PUBLIC COMPANY MANAGEMENT CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - BASIS OF PRESENTATION

The accompanying unaudited interim financial statements of Public Company Management Corporation (ticker "PUBC") have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission ("SEC"), and should be read in conjunction with the audited financial statements and notes thereto filed with the SEC on Form 8-K. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements which would substantially duplicate the disclosure contained in the audited financial statements for fiscal year 2004, as reported in the 8-K, have been omitted.

NOTE 2 - CHANGE IN REVENUE RECOGNITION POLICY

Effective with the second quarter ended March 31, 2005, PUBC elected to modify its policy for revenue recognition for its initial contracts to take companies public. The original policy, which applied to the periods ended September 30, 2004 and December 31, 2003, recognized 20% after the performance of services related to assistance with private placement memorandums (phase I), 40% after the filing and successful SEC clearance of an SEC registration statement (phase II) and 40% after OTCBB exchange trading begins. The new March 2005 second quarter policy split out phase I between the private (founders) money raising round and the initial preparation (but not including the SEC clearance portion) of the registration statement with an estimated 20% of the total effort spent on each, since each of these new four phases is clearly distinct from the others, the clients receive clear and separable benefits from each phase, and any of the phases could be separately done by other consultants if necessary. Phase II is reduced to include only the SEC clearance portion. The estimated total hours required to perform all functions remains the same, so the percentage of revenue to recognize each of Phases Ia, Ib, II and III is adjusted to 20%, 20%, 25% and 35%, based on estimated hours to perform each phase. This modification resulted in an additional \$602,135 in revenue recorded in the quarter ended March 31, 2005 because of the initial founders fundraising round consulting efforts on nine new clients signed during this quarter. See Note 3 for a listing of new and existing clients.

Management feels that the policy revisions properly reflect new information available from their actual experiences with the several recent customer additions, making it more accurate for revenue recognition purposes.

This change has no effect on any periods ended December 31, 2004 or prior.

Item 2. Management's Discussion and Analysis or Plan of Operations.

This Quarterly Report on Form 10-QSB includes "forward-looking" statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act), which can be identified by the use of forward-looking terminology such as, "may," "believe," "expect," "intend," "anticipate," "estimate" or "continue" or the negative thereof or other variations thereon or comparable terminology. Although we believe that the expectations reflected in such forward-looking statements are reasonable, we can give no assurance that such expectations will prove to have been correct. Important factors with respect to any such forward-looking statements include our limited history of operations, availability of additional capital necessary to execute our plan of operations, the volatility of the over-the-counter bulletin board market and the effect of such volatility on the value of the marketable securities we received for services, and changes in the state and federal regulation of securities, as well as the availability of necessary personnel and general economic conditions within the United States.

BACKGROUND

On October 1, 2004, MyOffiz, Inc. ("MyOffiz") entered into an exchange Agreement (the "Agreement") with the certain controlling shareholders of GoPublicToday.com, a Nevada corporation ("GPT"), Pubco White Papers, Inc., a Nevada corporation ("PWP"), Nevada Fund, a Nevada corporation ("NF"), and Public Company Management Services, Inc., a Nevada corporation ("PCMS"). Pursuant to the Agreement, MyOffiz acquired approximately 92.1% of the outstanding shares of GPT, all of the outstanding shares of PWP, approximately 98.0% of the outstanding shares of NF, and all of the outstanding shares of PCMS in exchange for an aggregate of 15,326,650 newly issued treasury shares of MyOffiz's common stock. MyOffiz subsequently obtained 100% of GPT and PWP, changed its fiscal year to end on September 30, and changed its name to Public Company Management Corporation.

The term "we" and "our" refers to Public Company Management Corporation, GPT, PWP, NF, and PCMS unless otherwise stated.

7

We believe that we enable our stockholders to indirectly participate in private equity investments in a way not typically available to most investors due to the private nature of our clients, the size of the financial commitments often required in order to participate in such investments, and/or the experience, skill and time commitment required to identify and take advantage of these opportunities.

We have four subsidiaries, GoPublicToday.com ("GPT"), Pubco White Papers, Inc. ("PWP"), Nevada Fund ("NF"), and Public Company Management Services, Inc. ("PCMS") (collectively our "Subsidiaries"). COMPETITIVE CONDITIONS

We compete with a large number of consulting firms, investment banks, merchant banks, financial advisors, and other companies that offer similar services. Many of our competitors have greater financial and management resources and some have greater market recognition than we do. We compete by providing superior service to our clients through the experience and knowledge of our management personnel, the quality of our analysis and decision-making processes, and flexible fee structures. We believe that we occupy a niche relating to privately-held companies seeking access to the public equity markets that is substantially underserved.

RESULTS OF OPERATIONS FOR THE SIX MONTHS ENDED MARCH 31, 2005 COMPARED TO THE SIX MONTHS ENDED MARCH 31, 2004

Our revenue increased \$849,093, to \$1,120,103 for the six months ended March 31, 2005 from \$271,010 for the six months ended March 31, 2004. This increase was primarily the result of the addition of nine contracts to assist clients during fiscal 2005 and the recognition of deferred revenue under contracts that were previously signed by us in previous periods.

Selling, general and administrative expenses increased \$762,360, to \$1,161,459 for the six months ended March 31, 2005 from \$399,099 for the six months ended March 31, 2004. The increase in selling, general and administrative expenses is primarily the result of the increase in obligations for services in connection with contracts, including a \$92,734 increase in legal fees and expenses and a \$90,980 increase in accounting fees and expenses. In addition, we incurred \$304,139 in expenses relating to preparation of research reports, marketing expenses, travel and other expenses relating to increased sales activities.

Depreciation and amortization expenses increased \$15,039 to \$25,174 for the six months ended March 31, 2005 from \$10,135 for the six months ended March 31, 2004, primarily as a result of increases in capitalized equipment during the interim period.

Other Income increased \$185,973 to income of \$174,540 for the six months ended March 31, 2005 from an expense of \$11,433 for the six months ended March 31, 2004. Other income during the six months ended March 31, 2005 primarily consisted of \$108,287 in realized gains on the sale of assets and \$88,153 in realized gain on sale of securities, which were partially offset by \$26,067 in unrealized loss on securities.

The increase in other income more than offset losses from operations and Net Income increased \$192,421 to income of \$42,764 for the six months ended March 31, 2005 from a net loss of \$149,657 for the six months ended March 31,

2004.

LIQUIDITY AND CAPITAL RESOURCES

During the six months ended March 31, 2005, we consumed cash in the amount of \$116,519; consisting of \$433,355 used in operations and \$159,843 used in financing activities, which were offset in part by \$476,679 cash provided by investing activities. As of March 31, 2005, we had net working capital of \$1,731,281, consisting of \$1,544,381 in cash and marketable securities, \$1,081,035 in accounts and notes receivable (net of allowance for uncollectability) and \$1,025,782 in current liabilities. We do not anticipate any requirement for additional working capital in the next 12 months
