**Item 1.01. Entry into a Material Definitive Agreement.**

On August 21, 2018, NRG Wholesale Generation LP (the Seller), a wholly owned indirect subsidiary of GenOn Energy, Inc. (GenOn), and GenOn, as guarantor of Seller, entered into an Asset Purchase Agreement (Purchase Agreement) with Entergy Mississippi, Inc. (the Purchaser). Pursuant to the Purchase Agreement, Purchaser agreed to buy all assets, real property and interests, except as excluded by the Purchase Agreement, owned, used or held by Seller and its affiliates for use primarily in the operation of the Choctaw facility, a combined cycle, natural gas-fueled electrical generation plant with a tested capacity of approximately 810 megawatts (the Choctaw Facility). As set forth in the Purchase Agreement, the closing purchase price is \$314 million, which amount is subject to adjustment for the value of the inventory of the business and the outcome of performance tests of the facility determined as of the closing date. The economic effective date of the Purchase Agreement will be the closing date.

As previously disclosed, GenOn and certain of its directly and indirectly owned subsidiaries (the Debtors) filed voluntary petitions for reorganization under Chapter 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the Southern District of Texas (the Bankruptcy Court). The Bankruptcy Court has entered the *Order Confirming the Third Amended Joint Chapter 11 Plan of Reorganization of GenOn Energy, Inc. and its Debtor Affiliates* (the Confirmation Order), which approved and confirmed the Debtor's Third Amended Joint Chapter 11 Plan of Reorganization (the Plan). The closing of the transactions contemplated by the Purchase Agreement is subject to the Bankruptcy Court entering a final order approving modification of the Plan and confirming that the Purchase Agreement constitutes a third party sale transaction for purposes of, and is entitled to the benefits and protections of, the Plan and Confirmation Order (the Final Sale Order). GenOn Noteholders (as defined in the Plan) holding over 50% of the GenOn Notes (as defined in the Plan) are supportive of, and have consented to, the transactions contemplated by the Purchase Agreement as a third party sale transaction under the Plan. The Purchase Agreement also includes an exclusivity provision whereby Seller and GenOn have agreed that they and their Affiliates, and their and their Affiliates' respective representatives, will not, directly or indirectly, encourage, solicit, initiate or engage in discussions or negotiations with, or provide any information to any person other than the Purchaser, concerning the sale of the Choctaw Facility, or enter into any agreement with respect thereto with any person other than the Purchaser.

Additionally, the closing of the transactions contemplated by the Purchase Agreement is subject to other customary closing conditions, including the expiration of the waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended, and the approvals of the Federal Energy Regulatory Commission and the Mississippi Public Service Commission. In addition, in connection with entry into the Purchase Agreement, the existing Long-Term Service Agreement (Existing LTSA) between Seller and GE International, Inc. (GE) with respect to Choctaw will be amended and GenOn has agreed to pay on September 25th, 2018, \$35.6 million to reduce the current amounts owed under the Existing LTSA in respect of certain upgrades and conversions, except for such amount due under GE's proofs of claim (Claim Nos. 1369 and 1415) in the amount of \$3,047,923.39. As of June 30, 2018, GenOn held on its balance sheet a liability of approximately \$76.6 million in respect of the upgrades and conversions undertaken under the Existing LTSA, and the \$35.6 million payment will reduce such balance sheet liability. The amendment to the Existing LTSA will also reduce the variable fee payable by GenOn to GE during the term of the Existing LTSA. The Purchaser and GE have agreed to further restate to the Existing LTSA as part of the Purchaser's acquisition of Choctaw, at closing.

Subject to the satisfaction of closing conditions described in the Purchase Agreement, the transaction is expected to close in the third quarter of 2019.

The Purchase Agreement contains certain customary termination rights, including (i) by mutual consent of the Purchaser, GenOn and the Seller, (ii) by any of the Purchaser, GenOn or the Seller if the closing of the transaction has not occurred by August 21, 2020, (iii) by any of the Purchaser, GenOn or the Seller if a court has entered a final order prohibiting the transaction, (iv) by any of the Purchaser, GenOn or the Seller in the event of an uncured breach by the other parties that would cause a failure of a closing condition at a time when the terminating party is not in breach of the Purchase Agreement, (v) by Seller or Purchaser if the Choctaw Facility is damaged beyond repair prior to closing, (vi) by Seller, upon written notice to Purchaser, if Purchaser is or becomes bankrupt, and (vii) by Seller or Purchaser, upon written notice to the other, if Seller has not procured certain gas transportation capacity arrangements assignable to the Purchaser at the Choctaw closing.

## Edgar Filing: GenOn Energy, Inc. - Form 8-K

Accordingly, investors should not rely on the representations, warranties and covenants or any descriptions thereof as characterizations of the actual state of facts or condition of GenOn, the Seller, their respective subsidiaries and affiliates or their respective businesses.
