FORM 10-Q
x QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

For the quarterly period ended August 31, 2013

OR
.. TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

For the transition period from _____ to _____

Commission file number: 001-16111
GLOBAL PAYMENTS INC.
(Exact name of registrant as specified in charter)

Georgia	58-2567903
(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer Identification No.)
10 Glenlake Parkway, North Tower, Atlanta, Georgia	30328
(Address of principal executive offices)	(Zip Code)

Registrant's telephone number, including area code: (770) 829-8000

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No
Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
Yes No

The number of shares of the issuer's common stock, no par value outstanding as of September 18, 2013 was 72,888,911.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Business, Consolidation and Presentation— Global Payments Inc. is a high-volume processor of electronic transactions for merchants, multinational corporations, financial institutions, consumers, government agencies and other business and non-profit business enterprises to facilitate payments to purchase goods and services or further other economic goals. Our role is to serve as an intermediary in the exchange of information and funds that must occur between parties so that a transaction can be completed. We were incorporated in Georgia as Global Payments Inc. in September 2000 and we spun-off from our former parent company on January 31, 2001. Including our time as part of our former parent company, we have been in the payments business since 1967.

These unaudited consolidated financial statements include our accounts and those of our majority-owned subsidiaries and all intercompany balances and transactions have been eliminated. These unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP") for interim financial information and with Rule 10-01 of Regulation S-X.

In the opinion of our management, all known adjustments necessary for a fair presentation of the results of the interim periods have been made. These adjustments consist of normal recurring accruals and estimates that impact the carrying value of assets and liabilities. We suggest that these financial statements be read in conjunction with the consolidated financial statements and notes thereto included in our Form 10-K for the fiscal year ended May 31, 2013.

Use of estimates— The preparation of financial statements in conformity with GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

Revenue recognition— Our two merchant services segments primarily include processing solutions for credit cards, debit cards, electronic payments and check-related services. Revenue is recognized as such services are performed. Revenue for processing services provided directly to merchants is recorded net of interchange fees charged by card issuing banks. Our primary business model provides payment products and services directly to merchants as our end customers. We also provide similar products and services to financial institutions and a limited number of independent sales organizations ("ISOs") that, in turn, resell our products and services, in which case, the financial institutions and select ISOs are our end customers. The majority of merchant services revenue is generated on services priced as a percentage of transaction value or a specified fee per transaction, depending on card type. We also charge other fees based on specific services that are unrelated to the number of transactions or the transaction value. Revenue from credit cards and signature debit cards is generally based on a percentage of transaction value along with other related fees, while revenue from PIN-based debit cards is typically based on a fee per transaction.

Cash and cash equivalents— Cash and cash equivalents include cash on hand and all liquid investments with an initial maturity of three months or less when purchased. Cash and cash equivalents include reserve funds collected from our merchants that serve as collateral to minimize contingent liabilities associated with any losses that may occur under the merchant agreement ("Merchant Reserves"). We record a corresponding liability in settlement processing assets and settlement processing obligations in our consolidated balance sheet. While this cash is not restricted in its use, we believe that designating this cash to collateralize Merchant Reserves strengthens our fiduciary standing with our member sponsors and is in accordance with guidelines set by the card networks. As of August 31, 2013 and May 31, 2013, our cash and cash equivalents included \$272.4 million and \$280.7 million, respectively, related to Merchant Reserves.

Our cash and cash equivalents include settlement related cash balances. Settlement related cash balances represent surplus funds that we hold on behalf of our member sponsors when the incoming amount from the card networks precedes the member sponsors' funding obligation to the merchant. Settlement related cash balances are not restricted; however, these funds are generally paid out in satisfaction of settlement processing obligations the following day. Please see Note 3 - Settlement Processing Assets and Obligations and discussion below for further information.

Inventory— Inventory, which includes electronic point of sale terminals, automated teller machines, and related peripheral equipment, is stated at the lower of cost or fair value. Cost is determined by using the average cost method.

Table of Contents

Settlement processing assets and obligations— Settlement processing assets and obligations represent intermediary balances arising in our settlement process for direct merchants. In accordance with Accounting Standards Codification ("ASC") 210-20, Offsetting, we apply offsetting to our settlement processing assets and obligations where legal right of set-off exists. Please see Note 3 - Settlement Processing Assets and Obligations for further information.

Reserve for operating losses— As a part of our merchant credit and debit card processing and check guarantee services, we experience merchant losses and check guarantee losses, which are collectively referred to as “operating losses.”

Our credit card processing merchant customers are liable for any charges or losses that occur under the merchant agreement. In the event, however, that we are not able to collect such amount from the merchants, due to merchant fraud, insolvency, bankruptcy or any other merchant-related reason, we may be liable for any such losses based on our merchant agreement. We require cash deposits ("Merchant Reserves"), guarantees, letters of credit, and other types of collateral by certain merchants to minimize any such contingent liability. We also utilize a number of systems and procedures to manage merchant risk. We have, however, historically experienced losses due to merchant defaults.

We account for our potential liability for the full amount of the operating losses discussed above as guarantees. We estimate the fair value of these guarantees by adding a fair value margin to our estimate of losses. This estimate of losses is comprised of estimated known losses and estimated incurred but not reported losses. Estimated known losses arise from specific instances of, for example, merchant bankruptcies, closures or fraud of which we are aware at the balance sheet date, but for which the ultimate amount of associated loss will not be determined until after the balance sheet date. Estimated known loss accruals are recorded when it is probable that we have incurred a loss and the loss is reasonably estimable. Estimated known losses are calculated at the merchant level based on chargebacks received to date, processed volume, and historical chargeback ratios. The estimate is reduced for any collateral that we hold. Accruals for estimated known losses are evaluated periodically and adjusted as appropriate based on actual loss experience. Incurred but not reported losses result from transactions that we process before the balance sheet date for which we have not yet received chargeback notification. We estimate incurred but not reported losses by applying historical loss ratios to our direct merchant credit card and signature debit card sales volumes processed, or processed volume. Historically, this estimation process has been materially accurate.

As of August 31, 2013 and May 31, 2013, \$2.2 million and \$2.3 million, respectively, has been recorded to reflect the fair value of guarantees associated with merchant card processing. These amounts are included in settlement processing obligations in the accompanying consolidated balance sheets. The expense associated with the fair value of the guarantees of customer chargebacks is included in cost of service in the accompanying consolidated statements of income. For the three months ended August 31, 2013 and August 31, 2012, we recorded such expenses in the amounts of \$1.3 million and \$2.8 million, respectively.

In our check guarantee service offering, we charge our merchants a percentage of the gross amount of the check and guarantee payment of the check to the merchant in the event the check is not honored by the payor's bank in accordance with the merchant's agreement with us. The fair value of the check guarantee approximates cost and is equal to the fee charged for the guarantee service, and we defer this fee revenue until the guarantee is satisfied. We have the right to collect the full amount of the check from the payor but have not historically recovered 100% of the guaranteed checks. Our check guarantee loss reserve is comprised of estimated losses on returned checks and estimated incurred but not reported losses. We estimate the loss on returned checks by applying historical collection rates to our claims receivable balance. We estimate incurred but not reported losses by applying historical loss ratios to the face value of our guaranteed checks. As of August 31, 2013 and May 31, 2013, we had a check guarantee loss reserve of \$4.2 million and \$3.1 million, respectively, which is included in net claims receivable in the accompanying consolidated balance sheets. For the three months ended August 31, 2013 and August 31, 2012, we recorded expenses of \$3.9 million and \$3.2 million, respectively, which are included in cost of service in the accompanying consolidated

statements of income. The estimated check returns and recovery amounts are subject to the risk that actual amounts returned and recovered in the future may differ significantly from estimates used in calculating the receivable valuation allowance.

As the potential for merchants' failure to settle individual reversed charges from consumers in our merchant credit card processing offering and the timing of individual checks clearing the payors' banks in our check guarantee offering are not predictable, it is not practicable to calculate the maximum amounts for which we could be liable under the guarantees issued under the merchant card processing and check guarantee service offerings. It is not practicable to estimate the extent to which merchant collateral or subsequent collections of dishonored checks, respectively, would offset these exposures due to these same uncertainties.

Table of Contents

Property and equipment— Property and equipment are stated at amortized cost. Depreciation and amortization are calculated using the straight-line method, except for certain technology assets discussed below. Leasehold improvements are amortized over the lesser of the remaining term of the lease or the useful life of the asset. Maintenance and repairs are charged to operations as incurred.

We develop software that is used in providing processing services to customers. Capitalization of internally developed software, primarily associated with operating platforms, occurs when we have completed the preliminary project stage, management authorizes the project, management commits to funding the project, it is probable the project will be completed and the project will be used to perform the function intended. The preliminary project stage consists of the conceptual formulation of alternatives, the evaluation of alternatives, the determination of existence of needed technology and the final selection of alternatives. Costs incurred prior to the completion of the preliminary project stage are expensed as incurred.

As of August 31, 2013, we have placed into service \$92.2 million of hardware and software associated with our technology processing platform, referred to as G2. G2 serves as a front-end operating environment for merchant processing, and is intended to replace a number of legacy platforms. Depreciation and amortization associated with these costs is calculated based on transactions expected to be processed over the life of the platform. We believe that this method is more representative of the platform's use than the straight-line method. We are currently processing transactions on our G2 platform in eight markets in our Asia-Pacific region and for a limited number of U.S. merchants. As these markets represent a small percentage of our overall transactions, depreciation and amortization related to our G2 platform for the three months ended August 31, 2013 and August 31, 2012 was not significant. Depreciation and amortization expense will increase as we complete migrations of other merchants to the G2 platform.

Goodwill and other intangible assets— As of January 1, 2013, we completed our most recent annual goodwill impairment test and determined that the fair value of each of our reporting units was substantially in excess of the carrying value. No events or changes in circumstances have occurred since the date of our most recent annual impairment test that would more likely than not reduce the fair value of a reporting unit below its carrying amount.

Goodwill is tested for impairment at the reporting unit level, and the impairment test consists of two steps. In the first step the reporting unit's carrying amount, including goodwill, is compared to its fair value. If the carrying amount of the reporting unit is greater than its fair value, goodwill is considered impaired and step two must be performed. Step two measures the impairment loss by comparing the implied fair value of reporting unit goodwill with the carrying amount of that goodwill. The implied fair value of goodwill is determined by allocating the fair value of the reporting unit to all the assets and liabilities of that unit (including unrecognized intangibles) as if the reporting unit had been acquired in a business combination. The excess of fair value over the amounts allocated to the assets and liabilities of the reporting unit is the implied fair value of goodwill. The excess of the carrying amount over the implied fair value is the impairment loss.

We have six reporting units: North America Merchant Services, U.K. Merchant Services, Asia-Pacific Merchant Services, Central and Eastern Europe Merchant Services, Russia Merchant Services and Spain Merchant Services. We estimate the fair value of our reporting units using a combination of the income approach and the market approach. The income approach utilizes a discounted cash flow model incorporating management's expectations for future revenue, operating expenses, EBITDA, capital expenditures and an anticipated tax rate. We discount the related cash flow forecasts using our estimated weighted-average cost of capital for each reporting unit at the date of valuation. The market approach utilizes comparative market multiples in the valuation estimate. Multiples are derived by relating the value of guideline companies, based on either the market price of publicly traded shares or the prices of companies being acquired in the marketplace, to various measures of their earnings and cash flow. Such multiples are then applied to the historical and projected earnings and cash flow of the reporting unit in developing the valuation

estimate.

Preparation of forecasts and the selection of the discount rates involve significant judgments about expected future business performance and general market conditions. Significant changes in our forecasts and the discount rates selected or the weighting of the income and market approach could affect the estimated fair value of one or more of our reporting units and could result in a goodwill impairment charge in a future period.

Other intangible assets primarily represent customer-related intangible assets (such as customer lists and merchant contracts), contract-based intangible assets (such as non-compete agreements, referral agreements and processing rights), and trademarks associated with acquisitions. Customer-related intangible assets, contract-based intangible assets and certain trademarks are amortized over their estimated useful lives of from 5 to 30 years. The useful lives for customer-related intangible assets are determined based primarily on forecasted cash flows, which include estimates for the revenues, expenses, and customer attrition associated with the

11

Table of Contents

assets. The useful lives of contract-based intangible assets are equal to the terms of the agreements. The useful lives of amortizable trademarks are based on our plans to phase out the trademarks in the applicable markets.

Amortization for most of our customer-related intangible assets is calculated using an accelerated method. In determining amortization expense under our accelerated method for any given period, we calculate the expected cash flows for that period that were used in determining the acquired value of the asset and divide that amount by the expected total cash flows over the estimated life of the asset. We multiply that percentage by the initial carrying value of the asset to arrive at the amortization expense for that period. If the cash flow patterns that we experience differ significantly from our initial estimates, we will adjust the amortization schedule accordingly. These cash flow patterns are derived using certain assumptions and cost allocations due to a significant amount of asset interdependencies that exist in our business.

Impairment of long-lived assets— We regularly evaluate whether events and circumstances have occurred that indicate the carrying amount of property and equipment and finite-lived intangible assets may not be recoverable. When factors indicate that these long-lived assets should be evaluated for possible impairment, we assess the potential impairment by determining whether the carrying value of such long-lived assets will be recovered through the future undiscounted cash flows expected from use of the asset and its eventual disposition. If the carrying amount of the asset is determined not to be recoverable, a write-down to fair value is recorded. Fair values are determined based on quoted market prices or discounted cash flow analyses as applicable. We regularly evaluate whether events and circumstances have occurred that indicate the useful lives of property and equipment and finite-life intangible assets may warrant revision. In our opinion, the carrying values of our long-lived assets, including property and equipment and finite-life intangible assets, were not impaired at August 31, 2013 and May 31, 2013.

Income taxes— Deferred income taxes are determined based on the difference between the financial statement and tax bases of assets and liabilities using enacted tax laws and rates. A valuation allowance is provided when it is more likely than not that some portion or all of the deferred tax assets will not be realized.

Our effective tax rates were 30.3% and 31.4% for the three months ended August 31, 2013 and August 31, 2012, respectively. The effective tax rates for the three months ended August 31, 2013 and August 31, 2012 reflect reductions to our U.K. deferred tax asset due to legislated enacted corporate tax rate reductions in the United Kingdom of 3% and 2%, respectively. Please see Note 7— Income Tax for further information.

Fair value measurements— GAAP requires disclosures about assets and liabilities that are measured at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the reporting date. The reporting standard establishes consistency and comparability by providing a fair value hierarchy that prioritizes the inputs to valuation techniques into three broad levels. Level 1 inputs utilize quoted prices in active markets for identical assets or liabilities. Level 2 inputs are based on other observable market data, such as quoted prices for similar assets and liabilities, and inputs other than quoted prices that are observable such as interest rates and yield curves. Level 3 inputs are developed from unobservable data reflecting our assumptions, and include situations where there is little or no market activity for the asset or liability.

Fair value of financial instruments— We consider that the carrying amounts of our financial instruments, including cash and cash equivalents, receivables, lines of credit, accounts payable and accrued liabilities, approximate their fair value given the short-term nature of these items. Our term loans include variable interest rates based on the prime rate or London Interbank Offered Rate plus a margin based on our leverage position. At August 31, 2013, the carrying amount of our term loans approximates fair value, which is calculated using Level 2 inputs. Our subsidiary in the Russian Federation has notes payable with a fixed interest rate of 8.5% and maturity dates ranging from September 2013 through November 2016. At August 31, 2013, we believe the carrying amount of these notes approximates fair value, which is calculated using Level 3 inputs. Please see Note 6 – Long-Term Debt and Credit Facilities for further

information.

Financing receivables— Our subsidiary in the Russian Federation purchases Automated Teller Machines ("ATMs") and leases those ATMs to our sponsor bank. We have determined these arrangements to be direct financing leases. Accordingly, we have \$5.6 million and \$6.3 million of financing receivables included in our August 31, 2013 and May 31, 2013 consolidated balance sheets, respectively.

There is an inherent risk that our customer may not pay the contractual balances due. We periodically review the financing receivables for credit losses and past due balances to determine whether an allowance should be recorded. Historically we have not

12

Table of Contents

had any credit losses or past due balances associated with these receivables, and therefore we do not have an allowance recorded. We have had no financing receivables modified as troubled debt restructurings nor have we had any purchases or sales of financing receivables.

Foreign currencies— We have significant operations in a number of foreign subsidiaries whose functional currency is their local currency. Gains and losses on transactions denominated in currencies other than the functional currencies are included in determining net income for the period. For the three months ended August 31, 2013 and August 31, 2012, our transaction gains and losses were insignificant.

The assets and liabilities of subsidiaries whose functional currency is a foreign currency are translated at the period-end rate of exchange. Income statement items are translated at the weighted average rates prevailing during the period. The resulting translation adjustment is recorded as a component of other comprehensive income and is included in equity. Translation gains and losses on intercompany balances of a long-term investment nature are also recorded as a component of other comprehensive income.

Earnings per share— Basic earnings per share is computed by dividing reported earnings available to common shareholders by the weighted average shares outstanding during the period. Earnings available to common shareholders is the same as reported net income attributable to Global Payments for all periods presented.

Diluted earnings per share is computed by dividing reported earnings available to common shareholders by the weighted average shares outstanding during the period and the impact of securities that would have a dilutive effect on earnings per share. All options with an exercise price less than the average market share price for the period are assumed to have a dilutive effect on earnings per share. The diluted share base for the three months ended August 31, 2012 excludes shares of 0.6 million related to stock options. These shares were not considered in computing diluted earnings per share because including them would have had an antidilutive effect. There were no excluded shares for the three months ended August 31, 2013 related to stock options. No additional securities were outstanding that could potentially dilute basic earnings per share.

The following table sets forth the computation of diluted weighted average shares outstanding for the three months ended August 31, 2013 and August 31, 2012:

	Three Months Ended	
	August 31, 2013	August 31, 2012
	(in thousands)	
Basic weighted average shares outstanding	73,765	78,604
Plus: dilutive effect of stock options and other share-based awards	524	439
Diluted weighted average shares outstanding	74,289	79,043

New accounting pronouncements— From time-to-time, new accounting pronouncements are issued by the Financial Accounting Standards Board ("FASB") or other standards setting bodies that are adopted by us as of the specified effective date. Unless otherwise discussed, our management believes that the impact of recently issued standards that are not yet effective will not have a material impact on our consolidated financial statements upon adoption.

In July 2013, the FASB issued Accounting Standards Update ("ASU") 2013-11, "Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists" ("ASU 2013-11"). The amendments in ASU 2013-11 require an entity to present an unrecognized tax benefit in the financial statements as a reduction to a deferred tax asset for an net operating loss ("NOL") carryforward, a similar tax loss, or a tax credit carryforward except when: (1) An NOL carryforward, a similar tax loss, or a tax credit

carryforward is not available as of the reporting date under the governing tax law to settle taxes that would result from the disallowance of the tax position; or (2) The entity does not intend to use the deferred tax asset for this purpose (provided that the tax law permits a choice). If either of these conditions exists, an entity should present an unrecognized tax benefit in the financial statements as a liability and should not net the unrecognized tax benefit with a deferred tax asset. The amendment does not affect the recognition or measurement of uncertain tax positions under ASC 740.5. The amendments in this ASU are effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. The amendments

Table of Contents

should be applied prospectively to all unrecognized tax benefits that exist at the effective date. Retrospective application is permitted. We do not expect this ASU to have an impact to our consolidated financial statements.

In July 2013, the FASB issued ASU 2013-10, "Inclusion of the Fed Funds Effective Swap Rate (or Overnight Index Swap Rate) as a Benchmark Interest Rate for Hedge Accounting Purposes" ("ASU 2013-10"). The amendments in ASU 2013-10 permit an entity to designate Fed Funds Effective Swap Rate, also referred to as the overnight index swap rate, as a benchmark interest rate for hedge accounting purposes. In addition, the amendment removes the restriction on using different benchmark interest rates for similar hedges. The amendment is applicable to all entities that elect to apply hedge accounting of the benchmark interest rate under ASC 815. The amendment is effective immediately. This amendment did not have an impact to our consolidated financial statements.

In March 2013, the FASB issued ASU 2013-05, "Foreign Currency Matters" ("ASU 2013-05"). The amendments in ASU 2013-05 resolve the diversity in practice about whether current literature applies to the release of the cumulative translation adjustment into net income when a parent either sells a part or all of its investment in a foreign entity or no longer holds a controlling financial interest in a subsidiary or group of assets that is a nonprofit activity or a business within a foreign entity. In addition, the amendments in ASU 2013-05 resolve the diversity in practice for the treatment of business combinations achieved in stages (sometimes also referred to as step acquisitions) involving a foreign entity. ASU 2013-05 is effective prospectively for fiscal years, and interim reporting periods within those years, beginning after December 15, 2013. This standard is effective for us beginning June 1, 2014. We are currently evaluating the impact of ASU 2013-05 on our consolidated financial statements.

NOTE 2—PROCESSING SYSTEM INTRUSION

In early March of 2012, we identified and self-reported unauthorized access into a limited portion of our North America card processing system. Our investigation also revealed potential unauthorized access to servers containing personal information collected from merchants who applied for processing services. As a result of this incident, certain card networks removed us from their list of Payment Card Industry Data Security Standards ("PCI DSS") compliant service providers. We have since received reports on compliance covering all our systems that process, store, transmit or otherwise utilize card data and we have been returned to the network list of PCI compliant service providers. During the three months ended August 31, 2012, we recorded \$24.0 million of expense associated with this incident. To date, we have not experienced a material loss of revenue that we can confirm has been related to this incident. However, this incident and our related remediation efforts could potentially have a negative impact on future revenues.

During fiscal 2013 we received \$20.0 million in insurance recoveries associated with this incident. We anticipate that we may receive additional recoveries during fiscal 2014. We will record receivables for any additional recoveries in the periods in which we determine such recovery is probable and the amount can be reasonably estimated.

NOTE 3—SETTLEMENT PROCESSING ASSETS AND OBLIGATIONS

We are designated as a Merchant Service Provider by MasterCard and an Independent Sales Organization by Visa. These designations are dependent upon member clearing banks ("Member") sponsoring us and our adherence to the standards of the networks. We have primary financial institution sponsors in the various markets where we facilitate payment transactions with whom we have sponsorship or depository and clearing agreements. These agreements allow us to route transactions under the member banks' control and identification numbers to clear credit card transactions through MasterCard and Visa. In certain markets, we are members in various payment networks, allowing us to process and fund transactions without third-party sponsorship.

Funds settlement refers to the process of transferring funds for sales and credits between card issuers and merchants. For transactions processed on our systems, we use our internal network telecommunication infrastructure to provide funding instructions to the Members who in turn fund the merchants. The standards of the card networks restrict us from performing funds settlement or accessing merchant settlement funds, and, instead, require that these funds be in the possession of the Member until the merchant is funded. However, in practice and in accordance with the terms of our sponsorship agreements with our Members, we generally follow a net settlement process whereby, if the incoming amount from the card networks precedes the Member's funding obligation to the merchant, we temporarily hold the surplus on behalf of the Member in our account at the Member bank and record a corresponding liability. Conversely, if the Member's funding obligation to the merchant precedes the incoming amount from the card networks, the amount of the Member's net receivable position is either subsequently advanced to the Member by us or the Member satisfies this obligation with its own funds. If the Member uses its own funds, the Member may assess funding cost,

Table of Contents

which is included in interest and other expense on the accompanying consolidated statements of income. Each participant in the transaction process receives compensation for its services.

Timing differences, interchange expense, Merchant Reserves and exception items cause differences between the amount the Member receives from the card networks and the amount funded to the merchants. These intermediary balances arising in our settlement process for direct merchants are reflected as settlement processing assets and obligations on our balance sheet. Settlement processing assets and obligations consist of the components outlined below:

• Interchange reimbursement - our receivable from merchants for the portion of the discount fee related to reimbursement of the interchange expense.

• Receivable from Members - our receivable from the Members for transactions we have funded merchants on behalf of the Members in advance of receipt of card association funding.

• Receivable from networks - our receivable from the card networks for transactions processed on behalf of merchants where we are a Member of that particular network.

• Exception items - items such as customer chargeback amounts received from merchants.

• Merchant Reserves - reserves held to minimize contingent liabilities associated with losses that may occur under the merchant agreement.

• Liability to Members - our liability to the Members for transactions for which we have received funding from the Members but have not funded merchants on behalf of the Members. Also cases in which the Member uses its own funds to satisfy a funding obligation to merchants that precedes the incoming amount from the card network.

• Liability to merchants - our liability to merchants for transactions that have been processed but not yet funded where we are a Member of that particular network.

• Reserve for operating losses - see Note 1 - Summary of Significant Accounting Policies.

• Reserve for sales allowances.

In accordance with ASC 210-20, Offsetting, we apply offsetting to our settlement processing assets and obligations where legal right of set-off exists. We apply this offsetting by Member because the Member is ultimately responsible for funds settlement. With these Member transactions, we do not have access to the gross proceeds of the receivable from the networks and do not have a direct obligation or any ability to satisfy the payable that funds the merchant. In these situations, we apply offsetting to determine a net position with each member sponsor. If that net position is an asset, we reflect the net amount in settlement processing assets on our balance sheet and we present the individual components in the settlement processing assets table below. If that net position is a liability, we reflect the net amount in settlement processing obligations on our consolidated balance sheet and we present the individual components in the settlement processing obligations table below. In markets where we have direct membership, offsetting is not applied, and the individual components are presented as an asset or obligation based on the nature of that component.

Table of Contents

	August 31, 2013	May 31, 2013
	(in thousands)	
Settlement processing assets:		
Interchange reimbursement	\$68,572	\$70,348

Receivable from networks	355,222	126,136
Exception items	3,938	2,725
Merchant Reserves	(65,720)	(57,409)
Total	\$611,602	\$259,204
Settlement processing obligations:		
Interchange reimbursement	\$197,772	\$200,319
Liability to Members	(14,765)	(27,717)
Liability to merchants	(384,253)	(120,875)
Exception items	10,282	12,308
Merchant Reserves	(206,700)	(223,314)
Reserve for operating losses	(2,249)	(2,318)
Reserves for sales allowances	(974)	(961)
Total	\$(400,887)	\$(162,558)

NOTE 4—BUSINESS AND INTANGIBLE ASSET ACQUISITIONS

Fiscal 2013

Accelerated Payment Technologies

On October 1, 2012, we completed the acquisition of 100% of the common stock of Accelerated Payment Technologies ("APT") for \$413.0 million less working capital. We funded the acquisition using proceeds from a term loan. We acquired APT, a provider of fully-integrated payment technology solutions for small and medium sized merchants, to expand our direct distribution capabilities in the United States. This acquisition has been recorded as a business combination, and the purchase price was allocated to the assets acquired and liabilities assumed based on their estimated fair values. The purchase price of APT was determined by analyzing the historical and prospective financial statements. Acquisition costs associated with this purchase were not material.

The following table summarizes the purchase price allocation (in thousands):

Goodwill	\$308,518
Customer-related intangible assets	97,200
Contract-based intangible assets	30,600
Acquired technology	15,000
Fixed assets	1,309
Other assets	3,708
Total assets acquired	456,335
Deferred income taxes	(46,167)
Net assets acquired	\$410,168

The goodwill associated with the acquisition is not deductible for tax purposes. The customer-related intangible assets have estimated amortization periods of 12 years. The contract-based intangible assets have amortization periods of 1.5

to 10 years. The acquired technology has an amortization period of 8 years.

Table of Contents

Prior to the acquisition, we processed transactions for the majority of APT's merchants via an ISO relationship. As a result, our revenue did not materially change with this acquisition and the amount of incremental revenue and earnings of APT since the acquisition date included in the consolidated statement of income for the three months ended August 31, 2013 is not material. With the acquisition, we no longer pay a monthly residual to APT. The following pro forma information shows the results of our operations for the three months ended August 31, 2012 as if the APT acquisition had occurred June 1, 2012. The pro forma information is presented for information purposes only and is not necessarily indicative of what would have occurred if the acquisition had been made as of that date. The pro forma information is also not intended to be a projection of future results due to the integration of the acquired business.

	Unaudited	
	August 31, 2012	August 31, 2012
	(Actual)	(Pro forma)
	(in thousands, except per share data)	
Total revenues	\$590,287	\$593,673
Net income attributable to Global Payments	\$46,675	\$47,883
Net income per share attributable to Global Payments, basic	\$0.59	\$0.61
Net income per share attributable to Global Payments, diluted	\$0.59	\$0.61

Redeemable Non-controlling Interest Acquisition

On July 26, 2012, we entered into an agreement to purchase HSBC Asia's ("HSBC") 44% interest in Global Payments Asia-Pacific Limited ("GPAP") for fair value of \$242.0 million. Effective December 1, 2012, we completed the purchase. We used a combination of excess cash and existing borrowings to complete the transaction.

The purchase was treated as an equity transaction and reflected as a financing cash outflow in our statement of cash flows. Accordingly, no additional value was ascribed to the assets of GPAP. The difference between the maximum redemption amount of the redeemable non-controlling interest at July 26, 2012 and our purchase price was recorded as a reduction of paid-in capital of \$96.0 million. In accordance with Accounting Standards Codification 480, Distinguishing Liabilities from Equity ("ASC 480"), from the agreement date through the close of the transaction, we accounted for our commitment to purchase the remaining 44% of GPAP as a freestanding forward contract. Accordingly as of July 26, 2012, we stopped attributing income to redeemable non-controlling interest and any subsequent distributions to holders of the redeemable non-controlling interest are characterized as interest expense. HSBC is entitled to dividends through the closing of the transaction pursuant to the GPAP shareholders agreement and the purchase agreement. During fiscal 2013, we declared a dividend for fiscal year 2012 of which \$8.4 million was paid to HSBC. Such dividend is reflected as interest expense in our consolidated statements of income in the accordance with the provisions of ASC 480. During fiscal year 2014, we expect to declare an additional dividend related to GPAP operations through the closing date. We expect HSBC's share of such dividend to be reflected in interest expense in our fiscal year 2014 consolidated statements of income.

Banca Civica

On December 12, 2012, Comercia Global Payments Entidad de Pago, S.L. ("Comercia") completed the acquisition of the merchant acquiring business of Banca Civica, S.A. ("Civica") from CaixaBank, S.A. ("CaixaBank") for €17.5 million (\$22.9 million equivalent as of the acquisition date). This transaction has been recorded as a business combination, and the purchase price is allocated to the assets acquired and liabilities assumed based on their estimated

fair values. The purchase price of Civica was determined by analyzing the historical and prospective financial statements. The results of operations of this business were not significant to our consolidated results of operations and accordingly, we have not provided pro forma information relating to this acquisition. Acquisition costs associated with this purchase were not material.

The following table summarizes the purchase price allocation (in thousands):

17

Table of Contents

Goodwill	\$4,445
Customer-related intangible assets	4,576
Contract-based intangible assets	13,858
Net assets acquired	\$22,879

The goodwill associated with the acquisition is not deductible for tax purposes. The customer-related and contract-based intangible assets have estimated amortization periods of 10 and 18 years, respectively.

NOTE 5—GOODWILL AND INTANGIBLE ASSETS

As of August 31, 2013 and May 31, 2013, goodwill and intangible assets consisted of the following:

	August 31, 2013 (in thousands)	May 31, 2013
Goodwill	\$1,047,578	\$1,044,222
Other intangible assets:		
Customer-related intangible assets	\$559,504	\$559,884
Trademarks	6,095	6,390
Acquired technology	15,000	15,000
Contract-based intangible assets	111,482	110,234
	692,081	691,508
Less accumulated amortization:		
Customer-related intangible assets	274,250	262,649
Trademarks	3,912	3,967
Acquired technology	1,716	1,248
Contract-based intangible assets	24,969	22,796
	304,847	290,660
	\$387,234	\$400,848

The following table discloses the changes in the carrying amount of goodwill for the three months ended August 31, 2013:

	North America merchant services (in thousands)	International merchant services	Total
Balance at May 31, 2013	\$519,175	\$525,047	\$1,044,222
Accumulated impairment losses	—	—	—
	\$519,175	\$525,047	\$1,044,222
Goodwill acquired	—	—	—
Effect of foreign currency translation	(1,450)	4,806	3,356
Balance at August 31, 2013	\$517,725	\$529,853	\$1,047,578

NOTE 6—LONG-TERM DEBT AND CREDIT FACILITIES

Outstanding debt consisted of the following:

18

Table of Contents

	August 31, 2013	May 31, 2013
Lines of credit:	(in thousands)	
Corporate Credit Facility - long-term	\$419,651	\$309,955
Short-term lines of credit:		
United Kingdom Credit Facility	75,307	74,146
Hong Kong Credit Facility	57,760	38,134
Spain Credit Facility	159,058	28,041
Malaysia Credit Facility	12,016	14,025
Taiwan Credit Facility	5,563	8,359
Canada Credit Facility	—	6,866
Singapore Credit Facility	7,535	6,459
Philippines Credit Facility	6,082	6,384
Sri Lanka Credit Facility	1,875	1,978
Macau Credit Facility	1,766	1,966
Maldives Credit Facility	942	741
Brunei Credit Facility	583	362
Total short-term lines of credit	\$328,487	\$187,461
Total lines of credit	748,138	497,416
Notes payable	5,460	6,014
Term loan	647,500	647,500
Total debt	\$1,401,098	\$1,150,930
Current portion	\$400,715	\$259,796
Long-term debt	1,000,383	891,134
Total debt	\$1,401,098	\$1,150,930

Lines of Credit

The Corporate Credit Facility is available for general corporate purposes and to fund future strategic acquisitions. As of August 31, 2013, the interest rate on the Corporate Credit Facility was 2.2% and the facility expires on December 7, 2015. Our short-term lines of credit are primarily used to fund settlement. For certain of our lines of credit, the line of credit balance is reduced by the amount of cash we have on deposit in specific accounts with the lender when determining compliance with the credit limit. Accordingly, the line of credit balance may exceed the stated credit limit at any given point in time, when in fact the combined position is less than the credit limit. The total available incremental borrowings at August 31, 2013 were \$330.3 million under our Corporate Credit Facilities. As of August 31, 2013, we had \$660.8 million available to fund settlement under our short-term lines of credit.

Term Loan

On September 28, 2012, we entered into a five-year unsecured \$700.0 million term loan agreement with a syndicate of banks. The term loan expires in September 2017 and bears interest, at our election, at the prime rate or London Interbank Offer Rate ("LIBOR"), plus a leverage based margin. As of August 31, 2013 the interest rate on the term loan was 2.2%. The term loan has scheduled quarterly principal payments of \$17.5 million at the end of each fiscal quarter through maturity. As of August 31, 2013, the outstanding balance of the term loan was \$647.5 million. The August 2013 scheduled principal payment was due on a weekend. As a result, the principal payment was made on the following business day, September 3, 2013.

Notes Payable

Table of Contents

United Card Services, our subsidiary in the Russian Federation, has notes payable with a total outstanding balance of approximately \$5.5 million at August 31, 2013. These notes have a fixed interest rate of 8.5% with maturity dates ranging from September 2013 through November 2016.

Compliance with Covenants

There are certain financial and non-financial covenants contained in our various credit facilities and term loans. Our term loan agreements include financial covenants requiring a leverage ratio no greater than 3.25 to 1.00 and a fixed charge coverage ratio no less than 2.50 to 1.00. We complied with these covenants as of and for the three months ended August 31, 2013 and August 31, 2012.

NOTE 7—INCOME TAX

We have a deferred tax asset of \$87.9 million at August 31, 2013 primarily associated with the purchase of the remaining 49% interest in HSBC Merchant Services LLP in fiscal 2010.

Our effective tax rates were 30.3% and 31.4% for the three months ended August 31, 2013 and August 31, 2012, respectively. The effective tax rates for the three months ended August 31, 2013 and August 31, 2012 reflect reductions to our UK deferred tax asset due to legislated enacted corporate tax rate reductions in the United Kingdom of 3% and 2%, respectively.

As of August 31, 2013 and May 31, 2013, other long-term liabilities included liabilities for unrecognized income tax benefits of \$57.1 million and \$53.8 million, respectively. During the three months ended August 31, 2013, we recognized an increase in liabilities of \$3.3 million for unrecognized income tax benefits. During the three months ended August 31, 2013 and August 31, 2012, amounts recorded for accrued interest and penalty expense related to the unrecognized income tax benefits were insignificant.

We conduct business globally and file income tax returns in the United States federal jurisdiction and various state and foreign jurisdictions. In the normal course of business, we are subject to examination by taxing authorities throughout the world, including such major jurisdictions as the United States, United Kingdom and Canada. We are currently under audit with the United States Internal Revenue Service for fiscal years 2011 and 2010. We are no longer subject to income tax examinations for years ended May 31, 2006 and prior.

NOTE 8—SHAREHOLDERS' EQUITY

On July 25, 2013, our Board of Directors approved a share repurchase program that authorized the purchase of up to \$250.0 million of Global Payments' common stock. Pursuant to prior authorization and the authorization described above, we repurchased 3,051,070 shares of our common stock at a cost of \$144.4 million, or an average of \$47.33 per share, including commissions, during the three months ended August 31, 2013. We have \$230.3 million remaining under the share repurchase program.

NOTE 9—SHARE-BASED AWARDS AND OPTIONS

As of August 31, 2013, we have awards outstanding under four share-based employee compensation plans. The fair value of share-based awards is amortized as compensation expense on a straight-line basis over the vesting period.

Non-qualified stock options and restricted stock have been granted to officers, key employees and directors under the Global Payments Inc. 2000 Long-Term Incentive Plan, as amended and restated (the "2000 Plan"), the Global Payments

Inc. Amended and Restated 2005 Incentive Plan (the “2005 Plan”), an Amended and Restated 2000 Non-Employee Director Stock Option Plan (the “Director Plan”), and the Global Payments Inc. 2011 Incentive Plan (the “2011 Plan”) (collectively, the “Plans”). There were no further grants made under the 2000 Plan after the 2005 Plan was effective and the Director Plan expired by its terms on February 1, 2011 so no further grants will be granted thereunder.

The 2011 Plan permits grants of equity to employees, officers, directors and consultants. A total of 7.0 million shares of our common stock was reserved and made available for issuance pursuant to awards granted under the 2011 Plan. Effective with the adoption of the 2011 Plan, there will be no future grants under the 2005 Plan.

Table of Contents

The following table summarizes the share-based compensation cost charged to income for (i) all stock options granted, (ii) our restricted stock program (including PRSUs and TSRs), and (iii) our employee stock purchase plan. The total income tax benefit recognized for share-based compensation in the accompanying statements of income is also presented.

	Three Months Ended	
	August 31, 2013	August 31, 2012
	(in millions)	
Share-based compensation expense	\$4.8	\$4.2
Income tax benefit	\$1.1	\$1.4

Restricted Stock

Shares and performance units awarded under the restricted stock program of the Plans are held in escrow and released to the grantee upon the grantee's satisfaction of conditions of the grantee's restricted stock agreement. The grant date fair value of restricted stock awards is based on the quoted market value of our common stock at the award date.

Certain executives are granted two different types of performance units under our restricted stock program. A portion of those performance units represent the right to earn 0% to 200% of a target number of shares of Global Payments common stock depending upon the achievement level of certain performance measures during the grant year ("PRSUs"). The target number of PRSUs and the performance measures (at threshold, target, and maximum) are set by the Compensation Committee of our Board of Directors. PRSUs are converted to a time-based restricted stock grant only if the Company's performance during the fiscal year exceeds pre-established goals. The other portion of these performance units represent the right to earn 0% to 200% of target shares of Global Payments stock based on Global Payments' relative total shareholder return compared to peer companies over a three year performance period ("TSRs"). The target number of TSRs for each executive is set by the Compensation Committee of our Board of Directors and a monte carlo simulation is used to calculate the estimated share payout.

Grants of restricted awards are subject to forfeiture if a grantee, among other conditions, leaves our employment prior to expiration of the restricted period. New grants of restricted awards generally vest one year after the date of grant in 25% increments over a four year period, with the exception of TSRs which vest after a three year period.

The following table summarizes the changes in non-vested restricted stock awards for the three months ended August 31, 2013 (share awards in thousands):

	Shares	Weighted Average Grant-Date Fair Value
Non-vested at May 31, 2013	1,096	\$44
Granted	491	46
Vested	(340)) 43
Forfeited	(92)) 44
Non-vested at August 31, 2013	1,155	45

The total fair value of share awards vested during the three months ended August 31, 2013 and August 31, 2012 was \$14.7 million and \$13.2 million, respectively.

We recognized compensation expense for restricted stock of \$4.3 million and \$3.6 million in the three months ended August 31, 2013 and August 31, 2012, respectively. As of August 31, 2013, there was \$51.3 million of total unrecognized compensation cost related to non-vested restricted stock awards that is expected to be recognized over a weighted average period of 2.8 years.

Table of Contents

Employee Stock Purchase Plan

We have an Employee Stock Purchase Plan under which the sale of 2.4 million shares of our common stock has been authorized. Employees may designate up to the lesser of \$25,000 or 20% of their annual compensation for the purchase of our common stock. The price for shares purchased under the plan is 85% of the market value on the last day of the quarterly purchase period. As of August 31, 2013, 1.1 million shares had been issued under this plan, with 1.3 million shares reserved for future issuance. We recognized compensation expense for the plan of \$0.1 million in both the three months ended August 31, 2013 and August 31, 2012.

The weighted average grant-date fair value of each designated share purchased under this plan during the three months ended August 31, 2013 and August 31, 2012 was \$7 and \$6, respectively, which represents the fair value of the 15% discount.

Stock Options

Stock options are granted at 100% of fair market value on the date of grant and have 10-year terms. Stock options granted vest one year after the date of grant in 25% increments over a four year period. The Plans provide for accelerated vesting under certain conditions. There were no options granted under the Plans during the three months ended August 31, 2013 and August 31, 2012.

The following is a summary of our stock option activity as of and for the three months ended August 31, 2013:

	Options (in thousands)	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (years)	Aggregate Intrinsic Value (in millions)
Outstanding at May 31, 2013	1,765	\$35	3.5	\$23.9
Granted	—	—		
Forfeited	(56)) 37		
Exercised	(176)) 19		
Outstanding at August 31, 2013	1,533	37	3.5	\$16.9
Options vested and exercisable at August 31, 2013	1,477	37	3.3	\$16.2

The aggregate intrinsic value of stock options exercised during the three months ended August 31, 2013 and August 31, 2012 was \$5.0 million and \$4.9 million. As of August 31, 2013, we had \$0.8 million of total unrecognized compensation cost related to unvested options which we expect to recognize over a weighted average period of 0.77 years. We recognized compensation expense for stock options of \$0.3 million and \$0.5 million in the three months ended August 31, 2013 and August 31, 2012, respectively.

NOTE 10—SUPPLEMENTAL CASH FLOW INFORMATION

Supplemental cash flow disclosures are as follows:

Table of Contents

	Three Months Ended	
	August 31, 2013	August 31, 2012
	(in thousands)	
Supplemental cash flow information:		
Income taxes paid, net of refunds	\$10,625	\$5,155
Interest paid	\$6,993	\$2,866
Financing receivables:		
Principal collections from customers - financing leases	\$665	\$740
Net decrease in financing receivables	\$665	\$740

NOTE 11—NON-CONTROLLING INTERESTS

The following table details the components of redeemable non-controlling interests for the three months ended August 31, 2012:

	Three Month Ended August 31, 2012
	(in thousands)
Beginning balance	\$144,422
Net income attributable to redeemable non-controlling interest	1,814
Foreign currency translation adjustment	573

Foreign currency translation attributable to redeemable non-controlling interests	—	573
Comprehensive income attributable to non-controlling interests, net of tax	\$9,627	\$10,451

NOTE 12—SEGMENT INFORMATION

General information

We operate in two reportable segments, North America merchant services and International merchant services. The merchant services segments primarily offer processing solutions for credit cards, debit cards, and check-related services.

Information about profit and assets

We evaluate performance and allocate resources based on the operating income of each segment. The operating income of each segment includes the revenues of the segment less those expenses that are directly related to those revenues. Operating overhead, shared costs and certain compensation costs are included in Corporate in the following table. Interest expense or income and income tax expense are not allocated to the individual segments. Lastly, we do not evaluate performance or allocate resources using segment asset data. The accounting policies of the reportable segments are the same as those described in the Summary of Significant Accounting Policies in Note 1.

Information on segments, including revenue by geographic distribution within segments, and reconciliations to consolidated revenues and consolidated operating income are as follows for the three months ended August 31, 2013, and August 31, 2012:

Table of Contents

	Three Months Ended	
	August 31, 2013	August 31, 2012
	(in thousands)	
Revenues:

North America merchant services	\$13,455	\$9,256
International merchant services	13,343	13,624
Corporate	1,576	1,015
Consolidated depreciation and amortization	\$28,374	\$23,895

⁽¹⁾ Includes processing system intrusion costs of \$24.0 million for the three months ended August 31, 2012.

Our results of operations and our financial condition are not significantly reliant upon any single customer.

NOTE 13—COMMITMENTS AND CONTINGENCIES

BIN/ICA Agreements

We have entered into sponsorship or depository and processing agreements with certain banks. These agreements allow us to use the banks' identification numbers, referred to as Bank Identification Number ("BIN") for Visa transactions and Interbank Card Association ("ICA") number for MasterCard transactions, to clear credit card transactions through Visa and MasterCard. Certain of such agreements contain financial covenants, and we were in compliance with all such covenants as of August 31, 2013.

Our Canadian Visa sponsorship, which was originally obtained through a Canadian financial institution, expired in March 2011. We filed an application with the Office of the Superintendent of Financial Institutions Canada ("OSFI") for the formation of a wholly owned loan company in Canada which would serve as our financial institution sponsor. Also in March 2011, we obtained temporary direct participation in the Visa Canada system, while the loan company application was pending. OSFI granted the loan company a restricted Order to Commence and Carry On Business in December 2012, and amended the Order in April 2013 to an unrestricted Order, enabling the loan company to become a direct Visa member at such time that Global Payments concludes the appropriate BIN transfer process with Visa. We completed the BIN transfer process with Visa on September 30, 2013.

Table of Contents

ITEM 2- MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

For an understanding of the significant factors that influenced our results, the following discussion should be read in conjunction with our unaudited consolidated financial statements and related notes appearing elsewhere in this report. This management's discussion and analysis should also be read in conjunction with the management's discussion and analysis and consolidated financial statements included in our Annual Report on Form 10-K for the fiscal year ended May 31, 2013.

General

We are a provider of electronic payments transaction processing services for consumers, merchants, independent sales organizations (ISOs), financial institutions, government agencies and multi-national corporations located throughout the United States, Canada, Brazil, the United Kingdom, Spain, the Republic of Malta, the Czech Republic, the Russian Federation and the Asia-Pacific region. We serve as an intermediary to facilitate payment transactions and operate in two business segments, North America merchant services and International merchant services. We were incorporated in Georgia as Global Payments Inc. in September 2000 and spun-off from our former parent company on January 31, 2001. Including our time as part of our former parent company, we have been in the payments business since 1967.

Our North America merchant services and International merchant services segments target customers in many vertical industries including financial services, gaming, government, health care, professional services, restaurants, retail, universities, nonprofit organizations and utilities.

Our offerings provide merchants, ISOs and financial institutions with credit and debit card transaction processing and check-related services. Our primary business model provides payment products and services directly to merchants as our end customers. We also provide similar products and services to financial institutions and a limited number of ISOs that, in turn, resell our products and services, in which case, the financial institutions and select ISOs are our end customers. These particular services are marketed in the United States, Canada, and parts of Europe.

The majority of merchant services revenue is generated on services priced as a percentage of transaction value or a specified fee per transaction, depending on card type. We also charge other fees based on specific services that are unrelated to the number of transactions or the transaction value. Revenue from credit cards and signature debit cards is generally based on a percentage of transaction value along with other related fees, while revenue from PIN debit cards is typically based on a fee per transaction.

Our products and services are marketed through a variety of sales channels that include a dedicated direct sales force, ISOs, an internal telesales group, retail outlets, trade associations, alliance bank relationships and financial institutions. We seek to leverage the continued shift to electronic payments by expanding market share in our existing markets through our distribution channels or through acquisitions in North America, the Asia-Pacific region and Europe, and investing in and leveraging technology and people, thereby maximizing shareholder value. We also seek to enter new markets through acquisitions in the Asia-Pacific region, Europe, and Latin America.

Our business does not have pronounced seasonality in which more than 30% of our revenues occur in one quarter. However, each geographic channel has somewhat higher and lower quarters given the nature of the portfolio. While there is some variation in seasonality across markets, the first and fourth quarters are generally the strongest, and the third quarter tends to be the weakest due to lower volumes processed in the months of January and February.

Executive Overview

Edgar Filing: GLOBAL PAYMENTS INC - Form 10-Q

For the three months ended August 31, 2013, revenues increased 6.7% to \$629.7 million from \$590.3 million for the prior year's comparable period. This revenue growth was primarily due to strong growth in most of our markets in North America and Europe.

Consolidated operating income was \$107.4 million for the three months ended August 31, 2013 compared to \$80.5 million for the prior year's comparable period. Consolidated operating income for the three months ended August 31, 2012 includes processing system intrusion costs of \$24.0 million. Net income attributable to Global Payments increased \$18.0 million, or 38.5%, to \$64.6

Table of Contents

million for the three months ended August 31, 2013 from \$46.7 million in the prior year's comparable period, resulting in a \$0.28 increase in diluted earnings per share to \$0.87 for the three months ended August 31, 2013 from \$0.59 for the three months ended August 31, 2012.

North America merchant services segment revenue increased \$23.7 million, or 5.6%, to \$450.5 million for the three months ended August 31, 2013 from \$426.8 million for the three months ended August 31, 2012. North America merchant services segment operating income increased to \$69.7 million for the three months ended August 31, 2013 from \$67.2 million for the three months ended August 31, 2012, with operating margins of 15.5% and 15.7% for the three months ended August 31, 2013 and August 31, 2012. The growth in North America merchant services is primarily due to growth in our US sales channels, as well as in Canada.

International merchant services segment revenue increased \$15.7 million, or 9.6%, to \$179.2 million for the three months ended August 31, 2013 from \$163.5 million for the three months ended August 31, 2012. International merchant services operating income also increased to \$61.5 million for the three months ended August 31, 2013 from \$57.1 million for the three months ended August 31, 2012, with operating margins of 34.3% and 34.9% for the three months ended August 31, 2013 and August 31, 2012, respectively. The growth in the International merchant service segment is due to strong growth in most of our European markets.

CaixaBank, which owns 49% of Comercia Global Payments in Spain, has agreed to purchase 50% of our Brazil operation and will assume joint control of the business, which will be renamed Comercia Global Payments Brazil. This transaction is expected to close during the second quarter of fiscal 2014.

⁽¹⁾ Percentage amounts may not sum to the total due to rounding.

⁽²⁾ Includes processing system intrusion costs of \$24.0 million in the three months ended August 31, 2012.

Processing System Intrusion

In early March of 2012, we identified and self-reported unauthorized access into a limited portion of our North America card processing system. Our investigation also revealed potential unauthorized access to servers containing personal information collected from merchants who applied for processing services. As a result of this incident, certain card networks removed us from their list of Payment Card Industry Data Security Standards ("PCI DSS") compliant service providers. We have since received reports on compliance covering all our systems that process, store, transmit or otherwise utilize card data and we have been returned to the network list of PCI compliant service providers. During the three months ended August 31, 2012, we recorded \$24.0 million of expense associated with this incident. To date, we have not experienced a material loss of revenue that we can confirm has been

Table of Contents

related to this incident. However, this incident and our related remediation efforts could potentially have a negative impact on future revenues.

During fiscal 2013 we received \$20.0 million in insurance recoveries associated with this incident. We anticipate that we may receive additional recoveries during fiscal 2014. We will record receivables for any additional recoveries in the periods in which we determine such recovery is probable and the amount can be reasonably estimated.

This incident could result in additional lawsuits in the future. In addition, governmental entities have made inquiries and the Federal Trade Commission has initiated an investigation related to the incident. We have not recorded any loss accruals related to these items or any other claims that may be asserted against us in relation to this incident as we have not determined that losses associated with any such potential claims are probable. Further, we do not have sufficient information to estimate the amount or range of possible losses associated with such matters. As more information becomes available, if we should determine that an unfavorable outcome is probable on such a claim and that the amount of such probable loss that we will incur on that claim is reasonably estimable, we will accrue our estimate of such loss. If and when we record such an accrual, it could be material and could adversely impact our results of operations.

Revenues

We derive our revenues from four primary sources: charges based on volumes and fees for services, charges based on transaction quantity, service fees and equipment sales and rentals. Revenues generated by these areas depend upon a number of factors, such as demand for and price of our services, the technological competitiveness of our product offerings, our reputation for providing timely and reliable service, competition within our industry and general economic conditions.

For the three months ended August 31, 2013 revenues increased 6.7% to \$629.7 million compared to the prior year's comparable period. This revenue growth was primarily due to strong growth in most of our markets in North America and Europe.

North America Merchant Services Segment

For the three months ended August 31, 2013, revenue from our North America merchant services segment increased 5.6% to \$450.5 million compared to the prior year's comparable period. North America revenue growth was driven by our United States ISO and direct sales channels and growth in Canada.

We grow our United States revenue primarily by adding small and mid-market merchants in diversified vertical markets, largely through our ISO channel. For the three months ended August 31, 2013, our United States direct credit and debit card processed transactions grew 9% compared to the prior period.

For the three months ended August 31, 2013, our Canadian revenue increased 7.1% to \$86.7 million due to transaction growth and fee increases. Our credit and debit card processed transactions grew 3% compared to the prior year. These increases were somewhat offset by the impact of changes in exchange rates.

International Merchant Services Segment

For the three months ended August 31, 2013, International merchant services revenue increased 9.6% to \$179.2 million compared to the prior year's comparable period. Our Europe merchant services revenue for the three months ended August 31, 2013 increased 11.5% to \$143.2 million compared to the prior year's comparable period, driven primarily by strong transaction growth in all markets. Asia-Pacific merchant services revenue of \$36.0 million for the

three months ended August 31, 2013 represents an increase of 2.8% compared to the prior year's comparable period.

Consolidated Operating Expenses

Cost of service consists primarily of the following costs: compensation or personnel expenses paid to operations and technology-related personnel; assessments and other fees paid to card networks; transaction processing expenses, including third-party services; network telecommunications capability; depreciation and occupancy costs associated with the facilities performing these functions; amortization of intangible assets; and provisions for operating losses. Cost of service increased 12.9% during the three months ended

Table of Contents

August 31, 2013, compared to the prior year's comparable period primarily driven by revenue growth and an increase intangible amortization expense related to APT. As a percentage of revenue, cost of service increased to 36.6% for the three months ended August 31, 2013 from 34.6% in the prior year's comparable period.

Sales, general and administrative expenses consist primarily of compensation or personnel expenses paid to sales personnel; non-revenue producing customer support functions, administrative employees and management; commissions paid to ISOs, independent contractors, and other third parties; advertising costs; share-based compensation expense and occupancy of leased space directly related to these functions. Sales, general and administrative expenses increased 3.6% for the three months ended August 31, 2013 compared to the prior year's comparable period. This increase is primarily due to an increase in commission payments to ISOs and costs associated with employee termination benefits. This increase was somewhat offset by the elimination of ISO commission payments previously made to APT as a result of our acquisition of APT on October 1, 2012. As a percentage of revenues, sales, general and administrative expenses decreased to 46.3% for the three months ended August 31, 2013 from 47.7% in the prior year's comparable period.

Operating Income and Operating Margin for Segments

For the purpose of discussing segment operations, we refer to operating income as calculated by subtracting segment direct expenses from segment revenue. Overhead and shared expenses, including share-based compensation, are not allocated to segment operations; they are reported in the caption "Corporate." Similarly, references to operating margin regarding segment operations mean segment operating income divided by segment revenue.

North America Merchant Services Segment

Operating income in North America merchant services segment increased 3.7% for the three months ended August 31, 2013 compared to the prior year's comparable period. The increase in operating income was primarily due to the increase in transactions and volume in ISO and direct sales channels and growth in Canada. This increase was slightly offset by foreign currency translation. The operating margin was 15.5% and 15.7% for the three months ended August 31, 2013 and August 31, 2012, respectively.

International Merchant Services Segment

Operating income in International merchant services segment increased 7.7% to \$61.5 million for the three months ended August 31, 2013 compared to the prior year's comparable period. The operating margin was 34.3% and 34.9% for the three months ended August 31, 2013 and August 31, 2012, respectively.

Corporate

Our corporate expenses include costs associated with our Atlanta headquarters, global data security expenses, expenses related to our Global Service Center in Manila, Philippines that have not been allocated to our business segments, insurance, employee incentive programs, share-based compensation programs, and certain corporate staff, including finance, accounting, information technology, legal, human resources, marketing and executive. We also consider costs associated with the processing system intrusion to be a corporate expense. Our corporate costs decreased 45.6% to \$23.9 million for the three months ended August 31, 2013 compared to the prior year's comparable period. This decrease is primarily due to lower costs associated with the processing system intrusion.

Consolidated Operating Income

Edgar Filing: GLOBAL PAYMENTS INC - Form 10-Q

For the three months ended August 31, 2013, our consolidated operating income increased 33.4% to \$107.4 million from \$80.5 million in the prior year's comparable period. The increase in our consolidated operating income is primarily due to solid financial results in North America and Europe and lower costs associated with the processing system intrusion in the three months ended August 31, 2013 compared to the three months ended August 31, 2012.

Consolidated Other Income/Expense, Net

Other expense, net, increased to \$4.5 million for the three months ended August 31, 2013 compared to \$1.6 million in the prior year's comparable period. The increase was due to interest expense on higher debt balances.

Table of Contents

Provision for Income Taxes

Our effective tax rates were 30.3% and 31.4% for the three months ended August 31, 2013 and August 31, 2012, respectively. The effective tax rates for the three months ended August 31, 2013 and August 31, 2012 reflect adjustments to our U.K. deferred tax asset due to legislated enacted corporate tax rate reductions in the United Kingdom of 3% and 2%, respectively. Our effective tax rates differ from U.S. statutory rates due to domestic and international tax planning initiatives and income generated in lower tax jurisdictions due to international expansion.

Non-controlling Interests, Net of Tax

Non-controlling interests, net of tax decreased to \$7.1 million from \$7.5 million for the three months ended August 31, 2013 and August 31, 2012, respectively. This decrease is primarily due to the fact that the three months ended August 31, 2012 includes noncontrolling interest related to Global Payments Asia-Pacific through July 26, 2012, the date of our agreement to purchase HSBC's interest.

Liquidity and Capital Resources

A significant portion of our liquidity comes from operating cash flows. Cash flow from operations is used to make planned capital investments in our business, to pursue acquisitions that meet our corporate objectives, to pay dividends, and to pay down debt and repurchase shares at the discretion of our Board of Directors. Accumulated cash balances are invested in high quality and marketable short-term instruments.

Our capital plan objectives are to support the Company's operational needs and strategic plan for long-term growth while maintaining a low cost of capital. Lines of credit are used in certain of our markets to fund settlement and as a source of working capital and, along with other bank financing, to fund acquisitions. We regularly evaluate our liquidity and capital position relative to cash requirements, and we may elect to raise additional funds in the future, either through the issuance of debt, equity or otherwise.

At August 31, 2013, we had cash and cash equivalents totaling \$725.9 million. Of this amount, we consider \$276.3 million to be available cash. Our available cash balance includes \$220.3 million of cash held by foreign subsidiaries whose earnings are considered permanently reinvested for U.S. tax purposes. These cash balances reflect our capital investments in these subsidiaries and the accumulation of cash flows generated by each subsidiary's operations, net of cash flows used to service debt locally and fund non-U.S. acquisitions. We believe that we are able to maintain a sufficient level of liquidity for our domestic operations and commitments without repatriation of the earnings of these foreign subsidiaries. If we were to repatriate some or all of the cash held by such foreign subsidiaries, we do not believe that the associated income tax liabilities would have a significant impact on our liquidity.

Available cash excludes settlement related and merchant reserve cash balances. Settlement related cash balances represent funds that we hold on behalf of our member sponsors when the incoming amount from the card networks precedes the member sponsors' funding obligation to the merchant. Settlement related cash balances are not restricted; however these funds are generally paid out in satisfaction of settlement processing obligations the following day. Merchant reserve cash balances represent funds collected from our merchants that serve as collateral to minimize contingent liabilities associated with any losses that may occur under the merchant agreement ("Merchant Reserves"). At August 31, 2013, our cash and cash equivalents included \$272.4 million related to Merchant Reserves. While this cash is not restricted in its use, we believe that designating this cash to collateralize Merchant Reserves strengthens our fiduciary standing with our member sponsors and is in accordance with the guidelines set by the card networks. See Cash and cash equivalents and Settlement processing assets and obligations under Note 1 and Note 3 in the notes

to the consolidated financial statements for additional details.

Operating activities used net cash of \$23.2 million for the three months ended August 31, 2013. Operating activities provided net cash of \$68.6 million during the three months ended August 31, 2012. The decrease in cash flow from operating activities was primarily due to the change in net settlement processing assets and obligations of \$115.4 million driven by the timing of month end cut-off.

Table of Contents

Net cash used in investing activities decreased from \$28.7 million for the three months ended August 31, 2012 to \$18.6 million for the three months ended August 31, 2013, primarily due to the reduction in capital expenditures, specifically related to information technology related capital expenditures.

For the three months ended August 31, 2013, financing activities provided \$92.5 million in cash compared to \$6.0 million in cash in the prior year's comparable period. The increase in cash provided by financing activities was primarily related to net borrowings on short term lines of credit to fund settlement and net Corporate revolver borrowings. This increase was somewhat offset by share repurchases of \$143.7 million.

We believe that our current level of cash and borrowing capacity under our lines of credit described below, together with future cash flows from operations, are sufficient to meet the needs of our existing operations and planned requirements for the foreseeable future. During fiscal year 2014, we expect capital expenditures to approximate \$90.0 million.

Contractual Obligations

The operating lease commitments disclosed in our Annual Report on Form 10-K for the year ended May 31, 2013 have not changed significantly. Our remaining current contractual and other obligations are as follows:

Long-Term Debt and Credit Facilities

Outstanding debt consisted of the following:

	August 31, 2013	May 31, 2013
Lines of credit:	(in thousands)	
Corporate Credit Facility - long-term	\$419,651	\$309,955
Short-term lines of credit:		
United Kingdom Credit Facility	75,307	74,146
Hong Kong Credit Facility	57,760	38,134
Spain Credit Facility	159,058	28,041
Malaysia Credit Facility	12,016	14,025
Taiwan Credit Facility	5,563	8,359
Canada Credit Facility	—	6,866
Singapore Credit Facility	7,535	6,459
Philippines Credit Facility	6,082	6,384
Sri Lanka Credit Facility	1,875	1,978
Macau Credit Facility	1,766	1,966
Maldives Credit Facility	942	741
Brunei Credit Facility	583	362
Total short-term lines of credit	\$328,487	\$187,461
Total lines of credit	748,138	497,416
Notes payable	5,460	6,014
Term loan	647,500	647,500
Total debt	\$1,401,098	\$1,150,930
Current portion	\$400,715	\$259,796
Long-term debt	1,000,383	891,134
Total debt	\$1,401,098	\$1,150,930

Table of Contents

Lines of Credit

The Corporate Credit Facility is available for general corporate purposes and to fund future strategic acquisitions. As of August 31, 2013, the interest rate on the Corporate Credit Facility was 2.2% and the facility expires on December 7, 2015. Our short-term lines of credit are primarily used to fund settlement. For certain of our lines of credit, the line of credit balance is reduced by the amount of cash we have on deposit in specific accounts with the lender when determining compliance with the credit limit. Accordingly, the line of credit balance may exceed the stated credit limit at any given point in time, when in fact the combined position is less than the credit limit. The total available incremental borrowings at August 31, 2013 was \$330.3 million under our Corporate Credit Facilities. As of August 31, 2013, we had \$660.8 million available to fund settlement under our short-term lines of credit.

During the quarter ended August 31, 2013, the maximum and average borrowings under our lines of credit were \$792.5 million and \$574.9 million, respectively. The weighted-average interest rates on these borrowings were 1.6% and 1.9%, respectively. Our maximum borrowed amount was greater than our average and period end borrowings due to the timing of settlement funding.

Term Loan

On September 28, 2012, we entered into a five-year unsecured \$700.0 million term loan agreement with a syndicate of banks. The term loan expires in September 2017 and bears interest, at our election, at the prime rate or LIBOR, plus a leverage-based margin. As of August 31, 2013, the annual interest rate on the term loan was 2.2%. The term loan has scheduled principal payments of \$17.5 million at the end of each fiscal quarter through maturity. As of August 31, 2013, the outstanding balance of the term loan was \$647.5 million. The August 2013 scheduled principal payment was due on a weekend. As a result the principal payment was made on the following business day, September 3, 2013.

Notes Payable

United Card Services, our subsidiary in the Russian Federation, has notes payable with a total outstanding balance of approximately \$5.5 million at August 31, 2013. These notes have fixed annual interest rates of 8.5% with maturity dates ranging from September 2013 through November 2016.

Compliance with Covenants

There are certain financial and non-financial covenants contained in our various credit facilities and term loans. Our term loan agreements include financial covenants requiring a leverage ratio no greater than 3.25 to 1.00 and a fixed charge coverage ratio no less than 2.50 to 1.00. We complied with these covenants as of and for the three months ended August 31, 2013 and August 31, 2012.

Critical Accounting Estimates

In applying the accounting policies that we use to prepare our consolidated financial statements, we necessarily make accounting estimates that affect our reported amounts of assets, liabilities, revenues, and expenses. Some of these accounting estimates require us to make assumptions about matters that are highly uncertain at the time we make the accounting estimates. We base these assumptions and the resulting estimates on historical information and other factors that we believe to be reasonable under the circumstances, and we evaluate these assumptions and estimates on an ongoing basis; however, in many instances we reasonably could have used different accounting estimates, and in other instances changes in our accounting estimates are reasonably likely to occur from period to period, with the result in each case being a material change in the financial statement presentation of our financial condition or results

of operations. We refer to accounting estimates of this type as “critical accounting estimates.”

Accounting estimates necessarily require subjective determinations about future events and conditions. During the three months ended August 31, 2013, we have not adopted any new critical accounting policies, have not changed any critical accounting policies and have not changed the application of any critical accounting policies from the year ended May 31, 2013. You should read the Critical Accounting Estimates in Item 7 – Management’s Discussion and Analysis of Financial Condition and Results of Operations, Item 1A – Risk Factors included in our Annual Report on Form 10-K for the year ended May 31, 2013 and our summary of significant accounting policies in Note 1 of our notes to the unaudited consolidated financial statements in this Form 10-Q.

Special Cautionary Notice Regarding Forward-Looking Statements

We believe that it is important to communicate our plans and expectations about the future to our shareholders and to the public. Investors are cautioned that some of the statements we use in this report, and in some of the documents we incorporate by reference in this report, contain forward-looking statements and are made pursuant to the “safe-harbor” provisions of the Private Securities Litigation Reform Act of 1995. These forward-looking statements involve a number of risks and uncertainties, are predictive in nature, and depend upon or refer to future events or conditions. You can sometimes identify forward-looking statements by our use of the words “believes,” “anticipates,” “expects,” “intends,” “plans” and similar expressions. Actual events or results might differ materially from those expressed or forecasted in these forward-looking statements.

Although we believe that the plans and expectations reflected in or suggested by our forward-looking statements are reasonable, those statements are based on a number of assumptions, estimates, projections or plans that are inherently subject to significant risks, uncertainties, and contingencies that are subject to change. Accordingly, we cannot guarantee you that our plans and expectations will be achieved. Our actual revenues, revenue growth and margins, other results of operations and shareholder values could differ materially from those anticipated in our forward-looking statements as a result of many known and unknown factors. We advise you to review the risk factors presented in Item 1A – Risk Factors of our Annual Report on Form 10-K for the fiscal year ended May 31, 2013 for information on some of the matters which could adversely affect our business and results of operations.

Our forward-looking statements speak only as of the date they are made and should not be relied upon as representing our plans and expectations as of any subsequent date. While we may elect to update or revise forward-looking statements at some time in the future, we specifically disclaim any obligation to release publicly the results of any revisions to our forward-looking statements. You are advised, however, to consult any further disclosures we make in our reports filed with the Securities and Exchange Commission and in our press releases.

Where to Find More Information

We file annual and quarterly reports, proxy statements and other information with the SEC. You may read and print materials that we have filed with the SEC from their website at www.sec.gov. In addition, certain of our SEC filings, including our annual report on Form 10-K, our quarterly reports on Form 10-Q, our current reports on Form 8-K and amendments thereto can be viewed and printed from the investor information section of our website at www.globalpaymentsinc.com free of charge. Certain materials relating to our corporate governance, including our senior financial officers’ code of ethics, are also available in the investor information section of our website. Copies of our filings and specified exhibits and these corporate governance materials are also available, free of charge, by writing or calling us using the address or phone number on the cover of this Form 10-Q. You may also telephone our investor relations office directly at (770) 829-8234. We are not including the information on our website as a part of, or incorporating it by reference into, this report.

Our SEC filings may also be viewed and copied at the following SEC public reference room, and at the offices of the New York Stock Exchange, where our common stock is quoted under the symbol “GPN.”

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to market risk related to changes in interest rates on our debt and cash investments. Our long-term debt has the option of variable interest rates based on the prime rate or London Interbank Offered Rate plus a margin based on our leverage position. We invest our excess cash in securities that we believe are highly liquid and marketable in the short term. These investments are not held for trading or other speculative purposes. Interest rates on our lines of credit are based on market rates and fluctuate accordingly. Under our current policies, we do not use interest rate derivative instruments to manage exposure to interest rate changes and believe the market risk arising from investment instruments and debt to be minimal.

A substantial amount of our operations are conducted in foreign currencies. Consequently, a portion of our revenues and expenses may be affected by fluctuations in foreign currency exchange rates. We are also affected by fluctuations in exchange rates on assets and liabilities related to our foreign operations. We have not hedged our translation risk on foreign currency exposure.

Table of Contents

Item 4. Controls and Procedures

As of August 31, 2013, management carried out, under the supervision and with the participation of our principal executive officer and principal financial officer, an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934). Based on this evaluation, our principal executive officer and principal financial officer concluded that, as of August 31, 2013, our disclosure controls and procedures were effective in ensuring that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in applicable rules and forms and are designed to ensure that information required to be disclosed in those reports is accumulated and communicated to management, including our principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

There were no changes in our internal control over financial reporting during the quarter ended August 31, 2013, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II - OTHER INFORMATION

Item 1. Legal Proceedings

None.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

(c) Purchases of Equity Securities by the Issuer and Affiliated Purchasers

The shares repurchased in the first quarter of fiscal 2014, the approximate average price paid, including commissions, and the approximate dollar value remaining available for purchase are as follows:

Plan category	Total Number of Shares (or Units) Purchased	Approximate Average Price Paid per Share (or Unit)	Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs
June 1, 2013 - June 30, 2013	1,423,375	\$47.24	1,423,375	
July 1, 2013 - July 31, 2013	1,312,164	\$47.20	1,312,164	
August 1, 2013 - August 31, 2013	315,531	\$48.23	315,531	
Total	3,051,070	\$47.33	3,051,070	\$230,255,515

Note: On July 25, 2013, our Board of Directors approved a share repurchase program that authorized the purchase of up to \$250.0 million of Global Payments' stock. Pursuant to prior authorization and the authorization described above, we repurchased 3,051,070 shares of our common stock at a cost of \$144.4 million, or an average of \$47.33 per share, including commissions, during the three months ended August 31, 2013. We have \$230.3 million remaining under this

authority.
