**Item 7.01. Regulation FD Disclosure.**

On July 21, 2016, the San Francisco Bay Area Regional Water Quality Control Board (the Water Control Board ) approved the settlement between California Water Service, the Registrant's California regulated utility subsidiary (the Company ) and the Water Control Board and California Department of Fish and Wildlife ( Fish and Wildlife ) to resolve purported complaints from the Water Control Board and Fish and Wildlife alleging the Company discharged approximately 8,207,560 gallons of drinking water into Polhemus Creek that was caused by an undetected crack in a large water main located 10 feet below ground in a remote area. The water was disinfected as required to meet all federal and state water quality standards and make it safe for human consumption. Drinking water, however, can be harmful to fish and the environment.

As part of the settlement, the Company will replace 2,000 feet of 18-inch cast iron water main with new ductile iron main along Polhemus Road and Polhemus Creek in San Mateo. The Company will also conduct a streambed restoration project in San Mateo Creek to improve conditions in the creek for native fish. This work will be performed in coordination with the California Department of Fish and Wildlife. In addition to investing in these improvement projects, the Company will pay \$504,519 to the Water Control Board and \$20,000 to Fish and Wildlife. These amounts were previously included in the Company's general reserves and will not affect the Company's financial position, results of operations, or cash flows.

Under the terms of the settlement, the Company will be released from all claims unless it fails to complete the projects. The agreement contains no admission of wrongdoing.

The information included in the Exhibits to this report is incorporated by reference in response to this Item 7.01.

The information furnished pursuant to Item 7.01 of this Current Report shall not be deemed filed for the purposes of Section 18 of the Exchange Act, or incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as expressly set forth by specific reference in such a filing.

This report contains forward-looking statements within the meaning established by the Private Securities Litigation Reform Act of 1995 ( Act ). The forward-looking statements are intended to qualify under provisions of the federal securities laws for safe harbor treatment established by the Act. Forward-looking statements are based on currently available information, expectations, estimates, assumptions and projections, and management's judgment about the Company, the water utility industry and general economic conditions. Such words as would, expects, intends, plans, believes, estimates, assumes, anticipates, projects, predicts, forecasts or variations of such words or similar expressions are intended to identify forward-looking statements. The forward-looking statements are not guarantees of future performance. They are subject to uncertainty and changes in circumstances. Actual results may vary materially from what is contained in a forward-looking statement. Factors that may cause a result different than expected or anticipated include, but are not limited to: governmental and regulatory commissions' decisions; changes in regulatory commissions' policies and procedures; changes in environmental compliance and water quality requirements; shortages and the cost of labor; governmental regulation directed at or affecting construction activities; weather related slowdowns; and, other risks and unforeseen events. When considering forward-looking statements, you should keep in mind the cautionary statements included in this paragraph, as well as the annual 10-K, Quarterly 10-Q, and other reports filed from time-to-time with the Securities and Exchange Commission (SEC). The Company assumes no obligation to provide public updates of forward-looking statements.
