

Edgar Filing: PNM RESOURCES - Form 8-K

September 13, 2002

Mr. John M. Delaware
Deputy Executive Director and
Chief Accountant
Office of the Executive Director
Federal Energy Regulatory Commission
Washington, D. C. 20426

Dear Mr. Delaware:

RE: OED-DRA Docket No. FA02-47-000

In response to your letter dated August 27, 2002 requesting information pertaining to the Account 146 (Accounts Receivable from Associated Companies) negative balance in PNM's FERC Form 1 for the years 2000 and 2001, we are providing the following requested explanation and supporting documentation.

The Company's inter-company accounting procedures do not require that inter-company transactions be distinguished as an accounts receivable (Account 146) or accounts payable (Account 234), only that inter-company accounts be used. These balances are eliminated during consolidation.

The FERC consolidation process for purposes of preparing the FERC Form 1 requires a manual financial reporting reclassification in order to net payables and receivables of associated companies not consolidated for FERC reporting. This reclassification did not occur in 2000 or 2001. In addition in 2001, an erroneous elimination was recorded against the inter-company payable account. This elimination should not have occurred because PNM Resources is not consolidated for FERC purposes and the actual note payable is in account 233. Had such reclassifications taken place and the erroneous elimination not occurred, the open accounts with associated companies would have been as follows:

	Year Ended 2000	Year Ended 2001
As reported receivable - 146	\$ (1,723,157)	\$ (124,499,443)
As reported payable - 234	5,909,976	133,081,091
	-----	-----
146 balance after reclass	\$ 4,186,819	\$ 8,581,648
	-----	-----
Reclass Note Payable - PNM Resources		(8,500,000)

146 balance after N/P reclass	\$ 4,186,819	\$ 81,648
	=====	=====

2

The 146 balances after reclassification relate to the following associated companies:

Edgar Filing: PNM RESOURCES - Form 8-K

Business Segment	Year Ended 2000	Year Ended 2001
Avistar, Inc.	\$3,251,333	\$(162,114)
Non Operating Subs & Other	935,486	243,762
	-----	-----
Total	\$4,186,819	\$ 81,648
	=====	=====

The gross inter-company balances increased significantly in 2001 due to the creation of the PNM Resources, Inc. holding company and the transfer of common costs between business segments that occurred at that time.

During 2002, we simplified our inter-company accounting procedures to ensure proper elimination of inter-company balances for FERC reporting purposes and to ensure the misclassification between accounts 146 and 234 do not recur. We believe that the explanation above should eliminate the need for further documentation, but if that belief is incorrect, please let us know and we will provide it.

If you have any further questions or concerns, please feel free to contact me at (505) 241-4691.

Sincerely,

/s/ John R. Loyack

John R. Loyack
Vice President and
Chief Accounting Officer
