This prospectus contains forward-looking statements. Some of the information contained or incorporated into in this prospectus, may be forward-looking statements under the federal securities laws. Such statements often contain words such as "anticipates," "intends," "seeks," "believes," "estimates," "plans," and "expects." These statements discuss expectations for the future, contain projections concerning the results of our operations or our future financial condition or state other forward-looking information. We believe it is important to communicate our expectations to our investors. However, there will be events in the future that we are not able to accurately predict or over which we have no control. The risk factors listed in this section, as well as any other cautionary language in this prospectus, provide examples of risks, uncertainties and events that may cause our actual results to differ materially from the expectations we describe in our forward-looking statements. Before you invest in our common stock, you should be aware that the occurrence of the events described in these risk factors and elsewhere in this prospectus, or in our other publicly filed reports which are or later will be incorporated herein, could have a material adverse effect on our business, operating results and financial condition.

A. M. CASTLE & CO.

We are a distributor of highly engineered metal and plastic materials and a provider of value-added services associated with these materials. Our metal materials are commonly classified as either Ferrous (such as mild steel, cast steel and cast iron) and Non-Ferrous (such as aluminum, cooper, brass and lead). Our customers are a wide range of industrial companies within the producer durable equipment sector of our economy. We are classified as being in the metals distribution industry and we are known as a steel service center. We deliver highly engineered materials for critical applications where exact conformance to specifications provided to us by our customers is essential.

Our customer base includes a variety of companies in the durable goods industry spread across the entire spectrum of the metal using sector, none of which represent more than three percent (3%) of our total annual sales. We maintain a diverse customer base with no significant geographical or customer concentration. Within our core specialty metals business we believe we are recognized as North America's leading industrial distributor of carbon, alloy and stainless steels; nickel alloy; aluminum; titanium; copper and brass as well as an industry pioneer and premier provider of material management programs that are designed to reduce our customer's total cost.

Through our subsidiary Total Plastics, Inc. we also distribute a broad range of value-added industrial plastics. Together Castle and our affiliated companies operate in over 50 locations throughout North America.

RECENT DEVELOPMENTS

Edgar Filing: CASTLE A M & CO - Form S-3/A

During the first quarter of 2002, we announced a voluntary stock option exchange program, or Offer, for our employees. Under the program, our employees had the opportunity, if they so chose, to elect to cancel outstanding stock options held by them in exchange for new options to be granted at a future date at the then current fair market value. The number of new options granted to an employee who participates in the Offer will equal one half of the number of outstanding stock options tendered by such employee. The Offer remained outstanding until 5:00 p.m., on March 22, 2002. A total of 55 individuals elected to participate in the Offer. These individuals tendered a total of 305,759 options to purchase common stock in return for our promise to grant new options on the grant date of September 27, 2002.

3

RISK FACTORS

You should carefully consider the risks described below before making a decision to invest in our common stock. The risks and uncertainties described below are examples only and are not the only ones that we face. Additional risks and uncertainties that are not presently known to us or that we do not currently believe are important to an investor may also harm our business operations. If any of the events, contingencies, circumstances or conditions described in the following risks actually occur, our business, financial condition or results of operations could be seriously harmed. If that occurs, the trading price of our common stock could decline, and you may lose part or all of your investment.

Our future operating results depend on a number of factors beyond our control such as the prices for metals, which could cause our results to be adversely affected.

The prices we pay for raw materials and the prices we charge for products may change depending on many factors not in our control, including general economic conditions (both domestic and international), competition, production levels, import duties and other trade restrictions, and currency fluctuations. To the extent metals prices decline, this generally would mean lower sales and possibly lower net income, depending on the timing of the price changes. To the extent we are not able to pass on to our customers any increases in our raw materials prices, our results of operations may be adversely affected.

We service industries that are highly cyclical, and any downturn in our customers' industries could reduce our revenue and profitability which could result in a negative impact on our stock price.

Many of our products are sold to industries that experience significant fluctuations in demand based on economic conditions, energy prices, consumer demand and other factors beyond our control. As a result of the volatility in the industries we serve, we may have difficulty increasing or maintaining our level of sales or profitability if we are not able to divert sales of our products to customers in other industries when one or more of our customers' industries experiencing a decline. Therefore, we may not be able to increase or maintain its level of sales in periods of economic stagnation or downturn.

The success of our business is affected by general economic conditions, and, accordingly, our business has been and could continue to be adversely impacted by an economic slowdown or recession.

Periods of economic slowdown or recession in the United States, or the

Edgar Filing: CASTLE A M & CO - Form S-3/A

public perception that one may occur, can decrease the demand for our products, affect the availability and cost of our products and adversely impact our business. The current general economic slowdown has suppressed activity and demand in our industry over the past several years. This has been reflected in our financial losses in 2000 and 2001. Our overall financial results in 2002 will be substantially dependent upon the extent to which conditions in our industry and the general economy improve during the remainder of the year. A prolonged slowdown or slower than expected recovery will adversely affect our business.

Production time and the cost of our products could increase if we were to lose one of our primary suppliers, which could adversely affect our ability to meet our customer demands.

If, for any reason, our primary suppliers of metals should curtail or discontinue their delivery of such raw materials to us in the quantities we need and at prices that are competitive, our business could suffer since we have few long-term contracts to purchase metals. If, in the future, we are unable to obtain sufficient amounts of the necessary raw materials at competitive prices and on a timely basis from our traditional suppliers, we may not be able to obtain such raw materials from alternative sources at competitive prices to meet our delivery schedules, which could have an adverse impact on our revenues and profitability.

Our industry is highly competitive, which may force us to lower our prices thus causing an adverse affect on net income.

The principal markets that we serve are highly competitive. Competition is based principally on price, service, quality, production capabilities, inventory availability and timely delivery. We compete in a highly fragmented industry. Competition in the various markets in which we participate comes from a large number of value-added metals processors, service centers on a regional and local basis, some of which have greater financial resources than we do and some of which have more established brand names in the local markets we serve. We also compete to a lesser extent with primary metals producers who typically sell to very large customers requiring shipments of large volumes of metal. Increased competition could force us to lower our prices or to offer increased services at a higher costs to us, which could reduce our gross margins and net income.

4

Ownership of our stock is concentrated, which may limit stockholder ability to influence corporate matters.

Affiliates and family members of one of our directors, Michael W. Simpson, collectively control over approximately 35% of our common stock through various estates, partnerships, corporations, trusts and individual ownership. This includes, without limitation, shares owned by Mr. Simpson, and shares controlled by various trusts for which our director, Patrick J. Herbert, III, acts as trustee. This concentration of ownership retains the voting power to exercise significant influence over the outcome of matters requiring a stockholder vote, including the election of directors and the approval of significant corporate matters. Such a concentration of control could adversely affect the market price of our common stock or prevent a change in control.

Trading volume of our stock is small which increases the volatility of our stock price, which may have an adverse affect on stockholder's investment.

Although a public market exists for our common stock, trading activity has

Edgar Filing: CASTLE A M & CO - Form S-3/A

been limited. Due to the relatively small number of shares currently outstanding, the trading of a relatively small number of shares could subject the stock price to volatility and significantly affect the market price of our common stock. The market price of our common stock is affected by a number of other factors, including variations in our operating results, evolving business prospects and competitors, as well as general conditions in the economy and the financial markets. Also, the equity markets generally have experienced significant price and volume fluctuations in recent years.

We have various mechanisms in place that may prevent a change in control that stockholders may otherwise consider favorable.

In addition to the high concentration of inside ownership described above, our certificate of incorporation and by-laws and the Maryland General Corporation Law include provisions that may be deemed to have antitakeover effects and may delay, defer or prevent a takeover attempt that stockholders might consider in their best interests. Our certificate of incorporation contains provisions that require the approval of two-thirds of the stockholders entitled to vote to amend our certificate of incorporation (unless our Board of Directors has unanimously approved the amendment). In addition, our by-laws may be amended only by our board of directors, and they contain certain advance notice procedures for nominating candidates for election to the board of directors. Our board of directors is empowered to issue up to 10,000,000 shares of preferred stock and to determine the price, rights, preferences and privileges of such shares, without any further stockholder action. The existence of this "blank-check" preferred stock could make more difficult or discourage an attempt to obtain control of the Company by means of a tender offer, merger, proxy contest or otherwise. In addition, this "blank check" preferred stock, and an issuance thereof, may have an adverse effect on the market price of our common stock. Furthermore, we are subject to the antitakeover provisions of the Maryland General Corporation Law that prohibit us from engaging in a "business combination" with an "interested stockholder" for a period of five years after the date of the transaction in which the person first becomes an "interested stockholder," unless the business combination or stockholder interest is approved in a prescribed manner. The application of these and certain other provisions of the certificate of incorporation could also have the effect of delaying or preventing a change of control of the Company, which could adversely affect the market price of our common stock.

USE OF PROCEEDS

We will not receive any of the proceeds from the sale of shares of common stock covered by this prospectus. All of the proceeds will be received by the A. M. Employee's Trust, U/T/A 12/28/50, subtrust under the Master Trust Agreement between A. M. Castle & Co. and Northern Trust Company, dated as of January 1, 1997, which we refer to herein as the "Trust" or the "Selling Stockholder." The Trust will receive all offering proceeds under the A. M. Castle & Co. Salaried Employees Pension Plan (the "Salaried Plan") and the A. M. Castle & Co. Hourly Employees Retirement Plan (the "Hourly Plan" and collectively with the Salaried Plan, the "Plans"), for the benefit of eligible participants under the Plans. See "Selling Stockholder."

SELLING STOCKHOLDER

The Trust owns all of the shares offered hereby. Northern Trust Company is the trustee for the Trust. The trustee has responsibility to prudently manage the common stock held by the Trust on behalf of each of the Plans a manner consistent with maximizing the value of its investment in common stock and in accordance with its determination of the extent to which it may prudently

Edgar Filing: CASTLE A M & CO - Form S-3/A

continue to hold such shares consistent with the diversification and related fiduciary requirements of ERISA. The trustee has the authority to cause the Trust to sell shares of common stock on behalf of the Plans from time to time as it may deem appropriate, and to vote the shares of common stock held by the Trust on behalf of the Plans. The trustee intends to manage the sale of the common stock in a manner consistent with maintaining an orderly market for the shares. The Trustee intends to allocate sales of common stock between the Plans in such manner as it deems to be in the best interests of each respective Plan. The trustee has retained GreatBanc Trust Company to serve as its investment advisor regarding the management and sale of the common stock offered hereby. The compensation received by the trustee and its investment advisor is not contingent in any way on the sale or continued ownership of common stock by the Trust.

The Trust currently beneficially owns 685,190 shares of common stock, representing approximately 4.8% of our outstanding common stock. Of these shares, 520,173 are held by the Trust on behalf of the Salaried Plan and 165,017 shares are held by the Trust on behalf of the Hourly Plan. We intend to contribute up to 335,000 additional newly issued shares to the Trust, allocated between the Salaried Plan and the Hourly Plan in a manner approximately consistent with each Plan's current relative share ownership. This will result in the Trust owning up to an aggregate of approximately 1,020,190 shares of common stock, representing approximately 6.9% of our outstanding common stock.

PLAN OF DISTRIBUTION AND OFFERING PRICE

The Selling Stockholder is offering for resale under this prospectus an aggregate of up to 1,020,190 shares of our common stock. The Selling Stockholder, or its assignees and successors-in-interest may sell, from time to time, any or all of the shares of common stock covered by this prospectus on any stock exchange, market or trading facility on which the shares are traded or in private transactions. These sales may be at fixed or negotiated prices. The Selling Stockholder may use any one or more of the following methods when selling shares:

- o Sales on the Chicago Stock Exchange or the American Stock Exchange, in the over-the-counter market or otherwise at prices and at terms then prevailing or at prices related to the then current market price;
- o Underwritten offerings;
- o Ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- o Block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- o Purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- o An exchange distribution in accordance with the rules of the applicable exchange;
- o Privately negotiated transactions;
- o Short sales;
- o Broker-dealers may agree with the Selling Stockholder to sell a specified number of such shares at a stipulated price per share;

Edgar Filing: CASTLE A M & CO - Form S-3/A

- o A combination of any such methods of sale; or
- o Any other method permitted pursuant to applicable law.

The Selling Stockholder may also sell shares under Rule 144 as promulgated under the Securities Act of 1933, if available, rather than under this prospectus.

The Selling Stockholder may, together with any agent of the Selling Stockholder, accept or reject in whole or in part any proposed purchase of the shares of common stock offered by this prospectus. We will not receive any proceeds from the offering of shares by the Selling Stockholder.

Under applicable rules and regulations under the Securities Exchange Act of 1934, any person engaged in a distribution of the shares of common stock covered by this prospectus may be limited in its ability to engage in market activities with respect to such shares. The Selling Stockholder, for example, will be subject to applicable provisions of the Securities Exchange Act of 1934

6

and the rules and regulations under it, including, without limitation, Regulation M, which provisions may restrict activities of the Selling Stockholder and limit the timing of purchases and sales of any shares of common stock by the Selling Stockholder. Furthermore, under Regulation M, persons engaged in a distribution of securities are prohibited from simultaneously engaging in market making and other activities with respect to such securities for a specified period of time prior to the commencement of such distributions, subject to specified exceptions or exemptions. The foregoing may affect the marketability of the shares offered by this prospectus.

The Selling Stockholder may also engage in short sales against the box (where the seller actually owns the stock, but does not want to close out the position, but instead sells a put option covered by the retained position), puts (an option giving the holder of the option the right to sell the stock at a given price by a given date) and calls (the opposite of a put, a call is an option that gives the holder the right to buy stock at a given price in a given period of time) and other transactions in our securities or derivatives of our securities and may sell or deliver shares in connection with these trades. The Selling Stockholder may pledge its shares to brokers under the margin provisions of customer agreements or other lenders under the terms of the loan agreements. If the Selling Stockholder defaults on a margin loan or other loan, the broker or lender may offer and sell, from time to time, the pledged shares.

The Selling Stockholder may sell shares directly to market makers acting as principals and/or broker-dealers acting as agents for themselves or their customers. Broker-dealers engaged by the Selling Stockholder may arrange for other broker-dealers to participate in sales. Broker-dealers may receive commissions, concessions or discounts from the Selling Stockholders (or, if any broker-dealer acts as agent for the purchaser of shares, from the purchaser) in amounts to be negotiated. The Selling Stockholder does not expect these commissions and discounts to exceed what is customary in the types of transactions involved. Market makers and block purchasers that purchase the shares will do so for their own account and at their own risk. It is possible that the Selling Stockholder will attempt to sell shares in block transactions to market makers or other purchasers at a price per share that may be below the then-current market price. We cannot make assurances that all or any of the shares of common stock will be sold by the Selling Stockholders.

Edgar Filing: CASTLE A M & CO - Form S-3/A

The Selling Stockholder and any broker-dealers or agents that are involved in selling the shares may be deemed to be underwriters within the meaning of the Securities Act of 1933 in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the shares purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act of 1933.

We have not registered or qualified the shares of common stock offered by this prospectus under the laws of any country, state or jurisdiction, other than the United States.

We are paying all fees and expenses incident to the registration of the shares. The Selling Stockholders will pay any sales commissions or other seller's compensation applicable to these transactions.

Our common stock is currently traded on the Chicago Stock Exchange and the American Stock Exchange. The public offering price for any shares that are sold will be determined by the price indicated on such system at the time such sale occurs, or at such price as shall be determined through private negotiations between the buyers and the Selling Stockholder, or its agents.

VALIDITY OF STOCK

Jerry M. Aufox, Secretary and Corporate Counsel of A.M. Castle, has issued an opinion about the validity of the shares of common stock offered hereby. Mr. Aufox is the beneficial owner of 22,422 shares of common stock.

Item 15. Indemnification of Directors and Officers.

We are a Maryland corporation, subject to the applicable indemnification provisions of the General Corporation Law of the State of Maryland (the "MGCL"). Section 2-418 of the MGCL empowers a Maryland corporation to indemnify, subject to certain prescribed standards, any person in connection with any action, suit or proceeding brought or threatened because such person is or was a director, officer, employee or agent of the corporation or was serving as such with respect to another corporation or other entity at the request of such corporation.

Section 2-405.2 of the MGCL permits a Maryland corporation to include in its certificate of incorporation a provision eliminating or limiting a director's liability to a corporation or its stockholders for money damages. A Maryland corporation may indemnify its present and former directors and officers, among others, against (1) judgments, (2) penalties, (3) fines, (4) settlements and (5) reasonable expenses actually incurred by them in connection with any proceeding to which they may be made a party by reason of their service in those or other capacities.

The MGCL does not permit a corporation to indemnify its present and former directors, officers, agents or employees if it is established that:

- o the act or omission of the director, officer, employee or agent was material to the matter giving rise to the proceeding and was committed in bad faith or was the result of active and deliberate dishonesty;
- o the director, officer, employee or agent actually received an improper personal benefit in money, property or services; or
- o in the case of any criminal proceeding, the director, officer, employee or agent had reasonable cause to believe that the act or omission was unlawful.

Unless a corporation's charter provides otherwise, which our charter does not, the MGCL requires a corporation to indemnify a director or officer who has been successful, on the merits or otherwise, in the defense of any proceeding to which he is made a party by reason of his service in that capacity.

Under the MGCL, a Maryland corporation generally may not indemnify a person for an adverse judgment in a suit by or in the right of the corporation. Also, a Maryland corporation generally may not indemnify a person for a judgment of liability on the basis that personal benefit was improperly received. In either of these cases, a Maryland corporation may indemnify a person for expenses only if a court so orders. Our bylaws obligate us to indemnify our directors and officers, whether serving us or, at our request, any other entity, to the maximum extent required or permitted by the MGCL, including the advancement of expenses under the procedures and to the maximum extent permitted by law.

Our charter also contains provisions that eliminate and limit the personal liability of directors to the full extent permitted by the MGCL. Pursuant to the MGCL, our charter also limits the personal liability of officers to the same extent as directors. Under the MGCL, limitation of personal liability of directors or officers is permitted in all but the following two situations: (1) for the amount of any improper benefit they actually receive or (2) to the

Edgar Filing: CASTLE A M & CO - Form S-3/A

extent that a judgment or final adjudication adverse to the director or officer in a proceeding based on the finding in that proceeding that the person's action, or failure to act, was the result of active and deliberate dishonesty and was material to the cause of action adjudicated in the proceeding.

We may maintain insurance, at our expense, to protect us and any of our directors, officers, employees or agents or another corporation, partnership, joint venture, trust or other enterprise against any expense, liability or loss, whether or not we would have the power to indemnify such person against expense, liability or loss under the MGCL.

Item 16. Exhibits.

(a) Exhibits (all filed herewith except where otherwise noted):

- 5.1 Opinion of Jerry M. Aufox regarding the legality of the securities being registered (previously filed)
- 23.1 Consent of Arthur Andersen LLP, independent auditors (omitted pursuant to Rule 437a under the Securities Act)
- 23.2 Consent of Jerry M. Aufox (included in Exhibit 5.1)
- 24 Powers of Attorney (previously filed)

Item 17. Undertakings.

(a) The undersigned Registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Securities and Exchange Commission pursuant to Rule 424(b) under the Securities Act of 1933, as amended, if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the registration statement;

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

Provided, however, that paragraphs (a)(1)(i) and (a)(1)(ii) do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in periodic

reports filed with or furnished to the Commission by the Registrant pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(b) The undersigned Registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the Registrant's annual report pursuant to Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934, as amended, that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(c) Insofar as indemnification for liabilities arising under the Securities Act of 1933, as amended, may be permitted to directors, officers and controlling persons of the Registrant pursuant to the foregoing provisions, or otherwise, the Registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act of 1933, as amended, and is, therefore, unenforceable. In the event that a claim for the indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a director, officer or controlling person of the Registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

SIGNATURES

Pursuant to the requirements of the Securities Act of 1933, as amended, the Registrant certifies that it has reasonable grounds to believe that it meets all of the requirements for filing on Form S-3 and has duly caused this Amendment No. 2 to Registration Statement to be signed on its behalf by the undersigned, thereunto duly authorized, in the City of Franklin Park, State of Illinois, on September 12, 2002.
