**Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995**

Certain statements contained in this report on Form 8-K and Exhibit 99.1 are forward-looking statements intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. These forward-looking statements and financial or other business targets are subject to certain risks and uncertainties. Actual results and trends may differ materially from historical or anticipated results depending on a variety of factors, including but not limited to risks and uncertainties relating to the following: fluctuations in demand affecting sales to customers; the financial condition and inventory strategies of customers; changes in customer order patterns; worldwide and local economic conditions; fluctuations in cost and availability of raw materials; ability of the company to generate sustained productivity improvement; ability of the company to achieve and sustain targeted cost reductions; impact of competitive products and pricing; loss of significant contract(s) or customer(s); collection of receivables from customers; selling prices; business mix shift; changes in tax laws and regulations, and uncertainties associated with interpretations of such laws and regulations; outcome of tax audits; timely development and market acceptance of new products, including sustainable or sustainably-sourced products; investment in development activities and new production facilities; fluctuations in foreign currency exchange rates and other risks associated with foreign operations; integration of acquisitions and completion of pending dispositions; amounts of future dividends and share repurchases; customer and supplier concentrations; successful implementation of new manufacturing technologies and installation of manufacturing equipment; disruptions in information technology systems; successful installation of new or upgraded information technology systems; volatility of financial markets; impairment of capitalized assets, including goodwill and other intangibles; credit risks; ability of the company to obtain adequate financing arrangements and maintain access to capital; fluctuations in interest and tax rates; fluctuations in pension, insurance and employee benefit costs; impact of legal and regulatory proceedings, including with respect to environmental, health and safety; changes in governmental laws and regulations; changes in political conditions; impact of epidemiological events on the economy and the company's customers and suppliers; acts of war, terrorism, and natural disasters; and other factors.

The Company believes that the most significant risk factors that could affect its financial performance in the near-term include (1) the impact of economic conditions on underlying demand for the Company's products; (2) the degree to which higher costs can be offset with productivity measures and/or passed on to customers through selling price increases, without a significant loss of volume; and (3) competitors' actions, including pricing, expansion in key markets, and product offerings.

For a more detailed discussion of these and other factors, see Part I, Item 1A. Risk Factors and Part II, Item 7. Management's Discussion and Analysis of Results of Operations and Financial Condition in the Company's 2011 Form 10-K, filed on February 27, 2012 with the Securities and Exchange Commission, and subsequent quarterly reports on Form 10-Q. The forward-looking statements included in this Form 8-K are made only as of the date of this Form 8-K, and the Company undertakes no obligation to update these statements to reflect subsequent events or circumstances.
