Dear fellow shareholder,

We are pleased to have reached an amended agreement with Ensco at an exchange ratio of 2.750, **which represents a 24.2% increase for Rowan shareholders compared to the 2.215 exchange rate in the previous agreement between the companies.** The Rowan Board and management team actively negotiated with Ensco to receive the significantly improved exchange ratio and, after careful review and consideration, the Board unanimously determined that the transaction continues to maximize value for all Rowan shareholders and represents the best path forward for the Company.

Rowan's Board of Directors and management team have a long track record of engaging with shareholders to understand their perspectives and have always acted to advance the best interests of ALL shareholders. Since Rowan announced the agreement to combine with Ensco on October 8, 2018, we have had extensive dialogue with shareholders, and we continue to receive significant positive feedback regarding the industrial logic and value creation opportunity of the pending combination from many of Rowan's shareholders.

VOTE FOR THE AMENDED MERGER WITH ENSCO TODAY

VOTE FOR THE SIGNIFICANT VALUE CREATION

As the Rowan team has worked with the Ensco team over the last several months to begin planning for the integration and realization of synergy opportunities, our conviction regarding the value creation opportunity has only grown stronger:

- Shareholders of the combined company will benefit from efficiencies including an expected \$165 million of annual run-rate expense synergies (over 75% of which are expected to be realized within one year of closing) that will drive an estimated **\$1.1 billion of capitalized shareholder value creation**, providing even greater upside as the industry recovery gains momentum.
- The combination provides Rowan with enhanced protection in more challenging market conditions as it dramatically increases Rowan's contracted revenue backlog from approximately \$500 million to more than \$2.6 billion.

- The combined company will also have \$3.7 billion of total liquidity, including \$1.7 billion of cash and short-term investments, and a flexible capital structure with no secured debt that enhances our ability to navigate through industry cycles and generate greater shareholder value than Rowan could alone.
