Statements

**Freestone Resources, Inc.**

**Notes to Consolidated Financial Statements**

**December 31, 2016**

**(Unaudited)**

**NOTE 1 – NATURE OF ACTIVITIES AND SIGNIFICANT ACCOUNTING POLICIES**

Nature of Activities, History and Organization:

Freestone Resources, Inc. (the “Company” or “Freestone”) is an oil and gas technology development company that is actively developing and marketing technologies and solvents designed to benefit various sectors in the oil and gas industry. The Company has re-launched its Petrozene™ solvent after developing a new and improved formula. Petrozene™ is primarily used to dissolve paraffin buildup, and it is primarily used for pipelines, oil storage tanks, oil sludge build up, de-emulsification, well treatment, as a corrosion inhibitor and as a catalyst in opening up formations thereby aiding in oil production.

On June 24, 2015 Freestone purchased 100% of the common stock of C.C. Crawford Retreading Company, Inc. (“CTR”), a Texas corporation. CTR is an Off-The-Road (“OTR”) tire company located in Ennis, Texas, and a wholly owned subsidiary of Freestone. CTR’s primary business is to repair, recycle, dispose of and sell OTR tires, which are used on large, industrial equipment. Freestone made the decision to purchase CTR in order to utilize the CTR facility for the production of Petrozene™.

On June 24, 2015 the Company formed Freestone Dynamis Energy Products, LLC (“FDEP”), a Delaware limited liability company, with Dynamis Energy, LLC (“Dynamis”). FDEP was formed in order to operate and manage the specialized pyrolysis process that is used to create Petrozene™ and other byproducts of value. Freestone chose to work with Dynamis based on their extensive engineering and waste-to-energy expertise. Freestone owns a 70% member interest in FDEP.

The acquisition of CTR and the formation of FDEP have allowed Freestone to vertically integrate the Petrozene™ product line. CTR will remain an auxiliary company that will maintain existing operations that complement the efforts of FDEP and Freestone.

Unaudited Interim Financial Statements:

The accompanying unaudited interim consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission. These financial statements are unaudited and, in the opinion of management, include all adjustments (consisting of normal recurring accruals) necessary to present fairly the balance sheet, statement of operations, and statement of cash flows for the periods presented in accordance with accounting principles generally accepted in the United States. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted pursuant to SEC rules and regulations. It is presumed that users of this interim financial information have read or have access to the audited financial statements and footnote disclosure for the preceding fiscal year contained in the Company's Annual Report on Form 10-K. The results of operations for the six months ended December 31, 2016 are not necessarily indicative of the results of operations for the full year or any other interim period. The information included in this Form 10-Q should be read in conjunction with Management's Discussion and Analysis and Financial Statements and notes thereto included in the Company's June 30, 2016 Form 10-K.

Recently Issued Accounting Pronouncements:

The Company does not expect the adoption of recently issued accounting pronouncements to have a significant impact on the Company's results of operations, financial position or cash flow.

**NOTE 2 – INVENTORY**

Inventory of the Company is carried at lower of cost or market. At the acquisition of CTR, the Company's inventory was revalued at fair market value as part of the purchase price allocation. The Company's inventory consists of processed rubber from disposed tires carried at cost of processing, and used tires for sale carried at the cost of repairs. As of December 31, 2016 and June 30, 2016 inventory consisted of:

	12/31/16	6/30/16
Crum Rubber for Processing	\$8,087	\$8,087
Used Tire for Resale	12,573	49,945
Tire Oil	7,676	11,538
	\$28,336	\$69,570

**NOTE 3 – PROPERTY, PLANT AND EQUIPMENT**

At December 31, 2016 and June 30, 2016 Property, Plant and Equipment was as follows:

	12/31/16	6/30/16
Land	\$360,000	\$360,000
Buildings and Improvements	700,000	700,000
Computers and Office Furniture	8,967	21,967
Automotive Equipment	120,585	120,585
Machinery and Equipment	507,807	507,807
Capital Lease Assets	56,738	56,738
	1,754,097	1,767,097
Less Accumulated Depreciation	188,362	125,436
	\$1,565,735	\$1,641,661

Depreciation expense was \$62,926 and \$56,408 for the six months ended December 31, 2016 and December 31, 2015, respectively.

**NOTE 4 – ENVIRONMENTAL LIABILITY**

The Company's tire recycling permit requires the Company to ultimately dispose of all tires accepted for recycling. Tire disposal occurs in the normal course of business however the Company always has tires stored at its facility that have not yet been disposed of. CTR had recorded liabilities totaling \$320,000 at June 30, 2014 (Predecessor) for estimated costs related to dispose of all tires at its Ennis, Texas facility. The environmental liability was calculated by estimating the costs associated with the various disposal costs that would be necessary to remove the tires from the CTR permitted facility. Upon acquisition of CTR by Freestone the liability was reduced to \$32,000 (Successor) as part of the purchase price allocation, and the revaluation of assets and liability to fair market value. The reduction was due to the formation of FDEP. CTR plans to convert the majority of the tires into crum rubber, and sell it to FDEP as a feedstock for its specialized pyrolysis operations. The remaining \$32,000 was an estimate of cost of disposing of the tires that are not acceptable for use as feedstock. At June 30, 2016, CTR increased its liability to \$400,000 representing the estimated disposal fees on the revised estimate of tires on hand. Although CTR still plans to convert the majority of the tires in crum rubber for use by FDEP the liability was recorded as part of the plan submitted to the TCEQ to cure potential violations regarding its processing permit. Since the plan requires CTR to significantly reduce the numbers of tires on hand within the next year and to date FDEP has not been able to demonstrate the capacity to use the number of tires on hand so the liability is considered short-term. The environmental liability has a balance of \$400,000 as of December 31, 2016, and June 30, 2016, respectively. In December, 2016 the TCEQ notified CTR of \$48,750 of proposed penalties for violations. CTR has submitted additional information to the TCEQ seeking to have the penalties waived or reduced however the amount has been accrued and is included in general and administrative expenses for the six months ended December 31, 2016.

**NOTE 5 – CAPITAL LEASE OBLIGATIONS**

Capital lease assets of \$56,738 and \$40,269 and accumulated amortization of \$14,535 and \$8,861 are included in property, plant and equipment on the balance sheet at December 31, 2016 and June 30, 2016, respectively. For the six months ended December 31, 2016 and 2015 amortization expense was \$5,674 and \$3,151, respectively.

At December 31, 2016 and June 30, 2016 capital lease obligations were as follows:

	12/31/16	6/30/16
Lease payable bearing interest at 4.95% with monthly payments of \$315 maturing August 2019. The lease is secured by equipment.	\$9,433	\$11,069
Lease payable bearing interest at 3.95% with monthly payments of \$309 maturing December, 2020. The lease is secured by equipment.	13,482	14,969
Lease payable bearing interest at 4.78% with monthly payments of \$489 maturing September, 2020. The lease is secured by equipment.	20,404	22,904
	43,319	48,942
Less current maturities	11,675	11,419
	\$31,644	\$37,523

At December 31, 2016 future maturities of capital lease obligations were as follows:

Year Ending December 31:

2017	\$11,675
2018	12,208
2019	11,495
2020	7,941
2021	0
	\$43,319

**NOTE 6 – NOTES PAYABLE**

At December 31, 2016 and June 30, 2016 notes payable were as follows:

	12/31/16	6/30/16
Note payable to bank bearing interest at 4.5% with monthly payment of \$390 maturing September, 2017. The note is secured by an automobile	\$3,444	\$5,676
Note payable to bank bearing interest at 6.5% with monthly payment of \$4,892 maturing November, 2017. The note is secured by machinery and equipment	52,175	79,293
Note payable to bank bearing interest at 6.5% with monthly payment of \$809 maturing April, 2020. The note is secured by a Truck.	29,040	32,853
Note payable to vendor bearing interest at 6.0% with monthly payment of \$800 maturing December, 2016. The note is unsecured.	-	4,718
Note payable to officer bearing interest at 6.5% due April, 2017. The note is convertible into common stock at \$.08 a share at maturity. The note is unsecured.	50,000	50,000
Note payable to stockholder bearing interest at 6.5% due December, 2017. The note is convertible into common stock at \$.05 a share at maturity. The note is unsecured.	20,000	-
Note payable to stockholder bearing interest at 6.5% due July, 2017. The note is convertible into common stock at \$.05 a share at maturity. The note is unsecured.	146,260	-
	75,000	70,000

Edgar Filing: FREESTONE RESOURCES, INC. - Form 10-Q

Line of credit with Bank maximum of \$75,000 bearing interest at 6.5% due March, 2017. The line is secured by accounts receivable.

Note payable to seller in connection with purchase of CTR bearing interest at 12%, and secured by the common stock and assets of CTR. The note is in default, with all principal, interest & penalties due as of January 4, 2017 and underlying collateral subject to foreclosure.	1,020,000	1,020,000
	1,395,919	1,262,540
Less current maturities	(1,374,960)	(1,212,261)
	\$20,959	\$50,279

At December 31, 2016 future maturities of long term debt were as follows:

Year Ending December 31:

2017	\$1,374,960
2018	\$8,597
2019	\$9,173
2020	\$3,189
	\$1,395,919

**NOTE 7 – EQUITY TRANSACTIONS**

The Company is authorized to issue 100,000,000 common shares at a par value of \$0.001 per share. These shares have full voting rights. At December 31, 2016 and June 30, 2016, there were 91,363,117 and 90,613,177 respectively, common shares outstanding.

During the three months ended September 30, 2016 the Company sold 500,000 shares for cash proceeds of \$25,000.

On September 30, 2016, the Company issued 125,000 shares of common stock to its Chief Financial Officer for services rendered under his employment contract valued at \$0.08 per share which was the fair market value.

On December 31, 2016, the Company issued 125,000 shares of common stock to its Chief Financial Officer for services rendered under his employment contract valued at \$0.06 per share which was the fair market value.

As of December 31, 2016 there were no stock warrants outstanding

**NOTE 8 – GOING CONCERN**

As of the date of this quarterly report, there is substantial doubt regarding the Company's ability to continue as a going concern as we have not generated sufficient cash flows to fund our business operations and loan commitments. Our future success and viability, therefore, are dependent upon our ability to generate capital financing. The failure to generate sufficient revenues or raise additional capital may have a material and adverse effect upon the Company and our shareholders.

The Company formed FDEP in order to vertically integrate its Petrozene™ product line, and utilize a specialized pyrolysis process in order to produce other byproducts of value that will generate revenue for FDEP. In turn, the ability of FDEP to process large quantities of OTR tires will allow the Company to increase the amount of OTR tires it can dispose of and process, which will generate additional revenue of the Company. Additionally, the Company intends to raise equity or debt financing that will allow the Company to expand its current operations.

**NOTE 9 – COMMITMENTS AND CONTINGENCIES**

The Company leases office space in Dallas, TX under a non-cancelable operating lease that expires in July 2017, a truck for its tire disposal operations at CTR under a 30-month lease expiring in April, 2019 and warehouse space in Ennis, TX on a month to month basis. Future minimum lease payments are as follows:

Year End June 30	Amount
2017	22,170
2018	22,584
2019	13,800
Total	58,554

Rent expense, included in general and administrative expenses, totaled approximately \$28,299 and \$18,163 for the six months ended December, 2016 and 2015, respectively.

Freestone has royalty and commission agreements with certain consultants related to the sale of Petrozene™ for their work in the re-launch of the Petrozene™ product line. These royalty and commission agreements range from 2.5% to 7.5% of the net income the Company receives from Petrozene™ sales, and the agreements also have special royalty provisions for certain customers that expire on April 14, 2030.

#### **NOTE 10 – RELATED PARTY TRANSACTIONS**

One of the consultants who has a royalty and commission agreement as discussed in Note 9 is a related party and the brother of the former Chief Executive Officer of the Company.

#### **NOTE 11 – DISPOSITION OF INVESTMENT**

In November, 2016 the Company disposed of its 33.33% interest in Aqueous Services, LLC by transferring its membership interest to the other partners in exchange for release of any contingent liabilities. The investment had previously been impaired to zero value for financial reporting so the transaction had no effect on the current quarters financial statements.

#### **NOTE 12 – SUBSEQUENT EVENTS**

On January 4, 2017, the Company received a notice of default from the holder of the seller note related to our purchase of CTR for our failure to make timely payments, specifically our payment of \$20,000 due on December 15, 2016. As a result, the holder has accelerated the note's principal, interest and penalties, totaling \$1,414,130, and the underlying collateral is subject to foreclosure. The Company has begun negotiations with the note holder to restructure and extend the note and is also seeking alternative financing.

## **ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS**

**This report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended. The Company's actual results could differ materially from those set forth on the forward-looking statements as a result of the risks set forth in the Company's filings with the Securities and Exchange Commission, general economic conditions, and changes in the assumptions used in making such forward-looking statements.**

## **General**

Freestone Resources, Inc. (the "Company" or "Freestone"), a Nevada corporation, is an oil and gas technology development company that is actively developing and marketing technologies and solvents designed to benefit various sectors in the oil and gas industry. The Company has re-launched its Petrozene™ solvent after developing a new and improved formula. Petrozene™ is primarily used to dissolve paraffin buildup, and it is primarily used for pipelines, oil storage tanks, oil sludge build up, de-emulsification, well treatment, as a corrosion inhibitor and as a catalyst in opening up formations thereby aiding in oil production.

On June 24, 2015 Freestone purchased 100% of the common stock of C.C. Crawford Retreading Company, Inc. ("CTR"), a Texas corporation. CTR is an Off-The-Road ("OTR") tire company located in Ennis, Texas, and a wholly owned subsidiary of Freestone. CTR's primary business is to repair, recycle, dispose of and sell OTR tires, which are used on large, industrial equipment. Freestone made the decision to purchase CTR in order to utilize the CTR facility for the production of Petrozene™.

On June 24, 2015 the Company formed Freestone Dynamis Energy Products, LLC ("FDEP") with Dynamis Energy, LLC ("Dynamis"). FDEP was formed in order to operate and manage the specialized pyrolysis process that is used to create Petrozene™ and other byproducts of value. Freestone chose to work with Dynamis based on their extensive engineering and waste-to-energy expertise. Freestone owns a 70% member interest in FDEP.

The acquisition of CTR and the formation of FDEP have allowed Freestone to vertically integrate the Petrozene™ product line. CTR will remain an auxiliary company that will maintain existing operations that complement the efforts of FDEP and Freestone.

## Results of Operations

### Three and six months ended December 31, 2016 compared to three and six months ended December 31, 2015

**Revenue** – Our revenue for the three months ended December 31, 2016 was \$276,807 compared to \$233,917 for the three months ended December 31, 2015. The increase was primarily due to an increase in tipping fee revenue. For the six months ended December 31, 2016 revenue was \$561,424 down less 2% from the prior year of \$571,538. The decrease was primarily due to issues with CTR's trucking operations in July 2016 which limited revenue to less than 50% of the prior year's revenue for the same month. The Company resolved those issues by leasing new equipment and implementing a new maintenance program and does not anticipate additional issues going forward. Revenue in next five months exceeded prior years as a result of these changes.

**Cost of Revenues** – Cost of revenue increased from \$354,099 for the six months ended December 31, 2015 to \$413,738 for the six months ended December 31, 2016 despite the decrease in revenue. This was due to increased costs in the Company's trucking operations to implement the changes discussed above as well as increased costs associated with the expansion of the disposal operations and increase disposal costs due to the environmental issues discussed in Note 4. For the quarter ended December 31, 2016 cost similarly increased by \$36,498 due to the same issues..

**Operating Expense** – Total operating expenses dropped from \$485,724 for the three months ended December 31, 2015 to \$445,899 for the three months ended December 31, 2016 and from \$1,112,292 for the six months ended December 31, 2015 to \$840,876 for the six months ended December 31, 2016.. The primary area of decrease was in the parent company Freestone in the form of decreased employee compensation and professional fees. The higher professional fees in the prior year were due to audit, legal and consulting cost associated with the acquisition of CTR. Operating expenses of CTR increased from \$278,061 for the six months ended December 31, 2015 to \$321,228 for the six months ended December 31, 2016 due primarily to the \$48,750 for TCEQ penalties discussed in Note 4.. Startup costs for FDEP decreased from \$234,637 for the six months ended December 31, 2015 to \$165,981 for the six months ended December 31, 2016. This was primarily due to installation costs in the quarter ended December 31, 2015.

**Other Income and Expenses** – Other income and expense for the six months ended December 31, 2016 consisted of \$72,494 of interest expense and a loss of \$6,200 on the sale of fixed assets compared to other income and expense for the six months ended December 31, 2015 consisting of \$66,659 of interest expense. Other income and expenses for the three months ended December 31, 2016 and 2015 consisted of \$36,775 and \$33,511 of interest, respectively. The increase in interest expense was due the Company's increase in debt.

### **Net Income (Loss)**

Net loss for the three months ended December 31, 2016 was \$382,941 compared \$394,147 for the three months ended December 31, 2015. Net losses for the six months ended December 31, 2016 and 2015 were \$719,732 and 896,322 respectively. The decrease in the net loss was primarily due to a decrease in the operating expenses of Freestone detailed above offset by the increase loss of CTR as a result of the decrease in revenue and increase in trucking disposal and operating costs..

### **Liquidity and Capital Resources**

The Company has little cash reserves and liquidity to the extent we receive it from operations and through the sale of common stock.

The accompanying financial statements are presented on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. As of the date of this quarterly report, there is doubt regarding the Company's ability to continue as a going concern as we have not generated sufficient cash flows to fund our business operations and loan commitments. Our future success and viability, therefore, are dependent upon our ability to generate capital financing. The failure to generate sufficient revenues or raise additional capital may have a material and adverse effect upon the Company and our shareholders.

The Company formed FDEP in order to vertically integrate its Petrozene™ product line, and utilize a specialized pyrolysis process in order to produce other byproducts of value that will generate revenue for FDEP. In turn, the ability of FDEP to process large quantities of OTR tires will allow the Company to reduce the cost of disposal of OTR tires by CTR. Additionally, the Company intends to raise equity or debt financing that will allow the Company to expand its current operations.

Net cash used in operations was \$335,487 for the six months ended December 31, 2016 compared to net cash used by operations of \$297,195 for the six months ended December 31, 2015. The change was due to the increased cash losses of CTR and FDEP. The decrease in Freestone's loss was primarily due to a reduction in non-cash stock issuance expenses. The cash used in operations was offset by \$164,475 of cash contributions to FDEP by the non-controlling interest, sale of common stock for proceeds of \$25,000 and \$171,261 of proceeds from borrowing.

As of December 31, 2016 the Company has negative equity of \$628,638 and negative working capital of \$2,141,770.

In addition its note payable to the seller is in default and subject to foreclosure. In order to continue operations the Company must restructure its existing debt and raise additional capital to cover future operating losses from shareholders or new equity partners.

## **Employees**

As of December 31, 2016 CTR had 14 full-time employees. Freestone has three employees.

## **Need for Additional Financing**

The Company is uncertain of its ability to generate sufficient liquidity from its operations so the need for additional funding may be necessary. The Company may sell stock and/or issue additional debt to raise capital to accelerate its growth.

### **ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

Not applicable.

### **ITEM 4: CONTROLS AND PROCEDURES**

#### **Evaluation of Disclosure Controls and Procedures**

We carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of December 31, 2016. This evaluation was accomplished under the supervision and with the participation of our chief executive officer/principal executive officer, and chief financial officer/principal financial officer who concluded that our disclosure controls and procedures are not effective.

Based upon an evaluation conducted for the period ended December 31, 2016, our Chief Executive and Chief Financial Officer as of December 31, 2016 and as of the date of this Report, has concluded that as of the end of the periods covered by this report, we have identified the following material weakness of our internal controls:

Lack of sufficient accounting staff which results in a lack of segregation of duties necessary for a good system of internal control and financial statement presentation.

#### **Changes in Internal Controls over Financial Reporting**

We have not yet made any changes in our internal controls over financial reporting that occurred during the period covered by this report on Form 10-Q that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

## **PART II**

**Items No. 1, 2, 3, 4 - Not Applicable.**

**Item 5. Other Matters.**

On June 24, 2015, we purchased 100% of the common stock of C.C. Crawford Retreading Company, Inc. (“CTR”), a Texas corporation. On January 4, 2017, the Company received a notice of default from the holder of the seller note related to our purchase of CTR for our failure to make timely payments, specifically our payment of \$20,000 due on December 15, 2016. As a result, the holder has accelerated the note’s principal, interest and penalties, totaling \$1,414,130, and the underlying collateral is subject to foreclosure. The Company has begun negotiations with the note holder to restructure and extend the note and is also seeking alternative financing.

**Item 6 - Exhibits and Reports on Form 8-K**

(a) The Company filed no Form 8-K during the period.

(b) Exhibits

Exhibit Number

31.1 Certification of Chief Executive Officer, pursuant to Rule 13a-14(a) of the Exchange Act, as enacted by Section 302 of the Sarbanes-Oxley Act of 2002.

31.2 Certification of Chief Financial Officer, pursuant to Rule 13a-14(a) of the Exchange Act, as enacted by Section 302 of the Sarbanes-Oxley Act of 2002.

32.1 Certification of Chief Executive Officer and Chief Financial Officer, pursuant to 18 United States Code Section 1350, as enacted by Section 906 of the Sarbanes-Oxley Act of 2002.

**SIGNATURES**

In accordance with the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this Report to be signed on its behalf by the undersigned, thereunto duly authorized.
