BROADWAY FINANCIAL CORPORATION

(Exact name of registrant as specified in its charter)

Delaware

95-4547287

Edgar Filing: BROADWAY FINANCIAL CORP \DE\ - Form 10-Q

(State or other jurisdiction of
incorporation or organization)

(I.R.S. Employer
Identification No.)

5055 Wilshire Boulevard, Suite 500

Los Angeles, California
(Address of principal executive offices)

90036
(Zip Code)

(323) 634-1700

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated, or a smaller reporting company. See the definition of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large Accelerated Filer Accelerated Filer Non-Accelerated Filer Smaller Reporting Company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date: As of August 5, 2015, 21,405,188 shares of the Registrant's voting common stock and 7,671,520 shares of the Registrant's non-voting common stock were outstanding.

BROADWAY FINANCIAL CORPORATION AND SUBSIDIARY

Notes to Unaudited Consolidated Financial Statements

June 30, 2015

NOTE (1) Basis of Financial Statement Presentation

The accompanying unaudited consolidated financial statements include Broadway Financial Corporation (the Company) and its wholly owned subsidiary, Broadway Federal Bank, f.s.b. (the Bank). Also included in the unaudited consolidated financial statements is Broadway Service Corporation, a wholly owned subsidiary of the Bank. All significant intercompany balances and transactions have been eliminated in consolidation.

The unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions for quarterly reports on Form 10-Q. These unaudited consolidated financial statements do not include all disclosures associated with the Company's consolidated annual financial statements included in its Annual Report on Form 10-K for the year ended December 31, 2014 and, accordingly, should be read in conjunction with such audited consolidated financial statements. In the opinion of management, all adjustments (all of which are normal and recurring in nature) considered necessary for a fair presentation have been included. Operating results for the three and six months ended June 30, 2015 are not necessarily indicative of the results that may be expected for the year ending December 31, 2015.

Some items in the consolidated financial statements for the prior period were reclassified to conform to the current presentation. Reclassifications had no effect on prior period consolidated net income or loss or stockholders' equity.

Recent Accounting Pronouncements

In January 2014, the FASB issued ASU 2014-01, Investments - Equity Method and Joint Ventures (Topic 323): Accounting for Investments in Qualified Affordable Housing Projects. ASU 2014-01 permits a reporting entity to make an accounting policy election to account for its investments in affordable housing projects using the proportional amortization method if certain conditions are met. Under the proportional amortization method, an entity amortizes the initial cost of the investment in proportion to the amount of tax credits and other tax benefits received and recognizes the net investment performance in the income statement as a component of income tax expense or benefit. ASU 2014-01 becomes effective for interim and annual periods beginning on or after December 15, 2014, with early adoption permitted. The provisions of ASU 2014-01 must be applied retrospectively to all periods presented. Adopting this standard did not have a material impact on the Company's consolidated financial statements.

In August 2014, the FASB issued ASU 2014-15, Presentation of Financial Statements - Going Concern (Subtopic 205-40) - Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern. ASU 2014-15 incorporates into U.S. GAAP a requirement that

management complete a going concern evaluation similar to that performed by an entity's external auditor. Under the new guidance, management will be required to perform interim and annual assessments of an entity's ability to continue as a going concern within one year of the date of issuance of the entity's financial statements. Further, an entity must provide certain disclosures if there is substantial doubt about the entity's ability to continue as a going concern. ASU 2014-15 is effective for annual periods ending after December 15, 2016, and interim periods thereafter. Early adoption is permitted. Adoption of this standard is not expected to have a material impact on the Company's consolidated financial statements.

In January 2015, the FASB issued ASU 2015-01, Income Statement - Extraordinary and Unusual Items (Subtopic 225-20) - Simplifying Income Statement Presentation by Eliminating the Concept of Extraordinary Items. ASU 2015-01 eliminates from U.S. GAAP the concept of extraordinary items, which, among other things, required an entity to segregate extraordinary items considered to be unusual and infrequent from the results of ordinary operations and show the item separately in the income statement, net of tax, after income from continuing operations. ASU 2015-01 is effective for annual periods ending after December 15, 2015, and interim periods thereafter. Early adoption is permitted. Adoption of this standard is not expected to have a material impact on the Company's consolidated financial statements.

Table of Contents**BROADWAY FINANCIAL CORPORATION AND SUBSIDIARY****Notes to Unaudited Consolidated Financial Statements (continued)**

In April 2015, the FASB issued ASU 2015-03, Simplifying the Presentation of Debt Issuance Costs. Under ASU 2015-03, the Company will present debt issuance costs in the balance sheet as a reduction from the related debt liability rather than as an asset. Amortization of such costs will continue to be reported as interest expense. ASU 2015-03 is effective for annual periods ending after December 15, 2015, and interim periods thereafter. Early adoption is permitted. Retrospective adoption is required. Adoption of this standard is not expected to have a material impact on the Company's consolidated financial statements.

NOTE (2) Earnings Per Share of Common Stock

Basic earnings per share of common stock is computed by dividing income available to common stockholders by the weighted average number of shares of common stock outstanding for the period. Diluted earnings per share of common stock is computed by dividing income available to common stockholders by the weighted average number of shares of common stock outstanding for the period, increased for the dilutive effect of common stock equivalents.

The following table shows how the Company computed basic and diluted earnings per share of common stock for the three and six months ended June 30, 2015 and 2014:

	For the three months ended June 30,		For the six months ended June 30,	
	2015	2014	2015	2014
	(Dollars in thousands, except per share)			
Basic				
Net income	\$ 1,153	\$ 59	\$ 2,451	\$ 1,048
Weighted average common shares outstanding	29,076,708	20,243,948	29,076,708	20,234,368
Earnings per common share - basic	\$ 0.04	\$ 0.00	\$ 0.08	\$ 0.05
Diluted				
Net income	\$ 1,153	\$ 59	\$ 2,451	\$ 1,048
Weighted average common shares outstanding	29,076,708	20,243,948	29,076,708	20,234,368
Add: dilutive effects of assumed exercises of stock options	-	-	-	-
Weighted average common shares - fully dilutive	29,076,708	20,243,948	29,076,708	20,234,368
Earnings per common share - diluted	\$ 0.04	\$ 0.00	\$ 0.08	\$ 0.05

Stock options for 93,750 shares of common stock were not considered in computing diluted earnings per common share for the three and six months ended June 30, 2015 and 2014 because they were anti-dilutive.

Table of Contents**BROADWAY FINANCIAL CORPORATION AND SUBSIDIARY****Notes to Unaudited Consolidated Financial Statements (continued)****NOTE (3) Securities**

The following table summarizes the amortized cost and fair value of the available-for-sale investment securities portfolios at June 30, 2015 and December 31, 2014 and the corresponding amounts of unrealized gains and losses which are recognized in accumulated other comprehensive income (loss):

	Amortized Cost	Gross Unrealized Gains (In thousands)	Gross Unrealized Losses	Fair Value
June 30, 2015:				
Residential mortgage-backed	\$ 13,204	\$ 470	\$ -	\$ 13,674
U.S. Government and federal agency	1,939	34	-	1,973
Total available-for-sale securities	\$ 15,143	\$ 504	\$ -	\$ 15,647
December 31, 2014:				
Residential mortgage-backed	\$ 14,578	\$ 540	\$ -	\$ 15,118
U.S. Government and federal agency	1,932	25	-	1,957
Total available-for-sale securities	\$ 16,510	\$ 565	\$ -	\$ 17,075

At June 30, 2015, the Bank's investment portfolio had an estimated remaining life of 4.6 years. The amortized cost and fair value of the investment securities portfolio are shown by contractual maturity at June 30, 2015. Expected maturities may differ from contractual maturities if borrowers have the right to call or prepay obligations with or without call or prepayment penalties. Securities not due at a single maturity date, primarily residential mortgage-backed securities, are shown separately.

Maturity	Available-for-Sale	
	Amortized Cost	Fair Value
	(In thousands)	
Within one year	\$ -	\$ -
One to five years	1,939	1,973
Five to ten years	-	-
Beyond ten years	-	-
Residential mortgage-backed	13,204	13,674
Total	\$ 15,143	\$ 15,647

At June 30, 2015 and December 31, 2014, securities pledged to secure public deposits had a carrying amount of \$783 thousand and \$1.2 million, respectively. At June 30, 2015 and December 31, 2014, there were no holdings of securities of any one issuer, other than the U.S. Government and its agencies, in an amount greater than 10% of stockholders' equity.

There were no sales of securities during the three and six months ended June 30, 2015 and 2014.

NOTE (4) Loans Receivable Held for Sale

Loans receivable held for sale at June 30, 2015 and December 31, 2014 totaled \$82.0 million and \$19.5 million, respectively, and consisted of multi-family loans. During the three and six months ended June 30, 2015, multi-family loans originated for sale totaled \$18.9 million and \$31.5 million, respectively. During the second quarter of 2015, in order to comply with regulatory loan concentration guidelines, the Bank transferred \$90.2 million of performing multi-family loans from held for investment to held for sale.

Table of Contents**BROADWAY FINANCIAL CORPORATION AND SUBSIDIARY****Notes to Unaudited Consolidated Financial Statements (continued)**

During the three and six months ended June 30, 2015, loan sales totaled \$46.8 million and \$59.0 million, respectively.

NOTE (5) Loans Receivable Held for Investment

Loans at June 30, 2015 and December 31, 2014 were as follows:

	June 30, 2015	December 31, 2014
	(In thousands)	
Real estate:		
Single family	\$ 34,200	\$ 39,792
Multi-family	103,947	171,792

Total	\$ 28,496	\$ 331	\$ 30,221	\$ 608

Cash-basis interest income recognized represents cash received for interest payments on accruing impaired loans. Interest payments collected on non-accrual loans are characterized as payments of principal rather than payments of the outstanding accrued interest on the loans until the remaining principal on the non-accrual loans is considered to be fully collectible. Foregone interest income that would have been recognized had loans performed in accordance with their original terms amounted to \$166 thousand and \$328 thousand for the three months ended June 30, 2015 and 2014, respectively, and \$450 thousand and \$821 thousand for the six months ended June 30, 2015 and 2014, respectively, and were not included in the consolidated results of operations.

The following tables present the aging of the recorded investment in past due loans as of June 30, 2015 and December 31, 2014 by loan type:

Church	4,109	5,232
Commercial - other	80	102
Total non-accrual loans	\$ 6,735	\$ 8,862

There were no loans 90 days or more delinquent that were accruing interest as of June 30, 2015 or December 31, 2014.

Troubled Debt Restructurings

At June 30, 2015, loans classified as troubled debt restructurings (TDRs) totaled \$17.4 million, of which \$5.1 million were included in non-accrual loans and \$12.3 million were on accrual status. At December 31, 2014, loans classified as TDRs totaled \$20.2 million, of which \$5.5 million were included in non-accrual loans and \$14.7 million were on accrual status. The Company has allocated \$1.4 million and \$1.3 million of specific reserves for accruing TDRs as of June 30, 2015 and December 31, 2014, respectively. TDRs on accrual status are comprised of loans that were accruing at the time of restructuring or loans that have complied with the terms of their restructured agreements for a satisfactory period of time, and for which the Bank anticipates full repayment of both principal and interest. TDRs that are on non-accrual status can be returned to accrual status after a period of sustained performance, generally determined to be six months of timely payments as modified. A well-documented credit analysis that supports a return to accrual status based on the borrower's financial condition and prospects for

repayment under the revised terms is also required. As of June 30, 2015 and December 31, 2014, the Company had no commitment to lend additional amounts to customers with outstanding loans that are classified as TDRs. No loans were modified during the three and six months ended June 30, 2015 and 2014.

BROADWAY FINANCIAL CORPORATION AND SUBSIDIARY

Notes to Unaudited Consolidated Financial Statements (continued)

Credit Quality Indicators

The Company categorizes loans into risk categories based on relevant information about the ability of borrowers to service their debt such as: current financial information, historical payment experience, credit documentation, public information, and current economic trends, among other factors. For single family residential, consumer and other smaller balance homogenous loans, a credit grade is established at inception, and generally only adjusted based on performance. Information about payment status is disclosed elsewhere herein. The Company analyzes all other loans individually by classifying the loans as to credit risk. This analysis is performed at least on a quarterly basis. The Company uses the following definitions for risk ratings:

- **Watch.** Loans classified as watch exhibit weaknesses that could threaten the current net worth and paying capacity of the obligors. Watch graded loans are generally performing and are not more than 59 days past due. A watch rating is used when a material deficiency exists but correction is anticipated within an acceptable time frame.
- **Special Mention.** Loans classified as special mention have a potential weakness that deserves management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or of the institution's credit position at some future date.
- **Substandard.** Loans classified as substandard are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the institution will sustain some loss if the deficiencies are not corrected.
- **Doubtful.** Loans classified as doubtful have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.
- **Loss.** Loans classified as loss are considered uncollectible and of such little value that to continue to carry the loan as an active asset is no longer warranted.

Table of Contents**BROADWAY FINANCIAL CORPORATION AND SUBSIDIARY****Notes to Unaudited Consolidated Financial Statements (continued)**

Loans not meeting the criteria above that are analyzed individually as part of the above described process are considered to be pass rated loans. Pass rated loans are generally well protected by the current net worth and paying capacity of the obligor or by the value of the underlying collateral. Pass rated loans are not more than 59 days past due and are generally performing in accordance with the loan terms. Based on the most recent analysis performed, the risk category of loans by loan type as of June 30, 2015 and December 31, 2014 is as follows:

	June 30, 2015					
	Pass	Watch	Special Mention	Substandard	Doubtful	Loss

NOTE (6) Junior Subordinated Debentures

On March 17, 2004, the Company issued \$6.0 million of Floating Rate Junior Subordinated Debentures (the Debentures) in a private placement to a trust that was capitalized to purchase subordinated debt and preferred stock of multiple community banks. Interest on the Debentures is payable quarterly at a rate per annum equal to the 3-Month LIBOR plus 2.54%. The interest rate is determined as of each March 17, June 17, September 17, and December 17, and was 2.82% at June 30, 2015. On October 16, 2014, the Company made payments of \$900 thousand of principal on Debentures, executed a Supplemental Indenture for the Debentures that extended the maturity of the Debentures to March 17, 2024, and modified the payment terms of the remaining \$5.1 million principal amount thereof. The modified terms of the Debentures require quarterly payments of interest only for the next five years at the original rate of 3-Month LIBOR plus 2.54%. Starting in June 2019, the Company will be required to make quarterly payments of equal amounts of principal, plus interest, until the Debentures are fully amortized on March 17, 2024. The Debentures may be called for redemption at any time by the Company.

BROADWAY FINANCIAL CORPORATION AND SUBSIDIARY

Notes to Unaudited Consolidated Financial Statements (continued)

NOTE (7) Fair Value

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair values:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a company's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The Company used the following methods and significant assumptions to estimate fair value:

The fair values of securities available-for-sale are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs) or matrix pricing, which is a mathematical technique to value debt securities without relying exclusively on quoted prices for the specific securities, but rather by relying on the securities' relationship to other benchmark quoted securities (Level 2 inputs).

The fair value of impaired loans that are collateral dependent is generally based upon the fair value of the collateral which is obtained from recent real estate appraisals. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the independent appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs for determining fair value. Impaired loans are evaluated on a quarterly basis for additional impairment and adjusted accordingly.

Assets acquired through or by transfer in lieu of loan foreclosure are initially recorded at fair value less costs to sell when acquired, establishing a new cost basis. These assets are subsequently accounted for at the lower of cost or fair value less estimated costs to sell. Fair value is commonly based on recent real estate appraisals which are updated every nine months. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the independent appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs for determining fair value. Real estate owned properties are evaluated on a quarterly basis for additional impairment and adjusted accordingly.

Table of Contents**BROADWAY FINANCIAL CORPORATION AND SUBSIDIARY****Notes to Unaudited Consolidated Financial Statements (continued)**

Appraisals for collateral-dependent impaired loans and real estate owned are performed by certified general appraisers (for commercial properties) or certified residential appraisers (for residential properties) whose qualifications and licenses have been reviewed and verified by the Company. Once received, an independent third-party licensed appraiser reviews the appraisals for accuracy and reasonableness, reviewing the assumptions and approaches utilized in the appraisal as well as the overall resulting fair value in comparison with independent data sources such as recent market data or industry-wide statistics.

Assets Measured on a Recurring Basis

Assets measured at fair value on a recurring basis are summarized below:

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Fair Value Measurements at June 30, 2015		Total
		Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
	(In thousands)			
Assets:				
Securities available-for-sale - residential mortgage-backed	\$ -	\$ 13,674	\$ -	\$ 13,674
Securities available-for-sale - U.S. Government and federal agency	1,973	-	-	1,973

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Fair Value Measurements at December 31, 2014		Total
		Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
	(In thousands)			
Assets:				
Securities available-for-sale - residential mortgage-backed	\$ -	\$ 15,118	\$ -	\$ 15,118
Securities available-for-sale - U.S. Government and federal agency	1,957	-	-	1,957

There were no transfers between Level 1, Level 2, or Level 3 during the three and six months ended June 30, 2015 and 2014.

Assets Measured on a Non-Recurring Basis

Assets are considered to be reflected at fair value on a non-recurring basis if the fair value measurement of the instrument does not necessarily result in a change in the amount recorded on the balance sheet. Generally, a non-recurring valuation is the result of the application of other accounting pronouncements that require assets to be assessed for impairment or recorded at the lower of cost or fair value.

The following table provides information regarding the carrying values of our assets measured at fair value on a non-recurring basis at the dates indicated. The fair value measurement for all of these assets falls within Level 3 of the fair value hierarchy, except for loans receivable held for sale which is a Level 2 classification.

Junior subordinated debentures	5,100	-	-	2,034	2,034
Accrued interest payable	69	-	39	30	69

The methods and assumptions, not previously presented, used to estimate fair values are described as follows:

(a) Cash and Cash Equivalents

The carrying amounts of cash and cash equivalents approximate fair values and are classified as Level 1.

(b) Loans Receivable Held for Sale

The Company's loans receivable held for sale are carried at the lower of cost or fair value. The fair value of loans receivable held for sale is determined by pricing for comparable assets or by outstanding commitments from third party investors, resulting in a Level 2 classification.

Table of Contents

BROADWAY FINANCIAL CORPORATION AND SUBSIDIARY

Notes to Unaudited Consolidated Financial Statements (continued)

(c) Loans Receivable Held for Investment

Fair values of loans, excluding loans receivable held for sale, are estimated as follows: For variable rate loans that reprice frequently and with no significant change in credit risk, fair values are based on carrying values resulting in a Level 3 classification. Fair values for other loans are estimated using discounted cash flow analyses, using interest rates currently being offered for loans with similar terms to borrowers of similar credit quality resulting in a Level 3 classification. Impaired loans are valued at the lower of cost or fair value as described previously. The methods utilized to estimate the fair value of loans do not necessarily represent an exit price.

(d) FHLB Stock

The carrying value of FHLB stock approximates its fair value as the shares can only be redeemed by the FHLB at par.

(e) Accrued Interest Receivable/Payable

The carrying amounts of accrued interest receivable/payable approximate their fair value and are classified the same as the related asset.

(f) Deposits

The fair values disclosed for demand deposits (e.g., interest and non-interest checking, passbook savings, and certain types of money market accounts) are, by definition, equal to the amount payable on demand at the reporting date (i.e., their carrying amount) resulting in Level 2 classification. Fair values for fixed rate certificates of deposit are estimated using discounted cash flow calculations that apply interest rates currently being offered on certificates to a schedule of aggregated expected monthly maturities on time deposits resulting in a Level 2 classification.

(g) Federal Home Loan Bank Advances

The fair values of the Federal Home Loan Bank advances are estimated using discounted cash flow analyses based on the current borrowing rates for similar types of borrowing arrangements resulting in a Level 2 classification.

(h) Junior Subordinated Debentures

The fair values of the Debentures are estimated using discounted cash flow analyses based on the current borrowing rates for similar types of borrowing arrangements resulting in a Level 3 classification.

NOTE (8) Stock-based Compensation

In 2008, the Company adopted the 2008 Long-Term Incentive Plan (2008 LTIP), which was approved by its stockholders. The 2008 LTIP permits the grant of non-qualified and incentive stock options, stock appreciation rights, full value awards and cash incentive awards to the Company's non-employee directors and certain officers and employees for up to 2,000,000 shares of common stock. Option awards are generally granted with an exercise price equal to the market price of the Company's common stock at the date of grant; the option awards have vesting periods ranging from immediate vesting to 5 years and have 10-year contractual terms.

No options were granted during the three and six months ended June 30, 2015 and 2014. The Company recorded no stock-based compensation expense during the three and six months ended June 30, 2015, compared to \$11 thousand and \$22 thousand of stock-based compensation expense recorded during the three and six months ended June 30, 2014.

Notes to Unaudited Consolidated Financial Statements (continued)

NOTE (9) Regulatory Matters

Effective September 9, 2010, the Company and the Bank agreed to the issuance of cease and desist orders (the Orders) by the Office of Thrift Supervision, which was succeeded by the Office of the Comptroller of the Currency (OCC). The Order applicable to the Company prohibits the Company from paying dividends to its stockholders without the prior written approval of the FRB, which is now the federal regulator for savings and loan holding companies. In addition, the Company is not permitted to incur, issue, renew, repurchase, make payments on or increase any debt or redeem any capital stock without prior notice to and receipt of written notice of non-objection from the FRB.

Effective October 30, 2013, the Bank entered into a Consent Order with the OCC, which superseded the Order applicable to the Bank. The Bank's capital requirements are administered by the OCC and involve quantitative measures of assets, liabilities, and certain off-balance sheet items calculated under regulatory accounting practices. Capital amounts and classifications are also subject to qualitative judgments by the OCC. Failure to meet capital requirements can result in regulatory action.

As part of the Consent Order, the Bank is required to maintain a Tier 1 Leverage ratio (Tier 1 capital to adjusted total assets) of at least 9% and a Total Capital ratio (Total capital to risk-weighted assets) of at least 13%, both of which ratios are greater than the respective 4% and 8% levels for such ratios that are generally required under OCC regulations.

The Federal Reserve and the Federal Deposit Insurance Corporation approved final capital rules in July 2013 that substantially amend the existing capital rules for banks. These new rules reflect, in part, certain standards initially adopted by the Basel Committee on Banking Supervision in December 2010 (which standards are commonly referred to as Basel III) as well as requirements contemplated by the Dodd-Frank Act.

Beginning in the first quarter of 2015, the Bank became subject to the Basel III capital requirements, including the standardized approach for calculating risk-weighted assets in accordance with subpart D of the final capital rule. The final rules revise the definition and calculation of Tier 1 capital, Total capital, and include a new Common Equity Tier 1 capital.

Common Equity Tier 1 capital primarily includes common shareholders' equity less certain deductions for goodwill and other intangibles, net of related taxes, MSRs and related deferred taxes that arise from tax loss and credit carryforwards. Tier 1 capital is primarily comprised of Common Equity Tier 1 capital, perpetual preferred stock and certain qualifying capital instruments that are subject to phase-out from Tier 1 capital. Tier 2 capital primarily includes qualifying subordinated debt and qualifying ALLL.

Edgar Filing: BROADWAY FINANCIAL CORP \DE\ - Form 10-Q

The new capital rules include a new Common Equity Tier 1 capital to risk-weighted assets minimum ratio of 4.5%, raise the minimum ratio of Tier 1 capital to risk-weighted assets from 4.0% to 6.0%, require a minimum ratio of Total capital to risk-weighted assets of 8.0%, and require a minimum Tier 1 Leverage ratio of 4.0%. A new capital conservation buffer is also established above the regulatory minimum capital requirements. This capital conservation buffer will be phased in beginning January 1, 2016 at 0.625% of risk-weighted assets and will increase each subsequent year by an additional 0.625% until reaching its final level of 2.5% on January 1, 2019. An institution that does not meet the conservation buffer will be subject to restrictions on certain activities, including payment of dividends, stock repurchases, and discretionary bonuses to executive officers.

The Bank met the minimum capital requirements under the Consent Order at June 30, 2015 and December 31, 2014. Actual and required capital amounts and ratios at June 30, 2015 and December 31, 2014, together with the higher capital requirements that the Bank is required to meet under the Consent Order applicable to it, are presented below.

NOTE (10) Income Taxes

The Company and its subsidiaries are subject to U.S. federal and state income taxes. Income tax expense is the total of the current year income tax due or refundable and the change in deferred tax assets and liabilities. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carry-forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion, or all, of the deferred tax asset will not be realized. In assessing the realization of deferred tax assets, management evaluates both positive and negative evidence, including the existence of cumulative losses in the current year and the prior two years, the amount of taxes paid in available carry-back years, the forecasts of future income and tax planning strategies. This analysis is updated quarterly. Based on this analysis, the Company determined that a valuation allowance of \$7.9 million was required as of June 30, 2015, resulting in \$0 net deferred tax assets. The Company recorded a valuation allowance of \$8.8 million and \$0 net deferred tax assets as of December 31, 2014. The decreases in the valuation allowance for the three and six months ended June 30, 2015 were \$387 thousand and \$877 thousand, respectively.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is intended to provide a reader of our financial statements with a narrative from the perspective of our management on our financial condition, results of operations, liquidity and certain other factors that may affect our future results. Our MD&A should be read in conjunction with the Consolidated Financial Statements and related Notes included in Part I Item 1, Financial Statements, of this Quarterly Report on Form 10-Q and our Annual Report on Form 10-K for the year ended December 31, 2014.

Overview

Total assets increased by \$8.3 million during the six months ended June 30, 2015, primarily reflecting an increase of \$30.9 million in cash and cash equivalents and a net decrease of \$19.0 million in loans receivable, including loans held for sale, as we completed a bulk loan sale of approximately \$45.0 million in June 2015 in order to comply with regulatory loan concentration guidelines. Additionally, the FHLB redeemed \$1.3 million of our investment in FHLB stock and we received \$1.4 million of principal payments on our securities investments during the first half of 2015.

During the six months ended June 30, 2015, total deposits increased by \$14.3 million and FHLB advances decreased by \$8.5 million.

We recorded net income of \$1.2 million and \$2.5 million for the three and six months ended June 30, 2015, compared to \$59 thousand and \$1.0 million for the three and six months ended June 30, 2014, respectively. Results during 2015 included recaptures of loan losses of \$750 thousand in the first and second quarters and a grant of \$355 thousand from the U.S. Department of the Treasury's Community Development Financial Institutions (CDFI) Fund, compared to the same periods in 2014, when we recorded recaptures of loan losses of \$1.1 million and \$500 thousand for the first and second quarters, respectively, and a \$200 thousand grant from CDFI. During the three and six months ended June 30, 2015, we also generated higher net interest income before recapture of loan losses, higher net gain on sale of loans and lower non-interest expense compared to the same periods in 2014.

We became subject to the Basel III capital requirements effective January 1, 2015. The Basel III capital rules include a new ratio of Common Equity Tier 1 capital to risk-weighted assets and increase the minimum capital requirements. A new capital conservation buffer has also been established at levels above the regulatory minimum capital requirements. The final rules also revise the definition and calculation of Tier 1 capital, Total capital and risk-weighted assets. The implementation of the Basel III capital requirements is transitional and phases in through the end of 2018. See Regulatory Capital for additional information.

Results of Operations

Net Income

We recorded net income of \$1.2 million, or \$0.04 per diluted common share, and \$2.5 million, or \$0.08 per diluted common share, for the three and six months ended June 30, 2015, respectively. For the same periods a year ago, we recorded net income of \$59 thousand, or \$0.00 per diluted common share, and \$1.0 million, or \$0.05 per diluted common share, respectively. The increases in net income during the three and six months ended June 30, 2015 were primarily due to higher net interest income before recapture of loan losses, higher non-interest income and lower non-interest expense. In addition, we recorded higher recapture of loan losses during the second quarter of 2015.

Net Interest Income

Net interest income before recapture of loan losses was \$3.1 million for the second quarter of 2015, which is an increase of \$227 thousand, or 8%, from \$2.9 million for the second quarter of 2014. The increase in net interest income from the second quarter of 2014 was primarily due to higher interest income on loans and securities.

Table of Contents

Interest income and fees on loans was \$3.8 million for the second quarter of 2015, up \$90 thousand, or 2%, from the second quarter of 2014. The increase in loan interest income from the second quarter of 2014 was driven by growth in the loan portfolio, including loans held for sale. The average balance of loans receivable increased by \$39.6 million to \$307.4 million for the second quarter of 2015 from \$267.8 million for the second quarter of 2014 and resulted in an increase of \$511 thousand in interest income. Partially offsetting this increase was a decrease of \$421 thousand in interest income as our average yield on loans decreased 59 basis points to 4.92% for the second quarter of 2015 from 5.51% for the second quarter of 2014. The lower average yield on loans for the second quarter of 2015 was primarily due to payoffs of loans which carried higher coupon rates than the average yield on total loans, lower coupon rates on loan originations as a result of the low interest rate environment and higher amortization expense on deferred origination costs.

Other interest income was \$243 thousand for the second quarter of 2015, up \$161 thousand, or 196%, from the second quarter of 2014. The increase from the second quarter of 2014 was primarily due to a special cash dividend on FHLB stock of \$160 thousand received during the second quarter of 2015.

Total interest expense was \$971 thousand for the second quarter of 2015, up \$11 thousand, or 1%, from the second quarter of 2014. Interest expense on deposits was \$435 thousand for the second quarter of 2015, up \$8 thousand, or 2%, from the second quarter of 2014. The increase in deposit interest expense from the second quarter of 2014 was due to growth in interest-bearing deposits. The impact of higher average interest-bearing deposit balances more than offset the impact of lower deposit rates in the second quarter of 2015. The average balance of deposits increased by \$13.5 million to \$224.1 million for the second quarter of 2015 from \$210.6 million for the second quarter of 2014 and resulted in an increase of \$40 thousand in interest expense. The average cost of deposits decreased by 3 basis points to 78 basis points for the second quarter of 2015 from 81 basis points for the second quarter of 2014 and resulted in a decrease of \$32 thousand in interest expense.

Interest expense on borrowings was \$536 thousand for the second quarter of 2015, up from \$533 thousand for the second quarter of 2014. The increase of \$3 thousand in interest expense on borrowings primarily reflected an increase of \$14 thousand in interest expense on FHLB advances and a decrease of \$11 thousand in interest expense on the Debentures as a result of the debt modification in 2014. The increase of \$14 thousand in interest expense on FHLB advances was primarily due to an increase of \$6.4 million in the average balance of FHLB advances, which increased interest expense by \$40 thousand, and a decrease of 12 basis points in the average cost of FHLB advances, which decreased interest expense by \$26 thousand.

For the six months ended June 30, 2015, net interest income before recapture of loan losses totaled \$6.1 million, up \$387 thousand, or 7%, from \$5.7 million of net interest income before recapture of loan losses for the same period a year ago. The increase in net interest income primarily resulted from an increase of \$26.1 million in average interest-earning assets.

Table of Contents

The following tables set forth average balance sheets, average yields and costs, and certain other information for the periods indicated. All average balances are daily average balances. The yields set forth below include the effect of deferred loan fees, and discounts and premiums that are amortized or accreted to interest income or expense. We do not accrue interest on loans on non-accrual status; however, the balance of these loans is included in the total average balance of loans receivable, which has the effect of reducing average loan yields.

For the three months ended June 30,

(Dollars in Thousands)	2015			2014		
	Average Balance	Interest	Average Yield/ Cost	Average Balance	Interest	Average Yield/ Cost
Assets						
Interest-earning assets:						
Interest-earning deposits	\$ 2,379	\$ 2	0.34%	\$ 2,944	\$ 3	0.41%

- (5) Net interest rate margin represents net interest income as a percentage of average interest-earning assets.

Table of Contents

Recapture of Loan Losses

We recorded a \$750 thousand recapture of loan losses for the second quarter of 2015, compared to a \$500 thousand recapture of loan losses for the second quarter of 2014. The recapture of loan losses during the second quarter of 2015 was primarily due to the reduction in the loans held for investment portfolio, continued improvements in credit quality, and declines in net charge-offs and overall historical loss factors. See Allowance for Loan Losses for additional information.

For the six months ended June 30, 2015, we recorded a recapture of loan losses of \$1.5 million compared to \$1.6 million for the same period a year ago. The recapture of loan losses during the first half of 2015 primarily reflected a reduction in the loans held for investment portfolio and continued improvements in credit quality.

Non-interest Income

Non-interest income was \$492 thousand for the second quarter of 2015, up \$428 thousand, or 669%, from the second quarter of 2014. The increase in non-interest income from the second quarter of 2014 was primarily due to a \$380 thousand gain on sale of loans and a decrease of \$33 thousand in net loss on sale of REOs.

For the six months ended June 30, 2015, non-interest income totaled \$1.1 million compared to \$397 thousand for the same period a year ago. The increase in non-interest income was primarily due to a gain on sale of loans of \$514 thousand during the first half of 2015. We also received \$200 thousand more in CDFI grant and recorded a small net gain on sale of REOs during the first half of 2015, compared to a net loss on sale of REOs of \$50 thousand during the first half of 2014.

Non-interest Expense

Non-interest expense was \$3.2 million for the second quarter of 2015, down \$196 thousand, or 6%, from the second quarter of 2014. The decrease in non-interest expense from the second quarter of 2014 was primarily due to a decrease of \$81 thousand in FDIC assessments, a decrease of \$213 thousand in REO expense, primarily relating to valuation write-downs, and an increase of \$77 thousand in other expense, primarily relating to provision for unfunded loan commitments.

For the six months ended June 30, 2015, non-interest expense totaled \$6.3 million compared to \$6.6 million for the same period a year ago. The decrease in non-interest expense during the first half of 2015 primarily reflected a decrease of \$185 thousand in professional services expense, a decrease of \$175 thousand in FDIC assessments and a decrease of \$225 thousand in REO expenses, which were partially offset by an increase of \$243 thousand in compensation and benefits expense. Professional services expense for the first half of 2015 was lower than in the first half of 2014 due to legal and consulting fees incurred in the first half of 2014 in connection with our request for an extension of the maturity of the Debentures. The decrease in REO expense during the first half of 2015 was primarily due to lower provision for losses on REO reflecting fewer foreclosures and stable property values. Compensation and benefits expense increased primarily due to bonus accruals and salary increases.

Income Taxes

The Company's income tax expense was \$6 thousand and \$8 thousand for the three and six months ended June 30, 2015 compared to \$0 and \$3 thousand for the three and six months ended June 30, 2014 respectively. The tax expense for 2015 and 2014 primarily reflected the statutory minimum taxes paid to the state of California, and the use of tax carryforwards to offset current taxable income in the periods presented.

Financial Condition

Total Assets

Total assets were \$359.2 million at June 30, 2015, which represented an increase of \$8.3 million, or 2%, from total assets of \$350.9 million at December 31, 2014. The increase in assets during the first half of 2015 was primarily due to an increase of \$30.9 million in cash and cash equivalents. This was partially offset by a net decrease of \$19.0 million in loans receivable, including loans held for sale, as a result of the completion of a bulk loan sale for approximately \$45.0 million.

Table of Contents

Loans Receivable Held for Sale

Loans receivable held for sale at June 30, 2015 and December 31, 2014 totaled \$82.0 million and \$19.5 million, respectively, and consisted of multi-family loans. During the first half of 2015, we originated \$31.4 million of multi-family loans in our held for sale portfolio. In addition, during the first half of 2015, we reclassified \$90.2 million of multi-family loans from loans receivable held for investment to loans receivable held for sale in order to comply with our Loan Concentration Risk Management Policy, which was revised in March 2015 to comply with the OCC's Loan Concentration Guidelines. Loan sales totaled \$59.0 million and loan repayments totaled \$166 thousand during the first half of 2015.

Loans Receivable Held for Investment

Our gross loan portfolio decreased by \$82.1 million to \$201.5 million at June 30, 2015, from \$283.6 million at December 31, 2014. The decrease in our loan portfolio during the first half of 2015 primarily consisted of a decrease of \$67.8 million in our multi-family residential real estate loan portfolio, a decrease of \$5.6 million in our single family residential real estate loan portfolio, a decrease of \$3.7 million in our commercial real estate loan portfolio and a decrease of \$4.9 million in our church loan portfolio.

Loans originated for investment totaled \$32.6 million for the six months ended June 30, 2015, compared to loans originated for investment of \$40.6 million for the six months ended June 30, 2014. Loan repayments for the six months ended June 30, 2015 totaled \$24.6 million, compared to \$22.3 million for the six months ended June 30, 2014. Loans transferred to our held for sale portfolio during the six months ended June 30, 2015 totaled \$90.2 million.

Gross loan charge-offs during the first half of 2015 totaled \$53 thousand, compared to gross loan charge-offs of \$442 thousand during the first half of 2014. Loans transferred to REO during the first half of 2015 totaled \$843 thousand, compared to \$1.8 million during the first half of 2014.

Allowance for Loan Losses

We record a provision for loan losses as a charge to earnings when necessary in order to maintain the allowance for loan losses (ALLL) at a level sufficient, in management's judgment, to absorb probable incurred losses in the loan portfolio. At least quarterly we conduct an assessment of the overall quality of the loan portfolio and general economic trends in the local market. The determination of the appropriate level for the allowance is based on that review, considering such factors as historical loss experience for each type of loan, the size and composition of our loan portfolio, the levels and composition of our loan delinquencies, non-performing loans and net loan charge-offs, the value of underlying collateral on problem loans, regulatory policies, general economic conditions, and other factors related to the collectability of loans in the portfolio.

Our ALLL decreased by \$1.6 million to \$6.9 million, or 3.43% of our gross loans receivable held for investment, at June 30, 2015, from \$8.5 million, or 2.97% of our gross loans receivable held for investment, at December 31, 2014, primarily reflecting \$1.5 million of recapture of loan losses. The recapture of \$1.5 million was primarily due to shrinkage of the loans held for investment portfolio, continued improvements in

credit quality and declines in net charge-offs and overall historical loss factors. We continue to maintain our allowance at a level that we believe is appropriate given the significant reduction in delinquencies and non-performing loans, the continued improvement in our asset quality metrics and the high quality of our loan originations.

Our asset quality continues to show signs of improvement as our loan delinquencies and non-performing loans are at their lowest levels since December 2009. As of June 30, 2015, we had total delinquencies of \$1.7 million, compared to total delinquencies of \$2.5 million at December 31, 2014. Loan delinquencies decreased by \$775 thousand during the first half of 2015 primarily due to two loans foreclosed and transferred to REO.

Table of Contents

Non-performing loans (NPLs) consist of delinquent loans that are 90 days or more past due and other loans, including troubled debt restructurings that do not qualify for accrual status. At June 30, 2015, NPLs totaled \$6.7 million, compared to \$8.9 million at December 31, 2014. The decrease of \$2.2 million in NPLs was primarily due to transfers to REO of \$843 thousand, payoff of \$793 thousand, repayments of \$419 thousand and charge-offs of \$53 thousand.

In connection with our review of the adequacy of our ALLL, we track the amount and percentage of our NPLs that are paying currently, but nonetheless must be classified as NPL for reasons unrelated to payments, such as lack of current financial information and an insufficient period of satisfactory performance. As of June 30, 2015, \$5.7 million, or 84%, of our total NPLs of \$6.7 million were current in their payments. Also, in determining the ALLL, we consider the ratio of the ALLL to NPLs, which increased to 102.79% at June 30, 2015 from 95.52% at December 31, 2014.

When reviewing the adequacy of the ALLL, we also consider the impact of charge-offs, including the changes and trends. Gross loan charge-offs during the first half of 2015 were \$53 thousand compared to \$442 thousand during the first half of 2014. The charge-offs during the first half of 2015 were primarily due to impairment losses on a foreclosed church loan and a delinquent single-family residential real estate loan that was fully written off. In determining charge-offs, we update our estimates of collateral values on NPLs by obtaining new appraisals at least every nine months. If the estimated fair value of the loan collateral less estimated selling costs is less than the recorded investment in the loan, a charge-off for the difference is recorded to reduce the loan to its estimated fair value, less estimated selling costs. Therefore, certain losses inherent in our total NPLs are recognized periodically through charge-offs. The impact of updating these estimates of collateral value and recognizing any required charge-offs is to increase charge-offs and reduce the ALLL required on these loans. As of June 30, 2015, we had written down 65% of our NPLs to estimated fair value less estimated selling costs. The remaining 35% of our NPLs at June 30, 2015 had specific reserves or were reported at cost because the fair value of collateral less estimated selling costs exceeded the recorded investment in the loan. As of June 30, 2015, the average loan to value on NPLs was 52%.

Recoveries during the first half of 2015 totaled \$11 thousand compared to \$1.3 million during the first half of 2014. Recoveries during the first half of 2014 were primarily due to payoffs of two non-accrual loans which had been fully written off in late 2011, resulting in recoveries of \$1.1 million.

Impaired loans at June 30, 2015 were \$19.1 million, compared to \$23.5 million at December 31, 2014. Specific reserves for impaired loans were \$1.4 million, or 7.35% of the aggregate impaired loan amount at June 30, 2015, compared to \$1.5 million, or 6.40%, at December 31, 2014. Excluding specific reserves for impaired loans, our coverage ratio (general allowance as a percentage of total non-impaired loans) increased to 3.02% at June 30, 2015, from 2.66% at December 31, 2014, primarily as we transferred over \$90 million of loans held for investment to loans held for sale.

Management believes that the ALLL is adequate to cover probable incurred losses in the loan portfolio as of June 30, 2015, but there can be no assurance that actual losses will not exceed the estimated amounts. In addition, the OCC and the FDIC periodically review the ALLL as an integral part of their examination process. These agencies may require an increase in the ALLL based on their judgments of the information available to them at the time of their examinations.

Real Estate Owned

Edgar Filing: BROADWAY FINANCIAL CORP \DE\ - Form 10-Q

During the first half of 2015, REO increased by \$96 thousand to \$2.2 million at June 30, 2015, from \$2.1 million at December 31, 2014. During the first half of 2015, two church loans totaling \$843 thousand were foreclosed and the properties securing the loans were transferred to REO. Two REO properties were sold during 2015 for net proceeds of \$621 thousand and a net gain of less than \$1 thousand. At June 30, 2015, the Bank's REO consisted of two church buildings.

Table of Contents

Deposits

Deposits totaled \$232.2 million at June 30, 2015, up \$14.3 million from December 31, 2014. During the first half of 2015, certificates of deposit increased by \$12.3 million and represented 64% of total deposits at June 30, 2015, compared to 62% of total deposits at December 31, 2014. Core deposits (NOW, demand, money market and passbook accounts) increased by \$2.0 million during the first half of 2015 and represented 36% of total deposits at June 30, 2015, compared to 38% of total deposits at December 31, 2014.

Borrowings

At June 30, 2015, total borrowings consisted of advances to the Bank from the FHLB of \$77.5 million and Debentures issued by the Company of \$5.1 million. At December 31, 2014, borrowings consisted of advances from the FHLB of \$86.0 million and Debentures of \$5.1 million. During the first half of 2015, we repaid \$8.5 million of the FHLB advance with proceeds from our loan sale in June.

Stockholders' Equity

Stockholders' equity was \$39.6 million, or 11.04% of the Company's total assets, at June 30, 2015, compared to \$37.3 million, or 10.62% of the Company's total assets, at December 31, 2014. The increase in stockholders' equity during the first half of 2015 was primarily due to net earnings for such period.

Liquidity

The objective of liquidity management is to ensure that we have the continuing ability to fund operations and meet other obligations on a timely and cost-effective basis. The Bank's sources of funds include deposits, advances from the FHLB and other borrowings, proceeds from the sale of loans, REO, and investment securities, and payments of principal and interest on loans and investment securities. The Bank is currently approved by the FHLB to borrow up to 30% of total assets to the extent the Bank provides qualifying collateral and holds sufficient FHLB stock. This approved limit and collateral requirement would have permitted the Bank, as of June 30, 2015, to borrow an additional \$28.7 million. Also, the Bank has received funds from investments made by the Company into the equity of the Bank, including the investments made as part of the recapitalization completed in August 2013 and the private placement transactions completed in October 2014.

The Bank's primary uses of funds include withdrawal of and interest payments on deposits, originations of loans, purchases of investment securities, and payment of operating expenses. Also, when the Bank has more funds than required for reserve requirements or short-term liquidity needs, the Bank sells federal funds to the Federal Reserve Bank or other financial institutions. The Bank's liquid assets at June 30, 2015 consisted of \$51.7 million in cash and cash equivalents and \$14.9 million in securities available-for-sale that were not pledged, compared to liquid assets of \$20.8 million in cash and cash equivalents and \$15.9 million in securities available-for-sale that were not pledged at December 31, 2014.

Currently, we believe that the Bank has sufficient liquidity to support growth over the foreseeable future.

The Company's separate company liquidity is based primarily on the proceeds from financing transactions, such as the private placements completed in August 2013 and October 2014. The Company has not been able to obtain funds from the Bank since 2010 as the Order placed limitations on the Bank, including prohibition of the payment of dividends by the Bank without prior regulatory approval.

The Company recorded consolidated net cash outflows from operating activities of \$14.8 million during the six months ended June 30, 2015, compared to consolidated net cash inflows from operating activities of \$914 thousand during the six months ended June 30, 2014. Net cash outflows from operating activities during the first half of 2015 were primarily attributable to originations of loans held for sale.

Table of Contents

The Company recorded consolidated net cash inflows from investing activities of \$39.9 million during the six months ended June 30, 2015, compared to consolidated net cash outflows from investing activities of \$24.8 million during the six months ended June 30, 2014. Net cash inflows from investing activities during the first half of 2015 were primarily attributable to proceeds from sale of loans, principal repayments on securities, proceeds from sale of REOs and proceeds from redemption of FHLB stock.

The Company recorded consolidated net cash inflows from financing activities of \$5.8 million and \$326 thousand during the six months ended June 30, 2015 and June 30, 2014, respectively. Net cash inflows from financing activities during the first half of 2015 were primarily attributable to a net increase in deposits.

Capital Resources

Our principal subsidiary, Broadway Federal, must comply with capital standards established by the OCC in the conduct of its business. Failure to comply with such capital requirements may result in significant limitations on its business or other sanctions. The Dodd-Frank Act, among other things, now imposes specific capital requirements on us as a savings and loan holding company as well. These requirements must be no less than those to which federally insured depository institutions are currently subject. The current regulatory capital requirements are described in Note 9 of the Notes to Consolidated Financial Statements and in **Regulatory Capital** below.

Regulatory Capital

The Federal Reserve and the Federal Deposit Insurance Corporation approved final capital rules in July 2013 that substantially amend the existing capital rules for banks. These new rules reflect, in part, certain standards initially adopted by the Basel Committee on Banking Supervision in December 2010 (which standards are commonly referred to as **Basel III**) as well as requirements contemplated by the Dodd-Frank Act.

Beginning in the first quarter of 2015, we became subject to the Basel III capital requirements, including the standardized approach for calculating risk-weighted assets in accordance with subpart D of the final capital rule. The final rules also revise the definition and calculation of Tier 1 capital, Total capital, and include a new Common Equity Tier 1 capital.

Common Equity Tier 1 capital primarily includes common shareholders' equity less certain deductions for goodwill and other intangibles net of related taxes, MSRs net of related taxes that arise from tax loss and credit carryforwards. Tier 1 capital is primarily comprised of Common Equity Tier 1 capital, perpetual preferred stock and certain qualifying capital instruments that are subject to phase-out from Tier 1 capital. Tier 2 capital primarily includes qualifying subordinated debt and qualifying ALLL.

The new capital rules include a new Common Equity Tier 1 capital to risk-weighted assets minimum ratio of 4.5%, raise the minimum ratio of Tier 1 capital to risk-weighted assets from 4.0% to 6.0%, require a minimum ratio of Total capital to risk-weighted assets of 8.0%, and require a

minimum Tier 1 Leverage ratio of 4.0%. A new capital conservation buffer is also established above the regulatory minimum capital requirements. This capital conservation buffer will be phased in beginning January 1, 2016 at 0.625% of risk-weighted assets and will increase each subsequent year by an additional 0.625% until reaching its final level of 2.5% on January 1, 2019. An institution that does not meet the conservation buffer will be subject to restrictions on certain activities, including payment of dividends, stock repurchases, and discretionary bonuses to executive officers.

The Bank is subject to higher capital requirements under the Consent Order entered into by the Bank with the OCC on October 30, 2013. The Consent Order raised the Bank's minimum capital requirements to 9% for Tier 1 Leverage ratio (Tier 1 capital to adjusted total assets) and 13% for Total Capital ratio (Total capital to risk-weighted assets). The Bank was in compliance with all capital requirements in effect at June 30, 2015 and December 31, 2014.

Table of Contents

Actual and required capital amounts and ratios at June 30, 2015 and December 31, 2014, together with the higher capital requirements that the Bank is required to meet under the Consent Order applicable to it, are presented below.

	Actual		Required for Capital Adequacy Purposes		Capital Requirements under Consent Order	
	Amount	Ratio	Amount (Dollars in thousands)	Ratio	Amount	Ratio
June 30, 2015:						
Tier 1 Leverage	\$ 42,578	11.89%	\$ 14,323	4.00%	\$ 32,227	9.00%
Common Equity Tier 1	\$ 42,578	17.87%	\$ 10,723	4.50%	N/A	N/A
Tier 1	\$ 42,578	17.87%	\$ 14,297	6.00%	N/A	N/A
Total Capital	\$ 45,606	19.14%	\$ 19,063	8.00%	\$ 30,978	13.00%
December 31, 2014:						
Tier 1 Leverage	\$ 39,773	11.34%	\$ 14,028	4.00%	\$ 31,562	9.00%
Tier 1	\$ 39,773	16.41%	\$ 9,695	4.00%	N/A	N/A
Total Capital	\$ 42,870	17.69%	\$ 19,390	8.00%	\$ 31,508	13.00%

ITEM 4. CONTROLS AND PROCEDURES**Evaluation of Disclosure Controls and Procedures**

An evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures was performed under the supervision of the Company's Chief Executive Officer (CEO) and Chief Financial Officer (CFO) as of June 30, 2015. Based on that evaluation, the Company's CEO and CFO concluded that the Company's disclosure controls and procedures were effective as of June 30, 2015. There were no significant changes during the quarter ended June 30, 2015 in the Company's internal controls over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
