comunicações following the transfer of pension plans and funds to the Portuguese State, and (2) an amount of Euro 42,114,137 in 2011 and Euro 123,748,608 in 2010 related with the recognition of the revaluation reserve of PT Comunicações.

(d) As mentioned in Note 7, the investment in UOL was classified as a non-current asset held for sale as at 31 December 2010, following an offer received in December of that year for its disposal. This disposal was only completed on 27 January 2011, and as such foreign currency translation adjustments recognized in 2011 include (1) a loss of Euro 3,050,512 related to translation adjustments, between 31 December 2010 and the date of sale on both financial investment and goodwill, and (2) an amount of Euro 21,384,507 (Note 7) corresponding to the cumulative foreign currency translation adjustments recycled to net income on the date of the sale. Additionally, other changes in shareholders' equity related with this investment, in the amount of Euro 540,828, were transferred to retained earnings.

Table of Contents

(e) This caption consists mainly of the accumulated amount of the currency translation adjustments related to the investment in PT Ásia, amounting to Euro 2,396,573 (Note 19), which was recognized in net income following the liquidation of this company.

14.6. Application of earnings

In the years ended 31 December 2011 and 2010, Portugal Telecom paid the following amounts as dividends:

	2011	2010
Ordinary dividend	569,317,125	503,626,688
Extraordinary dividend	569,317,125	875,872,500
	1,138,634,250	1,379,499,188

As approved by the General Shareholders Meeting held on 16 April 2010, from the net income of 2009 determined in accordance with POC, amounting to Euro 529,778,473, a total amount of Euro 503,626,688 was distributed to shareholders in May 2010, equivalent to a dividend of Euro 57.5 cents per share, and the remaining amount was transferred to retained earnings.

In December 2010, as approved by the Board of Directors of Portugal Telecom on 16 December 2010, the Company distributed to its shareholders an advance on account of 2010 profit totalling Euro 875,872,500, equivalent to a dividend of 1 Euro per share.

On 6 May 2011, the Annual General Meeting of Portugal Telecom approved the proposal of the Board of Directors to distribute a dividend of 1.30 Euros per share, which was paid on 3 June 2011. This amount includes 65 cents per share corresponding to the ordinary dividend relating to the year 2010 and 65 cents relating to the total exceptional dividend of 1.65 Euros proposed by Portugal Telecom following the disposal of its investment in Brasilcel, of which 1 Euro per share had already been paid in December 2010. Therefore, in the year ended 31 December 2011, Portugal Telecom paid a total amount of Euro 1,138,634,250 relating to 875,872,500 shares (896,512,500 issued shares net of 20,640,000 own shares held through equity swap contracts), which includes an amount of Euro 20,646,929 (Note 7) paid to Telemar Norte Leste that relates to a portion of Portugal Telecom's 64,557,566 shares held by this entity corresponding to Portugal Telecom's effective interest in Oi (Note 14.2), resulting in a net impact on shareholders' equity amounting to Euro 1,117,987,321. As approved by that Annual General Meeting, the remaining amount of net income for the year 2010 was transferred to retaining earnings.

In December 2011, as approved by the Board of Directors of Portugal Telecom on 15 December, the Company attributed to its shareholders an advance on account of 2011 profits totalling Euro 188,312,588, equivalent to a dividend of Euro 21.5 cents per share, which includes an amount of Euro 3,512,719 (Note 7) payable to Telemar, resulting in a net effect on shareholder's equity amounting to Euro 184,799,868.

Provisions for taxes relate to several tax contingencies regarding Corporate Income Tax, Value Added Tax and Social Security Tax, among other taxes and fees. Provisions for legal actions

Table of Contents

relate to actions against the Company, based on the opinion of the internal and external legal counsel.

15.3. Proceedings with possible and remote losses

As at 31 December 2011, the Company, in accordance with NCRF 21 and based on the opinion of the its internal and external legal counsel, classified as proceedings with possible losses several tax contingencies amounting to Euro 13.6 million, which primarily relate to Corporate Income Tax. Additionally, as at 31 December 2011, the Company classified as proceedings with remote losses several tax contingencies amounting to Euro 70.5 million, also related mainly to Corporate Income Tax.

As at 31 December 2011, there were some tax contingencies against certain domestic subsidiaries of the Group which primarily relate to the deductibility of certain financial costs incurred between 2004 and 2009 (Euro 168 million) and the deductibility of a capital loss occurred in 2006 following the liquidation of a subsidiary (Euro 63 million). The Company already received tax assessments regarding these matters for all the years mentioned above and presented bank guarantees to the tax authorities totalling Euro 267 million (Note 27) for the years 2004 to 2008. As at 31 December 2011, Portugal Telecom strongly disagrees with these assessments and, based on the opinion of its tax advisers, considers that there are solid arguments to oppose the position of the tax authorities.

in July 2007, denominated Euro 750,000,000.00, 4.125 per cent Exchangeable Bonds due 2014 exchangeable for new and/or existing ordinary shares of Portugal Telecom, SGPS, S.A. (Exchangeable Bonds) in order to enable PT Finance to satisfy conversion requests that eventually may be made by the owners of Exchangeable Bonds. The conditions for the issuance of these convertible bonds replicate the terms of the Exchangeable Bonds.

Exchangeable bonds represent a compound instrument and accordingly the market value of the equity component (conversion option into shares) was recognized directly in shareholders' equity as of the date the bonds were issued and amounted to Euro 57,145,442 (Note 14.4), while the financial liability component is recorded by the amortized cost method.

16.2. Bank loans

As at 31 December 2011 and 2010, bank loans were obtained from the European Investment Bank (EIB) and are denominated in Euros.

As at 31 December 2011 and 2010, the Company has presented the following guarantees to third parties, in connection with these loans:

	Euro	
	2011	2010
Bank guarantees in favour of the European Bank	438,571,429	332,857,143
Garantee from the Portuguese State in favour of KFW		377,845

As at 31 December 2011 and 2010, the Company's bank loans bear interest at annual interest rates that vary between:

	Euro	
	2011	2010
Maximum interest rate	5.00%	5.00%
Minimum interest rate	1.83%	1.34%

Additionally, the Company is borrower, jointly with PT Comunicações and PT Finance, in six Revolving Credit Facilities totalling Euro 1,640,000,000, with maturities between 2012 and 2015. These Credit Facilities include a facility entered into by Portugal Telecom on 23 March 2011, jointly with PT Finance and PT Comunicações, with a initial amount of Euro 900 million and maturity in March 2014, which was increased to Euro 1,050 million on 12 April 2011 and to Euro 1,200 million on 13 April 2011. The Company is also borrower, jointly with PT Comunicações and PT Finance, in an Export Credit Facility amounting to Euro 180 million, with maturity up to 2023. As at 31 December 2011,

the Company had not used any amount under these contracts.

16.3. Other external loans

As at 25 June 1999, the Company issued a commercial paper program, subscribed by PT Finance, which following several changes made had a maximum amount of Euro 3,000,000,000 as at 31 December 2011. This program is in place until 7 July 2013, and is automatically renewable for successive periods of two years, until 7 July 2025, unless terminated by either party. As at 31 December 2011, the Company was not using any amount under this program through external loans.

As at 1 June 2000, the Company issued another commercial paper program, subscribed by PT Finance, which following several changes made had a maximum amount of Euro 3,000,000,000 as at 31 December 2011. This program is in place until 1 June 2012, and is automatically renewable for successive periods of two years, until 1 June 2020, unless terminated by either party. As at 31 December 2011, the Company issued, under this program, a total amount of Euro 150,000,000.

16.4. Other domestic loans

Portugal Telecom entered into several commercial paper programs, under which it has issued a total amount of Euro 554 million as at 31 December 2011, maturing in January 2012. In addition, under these programmes, as at 31 December 2011 the Company had available an underwritten amount of Euro 200 million.

16.5. Liability related to equity swaps on treasury shares

This caption relates to equity swap contracts entered into by Portugal Telecom over 20,640,000 treasury shares, which were recognized as an effective acquisition of treasury shares, thus implying the recognition of a corresponding financial liability for the respective acquisition cost in the amount of Euro 178,071,826 (Note 14.2). In December 2011, Portugal Telecom settled an amount of Euro 84,304,307 (Note 4) and, consequently, the liability as at 31 December 2011 amounted to Euro 93,767,519.

16.6. Finance leases

Obligations under finance lease contracts resulted primarily from the lease of transportation equipment, under which there are generally purchase options in the term of these contracts. As at 31 December 2011 and 2010, assets under finance lease contracts recognized in the Company's balance sheet had a carrying amount of Euro 477,594 and Euro 518,174, respectively, and correspond to the caption "Transportation equipment" in the tangible fixed assets.

16.8. Other information

As at 31 December 2011, the Company and its subsidiaries had several covenants related to their indebtedness, as follows:

- Change in control**

The exchangeable bonds, the revolving credit facilities amounting to Euro 1,640 million, the loans obtained from EIB totalling Euro 594 million as at 31 December 2011, the Euro 50 million term loan and the export credit facility totalling Euro 180 million include contractual penalties in

Edgar Filing: PORTUGAL TELECOM SGPS SA - Form 6-K

the case of any change of control of Portugal Telecom. According to the terms and conditions of these debt instruments, a change of control would occur if any person or group of persons acting in concert acquires or controls more than 50 per cent of the voting rights, whether obtained by ownership of share capital, the holding of voting rights or pursuant to the terms of a shareholders agreement. In certain cases, gaining the power to appoint or remove all, or the majority, of the directors or other equivalent officers of the company or to give directions with respect to the operating and financial policies of the company with which the directors or equivalent officers of the company are obliged to comply is also considered a change of control.

The Euro 1,000 million and Euro 750 million Eurobonds issued by PT Finance in 2009 and the Euro 600 million Eurobond issued by PT Finance in 2011 include contractual penalties in the case of any change of control of Portugal Telecom, as described above, if simultaneously a rating downgrade to sub-investment grade occurs or a rating

Table of Contents

downgrade occurs (in case the securities are sub-investment grade securities) during the Change of Control Period, as defined under the terms and conditions of these notes.

- **Credit rating**

Certain loan agreements with the EIB, totalling Euro 129 million as at 31 December 2011, stated that Portugal Telecom may be asked to present a guarantee acceptable by the EIB if, at any time, the long-term credit rating assigned by the rating agencies to Portugal Telecom is lower than the the rating assigned by the time the clause was agreed (BBB- by S&P, Baa2 by Moody's and BBB by Fitch). As at 31 December 2011, the repayment schedule of the Euro 129 million loans is as follows: Euro 46 million in 2012, Euro 46 million in 2013 and Euro 36 million in 2014.

On 3 June 2011, S&P announced its review of the credit rating attributed to Portugal Telecom, downgrading the long-term rating from BBB to BBB-, with negative outlook, and the short-term rating from A-2 to A-3. On 7 June 2011, Moody's announced its review of the credit rating attributed to Portugal Telecom, downgrading the long-term rating from Baa2 to Baa3 and maintaining it under review for possible downgrade. On 29 July 2011, Moody's confirmed the Baa3 issuer rating of Portugal Telecom, with negative outlook. Considering the credit rating covenant described above, Portugal Telecom and the EIB have agreed to increase the spread of those loans, with no other consequence, as a result of the revision of Portugal Telecom's credit rating.

On 23 December 2011, Moody's announced the downgrade of Portugal Telecom's long-term rating from Baa3 to Ba1. On 16 February 2012, S&P announced its review of the credit rating attributed to Portugal Telecom, downgrading the long-term rating from BBB- to BB+, and the short-term rating from A-3 to B. Following these developments, Portugal Telecom has agreed with the EIB to open a cash deposit amounting to a portion of the amount due under the loan agreements that include the credit rating covenant, pledged in favour of the EIB. The amount deposited in this account will be reduced as loans are repaid. Portugal Telecom and the EIB have also agreed that further upgrades or downgrades of the credit rating assigned to the Company will lead to, respectively, decreases or increases in the amount deposited, with no other consequence.

The margin paid by Portugal Telecom under the Euro 1,200 million revolving credit facility depends on whether the credit rating is or is not higher than BBB- (as assigned by S&P) and Baa3 (as assigned by Moody's). The margin paid by Portugal Telecom under the Euro 200 million underwritten portion of a commercial paper program also depends on the credit rating assigned by S&P and Moody's.

- **Control/disposal of subsidiaries**

Certain credit facilities, in the total amount of Euro 1,445 million, state that Portugal Telecom must, directly or indirectly, maintain majority ownership and control of each

Table of Contents

material subsidiary. Material subsidiaries are those companies whose total assets are equal or exceed 10% of total consolidated assets or whose total revenues are also equal or exceed 10% of total consolidated revenues.

- **Disposal of assets**

Credit facilities, totalling Euro 150 million, and the EIB loans, totalling Euro 594 million as at 31 December 2011 include certain restrictions regarding the disposal of assets by Portugal Telecom.

- **Financial ratios**

Certain credit facilities and loans, totalling Euro 1,745 million, require that the ratio Consolidated Net Debt/EBITDA should not exceed certain values, which vary depending on the loan agreements. In addition, the pricing conditions applicable to certain facilities, in the total amount of Euro 215 million, may be changed depending on the ratio Consolidated Net Debt/EBITDA.

- **Negative Pledge**

The Euro Medium Term Notes of PT Finance, the exchangeable bonds, the credit facilities, the Euro 50 million term loan, the export credit facility and one of the commercial paper programmes are subject to negative pledge clauses, which restrict the pledge of security interests in the assets of companies included in the consolidation.

The penalties applicable in the event of default in any of these covenants are generally the early payment of the loans obtained or the termination of available credit facilities, except where other penalties are specifically indicated above. As at 31 December 2011, the Company had fully complied with the covenants mentioned above.

**REPORT AND OPINION OF THE AUDIT COMMITTEE
ON THE STANDALONE ANNUAL REPORT AND ACCOUNTS
FOR THE FISCAL YEAR OF 2011**

1 Introduction

Under the terms and for the purposes of paragraph g) to Article 423-F of the Portuguese Companies Act and of Article 28 of the Company's articles of incorporation, the Audit Committee of Portugal Telecom, SGPS, S.A. (The Company or PT SGPS) hereby presents its report and opinion on the Company's Standalone Annual Report and Accounts for the year ended December 31, 2011 and the proposal for application of profits presented by the Board of Directors.

The financial statements included in the Standalone Annual Report and Accounts refer to the Company's activity at an individual level and were prepared in accordance with accounting principles generally accepted in Portugal, as established by the new Portuguese System of Accounting Harmonization. The Company has prepared, in accordance with applicable legislation, consolidated financial statements in accordance with International Financial Reporting Standards as adopted by the European Union, published separately.

2 Supervisory activities

Within its responsibilities as the Company's supervisory body, in 2011, the Audit Committee has overseen the management and the evolution of the Company's businesses and its compliance with the applicable legal, regulatory and accounting rules and pursued various supervisory activities of the quality and integrity of the Company's financial information preparation and disclosure processes.

In the course of 2011, the Audit Committee issued (a) 13 Preapproval Opinions on Proposals of Related Party Transactions, as defined in Internal Ruling n.º 111CA, dated February 23, 2011, as well as (b) 5 other Opinions and Decisions on various matters submitted by the Company's Chairman and/or Executive Committee, including the opinion on the proposed variable compensation of the Executive Committee and the decision of consent to the payment to shareholders of an advance on the profits for the year.

Table of Contents

During the fiscal year 2011, the Audit Committee held periodic meetings with the officers responsible for the preparation of the Company's Standalone Annual Report and Accounts and of the accounts of relevant subsidiaries, as well as with the Company's Independent Auditors and the Statutory Auditor, with which discussed the adequacy of the accounting principles and valuation criteria adopted in the closing of the accounts and of the criteria adopted in the preparation of the management report. In addition, the Audit Committee has reviewed the Statutory Auditor's Opinion and the Independent Auditors' Report, both referring to the aforementioned standalone financial statements approved by the Board of Directors, which were issued without any qualifications.

The Audit Committee has also supervised the qualifications, independence and work of the Company's Independent Auditors and Statutory Auditor, as well as of the quality, integrity and effectiveness of the Company's internal control and risk management systems and of the internal audit function, which obtained in 2011 the renewal, by the IIA, of its certification of quality.

As far as the internal control system is concerned, we highlight that it was certified by the Company's Independent Auditors in 2011, by reference to the year of 2010, on the basis of the methodology defined by *COSO (Committee of Sponsoring Organizations)*, in accordance with the requirements of *Section 404* of the *Sarbanes-Oxley Act* and, and that a similar review is still in course with reference to 31/12/2011.

As provided for in paragraph 5 of Article 420.º of the Portuguese Companies Code, the Audit Committee also verified that the Company's report on its corporate governance structure and practices includes the elements listed in Article 245.º -A of the Portuguese Securities Code that are applicable to the PT Group.

The aforementioned supervisory activities will be further detailed in the Audit Committee's activities report relating to the year of 2011 disclosed in the Company's website.

3 - Opinion on the Standalone Annual Report and Accounts for the fiscal year of 2011 and the related proposal for application of profits and distribution of retained earnings

Taking into consideration the above-mentioned, it is the opinion of the Audit Committee that:

AUDITORS REPORT

SEPARATE FINANCIAL STATEMENTS

(Translation of a report originally issued in Portuguese)

Introduction

1. Pursuant to the article 245° of Portuguese Securities Market Code, we hereby present our Auditors Report on the financial information contained in the Board of Directors Report and the accompanying financial statements of Portugal Telecom, SGPS, S.A. (the Company), for the year ended 31 December 2011, which comprise the balance sheet as of 31 December 2011 that presents a total of 10,053,979,621 Euros and shareholders equity of 2,728,709,362 Euros (net of a distribution of an advance of 2011 net income, amounting to 184,799,868 Euros), including a net profit of 342,259,821 Euros, the statements of income by natures, of changes in shareholders equity and of cash flows for the year then ended and the corresponding notes.

Responsibilities

2. The Company s Board of Directors is responsible for: (i) the preparation of financial statements that present a true and fair view of the financial position of the Company, the results of its operations, the changes in shareholders equity and its cash flows; (ii) the preparation of historical financial information in accordance with generally accepted accounting principles in Portugal that is complete, true, timely, clear, objective and licit, as required by the Portuguese Securities Market Code; (iii) the adoption of adequate accounting policies and

criteria and the maintenance of an appropriate system of internal control and; (iv) the disclosure of any significant facts that have influenced its operations, financial position or results of operations.

3. Our responsibility is to perform an audit of the financial information contained in the accounting documents referred to above, including verifying that, in all material respects, the information is complete, true, timely, clear, objective and licit, as required by the Portuguese Securities Market Code, and to issue a professional and independent report based on our audit.

Scope

4. Our audit was performed in accordance with the Auditing Standards (*Normas Técnicas e as Directrizes de Revisão/Auditoria*) issued by the Portuguese Institute of Statutory Auditors (*Ordem dos Revisores Oficiais de Contas*), which require that the audit be planned and performed with the objective of obtaining reasonable assurance about whether the financial statements are free of material misstatement. An audit includes verifying, on a sample basis, evidence supporting the amounts and disclosures in the financial statements and assessing the significant estimates, based on judgments and criteria defined by the Board of Directors, used in their preparation. An audit also includes assessing the adequacy of the accounting policies used and their disclosure, taking into consideration the circumstances, verifying the applicability of the going concern concept, assessing the adequacy of the overall presentation of the financial statements and assessing that, in all material respects, the information is complete, true, timely, clear, objective and licit. Our audit also included verifying that the information included in the Board of Directors Report is consistent with the financial statements, as well as the provisions set out in paragraphs 4 and 5 of Article 451° of the Commercial Companies Code (*Código das Sociedades Comerciais*). We believe that our audit provides a reasonable basis for expressing our opinion.

Opinion

5. In our opinion, the financial statements referred to in paragraph 1 above, present fairly in all material respects for the purposes explained in paragraph 6 below, the financial position of Portugal Telecom, SGPS, S.A. as of 31 December 2011 and the results of its operations, the changes on its shareholders' equity and its cash flows for the year then ended, in conformity with generally accepted accounting principles in Portugal and the financial information contained therein is, under the terms of the definitions included in the auditing standards referred to in paragraph 4 above, complete, true, timely, clear, objective and licit.

Emphasis

6. The financial statements referred to in paragraph 1 above refer to the Company's operations on an individual basis and were prepared in conformity with generally accepted accounting principles in Portugal for approval and publication in accordance with current legislation. As explained in Note 3.4, the investments in group and associated companies are recorded by the equity method. The Company prepared, in accordance with current legislation, consolidated financial statements in accordance with the International Financial Reporting Standards (IFRS) as adopted by the European Union, for separate approval and publication.

Report on other legal requirements

7. It is also our opinion that the financial information included in the Board of Directors' Report is consistent with the financial statements for the year and the report on the corporate governance practices includes the information required to the Company, under Article 245° - A of the Portuguese Securities Market Code.
