SECURITIES AND EXCHANGE COMMISSION
Washington D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT UNDER SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2014

TRANSITION REPORT UNDER SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For transition period from _____ to _____

Commission file number **000-27464**

BROADWAY FINANCIAL CORPORATION

(Exact name of registrant as specified in its charter)

Delaware

95-4547287

Edgar Filing: BROADWAY FINANCIAL CORP \DE\ - Form 10-Q

(State or other jurisdiction of
incorporation or organization)

(I.R.S. Employer
Identification No.)

5055 Wilshire Boulevard, Suite 500
Los Angeles, California
(Address of principal executive offices)

90036
(Zip Code)

(323) 634-1700

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated, or a smaller reporting company. See the definition of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large Accelerated Filer Accelerated Filer Non-Accelerated Filer Smaller Reporting Company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date:

As of November 5, 2014, 21,405,188 shares of the Registrant's voting common stock and 7,671,520 shares of the Registrant's non-voting common stock were outstanding.

BROADWAY FINANCIAL CORPORATION AND SUBSIDIARIES

Notes to Unaudited Consolidated Financial Statements

NOTE (1) Basis of Financial Statement Presentation

The accompanying unaudited consolidated financial statements include Broadway Financial Corporation (the Company) and its wholly owned subsidiary, Broadway Federal Bank, f.s.b. (the Bank). Also included in the unaudited consolidated financial statements is Broadway Service Corporation, a wholly owned subsidiary of the Bank. All significant intercompany balances and transactions have been eliminated in consolidation.

The unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions for quarterly reports on Form 10-Q. These unaudited consolidated financial statements do not include all disclosures associated with the Company's consolidated annual financial statements included in its Annual Report on Form 10-K for the year ended December 31, 2013 and, accordingly, should be read in conjunction with such audited consolidated financial statements. In the opinion of management, all adjustments (all of which are normal and recurring in nature) considered necessary for a fair presentation have been included. Operating results for the three and nine months ended September 30, 2014 are not necessarily indicative of the results that may be expected for the year ending December 31, 2014.

Some items in the consolidated financial statements for the prior period were reclassified to conform to the current presentation. Reclassifications had no effect on prior period consolidated net income or loss or stockholders' equity.

Recent Accounting Pronouncements

In July 2013, the FASB amended ASU 2013-11, Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists. These amendments provide that an unrecognized tax benefit, or a portion thereof, should be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, except that to the extent that a net operating loss carryforward, a similar tax loss, or a tax credit carryforward is not available at the reporting date to settle any additional income taxes that would result from disallowance of a tax position, or the tax law does not require the entity to use, and the entity does not intend to use, the deferred tax asset for such purpose, then the unrecognized tax benefit should be presented as a liability. These amendments are effective for interim and annual reporting periods beginning after December 15, 2013. Adopting this standard did not have a material effect on the Company's operating results or financial condition.

In January 2014, the FASB issued ASU 2014-01, Investments - Equity Method and Joint Ventures (Topic 323): Accounting for Investments in Qualified Affordable Housing Projects. ASU 2014-01 permits a reporting entity to make an accounting policy election to account for its investments in affordable housing projects using the proportional amortization method if certain conditions are met. Under the proportional amortization method, an entity amortizes the initial cost of the investment in proportion to the amount of tax credits and other tax benefits

received and recognizes the net investment performance in the income statement as a component of income tax expense or benefit. ASU 2014-01 becomes effective for interim and annual periods beginning on or after December 15, 2014, with early adoption permitted. The provisions of ASU 2014-01 must be applied retrospectively to all periods presented. The Company is assessing the impact of the new guidance on its consolidated financial statements.

In January 2014, the FASB issued ASU 2014-04, *Receivables - Troubled Debt Restructurings by Creditors*. ASU 2014-04 requires entities to reclassify consumer mortgage loans collateralized by residential real estate to REO when either (1) the creditor obtains legal title to the residential real estate property or (2) the borrower conveys all interest in the property to the creditor to satisfy the loan by completing a deed in lieu of foreclosure or similar agreement. A reporting entity is required to make interim and annual disclosure of both the amount of foreclosed residential real estate property held by the creditor and the recorded investment in consumer mortgage loans collateralized by residential real estate property that are in process of foreclosure. ASU 2014-04 becomes effective for interim and annual periods beginning on or after December 15, 2014. Adoption of ASU 2014-04 is not expected to have a material impact on the Company's consolidated financial statements.

Table of Contents**BROADWAY FINANCIAL CORPORATION AND SUBSIDIARIES****Notes to Unaudited Consolidated Financial Statements (continued)****NOTE (2) Earnings (Loss) Per Share of Common Stock**

Basic earnings (loss) per share of common stock is computed by dividing income (loss) available to common stockholders by the weighted average number of shares of common stock outstanding for the period. Diluted earnings (loss) per share of common stock is computed by dividing income (loss) available to common stockholders by the weighted average number of shares of common stock outstanding for the period, increased for the dilutive effect of common stock equivalents, except for the Company's formerly outstanding Series F Non-cumulative Voting Preferred Stock and Series G Non-Voting Preferred Stock, which are both included as participating securities in the table below. The participating securities are entitled to share in common stock dividends on an as-converted basis. There were no participating securities in 2014.

The following table shows how the Company computed basic and diluted earnings (loss) per share of common stock for the three and nine months ended September 30, 2014 and 2013:

	For the three months ended September 30,		For the nine months ended September 30,	
	2014	2013	2014	2013
	(Dollars in thousands, except per share)			
Basic				
Net income (loss)	\$ 765	\$ 584	\$ 1,813	\$ (260)
Less: Preferred stock dividends and accretion	-	(127)	-	(779)
Less: Net (income) loss attributable to participating securities	-	(283)	-	465
Income (loss) available to common stockholders	\$ 765	\$ 174	\$ 1,813	\$ (574)
Weighted average common shares outstanding	20,247,159	3,755,695	20,238,679	2,536,913
Earnings (loss) per common share - basic	\$ 0.04	\$ 0.05	\$ 0.09	\$ (0.23)
Diluted				
Net income (loss)	\$ 765	\$ 584	\$ 1,813	\$ (260)
Less: Preferred stock dividends and accretion	-	(127)	-	(779)
Less: Net (income) loss attributable to participating securities	-	(283)	-	465
Income (loss) available to common stockholders	\$ 765	\$ 174	\$ 1,813	\$ (574)
Weighted average common shares outstanding	20,247,159	3,755,695	20,238,679	2,536,913
Add: dilutive effects of assumed exercises of stock options	-	-	-	-
Weighted average common shares - fully dilutive	20,247,159	3,755,695	20,238,679	2,536,913
Earnings (loss) per common share - diluted	\$ 0.04	\$ 0.05	\$ 0.09	\$ (0.23)

Edgar Filing: BROADWAY FINANCIAL CORP \DE\ - Form 10-Q

Stock options for 93,750 shares of common stock for the three and nine months ended September 30, 2014 and 148,750 shares of common stock for the three and nine months ended September 30, 2013 were not considered in computing diluted earnings (loss) per common share because they were anti-dilutive.

Table of Contents**BROADWAY FINANCIAL CORPORATION AND SUBSIDIARIES****Notes to Unaudited Consolidated Financial Statements (continued)****NOTE (3) Securities**

The following table summarizes the amortized cost and fair value of the available-for-sale investment securities portfolios at September 30, 2014 and December 31, 2013 and the corresponding amounts of unrealized gains and losses which are recognized in accumulated other comprehensive income (loss):

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
	(In thousands)			
September 30, 2014:				
Residential mortgage-backed	\$ 15,450	\$ 469	\$ -	\$ 15,919
U.S. Government and federal agency	1,929	14	-	1,943
Total available-for-sale securities	\$ 17,379	\$ 483	\$ -	\$ 17,862
December 31, 2013:				
Residential mortgage-backed	\$ 8,917	\$ 480	\$ -	\$ 9,397
Total available-for-sale securities	\$ 8,917	\$ 480	\$ -	\$ 9,397

The amortized cost and fair value of the investment securities portfolios are shown by contractual maturity at September 30, 2014. Expected maturities may differ from contractual maturities if borrowers have the right to call or prepay obligations with or without call or prepayment penalties. Securities not due at a single maturity date, primarily residential mortgage-backed securities, are shown separately.

Maturity	Available-for-Sale	
	Amortized Cost	Fair Value
	(In thousands)	
Within one year	\$ -	\$ -
One to five years	-	-
Five to ten years	1,929	1,943
Beyond ten years	-	-
Residential mortgage-backed	15,450	15,919
Total	\$ 17,379	\$ 17,862

At September 30, 2014 and December 31, 2013, securities pledged to secure public deposits and FHLB advances had a carrying amount of \$1.2 million and \$9.4 million, respectively. At September 30, 2014 and December 31, 2013, there were no holdings of securities of any one issuer, other than the U.S. Government and its agencies, in an amount greater than 10% of stockholders' equity.

During the first quarter of 2014, \$8.6 million of residential mortgage-backed securities and \$1.9 million of U.S. Government and federal agency securities were purchased and were classified as available-for-sale. There were no sales of securities during the three and nine months ended

September 30, 2014 and 2013.

Table of Contents**BROADWAY FINANCIAL CORPORATION AND SUBSIDIARIES****Notes to Unaudited Consolidated Financial Statements (continued)****NOTE (4) Loans Receivable Held for Investment**

Loans at September 30, 2014 and December 31, 2013 were as follows:

	September 30, 2014	December 31, 2013

Total	\$ 36,669	\$ 360	\$ 38,079	\$ 971

Cash-basis interest income recognized represents cash received for interest payments on accruing impaired loans. Interest payments collected on non-accrual loans are characterized as payments of principal rather than payments of the outstanding accrued interest on the loans until the remaining principal on the non-accrual loans is considered to be fully collectible. Foregone interest income that would have been recognized had loans performed in accordance with their original terms amounted to \$337 thousand and \$668 thousand for the three months ended September 30, 2014 and 2013, respectively, and \$1.2 million and \$1.5 million for the nine months ended September 30, 2014 and 2013, respectively, and were not included in the consolidated results of operations.

Church	5,786	11,735
Commercial - other	110	150
Total non-accrual loans	\$ 9,863	\$ 17,702

There were no loans 90 days or more delinquent that were accruing interest as of September 30, 2014 or December 31, 2013.

Troubled Debt Restructurings

At September 30, 2014, loans classified as troubled debt restructurings (TDRs) totaled \$22.0 million, of which \$6.9 million were included in non-accrual loans and \$15.1 million were on accrual status. At December 31, 2013, loans classified as TDRs totaled \$27.3 million, of which \$11.5 million were included in non-accrual loans and \$15.8 million were on accrual status. The Company has allocated \$1.4 million and \$1.9 million of specific reserves for accruing TDRs as of September 30, 2014 and December 31, 2013, respectively. TDRs on accrual status are comprised of loans that were accruing at the time of restructuring or loans that have complied with the terms of their restructured agreements for a satisfactory period of time, and for which the Bank anticipates full repayment of both principal and interest. TDRs that are on non-accrual status can be returned to accrual status after a period of sustained performance, generally determined to be six months of timely payments as modified. A well-documented credit analysis that supports a return to accrual status based on the borrower's financial condition and prospects for repayment under the revised terms is also required. As of September 30, 2014 and December 31, 2013, the Company had no commitment to lend additional amounts to customers with outstanding loans that are classified as TDRs.

No loans were modified during the three months ended September 30, 2014 and 2013 and the nine months ended September 30, 2014. The terms of certain loans were modified as TDRs during the nine months ended September 30, 2013. The modification of the terms of such loans included payments of delinquent property taxes, which the borrower would be required to repay over a period greater than six months.

Table of Contents**BROADWAY FINANCIAL CORPORATION AND SUBSIDIARIES****Notes to Unaudited Consolidated Financial Statements (continued)**

The following table presents loans by type modified as troubled debt restructurings during the nine months ended September 30, 2013:

	Nine Months Ended September 30, 2013		
	Number of Loans	Pre- Modification Outstanding Recorded Investment (Dollars in thousands)	Post- Modification Outstanding Recorded Investment
Single family	5	\$ 739	\$ 789
Commercial real estate	1	1,456	1,497
Total	6	\$ 2,195	\$ 2,286

The troubled debt restructurings described above increased the allowance for loan losses by \$57 thousand and resulted in charge-offs of \$23 thousand during the nine months ended September 30, 2013.

At September 30, 2014 and 2013, none of the loans modified as troubled debt restructurings within the previous 12 months experienced a payment default. A loan is considered to be in payment default once it is 90 days contractually past due under the modified terms.

Credit Quality Indicators

The Company categorizes loans into risk categories based on relevant information about the ability of borrowers to service their debt such as: current financial information, historical payment experience, credit documentation, public information, and current economic trends, among other factors. For single family residential, consumer and other smaller balance homogenous loans, a credit grade is established at inception, and generally only adjusted based on performance. Information about payment status is disclosed elsewhere herein. The Company analyzes all other loans individually by classifying the loans as to credit risk. This analysis is performed at least on a quarterly basis. The Company uses the following definitions for risk ratings:

- **Special Mention.** Loans classified as special mention have a potential weakness that deserves management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or of the institution's credit position at some future date.

- **Substandard.** Loans classified as substandard are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the institution will sustain some loss if the deficiencies are not corrected.
- **Doubtful.** Loans classified as doubtful have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.
- **Loss.** Loans classified as loss are considered uncollectible and of such little value that to continue to carry the loan as an active asset is no longer warranted.

Table of Contents**BROADWAY FINANCIAL CORPORATION AND SUBSIDIARIES****Notes to Unaudited Consolidated Financial Statements (continued)**

Loans not meeting the criteria above that are analyzed individually as part of the above described process are considered to be pass rated loans. Pass rated loans are generally well protected by the current net worth and paying capacity of the obligor or by the value of the underlying collateral. Pass rated assets are not more than 59 days past due and are generally performing in accordance with the loan terms. Based on the most recent analysis performed, the risk category of loans by type of loans as of September 30, 2014 and December 31, 2013 is as follows:

	September 30, 2014				
	Pass	Special Mention	Substandard	Doubtful	Loss

NOTE (5) Junior Subordinated Debentures and Senior Debt

On March 17, 2004, the Company issued \$6.0 million of Floating Rate Junior Subordinated Debentures (the "Debentures") in a private placement to a trust that was capitalized to purchase subordinated debt and preferred stock of multiple community banks. Interest on the Debentures is payable quarterly at a rate per annum equal to the 3-month LIBOR plus 2.54%. The interest rate is determined as of each March 17, June 17, September 17, and December 17, and was 2.77% at September 30, 2014. The Company stopped paying interest on the Debentures in September 2010 and was not able to pay the principal or accrued interest on the Debentures at their March 17, 2014 maturity date. The accrued interest on the Debentures was \$797 thousand as of September 30, 2014. Under the Cease and Desist Order applicable to the Company, the Company is not permitted to make payments on its debt without prior notice to and receipt of written notice of non-objection from the Board of Governors of the Federal Reserve System (FRB). In addition, under the terms of the Debentures, the Company is not allowed to make payments on the Debentures if the Company is in default on any of its senior indebtedness, which term includes the senior debt described below. In January 2014, the Company submitted a proposal to the trustee for the trust that holds the Debentures to extend the maturity of the Debentures to March 17, 2024 in return for paying all accrued interest on the Debentures and \$900 thousand, or 15%, of the principal amount of the Debentures at face value, subject to satisfaction of certain conditions. The Company subsequently satisfied the conditions to implementation of this proposal, including, among others, obtaining the requisite Debenture holder approval of the final terms of the transaction, obtaining written confirmation of non-objection to the proposal and related transactions from the FRB, securing approval by the Company's senior lender, and raising at least \$6.0 million of additional common equity capital. The Company completed the modification of the Debentures and related

Edgar Filing: BROADWAY FINANCIAL CORP \DE\ - Form 10-Q

transactions on October 16, 2014, on which date the Company concurrently consummated private placements of 8,829,549 shares of common stock, including 6,973,320 shares of non-voting common stock, for gross proceeds of \$9.7 million, made the required payments of principal and accrued interest on Debentures, executed a Supplemental Indenture for the Debentures, that extended the maturity of the Debentures to March 17, 2024, and modified the payment terms of the remaining \$5.1 million principal amount thereof and repaid the outstanding defaulted senior bank debt of \$2.4 million, together with all accrued interest thereon. The modified terms of the Debentures require quarterly payments of interest only for the next five years at the original rate of 3-Month LIBOR plus 2.54%. Starting in June 2019, the Company will be required to make quarterly payments of equal amounts of principal, plus interest, until the Debentures are fully amortized on March 17, 2024. The Debentures may be called for redemption at any time by the Company.

BROADWAY FINANCIAL CORPORATION AND SUBSIDIARIES

Notes to Unaudited Consolidated Financial Statements (continued)

NOTE (6) Fair Value

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair values:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a company's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The Company used the following methods and significant assumptions to estimate fair value:

The fair values of securities available-for-sale are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs) or matrix pricing, which is a mathematical technique to value debt securities without relying exclusively on quoted prices for the specific securities, but rather by relying on the securities' relationship to other benchmark quoted securities (Level 2 inputs).

The fair value of impaired loans that are collateral dependent is generally based upon the fair value of the collateral which is obtained from recent real estate appraisals. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the independent appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs for determining fair value. Impaired loans are evaluated on a quarterly basis for additional impairment and adjusted accordingly.

Assets acquired through or by transfer in lieu of loan foreclosure are initially recorded at fair value less costs to sell when acquired, establishing a new cost basis. These assets are subsequently accounted for at lower of cost or fair value less estimated costs to sell. Fair value is commonly based on recent real estate appraisals which are updated every nine months. These appraisals may utilize a single valuation approach or a

combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the independent appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs for determining fair value. Real estate owned properties are evaluated on a quarterly basis for additional impairment and adjusted accordingly.

Table of Contents**BROADWAY FINANCIAL CORPORATION AND SUBSIDIARIES****Notes to Unaudited Consolidated Financial Statements (continued)**

Appraisals for collateral-dependent impaired loans and real estate owned are performed by certified general appraisers (for commercial properties) or certified residential appraisers (for residential properties) whose qualifications and licenses have been reviewed and verified by the Company. Once received, an independent third-party licensed appraiser reviews the appraisals for accuracy and reasonableness, reviewing the assumptions and approaches utilized in the appraisal as well as the overall resulting fair value in comparison with independent data sources such as recent market data or industry-wide statistics.

Assets Measured on a Recurring Basis

Assets measured at fair value on a recurring basis are summarized below:

	Fair Value Measurements at September 30, 2014			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
	(In thousands)

The methods and assumptions, not previously presented, used to estimate fair values are described as follows:

(a) Cash and Cash Equivalents

The carrying amounts of cash and cash equivalents approximate fair values and are classified as Level 1.

Table of Contents

BROADWAY FINANCIAL CORPORATION AND SUBSIDIARIES

Notes to Unaudited Consolidated Financial Statements (continued)

(b) Loans receivable held for investment

Fair values of loans are estimated as follows: For variable rate loans that reprice frequently and with no significant change in credit risk, fair values are based on carrying values resulting in a Level 3 classification. Fair values for other loans are estimated using discounted cash flow analyses, using interest rates currently being offered for loans with similar terms to borrowers of similar credit quality resulting in a Level 3 classification. Impaired loans are valued at the lower of cost or fair value as described previously. The methods utilized to estimate the fair value of loans do not necessarily represent an exit price.

(c) FHLB Stock

It is not practical to determine the fair value of FHLB stock due to restrictions placed on its transferability.

(d) Deposits and Advance Payments by Borrowers for Taxes and Insurance

The fair values disclosed for demand deposits (e.g., interest and non-interest checking, passbook savings, and certain types of money market accounts) are, by definition, equal to the amount payable on demand at the reporting date (i.e., their carrying amount) resulting in Level 2 classification. Fair values for fixed rate certificates of deposit are estimated using discounted cash flow calculations that apply interest rates currently being offered on certificates to a schedule of aggregated expected monthly maturities on time deposits resulting in a Level 2 classification.

(e) Federal Home Loan Bank Advances

The fair values of the Federal Home Loan Bank advances are estimated using discounted cash flow analyses based on the current borrowing rates for similar types of borrowing arrangements resulting in a Level 2 classification.

(g) Junior Subordinated Debentures and Senior Debt

The fair values of the Company's Debentures and senior debt are estimated using discounted cash flow analyses based on the current borrowing rates for similar types of borrowing arrangements resulting in a Level 3 classification.

(h) Accrued Interest Receivable

The carrying amounts of accrued interest receivable approximate their fair value and are classified the same as the related asset.

(i) Accrued Interest Payable

The carrying amounts of accrued interest on deposits and Federal Home Loan Bank advances approximate their fair value. The carrying amounts of accrued interest on Debentures and senior debt are estimated by applying a discount similar to the related debt. The fair values of accrued interest are classified the same as the related liability.

NOTE (7) Stock-based Compensation

In 2008, we adopted the 2008 Long-Term Incentive Plan (2008 LTIP), which was approved by the stockholders. The 2008 LTIP permits the grant of non-qualified and incentive stock options, stock appreciation rights, full value awards and cash incentive awards to the Company's non-employee directors and certain officers and employees for up to 2,000,000 shares of common stock. Option awards are generally granted with an exercise price equal to the market price of the Company's common stock at the date of grant; the option awards have vesting periods ranging from immediate vesting to 5 years and have 10-year contractual terms.

Table of Contents**BROADWAY FINANCIAL CORPORATION AND SUBSIDIARIES****Notes to Unaudited Consolidated Financial Statements (continued)**

No options were granted during the three and nine months ended September 30, 2014 and 2013. The Company recorded \$0 and \$11 thousand of stock-based compensation expense during the three and nine months ended September 30, 2014 and \$11 thousand and \$33 thousand of stock-based compensation expense during the three and nine months ended September 30, 2013.

NOTE (8) Regulatory Matters

Effective September 9, 2010, the Company and the Bank agreed to the issuance of cease and desist orders (the Orders) by the Office of Thrift Supervision, which was the regulatory predecessor of the Office of the Comptroller of the Currency (OCC). The Order applicable to the Company prohibits the Company from paying dividends to its stockholders without the prior written approval of the FRB, which is now the federal regulator for savings and loan holding companies. In addition, the Company is not permitted to incur, issue, renew, repurchase, make payments on or increase any debt or redeem any capital stock without prior notice to and receipt of written notice of non-objection from the FRB.

Effective October 30, 2013, the Bank entered into a Consent Order with the OCC, which superseded the Order applicable to the Bank. The Bank's capital requirements are administered by the OCC and involve quantitative measures of assets, liabilities, and certain off-balance sheet items calculated under regulatory accounting practices. Capital amounts and classifications are also subject to qualitative judgments by the OCC. Failure to meet capital requirements can result in regulatory action.

As part of the Consent Order, the Bank is required to maintain a Tier 1 (Core) Capital to Adjusted Total Assets ratio of at least 9% and a Total Risk-Based Capital to Risk-Weighted Assets ratio of at least 13%, both of which ratios are greater than the respective 4% and 8% levels for such ratios that are generally required under OCC regulations.

The Bank met the minimum capital requirements under the Consent Order at September 30, 2014 and December 31, 2013. Actual and required capital amounts and ratios at September 30, 2014 and December 31, 2013, together with the higher capital requirements that the Bank is required to meet under the Consent Order applicable to it, are presented below.

	Actual		Required for Capital Adequacy Purposes		Capital Requirements under Consent Order	
	Amount	Ratio	Amount (Dollars in thousands)	Ratio	Amount	Ratio

BROADWAY FINANCIAL CORPORATION AND SUBSIDIARIES

Notes to Unaudited Consolidated Financial Statements (continued)

NOTE (9) Income Taxes

The Company and its subsidiaries are subject to U.S. federal and state income taxes. Income tax expense is the total of the current year income tax due or refundable and the change in deferred tax assets and liabilities. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carry-forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion, or all, of the deferred tax asset will not be realized. In assessing the realization of deferred tax assets, management evaluates both positive and negative evidence, including the existence of cumulative losses in the current year and the prior two years, the amount of taxes paid in available carry-back years, the forecasts of future income and tax planning strategies. This analysis is updated quarterly. Based on this analysis, the Company determined that a valuation allowance of \$10.3 million was required as of September 30, 2014, resulting in \$0 net deferred tax assets. The Company had recorded a valuation allowance of \$9.7 million and \$0 net deferred tax assets as of December 31, 2013.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is intended to provide a reader of our financial statements with a narrative from the perspective of our management on our financial condition, results of operations, liquidity and certain other factors that may affect our future results. Our MD&A should be read in conjunction with the Consolidated Financial Statements and related Notes included in Part I Item 1, Financial Statements, of this Quarterly Report on Form 10-Q and our Annual Report on Form 10-K for the year ended December 31, 2013.

Overview

In order to generate net interest income, we continued to rebuild our loan portfolio by originating \$67.2 million in multi-family loans during the nine months ended September 30, 2014. Since the end of the year, we have further reduced our non-performing assets, primarily through payoffs and sales of REOs. Also, we achieved aggregate recoveries of approximately \$1.9 million, primarily from the payoffs of two non-accrual loans which had been fully written off in late 2011, resulting in a recovery of \$1.1 million.

During the first quarter of 2014, we obtained conditional approval from the trust that holds our Debentures of our proposal to extend the maturity of the Debentures to March 17, 2024, in exchange for payment of a portion of the principal of the Debentures and payment of all accrued interest on the Debentures through the effective date of the extension. We subsequently satisfied the conditions to implementation of this proposal, including, among others, obtaining the requisite Debenture holder approval, obtaining written confirmation of non-objection to the proposal and related transactions from the FRB, securing approval by our senior lender, and raising at least \$6.0 million of additional common equity capital. We completed the modification of the Debentures and related transactions on October 16, 2014, on which date we concurrently consummated private placements of 8,829,549 shares of common stock, including 6,973,320 shares of non-voting common stock, for gross proceeds of \$9.7 million, made the required payments of principal and accrued interest on Debentures, executed a Supplemental Indenture for the Debentures that extended the maturity of the remaining \$5.1 million principal amount of the Debentures to March 17, 2024 and modified the payment terms thereof, and repaid the outstanding defaulted senior bank debt of \$2.4 million, together with all accrued interest thereon, in full. The modified terms of the Debentures require quarterly payments of interest only for the next five years at the original rate of 3 Month LIBOR plus 2.54%. Starting in June 2019, we will be required to make quarterly payments of equal amounts of principal, plus interest, until the Debentures are fully amortized on March 17, 2024. The Debentures may be called for redemption at any time by the Company.

Total assets increased by \$5.5 million during the nine months ended September 30, 2014, primarily reflecting a \$33.7 million increase in our net loan portfolio, an \$8.5 million increase in our securities portfolio and a \$37.0 million decrease in cash and cash equivalents as we invested our excess liquidity into mortgage-backed securities and multi-family loans in order to improve the yield on interest-earning assets and grow total interest income

During the nine months ended September 30, 2014, total deposits increased by \$2.7 million while FHLB borrowings and senior debt remained the same during 2014.

We recorded net income of \$765 thousand and \$1.8 million for the three and nine months ended September 30, 2014, compared to net income of \$584 thousand and net loss of \$260 thousand for the three and nine months ended September 30, 2013, respectively. Results during the first

Edgar Filing: BROADWAY FINANCIAL CORP \DE\ - Form 10-Q

nine months of 2014 included a recapture of loan losses of \$2.5 million and a grant of \$200 thousand received from the U.S. Department of the Treasury's Community Development Financial Institutions (CDFI) Fund.

Table of Contents

Results of Operations

Net Income (Loss)

For the three and nine months ended September 30, 2014, we recorded net income of \$765 thousand, or \$0.04 per diluted common share, and \$1.8 million, or \$0.09 per diluted common share, respectively. For the same periods a year ago, we recorded net income of \$584 thousand, or \$0.05 per diluted common share, and net loss of \$260 thousand, or \$0.23 per diluted common share, respectively.

The increases in net income were primarily due to a recapture of loan losses of \$950 thousand and \$2.5 million during the three and nine months ended September 30, 2014, compared to a provision for loan losses of \$414 thousand during the three and nine months ended September 30, 2013. In addition, during the first nine months of 2014, we earned more net interest income before recapture of loan losses and we received a CDFI grant of \$200 thousand. Partially offsetting these increases was the inclusion of a gain of \$1.2 million on the restructuring of the Company's senior debt in the third quarter of 2013. We also incurred higher non-interest expense during the first nine months of 2014.

Net Interest Income

For the third quarter of 2014, net interest income before recapture of loan losses totaled \$2.9 million, up \$278 thousand, or 11%, from \$2.6 million of net interest income before provision for loan losses for the third quarter of 2013. The increase of \$278 thousand in net interest income primarily resulted from an increase of \$27.9 million in the average balance of loans receivable and an increase of 28 basis points in net interest margin.

Interest income increased \$64 thousand, or 2%, to \$3.9 million for the third quarter of 2014 from \$3.8 million for the third quarter of 2013. The increase in interest income was primarily due to an increase of \$27.9 million in the average balance of loans receivable, which increased interest income by \$384 thousand and an increase of \$7.7 million in the average balance in securities, which increased interest income by \$46 thousand. We continue to rebuild our loan portfolio by originating \$67.2 million in multi-family loans during the first nine months of 2014, with \$26.6 million in such loans during the third quarter. To supplement loan originations, we purchased \$8.6 million of mortgaged-backed securities and \$1.9 million of U.S. government and federal agency securities in March 2014.

The above increases in interest income were partially offset by a decrease of 52 basis points in the average yield on loans, which decreased interest income by \$340 thousand, a decrease of 48 basis points in the average yield on securities, which decreased interest income by \$14 thousand, and a decrease of \$28.6 million in the average balance in federal funds, which decreased interest income by \$17 thousand. The average yield on loans decreased from 5.80% for the third quarter of 2013 to 5.28% for the third quarter of 2014. The lower average loan yield on loans for the third quarter of 2014 was primarily due to payoffs of loans which carried a higher average yield than the average yield on loans, and lower yields on loan originations as a result of the low interest rate environment.

Total interest expense decreased \$214 thousand, or 18%, from \$1.2 million for the third quarter of 2013 to \$959 thousand for the third quarter of 2014. Deposit interest expense decreased \$101 thousand primarily due to a 16 basis point decrease in the cost of deposits and a \$5.8 million

decline in the average balance of deposits. The decreases in the average balance and average cost of deposits reflect the maturities of certificates of deposit bearing higher rates. Interest expense on FHLB advances decreased \$10 thousand due to a decrease of 5 basis points in the average cost of FHLB advances resulting from \$8.0 million in the first quarter of 2014. No interest expense was recognized on the senior debt during the third quarter of 2014, compared to \$81 thousand of interest expense during the third quarter of 2013. As a result of the modification of the senior debt in August 2013, which was accounted for as a troubled debt restructuring, the carrying amount of the senior debt exceeded total expected cash payments due under the modified agreement, including interest, resulting in a gain on debt restructuring. A portion of this gain was deferred and was being recognized as we made payments on the modified senior debt. As a result, no interest expense has been recorded with respect to this modified senior debt since the completion of the debt restructuring in August 2013. The entire balance of the senior debt was repaid after the end of the quarter. Accordingly, the remaining deferred gain on debt restructuring of \$365 thousand will be taken into income in the fourth quarter.

Table of Contents

The following tables set forth average balance sheets, average yields and costs, and certain other information for the periods indicated. All average balances are daily average balances. The yields set forth below include the effect of deferred loan fees, and discounts and premiums that are amortized or accreted to interest income or expense. We do not accrue interest on loans on non-accrual status; however, the balance of these loans is included in the total average balance of loans receivable, which has the effect of reducing average loan yields.

<i>(Dollars in Thousands)</i>	For the three months ended September 30,

(3) Amount is net of deferred loan costs, unamortized premium, and loans in process, and includes loans held for sale.

(4) Includes compounding on past due interest.

(5) Includes default rate margin that was in effect to August 22, 2013. No interest expense was recognized on the senior debt post restructuring because the floating interest rate on the remaining modified loan did not exceed the floor rate of 6% during 2014.

(6) Net interest rate spread represents the difference between the yield on average interest-earning assets and the cost of average interest-bearing liabilities.

(7) Net interest rate margin represents net interest income as a percentage of average interest-earning assets.

Table of Contents

Provision for (Recapture of) Loan Losses

For the third quarter of 2014, we booked a recapture of \$950 thousand of previously recorded provisions for loan losses, compared to a provision for loan losses of \$414 thousand for the same period a year ago. The recapture of loan losses during the third quarter of 2014 primarily reflected a recovery for loan losses of \$671 thousand as a result of a settlement of a loan which had been previously written down in exchange for property received in foreclosure, the fair value of which exceeded the cost basis of the related loan. In addition, the recapture of loan losses reflected a decline in net charge-offs and overall historical loss factors and improvements in our asset quality.

For the nine months ended September 30, 2014, we recorded a recapture of \$2.5 million compared to a provision for loan losses of \$414 thousand for the same period a year ago. The recapture of loan losses during the first nine months of 2014 primarily resulted from \$1.9 million of recoveries on previously charged-off loans.

Non-interest Income

Non-interest income for the third quarter of 2014 decreased \$1.2 million from \$1.4 million for the third quarter of 2013 to \$165 thousand for the third quarter of 2014. The decrease in non-interest income during the third quarter of 2014 was primarily due to the inclusion of a gain of \$1.2 million on the restructuring of the Company's senior debt in the third quarter of 2013. In addition, service charges decreased \$29 thousand and loan servicing fees decreased \$17 thousand during the third quarter of 2014. These decreases were partially offset by a gain of \$52 thousand on the sale of REO during the third quarter of 2014, compared to a loss of \$8 thousand on the sale of REO during the same period a year ago.

For the nine months ended September 30, 2014, non-interest income totaled \$562 thousand compared to \$1.8 million for the same period a year ago. The \$1.3 million decrease in non-interest income during the first nine months of 2014 primarily reflected the inclusion of a gain of \$1.2 million on the restructuring of the Company's senior debt in the third quarter of 2013, a reduction of \$97 thousand in net gains on sales of loans, a decrease of \$70 thousand in service charges, and a reduction of \$52 thousand in loan servicing fees which were partially offset by an increase of \$148 thousand in other income, primarily reflecting a grant of \$200 thousand received from the CDFI Fund in early 2014 and a \$35 thousand reduction in miscellaneous loan fees.

Non-interest Expense

Non-interest expense for the third quarter of 2014 increased \$259 thousand from \$3.0 million for the third quarter of 2013 to \$3.3 million for the third quarter of 2014. The increase in non-interest expense was primarily due to an increase of \$350 thousand in compensation and benefits expense and an increase of \$52 thousand in occupancy expense, primarily rent expense. Compensation and benefits expense increased during the third quarter of 2014 primarily due to a bonus accrual and an increase in full-time equivalent employees from 68 in September 2013 to 73 in September 2014. In addition, we recorded a \$315 thousand recapture of losses on loans held for sale in the third quarter 2013, resulting in reduction of non-interest expense for that quarter.

The above increases in non-interest expense were partially offset by a decrease of \$267 thousand in provision for losses on REOs, a decrease of \$92 thousand in other expense, primarily insurance expense, and a decrease of \$90 thousand in professional services expense, primarily legal expense.

For the nine months ended September 30, 2014, non-interest expense totaled \$9.9 million compared to \$9.8 million for the same period a year ago. The \$131 thousand increase in non-interest expense during the first nine months of 2014 primarily reflected an increase of \$596 thousand in compensation and benefits expense and an increase of \$240 thousand in professional services expense. These increases in non-interest expense were partially offset by a decrease of \$309 thousand in other expenses, primarily insurance, REO and appraisal expenses, a decrease of \$153 thousand in provision for losses on loans held for sale, a decrease of \$150 thousand in provision for losses on REOs and a decrease of \$46 thousand in FDIC insurance expense.

Table of Contents

Income Taxes

The Company's income tax expense was \$0 and \$3 thousand for the three and nine months ended September 30, 2014 compared to \$0 thousand and \$6 thousand for the three and nine months ended September 30, 2013, respectively. The tax expense for 2014 and 2013 primarily reflected the minimum taxes paid to the state of California, and the use of tax carryforwards to offset current taxable income in the periods presented.

Financial Condition

Total Assets

Total assets were \$338.0 million at September 30, 2014, which represented an increase of \$5.5 million, or 2%, from December 31, 2013. During the first nine months of 2014, net loans held for investment increased by \$33.7 million, securities increased by \$8.5 million and cash and cash equivalents decreased by \$37.0 million as we invested excess federal funds in securities and loans in order to grow total interest income and improve the yield on interest-earning assets.

Securities Available for Sale

In March 2014, we purchased \$8.6 million of mortgaged-backed securities and \$1.9 million of U.S. government and federal agency securities with an average yield of 2.23%.

Loans Receivable Held for Investment

Our gross loan portfolio increased by \$32.0 million to \$288.8 million at September 30, 2014 from \$256.8 million at December 31, 2013. The increase in our loan portfolio since the end of 2013 consisted of an increase of \$54.4 million in our multi-family residential real estate loan portfolio which was partially offset by a decrease of \$4.8 million in our single family residential real estate loan portfolio, a decrease of \$5.1 million in our commercial real estate loan portfolio, a decrease of \$11.0 million in our church loan portfolio and a decrease of \$1.5 million in our commercial loan portfolio.

Loan originations, including loan purchases, for the nine months ended September 30, 2014 totaled \$67.2 million, compared to \$35.3 million for the nine months ended September 30, 2013. Loan repayments for the nine months ended September 30, 2014 totaled \$32.1 million, compared to \$33.4 million for the nine months ended September 30, 2013. Loan charge-offs during the first nine months of 2014 totaled \$483 thousand, compared to charge-offs of \$2.6 million during the first nine months of 2013. Loans transferred to REO during the first nine months of 2014 totaled \$3.3 million, compared to \$1.8 million during the first nine months of 2013.

Allowance for Loan Losses

We record a provision for loan losses as a charge to earnings when necessary in order to maintain the allowance for loan losses (ALLL) at a level sufficient, in management's judgment, to absorb probable incurred losses in the loan portfolio. At least quarterly we conduct an assessment of the overall quality of the loan portfolio and general economic trends in the local market. The determination of the appropriate level for the allowance is based on that review, considering such factors as historical loss experience for each type of loan, the size and composition of our loan portfolio, the levels and composition of our loan delinquencies, non-performing loans and net loan charge-offs, the value of underlying collateral on problem loans, regulatory policies, general economic conditions, and other factors related to the collectability of loans in the portfolio.

Our ALLL decreased by \$1.0 million from \$10.1 million, or 3.95% of our loans receivable held for investment, at December 31, 2013, to \$9.1 million, or 3.14% of our loans receivable held for investment, at September 30, 2014, primarily reflecting \$2.5 million of recapture of loan losses and \$483 thousand of loan charge-offs which were partially offset by \$1.9 million of recoveries on previously charged-off loans. We continue to maintain our allowance at a level which we believe is appropriate given the significant reduction in non-performing loans, the continued improvement in our asset quality metrics, as well as the high quality of our loan originations.

Table of Contents

Recoveries during the first nine months of 2014 totaled \$1.9 million compared to \$608 thousand during the first nine months of 2013. Recoveries during the first nine months of 2014 were primarily due to payoffs of two non-accrual loans secured by church properties and two commercial loans which had been fully written off in late 2011 and due to a settlement of a loan which had been previously written down in exchange for property received in foreclosure, the fair value of which exceeded the cost basis of the related loan.

Loan charge-offs during the first nine months of 2014 were \$483 thousand, or 0.24% of average loans, compared to \$2.6 million, or 1.31% of average loans, during the first nine months of 2013. Charge-offs during the first nine months of 2014 were related to losses on impaired loans and consisted of a charge-off of \$323 thousand on a church loan, a charge-off of \$133 thousand on a single family residential real estate loan, a charge-off of \$18 thousand on a commercial loan and a charge-off of \$9 thousand on a commercial real estate loan.

Our asset quality continues to show signs of improvement as our loan delinquencies and non-performing loans are at their lowest levels since December 2009. As of September 30, 2014, we had total delinquencies of \$1.8 million, compared to total delinquencies of \$11.1 million at December 31, 2013. Loan delinquencies decreased by \$9.3 million during the first nine months of 2014 as \$5.4 million of delinquent loans were brought current, \$3.4 million were paid off and \$2.6 million were foreclosed and transferred to REO, which were partially offset by \$2.2 million of loans that became delinquent in 2014. Of the \$1.8 million delinquent loans at September 30, 2014, \$898 thousand were greater than 90 days delinquent.

Non-performing loans (NPLs) consist of delinquent loans that are 90 days or more past due and other loans, including troubled debt restructurings that do not qualify for accrual status. At September 30, 2014, NPLs totaled \$9.9 million, compared to \$17.7 million at December 31, 2013. The \$7.8 million decrease in NPLs was primarily due to repayments of \$4.7 million, including payoffs of \$3.7 million, the transfer of \$2.6 million of NPLs to REO and the return of loans totaling \$1.5 million to accrual status. These decreases were partially offset by \$991 thousand of loans that were placed on non-accrual status during the first nine months of 2014.

The ratio of the ALLL to NPLs increased to 91.93% at September 30, 2014 from 57.32% at December 31, 2013, primarily due to the \$7.8 million decrease in NPLs. When reviewing the adequacy of the ALLL as a percentage of NPLs, we consider the impact of charge-offs. Also, we update our estimates of collateral values on NPLs by obtaining new appraisals at least every nine months. If the estimated fair value of the loan collateral less estimated selling costs is less than the recorded investment in the loan, a charge-off for the difference is recorded to reduce the loan to its estimated fair value, less estimated selling costs. Therefore, certain losses inherent in our total NPLs are recognized periodically through charge-offs. The impact of updating these estimates of collateral value and recognizing any required charge-offs is to increase charge-offs and reduce the ALLL required on these loans. As of September 30, 2014, we had written down 69% of our NPLs to estimated fair value less estimated selling costs. The remaining 31% of our NPLs at September 30, 2014 had specific reserves or were reported at cost because the fair value of collateral less estimated selling costs exceeded the recorded investment in the loan. Also, in connection with our review of the adequacy of our ALLL, we track the amount and percentage of our NPLs that are paying currently, but nonetheless must be classified as NPL for reasons unrelated to payments, such as lack of current financial information and an insufficient period of satisfactory performance. As of September 30, 2014, \$9.0 million, or 91%, of our total NPLs of \$9.9 million were current in their payments.

Impaired loans at September 30, 2014 were \$25.0 million, compared to \$33.5 million at December 31, 2013. Specific reserves for impaired loans were \$1.5 million, or 6.12% of the aggregate impaired loan amount at September 30, 2014, compared to \$2.2 million, or 6.53%, at December 31, 2013. Excluding specific reserves for impaired loans, our coverage ratio (general allowance as a percentage of total non-impaired loans) was 2.86% at September 30, 2014, compared to 3.56% at December 31, 2013. The decrease in our coverage ratio reflected a decline in our historical loss factors and the continued improvements in our asset quality.

Management believes that the ALLL is adequate to cover probable incurred losses in the loan portfolio as of September 30, 2014, but there can be no assurance that actual losses will not exceed the estimated amounts. In addition, the OCC and the FDIC periodically review the ALLL as an integral part of their examination process. These agencies may require an increase in the ALLL based on their judgments of the information available to them at the time of their examinations.

Table of Contents

Real Estate Owned

During the nine months ended September 30, 2014, REO increased by \$416 thousand from \$2.1 million at December 31, 2013 to \$2.5 million at September 30, 2014. During the first nine months of 2014, four loans totaling \$3.3 million, which consisted of a multi-family residential property and three church buildings, were foreclosed and transferred to REO. Six REO properties were sold during the first nine months of 2014 for net proceeds of \$2.5 million and a net gain of \$2 thousand. At September 30, 2014, the Bank's REO consisted of three commercial real estate properties, all of which are church buildings.

Deposits

Deposits totaled \$217.1 million at September 30, 2014, up \$2.7 million from December 31, 2013. During the first nine months of 2014, certificates of deposit increased by \$2.7 million and represented 61% of total deposits at September 30, 2014 and December 31, 2013. Core deposits (NOW, demand, money market and passbook accounts) decreased by \$61 thousand during the first nine months of 2014 and represented 39% of total deposits at September 30, 2014 and December 31, 2013.

Borrowings

At September 30, 2014, borrowings consisted of advances from the FHLB of \$79.5 million, Debentures of \$6.0 million and our modified senior debt of \$2.4 million, excluding the unamortized deferred gain on debt restructuring of \$387 thousand.

At September 30, 2014, advances from the FHLB remained unchanged from \$79.5 million, or 24% of total assets, at year-end 2013. The weighted average cost of advances decreased 5 basis points from 2.49% at December 31, 2013 to 2.44% at September 30, 2014 primarily because we refinanced \$8.0 million of advances in February 2014.

Our \$6.0 million aggregate principal amount of Debentures matured on March 17, 2014. As of September 30, 2014, the accrued interest on the Debentures was \$797 thousand. We are not permitted to make payments on any debt without prior notice to and receipt of written notice of non-objection from the FRB. In addition, under the terms of the Debentures, we are not allowed to make payments on the Debentures if the Company is in default on any of its senior indebtedness, which term includes the senior debt described below. On February 28, 2014, we were notified by the trustee for the trust which holds the Debentures that the requisite percentage of the holders of the trust's senior securities had indicated their approval of our proposal to extend the maturity until March 17, 2024, in return for a partial redemption of \$900 thousand aggregate principal amount of the Debentures at face value and payment of all interest accrued on the Debentures to the date of such redemption, subject to certain conditions. We subsequently satisfied the conditions to implementation of this proposal, including, among others, obtaining written confirmation of non-objection to the proposal and related transactions from the FRB, securing approval by our senior lender, and raising at least \$6.0 million of additional common equity capital. We completed the modification of the Debentures and related transactions on October 16, 2014, on which date we concurrently consummated private placements of 8,829,549 shares of common stock, including 6,973,320 shares of non-voting common stock, for gross proceeds of \$9.7 million, made the required payments of principal and accrued interest on the Debentures, executed a Supplemental Indenture for the Debentures that extended the maturity of the remaining \$5.1 million principal amount of the Debentures to March 17, 2024 and modified the payment terms thereof, and repaid the outstanding defaulted senior bank debt of \$2.4 million, together with all accrued interest thereon. The modified terms of the Debentures require quarterly payments of interest only for the next

Edgar Filing: BROADWAY FINANCIAL CORP \DE\ - Form 10-Q

five years at the original rate of 3 Month LIBOR plus 2.54%. Starting in June 2019, we will be required to make quarterly payments of equal amounts of principal, plus interest, until the Debentures are fully amortized on March 17, 2024. The Debentures may be called for redemption at any time by the Company.

Senior debt of \$2.8 million at September 30, 2014 consisted of \$2.4 million of principal, unchanged from December 31, 2013 and \$387 thousand of unamortized deferred gain on restructuring, which decreased by \$111 thousand during the first nine months of 2014 primarily reflecting interest payments made in February, May and August 2014. We repaid the full amount of the outstanding senior debt and related accrued interest after the end of the quarter with a portion of the proceeds from the private placement described above.

Table of Contents

Information regarding the Debentures and senior debt is included in Note 5 Junior Subordinated Debentures and Senior Debt of the Notes to Consolidated Financial Statements.

Stockholders' Equity

Stockholders' equity was \$27.4 million, or 8.12% of the Company's total assets, at September 30, 2014, compared to \$25.6 million, or 7.70% of the Company's total assets, at December 31, 2013.

Liquidity

The objective of liquidity management is to ensure that we have the continuing ability to fund operations and meet other obligations on a timely and cost-effective basis. The Bank's primary sources of funds include deposits, advances from the FHLB and payments of principal and interest on loans and investment securities. The Bank's primary uses of funds include withdrawal of and interest payments on deposits, originations of loans, purchases of investment securities, and payment of operating expenses.

Currently, we believe that the Bank has sufficient liquidity to support growth over the foreseeable future. We do not expect, however, that the Bank will be able to pay dividends to the Company for at least the next several quarters or such longer period as may be required to achieve recurring profitable operations. Through the first nine months of 2014, the Company had limited liquidity to pay operating expenses and needed to raise additional capital to continue paying its operating expenses, including allocations of shared expenses from the Bank, on a timely basis. As a result, during the first three quarters of 2014 our immediate priority for enhancing the Company's liquidity was to raise additional equity capital. As discussed above, we raised \$9.7 million of gross proceeds from the sale of our common stock in October. A portion of the proceeds will be used to pay future operating expenses of the Company and fund working capital. The balance of the proceeds from the private placement were used to retire the full amount of the outstanding balance of the Company's senior debt, pay \$900 thousand principal amount and all of the accrued interest on the Debentures, which was approximately \$805 thousand as of the closing date, and invest \$2.5 million in the Bank's common equity as a capital contribution.

The Company recorded consolidated net cash inflows from operating activities of \$630 thousand and \$1.6 million during the first nine months of 2014 and 2013, respectively. Net cash inflows from operating activities during the first nine months of 2014 were primarily attributable to interest payments received on loans and securities.

The Company recorded consolidated net cash outflows from investing activities of \$40.8 million during the first nine months of 2014, compared to consolidated net cash inflows from investing activities of \$21.1 million during the first nine months of 2013. Net cash outflows from investing activities during the first nine months of 2014 were attributable primarily to purchases of securities and originations of loans.

The Company recorded consolidated net cash inflows from financing activities of \$3.2 million during the first nine months of 2014, compared to consolidated net cash outflows of \$26.8 million during the first nine months of 2013. Net cash inflows from financing activities during the first nine months of 2014 were attributable primarily to a net increase in deposits. As discussed above, the Company raised \$9.7 million of gross

proceeds from the sale of voting and non-voting common stock in October 2014.

When the Bank has more funds than required for reserve requirements or short-term liquidity needs, the Bank sells federal funds to the Federal Reserve Bank or other financial institutions and maintains a portion of its liquid assets in interest-bearing cash deposits with other banks and in securities available-for-sale that are not pledged. The Bank's liquid assets at September 30, 2014 consisted of \$21.2 million in cash and cash equivalents and \$16.7 million in securities available-for-sale that were not pledged, compared to liquid assets of \$58.2 million in cash and cash equivalents at December 31, 2013.

Additionally, the Bank is currently approved by the FHLB to borrow up to \$100.0 million to the extent the Bank provides qualifying collateral and holds sufficient FHLB stock. That approved limit and collateral requirement would have permitted the Bank, as of September 30, 2014, to borrow an additional \$20.5 million.

Table of Contents**Capital Resources**

Our principal subsidiary, Broadway Federal, must comply with capital standards established by the OCC in the conduct of its business. Failure to comply with such capital requirements may result in significant limitations on its business or other sanctions. We are not currently subject to separate holding company capital requirements, but by July 2015 the Dodd-Frank Act will, among other things, impose specific capital requirements on us as a savings and loan holding company as well. These requirements must be no less than those to which federally insured depository institutions are currently subject. The current regulatory capital requirements are described in Note 8 of the Notes to Consolidated Financial Statements and in Regulatory Capital below.

Regulatory Capital

The capital regulations applicable to the Bank, which are administered by the OCC, include three separate minimum capital requirements. First, the tangible capital requirement mandates that the Bank's stockholder's equity, less intangible assets, be at least 1.50% of adjusted total assets as defined in the capital regulations. Second, the core capital requirement mandates that core capital (tangible capital plus certain qualifying intangible assets) be at least 4.00% of adjusted total assets as defined in the capital regulations. Third, the risk-based capital requirement mandates that core capital plus supplemental capital (as defined by the OCC) be at least 8.00% of risk-weighted assets as prescribed in the capital regulations. The capital regulations assign specific risk weightings to all assets and off-balance sheet items for this purpose.

The Bank is subject to higher capital requirements under the Consent Order entered into by the Bank with the OCC on October 30, 2013. The Consent Order raised the Bank's minimum capital requirements to 9% for Tier 1 (Core) Capital and 13% for Total Capital to risk weighted assets. The Bank was in compliance with all capital requirements in effect at September 30, 2014 and December 31, 2013.

Actual and required capital amounts and ratios at September 30, 2014 and December 31, 2013, together with the higher capital requirements that the Bank is required to meet under the Consent Order applicable to it, are presented below.

	Actual		Required for Capital Adequacy Purposes		Capital Requirements under Consent Order	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
September 30, 2014:						
Tangible Capital to adjusted total assets	\$ 36,606	10.84%	\$ 5,066	1.50%	N/A	N/A
Tier 1 (Core) Capital to adjusted total assets	\$ 36,606	10.84%	\$ 13,510	4.00%	\$ 30,398	9.00%
Total Capital to risk weighted assets	\$ 39,614	16.89%	\$ 18,764	8.00%	\$ 30,492	13.00%
December 31, 2013:						
Tangible Capital to adjusted total assets	\$ 34,035	10.24%	\$ 4,986	1.50%	N/A	N/A
Tier 1 (Core) Capital to adjusted total assets	\$ 34,035	10.24%	\$ 13,295	4.00%	\$ 29,914	9.00%
Total Capital to risk weighted assets	\$ 36,845	16.95%	\$ 17,394	8.00%	\$ 28,286	13.00%

On October 30, 2014, the Company made a capital contribution of \$2.5 million to the Bank which is not reflected in the table above.

Table of Contents

In July 2013, the OCC and the other federal bank regulatory agencies issued a final rule to revise their capital requirements and their method for calculating risk-weighted assets. Among other things, the final rule establishes a new common equity Tier 1 minimum capital requirement (4.5% of risk-weighted assets), increases the minimum Tier 1 capital to risk-weighted assets requirement (from 4% to 6% of risk-weighted assets) and assigns a higher risk weight (150%) to exposures that are more than 90 days past due and to certain commercial real estate facilities that finance the acquisition, development or construction of real property. The final rule also limits a banking organization's capital distributions and certain discretionary bonus payments if the banking organization does not hold a capital conservation buffer consisting of 2.5% of common equity Tier 1 capital to risk-weighted assets in addition to the amount necessary to meet its minimum risk-based capital requirements. The final rule becomes effective for us on January 1, 2015. The capital conservation buffer requirement will be phased in beginning January 1, 2016 and ending January 1, 2019, when the full capital conservation buffer requirement will be effective. We have estimated our capital ratios as of September 30, 2014 using the new standards and the pro forma ratios already exceed the requirements of the fully implemented capital rules.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

An evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures was performed under the supervision of the Company's Chief Executive Officer (CEO) and Chief Financial Officer (CFO) as of September 30, 2014. Based on that evaluation, the Company's CEO and CFO concluded that the Company's disclosure controls and procedures were effective as of September 30, 2014. There were no significant changes during the quarter ended September 30, 2014 in the Company's internal controls over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
