LINCOLN ELECTRIC HOLDINGS, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

Dollars in thousands, except per share amounts

NOTE 1 BASIS OF PRESENTATION

As used in this report, the term "Company," except as otherwise indicated by the context, means Lincoln Electric Holdings, Inc. and its wholly-owned and majority-owned subsidiaries for which it has a controlling interest. The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP") for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, these unaudited consolidated financial statements do not include all of the information and notes required by GAAP for complete financial statements. However, in the opinion of management, these unaudited consolidated financial statements contain all the adjustments (consisting of normal recurring accruals) considered necessary to present fairly the financial position, results of operations and cash flows for the interim periods. Operating results for the three months ended March 31, 2012 are not necessarily indicative of the results to be expected for the year ending December 31, 2012.

The accompanying Consolidated Balance Sheet at December 31, 2011 has been derived from the audited financial statements at that date, but does not include all of the information and notes required by GAAP for complete financial statements. For further information, refer to the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2011.

On April 29, 2011, the Company announced a two-for-one stock split of the Company's common shares effective in the form of a 100% stock dividend. The record date for the stock split was May 16, 2011 and the additional shares were distributed on May 31, 2011. Accordingly, all per share amounts, average shares outstanding, shares outstanding, shares repurchased and equity based compensation presented in this Form 10-Q have been retroactively adjusted to reflect the stock split. Shareholders' equity has been retroactively adjusted to give effect to the stock split for all periods presented by reclassifying the stated value of the additional shares issued in connection with the stock split to Common shares from Additional paid-in capital.

Certain reclassifications have been made to the prior year financial statements to conform to current year classifications.

Venezuela Highly Inflationary Economy

Venezuela is a highly inflationary economy under GAAP. As a result, the financial statements of the Company's Venezuelan operation are reported under highly inflationary accounting rules as of January 1, 2010. Under highly inflationary accounting, the financial statements of the Company's Venezuelan operation have been remeasured into the Company's reporting currency and exchange gains and losses from the remeasurement of monetary assets and liabilities are reflected in current earnings. In remeasuring the financial statements the official exchange rate for non-essential goods of 4.30 is used as this is the rate expected to be applicable to dividend repatriations.

Future impacts to earnings of applying highly inflationary accounting for Venezuela on the Company's consolidated financial statements will be dependent upon movements in the applicable exchange rates between the bolivar and the U.S. dollar and the amount of monetary assets and liabilities included in the Company's Venezuelan operation's balance sheet. The bolivar-denominated monetary net asset position was \$12,015 at March 31, 2012 and \$6,826 at December 31, 2011. The increased exposure was due to the limited opportunities to convert bolivars into U.S. dollars.

NOTE 2 EARNINGS PER SHARE

The following table sets forth the computation of basic and diluted earnings per share:

For the three months ended March 31, 2012 and 2011, common shares subject to equity-based awards of 455,081 and 486,210, respectively, were excluded from the computation of diluted earnings per share because the effect of their exercise would be anti-dilutive.

NOTE 3 NEW ACCOUNTING PRONOUNCEMENTS

New Accounting Standards Adopted:

In September 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-08, *Intangibles Goodwill and Other (Topic 350): Testing Goodwill for Impairment*. ASU 2011-08 provides an entity the option to first assess qualitative factors to determine whether the existence of events or circumstance leads to the determination that it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If the entity determines it is not more likely than not that the fair value is less than the carrying amount, then performing the two-step impairment test is unnecessary. However, if the entity concludes otherwise, it is required to perform the first step of the two-step impairment test. The amendments are effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011. ASU 2011-08 was adopted by the Company on January 1, 2012 and will not have a significant impact on the Company's financial statements.

In June 2011, the FASB issued ASU No. 2011-05, *Comprehensive Income (Topic 220): Presentation of Comprehensive Income*. This update provides amendments to Accounting Standards Codification (ASC) Topic 220, Comprehensive Income. ASU 2011-05 provides an entity the option to present the total of comprehensive income, the components of net income and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. Under both options, an entity is required to present each component of net income along with total net income, each component of other comprehensive income along with a total for other comprehensive income and a total amount for comprehensive income. Further, ASU 2011-05 requires the presentation on the face of the financial statements items that are reclassified from other comprehensive income to net income in the statement(s) where the components of net income and the components of other comprehensive income are presented. The amendment to present reclassification adjustments was deferred when the FASB issued ASU 2011-12. ASU 2011-05 should be applied retrospectively and is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. The Company adopted ASU 2011-05, excluding deferred portions, on January 1, 2012. Refer to the Consolidated Statements of Comprehensive Income herein.

In May 2011, the FASB issued ASU No. 2011-04, *Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS's*. ASU 2011-04 amends ASC Topic 820, resulting in common fair value measurement and disclosure requirements in GAAP and International Financial Reporting Standards (IFRS). Consequently, the amendments change the wording used to describe many of the requirements in GAAP for measuring fair value and for disclosing information about fair value measurements. These amendments are to be applied prospectively and are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. ASU 2011-04 was adopted by the Company on January 1, 2012 and did not have a significant impact on the Company's financial statements.

New Accounting Standards to be Adopted:

In December 2011, the FASB issued ASU No. 2011-11, *Balance Sheet (Topic 210): Disclosures about Offsetting Assets and Liabilities*. ASU 2011-11 requires an entity to disclose information about financial instruments and derivative instruments that are subject to offsetting, master netting or other similar arrangements, to illustrate the effect or potential effect of those arrangements on the Company's financial position. The amendments are effective for annual periods beginning on or after January 1, 2013, and interim periods within those annual periods. The amendments should be applied retrospectively for all prior periods presented. The Company is currently evaluating the impact of the adoption of ASU 2011-11 on the Company's financial statements.

NOTE 4 ACQUISITIONS

On March 6, 2012, the Company completed the acquisition of Weartech International, Inc. (Weartech) for approximately \$30,286 in cash and assumed debt. The preliminary fair value of net assets acquired was \$20,246, resulting in goodwill of \$10,040. These values are preliminary and subject to final closing balance sheet and working capital adjustments. Weartech, based in Anaheim, California, is a producer of cobalt-based hard facing and wear-resistant welding consumables. The acquisition added to the Company's consumables portfolio. Annual sales for 2011 were approximately \$40,000.

On July 29, 2011, the Company acquired substantially all of the assets of Techalloy Company, Inc. and certain assets of its parent company, Central Wire Industries Ltd. (collectively, Techalloy), for approximately \$36,900 in cash and assumed

debt. The fair value of net assets acquired was \$32,814, resulting in goodwill of \$4,086. Techalloy, based in Baltimore, Maryland, is a manufacturer of nickel alloy and stainless steel welding consumables. The acquisition added to the Company's consumables portfolio. Annual sales for Techalloy at the date of acquisition were approximately \$70,000.

On July 29, 2011, the Company acquired substantially all of the assets of Applied Robotics, Inc. (d/b/a Torchmate) (Torchmate) for approximately \$8,280 in cash. The fair value of net assets acquired was \$2,361, resulting in goodwill of \$5,919. Torchmate, based in Reno, Nevada, provides a wide selection of computer numeric controlled plasma cutter and oxy-fuel cutting systems. The acquisition added to the Company's plasma and oxy-fuel cutting product offering. Annual sales for Torchmate at the date of acquisition were approximately \$13,000.

On March 11, 2011, the Company completed the acquisition of OOO Severstal-metiz: welding consumables (Severstal) for approximately \$16,861 in cash and assumed debt. The fair value of net assets acquired was \$8,049, resulting in goodwill of \$8,812. Severstal is a leading manufacturer of welding consumables in Russia and was a subsidiary of OAO Severstal, one of the world's leading vertically integrated steel and mining companies. This acquisition expanded the Company's capacity and distribution channels in Russia and the Commonwealth of Independent States. Sales for Severstal during 2010 were approximately \$40,000.

On January 31, 2011, the Company acquired substantially all of the assets of SSCO Manufacturing, Inc. (d/b/a Arc Products) (Arc Products) for approximately \$3,280 in cash and a contingent consideration liability fair valued at \$3,806. The contingent consideration is based upon estimated sales for the five-year period ending December 31, 2015 and will be paid in 2016 based on actual sales during the five-year period. The fair value of net assets acquired was \$3,613, resulting in goodwill of \$3,473. Arc Products is a manufacturer of orbital welding systems and welding automation components based in Southern California. Orbital welding systems are designed to automatically weld pipe and tube in difficult to access locations and for mission-critical applications requiring high weld integrity and sophisticated quality monitoring capabilities. The acquisition will complement the Company's ability to serve global customers in the nuclear, power generation and process industries worldwide. Sales for Arc Products during 2010 were not significant.

Pro forma information related to these acquisitions has not been presented because the impact on the Company's Consolidated Statements of Income is not material. Acquired companies are included in the Company's consolidated financial statements as of the date of acquisition.

NOTE 5 SEGMENT INFORMATION

The Company's primary business is the design and manufacture of arc welding and cutting products, manufacturing a broad line of arc welding equipment, consumable welding products and other welding and cutting products. The Company also has a leading global position in the brazing and soldering alloys market. The Company has aligned its business units into five operating segments to enhance the utilization of the Company's worldwide resources and global sourcing initiatives. The operating segments consist of North America Welding, Europe Welding,

Edgar Filing: LINCOLN ELECTRIC HOLDINGS INC - Form 10-Q

Asia Pacific Welding, South America Welding and The Harris Products Group. The North America Welding segment includes welding operations in the United States, Canada and Mexico. The Europe Welding segment includes welding operations in Europe, Russia and Africa. The other two welding segments include welding operations in Asia Pacific and South America, respectively. The fifth segment, The Harris Products Group, includes the Company's global cutting, soldering and brazing businesses as well as the retail business in the United States.

Segment performance is measured and resources are allocated based on a number of factors, the primary profit measure being earnings before interest and income taxes (EBIT), as adjusted. Segment EBIT is adjusted for special items as determined by management, such as the impact of rationalization activities, certain asset impairment charges and gains or losses on disposals of assets.

In the first quarter of 2011, special items include net charges of \$357 for rationalization actions in the Europe Welding and Asia Pacific Welding segments, primarily related to employee severance and other costs associated with the consolidation of manufacturing operations.

NOTE 6 RATIONALIZATION AND ASSET IMPAIRMENTS

During 2009, the Company initiated rationalization actions including the consolidation of certain manufacturing operations in the Europe Welding, Asia Pacific Welding and The Harris Products Group segments. At March 31, 2012, a liability relating to these actions of \$178 was recognized in Other current liabilities. The Company does not expect any further material costs associated with these actions in 2012 as they were substantially completed in 2010 and are expected to be substantially paid by the end of 2012. During April 2012, the Company initiated a

Edgar Filing: LINCOLN ELECTRIC HOLDINGS INC - Form 10-Q

process to rationalize its Severstal manufacturing facility in Russia and consolidate production to another facility in Russia. This action, expected to begin in the second quarter of 2012, will result in charges in the range of \$1,500 to \$3,000 over the next year and will impact approximately 225 employees. The Company continues to evaluate its cost structure, which may result in additional rationalization actions and charges in future periods.

The following table summarizes the activity related to the rationalization liabilities by segment:

	Europe Welding	The Harris Products Group	Consolidated
Balance at December 31, 2011	\$ 173	\$ 82	\$ 255
Payments and other adjustments	5	(82)	(77)

The Company has a share repurchase program for up to 30 million of the Company's common shares. At management's discretion, the Company repurchases its common shares from time to time in the open market, depending on market conditions, stock price and other factors. During the three month period ended March 31, 2012, the Company purchased an aggregate of 432,384 common shares in the open market under this program. As of March 31, 2012, there remained 4,689,373 common shares available for repurchase under this program. The repurchased common shares remain in treasury and have not been retired.

NOTE 10 INVENTORY VALUATION

Inventories are valued at the lower of cost or market. Fixed manufacturing overhead costs are allocated to inventory based on normal production capacity and abnormal manufacturing costs are recognized as period costs. For most domestic inventories, cost is determined principally by the last-in, first-out (LIFO) method, and for non-U.S. inventories, cost is determined by the first-in, first-out (FIFO) method. The valuation of LIFO inventories is made at the end of each year based on inventory levels and costs at that time. Accordingly, interim LIFO calculations are based on management's estimates of expected year-end inventory levels and costs. Actual year-end costs and inventory levels may differ from interim LIFO inventory valuations. The excess of current cost over LIFO cost was \$79,550 and \$78,292 at March 31, 2012 and December 31, 2011, respectively.

NOTE 11 ACCRUED EMPLOYEE BONUS

Other current liabilities at March 31, 2012 and 2011 include accruals for year-end bonuses and related payroll taxes of \$37,865 and \$26,665, respectively, related to the Company's employees worldwide. The payment of bonuses is discretionary and subject to approval by the Board of Directors. A majority of annual bonuses are paid in December, resulting in an increasing bonus accrual during the Company's fiscal year. The increase in the accrual from March 31, 2011 to March 31, 2012 is due to the increase in profitability of the Company.

NOTE 12 CONTINGENCIES

The Company, like other manufacturers, is subject from time to time to a variety of civil and administrative proceedings arising in the ordinary course of business. Such claims and litigation include, without limitation, product liability claims and health, safety and environmental claims, some of which relate to cases alleging asbestos and manganese induced illnesses. The claimants in the asbestos and manganese cases seek compensatory and punitive damages, in most cases for unspecified amounts. The Company believes it has meritorious defenses to these claims and intends to contest such suits vigorously.

The Company's accrual for contingent liabilities, primarily for product liability claims, was \$11,457 as of March 31, 2012 and \$11,312 as of December 31, 2011. The accrual is included in Other current liabilities. The Company also recognized an asset for recoveries from insurance carriers related to the insured claims outstanding of \$4,516 as of both March 31, 2012 and December 31, 2011. The asset is included in Other current assets. The March 31, 2012 accrual includes a liability for the agreement entered into in January 2012 with the Company's co-defendants and plaintiffs' counsel that provides for the dismissal with prejudice of substantially all of the pending manganese claims.

Based on the Company's historical experience in litigating product liability claims, including a significant number of dismissals, summary judgments and defense verdicts in many cases and immaterial settlement amounts, as well as the Company's current assessment of the underlying merits of the claims and applicable insurance, the Company believes resolution of these claims and proceedings, individually or in the aggregate, will not have a material effect on the Company's consolidated financial statements.

NOTE 13 PRODUCT WARRANTY COSTS

The Company accrues for product warranty claims based on historical experience and the expected material and labor costs to provide warranty service. Warranty services are generally provided for periods up to three years from the date of sale. The accrual for product warranty claims is included in Other current liabilities.

Table of Contents**LINCOLN ELECTRIC HOLDINGS, INC.****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Dollars in thousands, except per share amounts**

The changes in the carrying amount of product warranty accruals for the three months ended March 31, 2012 and 2011 are as follows:

NOTE 14 DEBT

The Company's \$80,000 Series C Note (the "Note") was repaid on March 12, 2012 at maturity. The Company has a line of credit totaling \$150,000 through the Amended and Restated Credit Agreement (the "Credit Agreement"), which was entered into on November 18, 2009. As of March 31, 2012, the Company was in compliance with all of its covenants and had no outstanding borrowings under the Credit Agreement, but had letters of credit outstanding totaling \$60, which reduced the availability under the Credit Agreement to \$149,940. The Credit Agreement has a three-year term and is scheduled to expire in November 2012 which may be increased, subject to certain conditions, by an additional amount up to \$75,000 at any time not later than 180 days prior to the last day of the term. The Company expects to replace the Credit Agreement prior to its expiration in November 2012, although there can be no assurances that the Company can replace the Credit Agreement or that satisfactory terms will be reached.

The Company historically utilized interest rate swaps to manage interest rate risks. The Company terminated its remaining interest rate swaps in 2009 and had no interest rate swaps outstanding as of March 31, 2012. The termination of interest rate swaps in 2009 resulted in a realized gain of \$5,079. This gain was deferred and amortized over the remaining life of the Note. The amortization of this gain reduced Interest expense by \$328 and \$410 in the three months ended March 31, 2012 and 2011, respectively. At March 31, 2012, the deferred gain was fully amortized. The weighted average effective interest rate on the Note, net of the impact of swaps, was 4.1% for the three months ended March 31, 2012.

NOTE 15 RETIREMENT AND POSTRETIREMENT BENEFIT PLANS

The components of total pension cost were as follows:

Edgar Filing: LINCOLN ELECTRIC HOLDINGS INC - Form 10-Q

	Three Months Ended March 31,	
	2012	2011
Service cost	\$ 4,879	\$ 4,335
Interest cost	10,238	10,957
Expected return on plan assets	(14,388)	(14,355)
Amortization of prior service cost	(22)	(15)
Amortization of net loss	7,794	5,472
Defined benefit plans	8,501	6,394
Multi-employer plans	242	235
Defined contribution plans	2,244	2,053
Total pension cost	\$ 10,987	\$ 8,682

The Company voluntarily contributed \$18,000 to its defined benefit plans in the United States during the three months ended March 31, 2012 and expects to contribute up to \$60,000 to its defined benefit plans in the United States during 2012. The amortization of net loss increased in the first quarter of 2012 due to greater actuarial losses during 2011, attributable to a lower discount rate and lower actual return on plan assets compared with the expected return on assets.

NOTE 16 INCOME TAXES

The Company recognized \$28,770 of tax expense on pre-tax income of \$92,919, resulting in an effective income tax rate of 31.0% for the three months ended March 31, 2012. The effective income tax rate is lower than the Company's statutory rate primarily due to income earned in lower tax rate jurisdictions and the utilization of foreign tax loss carryforwards for which valuation allowances had been previously provided.

Table of Contents

LINCOLN ELECTRIC HOLDINGS, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Dollars in thousands, except per share amounts

The effective income tax rate of 22.5% for the three months ended March 31, 2011 was lower than the Company's statutory rate primarily due to income earned in lower tax rate jurisdictions, the utilization of foreign tax loss carryforwards for which valuation allowances had been previously provided and a tax benefit of \$4,844 for tax audit settlements.

The anticipated effective income tax rate for 2012 depends on the amount of earnings in various tax jurisdictions and the level of related tax deductions achieved during the year.

As of March 31, 2012, the Company had \$29,530 of unrecognized tax benefits. If recognized, approximately \$17,210 would be reflected as a component of income tax expense.

The Company files income tax returns in the U.S. and various state, local and foreign jurisdictions. With few exceptions, the Company is no longer subject to U.S. federal, state and local or non-U.S. income tax examinations by tax authorities for years before 2007. The Company is currently subject to various U.S. state audits, a Russian tax audit for 2008-2010, a Canadian tax audit for 2003-2007 and an Indonesian tax audit for 2003-2007. The Company does not expect the results of these examinations to have a material effect on the Company's consolidated financial statements.

Unrecognized tax benefits are reviewed on an ongoing basis and are adjusted for changing facts and circumstances, including progress of tax audits and closing of statutes of limitations. Based on information currently available, management believes that additional audit activity could be completed and/or statutes of limitations may close relating to existing unrecognized tax benefits. It is reasonably possible there could be a reduction of \$8,198 in prior years' unrecognized tax benefits by the end of the first quarter 2013.

NOTE 17 DERIVATIVES

The Company uses derivatives to manage exposures to currency exchange rates, interest rates and commodity prices arising in the normal course of business. Derivative contracts to hedge currency and commodity exposures are generally written on a short-term basis but may cover exposures for up to two years while interest rate contracts may cover longer periods consistent with the terms of the underlying debt. The Company does not enter into derivatives for trading or speculative purposes.

All derivatives are recognized at fair value on the Company's Consolidated Balance Sheets. The accounting for gains and losses resulting from changes in fair value depends on the use of the derivative and whether it is designated and qualifies for hedge accounting. The Company

formally documents the relationship of the hedge with the hedged item as well as the risk-management strategy for all designated hedges. Both at inception and on an ongoing basis, the hedging instrument is assessed as to its effectiveness, when applicable. If and when a derivative is determined not to be highly effective as a hedge, the underlying hedged transaction is no longer likely to occur, or the derivative is terminated, hedge accounting is discontinued. The cash flows from settled derivative contracts are recognized in operating activities in the Company's Consolidated Statements of Cash Flows. Hedge ineffectiveness was immaterial in the three months ended March 31, 2012 and 2011.

The Company is subject to the credit risk of the counterparties to derivative instruments. Counterparties include a number of major banks and financial institutions. The Company manages individual counterparty exposure by monitoring the credit rating of the counterparty and the size of financial commitments and exposures between the Company and the counterparty. None of the concentrations of risk with any individual counterparty was considered significant at March 31, 2012. The Company does not expect any counterparties to fail to meet their obligations.

Cash Flow Hedges

Certain foreign currency forward contracts were qualified and designated as cash flow hedges. The dollar equivalent gross notional amount of these short-term contracts was \$66,718 and \$65,721 at March 31, 2012 and December 31, 2011, respectively. The effective portions of the fair value gains or losses on these cash flow hedges are recognized in Accumulated other comprehensive income (AOCI) and subsequently reclassified to Cost of goods sold or Sales for hedges of purchases and sales, respectively, as the underlying hedged transactions affect earnings.

Derivatives Not Designated as Hedging Instruments

The Company has certain foreign exchange forward contracts that are not designated as hedges. These derivatives are held as economic hedges of certain balance sheet exposures. The dollar equivalent gross notional amount of these contracts was \$184,009 and \$161,026 at March 31, 2012 and December 31, 2011, respectively. The fair value gains or losses from these contracts are recognized in Selling, general and administrative expenses, offsetting the losses or gains on the exposures being hedged.

The Company has short-term silver forward contracts with notional amounts of 375,000 troy ounces at March 31, 2012. The notional amount of short-term silver contracts was 340,000 troy ounces at December 31, 2011. Realized and unrealized gains and losses on these contracts are recognized in earnings.

Fair values of derivative instruments in the Company's Consolidated Balance Sheets follow:

Derivatives by hedge designation	March 31, 2012		December 31, 2011	
	Other Current Assets	Other Current Liabilities	Other Current Assets	Other Current Liabilities
Designated as hedging instruments:				
Foreign exchange contracts	\$ 579	\$ 413	\$ 801	\$ 531
Not designated as hedging instruments:

Commodity contracts	472	39	1,559	
Total derivatives	\$ 1,457	\$ 799	\$ 3,086	\$ 1,557

The effects of designated fair value hedges and undesignated derivative instruments on the Company's Consolidated Statements of Income for the three months ended March 31, 2012 and 2011 consisted of the following:

Derivatives by hedge designation	Classification of gains (losses)	Three Months Ended	
		2012	2011
Not designated as hedges:			
Foreign exchange contracts	Selling, general & administrative expenses	\$ 281	\$ (3,538)
Commodity contracts	Cost of goods sold	(1,753)	(2,877)
Commodity contracts	Other income		(12)

The effects of designated cash flow hedges on AOCI and the Company's Consolidated Statements of Income consisted of the following:

Total gain (loss) recognized in AOCI, net of tax	March 31, 2012	December 31, 2011
Foreign exchange contracts	\$ 414	\$ 912

Edgar Filing: LINCOLN ELECTRIC HOLDINGS INC - Form 10-Q

Derivative type	Gain (loss) reclassified from AOCI to:	Three Months Ended			
		2012		March 31, 2011	
Foreign exchange contracts	Sales	\$	231	\$	51
	Cost of goods sold		222		(573)

The Company expects a gain of \$414 related to existing contracts to be reclassified from AOCI, net of tax, to earnings over the next 12 months as the hedged transactions are realized.

NOTE 18 FAIR VALUE

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). The following hierarchy is used to classify the inputs used to measure fair value:

Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 Unadjusted quoted prices in active markets for similar assets or liabilities, or unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability.

Level 3 Unobservable inputs for the asset or liability.

The Company's derivative contracts are valued at fair value using the market approach. The Company measures the fair value of foreign exchange contracts using Level 2 inputs based on observable spot and forward rates in active markets. The Company measures the fair value of commodity contracts using Level 2 inputs through observable market transactions in active markets provided by financial institutions. During

Edgar Filing: LINCOLN ELECTRIC HOLDINGS INC - Form 10-Q

the quarter ended March 31, 2012, there were no transfers between Levels 1, 2 or 3.

In connection with an acquisition, the Company recorded a contingent consideration fair valued at \$4,255 as of March 31, 2012, which reflects a \$42 decrease in the liability from December 31, 2011. The contingent consideration is based upon estimated sales for the five-year period ending December 31, 2015 and will be paid in 2016 based on actual sales during the five-year period. The fair value of the contingent consideration is a Level 3 valuation and fair valued using a probability weighted discounted cash flow analysis. The discounted cash flow utilized weighted average inputs, including a risk based discount rate of 12.3%, determined using discount rates of 3.5% reflective of the Company's cost of debt and 14.1% as a risk adjusted cost of capital and a compounded annual revenue growth rate of 28.6%, determined using various scenarios with growth rates ranging from 11.1% to 50.0%.

The deferred compensation liability is the Company's obligation under its executive deferred compensation plan. The Company measures the fair value of the liability using the market values of the participants' underlying investment fund elections.

The fair value of Cash and cash equivalents, Accounts receivable, Amounts due banks and Trade accounts payable approximated book value due to the short-term nature of these instruments at both March 31, 2012 and December 31, 2011. The fair value of long-term debt at March 31, 2012 and December 31, 2011, including the current portion, was approximately \$3,462 and \$84,110, respectively, which was determined using available market information and methodologies requiring judgment. The carrying value of this debt at such dates was \$3,590 and \$83,456, respectively. Since considerable judgment is required in interpreting market information, the fair value of the debt is not necessarily the amount that could be realized in a current market exchange.

Table of Contents**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**
(Dollars in thousands, except per share amounts)

This Management's Discussion and Analysis of Financial Condition and Results of Operations should be read together with the Company's unaudited consolidated financial statements and other financial information included elsewhere in this Quarterly Report on Form 10-Q.

General

The Company is the world's largest designer and manufacturer of arc welding and cutting products, manufacturing a broad line of arc welding equipment, consumable welding products and other welding and cutting products. Welding products include arc welding power sources, wire feeding systems, robotic welding packages, fume extraction equipment, consumable electrodes and fluxes. The Company's product offering also includes regulators and torches used in oxy-fuel welding and cutting. In addition, the Company has a leading global position in the brazing and soldering alloys market.

The Company's products are sold in both domestic and international markets. In North America, products are sold principally through industrial distributors, retailers and also directly to users of welding products. Outside of North America, the Company has an international sales organization comprised of Company employees and agents who sell products from the Company's various manufacturing sites to distributors and product users.

On April 29, 2011, the Company announced a two-for-one stock split of the Company's common shares effective in the form of a 100% stock dividend. The record date for the stock split was May 16, 2011 and the additional shares were distributed on May 31, 2011. Accordingly, all per share amounts, average shares outstanding, shares outstanding, shares repurchased and equity based compensation presented in this Form 10-Q have been retroactively adjusted to reflect the stock split. Shareholders' equity has been retroactively adjusted to give effect to the stock split for all periods presented by reclassifying the stated value of the additional shares issued in connection with the stock split to Common shares from Additional paid-in capital.

Net Sales: Net sales for the first quarter of 2012 increased 21.4% from the first quarter 2011. The sales increase reflects volume increases of 12.8%, price increases of 3.7%, increases from acquisitions of 5.9% and unfavorable impacts from foreign exchange of 1.0%. Sales volumes increased because of improved demand levels reflective of expanding industrial economies and modest market gains. Product pricing increased from prior year levels due to the realization of price increases implemented in response to increases in raw material costs.

Gross Profit: Gross profit increased 33.3% to \$215,265 for the first quarter 2012 compared with \$161,438 in the first quarter 2011. As a percentage of Net sales, Gross profit increased to 29.6% in the first quarter 2012 from 26.9% in the first quarter 2011. The increase in this percentage was the result of increased product pricing and operating leverage partially offset by rising material costs and lower margins from recent acquisitions. Foreign currency exchange rates had a \$1,797 unfavorable translation impact in the first quarter 2012.

Table of Contents

Selling, General & Administrative (SG&A) Expenses: SG&A expenses were higher by \$21,996, or 21.6%, in the first quarter 2012 compared with the first quarter of 2011. As a percentage of Net sales, SG&A expenses were 17.0% in the first quarter 2012 and 2011. The increase in SG&A expenses was predominantly due to higher bonus expense of \$10,934, increased selling, administrative and research and development expense of \$7,015, increased selling, general and administrative expenses from acquisitions of \$2,487 and increased legal expenses of \$1,557 partially offset by foreign currency translations of \$1,020.

Interest Income: Interest income increased to \$883 in the first quarter 2012 from \$608 in the first quarter of 2011. The increase was largely due to a higher average cash balance in the current quarter earning a more favorable rate of interest.

Equity Earnings in Affiliates: Equity earnings in affiliates were \$692 in the first quarter 2012 compared with earnings of \$830 in the first quarter of 2011. The decrease was due to decreases in earnings of \$24 in Turkey and \$113 in Chile.

Interest Expense: Interest expense decreased to \$1,172 in the first quarter 2012 from \$1,658 in the first quarter of 2011 as a result of lower levels of debt in the current period.

Income Taxes: The Company recognized \$28,770 of tax expense on pre-tax income of \$92,919, resulting in an effective income tax rate of 31.0% for the three months ended March 31, 2012. The effective income tax rate is lower than the Company's statutory rate primarily due to income earned in lower tax rate jurisdictions and the utilization of foreign tax loss carryforwards for which valuation allowances had been previously provided.

The effective income tax rate of 22.5% for the three months ended March 31, 2011 was lower than the Company's statutory rate primarily due to income earned in lower tax rate jurisdictions, the utilization of foreign tax loss carryforwards for which valuation allowances had been previously provided and a \$4,844 favorable adjustment for tax audit settlements.

Net Income: Net income for the first quarter 2012 was \$64,243 compared with Net income of \$46,910 in the first quarter of 2011. Diluted earnings per share for the first quarter 2012 was \$0.76 compared with \$0.55 in the first quarter of 2011. Foreign currency exchange rate movements had an unfavorable translation effect of \$460 on Net income for the first quarter of 2012.

Net Sales: Net sales volumes for the first quarter of 2012 increased for all operating segments because of improved demand levels reflective of expanding industrial economies. Product pricing increased for all operating segments from prior year levels due to the realization of price increases implemented in response to increases in raw material costs. Product pricing in the South America Welding segment reflects a higher inflationary environment, particularly in Venezuela. Product pricing increased in The Harris Products Group segment primarily as a result of the pass-through effect of higher commodity costs, particularly silver and copper, over the prior year period. With respect to changes in Net sales due to foreign exchange, all segments, except for the Asia Pacific Welding segment, decreased due to a stronger U.S. dollar. The Asia Pacific Welding segment increased largely due to a stronger Chinese renminbi and Australian dollar, partially offset by a weaker Indian rupee.

EBIT, as adjusted, and as a percent of total sales increased for all segments in the three months ended March 31, 2012 as compared with the prior year. The North America Welding segment growth is primarily due to improved leverage on 22.5% increase in volumes. The increase at the Europe Welding segment is primarily due to improved leverage on price increases of 4.7%. The Asia Pacific Welding segment increase represents improved profitability from prior rationalization actions. The South America Welding segment increase is a result of improved leverage on volume increases of 10.5% and price increases of 9.0%. The Harris Products Group segment growth is primarily a result of

operating leverage on 6.5% increase in volumes.

In the three months ended March 31, 2011, EBIT for the Europe Welding segment was adjusted for special items charges of \$358. Special items in the period consists of \$23 in asset impairment charges, \$204 in losses on the disposal of fixed assets at rationalized operations and rationalization charges of \$131, primarily related to employee severance and other costs associated with the consolidation of manufacturing operations resulting from actions initiated in 2009. EBIT for the Asia

Table of Contents

Pacific Welding segment was adjusted for a rationalization gain of \$1, primarily related to employee severance and other costs associated with the consolidation of manufacturing operations resulting from actions initiated in 2009.

Non-GAAP Financial Measures

The Company reviews Adjusted operating income, Adjusted net income and Adjusted diluted earnings per share, all non-GAAP financial measures, in assessing and evaluating the Company's underlying operating performance. These non-GAAP financial measures exclude the impact of special items on the Company's reported financial results. Non-GAAP financial measures should be read in conjunction with the GAAP financial measures, as non-GAAP measures are a supplement to, and not a replacement for, GAAP financial measures.

The following table presents a reconciliation of Operating income as reported to Adjusted operating income:

	Three Months Ended March 31,	
	2012	2011
Operating income as reported	\$ 91,650	\$ 59,462
Special items (pre-tax):		
Rationalization and asset impairment charges		357
Adjusted operating income	\$ 91,650	\$ 59,819

Special items included in Operating income during the first quarter 2011 include net rationalization and asset impairment charges of \$357, primarily related to employee severance and other costs associated with the consolidation of manufacturing operations in the Europe Welding and Asia Pacific Welding segments resulting from actions initiated in 2009.

The following table presents reconciliations of Net income and Diluted earnings per share as reported to Adjusted net income and Adjusted diluted earnings per share:

Diluted earnings per share as reported	\$ 0.76	\$ 0.55
Special items		(0.05)
Adjusted diluted earnings per share	\$ 0.76	\$ 0.50

Special items included in Net income for the first quarter 2011 include net after-tax rationalization and asset impairment charges of \$281, primarily related to employee severance and other costs associated with the consolidation of manufacturing operations in the Europe Welding

and Asia Pacific Welding segments resulting from actions initiated in 2009. Special items for the first quarter of 2011 also include a gain of \$4,844 related to a favorable adjustment for tax audit settlements in the North America Welding segment.

Liquidity and Capital Resources

The Company's cash flow from operations can be cyclical. Operational cash flow is a key driver of liquidity, providing cash and access to capital markets. In assessing liquidity, the Company reviews working capital measurements to define areas for improvement. Management anticipates the Company will be able to satisfy cash requirements for its ongoing businesses for the foreseeable future primarily with cash generated by operations, existing cash balances and, if necessary, borrowings under its existing credit facilities.

The Company continues to expand globally and periodically looks at transactions that would involve significant investments. The Company can fund its global expansion plans with operational cash flow, but a significant acquisition may require access to capital markets, in particular, the long-term debt market, as well as the syndicated bank loan market. The Company's financing strategy is to fund itself at the lowest after-tax cost of funding. Where possible, the Company utilizes operational cash flows and raises capital in the most efficient market, usually the United States, and then lends funds to the specific subsidiary that requires funding. If additional acquisitions providing appropriate financial benefits become available, additional expenditures may be made.

Table of Contents

The following table reflects changes in key cash flow measures:

	Three Months Ended March 31,		
	2012	2011	Change
Cash provided by operating activities	\$ 79,164	\$ 16,738	\$ 62,426

Cash dividends paid to shareholders	(14,186)	(12,987)	(1,199)
Decrease in Cash and cash equivalents	(60,263)	(24,778)	

Cash and cash equivalents decreased 16.7% or \$60,263 during the three months ended March 31, 2012 to \$300,838 from \$361,101 as of December 31, 2011 due predominantly to the Company's repayment of the \$80,000 senior unsecured note. This compares to a decrease of 6.8% or \$24,778 to \$341,415 during the three months ended March 31, 2011.

Cash provided by operating activities increased by \$62,426 for the three months ended March 31, 2012, compared with the three months ended March 31, 2011. The increase was predominantly due to lower net operating working capital requirements and increased Net income in the three months ended March 31, 2012, compared with the three months ended March 31, 2011. Net operating working capital is defined as the sum of Accounts receivable and Total inventory less Trade accounts payable. Net operating working capital to sales, defined as net operating working capital divided by annualized rolling three months of Net sales, increased to 21.4% at March 31, 2012 compared with 21.0% at December 31, 2011 and 22.1% at March 31, 2011. Days sales in inventory increased to 95.5 days at March 31, 2012 from 92.5 days at December 31, 2011 and decreased from 105.2 days at March 31, 2011. Accounts receivable days increased to 56.5 days at March 31, 2012 from 53.5 days at December 31, 2011 and decreased from 60.6 days at March 31, 2011. Average days in accounts payable increased to 40.2 days at March 31, 2012 from 35.1 days at December 31, 2011 and decreased from 49.7 days at March 31, 2011.

Cash used by investing activities for the three months ended March 31, 2012 compared with the three months ended March 31, 2011 increased by \$1,011. This reflects a decrease in capital expenditures of \$2,936 in the three months ended March 31, 2012, and an increase in cash used in the acquisition of businesses of \$4,015. The Company anticipates capital expenditures in 2012 to be in the range of \$60,000 to \$70,000. Anticipated capital expenditures reflect investments for capital maintenance to improve operational effectiveness and the Company's continuing international expansion. Management critically evaluates all proposed capital expenditures and requires each project to increase efficiency, reduce costs, promote business growth, or improve the overall safety and environmental conditions of the Company's facilities.

Cash used by financing activities increased by \$96,227 to \$107,859 in the three months ended March 31, 2012 compared with the comparable period of 2011. The increase was predominantly due to higher net payments of long-term borrowings of \$81,223, due primarily to the Company's repayment of the \$80,000 senior unsecured note and higher purchases of common shares for treasury of \$19,193.

Edgar Filing: LINCOLN ELECTRIC HOLDINGS INC - Form 10-Q

The Company's debt levels decreased from \$103,378 at December 31, 2011 to \$25,041 at March 31, 2012. Debt to total invested capital decreased to 1.9% at March 31, 2012 from 8.0% at December 31, 2011. The decrease was predominantly due to the repayment of the Company's \$80,000 senior unsecured note on March 12, 2012.

In January 2012, the Company paid a cash dividend of \$0.17 per share, or \$14,186, to shareholders of record on December 31, 2011.

Venezuela Highly Inflationary Economy

Venezuela is a highly inflationary economy under GAAP. As a result, the financial statements of the Company's Venezuelan operation are reported under highly inflationary accounting rules as of January 1, 2010. Under highly inflationary accounting, the financial statements of the Company's Venezuelan operation have been remeasured into the Company's reporting currency and exchange gains and losses from the remeasurement of monetary assets and liabilities are reflected in current earnings. In remeasuring the financial statements the official exchange rate for non-essential goods of 4.30 is used as this is the rate expected to be applicable to dividend repatriations.

Table of Contents

Future impacts to earnings of applying highly inflationary accounting for Venezuela on the Company's consolidated financial statements will be dependent upon movements in the applicable exchange rates between the bolivar and the U.S. dollar and the amount of monetary assets and liabilities included in the Company's Venezuelan operation's balance sheet. The bolivar-denominated monetary net asset position was \$12,015 at March 31, 2012 and \$6,826 at December 31, 2011. The increased exposure was due to the limited opportunities to convert bolivars into U.S. dollars.

New Accounting Pronouncements

Refer to Note 3 to the consolidated financial statements for a discussion of accounting standards recently adopted or required to be adopted in the future.

Acquisitions

On March 6, 2012, the Company completed the acquisition of Weartech International, Inc. (Weartech) for approximately \$30,286 in cash and assumed debt. The preliminary fair value of net assets acquired was \$20,246, resulting in goodwill of \$10,040. These values are preliminary and subject to final closing balance sheet and working capital adjustments. Weartech, based in Anaheim, California, is a producer of cobalt-based hard facing and wear-resistant welding consumables. The acquisition added to the Company's consumables portfolio. Annual sales for 2011 were approximately \$40,000.

On July 29, 2011, the Company acquired substantially all of the assets of Techalloy Company, Inc. and certain assets of its parent company, Central Wire Industries Ltd. (collectively, Techalloy), for approximately \$36,900 in cash and assumed debt. The fair value of net assets acquired was \$32,814, resulting in goodwill of \$4,086. Techalloy, based in Baltimore, Maryland, is a manufacturer of nickel alloy and stainless steel welding consumables. The acquisition added to the Company's consumables portfolio. Annual sales for Techalloy at the date of acquisition were approximately \$70,000.

On July 29, 2011, the Company acquired substantially all of the assets of Applied Robotics, Inc. (d/b/a Torchmate) (Torchmate) for approximately \$8,280 in cash. The fair value of net assets acquired was \$2,361, resulting in goodwill of \$5,919. Torchmate, based in Reno, Nevada, provides a wide selection of computer numeric controlled plasma cutter and oxy-fuel cutting systems. The acquisition added to the Company's plasma and oxy-fuel cutting product offering. Annual sales for Torchmate at the date of acquisition were approximately \$13,000.

On March 11, 2011, the Company completed the acquisition of OOO Severstal-metiz: welding consumables (Severstal) for approximately \$16,861 in cash and assumed debt. The fair value of net assets acquired was \$8,049, resulting in goodwill of \$8,812. Severstal is a leading manufacturer of welding consumables in Russia and was a subsidiary of OAO Severstal, one of the world's leading vertically integrated steel and mining companies. This acquisition expanded the Company's capacity and distribution channels in Russia and the Commonwealth of Independent States. Sales for Severstal during 2010 were approximately \$40,000.

Edgar Filing: LINCOLN ELECTRIC HOLDINGS INC - Form 10-Q

On January 31, 2011, the Company acquired substantially all of the assets of SSCO Manufacturing, Inc. (d/b/a Arc Products) (Arc Products) for approximately \$3,280 in cash and a contingent consideration liability fair valued at \$3,806. The contingent consideration is based upon estimated sales for the five-year period ending December 31, 2015 and will be paid in 2016 based on actual sales during the five-year period. The fair value of net assets acquired was \$3,613, resulting in goodwill of \$3,473. Arc Products is a manufacturer of orbital welding systems and welding automation components based in Southern California. Orbital welding systems are designed to automatically weld pipe and tube in difficult to access locations and for mission-critical applications requiring high weld integrity and sophisticated quality monitoring capabilities. The acquisition will complement the Company's ability to serve global customers in the nuclear, power generation and process industries worldwide. Sales for Arc Products during 2010 were not significant.

Debt

The Company's \$80,000 Series C Note (the Note) was repaid on March 12, 2012, at maturity. The Company has a line of credit totaling \$150,000 through the Amended and Restated Credit Agreement (the Credit Agreement), which was entered into on November 18, 2009. As of March 31, 2012, the Company was in compliance with all of its covenants and had no outstanding borrowings under the Credit Agreement, but had letters of credit outstanding totaling \$60, which reduced the availability under the Credit Agreement to \$149,940. The Credit Agreement has a three-year term and is scheduled to expire in November 2012 which may be increased, subject to certain conditions, by an additional amount up to \$75,000 at any time not later than 180 days prior to the last day of the term. The Company expects to replace the Credit Agreement prior to its expiration in November 2012, although there can be no assurances that the Company can replace the Credit Agreement or that satisfactory terms will be reached.

The Company historically utilized interest rate swaps to manage interest rate risks. The Company terminated its remaining interest rate swaps in 2009 and had no interest rate swaps outstanding as of March 31, 2012. The termination of interest rate swaps in 2009 resulted in a realized gain of \$5,079. This gain was deferred and amortized over the remaining life of the Note. The amortization of this gain reduced Interest expense by \$328 and \$410 in the three months ended March 31, 2012

Table of Contents

and 2011, respectively. At March 31, 2012, the deferred gain was fully amortized. The weighted average effective interest rate on the Note, net of the impact of swaps, was 4.1% for the three months ended March 31, 2012.

Pensions

In March 2012, the Company announced a plan to amend a defined benefit plan in the United States to allow participants, including those with deferred vested pension benefits, the option to receive a one-time lump sum payment of their pension benefits. If the lump sum benefit payments exceed approximately \$52,000 in 2012, with a maximum possible payout of \$117,000, settlement accounting will be required. Settlement accounting requires accumulated gains or losses in other comprehensive income to be recognized into Net income based on the proportional reduction of the projected benefit obligation due to the payments. The Company estimates the pre-tax impact of the settlement accounting to be a loss of up to \$44,000, which will be recognized in the fourth quarter 2012. The actual loss to be recognized will be dependent upon the number of participants electing the lump sum payment option, the actual return on plan assets and various actuarial assumptions, including discount rate, long-term rate of return on assets, compensation increases, retirement age and mortality at the remeasurement date.

Forward-looking Statements

The Company's expectations and beliefs concerning the future contained in this report are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements reflect management's current expectations and involve a number of risks and uncertainties. Forward-looking statements generally can be identified by the use of words such as may, will, expect, intend, estimate, anticipate, believe, forecast, guidance or words of similar meaning. Actual results may differ materially from such statements due to a variety of factors that could adversely affect the Company's operating results. The factors include, but are not limited to: general economic and market conditions; the effectiveness of operating initiatives; currency exchange and interest rates; adverse outcome of pending or potential litigation; possible acquisitions; market risks and price fluctuations related to the purchase of commodities and energy; global regulatory complexity; and the possible effects of events beyond our control, such as political unrest, acts of terror and natural disasters, on the Company or its customers, suppliers and the economy in general. For additional discussion, see Item 1A. Risk Factors in this Form 10-Q and in the Company's Annual Report on Form 10-K.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in the Company's exposure to market risk since December 31, 2011. See Item 7A. Quantitative and Qualitative Disclosures About Market Risk in the Company's Annual Report on Form 10-K for the year ended December 31, 2011.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Edgar Filing: LINCOLN ELECTRIC HOLDINGS INC - Form 10-Q

The Company carried out an evaluation under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of the end of the period covered by this Form 10-Q. Based on that evaluation, the Company's management, including the Chief Executive Officer and Chief Financial Officer, concluded that the Company's disclosure controls and procedures are effective as of March 31, 2012.

Changes in Internal Control Over Financial Reporting

There have been no changes in the Company's internal control over financial reporting during the quarter ended March 31, 2012 that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company is subject, from time to time, to a variety of civil and administrative proceedings arising out of its normal operations, including, without limitation, product liability claims and health, safety and environmental claims. Among such proceedings are the cases described below.

At March 31, 2012, the Company was a co-defendant in cases alleging asbestos induced illness involving claims by approximately 15,496 plaintiffs, which is a net decrease of 1,285 claims from those previously reported. In each instance, the Company is one of a large number of defendants. The asbestos claimants seek compensatory and punitive damages, in most cases for unspecified sums. Since January 1, 1995, the Company has been a co-defendant in other similar cases that have been resolved as follows: 40,515 of those claims were dismissed, 20 were tried to defense verdicts, seven were tried to plaintiff verdicts (two of which are being appealed), one was resolved by agreement for an immaterial amount and 603 were

Table of Contents

decided in favor of the Company following summary judgment motions. In the quarter ending March 31, 2012 defense verdicts were entered in two such cases in Common Pleas Court in Philadelphia, Pennsylvania.

At March 31, 2012, the Company was a co-defendant in cases alleging manganese induced illness involving claims by approximately 678 plaintiffs, which is a net decrease of 128 claims from those previously reported. In each instance, the Company is one of a large number of defendants. The claimants in cases alleging manganese induced illness seek compensatory and punitive damages, in most cases for unspecified sums. The claimants allege that exposure to manganese contained in welding consumables caused the plaintiffs to develop adverse neurological conditions, including a condition known as manganism. At March 31, 2012, cases involving 89 claimants were filed in or transferred to federal court where the Judicial Panel on Multi-district Litigation has consolidated these cases for pretrial proceedings in the Northern District of Ohio. Since January 1, 1995, the Company has been a co-defendant in similar cases that have been resolved as follows: 16,161 of those claims were dismissed, 23 were tried to defense verdicts in favor of the Company and five were tried to plaintiff verdicts (three of which were reversed on appeal and one of which is on appeal). In addition, 13 claims were resolved by agreement for immaterial amounts and one claim was decided in favor of the Company following a summary judgment motion. On January 18, 2012, the Company and 18 co-defendants entered into an agreement with plaintiffs' counsel that provides for the dismissal with prejudice of substantially all of the pending manganese claims provided certain conditions precedent are satisfied. On April 27, 2012, those conditions precedent were satisfied and the Company fulfilled its obligations under the foregoing agreement. As a result, dismissals are being entered in substantially all of the manganese cases.

On December 13, 2006, the Company filed a complaint in U.S. District Court (Northern District of Ohio) against Illinois Tool Works, Inc. seeking a declaratory judgment that eight patents owned by the defendant relating to certain inverter power sources have not and are not being infringed and that the subject patents are invalid. Illinois Tool Works, Inc. filed a motion to dismiss this action, which the Court denied on June 21, 2007. On September 7, 2007, the Court stayed the litigation, referencing pending reexaminations before the U.S. Patent and Trademark Office. On June 17, 2008, the Company filed a motion to amend its pleadings in the foregoing matter to include several additional counts, including specific allegations of fraud on the U.S. Patent and Trademark Office with respect to portable professional welding machines and resulting monopoly power in that market. This litigation is being dismissed following the execution of cross-licenses dated April 4, 2012, in settlement of this dispute.
