Franklin Street Properties Corp.

Notes to Condensed Consolidated Financial Statements

(Unaudited)

1. Organization, Properties, Basis of Presentation, Financial Instruments and Recent Accounting Standards

Organization

Franklin Street Properties Corp. (FSP Corp. or the Company), holds, directly and indirectly, 100% of the interest in FSP Investments LLC, FSP Property Management LLC, FSP Holdings LLC and FSP Protective TRS Corp. FSP Property Management LLC provides asset management and property management services. The Company also has a non-controlling common stock interest in nine corporations organized to operate as real estate investment trusts (REIT) and a non-controlling preferred stock interest in two of those REITs. Collectively, the nine REITs are referred to as the Sponsored REITs .

As of March 31, 2015, the Company owned and operated a portfolio of real estate consisting of 36 properties, managed nine Sponsored REITs and held five promissory notes secured by mortgages on real estate owned by Sponsored REITs, including one mortgage loan, one construction loan and three revolving lines of credit. From time-to-time, the Company may acquire real estate, make additional secured loans or acquire a Sponsored REIT. The Company may also pursue, on a selective basis, the sale of its properties in order to take advantage of the value creation and demand for its properties, or for geographic or property specific reasons.

Properties

The following table summarizes the Company's number of properties and rentable square feet of real estate:

	As of March 31,	
	2015	2014
Commercial real estate:		
Number of properties	36	39
Rentable square feet	9,310,131	9,686,055

Basis of Presentation

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 10-Q

The unaudited condensed consolidated financial statements of the Company include all the accounts of the Company and its wholly-owned subsidiaries. All significant intercompany balances and transactions have been eliminated. These financial statements should be read in conjunction with the Company's consolidated financial statements and notes thereto contained in the Company's Annual Report on Form 10-K for its fiscal year ended December 31, 2014, as filed with the Securities and Exchange Commission.

The accompanying interim financial statements are unaudited; however, the financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America (GAAP) for interim financial information and in conjunction with the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all of the disclosures required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting solely of normal recurring matters) necessary for a fair presentation of the financial statements for these interim periods have been included. Operating results for the three months ended March 31, 2015 are not necessarily indicative of the results that may be expected for the year ended December 31, 2015 or for any other period.

Financial Instruments

The Company estimates that the carrying values of cash and cash equivalents, restricted cash, receivables, prepaid expenses, accounts payable and accrued expenses, accrued compensation, tenant security deposits approximate their fair values based on their short-term maturity and the bank note and term loans payable approximate their fair values as they bear interest at variable interest rates.

Recent Accounting Standards

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers, which provides guidance for revenue recognition. The standard's core principle is that a company will recognize revenue when promised goods or services are transferred to customers in an amount that reflects the consideration to which a company expects to be entitled in exchange for those goods or services. This update is effective for interim and annual reporting periods beginning after December 15, 2016. The Company is currently in the process of evaluating the impact the adoption of this ASU will have on the condensed consolidated financial statements.

In August 2014, the FASB issued ASU 2014-15, *Presentation of Financial Statements - Going Concern: Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern*. This update requires an entity to evaluate whether there are conditions or events that raise substantial doubt about the entity's ability to continue as a going concern within one year after the date that the financial statements are issued (or within one year after the financial statements are available to be issued when applicable) and to provide related footnote disclosures in certain circumstances. This update is effective for the annual period ending after December 15, 2016, and for annual and interim periods thereafter with early adoption permitted. The implementation of this update is not expected to cause any significant changes to the condensed consolidated financial statements.

In April 2015, the FASB issued ASU No. 2015-03, *Simplifying the Presentation of Debt Issuance Costs*, which requires debt issuance costs to be presented in the balance sheet as a direct deduction from the associated debt liability. This update is effective for interim and annual reporting periods beginning after December 15, 2015 and requires retrospective application. The implementation of this update is not expected to cause any material changes to the condensed consolidated financial statements other than the reclassification of debt issuance costs from assets to contra liabilities on the condensed consolidated balance sheets. As of March 31, 2015 and December 31, 2014, \$7.1 million and \$7.6 million, respectively, would be reclassified from assets to contra liabilities on the condensed consolidated balance sheets.

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 10-Q

In February 2015, the FASB issued ASU 2015-02, Consolidation (Topic 810): Amendments to the Consolidation Analysis (ASU 2015-02). ASU 2015-02 affects reporting entities that are required to evaluate whether they should consolidate certain legal entities. ASU 2015-02 modifies the evaluation of whether limited partnerships and similar legal entities are VIEs or voting interest entities, eliminates the presumption that a general partner should consolidate a limited partnership and affects the consolidation analysis of reporting entities that are involved with VIEs, particularly those that have fee arrangements and related party relationships. ASU 2015-02 is effective for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2015. Early adoption is permitted. A reporting entity may apply the amendments in ASU 2015-02 using: (a) a modified retrospective approach by recording a cumulative-effect adjustment to equity as of the beginning of the fiscal year of adoption; or (b) by applying the amendments retrospectively. We are currently assessing the potential impact that the adoption of ASU 2015-02 will have on the condensed consolidated financial statements.

Table of Contents**Franklin Street Properties Corp.****Notes to Condensed Consolidated Financial Statements****(Unaudited)****2. Related Party Transactions and Investments in Non-Consolidated Entities***Investment in Sponsored REITs:*

At March 31, 2015 and December 31, 2014, the Company held a common stock interest in 9 and 10 Sponsored REITs, respectively. The Company holds a non-controlling preferred stock investment in two of these Sponsored REITs, FSP 303 East Wacker Drive Corp. (East Wacker) and FSP Grand Boulevard Corp. (Grand Boulevard), from which it continues to derive economic benefits and risks.

During the year ended December 31, 2014, properties owned by four Sponsored REITs were sold and, thereafter, liquidating distributions for their preferred shareholders were declared and issued. The Company held a mortgage loan with two of these entities secured by the property owned by FSP Galleria North Corp. (Galleria) and the property owned by FSP Highland Place I Corp. (Highland). The loan with Galleria in the principal amount of \$13,880,000 was repaid from the proceeds of the sale and the loan with Highland in the principal amount of \$3,395,000 was repaid from the proceeds of the sale.

During the three months ended March 31, 2015, a property owned by a Sponsored REIT was sold and, thereafter, liquidating distributions for their preferred shareholders were declared and issued.

Equity in losses of investment in non-consolidated REITs:

The following table includes equity in losses of investments in non-consolidated REITs

(in thousands)	Three Months Ended	
	2015	2014
Equity in loss of East Wacker	\$ 285	\$ 431
Equity in loss of Grand Boulevard	37	53
	\$ 322	\$ 484

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 10-Q

Equity in losses of investments in non-consolidated REITs is derived from the Company's share of income or loss in the operations of those entities. The Company exercises influence over, but does not control these entities, and investments are accounted for using the equity method.

Equity in losses of East Wacker is derived from the Company's preferred stock investment in the entity. In December 2007, the Company purchased 965.75 preferred shares or 43.7% of the outstanding preferred shares of East Wacker for \$82,813,000 (which represented \$96,575,000 at the offering price net of commissions of \$7,726,000, loan fees of \$5,553,000 and acquisition fees of \$483,000 that were excluded).

Equity in losses of Grand Boulevard is derived from the Company's preferred stock investment in the entity. In May 2009, the Company purchased 175.5 preferred shares or 27.0% of the outstanding preferred shares of Grand Boulevard for \$15,049,000 (which represented \$17,550,000 at the offering price net of commissions of \$1,404,000, loan fees of \$1,009,000 and acquisition fees of \$88,000 that were excluded).

The Company recorded distributions of \$27,000 from non-consolidated REITs during the three months ended March 31, 2015 and 2014.

Table of Contents

Franklin Street Properties Corp.

Notes to Condensed Consolidated Financial Statements

(Unaudited)

2. Related Party Transactions and Investments in Non-consolidated Entities (continued)

Management fees and interest income from loans:

Asset management fees range from 1% to 5% of collected rents and the applicable contracts are cancelable with 30 days notice. Asset management fee income from non-consolidated entities amounted to approximately \$211,000 and \$234,000 for the three months ended March 31, 2015 and 2014, respectively.

From time to time the Company may make secured loans (Sponsored REIT Loans) to Sponsored REITs in the form of mortgage loans or revolving lines of credit to fund construction costs, capital expenditures, leasing costs and for other purposes. The Company anticipates that each Sponsored REIT Loan will be repaid at maturity or earlier from long term financings of the underlying properties, cash flows from the underlying properties or some other capital event. Each Sponsored REIT Loan is secured by a mortgage on the underlying property and has a term of approximately one to three years, which may be extended from time to time by one year or longer. Except for the mortgage loan which bears interest at a fixed rate, advances under each Sponsored REIT Loan bear interest at a rate equal to the 30-day LIBOR rate plus an agreed upon amount of basis points and most advances also require a 50 basis point draw fee.

Table of Contents**Franklin Street Properties Corp.****Notes to Condensed Consolidated Financial Statements****(Unaudited)****2. Related Party Transactions and Investments in Non-consolidated Entities (continued)**

The following is a summary of the Sponsored REIT Loans outstanding as of March 31, 2015:

(dollars in thousands)

Sponsored REIT	Location	Maturity Date	Maximum Amount of Loan	Amount Drawn at 31-Mar-15	Interest Rate (1)	Draw Fee (2)	Interest Rate at 31-Mar-15
Secured revolving lines of credit							
FSP Satellite Place Corp.	Duluth, GA	31-Mar-17	\$ 5,500	\$ 5,500	L+4.4%	0.5%	4.57%
FSP 1441 Main Street Corp.	Columbia, SC	31-Mar-16	10,800	9,000	L+4.4%	0.5%	4.57%
FSP Energy Tower I Corp.	Houston, TX	3-Jul-15	20,000	8,600	L+5.0%	0.5%	5.17%
Secured construction loan							
FSP 385 Interlocken Development Corp.	Broomfield, CO	30-Apr-16	42,000	37,541	L+4.4%	n/a	4.57%
Mortgage loan secured by property							
FSP Energy Tower I Corp.	Houston, TX	3-Jul-15	33,000	33,000	6.41%	n/a	6.41%
			\$ 111,300	\$ 93,641			

(1) The interest rate is 30-day LIBOR rate plus the additional rate indicated, otherwise a fixed rate.

(2) The draw fee is a percentage of each new advance, and is paid at the time of each new draw.

The Company recognized interest income and fees from the Sponsored REIT Loans of approximately \$1,262,000 and \$1,409,000 for the three months ended March 31, 2015 and 2014, respectively.

Non-consolidated REITs:

The balance sheet data below for 2015 and 2014 includes the 9 and 10 Sponsored REITs the Company held an interest in as of March 31, 2015 and December 31, 2014, respectively. The operating data below for 2015 and 2014 include the operations of the 10 and 14 Sponsored REITs in which the Company held an interest in during the three months ended March 31, 2015 and 2014, respectively.

Summarized financial information for these Sponsored REITs is as follows:

(in thousands)	March 31, 2015	December 31, 2014
Balance Sheet Data (unaudited):		
Real estate, net	\$ 421,849	\$ 451,822
Other assets	105,791	127,259
Total liabilities	(200,754)	(203,239)
Shareholders' equity	\$ 326,886	\$ 375,842

(in thousands)	For the Three Months Ended March 31,	
	2015	2014
Operating Data (unaudited):		
Rental revenues	\$ 13,900	\$ 23,305
Other revenues	2	14
Operating and maintenance expenses	(8,235)	(11,746)
Depreciation and amortization	(4,975)	(7,677)
Interest expense	(2,457)	(3,431)
Net income	\$ (1,765)	\$ 465

3. Bank Note Payable and Term Note Payable

BMO Term Loan

On October 29, 2014, the Company entered into an Amended and Restated Credit Agreement (the "BMO Credit Agreement") with the lending institutions referenced in the BMO Credit Agreement and Bank of Montreal, as administrative agent, that continued a single, unsecured term loan borrowing in the amount of \$220,000,000 (the "BMO Term Loan"). On August 26, 2013, the Company drew down the entire \$220,000,000 under the BMO Term Loan, which remains fully advanced and outstanding under the BMO Credit Agreement. The BMO Term Loan matures on August 26, 2020. The BMO Credit Agreement also includes an accordion feature that allows up to \$50,000,000 of additional loans, subject to receipt of lender commitments and satisfaction of certain customary conditions.

The BMO Term Loan bears interest at either (i) a number of basis points over LIBOR depending on the Company's credit rating (165 basis points over LIBOR at March 31, 2015) or (ii) a number of basis points over the base rate depending on the Company's credit rating (65 basis points over the base rate at March 31, 2015).

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 10-Q

Although the interest rate on the BMO Term Loan is variable, the Company is permitted to hedge the base LIBOR interest rate by entering into an interest rate swap agreement. On August 26, 2013, the Company entered into an ISDA Master Agreement with Bank of Montreal that fixed the base LIBOR interest rate on the BMO Term Loan at 2.32% per annum for seven years, until the August 26, 2020 maturity date. Accordingly, based upon the Company's credit rating, as of March 31, 2015, the effective interest rate on the BMO Term Loan was 3.97% per annum.

Table of Contents

Franklin Street Properties Corp.

Notes to Condensed Consolidated Financial Statements

(Unaudited)

3. Bank Note Payable and Term Note Payable (continued)

The BMO Credit Agreement contains customary affirmative and negative covenants for credit facilities of this type. The BMO Credit Agreement also contains financial covenants that require the Company to maintain a minimum tangible net worth, a maximum leverage ratio, a maximum secured leverage ratio, a minimum fixed charge coverage ratio, a maximum unencumbered leverage ratio, minimum unsecured interest coverage and a maximum ratio of certain investments to total assets. The Company was in compliance with the BMO Term Loan financial covenants as of March 31, 2015.

The Company may use the proceeds of the loans under the BMO Credit Agreement to finance the acquisition of real properties and for other permitted investments; to finance investments associated with Sponsored REITs, to refinance or retire indebtedness and for working capital and other general business purposes, in each case to the extent permitted under the BMO Credit Agreement.

BAML Credit Facility

On October 29, 2014, the Company entered into a Second Amended and Restated Credit Agreement (the BAML Credit Agreement) with the lending institutions referenced in the BAML Credit Agreement and those lenders from time to time party thereto and Bank of America, N.A., as administrative agent, L/C Issuer and Swing Line Lender (the BAML Credit Facility) that continued an existing unsecured credit facility comprised of both a revolving line of credit (the BAML Revolver) and a term loan (the BAML Term Loan).

BAML Revolver Highlights

- The BAML Revolver is for borrowings, at the Company's election, of up to \$500,000,000. Borrowings made pursuant to the BAML Revolver may be revolving loans, swing line loans or letters of credit, the combined sum of which may not exceed \$500,000,000 outstanding at any time.
- Borrowings made pursuant to the BAML Revolver may be borrowed, repaid and reborrowed from time to time until the initial maturity date of October 29, 2018. The Company has the right to extend the initial maturity date of the BAML Revolver by an additional 12 months, or until October 29, 2019, upon payment of a fee and satisfaction of certain customary conditions.
- The BAML Revolver includes an accordion feature that allows for up to \$250,000,000 of additional borrowing capacity subject to receipt of lender commitments and satisfaction of certain customary conditions.

As of March 31, 2015, there were borrowings of \$240,000,000 outstanding under the BAML Revolver. The BAML Revolver bears interest at either (i) a margin over LIBOR depending on the Company's credit rating (1.25% over LIBOR at March 31, 2015) or (ii) a margin over the base rate depending on the Company's credit rating (0.25% over the base rate at March 31, 2015). The BAML Credit Facility also obligates the Company to pay an annual facility fee in an amount that is also based on the Company's credit rating. The facility fee is assessed against the total amount of the BAML Revolver, or \$500,000,000 (0.25% at March 31, 2015).

Based upon the Company's credit rating, as of March 31, 2015, the weighted average interest rate on the BAML Revolver was 1.42% per annum and there were borrowings of \$240,000,000 outstanding. As of December 31, 2014, the weighted average interest rate on the BAML Revolver was 1.41% per annum and there were borrowings of \$268,000,000 outstanding. The weighted average interest rate on all amounts outstanding on the BAML Revolver during the three months ended March 31, 2015 was approximately 1.42% per annum. The weighted average interest rate on all amounts outstanding on the BAML Revolver during the year ended December 31, 2014 was approximately 1.60% per annum.

BAML Term Loan Highlights

- The BAML Term Loan is for \$400,000,000.
- The BAML Term Loan matures on September 27, 2017.
- On September 27, 2012, the Company drew down the entire \$400,000,000 and such amount remains fully advanced and outstanding under the BAML Credit Agreement.

The BAML Term Loan bears interest at either (i) a margin over LIBOR depending on the Company's credit rating (1.45% over LIBOR at March 31, 2015) or (ii) a margin over the base rate depending on the Company's credit rating (0.45% over the base rate at March 31, 2015). The actual margin over LIBOR rate or base rate is determined based on the Company's credit rating.

Franklin Street Properties Corp.

Notes to Condensed Consolidated Financial Statements

(Unaudited)

3. Bank Note Payable and Term Note Payable (continued)

Although the interest rate on the BAML Credit Facility is variable, the Company fixed the base LIBOR interest rate on the BAML Term Loan by entering into an interest rate swap agreement. On September 27, 2012, the Company entered into an ISDA Master Agreement with Bank of America, N.A. that fixed the base LIBOR interest rate on the BAML Term Loan at 0.75% per annum for five years, until the September 27, 2017 maturity date. Accordingly, based upon the Company's credit rating, as of March 31, 2015, the effective interest rate on the BAML Term Loan was 2.20% per annum.

BAML Credit Facility General Information

The BAML Credit Agreement contains customary affirmative and negative covenants for credit facilities of this type. The BAML Credit Agreement also contains financial covenants that require the Company to maintain a minimum tangible net worth, a maximum leverage ratio, a maximum secured leverage ratio, a minimum fixed charge coverage ratio, a maximum unencumbered leverage ratio, minimum unsecured interest coverage and a maximum ratio of certain investments to total assets. The Company was in compliance with the BAML Credit Facility financial covenants as of March 31, 2015.

The Company may use the proceeds of the loans under the BAML Credit Agreement to finance the acquisition of real properties and for other permitted investments; to finance investments associated with Sponsored REITs, to refinance or retire indebtedness and for working capital and other general business purposes, in each case to the extent permitted under the BAML Credit Agreement.

4. Financial Instruments: Derivatives and Hedging

On August 26, 2013, the Company fixed the interest rate for seven years on the BMO Credit Agreement with an interest rate swap agreement (the BMO Interest Rate Swap) and on September 27, 2012, the Company fixed the interest rate for five years on the BAML Term Loan with an interest rate swap agreement (the BAML Interest Rate Swap). The variable rates that were fixed under the BMO Interest Rate Swap and the BAML Interest Rate Swap are described in Note 3.

The BMO Interest Rate Swap and the BAML Interest Rate Swap qualify as cash flow hedges and have been recognized on the consolidated balance sheet at fair value. If a derivative qualifies as a hedge, depending on the nature of the hedge, changes in the fair value of the derivative will either be offset against the change in fair value of the hedged asset, liability, or firm commitment through earnings, or recognized in other

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 10-Q

comprehensive income until the hedged item is recognized in earnings. The ineffective portion of a derivative's change in fair value will be immediately recognized in earnings, which may increase or decrease reported net income and stockholders' equity prospectively, depending on future levels of interest rates and other variables affecting the fair values of derivative instruments and hedged items, but will have no effect on cash flows.

The following table summarizes the notional and fair value of our derivative financial instruments at March 31, 2015. The notional value is an indication of the extent of our involvement in these instruments at that time, but does not represent exposure to credit, interest rate or market risks.

(in thousands)	Notional Value	Strike Rate	Effective Date	Expiration Date	Fair Value
BMO Interest Rate Swap	\$ 220,000	2.32%	Aug-13	Aug-20	\$ (9,836)
BAML Interest Rate Swap	\$ 400,000	0.75%	Sep-12	Sep-17	\$ 774

On March 31, 2015, the BMO Interest Rate Swap was reported as a liability at its fair value of approximately \$9.8 million and the BAML Interest Rate Swap was reported as an asset at its fair value of approximately \$0.8 million. These are included in other liabilities: derivative liability and other assets: derivative asset on the condensed consolidated balance sheet at March 31, 2015 and December 31, 2014, respectively. Offsetting adjustments are reported as unrealized gains or losses on derivative financial instruments in accumulated other comprehensive income of \$4.8 million. During the three months ended March 31, 2015, \$1.8 million was reclassified out of other comprehensive income and into interest expense.

Table of Contents

Franklin Street Properties Corp.

Notes to Condensed Consolidated Financial Statements

(Unaudited)

4. Financial Instruments: Derivatives and Hedging (continued)

Over time, the unrealized gains and losses held in accumulated other comprehensive income will be reclassified into earnings as an increase or reduction to interest expense in the same periods in which the hedged interest payments affect earnings. We estimate that approximately \$1.5 million of the current balance held in accumulated other comprehensive income will be reclassified into earnings within the next 12 months.

We are hedging the exposure to variability in anticipated future interest payments on existing debt.

The fair value of the Company's derivative instruments are determined using the net discounted cash flows of the expected cash flows of the derivative based on the market based interest rate curve and are adjusted to reflect credit or nonperformance risk. The risk is estimated by the Company using credit spreads and risk premiums that are observable in the market. These financial instruments were classified within Level 2 of the fair value hierarchy and were classified as an asset or liability on the condensed consolidated balance sheets.

5. Net Income Per Share

Basic net income per share is computed by dividing net income by the weighted average number of Company shares outstanding during the period. Diluted net income per share reflects the potential dilution that could occur if securities or other contracts to issue shares were exercised or converted into shares. There were no potential dilutive shares outstanding at March 31, 2015 and 2014, respectively.

6. Stockholders Equity

As of March 31, 2015, the Company had 100,187,405 shares of common stock outstanding.

Equity Offerings

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 10-Q

On May 6, 2010, the Company entered into an on demand offering sales agreement whereby the Company may offer and sell up to an aggregate gross sales price of \$75 million of its common stock from time to time (the "ATM Sales Program"). The on demand offering sales agreement for the ATM Sales Program was amended on April 27, 2012 in connection with the Company's filing of a new Registration Statement on Form S-3. Sales of shares of the Company's common stock depend upon market conditions and other factors determined by the Company and may be deemed to be "at the market offerings" as defined in Rule 415 of the Securities Act of 1933, as amended, including sales made directly on the NYSE MKT or sales made to or through a market maker other than on an exchange, as well as in negotiated transactions, if and to the extent agreed by the Company in writing. The Company has no obligation to sell any shares of its common stock, and may at any time suspend solicitation and offers. During the three months ended March 31, 2015, the Company did not sell any shares under the ATM Sales Program. As of March 31, 2015, the Company was authorized to offer and sell a remainder of approximately \$34.3 million of its shares of common stock under the ATM Sales Program.

The Company declared and paid dividends as follows (in thousands, except per share amounts):

Quarter Paid	Dividends Per Share		Total Dividends	
First quarter of 2015	\$	0.19	\$	19,036
First quarter of 2014	\$	0.19	\$	19,036

Table of Contents

Franklin Street Properties Corp.

Notes to the Consolidated Financial Statements

(Unaudited)

7. Income Taxes

General

The Company has elected to be taxed as a REIT under the Internal Revenue Code of 1986, as amended (the Code). As a REIT, the Company generally is entitled to a tax deduction for distributions paid to its shareholders, thereby effectively subjecting the distributed net income of the Company to taxation at the shareholder level only. The Company must comply with a variety of restrictions to maintain its status as a REIT. These restrictions include the type of income it can earn, the type of assets it can hold, the number of shareholders it can have and the concentration of their ownership, and the amount of the Company's taxable income that must be distributed annually.

One such restriction is that the Company generally cannot own more than 10% of the voting power or value of the securities of any one issuer unless the issuer is itself a REIT or a taxable REIT subsidiary (TRS). In the case of TRSs, the Company's ownership of securities in all TRSs generally cannot exceed 25% of the value of all of the Company's assets and, when considered together with other non-real estate assets, cannot exceed 25% of the value of all of the Company's assets. FSP Investments and FSP Protective TRS Corp. are the Company's taxable REIT subsidiaries operating as taxable corporations under the Code.

Income taxes are recorded based on the future tax effects of the difference between the tax and financial reporting bases of the Company's assets and liabilities. In estimating future tax consequences, potential future events are considered except for potential changes in income tax law or in rates.

The Company adopted an accounting pronouncement related to uncertainty in income taxes effective January 1, 2007, which did not result in recording a liability, nor was any accrued interest and penalties recognized with the adoption. Accrued interest and penalties will be recorded as income tax expense, if the Company records a liability in the future. The Company's effective tax rate was not affected by the adoption. The Company and one or more of its subsidiaries files income tax returns in the U.S federal jurisdiction and various state jurisdictions. The statute of limitations for the Company's income tax returns is generally three years and as such, the Company's returns that remain subject to examination would be primarily from 2011 and thereafter.

The Company is subject to business tax (the Revised Texas Franchise Tax). The Revised Texas Franchise Tax is a tax at a rate of approximately 0.7% of revenues at Texas properties commencing with 2007 revenues. Some of the Company's leases allow reimbursement by tenants for these amounts because the Revised Texas Franchise Tax replaces a portion of the property tax for school districts. Because the tax base on the Revised Texas Franchise Tax is derived from an income based measure it is considered an income tax. The Company recorded a provision for income taxes on its income statement of \$159,000 and \$127,000 for the three months ended March 31, 2015 and 2014, respectively.

Net operating losses

Section 382 of the Code restricts a corporation's ability to use net operating losses (NOLs) to offset future taxable income following certain ownership changes. Such ownership changes occurred with past mergers and accordingly a portion of the NOLs incurred by the Sponsored REITs available for use by the Company in any particular future taxable year will be limited. To the extent that the Company does not utilize the full amount of the annual NOLs limit, the unused amount may be carried forward to offset taxable income in future years. NOLs expire 20 years after the year in which they arise, and the last of the Company's NOLs will expire in 2027. A valuation allowance is provided for the full amount of the NOLs as the realization of any tax benefits from such NOLs is not assured. The gross amount of NOLs available to the Company was \$13,041,000, as of March 31, 2015 and December 31, 2014.

Income Tax Expense

The income tax expense reflected in the consolidated statements of income relates primarily to a franchise tax on our Texas properties. FSP Protective TRS Corp. provides taxable services to tenants at some of the Company's properties and the tax expenses associated with these activities are reported as Other Taxes in the table below:

Table of Contents**Franklin Street Properties Corp.****Notes to the Consolidated Financial Statements****(Unaudited)****7. Income Taxes (continued)**

(in thousands)	For the Three Months Ended March 31,	
	2015	2014
Revised Texas franchise tax	\$ 159	\$ 127
Other Taxes	2	10
Income tax expense	\$ 161	\$ 137

Taxes on income are a current tax expense. No deferred income taxes were provided as there were no material temporary differences between the financial reporting basis and the tax basis of the TRSs.

8. Dispositions of properties

The Company sold an office property located in Plano, Texas on February 23, 2015 at a \$1.5 million gain and an office property located in Eden Prairie, Minnesota on March 31, 2015 at a \$9.0 million gain. The disposal of the properties does not represent a strategic shift that has a major effect on the Company's operations and financial results. Accordingly, the properties remain classified within continuing operations for all periods presented.

9. Subsequent Events

On April 8, 2015, the Company acquired an office property with approximately 442,130 rentable square feet of space for \$78.0 million located in the Central Perimeter Submarket of Atlanta, Georgia.

On April 10 2015, the Board of Directors of the Company declared a cash distribution of \$0.19 per share of common stock payable on May 14, 2015 to stockholders of record on April 24, 2015.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this report and in our Annual Report on Form 10-K for the year ended December 31, 2014. Historical results and percentage relationships set forth in the condensed consolidated financial statements, including trends which might appear, should not be taken as necessarily indicative of future operations. The following discussion and other parts of this Quarterly Report on Form 10-Q may also contain forward-looking statements based on current judgments and current knowledge of management, which are subject to certain risks, trends and uncertainties that could cause actual results to differ materially from those indicated in such forward-looking statements. Accordingly, readers are cautioned not to place undue reliance on forward-looking statements. Investors are cautioned that our forward-looking statements involve risks and uncertainty, including without limitation, economic conditions in the United States, disruptions in the debt markets, economic conditions in the markets in which we own properties, risks of a lessening of demand for the types of real estate owned by us, uncertainties relating to fiscal policy, changes in government regulations and regulatory uncertainty, geopolitical events, and expenditures that cannot be anticipated such as utility rate and usage increases, unanticipated repairs, additional staffing, insurance increases and real estate tax valuation reassessments. See Part II, Item 1A. Risk Factors below. Although we believe the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. We may not update any of the forward-looking statements after the date this Quarterly Report on Form 10-Q is filed to conform them to actual results or to changes in our expectations that occur after such date, other than as required by law.

Overview

FSP Corp., or we, or the Company, operates in the real estate operations segment. The real estate operations segment involves real estate rental operations, leasing, secured financing of real estate and services provided for asset management, property management, property acquisitions, dispositions and development. Our current strategy is to invest in select urban infill and central business district properties, with primary emphasis on our top five markets of Atlanta, Dallas, Denver, Houston and Minneapolis. We believe that our top five markets have macro-economic drivers that have the potential to increase occupancies and rents. We will also monitor San Diego, Silicon Valley, Greater Boston, Raleigh-Durham, and Greater Washington, DC, as well as other markets, for opportunistic investments. FSP Corp. seeks value-oriented investments with an eye towards long-term growth and appreciation, as well as current income.

The main factor that affects our real estate operations is the broad economic market conditions in the United States. These market conditions affect the occupancy levels and the rent levels on both a national and local level. We have no influence on broader economic/market conditions. We look to acquire and/or develop quality properties in good locations in order to lessen the impact of downturns in the market and to take advantage of upturns when they occur.

Critical Accounting Policies

We have certain critical accounting policies that are subject to judgments and estimates by our management and uncertainties of outcome that affect the application of these policies. We base our estimates on historical experience and on various other assumptions we believe to be reasonable under the circumstances. On an on-going basis, we evaluate our estimates. In the event estimates or assumptions prove to be different from actual results, adjustments are made in subsequent periods to reflect more current information. The accounting policies that we believe are most critical to the understanding of our financial position and results of operations, and that require significant management estimates and judgments, are discussed in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended December 31, 2014.

Critical accounting policies are those that have the most impact on the reporting of our financial condition and results of operations and those requiring significant judgments and estimates. We believe that our judgments and assessments are consistently applied and produce financial information that fairly presents our results of operations. No changes to our critical accounting policies have occurred since the filing of our Annual Report on Form 10-K for the year ended December 31, 2014.

Recent Accounting Standards

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers, which provides guidance for revenue recognition. The standard's core principle is that a company will recognize revenue when promised goods or services are transferred to customers in an amount that reflects the consideration to which a company expects to be entitled in exchange for those goods or services. This update is effective for interim and annual reporting periods beginning after December 15, 2016. The Company is currently in the process of evaluating the impact the adoption of this ASU will have on the condensed consolidated financial statements.

In August 2014, the FASB issued ASU 2014-15, *Presentation of Financial Statements – Going Concern: Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern*. This update requires an entity to evaluate whether there are conditions or events that raise substantial doubt about the entity's ability to continue as a going concern within one year after the date that the financial statements are issued (or within one year after the financial statements are available to be issued when applicable) and to provide related footnote disclosures in certain circumstances. This update is effective for the annual period ending after December 15, 2016, and for annual and interim periods thereafter with early adoption permitted. The implementation of this update is not expected to cause any significant changes to the condensed consolidated financial statements.

In April 2015, the FASB issued ASU No. 2015-03, *Simplifying the Presentation of Debt Issuance Costs*, which requires debt issuance costs to be presented in the balance sheet as a direct deduction from the associated debt liability. This update is effective for interim and annual reporting periods beginning after December 15, 2015 and requires retrospective application. The implementation of this update is not expected to cause any material changes to the condensed consolidated financial statements other than the reclassification of debt issuance costs from assets to contra liabilities on the condensed consolidated balance sheets. As of March 31, 2015 and December 31, 2014, \$7.1 million and \$7.6 million, respectively, would be reclassified from assets to contra liabilities on the condensed consolidated balance sheets.

In February 2015, the FASB issued ASU 2015-02, *Consolidation (Topic 810): Amendments to the Consolidation Analysis* (ASU 2015-02). ASU 2015-02 affects reporting entities that are required to evaluate whether they should consolidate certain legal entities. ASU 2015-02 modifies the evaluation of whether limited partnerships and similar legal entities are VIEs or voting interest entities, eliminates the presumption that a general partner should consolidate a limited partnership and affects the consolidation analysis of reporting entities that are involved with VIEs, particularly those that have fee arrangements and related party relationships. ASU 2015-02 is effective for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2015. Early adoption is permitted. A reporting entity may apply the amendments in ASU 2015-02 using: (a) a modified retrospective approach by recording a cumulative-effect adjustment to equity as of the beginning of the fiscal year of adoption; or (b) by applying the amendments retrospectively. We are currently assessing the potential impact that the adoption of ASU 2015-02 will have on the condensed consolidated financial statements.

Table of Contents

Trends and Uncertainties

Economic Conditions

The economy in the United States is continuing to experience a period of slow economic growth, with slowly declining unemployment from recent high levels, which directly affects the demand for office space, our primary income producing asset. The broad economic market conditions in the United States are affected by numerous factors, including but not limited to, inflation and employment levels, energy prices, slow economic growth and/or recessionary concerns, uncertainty about government fiscal and tax policy, changes in currency exchange rates, geopolitical events, the regulatory environment, the availability of credit and interest rates. In addition, the Federal Reserve Bank's current reduction in its quantitative easing program (or QE), has been generally received as a harbinger of real improvement, which could bode well for our real estate operations. We could benefit from any further improved economic fundamentals and increasing levels of employment. We believe that the economy is in the early stages of a cyclically-slower but prolonged broad-based upswing. However, future economic factors may negatively affect real estate values, occupancy levels and property income.

Real Estate Operations

Leasing

Our real estate portfolio was approximately 90.4% leased as of March 31, 2015, a decrease from 92.8% as of December 31, 2014. The 2.4% decrease in leased space was a result of lease expirations and terminations during 2015 that were not leased at March 31, 2015. As of March 31, 2015 we had 897,000 square feet of vacancy in our portfolio compared to 689,000 square feet of vacancy at December 31, 2014. During the three months ended March 31, 2015, we leased approximately 208,000 square feet of office space, of which approximately 135,000 square feet were with existing tenants, at a weighted average term of 4.0 years. On average, tenant improvements for such leases were \$10.71 per square foot, lease commissions were \$4.31 per square foot and rent concessions were approximately two months of free rent. Average GAAP base rents under such leases were \$24.59 per square foot, or 10.5% higher than average rents in the respective properties as applicable compared to the year ended December 31, 2014.

As of March 31, 2015, leases for approximately 3.8% and 10.8% of the square footage in our portfolio are scheduled to expire during 2015 and 2016, respectively. As the second quarter of 2015 begins, we believe that our property portfolio is well stabilized, with a balanced lease expiration schedule.

While we cannot generally predict when existing vacancy in our real estate portfolio will be leased or if existing tenants with expiring leases will renew their leases or what the terms and conditions of the lease renewals will be, we expect to renew or sign new leases at then-current market rates for locations in which the buildings are located, which could be above or below the expiring rates. Also, even as the economy recovers, we believe the potential for any of our tenants to default on its lease or to seek the protection of bankruptcy still exists. If any of our tenants defaults on its lease, we may experience delays in enforcing our rights as a landlord and may incur substantial costs in protecting our investment. In addition, at any time, a tenant of one of our properties may seek the protection of bankruptcy laws, which could result in the rejection and termination of such tenant's lease and thereby cause a reduction in cash available for distribution to our stockholders.

Real Estate Acquisition and Investment Activity

During 2015:

- on April 8, we acquired an office property with approximately 442,130 rentable square feet of space for \$78.0 million located in the Central Perimeter Submarket of Atlanta, Georgia.

Additional potential real estate investment opportunities are actively being explored and we would anticipate further real estate investments in the future.

During 2014:

- we funded advances on Sponsored REIT Loans for revolving lines of credit in the aggregate amount of approximately \$11.2 million;
- on June 19, we received approximately \$13.9 million from FSP Galleria North Corp. as repayment in full of a Sponsored REIT Loan; and
- on December 23, we received approximately \$3.4 million from FSP Highland Place I Corp. as repayment in full of a Sponsored REIT Loan.

Table of Contents***Dispositions of Properties***

During 2015, we sold an office property located in Plano, Texas on February 23, 2015 at a \$1.5 million gain and sold an office property located in Eden Prairie, Minnesota on March 31, 2015 at a \$9.0 million gain. During 2014, we sold an office property located in Colorado Springs, Colorado on December 3, 2014 at a \$0.9 million gain. The disposal of these properties does not represent a strategic shift that has a major effect on the Company's operations and financial results. Accordingly, the properties sold remain classified within continuing operations for all periods presented.

We will continue to evaluate our portfolio, and in the future may decide to dispose of additional properties from time-to-time in the ordinary course of business. We believe that the current property sales environment is improving in many markets relative to both liquidity and pricing. We believe that both improving office property fundamentals as well as attractive financing availability will likely be required to continue improvement in the marketplace for potential property dispositions. As an important part of our total return strategy, we intend to be active in property dispositions when we believe that market conditions warrant such activity and, as a consequence, we continuously review and evaluate our portfolio of properties for potentially advantageous dispositions.

Results of Operations

The following table shows results for the three months ended March 31, 2015 and 2014:

(in thousands)	Three months ended March 31,		
	2015	2014	Change
Revenue:			
Rental	\$ 59,013	\$ 61,597	\$ (2,584)
Related party revenue:			
Management fees and interest income from loans	1,473	1,643	(170)
Other	21	23	(2)
Total revenue	60,507	63,263	(2,756)
Expenses:			
Real estate operating expenses	15,356	15,071	285
Real estate taxes and insurance	10,048	9,251	797

------------	----	--------	----	-------	----	-------

Table of Contents

Comparison of the three months ended March 31, 2015 to the three months ended March 31, 2014:

Revenues

Total revenues decreased by \$2.8 million to \$60.5 million for the quarter ended March 31, 2015, as compared to the quarter ended March 31, 2014. The decrease was primarily a result of:

- A decrease in rental revenue of approximately \$2.6 million arising primarily from loss of revenue from the disposition of a property on December 3, 2014 and the disposition of another property on February 23, 2015. In addition, our leased space decreased approximately 4.1% to 90.4% in the real estate portfolio at March 31, 2015 compared to March 31, 2014.
- A decrease in interest income from loans to Sponsored REITs of approximately \$0.2 million as a result of repayments of Sponsored REIT Loans in the last twelve months.

Expenses

Total expenses decreased by \$1.1 million to \$58.0 million for the quarter ended March 31, 2015, as compared to the quarter ended March 31, 2014. The decrease was primarily a result of:

- A decrease in depreciation and amortization of \$1.6 million as a result of the disposition of a property on December 3, 2014 and the disposition of another property on February 23, 2015.
- A decrease to interest expense of approximately \$1.0 million to \$6.2 million for the three months ended March 31, 2015 compared to the same period in 2014. The decrease was attributable to a lower amount of debt outstanding and lower interest rates during the three months ended March 31, 2015 compared to the same period in 2014.

These decreases were partially offset by:

- An increase in real estate operating expenses and real estate taxes and insurance of approximately \$1.1 million, which was primarily from increases to real estate taxes.
- An increase in selling, general and administrative expenses of approximately \$0.4 million, which was primarily the result of increased personnel related expenses and professional fees. We had 38 and 38 employees as of March 31, 2015 and 2014, respectively, at our headquarters in Wakefield, Massachusetts.

Equity in losses of non-consolidated REITs

Equity in losses from non-consolidated REITs decreased approximately \$0.2 million to a loss of \$0.3 million during the three months ended March 31, 2015 compared to the same period in 2014. The decrease was primarily because equity in loss from our preferred stock investment in a Sponsored REIT, FSP 303 East Wacker Drive Corp., which we refer to as East Wacker, decreased during the three months ended March 31, 2015 compared to the same period in 2014.

Gain on sale of properties, less applicable income tax

During the three months ended March 31, 2015, we recorded gains on sale of two properties. We sold an office property located in Plano, Texas on February 23, 2015 at a \$1.5 million gain and an office property located in Eden Prairie, Minnesota on March 31, 2015 at a \$9.0 million gain. During the three months ended March 31, 2014, we did not sell any properties.

Taxes on income

Included in income taxes is the Revised Texas Franchise Tax, which is a tax on revenues from Texas properties that increased \$32,000 and federal income taxes that decreased \$8,000 for the three months ended March 31, 2015, compared to the three months ended March 31, 2014.

Net Income

Net Income for the three months ended March 31, 2015 was \$12.5 million compared to \$3.6 million for the three months ended March 31, 2014, for the reasons described above.

Table of Contents**Non-GAAP Financial Measures**Funds From Operations

The Company evaluates performance based on Funds From Operations, which we refer to as FFO, as management believes that FFO represents the most accurate measure of activity and is the basis for distributions paid to equity holders. The Company defines FFO as net income (computed in accordance with GAAP), excluding gains (or losses) from sales of property and acquisition costs of newly acquired properties that are not capitalized, plus depreciation and amortization, including amortization of acquired above and below market lease intangibles and impairment charges on properties or investments in non-consolidated REITs, and after adjustments to exclude equity in income or losses from, and, to include the proportionate share of FFO from, non-consolidated REITs.

FFO should not be considered as an alternative to net income (determined in accordance with GAAP), nor as an indicator of the Company's financial performance, nor as an alternative to cash flows from operating activities (determined in accordance with GAAP), nor as a measure of the Company's liquidity, nor is it necessarily indicative of sufficient cash flow to fund all of the Company's needs.

Other real estate companies and the National Association of Real Estate Investment Trusts, or NAREIT may define this term in a different manner. We have included the NAREIT FFO definition in our table and note that other REITs may not define FFO in accordance with the current NAREIT definition or may interpret the current NAREIT definition differently than we do.

We believe that in order to facilitate a clear understanding of the results of the Company, FFO should be examined in connection with net income and cash flows from operating, investing and financing activities in the consolidated financial statements.

The calculations of FFO are shown in the following table:

(in thousands):	For the Three Months Ended March 31,	
	2015	2014
Net income (loss)	\$ 12,533	\$ 3,573
Gain on sale or properties, less applicable income tax	(10,462)	
Equity in losses of non-consolidated REITs	322	484
FFO from non-consolidated REITs	601	419
Depreciation and amortization	22,678	24,289
NAREIT FFO	25,672	28,765
Acquisition costs of new properties		14
Funds From Operations	\$ 25,672	\$ 28,779

Net Operating Income (NOI)

The Company provides property performance based on Net Operating Income, which we refer to as NOI. Management believes that investors are interested in this information. NOI is a non-GAAP financial measure that the Company defines as net income (the most directly comparable GAAP financial measure) plus selling, general and administrative expenses, depreciation and amortization, including amortization of acquired above and below market lease intangibles and impairment charges, interest expense, less equity in earnings of nonconsolidated REITs, interest income, management fee income, gains or losses on the sale of assets and excludes non-property specific income and expenses. The information presented includes footnotes and the data is shown by region with properties owned in both periods, which we call Same Store. The Comparative Same Store results include properties held for the periods presented and exclude significant nonrecurring income such as bankruptcy settlements and lease termination fees. NOI, as defined by the Company, may not be comparable to NOI reported by other REITs that define NOI differently. NOI should not be considered an alternative to net income as an indication of our performance or to cash flows as a measure of the Company's liquidity or its ability to make distributions. The calculations of NOI are shown in the following table:

Table of Contents**Net Operating Income (NOI)***

(in thousands)	Rentable Square Feet or RSF	Three Months Ended		Inc (Dec)	%
<u>Region</u>		31-Mar-15	31-Mar-14		Change
East	1,442	\$ 4,832	\$ 4,726	\$ 106	2.2%
MidWest	1,529	3,469	4,586	(1,117)	-24.4%
South	4,030	15,781	16,796	(1,015)	-6.0%

(a) Based on weighted occupied square feet for the three months ended March 31, 2015, including month-to-month tenants, divided by the Property's net rentable square footage.

(b) Represents annualized GAAP rental revenue for the three months ended March 31, 2015 per weighted occupied square foot.

Table of Contents

Liquidity and Capital Resources

Cash and cash equivalents were \$14.9 million and \$7.5 million at March 31, 2015 and December 31, 2014, respectively. The increase of \$7.4 million is attributable to \$15.0 million provided by operating activities plus \$39.4 million provided by investing activities, less \$47.0 million used in financing activities. Management believes that existing cash, cash anticipated to be generated internally by operations and our existing debt financing will be sufficient to meet working capital requirements and anticipated capital expenditures for at least the next 12 months. Although there is no guarantee that we will be able to obtain the funds necessary for our future growth, we anticipate generating funds from continuing real estate operations. We believe that we have adequate funds to cover unusual expenses and capital improvements, in addition to normal operating expenses. Our ability to maintain or increase our level of dividends to stockholders, however, depends in significant part upon the level of rental income from our real properties.

Operating Activities

The cash provided by our operating activities of \$15.0 million is primarily attributable to net income of \$12.5 excluding the gain on sale of properties of \$10.5 million, plus the add-back of \$23.5 million of non-cash activities, a \$0.3 million decrease in prepaid and other assets and a \$0.7 million decrease in restricted cash. These increases were partially offset by a \$10.2 million decrease in accounts payable and accrued expenses, \$1.1 million in payments of deferred leasing commissions and a \$0.2 million decrease in tenant security deposits.

Investing Activities

Our cash provided by investing activities for the three months ended March 31, 2015 of \$39.4 million is primarily attributable to additions to \$47.5 million in proceeds from the sale of two properties and was partially offset by purchases of real estate assets and office equipment investments and office equipment of approximately \$4.3 million and a deposit we paid on a real estate acquisition in process of \$4.0 million.

Financing Activities

Our cash used by financing activities for the three months ended March 31, 2015 of \$47.0 million is primarily attributable to distributions paid to stockholders of \$19.0 million and net borrowings under the BAML Revolver (as defined below) of \$28.0 million.

BMO Term Loan

On October 29, 2014, the Company entered into an Amended and Restated Credit Agreement (the *BMO Credit Agreement*) with the lending institutions referenced in the BMO Credit Agreement and Bank of Montreal, as administrative agent, that continued a single, unsecured term loan borrowing in the amount of \$220,000,000 (the *BMO Term Loan*). On August 26, 2013, the Company drew down the entire \$220,000,000

under the BMO Term Loan, which remains fully advanced and outstanding under the BMO Credit Agreement. The BMO Term Loan matures on August 26, 2020. The BMO Credit Agreement also includes an accordion feature that allows up to \$50,000,000 of additional loans, subject to receipt of lender commitments and satisfaction of certain customary conditions.

The BMO Term Loan bears interest at either (i) a number of basis points over LIBOR depending on the Company's credit rating (165 basis points over LIBOR at March 31, 2015) or (ii) a number of basis points over the base rate depending on the Company's credit rating (65 basis points over the base rate at March 31, 2015).

Although the interest rate on the BMO Term Loan is variable, the Company is permitted to hedge the base LIBOR interest rate by entering into an interest rate swap agreement. On August 26, 2013, the Company entered into an ISDA Master Agreement with Bank of Montreal that fixed the base LIBOR interest rate on the BMO Term Loan at 2.32% per annum for seven years, until the August 26, 2020 maturity date. Accordingly, based upon the Company's credit rating, as of March 31, 2015, the effective interest rate on the BMO Term Loan was 3.97% per annum.

The BMO Credit Agreement contains customary affirmative and negative covenants for credit facilities of this type. The BMO Credit Agreement also contains financial covenants that require the Company to maintain a minimum tangible net worth, a maximum leverage ratio, a maximum secured leverage ratio, a minimum fixed charge coverage ratio, a maximum unencumbered leverage ratio, minimum unsecured interest coverage and a maximum ratio of certain investments to total assets. The Company was in compliance with the BMO Term Loan financial covenants as of March 31, 2015.

Table of Contents

The Company may use the proceeds of the loans under the BMO Credit Agreement to finance the acquisition of real properties and for other permitted investments; to finance investments associated with Sponsored REITs, to refinance or retire indebtedness and for working capital and other general business purposes, in each case to the extent permitted under the BMO Credit Agreement.

BAML Credit Facility

On October 29, 2014, the Company entered into a Second Amended and Restated Credit Agreement (the *BAML Credit Agreement*) with the lending institutions referenced in the BAML Credit Agreement and those lenders from time to time party thereto and Bank of America, N.A., as administrative agent, L/C Issuer and Swing Line Lender (the *BAML Credit Facility*) that continued an existing unsecured credit facility comprised of both a revolving line of credit (the *BAML Revolver*) and a term loan (the *BAML Term Loan*).

BAML Revolver Highlights

- The BAML Revolver is for borrowings, at the Company's election, of up to \$500,000,000. Borrowings made pursuant to the BAML Revolver may be revolving loans, swing line loans or letters of credit, the combined sum of which may not exceed \$500,000,000 outstanding at any time.
- Borrowings made pursuant to the BAML Revolver may be borrowed, repaid and reborrowed from time to time until the initial maturity date of October 29, 2018. The Company has the right to extend the initial maturity date of the BAML Revolver by an additional 12 months, or until October 29, 2019, upon payment of a fee and satisfaction of certain customary conditions.
- The BAML Revolver includes an accordion feature that allows for up to \$250,000,000 of additional borrowing capacity subject to receipt of lender commitments and satisfaction of certain customary conditions.

As of March 31, 2015, there were borrowings of \$240,000,000 outstanding under the BAML Revolver. The BAML Revolver bears interest at either (i) a margin over LIBOR depending on the Company's credit rating (1.25% over LIBOR at March 31, 2015) or (ii) a margin over the base rate depending on the Company's credit rating (0.25% over the base rate at March 31, 2015). The BAML Credit Facility also obligates the Company to pay an annual facility fee in an amount that is also based on the Company's credit rating. The facility fee is assessed against the total amount of the BAML Revolver, or \$500,000,000 (0.25% at March 31, 2015).

Based upon the Company's credit rating, as of March 31, 2015, the weighted average interest rate on the BAML Revolver was 1.42% per annum and there were borrowings of \$240,000,000 outstanding. As of December 31, 2014, the weighted average interest rate on the BAML Revolver was 1.41% per annum and there were borrowings of \$268,000,000 outstanding. The weighted average interest rate on all amounts outstanding on the BAML Revolver during the three months ended March 31, 2015 was approximately 1.42% per annum. The weighted average interest rate on all amounts outstanding on the BAML Revolver during the year ended December 31, 2014 was approximately 1.60% per annum.

BAML Term Loan Highlights

- The BAML Term Loan is for \$400,000,000.
- The BAML Term Loan matures on September 27, 2017.
- On September 27, 2012, the Company drew down the entire \$400,000,000 and such amount remains fully advanced and outstanding under the BAML Credit Agreement.

The BAML Term Loan bears interest at either (i) a margin over LIBOR depending on the Company's credit rating (1.45% over LIBOR at March 31, 2015) or (ii) a margin over the base rate depending on the Company's credit rating (0.45% over the base rate at March 31, 2015). The actual margin over LIBOR rate or base rate is determined based on the Company's credit rating.

Although the interest rate on the BAML Credit Facility is variable, the Company fixed the base LIBOR interest rate on the BAML Term Loan by entering into an interest rate swap agreement. On September 27, 2012, the Company entered into an ISDA Master Agreement with Bank of America, N.A. that fixed the base LIBOR interest rate on the BAML Term Loan at 0.75% per annum for five years, until the September 27, 2017 maturity date. Accordingly, based upon the Company's credit rating, as of March 31, 2015, the effective interest rate on the BAML Term Loan was 2.20% per annum.

Table of Contents

BAML Credit Facility General Information

The BAML Credit Agreement contains customary affirmative and negative covenants for credit facilities of this type. The BAML Credit Agreement also contains financial covenants that require the Company to maintain a minimum tangible net worth, a maximum leverage ratio, a maximum secured leverage ratio, a minimum fixed charge coverage ratio, a maximum unencumbered leverage ratio, minimum unsecured interest coverage and a maximum ratio of certain investments to total assets. The Company was in compliance with the BAML Credit Facility financial covenants as of March 31, 2015.

The Company may use the proceeds of the loans under the BAML Credit Agreement to finance the acquisition of real properties and for other permitted investments; to finance investments associated with Sponsored REITs, to refinance or retire indebtedness and for working capital and other general business purposes, in each case to the extent permitted under the BAML Credit Agreement.

Equity Securities

On May 6, 2010, we entered into an on demand offering sales agreement that allows us to offer and sell up to an aggregate gross sales price of \$75 million of our common stock from time to time, which we refer to as our ATM Sales Program. The on demand offering sales agreement for the ATM Sales Program was amended on April 27, 2012 in connection with our filing of a new Registration Statement on Form S-3. Sales of shares of our common stock depend upon market conditions and other factors determined by us and are deemed to be at the market offerings as defined in Rule 415 of the Securities Act of 1933, as amended, including sales made directly on the NYSE MKT or sales made to or through a market maker other than on an exchange, as well as in negotiated transactions, if and to the extent agreed by us in writing. We have no obligation to sell any shares of our common stock, and may at any time suspend solicitation and offers. During the three months ended March 31, 2015, we did not sell any shares of our common stock under our ATM Sales Program. As of March 31, 2015, we were authorized to offer and sell a remainder of approximately \$34.3 million of our shares of common stock under the ATM Sales Program.

On January 12, 2015, we filed a new automatic shelf registration statement on Form S-3 on file with the Securities and Exchange Commission relating to the offer and sale, from time to time, of an indeterminate amount of our debt securities, common stock, preferred stock or depository shares. From time-to-time, we expect to issue debt securities, common stock, preferred stock or depository shares under our existing automatic shelf registration statements or a different registration statement to fund the acquisition of additional properties, to pay down any existing debt financing and for other corporate purposes.

Contingencies

From time to time, we may provide financing to Sponsored REITs in the form of a construction loan and/or a revolving line of credit secured by a mortgage. As of March 31, 2015, we were committed to fund up to \$111.3 million to four Sponsored REITs under such arrangements for the purpose of funding construction costs, capital expenditures, leasing costs or for other purposes, of which \$93.6 million has been drawn and is outstanding. We anticipate that advances made under these facilities will be repaid at their maturity date or earlier from long term financings of the underlying properties, cash flows from the underlying properties or another other capital event.

We may be subject to various legal proceedings and claims that arise in the ordinary course of our business. Although occasional adverse decisions (or settlements) may occur, we believe that the final disposition of such matters will not have a material adverse effect on our financial position or results of operations.

Related Party Transactions

We intend to draw on the BAML Credit Facility in the future for a variety of corporate purposes, including the acquisition of properties that we acquire directly for our portfolio and for Sponsored REIT Loans as described below.

Table of Contents

Loans to Sponsored REITs

Sponsored REIT Loans

From time to time we may make secured loans (Sponsored REIT Loans) to Sponsored REITs in the form of mortgage loans or revolving lines of credit to fund construction costs, capital expenditures, leasing costs and for other purposes. We anticipate that each Sponsored REIT Loan will be repaid at maturity or earlier from long term financings of the underlying properties, cash flows from the underlying properties or some other capital event. Each Sponsored REIT Loan is secured by a mortgage on the underlying property and has a term of approximately one to three years, which may be extended from time to time by one year or longer. Except a mortgage loan which bears interest at a fixed rate, advances under each Sponsored REIT Loan bear interest at a rate equal to the 30-day LIBOR rate plus an agreed upon amount of basis points and most advances also require a 50 basis point draw fee.

Our Sponsored REIT Loans subject us to credit risk. However, we believe that our position as asset manager of each of the Sponsored REITs helps mitigate that risk by providing us with unique insight and the ability to rely on qualitative analysis of the Sponsored REITs. Before making a Sponsored REIT Loan, we consider a variety of subjective factors, including the quality of the underlying real estate, leasing, the financial condition of the applicable Sponsored REIT and local and national market conditions. These factors are subject to change and we do not apply a formula or assign relative weights to the factors. Instead, we make a subjective determination after considering such factors collectively.

Additional information about our Sponsored REIT Loans outstanding as of March 31, 2015, including a summary table of our Sponsored REIT Loans, is incorporated herein by reference to Part I, Item 1, Note 2, Related Party Transactions and Investments in Non-consolidated Entities, Management fees and interest income from loans , in the Notes to Condensed Consolidated Financial Statements included in this report.

Table of Contents**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

Market Rate Risk

We are exposed to changes in interest rates primarily from our floating rate borrowing arrangements. We use interest rate derivative instruments to manage exposure to interest rate changes. As of March 31, 2015 and December 31, 2014, if market rates on our outstanding borrowings under our BAML Revolver increased by 10% at maturity, or approximately 14 and 14 basis points, respectively, over the current variable rate, the increase in interest expense would decrease future earnings and cash flows by \$0.4 million and \$0.4 million annually, respectively. Based upon our credit rating, the interest rate on our borrowings on the BAML Revolver as of March 31, 2015 was LIBOR plus 125 basis points, or 1.42% per annum. We do not believe that the interest rate risk represented by borrowings under our BAML Revolver is material as of March 31, 2015.

Although the interest rates on the BMO Term Loan and the BAML Credit Facility are variable, the Company fixed the base LIBOR interest rates on the BMO Term Loan and the BAML Term Loan by entering into interest rate swap agreements. On August 26, 2013, the Company entered into an ISDA Master Agreement with Bank of Montreal that fixed the base LIBOR interest rate on the BMO Term Loan at 2.32% per annum for seven years (the BMO Interest Rate Swap). On September 27, 2012, the Company entered into an ISDA Master Agreement with Bank of America, N.A. that fixed the base LIBOR interest rate on the BAML Term Loan at 0.75% per annum for five years (the BAML Interest Rate Swap). Accordingly, based upon our credit rating, as of March 31, 2015, the interest rate on the BMO Term Loan was 3.97% per annum and the interest rate on the BAML Term Loan was 2.20% per annum. The fair value of the BMO Interest Rate Swap and the BAML Interest Rate Swap is affected by changes in market interest rates. We believe that we have mitigated interest rate risk with respect to the BMO Term Loan through the BMO Interest Rate Swap for the seven year term of the BMO Term Loan. We believe that we have mitigated interest rate risk with respect to the BAML Term Loan through the BAML Interest Rate Swap for the five year term of the BAML Term Loan. The BMO Interest Rate Swap and the BAML Interest Rate Swap were our only derivative instruments as of March 31, 2015.

The table below lists our derivative instruments, which are hedging variable cash flows related to interest on our BMO Term Loan and our BAML Term Loan as of March 31, 2015 (in thousands):

(in thousands)	Notional Value	Strike Rate	Effective Date	Expiration Date	Fair Value
BMO Interest Rate Swap	\$ 220,000	2.32%	Aug-13	Aug-20	\$ (9,836)
BAML Interest Rate Swap	\$ 400,000	0.75%	Sep-12	Sep-17	\$ 774

Our BMO Term Loan and our BAML Term Loan hedging transactions used derivative instruments that involve certain additional risks such as counterparty credit risk, the enforceability of hedging contracts and the risk that unanticipated and significant changes in interest rates will cause a significant loss of basis in either or both of the contracts. We require our derivatives contracts to be with counterparties that have investment grade ratings. The counterparty to the BMO Interest Rate Swap is Bank of Montreal and the counterparty to the BAML Interest Rate Swap is Bank of America, N.A., both of which have investment grade ratings. As a result, we do not anticipate that either counterparty will fail to meet its obligations. However, there can be no assurance that we will be able to adequately protect against the foregoing risks or that we will ultimately realize an economic benefit that exceeds the related amounts incurred in connection with engaging in such hedging strategies.

Edgar Filing: FRANKLIN STREET PROPERTIES CORP /MA/ - Form 10-Q

The BAML Revolver has a term of four years and matures on October 29, 2018. We have the right to extend the initial maturity date of the BAML Revolver by an additional 12 months, or until October 29, 2019, upon payment of a fee and satisfaction of certain customary conditions. The BAML Revolver includes an accordion feature that allows for up to \$250,000,000 of additional borrowing capacity subject to receipt of lender commitments and satisfaction of certain customary conditions. Upon maturity, our future income, cash flows and fair values relevant to financial instruments will be dependent upon the balance then outstanding and prevalent market interest rates.

We borrow from time-to-time under the BAML Revolver. These borrowings bear interest at either (i) a rate equal to LIBOR plus 87.5 to 165 basis points depending on our credit rating at the time of the borrowing (LIBOR plus 125 basis points, or 1.42% at March 31, 2015) or (ii) a rate equal to the bank's base rate plus up to 65 basis points depending on our credit rating at the time of the borrowing (the bank's base rate plus 25 basis points, or 3.50% at March 31, 2015). There were borrowings totaling \$240.0 million and \$268.0 million on the BAML Revolver, at a weighted average rate of 1.42% and 1.41% outstanding at March 31, 2015 and December 31, 2014, respectively. We have drawn on the BAML Revolver, and intend to draw on the BAML Revolver in the future for a variety of corporate purposes, including the funding of Sponsored REIT Loans and the acquisition of properties that we acquire directly for our portfolio. Information about our Sponsored REIT Loans as of March 31, 2015 is incorporated herein by

Item 4. Controls and Procedures

Our management, with the participation of our chief executive officer and chief financial officer, evaluated the effectiveness of our disclosure controls and procedures as of March 31, 2015. The term disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 as amended, or the Exchange Act, means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Based on the evaluation of our disclosure controls and procedures as of March 31, 2015, our chief executive officer and chief financial officer concluded that, as of such date, our disclosure controls and procedures were effective at the reasonable assurance level.

Changes in Internal Control Over Financial Reporting

No change in our internal control over financial reporting occurred during the quarter ended March 31, 2015 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

From time to time, we may be subject to legal proceedings and claims that arise in the ordinary course of our business. Although occasional adverse decisions (or settlements) may occur, we believe that the final disposition of such matters will not have a material adverse effect on our financial position, cash flows or results of operations.

Item 1A. Risk Factors

There were no material changes to the risk factors disclosed in Part I, Item 1A. Risk Factors of our Annual Report on Form 10-K for the year ended December 31, 2014, except to the extent previously updated or to the extent additional factual information disclosed elsewhere in this Quarterly Report on Form 10-Q relates to such risk factors. In addition to the other information set forth in this report, you should carefully consider the risk factors discussed in the Annual Report on Form 10-K for the year ended December 31, 2014, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K for the year ended December 31, 2014 are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

None.

Item 5. Other Information

None.

Item 6. Exhibits

The Exhibits listed in the Exhibit Index are filed as part of this Quarterly Report on Form 10-Q and are incorporated herein by reference.
