**Notes to Unaudited Consolidated Financial Statements
For the Three Months Ended March 31, 2006**Note Basis of Presentation

A:

The accompanying unaudited consolidated financial statements of Harbor Bankshares Corporation and subsidiaries (The "Company") have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-QSB. Certain reclassifications have been made to amounts previously reported to conform to the classifications made in 2006. Accordingly, they do not include all the information required for complete financial statements. In the opinion of management, all adjustments and reclassifications considered necessary for a fair presentation have been included. All such adjustments are of a normal renewable nature. Operating results for the three month period ended March 31, 2006, are not necessarily indicative of the results that may be expected for the year ending December 31, 2006. The enclosed unaudited consolidated financial statements should be read in conjunction with the consolidated financial statements and footnotes thereto incorporated by reference in the Company's Annual Report on Form 10-KSB for the year ended December 31, 2005.

EARNINGS PER SHARE

Note C: Basic earnings per share is computed by dividing net income by the weighted average number of common shares outstanding for the period. Basic earnings per share does not include the effect of potentially dilutive transactions or conversions. This computation of diluted earnings per share reflects the potential dilution of earnings per share under the treasury stock method, which could occur if contracts to issue common stock, such as stock options, were exercised and shared in corporate earnings. At March 31, 2006 and 2005, there were no antidilutive options to purchase common shares.

The following table presents a summary of per share data and amounts for the period indicated:

Note EMPLOYEE STOCK-BASED COMPENSATION

D:

Effective on January 1, 2006, the Company adopted Financial Accounting Standards Board Statement No. 123R, "Share-Based Payment" (Statement 123R), which requires an entity to measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award. Previously, the Company accounted for stock-based compensation plans and the employee stock purchase plan in accordance with Accounting Principles Board (APB) Opinion No. 25, "Accounting for Stock Issued to Employees" and related Interpretations and provided the required pro forma disclosures of Financial Accounting Standards Board Statement No. 123, "Accounting for Stock-Based Compensation". The Company elected to adopt the modified prospective-transition method as provided by Statement 123R. Under this transition method, compensation cost recognized during 2006 includes (a) compensation cost for all share-based payments granted prior to, but not yet vested as of January 1, 2006 based on the grant-date fair value estimated in accordance with the original provisions of Statement 123, and (b) compensation cost for all share-based payments granted subsequent to January 1, 2006, based on the grant-date fair value estimated in accordance with the provisions of Statement 123R. The effect of applying Statement 123R was a decrease to net income of \$10 thousand for the quarter ended March 31, 2006, or \$0.01 per basic and diluted share. Results for prior periods have not been restated.

The following table illustrates the effect on net loss and loss per share as if the Company had applied the fair value recognition provisions of Statement 123R to stock-based employee compensation for the period ended March 31, 2005:

The following are the assumptions made in computing the fair value of stock-based awards:

	Three months ended March 31,	
	2006	2005
Average risk-free interest rate	4.36%	5.00%
Dividend yield	1.50%	1.50%
Expected term	10	10
Average expected volatility	20%	20%
Weighted average fair value of granted options	7.44	6.78

Expected volatilities are based on historical volatility of the Company's stock. The expected term of options granted represents the period of time that options granted are expected to be outstanding. The Company uses historical data to estimate option exercise and employee termination within the valuation model. The risk-free rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve in effect at the time of grant.

A summary of stock option activity during the three months ended March 31, 2006 and related information is included in the table below:

	Options	Weighted- Average Exercise Price	Aggregate Intrinsic Value
Outstanding at January 1, 2006	132,741	16.24	\$ 2,159,300
Granted	6,043	25.00	151,075
Exercised	□		
Forfeited	(15,500)	16.19	(250,945)
Outstanding at March 31, 2006	123,284	16.70	2,059,430
Exercisable at March 31, 2006	123,284	16.70	2,059,430
Weighted-average remaining contractual life	7.6		

The weighted average grant date fair value of options granted during the quarter ended March 31, 2006 was \$25.00 per share. All options granted have an exercise price equal to the fair value of the Company's common stock on the date of grant. Exercise prices for options outstanding as of March 31, 2006 ranged from \$15.24 to \$25.00 as follows:

[Back to Index](#)**HARBOR BANKSHARES CORPORATION AND SUBSIDIARIES**

Range of Exercise Prices	Options Outstanding	Weighted Average Exercise Prices of Options Outstanding	Weighted Average Remaining Contractual Life of Options Outstanding
\$15.24 - \$17.35	99,853	\$ 15.45	5.35
\$18.00 - \$21.69	12,497	\$ 20.24	7.65
\$23.04 - \$25.00	10,934	\$ 24.44	9.73
	<hr/> 123,284 <hr/>		

Assuming that no additional share-based payments are granted after March 31, 2006, unamortized stock compensation expense of \$40,614 will be recognized in the statement of operations over a weighted average period of 1.73 years.

I. FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements. This management's discussion and analysis of financial condition and results of operations and other portions of this report include forward-looking statements such as: statements of the Company's goals, intentions, and expectations; estimates of risks and of future costs and benefits; assessments of loan quality, and probable loan losses, liquidity, and interest risk; and statements of the Company's ability to achieve financial and other goals. These forward-looking statements are subject to significant uncertainties because they are based upon: the amount and timing of future changes in interest rates, market behaviors, and other economic conditions; future laws and regulations; and a variety of other matters. Because of these uncertainties, the actual future results may be materially different from the results indicated by these forward-looking statements. In addition, the Company's past growth and performance do not necessarily indicate its future results.

Harbor Bankshares Corporation's earnings for the first quarter of 2006 totaled \$447 thousand, reflecting an increase of \$153 thousand or 52.0 percent when compared to the first quarter of 2005. For the first quarter of 2006, the annualized return on average assets (ROAA) and average stockholders equity (ROAE) were .70 percent and 10.64 percent respectively, compared to .50 percent and 7.29 percent respectively achieved during the first quarter of 2005.

For the first quarter of 2006, net interest income increased by \$113 thousand or 4.2 percent. Interest and fees on loans increased by \$610 thousand or 19.3 percent as a result of the growth in the portfolio and rate increases. Investment income decreased by \$12 thousand or 5.5 percent. Interest on Federal Funds sold increased by \$125 thousand or 480.7 percent. Interest expense increased by \$603 thousand or 81.2 percent. Interest on time deposits increased by \$228 thousand or 62.4 percent. Interest expense on saving accounts increased by \$346 thousand or 131.5 percent. Although, deposits as of March 31, 2006 decreased when compared to December 31, 2005, higher interest rates led to an overall interest expense increase in deposits. The interest expense of borrowed funds for the quarter was \$1 thousand. The interest expense for the junior subordinated debentures increased by \$33 thousand or 34.0 percent due to higher interest rates, since the debentures are tied to floating rates.

For the quarter ended March 31, 2006, the provision for loan losses was \$55 thousand compared to \$120 thousand for the same period of 2005. Charge-offs totaled \$10 thousand reflecting a decrease of \$3 thousand when compared to the \$13 thousand charged-off during the same period for 2005. Recoveries for the period were \$2 thousand, compared to \$38 thousand recovered during the first quarter of 2005.

Future provisions for loan losses will continue to be based upon our assessment of the overall loan portfolio and its underlying collateral, the mix of loans within the portfolio, delinquency trends, economic conditions, current and prospective trends in real estate values, and other relevant factors under our allowance methodology.

Our allowance for loan loss methodology is a loan classification-based system. We base the required allowance on a percentage of the loan balance for each type of loan classification level. Allowance percentages are based on each individual lending program, its loss history and underwriting characteristics including loan value, credit score, debt coverage, collateral, and capacity to service debt.

This analysis is used to validate the loan loss reserve matrix as well as assist in establishing overall lending direction. In Management's opinion, the allowance for loan losses as of March 31, 2006 is adequate. There

[Back to Index](#)**HARBOR BANKSHARES CORPORATION AND SUBSIDIARIES**

were no changes in estimation methods or assumptions that affected the methodology for assessing the appropriateness of the allowance during the period.

Non-performing assets consist of non-accruing loans, loans past due 90 days or more but still accruing, restructured loans, and foreclosed real estate.

The following table shows the non-performing assets as of March 31, 2006 compared to December 31, 2005.

	March 31, 2006	December 31, 2005
	(In Thousands)	
Non-accruing Loans	\$ 200	\$ 558
Past Due 90 days or more	46	18
Restructured loans	□	□
Total non-performing loans	246	576
Foreclosed real estate	□	□
Total non-performing assets	\$ 246	\$ 576
Non-performing loans to total loans	0.12%	0.30%
Non-performing assets to total assets	0.45%	0.22%
Allowance for loan losses to non-performing loans	855.69%	357.50%

Non-interest income decreased by \$117 thousand or 23.8 percent. Service charges on deposit accounts decreased by \$70 thousand or 29.4 percent, mainly related to decreases in the returned check fees charges. Other income decreased by \$45 thousand or 17.7 percent. There was a loss of \$2 thousand on the sale of loans during the first quarter of 2006. Salary and employee benefits at \$1.2 million increased by \$65 thousand when compared to the same period of 2005. Advertising cost of \$89 thousand increased slightly by \$2 thousand. Occupancy expense increased by \$116 thousand or 54.2 percent reflecting the cost associated with the renovation of the Corporation's headquarter building and a de-novo branch facility opened during the last quarter of 2005. Equipment expenses decreased by \$1 thousand or 1.1 percent. Professional cost decreased by \$133 thousand or 70.7 percent mainly due to a decrease in legal cost associated with the ATM shortage settlement. Data processing fees increased by \$13 thousand or 5.0 percent. Included in non-interest expenses for the quarter ending March 31, 2005 was a \$225 thousand expense related to a final settlement of the ATM shortage. On April 8, 2005, the Bank settled this matter in return for the payment of \$575 thousand. All other expenses decreased by \$20 thousand or 4.8 percent.

As of March 31, 2006, total deposits were \$222 million, reflecting a decrease of \$7.9 million when compared to deposits as of December 31, 2005. Non-interest bearing deposits decreased by \$3.5 million or 6.9 percent. Interest bearing transaction accounts decreased by \$2.9 million or 11.5 percent. Savings accounts which included money market accounts decreased by \$1.8 million or 2.0 percent and time deposits increased by \$238 thousand or 0.4 percent. There was \$3.0 million of other short term borrowings outstanding as of the quarter end.

Total loans, increased by \$12.4 million or 6.5 percent. The increase was mainly reflected in the commercial loans and commercial real estate categories. Stockholder's equity decreased by \$189 thousand or 1.1 percent, resulting from an increase of \$43 thousand of unrealized losses on available-for-sale securities, cash dividend paid in the amount of \$343 thousand, retirement of 10,000 shares or \$250 thousand of common stock, offset by earnings of \$447 thousand. Primary and risk based capital were 7.2 percent and 11.14 percent, respectively.

Edgar Filing: HARBOR BANKSHARES CORP - Form 10QSB

As of March 31, 2006, based on borrowing arrangements with the Federal Home Loan Bank there was unused credit availability of \$22.0 million, the Corporation has sufficient liquidity to withstand any unusual demand of funds without the liquidation of its securities.
